7 million people with serious mental illnesses booked into jail each year; and; and

8 **WHEREAS**, prevalence rates of serious mental illnesses in jails are three to six  
9 times higher than for the general population; and

10 **WHEREAS**, without the appropriate treatment and services, people with mental  
11 illnesses continue to cycle through the criminal justice system, often resulting in tragic  
12 outcomes for these individuals and their families; and

13 **WHEREAS**, Fulton County and all counties take pride in their responsibility to  
14 protect and enhance the health, welfare and safety of its residents in efficient and cost-  
15 effective ways; and

2 behavioral health systems; 2) Use a validated mental health screening tool on every  
3 person booked into the jail and refer people who screen positive for symptoms of SMI to  
4 a follow-up clinical assessment by a licensed mental health professional; and 3) Record  
5 clinical assessment results and regularly report on this population; and

7 targets: 1) 5% annual reduction in average jail population; 2) 10% annual reduction in  
8 jail bookings; 3) 5% annual reduction in average length of jail stay; 4) 10% annual  
9 increase in post release connections to care; and 5) 5% annual reduction in recidivism;  
10 and
