 - iv. Concerning each SBE, the SBE contacted but rejected as unqualified and the reasons for the bidder's conclusion; and
 - v. Efforts made to assist the SBEs contacted that needed assistance in obtaining bonding or insurance required by the competitor or the county.
- (f) To determine whether a bidder that has failed to meet SBE goals may be awarded the contract, the county will determine whether the efforts the bidder made to obtain SBE participation were "good faith efforts." Efforts that are merely pro forma are not "good faith efforts" to meet the goals. In order to award a contract to a bidder that has failed to meet SBE contract goals, DPCC will determine whether the bidder made good faith efforts to meet the county's SBE goals.
- (g) A bidder making a good faith effort would consider a number of factors in negotiating with subcontractors, including SBE subcontractors, and would take a firm's price and capabilities as well as contract goals into consideration. However, the fact that there may be some additional costs involved in finding and using SBEs is not in itself sufficient reason for a bidder's failure to meet the contract SBE goal, as long as such costs are reasonable. Also, the ability or desire of a prime contractor to perform the work of a contract with its own organization does not relieve the bidder of the responsibility to make good faith efforts.
- (h) Prime contractors are not, however, required to accept higher quotes from SBEs if the price difference is excessive or unreasonable. In determining whether a bidder has made good faith efforts, DPCC will take into account the performance of other bidders in meeting the contract. For example, when the apparent successful bidder fails to meet the contract goal, but others meet it, DPCC may reasonably raise the question of whether, with additional reasonable efforts, the apparent successful bidder could have met the goal. If the apparent

successful bidder fails to meet the goal but meets or exceeds the average SBE participation obtained by other bidders, the county may view this, in conjunction with other factors, as evidence of the apparent successful bidder having made good faith efforts.

- (i) Bidders that fail to meet SBE goals and fail to demonstrate "good faith efforts" shall be deemed non-responsive to the county's SBE requirements and shall not be eligible to be awarded the contract.
- (j) To ensure that all obligations under contracts awarded to SBEs are met, the county shall review the contractor's SBE involvement efforts during the performance of the contract. The contractor shall bring to the attention of the county any situation in which regularly scheduled progress payments are not made to SBE subcontractors.

The county may also request documentation of good faith efforts from contractors after award of a contract with SBE goals. Specifically, in the event that a subcontractor becomes decertified as an SBE after contract award, the subcontractor will be required to notify the prime contractor of decertification and the prime contractor shall either replace the decertified SBE subcontractor by an equivalent SBE certified firm or provide documentation of good faith efforts.

Sec. 102-449.9. Penalties for noncompliance.

A contractor who fails to comply with any portion of this program, and whose failure to comply continues for a period of 30 calendar days after the contractor receives written notice of such noncompliance from the Purchasing Director, shall be subject to any or all of the following penalties:

- (1) Withholding of ten percent of all future payments for the eligible project until DPCC determines that the contractor is in compliance with this program.
- (2) Withholding of all future payments under the eligible project until it is determined that the contractor is in compliance with this program.
- (3) Cancellation of the eligible project.
- (4) Refusal of all future contracts or subcontracts with the county for a minimum of one year and a maximum of five years from the date upon which this penalty is imposed.

Sec. 102-449.10. Outreach to SBEs.

Fulton County considers information dissemination and communication with SBEs as an integral part of the county's SBE program. As a part of its outreach program, DPCC may solicit input from representatives of SBEs, trade associations and community organizations. This input will serve several important functions, including:

- (1) Providing information to identify additional SBE firms;
- (2) Assisting in refining SBE program goals and procedures;
- (3) Disseminating procurement opportunities to SBEs; and
- (4) Providing an independent assessment of the effectiveness of the county's SBE program.

Editor's note(s)—See editor's note to div. 10.

Sec. 102-449.11. Procedures to require that participating SBEs are identified by name, by bidders for contracts.

The county may indicate, in specific solicitations for contracts that are determined to provide opportunities for SBE participation, goals for the use of SBE firms. Solicitations may require all bidders to submit a written assurance of meeting the goals in their bids or proposals. Bids may also include a proposed schedule of SBE participation that lists the names of SBE subcontractors, a description of the work each is to perform and the dollar value of each proposed SBE subcontract. If the SBE participation does not meet the SBE contract goals, the bidders must submit sufficient information and evidence demonstrating that the bidder made good faith efforts to meet the goals on designated contracts.

Bidders may be required to submit this information at a time to be determined by DPCC. Agreements between a bidder and an SBE in which the SBE promises not to provide subcontracting quotations to other bidders shall be prohibited.

Sec. 102-449.12. Prime contracting guidelines.

- (1) As early in the acquisition planning process as practicable, but no later than 30 days before the issuance of a solicitation, a user or procuring agency must coordinate with DPCC when a procurement is valued over \$100,000.00 in order to determine potential measures to be taken to maximize prime participation of SBEs in the procurement.
- (2) If DPCC believes that a proposed procurement will render SBE prime contract participation unlikely, then DPCC may recommend to the procuring agency alternative procurement methods which would increase SBE prime contract participation. Such alternatives may include:

Created: 2022-09-02 08:48:09 [EST]

(Supp. No. 51, Update 1)

-
- (a) Breaking up the procurement into smaller discrete procurements; and
 - (b) Breaking out one or more discrete components.
- (3) Where methods under subsection (2)(b) are not feasible, DPCC will work with the procuring agency to recommend a strategy that preserves SBE prime contract participation to the maximum extent practicable. DPCC will also work to recommend that SBE participation is maximized through teaming arrangements and subcontracting opportunities.
- (4) Nothing in this section shall be interpreted to mandate increased participation of SBEs where such increased participation would significantly affect the ability of a user agency to complete a given project.

Sec. 102-449.13. Severability.

If any provision of this program or any application thereof to any person or circumstance is held invalid, such invalidity shall not affect other provisions or applications of this division which can be given effect without the invalid provisions or applications, and are to this end declared to be severable.

Sec. 102-449.16. Small business reserve program.

The purchasing agent, in consultation with the OCC, may designate certain procurement projects or contracts as available for bid and award only to certified small business enterprises ("SBEs"), as identified and discussed in the small business enterprise program herein (division 10). The small business reserve designation for a particular project is discretionary on the part of the purchasing agent and should be applied only where there is a reasonable expectation that there will be at least three responsible and responsive bids for certified SBEs and that the award will be made at a fair market price/value.

The intention of the small business reserve program is to increase opportunities for SBEs to perform as prime contractors on county projects/contracts, growing capacity and gaining valuable experience. Accordingly, to obtain a small business reserve program project, the bidding SBE must self-perform a significant percentage of the contracted work (a minimum of 50 percent), limiting its ability to subcontract the work.
