RE: 21ITBC00023A-CJC – Water Meter Vaults

Mr. Ahmad;

After a review of current pricing of the above referenced contract, we have determined the need to request adjustments for the upcoming contract renewal. It is truly a pleasure working with Fulton County Department of Public Works; therefore we have given this careful consideration and have contacted our suppliers to ensure we are receiving the most favorable pricing available, particularly with aluminum access hatches.

When the current contract was bid, we had no idea we would receive the number of increases to our production costs during 2022. In addition to the unprecedented rising cost of concrete, we experienced record level increases to the cost of labor. With regard to utility structures; however, aluminum access hatches have posed a disproportionate increase in cost to other items required for production. From the time we quoted this contract in 2021 through the most recent increase in the 54"x54" hatch we use on your 13x7x7 utility vault, we will have absorbed over 30% in additional cost per piece.

Below pricing lists the current contract price, along with the increase we are requesting. At this time, we are not seeking price adjustments to for all items on the contract.

Item	Current Price	New Price
13x7x9 vault	\$3,164.00	\$3,890.00
Cover for 13x7 vault	\$2,679.00	\$3,225.00
10x6x7 vault	\$2,782.00	\$2,948.00
Cover for 10x6 vault	\$1,862.00	\$2,112.00

Many thanks for your consideration. Please feel free to contact me with any questions or discussion.

Kind regards,

Michael L Tidwell
