- Extend monthly maintenance/technical support

Background:

This document is an amendment to the DHE proposal signed on June 28, 2023.

The new website front end is much simpler to navigate thanks to some new WordPress plugins on the back end. Some of these plugins come with a monthly fee. And some are easier to administer than others. We would like to create full website documentation that would allow anyone familiar with WordPress website administration to be able to maintain the website in our absence.

The new website also has a new logo. We would like to continue creating new branding products such as new letterhead, PowerPoint template, and a background for virtual meetings.

And we would like to improve the website to make it more accessible to all users.

Invoicing Process:

The invoicing process will remain the same. An invoice will be sent on the first business day of every month to include all previous months' expenses. The invoice will include an itemized total along with supporting documentation. The supporting documentation will include a monthly report of actual hours worked and the associated completed tasks, as well as receipts of any one-time expenses such as the theme purchase. The invoice along with supporting documentation will be sent to DHE via email to Data Administrator, currently Vanessa Caceres.
