It is extremely important that every contract be rigidly scrutinized to determine if the contract provides the County with value. Each renewal shall be reviewed and answers provided to determine whether services should be maintained, services/scope reduced, services brought in-house or if the contract should be terminated. Please submit a completed copy of this form with all renewal requests.

1. Describe what efforts were made to reduce the scope and cost of this contract.

The County is looking to procure Metering as a Service (Maas). T). MaaS is a solution where a vendor installs, operates, maintains, and manages a utility's metering system—usually smart meters—and provides continuous data access and system performance as part of an ongoing service agreement. Instead of purchasing the metering equipment outright, the utility pays a recurring fee (monthly or annually) for the service his service would eliminate the need for meter readers.

2. Describe the analysis you made to determine if the current prices for this good or service is reflective of the current market. Check all applicable statements and provide documentation:

☑ Internet search of pricing for same product or service:
Date of search: July 1, 2025
Price found: \$1.69
Different features / Conditions: Per meter cost
Percent difference between internet price and renewal price: 3.49%
