SUBJECT: Department Recommendation Letter,
Sourcewell Contract #010720-AXN

The Department of Information Technology recommends the use of Sourcewell Contract #010720-AXN, as a contract vehicle to provide Attorney Advanced Evidence Management Software for the Fulton County Justice Partners (District Attorney, Solicitor General and Public Defender) by the approved servicing partner:

Axon Enterprise, Inc.
17800 N 85th St.
Scottsdale, Arizona 85255

The Justice community's Justice of the Future strategic plan, previously approved, identified the need for a software system and associated storage to improve the inherited state of case and digital evidence management.

The scope of work consists of implementing, training, and supporting Axon's Attorney Advanced Bundle (AAB) Software as a Service. This software will provide Fulton County Justice offices (District Attorney, Solicitor General, and Public Defender) with full and robust access to all services available for attorneys within the Axon network. Inside of Fulton County, there are 17 arresting authorities that are within the Axon network, to include APD. This platform will permit ease of online collaboration between entities.

Specific deliverables within scope include:

Software Components

- Enterprise Professional Evidence.com instances for DA, SG, and PD
- 3rd Party Video Playback / Transcoding
- AI Auto Redaction
