

**The Fulton-DeKalb  
Hospital Authority**

Owner of Grady Health System

Presentation to the  
**Fulton County Board of Commissioners**

September 18, 2024

## MISSION

Through collaboration with Grady Health System and innovative strategies, we will improve health outcomes in Fulton and DeKalb counties.

## VISION

The FDHA will be a resource for creative solutions that support the delivery of quality and innovative healthcare and preventive services to ensure **health equity** for all residents of Fulton and Dekalb counties.

## HOW DO WE DEFINE HEALTH EQUITY?

The fair and just opportunity for individuals to obtain their full health potential regardless of their social or economic status. This includes the absence of disparities in health outcomes where no group is disproportionately impacted by poor health.
