INCIDENT RESPONSE REVIEW

- ❖ Fulton County: There have been more Covid deaths attributed to OMICRON (430) than Delta (232) last summer, (92% of those deaths were from the unvaccinated population).
- ❖ Cases, % positives & hospitalizations have significantly increased since last BoC, (Cases and % positives are now in the red zone)
- ❖ *Reported case counts are now thought to be underreported by **3x**. Due to milder symptoms **for the vaccinated population** and the difficulty in tracking at home testing.
- ❖ BA.2 variant now accounts for 36% of all new cases while 62% are from a new sub-variant BA.2.12.1 & OMICRON is now 2%
- ❖ BA.2.12.1 is more transmissible than its predecessors
- ❖ Vaccine: 1st Booster now available for 5 and over. 2nd booster for those over 55 and four months since 1st booster
