## Contract Renewal Evaluation Form

<b>Date:</b>	7/25/2018
<b>Department:</b>	Public Works
<b>Contract Number:</b>	17ITBC104868AMH
<b>Contract Title:</b>	Fire Hydrants and Parts

**Instructions:**

It is extremely important that every contract be rigidly scrutinized to determine if the contract provides the County with value. Each renewal shall be reviewed and answers provided to determine whether services should be maintained, services/scope reduced, services brought in-house or if the contract should be terminated. Please submit a completed copy of this form with all renewal requests.

**1. Describe what efforts were made to reduce the scope and cost of this contract.**

The scope and cost reduction efforts of this contract are limited since this contract is to renew existing contract for fire hydrants and parts. The fire hydrants and parts are essential for maintenance and repair of the water system. These hydrants and parts are manufactured items which cannot be produced in-house. These items are necessary for replacement of failed and aged units, and are used to effectively maintain the existing Water Distribution System in Fulton County. If this contract was reduced or delayed it could delay the department's response time in responding to make hydrant repairs within a timely manner.

**2. Describe the analysis you made to determine if the current prices for this good or service is reflective of the current market. Check all applicable statements and provide documentation:**

**Internet search of pricing for same product or service:**

	<b>Date of search:</b>	7/25/2018.
	<b>Price found:</b>	Pricing Varies due to the different size, and height of each fire hydrant.
	<b>Different features / Conditions:</b>	5 1/4" Barrel Diameter Hydrant with 4' Bury, 5 1/4" Barrel Diameter Hydrant with a 4' 6" Bury, 5 1/4" Barrel Diameter Hydrant with 5' Bury, 5 1/4" Barrel Diameter Hydrant with 6' Bury.
	<b>Percent difference between internet price and renewal price:</b>	25% - 29% higher

**Explanation / Notes:**

Sample Materials: Items 1, 2, 3, and 4, of the contract pricing sheet, 5 1/4" Barrel Diameter Hydrant with 4' Bury, 5 1/4" Barrel Diameter Hydrant with a 4' 6" Bury, 5 1/4" Barrel Diameter Hydrant with 5' Bury, 5 1/4" Barrel Diameter Hydrant with 6' Bury.

Samples of the internet pricing of material out of the group of materials covered in this contract. Internet's pricing of sampled items are listed below. Private commercial pricing are significantly higher than contracted municipal pricing. The internet price which is 25% - 29% higher because it is quoting

**3. What was the actual expenditure (from the AMS system) spent for this contract for previous fiscal year?**

\$157,451.64

4. Does the renewal option include an adjustment for inflation?  Yes  No

Was it part of the initial contract?  Yes  No

Date of last purchase:	9/24/2017
Price paid:	\$1438.23
Inflation rate:	None
Adjusted price:	\$1438.23
Percent difference between past purchase price and renewal price:	

**Explanation / Notes:**

Current vendor did not opt for CPI increase on Fire Hydrant and Parts

5. Is this a seasonal item or service?  Yes  No

6. Has an analysis been conducted to determine if this service can be performed in-house?  Yes  No

A service contract for Fire Hydrants and Parts is needed by the Public Works Department on a year round basis to complete the process for installing new, and repair existing Fire Hydrants and Parts. This contract is essential and will ensure the availability of fire hydrants and parts that are essential for maintenance and repair of the Water Distribution System. These parts are manufactured items which cannot be produced in-house.

7. What would be the impact on your department if this contract was not approved?

Approval by the Board of Commissioners in the renewal of this contract is critical for the Public Works Department to effectively complete the process of installing new and repairing existing Fire Hydrants within the Water Distribution System. If this contract is not renewed it could delay the department's response time in responding to any failed or aged fire hydrants within the Water Distribution System.
