**EXHIBIT 5 - MOORING TECH DELIVERY PROMISE**

Melissa Burke,

This letter is to formally confirm that Mooring Tech, Inc. will deliver in good faith any outstanding Panasonic TOUGHBOOK laptops and accessories ordered by Fulton County that might not ship until 2022, despite payment potentially being issued in 2021. Global supply chain issues may regrettably create this type of scenario, although it is not certain to occur.

Mooring Tech, Inc. is a long-time, dedicated Panasonic TOUGHBOOK reseller partner with an impeccable reputation in our industry across customers and vendors. We have a Diamond level Panasonic mobility partner designation, indicating we are of the highest size by volume. We also have a Prime designation, meaning we are fully committed to Panasonic's unique and market dominant products. In addition, Mooring Tech, Inc. has provided Fulton County TOUGHBOOK products in the past and has performed well (please see attached invoice for reference).

Please let me know if you have any questions or need any clarification. Thank you for your time.

Sincerely,

Michael Cayes  
Managing Partner
