Gilgal, Inc. is a nonprofit providing trauma-informed care, addiction recovery, housing, nutrition, drug education, employment skills, and life skills development for women in crisis in the Metro Atlanta.

Docusign Envelope ID: 8D09E898-D626-4559-BE06-B759FB6E2F01

The services that Gilgal provides ensure that homeless women with substance use disorder achieve the priority of the Fulton County Board of Commissioners: that all people in Fulton County are self-sufficient.

Gilgal operates two residential recovery homes, one aftercare residence, and one Recovery and Workforce Development education building to accomplish these priorities. Each facility is equipped and staffed to aid women in their recovery and transition to independent living. Gilgal women receive individualized assessments, comprehensive case management, and ongoing programming and support services in a clean, safe environment. We also provide them with essentials (food, clothing, housing) and character enrichment to support their personal growth. Gilgal's programs use three specific science-based activities to support the housing, recovery, and workforce development of our clients, Trauma Informed Care, Intensive Case Management, and Individual Placement Support.

All of Gilgal's programs utilize trauma-informed care, a thorough understanding of the neurological, biological, psychological, and social effects of trauma, and the prevalence of these experiences in persons who experience substance abuse. It considers knowledge about trauma, its impact, interpersonal dynamics, and paths to recovery and incorporates this knowledge into all aspects of service delivery. Additionally, trauma-informed care is a person-centered response focused on improving individuals all around wellness rather than simply curing mental illness.

Intensive Case Management (ICM) is the model of Case Management utilized at Gilgal. Research has shown this model to be useful for individuals with long-term substance abuse. (Vanderplasschen, Wolf, Rapp, Broekaert) It provides our clients' rehabilitation and social support needs utilizing our collaborative partners in a team approach. Gilgal maintains a low ratio of clients per case manager, which allows in-depth case management and the ability to address the multiple needs of each client individually.

Gilgal's workforce training focuses on the model of Individualized Placement Support:

Individualized placement support (IPS) is the standard evidence-based model of supported employment for helping individuals with a mental illness find and keep a job in the competitive labor market. IPS is based on the theory that the best way to foster self-sufficiency for people with mental illness is to help them gain rapid entry into the competitive labor market while providing supportive services, such as one-on-one job coaching, on-the-job training and credentialing, mental health treatment, and ongoing reassessment to identify and address emerging barriers. The IPS model has been tested using quasi-experimental methods, randomized controlled trials, and numerous other methods, and these studies have demonstrated IPS' strong outcomes for placement, retention, and cost-effectiveness. The model also yields strong evidence for effectiveness in serving individuals with

Docusign Envelope ID: 8D09E898-D626-4559-BE06-B759FB6E2F01

substance use issues experiencing homelessness. Research shows that IPS participants across a range of types and severity of mental health issues have similar employment outcomes.

The Recovery and Workforce Development Program has successfully implemented these activities. From 2011 to 2022, 33% of the women who entered the Phase 1: Life Exchange Center completed it and did not return to substance abuse. Also, during the same time, 80% of the women who entered Phase II: Homeward Bound graduated from the program, having accomplished one year of sobriety and employment.

The RWDP operates in three phases:

Phase 1: Healing: During the healing phase, women who are battling drug/alcohol addiction stay in The Life Exchange Center. This phase is typically four to six months and is highly structured. The residents receive individual assessments and case management plans. In addition to attending daily classes, they participate in group and individual counseling, character study, and personal reflection. The women also have access to on-site health services. The goal of the healing phase is to provide trauma-informed care that addresses the trauma that led them to drug and alcohol addiction and helps them transform their life.

Phase 2: Back to Work: Women who complete the first phase move to our second residential home and enter our Homeward Bound program. Clients begin to look for work and continue counseling as they prepare to enter the workforce. This phase is designed to mimic independent living. Women acquire job readiness training, employment skills, explore career options, and attain meaningful employment. Gilgal has provided workforce training for residents hired by the Coca-Cola Company, UPS, insurance agencies, healthcare organizations, and banking institutions. Retail and Food Service companies have also partnered as employer partners with Gilgal. In 2020, Gilgal created a computer lab for clients to participate and attain virtual employment throughout the pandemic. Since 2018, Gilgal has held job fairs. This job fair was designed to allow our clients to practice their interview skills with H/R representatives. Four women received job offers on the spot. This success has led to a biannual job fair and will continue in 2024.

Phase 3: Aftercare for Gilgal Graduates: Recovery does not end when a resident leaves Gilgal. Clients are more likely to be successful in preventing a relapse if they are involved in recovery activities on a long-term basis. Gilgal provides weekly aftercare for graduates through a forum where clients explore successes, obstacles, and daily issues that confront them. They also receive support and feedback from the group facilitator and participants and community referrals for outside resources. In 2024, the Alumnae will be invited to job fairs if they are interested in finding new employment. They also can mentor women currently in the residential program and inspire them. Over 80% of the women who have completed the program since 2018 have not relapsed.

The Gilgal Recovery and Workforce Development Program addresses the following four Health and Human Services Program KPIs:

1. Percentage of residents engaged in substance abuse treatment: Gilgal residents engage in healthier behavior through avoiding drugs and alcohol, daily exercise, and meditation. Gilgal provides case management and substance abuse treatment to all clients on campus.
2. Number of people who receive permanent supportive housing and support services: Graduates of Gilgal receive permanent supportive housing support services through the Phase 3 of the program.
3. Number of residents who have access to home-based and community-based services for seniors and people with disabilities: Gilgal supports the most vulnerable residents in Fulton County: homeless women who have Substance Use Disorder (SUD). Gilgal residents receive health services through Gilgal's partnerships with Grady and Mercy Care.
4. Percentage change in the homeless population year to year: Gilgal specifically targets homeless women in Fulton County to provide both health and workforce services so that they may break their Substance Use Disorder and find meaningful employment before graduation.

The Recovery and Workforce Development Program at Gilgal will meet four CSP funding priorities in the Homelessness category.

1. Permanent Supportive Housing: After completing the Gilgal program, the residents are provided with placement services in permanent supportive housing. Once a woman is ready to leave Gilgal and reunite with their family, the Gilgal Case Manager works with each woman to find affordable, accessible, permanent, supportive housing.
2. Transitional Housing: Gilgal offers transitional housing for homeless women with substance abuse disorder as they participate in the program.
3. Rapid Rehousing: Gilgal provides rapid re-housing funds to women once they complete the Gilgal program. These funds help set up their new homes and provide a fresh start.

Collaboration:

Collaboration is critical to Gilgal and the women we serve. Partnerships with other nonprofits and businesses help us provide exceptional services to our clients and create a collective impact to ensure they succeed to the best of their ability. These important collaborations are a cost-effective way to lower expenses and improve the services our residents receive. Gilgal has selected only the best collaborative partners for the women of Gilgal.

1. Goodwill of North Georgia provides job training and employment services to people having trouble finding work, wanting to change careers, or starting their own business. Goodwill partners with Gilgal by allowing employees to volunteer to provide workforce training programs for Gilgal residents.
2. Grady Healthcare System - Since 1892, Grady has provided quality health care for the metro Atlanta area regardless of a patient's ability to pay. Gilgal has partnered with Grady since our inception in 2005.
3. Mercy Care: Gilgal also partners with Mercy Care to provide health care services to our residents. With its medical staff of nearly 30 doctors and nurses on staff, along with some 200 volunteers, Gilgal utilizes its clinic at the City of Refuge. Gilgal residents receive both primary care and dental care from Mercy Care. Vision, dental, and hearing screenings are also provided at Mercy Care. Potential employees need to have correct eyesight when job-seeking and finding the best employment available.
4. Georgia State School of Nursing - Gilgal has a partnership with the Georgia State School of Nursing. The school offers high-quality programs in nursing with approximately 500 students in the baccalaureate, master, and Ph.D. programs taught by a faculty of approximately 40 full-time and 20 part-time nurse educators. These individuals are highly skilled with a variety of clinical backgrounds, research initiatives, and service activities. Gilgal partners with Georgia State to be a service activity. Under the direction of faculty members, the nursing students come to Gilgal and provide individual health assessments for each new resident. They help women develop a plan to improve their health and well-being and provide health education that helps each woman attain their health goals.
5. I Care Atlanta helps stabilize lives and prevents homelessness by feeding the food insecure in Metro Atlanta through the distribution of groceries, cooked foods, and links to resources that will result in self-sufficiency. I Care Atlanta envisions a community where individuals can live their dreams and not their hunger. I Care Atlanta partners with Gilgal by providing nutritious food and grocery items to Gilgal. The food they provide helps Gilgal lower the cost of food that provides nutrition and health for our residents.
6. Crossroads Community Ministries - Crossroads helps people who are homeless in Atlanta, offering constructive programs designed to give people the tools they need to get off the streets. Many women come to Gilgal, and they do not have a driver's license official identification, or a social security card. These items are essential to finding a job. Crossroads Community Ministries help our clients who have lost their identification, such

The court is committed to returning participants to the community as model citizens. The Fulton County Accountability Court takes in those people who have been marginalized by the criminal justice system, restores self-worth, changes the thought process, and provides a second opportunity to lead a productive life through a court-supervised alternative treatment program. Gilgal partners with the Fulton County Mental Health Court and receives two to three referrals yearly. The court utilizes Gilgal to avoid incarceration for the women they assign to Gilgal. The Gilgal staff accompanies our clients to each court appointment helps them navigate the judicial system, and ensures that our clients follow all court orders, instructions, and mandates.
10. Morehouse College School of Business - Students in their Senior year come to Gilgal and help mentor the residents. The ratio is one student to two residents. They help them write their resumes, develop interview skills, and give them encouragement and inspiration to do their best in their interviews.

Gilgal, Inc. agrees to track and report program performance to the Fulton County Department of Community Development.

County Defined Performance Measure(s):

Children and Youth: Not Applicable

Disabilities: Not Applicable

Economic Stability: Number of individuals with improved access to economic opportunities, programs/resources focused on education...

Health and Wellness: Not Applicable

Homelessness: Number of individuals placed in Permanent Supportive Housing,Number of individuals placed in Transitional Housing

Senior Services: Not Applicable

The following program measures/ Key Performance Indicators ("KPI's") will be utilized to track and report program outcomes for the Fulton County residents supported with CSP funding, during the funding period 01/01/2024 through 12/31/2024:

Program evaluation and outcome measurement are critical to Gilgal's staff and board. The Executive Director reports on the outcome measures at each board meeting. The specific KPIs tracked include a number of individuals assisted through rapid rehousing, the number of individuals placed in permanent supportive housing, and the number of individuals whose barriers to self-sufficiency are eliminated/reduced. Gilgal also tracks client performance measures to ensure each client is receiving the best treatment possible. The following program activities are provided during the 12-month stay at Gilgal.

Docusign Envelope ID: 8D09E898-D626-4559-BE06-B759FB6E2F01

These activities produce milestones that move the residents to the next phase of the program. The performance measures help evaluate the programmatic activities and milestones.

Program Activities, Milestones, and Timeline

Assessment Period Activity List 0- 1 Months (30 Days) = Milestone 1:

The first month at Gilgal marks the first milestone our clients achieve. Clients complete their intake interview, ensuring only women who fit the eligibility requirements are accepted into the Gilgal Recovery and Workforce Development program.

After the initial assessment, treatment begins immediately. Residential managers ensure all basic needs are met by providing room assignments, meals, explanations of rules, introductions to current residents and staff, and assigning chores. The Case Manager holds the Initial Assessment meeting with the client, helps them develop the Individualized Service Plan, and records it in their file. The plan is reviewed by the Program Director. As a part of the Initial Assessment Meeting, the Case Manager helps the client complete the barriers to Employment and Self-Sufficiency assessment and records it in the Client File. The Case Manager ensures all medical and wellness needs are met by scheduling a medical assessment through our partnership with Mercy Care and Georgia State Nursing School. Georgia State also offers healthy meal education classes to the clients. Next, the Case Manager schedules mental health treatment and Life Skills/Addiction and Recovery classes for the client and provides for transportation to the appointments. A 30-Day Evaluation is held with the client, Case Manager, Program Director, and Executive Director to conclude the first milestone period if needed. In 2024, Gilgal will complete Gilgal Village, a Modular Housing Unit. Gilgal Village will provide a safe place for homeless women entering the RWDP through the Assessment Period. The suite will eliminate the 20% loss of intake calls that Gilgal receives from women seeking help but then fail to detox for 72 hours. Providing detox onsite will remove this barrier to enter Gilgal. The suite will also promote the health of our residents by quarantining new residents and providing a restful place to make sure they do not have the flu, COVID, or tuberculosis.

Life Exchange Center Activity List 2 to 6 Months = Milestone 2: Clients focused on recovery in preparation for Workforce Development

Clients begin to focus on their second milestone achievement by focusing on their recovery from addiction before entering the Workforce Development Program. Clients continue their recovery classes and assessments, take life skills classes (Health education, cooking, character development, etc.), complete community service volunteer activities at least every three months, and begin addressing barriers to employment by applying for state identification cards and

Docusign Envelope ID: 8D09E898-D626-4559-BE06-B759FB6E2F01

social security cards. Other classes include resume-building classes and financial literacy classes. Clients also participate in Friends and Family Day every other month. These days promote family reunification and help to reestablish broken bonds between parents, grandparents, siblings, and children. Clients receive a Life Coach/Mentor. To complete this milestone, the client writes their whole Life Story and identifies their triggers for substance use. This is a tender time for clients, and trauma-informed care and therapy are provided to clients by staff, clinical professionals, and volunteers.

Work Force Development Activity List 6 months to 12 Months = Milestone 3: Clients accepted into the Workforce Development program

Once clients complete the second milestone, they are accepted into the workforce development program. To begin the third milestone, The Job Developer helps clients complete the Aptitude Assessment and Testing and provides job counseling meetings. Clients continue their life skills classes, recovery classes, and assessments. Clients then participate in at least one job interview. After the interviews, the Job Developer helps the client review their employment opportunities. The Job Developer records the client's choice of employment in the client file.

Once employed, the client participates in monthly reviews and discussions of employment. Financial planning, savings and credit history classes are offered to ensure clients have the best opportunity to maintain their self-sufficiency. After two months of meaningful employment, clients review and select permanent housing options and transportation options, which are recorded in their client files. Before leaving the program, the client completes and presents the Personal Relapse Prevention Plan to staff and other clients. The plan details nine big problems (domains) where most people in recovery find they have work to do: My Body, My Exposure to Addictive Substances; My Activities, My People, My Feelings, My Lifestyle, My History, My Culture, My Treatment and Support Groups. Finally, the client has an exit interview with the Program Director, Case Manager, and Executive Director. Once the client completes the program, a celebration is held with all clients, former clients, staff, and family members.

Aftercare Alumni Program = Milestone 4: Clients leave Gilgal with stable housing, sobriety, and a job. Recovery does not end when a resident leaves Gilgal. Clients are more likely to be successful in preventing a relapse if they are involved in recovery activities on a long-term basis. Recovery classes are offered monthly to former clients as they live in affordable, permanent housing while maintaining employment to meet all needs. These classes focus on the stresses of life outside of the program and the best way to cope with the outside world. This leads to self-sufficient and sober clients for years to come. Clients are reunified with family members and, if possible, remain in healthy relationships with family members. Gilgal also provides off-campus residences that alumni can rent to build a credit history when they first graduate, providing permanent supportive housing.

In 2024, the Gilgal Recovery and Workforce Development Program will achieve the following performance measure outcomes. These performance measure outcomes will be reported during the contract period.

Once a resident leaves Gilgal, the file retains a record of their exit interview. The program director reviews each resident's data and prepares and tracks aggregate monthly reports in Excel. The information in each file is collected by the Program Director, Case Manager, Residential Manager, and Job Developer. The program director is responsible for developing the monthly reports tracking that information in Excel and sending the reports to the Executive Director and administration staff. The program director also coordinates with ClientTrack, the standard HMIS system.

2. For "loss" other than total theft of a covered "auto" under Comprehensive or Specified Causes of Loss Coverage, or for any "loss" under Collision Coverage to a covered "auto", we will only pay for those temporary transportation expenses incurred during the policy period beginning 24 hours after the "loss" and ending, regardless of the policy's expiration, with the lesser of the number of days reasonably required to repair or replace the covered "auto" or 30 days.

COMMERCIAL UMBRELLA LIABILITY COVERAGE

Various provisions in this Coverage Part restrict coverage. Read the entire Coverage Part carefully to determine rights, duties and what is and is not covered.

Throughout this Coverage Part the words "you" and "your" refer to the Named Insured shown in the Declarations and any other person or organization qualifying as a Named Insured under this Coverage Part. The words "we", "us" and "our" refer to the Company providing this insurance.

The word "insured" means any person or organization qualifying as such under **SECTION II — WHO IS AN INSURED.**

Other words and phrases that appear in quotation marks have special meaning — refer to **SECTION V — DEFINITIONS.**

In return for the payment of the premium, and subject to all terms and conditions of this Coverage Part, we agree with you to provide the insurance as stated in this Coverage Part.

SECTION I — COVERAGES

A. Insuring Agreement

1. We will pay on behalf of the insured the "ultimate net loss" in excess of the "retained limit" that the insured becomes legally obligated to pay as damages because of "bodily injury", "property damage" or "personal and advertising injury" to which this insurance applies. We will have the right and duty to defend the insured against any "suit" seeking those damages when the "underlying insurance" does not provide coverage or the limits of "underlying insurance" have been exhausted. When we have no duty to defend, we will have the right to defend, or to participate in the defense of, the insured against any other "suit" seeking damages to which this insurance may apply. However, we will have no duty to defend the insured against any "suit" seeking damages for "bodily injury", "property damage" or "personal and advertising injury" to which this insurance does not apply. At our discretion, we may investigate any "occurrence" or offense that may involve this insurance and settle any resultant claim or "suit", for which we have the duty to defend. But:

   a. The amount we will pay for the "ultimate net loss" is limited as described in **Section III — Limits of Insurance;** and

   b. Our right and duty to defend ends when we have used up the applicable limit of insurance in the payment of judgements or settlements.

   No other obligation or liability to pay sums or perform acts or services is covered unless explicitly provided for under **Section I — Coverages, C. Supplementary Payments.**

2. This insurance applies to "bodily injury", or "property damage" only if:

   a. The "bodily injury" or "property damage" is caused by an "occurrence" that takes place in the "coverage territory";

   b. The "bodily injury" or "property damage" occurs during the policy period; and

   c. Prior to the policy period, no insured listed under Paragraph **A.** of **Section II — Who Is An Insured** and no "employee" authorized by you to give or receive notice of an "occurrence" or claim knew that the "bodily injury" or "property damage" had occurred, in whole or in part. If such a listed insured or authorized "employee" knew, prior to the policy period, that the "bodily injury" or "property damage" occurred, then any continuation, change or resumption of such "bodily injury" or "property damage" during or after the policy period will be deemed to have been known prior to the policy period.

4. "Bodily injury" or "property damage" will be deemed to have been known to have occurred at the earliest time when any insured listed under Paragraph **A.** of **Section II — Who Is An Insured** or any "employee" authorized by you to give or receive notice of an "occurrence" or claim:

   a. Reports all, or any part of the "bodily injury" or "property damage" to us or any other insurer;

   b. Receives a written or verbal demand or claim for damages because of the "bodily injury" or "property damage"; or

   c. Becomes aware by any other means that "bodily injury" or "property damage" has occurred or has begun to occur.

5. Damages because of that "bodily injury" include damages claimed by any person or organization for care, loss of services or death resulting at any time from the "bodily injury".

Docusign Envelope ID: 8D09E898-D626-4559-BE06-B759FB6E2F01

D. The Aggregate Limit is the most we will pay for all "ultimate net loss" because of "bodily injury", "property damage" and "personal and advertising injury" regardless of the number of covered "occurrences" during each annual period of this policy, except:

1. The aggregate limit shall apply separately to and in excess of each aggregate limit of the "underlying policy".

2. The aggregate limit does not apply to "auto" liability arising out of the ownership, maintenance, use or entrustment of any "covered auto". Use includes operation, "loading or unloading".

E. The Aggregate limit as described in D. above, applies separately to each consecutive annual period and to any remaining period of less than 12 months. The policy period begins with the effective date shown on the Declarations. If the policy period is extended after issuance for an additional period of less than 12 months, the additional period will be part of the last preceding period.

F. If the applicable limit of insurance of the "underlying policy" is less than stated in the Declarations because the aggregate limit of insurance of the "underlying policy" has been reduced or exhausted, we will, subject to the Limits of Insurance and all other provisions of this policy:

1. Pay in excess of the reduced underlying limit of insurance; or

2. Continue in force as "underlying insurance" until this policy expires or until our aggregate limit is exhausted;

provided such reduction or exhaustion is solely the result of damages paid because of an "occurrence" during this policy period.

G. If the applicable limit of insurance of an "underlying policy" is a "sub-limit", this insurance will not apply, whether or not such "sub-limit" has been reduced by any payments under the "underlying policy".

H. If the applicable limit of insurance of the "underlying policy" is more than that stated in the Declarations this insurance becomes excess of such higher limits of insurance.

SECTION IV — CONDITIONS

A. Appeals

If the insured or the insured's "underlying insurer" elects not to appeal a judgment in excess of the underlying or "retained limit", we may elect to make such appeal at our cost and expense. We shall be liable, in addition to the applicable limit of insurance, for any taxable costs, payments and incidental interest. In no event shall our liability for "ultimate net loss" exceed the amount applicable to any one "occurrence" including all expenses of the appeal.

B. Bankruptcy

Your bankruptcy, insolvency or receivership, or, that of your estate, will not relieve us of our obligations under this Coverage Part.

In the event of bankruptcy, insolvency or receivership of any "underlying insurer", this policy will not apply as a replacement of the bankrupt or insolvent insurer. Our Limits of Insurance will only apply in excess of the minimum required limits of "Underlying Insurance" stated in this Coverage Part.

C. Duties In The Event Of Occurrence, Claim Or Suit

4. No insureds will, except at that insured's own cost, voluntarily make a payment, assume any obligation, or incur any expense other than for first aid, without our consent.

D. Expanded Coverage Territory

1. If a claim or "suit" is brought in a part of the "coverage territory" that is outside the United States of America (including its territories and possessions), Puerto Rico, or Canada, and we are prevented by law, or otherwise, from defending the insured, the insured will initiate a defense of the claim or "suit". We will reimburse the insured, under Supplementary Payments, for any approved expenses incurred for the defense of such "suit" or claim seeking damages to which this insurance applies, that we would have been paid had we been able to exercise our right and duty to defend.

   If the insured becomes legally obligated to pay sums because of damages to which this insurance applies in a part of the "coverage territory" that is outside the United States of America (including its territories and possessions), Puerto Rico or Canada, and we are prevented by law, or otherwise, from paying such claims on the insured's behalf, we will reimburse the insured for such sums.

2. All payments or reimbursements we make for damages because of judgements or settlements will be made in U.S. currency at the prevailing exchange rate at the time the insured became legally obligated to pay such sums. All payments or reimbursements we make for expenses under Supplementary Payments will be made in U.S. currency at the prevailing exchange rate at the time the expenses were incurred.

3. Any disputes between you and us as to whether there is coverage under this policy must be filed in the courts of the United States of America (including its territories and possessions), Canada or Puerto Rico.

4. The insured must fully maintain any coverage required by law, regulation or other governmental authority during the policy period, except for reduction of the aggregate limits due to payments of claims, judgements or settlements.

   Failure to maintain such coverage required by law, regulation or other governmental authority will not invalidate this insurance. However, this insurance will apply as if the required coverage by law, regulation or other governmental authority was in full effect.

E. Legal Action Against Us

No person or organization has a right under this Coverage Part:

1. To join us as a party or otherwise bring us into a "suit" asking for damages from an insured; or

2. To sue us under this Coverage Part unless all of its terms have been fully complied with.

   A person or organization may sue us to recover on an agreed settlement or on a final judgment against an insured; but we will not be liable for damages that are not payable under the terms of this Coverage Part or that are in excess of the applicable limit of insurance. An agreed settlement means a settlement and release of liability signed by us, the insured and the claimant or the claimant's legal representative.

Docusign Envelope ID: 8D09E898-D626-4559-BE06-B759FB6E2F01

F. Loss Payable

Liability under this Coverage Part shall not apply unless and until the insured or insured's "underlying insurer" has become obligated to pay the "retained limit". Such obligation by the insured to pay part of the "ultimate net loss" shall have been previously determined by a final settlement or judgement after an actual trial or written agreement between the insured, claimant and us.

G. Maintenance Of Underlying Insurance

Each policy of "underlying insurance" must remain in force for the full term of this policy except:

1. For changes agreed to by us in writing;
2. For any reduction of the aggregate limits of such "underlying insurance" because of payment of claims, settlements or judgements arising out of occurrences during the policy period.

If you do not maintain "Underlying Insurance", we will pay only those damages or injuries that would have been paid had "Underlying Insurance" been maintained.

H. Other Insurance

1. This insurance is excess over, and shall not contribute with any other insurance, whether primary, excess, contingent or on any other basis. This condition will not apply to insurance specifically written as excess over this Coverage Part.

   When this insurance is excess, we will have no duty to defend the insured against any "suit" if any other insurer has the duty to defend the insured against that "suit". If no other insurer defends, we will undertake to do so, but we will be entitled to the insured's rights against all those other insurers.

2. When this insurance is excess over other insurance, we will pay only our share of the "ultimate net loss" that exceeds the sum of:

   a. The total amount that all such other insurance would pay for the loss in the absence of this insurance; and

   b. The total of all deductible and self-insured amounts under all that other insurance.

I. Premium Audit

1. We will compute all premiums for this Coverage Part in accordance with our rules and rates.
2. Premium shown in this Coverage Part as advance premium is a deposit premium only. At the close of each audit period we will compute the earned premium for that period and send notice to the first Named Insured. The due date for audit and retrospective premiums is the date shown as the due date on the bill. If the sum of the advance and audit premiums paid for the policy period is greater than the earned premium, we will return the excess to the first Named Insured.
3. The first Named Insured must keep records of the information we need for premium computation, and send us copies at such times as we may request.

J. Premiums

The First Named Insured shown in the Declarations will be:

1. Responsible for the payment of all premiums; and
2. Will be the payee for any return premiums we pay.

The premium is fully earned if the Limits of Insurance are used up prior to the end of the policy period.

K. Representations or Fraud

By accepting this policy, you agree that:

1. The statements in the application and Declarations, and any subsequent notice relating to "underlying insurance", are accurate and complete;
2. Those statements are based upon representations you made to us; and
3. We have issued this policy in reliance upon your representations.
4. This policy is void in any case of fraud by you as it relates to this policy or any claim under this policy.

Docusign Envelope ID: 8D09E898-D626-4559-BE06-B759FB6E2F01

L. Separation of Insureds

Except with respect to the Limits of Insurance, and any rights or duties specifically assigned in this Coverage Part to the first Named Insured, this insurance applies as if each Named Insured were the only Named Insured, and separately to each insured against whom claim is made or "suit" is brought.

M. Transfer of Rights of Recovery Against Others To Us

If the insured has rights to recover all or part of any payment we have made under this Coverage Part, those rights are transferred to us. The insured must do nothing after loss to impair them. At our request the insured will bring "suit" or transfer those rights to us and help us enforce them. Any recovery will be applied in the following order:

1. To any person or insurer who may have paid for liability in excess of our limit of liability;
2. To us up to the amount we paid under this policy; and, then
3. To any person or insurer to the extent that the person or insurer is entitled to claim the remaining amount, if any.

Reasonable expenses incurred in the exercise of rights of recovery will be shared among all interests on a pro rata basis according to their respective losses.

N. Underlying Insurance

The limits of "underlying insurance" shall apply, no matter what defense the "underlying insurer" may use because of the insured's failure to comply with any condition of the "underlying insurance" following an "occurrence". You must inform us promptly of any changes in "underlying insurance". We may make adjustments to our premium charges for this policy from the date of the changes to the "underlying insurance". We must also be notified within 30 days if any coverage is canceled or aggregate limit exhausted.

O. When We Do Not Renew

If we decide not to renew this Coverage, we will mail or deliver to the first Named Insured shown in the Declarations, written notice of the nonrenewal not less than 30 days before the expiration date.

If notice is mailed, proof of mailing will be sufficient proof of notice.

All damages arising from continuous or repeated exposure to substantially the same general conditions shall be deemed one "Occurrence".

    b. An offense that results in "personal and advertising injury". This does not include an offense committed with actual malice. All damages that arise from the same general conditions shall be deemed to arise from one "Occurrence". All damages involving the same injurious act, regardless of the frequency, repetition or the number or kind of media used, or the number of claimants shall be deemed to arise from one "occurrence".

13. "Personal and advertising injury" means injury, including consequential "bodily injury" arising out of one more of the following offenses:

    a. False arrest, detention or imprisonment;

    b. Malicious prosecution;

    c. Wrongful eviction from, wrongful entry into or invasion of the right of private occupancy of a room, dwelling or premises that a person occupies; committed by or on behalf of its owner, landlord or lessor;

    g. Infringing upon another's copyright, trade dress or slogan in your "advertisement".

    h. Discrimination because of race, religion, age, sex or physical disability.

    This does not apply:

    (1) To offenses committed by or at the direction of the insured; or

    (2) If insurance for such offenses is prohibited by law;

    committed during the policy period.

14. "Pollutants" mean any solid, liquid, gaseous, or thermal irritant or contaminant, including smoke, vapor, soot, fumes, acids, alkalis, chemicals and waste. Waste includes materials to be recycled, reconditioned or reclaimed.

15. "Pollution hazard" means an actual exposure or threat of exposure to the corrosive, toxic or other harmful properties of any "pollutants" arising out of the discharge, dispersal, seepage, migration, release or escape of such "pollutants".

    "Pollution hazard" includes losses, costs or expenses arising out of any obligation, order, direction or request of or upon any insured or others, including but not limited to any governmental obligation, order, direction or request to test for, monitor, clean up, remove, contain, treat, detoxify, neutralize, in any way respond to, or assess the effects of "pollutants".

16. "Products-completed operations hazard"

    a. Includes all "bodily injury" and "property damage" occurring away from premises you own or rent and arising out of "your product" or "your work" except:

    (1) Products that are still in your physical possession; or

    (2) Work that has not yet been completed or abandoned.

    b. "Your work" will be deemed completed at the earliest of the following times:

    (1) When all the work called for in your contract has been completed;

    (2) When all of the work to be done at the site has been completed if your contract calls for work at more than one site;

    (3) When that part of the work done at a job site has been put to its intended use by any person or organization other than another contractor or subcontractor working on the same project.

c. Does not include "bodily injury" or "property damage" arising out of:

(1) The transportation of property, unless the injury or damage arises out of a condition in or on a vehicle not owned or operated by you, and that condition was created by the "loading or unloading" of it;

(2) The existence of tools, uninstalled equipment or abandoned or unused materials;

(3) Products or operations for which "underlying insurance" classifications or manual rules include products or completed operations coverage.

b. Loss of use of tangible property that is not physically injured. All such loss of use shall be deemed to occur at the time of the "occurrence" that caused it.

For the purposes of this insurance, electronic data is not tangible property.

The "self-retained limit" does not apply to "occurrences" or offenses which would have been covered by "underlying insurance" but for the exhaustion of applicable limits. These provisions do not apply to any "sub-limit" which has been reduced or exhausted.

20. "Sub-limit" means a limit of insurance of the "underlying policy" which:

a. As originally granted at the effective date of the "underlying policy", or

b. At its original addition by endorsement to that "underlying policy" is an amount less than that stated in the Declarations of this policy.

21. "Suit" means a civil proceeding in which damages because of "bodily injury", "property damage" or "personal and advertising injury" to which this insurance applies are alleged. "Suit" includes:

a. An arbitration proceeding in which such damages are claimed and to which the insured must submit or does submit with our consent; or

b. Any other alternative dispute resolution proceeding in which such damages are claimed and to which the insured submits with our consent or the "underlying insurer's" consent.

22. "Temporary worker" means a person who is furnished to you to substitute for a permanent "employee" on leave or to meet seasonal or short-term workload conditions.

23. "Ultimate net loss" means the total of the following sums for each "occurrence" to which this policy applies:

a. All sums for which the insured becomes legally obligated to pay as damages, either by reason of adjudication or settlement or any arbitration or other alternate dispute method entered into with our consent or the "underlying insurer's" consent.. This includes deduction for recoveries and salvages paid or to be paid.

b. All expenses, other than defense settlement expenses provided in **Section I — Coverages, C. Supplementary Payments** incurred by or on behalf of the insured in the investigation, negotiation, settlement and defense of any "suit" seeking damages under this policy. However, the salaries of the insured's regular employees are excluded.

24. "Underlying insurance" means any policies of insurance listed in the Declarations under the section titled Schedule of Underlying Insurance and Limits.

25. "Underlying insurer" means any insurer who provides any policy of insurance listed in the schedule of "underlying insurance".

26. "Underlying policy" means a policy providing "Underlying insurance" or any other applicable insurance.

27. "Volunteer worker" means a person who is not your "employee", and who donates his or her work and acts at the direction of and within the scope of duties determined by you, and is not paid a fee, salary or other compensation by you or anyone else for their work performed for you.

28. "Your product":

a. Means:

(1) Any goods or products, other than real property, manufactured, sold, handled, distributed or disposed of by:

WAIVER OF TRANSFER OF RIGHTS OF RECOVERY AGAINST OTHERS TO US — BLANKET BASIS (WAIVER OF SUBROGATION)

COMMERCIAL UMBRELLA LIABILITY
CXL 456 06 22

THIS ENDORSEMENT CHANGES THE POLICY. PLEASE READ IT CAREFULLY.

This endorsement modifies insurance provided under the following:

COMMERCIAL UMBRELLA LIABILITY COVERAGE PART

A. The following is added to Paragraph **M. Transfer Of Rights Of Recovery Against Others To Us** under **SECTION IV — CONDITIONS:**

We will waive any right of recovery against a person or organization because of payments we make under this Commercial Umbrella Liability Coverage Part. This waiver applies only if the insured has agreed in a written contract or written agreement to:

1. Either:

a. Waive any right of recovery against that person or organization; or

b. Assume the liability of that person or organization pursuant to a written contract or written agreement that qualifies as an "insured contract";

2. And:

a. Include such person or organization as an additional insured on your Commercial Umbrella Liability Coverage Part; and

b. The "underlying insurance" contains a substantially similar waiver of recovery rights.

Such waiver by us applies only to the person or organization identified above and only to the extent that the insured has waived its right of recovery against such person or organization prior to loss.

B. The following Definition is added to **SECTION V — DEFINITIONS:**

"Insured contract" means:

a. A contract for a lease of premises. However, that portion of the contract for a lease of premises that indemnifies any person or organization for damage by fire to premises while rented to you or temporarily occupied by you with permission of the owner is not an "insured contract";

b. A sidetrack agreement;

c. Any easement or license agreement, except in connection with construction or demolition operations on or within 50 feet of a railroad;

d. An obligation, as required by ordinance, to indemnify a municipality, except in connection with work for a municipality;

e. An elevator maintenance agreement;

f. That part of any other contract or agreement pertaining to your business (including an indemnification of a municipality in connection with work performed for a municipality) under which you assume the tort liability of another party to pay for "bodily injury" or "property damage" to a third person or organization. Tort liability means a liability that would be imposed by law in the absence of any contract or agreement.

Paragraph **f.** does not include that part of any contract or agreement:

(1) That indemnifies a railroad for "bodily injury" or "property damage" arising out of construction or demolition operations, within 50 feet of any railroad property and affecting any railroad bridge or trestle, tracks, roadbeds, tunnel, underpass or crossing;

(2) That indemnifies an architect, engineer or surveyor for injury or damage arising out of:

(a) Preparing, approving, or failing to prepare or approve, maps, shop drawings, opinions, reports, surveys, field orders, change orders or drawings and specifications; or

(b) Giving directions or instructions, or failing to give them, if that is the primary cause of the injury or damage; or

(3) Under which the insured, if an architect, engineer or surveyor, assumes liability for an injury or damage arising out of the insured's rendering or failure to render professional services, including those listed in **(2)** above and supervisory, inspection, architectural or engineering activities.

Thus, you can receive all the disclosures and notices electronically or in paper format through the paper mail delivery system. Designing

Students take an idea or vision for a product to implementation. Designing often necessitates considering the aesthetic, functional, and economic dimensions of both the designed object and design process. It involves considerable research, thought, modeling, interactive adjustment, and re-design.

Dressers

In a fashion show, many frantic hands work behind the scenes to ensure models get down the runway on time and with the look the designer intended. The job responsibility of a dresser is simple to explain, but it takes the precision of a pro to execute:

Making sure the model is dressed on time for show time. Working as a dresser for a fashion show is a great way to gain some first-hand experience for those interested in making a career of styling for clients.

As reported by A. Alliance, "The Afterschool Hours in America: Afterschool Alliance," in an article regarding the engagement of students in afterschool programming, it is said, "...additional evidence of the utility of a staff-rated measure focused on student engagement during academic, youth development, and arts activities. Student engagement in after-school programs has emerged as a key predictor of student outcomes, and the present study provides additional validation that a fairly brief staff-rated measure that is appropriate for assessing this construct among

Docusign Envelope ID: FEBF7D5F-C555-49D6-B7E6-17A285E5E0ED

elementary school children can be a useful resource for evaluating the effects of after-school participation on academic outcomes. More importantly, this study suggests that individual student engagement in specific types of after-school activities is associated with positive student outcomes during the school day, which should provide additional evidence of the potential benefits of after-school programming and provide guidance regarding the types of activities that these programs should emphasize." Therefore, to engage students in inter-active learning activities we have enhanced their capacity to learn. The program provides academic enrichment and instructional services for students to meet state and local student academic achievement standards in the core academic areas of reading and mathematics. Other activities that support the performance measure indicators include:

1) Literacy Education that will extend, enrich and re-mediate their educational progress. The students will engage in: (a) quality, leisure reading exploring a diverse collection of material from at least three genres and authors; (b) creative writing exercises that require students to use English/Language arts (i.e., grammar, spelling, and mechanics of language) and the five steps of the writing process (i.e., rewriting, writing, revising, editing, and proofreading); and (c) production of a dramatic script that establishes an appropriate organizational structure, sets a context and maintains a coherent focus that signals a satisfying closure.

2) Mathematics Education allows students to complete grade-appropriate math activities to ensure their retention of required skills and introduce new skills in preparation for their upcoming academic year. Camp Village exposes students to real world applications of their mathematics skills. By learning the concepts of money management, students understand the meaning of the four arithmetic operations as related to positive rational numbers and apply these concepts and associated skills in real world situations. Students also engage in a robotic, rocket building, drone flying program through Specialists from the Georgia Tech STEM program to increase their proficiency in science, technology, engineering, and mathematics.

3)After assessing conversations with education professionals, business professionals, and other community stakeholders, Camp Village improves student preparedness for life through life skills training and enrichment activities. The Jr. Apprentice Program is intensive as scholars receive an in-depth entrepreneurial and job skills training. Students learn the aspects of developing a business plan, starting and operating a profitable business, building financial wealth, increased community leadership. To enhance their entrepreneurial training, the scholars engage in job shadowing and internship activities with professionals in their chosen industries. The work experience prepares them to be active and productive contributors in the global marketplace.

Our program utilizes a three-step methodology which includes:

Approach and Design:

Wellspring Living, Women's Academy will provide services to **50** clients that reside in Fulton County, with CCSP funding.

Wellspring Living, will provide the following activities and services in Fulton County with CCSP funding:

Started in 2014, Women's Academy (WA) is a community-based work readiness program designed to equip and empower victims of human trafficking and those at risk to attain living-wage employment. Using trauma-informed care and a participant-centered approach, this program serves victims with five key focuses of services: mental health, life skills, education, career readiness, and case management. Participants earn their GEDs, receive valuable job readiness training, complete a paid apprenticeship, and forge valuable connections to secure employment.

The WA Program maintains relationships with many community organizations that have actively referred participants to the program. These organizations include Chris 180, Haven ATL, City of Refuge's House of Cherith, Covenant House, Families First, House of Dawn, Office of the Public Defender (Atlanta Judicial Circuit), Salvation Army, Victoria's Friends, Women's Resource Center, and YouthSpark, and Odyssey. Wellspring Living's Women's Residential Program Participants are also referred to the WA, and current and former WA participants have proven to be excellent referral sources. Women interested in GED attainment have also learned about the WA by utilizing Google as a search engine for GED programs. For women needing more specialized or intense GED preparation and support, Wellspring Living makes referrals to WorkSource Fulton/Atlanta to improve their basic academic skills, such as reading, writing, and math, to prepare for the GED test.

The Women's Academy provides services through four vital programming Pathways: 1) Adult Education, 2) Career Preparation, 3)Apprenticeship, and 4) Wellness. Each pathway has the capacity to accommodate up to 20 women simultaneously. All pathways are open for enrollment, with the exception of the Career Intensive Pathway. This pathway operates on a quarterly basis, featuring 8-week sessions. The WA is closed on the following national holidays: Martin

Docusign Envelope ID: 350BDA82-BC23-4C8F-89FF-DDB745E08B3C

Luther King Day, Good Friday, Memorial Day, Independence Day, Labor Day, Thanksgiving, Christmas, and New Year's Day.

Upon a young woman's enrollment into the program, the WA staff reviews her application to assess whether she needs assistance in completing her GED before transitioning into the Career Preparation or Career Intensive Pathway. All WA participants, irrespective of their session goals (GED, Career, or Wellness), are required to complete a comprehensive one-day program orientation involving all WA staff members. Subsequently, each woman completes an assessment with her designated Clinical Case Manager and either the Career or Adult Education Coordinator. These coordinators are qualified human service professionals (HSPs) who assist in developing the participants' Individual Service Plan (ISP).

Wellspring Living mitigates potential barriers to participation by providing public transportation passes, daily meals, and a childcare stipend, recognizing that 72% of participants are mothers. Additionally, participation in the program is entirely free of charge. The program predominantly serves women of color, who constitute 92% of all participants.

Adult Education Pathway - The Centers for Disease Control and Prevention state that Americans who do not complete high school continue to lag behind, and without a high school diploma or GED, they are consistently at the greatest risk for the leading causes of disease and death. The lack of high school education can sentence an individual to a life of poverty, unemployment or underemployment, destabilized family units, dependence on government assistance programs, and poor health. The Bureau of Labor Statistics reports a 24% increase in adult earnings for high school graduates in the US vs. those without a diploma. A parent’s level of educational attainment is the best predictor of economic mobility for their children.

For participants who have not yet earned their high school diploma, the adult education pathway offers the opportunity to practice for and pass each of the four subject area GED tests required to earn a Graduate Equivalency Degree Test (GED). Program staff give in-person instruction and additional tutoring and provide test preparation resources and testing fees. The program utilizes the TABE (Test of Adult Basic Education) to assess the education needs of participants and GED AZTEC Learning Software for virtual and in-person test preparation, allowing participants a flexible work schedule at their own pace. Laptops and IT support are provided to the participants at no cost.

Career Pathway- Human trafficking victims often lack marketable career skills and struggle to attain long-term, sustainable wage employment. Without intervention and support, human trafficking victims live at or below the Federal Poverty Level. According to the Bureau of Justice Statistics, these individuals have more than double the rate of violent victimization as persons in high-income households. Access to employment training dramatically affects victims' self-confidence, social mobility, financial stability, health, and well-being.

1. **The Career Preparation Pathway,** offered by the Women's Academy, is designed with great care to equip domestic female survivors of human trafficking in Georgia with vital skills for workplace success. Career Preparation Pathway programming teaches technical skills, giving participants the opportunity to earn Microsoft Office Suite Certifications, including Word, PowerPoint, and Excel. It also offers typing proficiency enhancement and the flexibility to undertake additional certifications based on individual career aspirations. In addition to technical skills, the program significantly emphasizes improving participants' resumes, fostering improved job prospects. The Career Preparation Pathway is implemented in a self-paced manner with the support of proficient staff. The program operates from Monday to Friday, 10 AM to 3 PM, and allows participants to progress at their own pace. The Career Preparation Pathway facilitates in-person and virtual asynchronous learning, adopting an open enrollment policy for ease of accessibility.

Docusign Envelope ID: 350BDA82-BC23-4C8F-89FF-DDB745E08B3C

2. **The Career Intensive Pathway** is an in-person eight-week program offered by the Women's Academy that emphasizes robust professional development for domestic female survivors of human trafficking in Georgia. This pathway covers an array of crucial subjects such as LinkedIn Profile creation, Presentation Skills, Resume Writing, Informal/Formal Communication, Professional Etiquette, and Networking, intending to equip participants with a comprehensive set of soft skills essential to program advancement. The Career Intensive Pathway operates from Monday to Friday, 10 AM to 3 PM, with set in-person sessions delivered on a quarterly basis, ensuring comprehensive and consistent instruction for all participants. Additionally, this pathway incorporates professional readiness training led by local law firm Greenberg Traurig LLP, conducted in an office environment.

Employment (Apprenticeship Stage): After successful completion of the program, participants transition into the Apprenticeship Stage, enabling them to apply learned skills to real-life situations. Upon the completion of the eight-week intensive program, participants graduate from the Women's Academy. They are then connected to interview opportunities for full-time employment with partnering employers such as Accenture, Fabrik, Delta Airlines, Hotel Ventures Management Group (HVMG), Enterprise Holdings, Greenberg Traurig LLP, Miller Zell, City of Atlanta, Westin Buckhead, Fulton County Government, Ritz-Carlton, IHG, Crosby Warehouse, and UPS when possible. This affords women the chance to apply the principles learned in class while building a solid resume to aid in future job placement.

The Wellness Pathway- The Wellness Pathway, available in-person and virtually, offers a range of services to support participants across all pathways or as standalone resources. It encompasses:

1. Group Counseling (In-person and virtual): Participants can engage in group sessions for mutual support and guided discussions.
2. Financial Literacy: Empowering participants with knowledge and skills for making informed financial decisions.
3. Nutrition: Education on balanced diets, meal planning, and understanding nutritional information.
4. Physical Activity: Encouraging regular exercise to promote physical health and well-being.
5. Wellness Topics: Covering various areas such as stress management, self-care practices, and mindfulness techniques.

The Wellness Pathway is designed to enhance overall well-being and provide essential life skills to participants, promoting a healthier and more balanced life.

The WA has several collaborative and critical program partners, many headquartered in Fulton County, whose engagement in the program adds value to the services provided and helps reduce program expenses.

1. Tapestri, Inc enables us to extend our services to foreign-born victims. Through these collaborative efforts, we can effectively meet victims' diverse needs and enhance our services' overall impact.
2. Evaluation: Wellspring Living partners with Dr. Missy Moore at the University of Georgia to conduct an annual program evaluation. Through these evaluation efforts, Wellspring garners both quantitative and qualitative information that provides a well-rounded, informative view of services, practices, and outcomes.
3. Clinical Internships: Howard University and Agnes Scott provide clinical master's level interns who work with existing WRP staff to assist case managers and clinicians in providing therapeutic and case management support.

Docusign Envelope ID: 350BDA82-BC23-4C8F-89FF-DDB745E08B3C

4. Dress For Success Atlanta: Dress For Success partners to provide space for Career Readiness, Case Management, Therapy, Life Skills, and is also a referral partner.
5. Greenberg Traurig LLP law firm facilitates weekly professional development classes to participants in an office environment to further prepare participants to sustain employment confidently.
6. Apprenticeship/Employment Partners: Upon completion of the Career Pathway, participants engage in paid apprenticeships with prominent partners like Delta, Accenture, and Fulton County. These partnerships, solidified with attached MOUs, foster trauma-informed work environments and provide participants with invaluable opportunities to apply their skills, accumulate work experience, and secure full-time employment post-apprenticeship.
7. Empower Her Network: Wellspring Living's Adult Programs are proud to collaborate with Empower Her Network (EHN) as a referral partner. This relationship enables us to recommend participants who have achieved stability through our programming for continued support during aftercare. EHN Advocates work directly with nominees to co-create a bespoke Empowerment Plan, typically spanning 12 to 18 months. This plan is tailored to the specific needs and goals of the individual, focusing on securing housing solutions, financing further education, and establishing stable, well-paying careers. This strategic partnership epitomizes our shared commitment to empowering women and facilitating their transition toward self-sufficiency and success.
8. Helping Mamas: Supported by an Evergreen MOU with Wellspring Living, Helping Mamas is a community-based organization that delivers essential infant and child resources to all young mothers enrolled in the Women's Academy. This partnership ensures consistent access to vital resources such as diapers, car seats, clothing, toys, and baby food, providing substantial support for these young mothers and their children.
9. Family Ties: Wellspring Living maintains an Evergreen Memorandum of Understanding (MOU) with Family Ties, a community-based service. Family Ties offers comprehensive therapeutic services to all Women's Academy participants. These services include individual, family, and group therapies delivered in various settings such as offices, homes, or schools to meet participants' needs effectively.

Moreover, Wellspring Living understands that stable housing, basic necessities, and food security are essential components for women and their children as they transition from the program to full-time, living-wage employment. Securing safe and stable housing provides an exit from vulnerability and helps prevent future exploitation and chronic homelessness. In partnership with Wells Fargo Corporate Giving, Atlanta/Fulton/Dekalb EFSP, and the Office of Victims of Crime, the Women's Academy provides financial assistance for housing, including rental and utility support, enhancing the ability of our participants to secure safe housing. Furthermore, participants have the opportunity to access apartment housing through Wellspring Living’s Bridge Community located in Fulton County. This community acts as a “bridge,” providing a seamless transition from completing the Women’s Academy program to achieving sustainable independence for adult female participants and their children.

To address basic necessities, we have partnerships with Dress for Success and Jackson Healthcare, which provide clothing, food, and personal care items such as shampoo, soap, and toothbrushes. We also operate retail thrift shops that receive community donations, offering items to participants as needed. At Wellspring Living, we maintain an on-site food pantry and clothing boutique as part of our community-based programming. This enables participants to maintain their independence and dignity by simply choosing their own clothing and food. Our goal is to provide comprehensive support, equipping our participants with the resources they need to build secure, self-sustaining futures.

Through participation in the WA, young women have the opportunity to engage in healthier behaviors, community services, and critical social services that promote self-sufficiency. Young women have the opportunity to earn their GED, receive valuable job readiness training, complete a paid Apprenticeship, forge valuable connections to secure living-wage employment and live independently. Young women are able to improve living conditions or secure safer housing, help provide for themselves and their children, and model positive, healthy, and self-sufficient behavior for their children.

In addition to its career and adult education-oriented pathways, the Women's Academy incorporates a comprehensive mental health and case management program, ensuring the holistic well-being of its participants. Providing these supports in tandem with career preparation and training, the Women's Academy aims to empower its participants to achieve stability, security, and living-wage employment.

The Women's Academy strives to promote and address three of Fulton County's Strategic Priorities of Health and Human Services objectives through equipping residents with skills to attain a living wage, GED services, personal development, and life skill classes, critical case management, community service referrals, housing assistance, transportation, childcare, and mental health services.

1. **Holistic Assessment & Individualized Service Plan:** Upon entering the program, each participant is assessed holistically to identify her unique needs and goals. This assessment informs the creation of an Individualized Service Plan (ISP), which provides a roadmap for the participant's journey through the program. This ISP is regularly revisited and updated to reflect the participant's progress and evolving needs.
2. **Case Management & Counseling:** Participants are assigned a Clinical Case Manager with whom they meet regularly throughout their enrollment. These case management sessions offer crucial support and guidance, addressing the participant's personal and professional challenges and helping her navigate her path toward stability and living-wage employment.
3. **Mental Health Services:** Wellspring Living provides robust in-house mental health services designed to help participants reduce clinical symptoms, improve decision-making skills, and minimize the risk of re-victimization. These services include weekly individual therapy sessions and group therapy sessions covering a wide range of topics. These topics include substance abuse, anger management, cognitive behavior therapy (CBT), healthy relationships, boundaries, and relapse prevention.

Bobby Dodd Institute, Getting Ready for Opportunity in Work (G.R.O.W.) will provide services to **40** clients that reside in Fulton County, with CCSP funding.

Bobby Dodd Institute, will provide the following activities and services in Fulton County with CCSP funding:

G.R.O.W. focuses specifically on serving those with disabilities. In addition to classroom-style instruction provided by BDI staff, there will be guest speakers to provide employment expertise and help deliver the lesson plans. The career readiness education involves job interview techniques, financial literacy, manner in the workplace (including conflict resolution, and how non-verbal communication impacts the work dynamic. In addition, there are a series of site visits to partners representing different sectors of the economy for participants to see firsthand the opportunities available.

BDI's goal is to deliver engaging and interactive information and insight through partnering with community partners and employers to offer students a wide array of options and opportunities as they prepare for transition out of high school. BDI has designed a program modular program that allows flexibility in delivery to maximize the exposure to as many options for students as possible, while leveraging employers across multiple employment occupations from professional, technical, and entry level. Students will be exposed to multiple post-secondary paths including Colleges and Universities, Technical School Programs, and career training services. BDI also partners with businesses and community partners to offer training in financial money management and banking, transportation training, and dressing for success.

Community volunteerism is also an important way for students to give back to their local communities, BDI has partnered with various non-profits to give students the opportunity to volunteer in various ways from preparing meals to learning about research support at Zoo Atlanta. Through these various partnerships and connections the activities will look differently from week to week as we strive to create a program that takes in consideration the various partners' schedules and availability. This design will ensure that all topics are covered, and the students are provided a wide scope of opportunities to tour and speak with industry leaders, human resource departments, educators, and community leaders, while learning invaluable skills in establishing a strong foundation towards employment. BDI will provide a completed week by week program agenda prior to the start of the weekly program.

BDI not only recruits employer and academic partners to serve as speakers and site hosts, but also various other community entities. This includes post-secondary schools (ex. Georgia Tech Excel Program, Kennesaw State University, etc.), community employer partners (Mercedes Benz Stadium, Coca-Cola Company, etc.), community financial institutions (ex. First Horizon Bank), volunteer locations (Zoo Atlanta, Georgia Aquarium, etc.) and restaurants (ex. Chili's, Chick-Fil-A, etc.).

Transportation is provided for the program participants to the various program sites, alongside breakfast and lunch. As mentioned, there are five employment-related topics which are covered over the course of the G.R.O.W. curriculum.

Within each area, participants complete the following:

Job Exploration – Students will engage in discussions and assessments of job interests, preferences, and opportunities. Students will be touring various employment locations and conversing about the many career opportunities available. Activities: identify employment interests, learn career awareness, and hear from career speakers

Docusign Envelope ID: 22B04B24-FC81-412B-A5FE-83CA3D5C7E11

Work Readiness – Students will learn about workplace best practices and soft skills that will ready them for employment. Activities: practice job interview techniques, money management, manners/decorum in the workplace, and/or non-verbal communication

Post-Secondary Education/Training Counseling – Students will participate in university and trade/technical school tours, being exposed to the different career pathways and training programs available. Activities: learn how to complete a federal student aid application, explore scholarship and post-secondary education opportunities

Work-Based Learning – Exploration of career options will be the focus, with tours so that students have the ability to have first-hand observation of work sites. Students learn about businesses, meet employees, ask questions and observe work in progress and conversations with hiring managers. Activities: Employer interaction and discovery regarding volunteer offerings in the community

Self-Advocacy Skills – Students will be guided through interactions centered on employment and the importance of talking about their disability in a variety of employment situations. Students will gain awareness of their rights and responsibilities as an employee as provided for by local, state, and Federal law. Activities include: learn about disability disclosure on-the-job, how to improve self-advocacy, and how to ask for help or special accommodations in the workplace

During the sessions, participants will learn about the scope of BDI's services, along with those of our peer organizations. A Health and Human Service Key Performance indicator that will be accomplished with G.R.O.W. summer program is that 40 Fulton County residents with disabilities will have access to community-based services. G.R.O.W. increases inclusion as this program takes place during business hours when students with disabilities who are off for summer break frequently experience difficulty in leaving the house and deal with isolationism. In 2022, there was a deep camaraderie that formed among the students and the sense of belonging was also expressed through parental, post-program feedback.

These efforts will help develop the skill sets of the students, reinforce the importance of completing high school, provide access to educational and employment opportunities and move them closer to successful transition. Last year, a participant from G.R.O.W. moved immediately into employment following completion and it is anticipated that those numbers will increase significantly with the expansion of the program.

The G.R.O.W. program satisfies the Disabilities Funding Priorities of #1(a,b,c), #2, and #3

Designation of CSP Funds:

Based on the awarded amount of **$25,000.00,** the CCSP funds are designated according to the following cost categories: Administrative, Operational, and Direct Services.

Administrative Expenses- CCSP Funds that are spent on executive / management staff and administrative support staff salaries, salary fringe, and benefits; etc.).

Docusign Envelope ID: 22B04B24-FC81-412B-A5FE-83CA3D5C7E11

Operational Expenditures- CCSP funds used to conduct agency/ organizational functions that are secondary to program service delivery such as office/ warehouse lease or mortgage expenses, office supplies (pens, toner, paper, etc.), utility expenses, transportation expenses (staff travel expenses), marketing/catalogs, etc.

Direct Service Expenditures- CCSP funds utilized to provide services directly to agency/program participants such as payments made on behalf of participants for rent, utilities, food, shelter, transportation (rentals, gas, and parking, bus drivers, public transportation costs, etc.) , scholarships and day care vouchers, salaries and fringe benefits for direct service personnel (Case Managers, Educators, Subcontractors, etc.), program supplies (educational/instructional materials, paper, pencils, markers, etc.) directly consumed by participants. Program materials that may be pertinent to the scope of services of a funded program and that aid in contractor meeting contracted program outcomes are included in this definition (i.e. children's story books, educational games, puzzles, and flash cards).

The maximum amount of CCSP funds allowed for administrative purposes (executive staff salaries and benefits only) is 5% of funds awarded. Throughout the contract period, program expenditures will be monitored (via performance reports) to ensure that funding is utilized as contracted.

Cost Category	Designation of CCSP Funding Award
Administrative (5% Admin max of funds awarded.)	$1,100.00
Operational	$0.00
Direct Services	$23,900.00
Total	$25,000.00

Explanation of Funding Details:

Of the $25,000 being sought from CSP funding, $1,100 is intended for administrative cost, primarily administrative staff functions involved in managing the program. There will not be any operational costs offset by CSP monies. Direct Services will constitute the greatest percentage of the CSP grant, with $23,900 going against costs such as

Docusign Envelope ID: 22B04B24-FC81-412B-A5FE-83CA3D5C7E11

transportation, meals, participant materials and the site visit expenditures. These expenditures will be made during the timeframe of January 2025 through April 2025.

As the G.R.O.W. program's expansion runs from April 7-April 11, 2025 the CSP funding will be exhausted by the end of April as all costs associated with the program should be calculated, submitted and paid by that time. Overall, the costs associated with the program (aside from staff salaries) will keep to a fairly tight, three month timeframe. There will be some front expenditures as well attributed to the CSP funds (deposits for transportation, site locations to reserve the space, student materials order) and these will happen in early March. To better calendarize the timeline of expenditures against the CSP funds:

February - $5,000

March - $10,000

April - $20,000

Program Performance Measures:

Bobby Dodd Institute agrees to track and report program performance to the Fulton County Department of Community Development.

County Defined Performance Measure(s):

Children and Youth: Not Applicable

Disabilities: Number of Persons with Disabilities who can focus on overall wellness...

Economic Stability: Not Applicable

Health and Wellness: Number of individuals participating in programs focusing on financial literacy and wellness

Homelessness: Not Applicable

Senior Services: Not Applicable

Veterans Services: Not Applicable

The following program measures/ Key Performance Indicators ("KPI's") will be utilized to track and report program outcomes for the Fulton County residents supported with CSP

Docusign Envelope ID: 22B04B24-FC81-412B-A5FE-83CA3D5C7E11

funding, during the funding period 01/01/2024 through 12/31/2024:

Results and outcomes from G.R.O.W. are measured in several ways. Three correspond to defined performance measures in the RFP. Our goal is for 35 Persons with Disabilities (PWD) from Fulton County to be included in the expansion program due to increased accessibility and transportation (the target is to serve 135 individuals total throughout the metro Atlanta region between the summer and fall sessions). Each participant receives self-advocacy training and self-sufficiency training which is geared toward improving wellness, including better management of their disability. This includes financial literacy training and being counseled on how to maintain good eating and living habits while in sustainable employment and post-secondary education scenarios.

Last year, eleven community partnerships were established that train and hire persons with disabilities for gainful employment. This year the target is to increase that number resulting in fifteen partnerships total. For the spring expansion, the goal is to establish two additional partnerships. In addition to being a host site for the program participants, each employment partner will be offered disability awareness training by BDI in efforts to educate them about interacting/working with PWDs in the workplace and community. All of the students participating will be exposed to programs who offer job/training/readiness and/or vocational opportunities.

Another outcome measurement is that 80% of the participants self-report, upon completion of their tenure with G.R.O.W., that they feel better prepared for the work environment or post-secondary education, more confident in their ability to self-advocate in the workplace or at school and/or clearer on what employment opportunities suit their interests and they will be pursuing in the marketplace. This would equate to 108 for the total program and 28 in the fall sessions supported by CSP funds.

It is BDI's target to place at least five of the senior students into employment with either one of the programs employment partners or with BDI post transition from high school.

G.R.O.W. is a program that has quickly proven itself to be one that provides life skills training in a hands-on, interactive and effective way to expose those with disabilities to existing work opportunities, how to attain them and successfully retain employment.

Agency Defined Performance Measure(s):

BDI's defined performance measure is that 80% of the participants will self-report, upon completion of their tenure with G.R.O.W., that they feel better prepared for the work environment or post-secondary education, more confident in their ability to self-advocate in the workplace or at school and/or clearer on what employment opportunities suit their interests and they will be pursuing in the marketplace.

The Veteran Services Office (VSO) at Atlanta Technical College (ATC) is staffed by veterans who understand the unique needs of service members, veterans, and their dependents. Over these past years, our

Docusign Envelope ID: 52C820F6-A0BD-4B75-8CCA-F26E7A0D23DA

goal has been to offer a convenient and easily accessible one-stop shop for these individuals. ATC is dedicated to empowering them with the tools they need to succeed academically. The VSO at ATC creates a supportive educational environment by providing information, referrals, and outreach programs. In addition, we offer a wide range of services, including career-focused education in over 150 fields of study, job readiness assessments, academic advisement, tutoring, resume assistance, and job search resources.

Programs, Services, and Campus Culture: In 2024, ATC will continue to evolve and expand its support for student veterans through ongoing enhancements to its Veterans Services Office (VSO). Building upon its existing framework, ATC recognizes the importance of adapting to the evolving needs of veteran students as they navigate their educational journeys. Recognizing the diverse needs and challenges faced by veteran students, ATC has now fully integrated its Veterans Services into its broader Student Support Services framework located on the main campus of ATC, within the Academic and Student Affairs Division. With feedback from veteran students, this slight but significant adjustment has been achieved to enhance our veterans' access to resources and effectively sustain our Fulton County Veterans Services Program (FCVSP) at Atlanta Technical College. The FCVS@ATC program continues to take place on our college campus, which is accessible under the Americans with Disabilities Act (ADA).

Aligned with the U.S. Department of Education's objectives for student services programs, ATC's Student Support Services(now inclusive of VSO) is dedicated to enhancing college completion rates, especially among underrepresented groups like first-generation students, low-income students, and students with disabilities, including veterans. As part of its ongoing evolution, ATC's VSO prioritizes inclusion and diversity by providing tailored support for veteran students, recognizing their unique backgrounds and experiences. Addressing challenges such as balancing family responsibilities and managing mental health conditions, ATC's VSO offers comprehensive assistance through expanded resources, workshops, educational classes, and support services. By emphasizing mental health resources and providing personalized assistance and community referrals, ATC ensures that veteran students thrive academically and personally. Furthermore, acknowledging the significance of social integration, the VSO expands engagement initiatives to facilitate peer connections and foster community, leveraging the student-supportive services framework to provide mentorship and camaraderie among veteran students. In essence, ATC's ongoing evolution of its VSO and FCVS@ATC program reflects a commitment to continuous improvement and growth in supporting student veterans. By remaining responsive to their needs and expanding its range of services, ATC aims to empower veteran students to achieve their educational and personal goals within the college community. Specifically, the FCVS@ATC program adopts a strengths-based academic advising approach, shifting from failure prevention to success promotion, and empowering veteran students to thrive academically and personally.

Program Design:

1. **Health and Wellness:** the FCVS@ATC program will address the holistic well-being of Veterans by offering health and wellness initiatives. **Activities** include access and referrals to

Docusign Envelope ID: 52C820F6-A0BD-4B75-8CCA-F26E7A0D23DA

mental health community resources, counseling services, and conducting informational sessions on health resources available to Veterans. **Outcomes:** Increased awareness of mental health services by Veterans and Improved overall physical and mental well-being among program participants.

2. **Homeless and Transitional Housing Assistance:** the FCVS@ATC program aims to provide a safety net for Veterans experiencing housing instability. **Activities** include establishing a comprehensive referral system offering transitional housing support, including temporary housing assistance and connections to permanent housing solutions. **Outcomes:** Reduction in the number of homeless Veterans in Fulton County and students of ATC, and Increased access to stable housing for Veterans and their families
3. **Training/Job Development/Employment Services:** the FCVS@ATC program Equips student Veterans with the skills and resources necessary for successful integration into the civilian workforce. Activities include creating pathways for access to internal training programs of study that align with high-demand industries in the region, Facilitating job development initiatives, including resume building, interview skills, and job search strategies, including veterans in the discussion when forging partnerships with local businesses to create employment opportunities. **Outcomes:** Higher employment rates among Veterans attending Atlanta Technical College and Enhanced economic self-sufficiency for program participants.
4. **Wraparound Services for Veteran Students:** the FCVA@ATC program provides comprehensive support through referrals, addressing the unique needs of Veteran Ex-offenders, military families, and active military students. **Activities:** Establish a network of community resources to address the diverse needs of these specific populations and Collaborate with external agencies to ensure a continuum of care for the FCVA@ATC program participants. **Outcomes:** Strengthened support systems for military families and active military students, and Improved reintegration outcomes for Veterans who are returning citizens.

The FCVS@ATC program design is structured to create a seamless continuum of care, comprehensively addressing the identified needs of Fulton County's Veterans. By integrating Health and Wellness, Homeless and Transitional Housing Assistance, and Training/Job Development/Employment aspects, Atlanta Technical College aims to empower Veterans with the tools and resources necessary to achieve a successful academic journey and lasting self-sufficiency. The Atlanta Technical College Foundation, a 501(c)3 non-profit, supports Atlanta Technical College by managing and administering grant funds, will assist the colleges' veterans in achieving this goal. In partnership with Warrior Alliance, the Foundation supports the FCVS@ATC program, which addresses housing, basic needs, food security, goods and services, emergency financial services, and substance abuse support for veterans. This program aims to reverse poverty trends by meeting veterans' foundational needs, preventing homelessness, and providing home repairs to help veterans remain in their homes.The Warrior Alliance case management team connects the FCVS@ATC student with organizations that support the County's commitment to making homelessness rare, brief, and

Docusign Envelope ID: 52C820F6-A0BD-4B75-8CCA-F26E7A0D23DA

nonrecurring through funding opportunities to nonprofit organizations to quickly rehouse homeless Veterans and families. Using this referral system, Veterans and families are serviced through emergency, transitional, and permanent housing programs. 2) Veterans Employment and Employment Training - includes job training, job search and preparation services, and business ownership counseling. FCVS@ATC program focuses on preparing Veterans and transitioning service members for meaningful careers, providing entrepreneurship resources and expertise, and protecting reemployment rights. 3) Veterans Education – includes GI Bill assistance, retirement, financial aid counseling, loans, scholarships, tuition programs, learning skills preparation, and student Veterans organization support. 4) Veterans Financial Planning/Services – provided by ATC's Continuing Education Department, this customized course is a program curriculum component that includes compensation, consumer protection, budgetary, pension and tax counseling, unemployment services, and emergency assistance. FCVS@ATC program focuses on preparing transitioning military members for financial success and helping all Veterans obtain financial security and retirement planning knowledge for self-sustainability. 5) Veterans Legal Services – will be provided by our community partnership with Legal Aid, which will provide legal assistance, pro bono programs, legal clinics, judicial system programs, service records, identification cards, military awards, and discharge reviews. The FCVS@ATC program focuses on access to legal resources to assist with medical challenges, disability benefits, reemployment rights, debt collection, housing, criminal matters, license restoration, and family law - to provide comprehensive services to families and military-connected members of our veteran students as they transition from the military to civilian life after their service.

Education and employment play crucial roles in contributing to a veteran's health and wellness in several ways: **Financial Stability:** Education and employment provide veterans with stable incomes, reducing financial stressors that can adversely affect mental and physical health. Financial stability enables access to healthcare, healthy food, and other essentials, promoting overall well-being. **Sense of Purpose:** Pursuing education and meaningful employment can instill a sense of purpose and fulfillment in veterans' lives. Having goals to work towards and a sense of achievement from completing educational milestones or excelling in a job can positively impact mental health and self-esteem. **Social Connections:** Education and employment opportunities often involve interactions with peers, colleagues, and mentors, fostering social connections and support networks. These social interactions can reduce feelings of isolation and loneliness, which are common among veterans transitioning to civilian life. **Access to Healthcare Benefits:** Many educational institutions and employers offer healthcare benefits as part of their compensation packages. Access to healthcare services can ensure timely medical care, preventive screenings, and treatment for any health issues, promoting overall wellness. **Skill Development:** Education and employment opportunities provide veterans with opportunities to develop new skills and expertise. Learning new skills can enhance cognitive function, boost confidence, and increase resilience, all of which are essential for maintaining good mental and emotional health. **Routine and Structure:** Education and employment provide veterans with a daily routine and structure, which can be beneficial for mental health. Having a schedule to follow and responsibilities to fulfill can provide a sense of stability and purpose, reducing the risk of depression

Docusign Envelope ID: 52C820F6-A0BD-4B75-8CCA-F26E7A0D23DA

and anxiety. **Programs, Services, and Campus Culture:** ATC has been intentional in its approach and design of all Veteran Department programming to ensure the campus is "veteran-friendly," entailing a variety of factors such as support, admissions, funding, communication, and services. There is tremendous diversity and inclusion (DI) in framing ATC's veteran-friendly programs across the academic institution. ATC has created a culture of trust and connectedness across the campus community to promote the well-being and success of veterans. The three core elements of design activities include 1)Creating Successful Programs: Top-Down Support, Central Point of Contact, Veteran-Specific Space, Identifying Student Veterans, and Student Veteran Organization. 2) Academic Support: Veterans Orientation, Staff and Faculty Training, Opening Lines of Communication, Academic Preparation and Tutoring, Veteran-Specific Courses. 3) Campus Culture: Campus Life, Engaging Student Veterans, Housing Information.

Approach #1-Education: ATC is part of the Technical College System of Georgia (TCSG). Given this, the FCVS@ATC program seeks to enhance the academic power of technical education services offered to increase further the capacity of educational, training, and employment efforts for veterans and military-connected individuals in Fulton County. Of our current veteran student population, 47% reside in Fulton County. There will be no duplication or over-saturation of services; instead, there is a chance to expand and sustain ATC's technical college education model as a "Bridge Program" for veterans and military-connected individuals – with a laser focus on those being impacted by homelessness. Designed as a blended program model, FCVS@ATC incorporates a) Career Pathways and b) Alternative Pathways Program (APP) by preparing those who lack adequate basic skills to enter and succeed in post-secondary education and workforce training, leading to career-path employment. FCVS@ATC is a scaffolding education and training that drives successful program completion and job placement outcomes. FCVS@ATC incorporates six "program pillars" that APPs need to optimize as best practices to serve the veterans effectively. This program ensures sustainability, access, quality education, training, and employment services for a disenfranchised and low-income population. FCVS@ATC explicitly prepares veterans and military-connected individuals for validated in-demand workforce opportunities. **Approach #2:** Center for Workforce Innovation: The Student Experience for FCVP@ATC mirrors that of all ATC CWI students, offering a promising solution to employment barriers faced by veterans and military-connected individuals, frequently low-income adults reintegrating into our communities. ATC will leverage its Center for Workforce Innovation (CWI) as the central component of the FCVS@ATC program design (see illustration below). The CWI focuses on preparing students to enter careers that meet local high-demand, rapidly changing workforce needs and lead to economic mobility. Atlanta Technical College has a 99 percent job placement rate, and a proven track record in removing barriers to access and success, helping students succeed. **Outreach and recruitment strategies include:** 1) Maintaining relationships with Veteran-Focused Groups; 2) Participating in career events near military installations and on campus; 3) Engaging in career fairs and community information sessions; 4) Supporting military events and utilizing word-of-mouth marketing; 5) Collaborating with off-campus organizations like local VA branches and the Association of the United States Army; and 6) Targeted recruitment efforts at military bases, transit homes, and Veteran Hospitals. These strategies ensure student access to essential resources for successful

Docusign Envelope ID: 52C820F6-A0BD-4B75-8CCA-F26E7A0D23DA

college completion and future employment. **Staffing Pattern:** The FCVS@ATC program will be staffed by two designated team members: a Program Coordinator and a Academic Support Specialist. The Program Coordinator will oversee partnerships, policies, and reporting, ensuring alignment with ATC guidelines. The Veterans Academic Support Specialist will serve as a single point of contact, facilitating student navigation of college experiences, managing data entry, and fostering employer engagement.

As an added value component, leveraging Mental Health Counseling services established through the college's Health and Public Safety Technologies Division – Healthcare Program with Fulton County and other community-based partners, provides our students with access to individual and group counseling sessions, and crisis intervention services, to address veterans' unique mental health needs. This integrated value component has been added due to the insufficient grant funding amount allotted to hire a part-time employee at the industry-established salary range. Atlanta Technical College has decided to modify its application to leverage community partnerships, proving more cost-effective. By collaborating with Fulton County and other community-based partners, the college's Health, and Public Safety Technologies Division – Healthcare Program now provides mental health counseling services. This initiative offers students, including veterans, access to individual and group counseling sessions, as well as crisis intervention services addressing their unique mental health needs. The original amount requested will be reallocated to direct services, thereby providing the ability for the college to increase the number of veteran students being served by this program from 50 to 75, and provide more emergency, basic needs, academic and retention incentives for completions, and housing support to its veteran students.

CONSUMER DISCLOSURE

From time to time, Carahsoft OBO Fulton County, Georgia (we, us or Company) may be required by law to provide to you certain written notices or disclosures. Described below are the terms and conditions for providing to you such notices and disclosures electronically through the DocuSign, Inc. (DocuSign) electronic signing system. Please read the information below carefully and thoroughly, and if you can access this information electronically to your satisfaction and agree to these terms and conditions, please confirm your agreement by clicking the 'I agree' button at the bottom of this document.

Getting paper copies

At any time, you may request from us a paper copy of any record provided or made available electronically to you by us. You will have the ability to download and print documents we send to you through the DocuSign system during and immediately after signing session and, if you elect to create a DocuSign signer account, you may access them for a limited period of time (usually 30 days) after such documents are first sent to you. You may request delivery of such paper copies from us by following the procedure described below.

Withdrawing your consent

If you decide to receive notices and disclosures from us electronically, you may at any time change your mind and tell us that thereafter you want to receive required notices and disclosures only in paper format. How you must inform us of your decision to receive future notices and disclosure in paper format and withdraw your consent to receive notices and disclosures electronically is described below.

Consequences of changing your mind

If you elect to receive required notices and disclosures only in paper format, it will slow the speed at which we can complete certain steps in transactions with you and delivering services to you because we will need first to send the required notices or disclosures to you in paper format, and then wait until we receive back from you your acknowledgment of your receipt of such paper notices or disclosures. To indicate to us that you are changing your mind, you must withdraw your consent using the DocuSign 'Withdraw Consent' form on the signing page of a DocuSign envelope instead of signing it. This will indicate to us that you have withdrawn your consent to receive required notices and disclosures electronically from us and you will no longer be able to use the DocuSign system to receive required notices and consents electronically from us or to sign electronically documents from us.

All notices and disclosures will be sent to you electronically

Unless you tell us otherwise in accordance with the procedures described herein, we will provide electronically to you through the DocuSign system all required notices, disclosures, authorizations, acknowledgements, and other documents that are required to be provided or made available to you during the course of our relationship with you. To reduce the chance of you inadvertently not receiving any notice or disclosure, we prefer to provide all of the required notices and disclosures to you by the same method and to the same address that you have given us. Thus, you can receive all the disclosures and notices electronically or in paper format through the paper mail delivery system. If you do not agree with this process, please let us know as described below. Please also see the paragraph immediately above that describes the consequences of your electing not to receive delivery of the notices and disclosures electronically from us.

APPROACH AND DESIGN

Atlanta Court Appointed Special Advocates (CASA) Inc. Child and Family Advocacy (CFA) Program will provide services to 20 clients that reside in Fulton County with CSP funding. Atlanta Court Appointed Special Advocates (CASA) Inc. will provide the following activities and services in Fulton County with CSP funding. Fulton County is one of Georgia counties with a high number of abused and neglected children in foster care.

Atlanta CASA is established to change the trajectory of child victims through advocacy. Established in 1995, the Atlanta CASA advocacy program recruits, trains and supervises community members to become the voice of child victims engaged in dependency judicial proceedings. By advocating in the best interest of these foster children, the CASA volunteer is able to ensure the safety and justice of the child. The CASA Volunteer is responsible for making recommendations on placement decisions, permanency and services, and case progress during court hearings; children receiving at least one in-person contact or virtual contact per month; and CASA volunteers maintaining contact with the children's family members and other parties involved in the safety and justice of the children. The CASA volunteer strives to improve the lives of abused and neglected children and their families through their advocacy by working towards a permanent and safe placement.

Atlanta CASA services are based on a national, standards-based, replicable model that uses screened and trained community volunteers to provide individualized advocacy for children and families involved in juvenile court dependency proceedings as the result of abuse and neglect. Both federal and state law recognize and codify the appointment of CASA Volunteers as Guardian ad Litems in juvenile court dependency proceedings. The proposed service plan of the practice or strategy that will be used in the delivery are:

- Initial Assessment and Service Plan: Evaluation of the child and family needs and circumstances related to the dependency, to assist in determining what is in the best interest of the child(ren).
- Court Hearings: Court appearances by volunteer and Advocacy Coordinators that involve an update to the court through CASA reports and/or verbal testimony that provide information on developments of changes in the child's situation and family members and ensure that appropriate motions are filed on behalf of the child.
- Child Contacts: Ongoing, quality, monthly, face-to-face and virtual contact between CASA volunteers, foster placement, DFCS case managers, attorneys, family

Docusign Envelope ID: 64C4DF96-33A3-448A-83DC-42A8D222A370

members, extended family, teachers and children.

- The CASA program model, practices or strategies have been proven to be effective in helping children reunite with their families and other documented benefits including (a) multiple studies show that higher than 57% of cases represented in court were staffed with a CASA volunteer advocating for the families; (b) volunteers advocate for the best interest of a child independent of judges, attorneys, social workers, therapists, family members, etc.; and (c) judges and other child welfare professionals have a high satisfaction with the model; therefore it is used in hundreds of courtrooms nationally.

By providing the services the expected impact is a change in both the child and family member behaviors that result in one or more of the following measurable changes: (a) improved knowledge of child development, behavior management skills, parent-child interactions, caregiver health; (b) improved mental health of child and family; (c) reuniting of families; (d) change in abusive behavior; (e) improved economic conditions; (f) housing stability; and (g) improved healthy lifestyle.

The changes in knowledge, skills, beliefs, attitudes, intention, behavior, and circumstances helps to increase safety, permanency and well-being of children, improve family functioning and reduce the need for ongoing or future child protective services intervention. For instance, improving knowledge on child development and behavior management helps to stabilize the family environment and increases the child's permanency and improves family function. Similarly, improving mental health, housing situations, and economic conditions help to improve the family's ability to function in a safe and stable environment. The changes combined are designed to improve healthy lifestyles and reduce the ongoing need for child protective services.

For the 2024 grant year, Atlanta CASA will continue to serve children in the Atlanta Judicial Circuit of the Fifth, Sixth and Seventh Judicial Districts which includes all of Fulton County, Georgia, the primary service areas. Fulton County encompasses 528.7 square miles and stretches over 70 miles from north to south. Thus, services will be made available in all Fulton County Districts (1,2,3,4,5,6). North Fulton includes the cities of Sandy Springs, Alpharetta, Roswell, Johns Creek, Milton, and Mountain Park. South Fulton consists of the suburban cities of College Park, East Point, Fairburn, Hapeville, Palmetto, Chattahoochee Hill Country, City of South Fulton, and Union City. The City of Atlanta lies between them.

Consultation and collaboration with stakeholders and community partners in the proposed service area include input from the Fulton County Juvenile Court Judges, child attorneys, and DFCS

Docusign Envelope ID: 64C4DF96-33A3-448A-83DC-42A8D222A370

caseworkers. Atlanta CASA's main collaborating partners are people who work within the jurisdiction of Fulton County, Fulton County Juvenile Court Judges and staff, Fulton County DFCS Director and staff, and several service providers and businesses within the community. Our Volunteers are individuals who either live or work in Fulton County. The input from the stakeholders and community partners helps to determine the need for the Child and Advocacy program in Fulton County.

Atlanta CASA has over 16 years of past grant performance through local or federal resources that aim to implement programs that advocate for families and children who have been abused and neglected. Examples of performance history include Victims of Crime Act Assistance Grant Program (VOCA), Promoting Safe and Stable Families Program (PSSF), Georgia CASA and National CASA. Atlanta CASA is also supported by various local, state, and national foundations. Atlanta CASA continues to successfully meet the projects' deliverables. Total CSP funding requested will represent approximately 12.5% of Atlanta CASA's budget.

The expected impact of providing Atlanta CASA services is a change in both the child and family members' behaviors. In this effort, we support self-sufficiency and share in the responsibility of Fulton County to provide "a safe space where our most vulnerable populations can receive the care and community support, they need."

ACTIVITIES

Atlanta CASA's primary role is to provide direct services to children who have been abused, neglected, and are destined for the foster care system in Fulton County. All program activities help remove barriers that prevent access to services and promote healthy behaviors. These activities include educating the public through community awareness and outreach, recruiting qualified volunteers, and conducting specialized training focused on empowering volunteers. (1) Educate the public through community awareness and outreach. A comprehensive marketing and outreach campaign will be implemented that includes: (a) identifying the media methods, locations, and schedule to recruit volunteers; (b) host orientation and informational sessions at community partner sites; (c) implementing the campaign for social media and working with community partners. (2) Recruit qualified volunteers. Recruit volunteers through orientation and informational sessions at community partner sites. Screen volunteers to determine whether the volunteer qualifies for the program. (3) Train the volunteers. Candidates are required to complete an application and interview and, if approved, attend a rigorous 40-hour training session, including 8-10 hours of court observation. Once the volunteers have completed training, they are officially

Docusign Envelope ID: 64C4DF96-33A3-448A-83DC-42A8D222A370

sworn-in by a Juvenile Court Judge as an officer of the court and mandated reporters and immediately assigned to a case. Most of Atlanta CASA's volunteers have at least completed some college, and during the interview process, it is asked for Volunteers to commit to at least 18 months with the program. The average CASA Volunteer stays with our program for approximately two years. Additionally, after their first anniversary of completing training, volunteers are required to complete 12 additional hours of in-service training. In-Service training can be any workshop, forum, or conference that will help improve their work as CASA Volunteers.

The Program Manager will be responsible for supervising the Advocacy Coordinators and overseeing the volunteers. The Volunteer Recruiter will be responsible for conducting outreach and recruiting volunteers. The Training Facilitators will be responsible for leading the training efforts.

The Advocacy Coordinators provide the volunteers with ongoing professional support, consultation, and supervision. The duties of the advocacy coordinators include: Identifying volunteer strengths and matching them to the case of an abused child; Providing background and contact information on children, families, and other parties with relevant information regarding the child's situation; Recommending alternative solutions in complicated cases; Editing written court reports, recommending community resources and referrals; Documenting the activities and progress of the cases; and serving as an in-house liaison to the juvenile court staff, DFCS, attorneys, and other professionals on the case.

CASA volunteers are the individuals primarily responsible for direct services and are essential to Atlanta CASA's success. The primary focus of the program is the core activities undertaken by volunteers, which include Conducting visits to the child (ren) on their case at least once a month. This face-to-face visit can occur at the foster home, school, during court, or in the community. Conducting interviews with other persons directly related to the case, including family members, mental health professionals, school staff, DFCS caseworkers, and foster parents. Helping staff attend Family Team Meetings, Judicial Panel Reviews, and Student Support/Individual Education Plan meetings and other meetings as requested or needed. Compiling a detailed report with recommendations for the court to review and make a sound judgment becomes an order. Recommending services coordinated with community resources, such as mentoring, counseling services, supervised visitation, financial relief services, transportation, and substance abuse treatment. Atlanta CASA often links with community resources such as Pathways, Oakhill Family Center, All About Developmental Disabilities (AADD), Fulton County Juvenile Court's Family Dependency Court Program, The Literacy Action Group, Catholic Charities, Independent Living Program, Atlanta Metropolitan College, and the Furniture Bank to satisfy the specific and ongoing

needs of the family.

Training 20 volunteers will allow Atlanta CASA to provide an array of support services that will positively impact an additional 20 - children by addressing challenges in the court system and advancing the health, safety, and well-being of many Fulton County residents. We are confident in reuniting over 50% of children with their biological parents because we focus on identifying and removing the barriers to family reunification and recommending services to allow them to return home.

This program aligns with Fulton County's Strategic Priority Area, Health & Human Services. We share in the responsibility with Fulton County of the adoption of healthy behaviors, the availability and quality of the healthcare services, and the physical environment in which individuals and families live, work, and play. We are also committed to decreasing health disparities and increasing health equity by addressing the needs of children that have been abused, neglected, and are destined for the foster care system. Our programs and services are primarily associated with the following Health & Human Services objectives preventing illness by engaging in healthier behavior, preventing health disparities by educating residents, connecting them to available resources, and supporting 4. Support the vulnerable residents in our social services. These objectives are supported by the collaboration and referral system to support the children and their families. The goal is to reunify the child with the family. As such, multiple engagement strategies are used to help families remove barriers. The support includes (a) referrals to support agencies (drug addiction programs, housing, employment, etc.), (b) visits with parents, and (c) working with parents to ensure that they have access to services that help to remove barriers. These services are designed to help the family encourage healthy behavior, address health disparities, and connect families to needed resources.

COLLABORATIONS

Atlanta CASA has established linkages that provide both formal and informal support to families (community resources, services, and opportunities). Atlanta CASA volunteers can recommend many coordinated services with community resources, such as mentoring, counseling services, supervised visitation, financial relief services, transportation, and substance abuse treatment.

Atlanta CASA volunteers can recommend many coordinated services with community resources, such as mentoring, counseling services, supervised visitation, financial relief services, transportation, and substance abuse treatment. Atlanta CASA often relies on community partners

Docusign Envelope ID: 64C4DF96-33A3-448A-83DC-42A8D222A370

to satisfy the specific and ongoing needs of the family. Some of these partners include: Fulton County Juvenile Court (FCJC), Fulton County Juvenile Court's Family Dependency Court Program, YouthSpark, Office of the Fulton County District Attorney, Pathways, All About Developmental Disabilities (AADD), The Literacy Action Group, Hands-On Atlanta, Independent Living Program (DFCS), Atlanta Metropolitan College, Clark Atlanta University, St. Leo College, John Marshall Law School, Georgia State University Child Well-Being Division, and The Furniture Bank of Metro Atlanta.

Atlanta CASA's goal is to work closely with the Georgia Division of Family and Children Services (DFCS) to avoid duplication of services or unnecessary interruption of services. For DFCS cases, all resources that benefit the family are discussed with the assigned case manager. Due to the DFCS's role as custodian of the child, all services must be approved by the assigned caseworker. Any resource recommendations we provide will be communicated to and approved by the caseworker. because DFCS is the de facto custodian of the child and is responsible for referring the family to resources, Atlanta CASA works to assist the caseworker. If any available DFCS services to the family conflict with other services being received and offered, Atlanta CASA will often recommend alternate resources with the consultation of DFCS. Our goal is to make sure services ordered by the Judge are received and continued if needed when the child is reunified with their family. Often DFCS is waiting for available funds to complete the application for services through The Furniture Bank, causing the child to linger in foster care. CASA would be able to pay the fee with funds from donations explicitly solicited for the use of paying The Furniture Bank. By coordinating with DFC

The following program measures/ Key Performance Indicators ("KPI's") will be utilized to track and report program outcomes for the Fulton County residents supported with CSP funding, during the funding period 01/01/2024 through 12/31/2024:

The plan for evaluating the program is to conduct periodic evaluations of the program activities to ensure that the program reaches the target population, and it achieves the expected results. The significant milestones to be completed for this project are to advocate for 20 children with the support of 20 volunteers through placement, adoptions, guardianship, reunions. The key program measures focus on:

- Number of volunteers recruited and trained. By the end of the project period in December 2024, we will recruit 20 volunteers to advocate for 20 children. Data will be collected based on the list of volunteers screened, qualified, and then trained. Sources used to identify the list include the informational sign-in sheets, applications submitted, training attendance sheet.
- Number of clients served. By the end of the project period in December 2024, we will provide services to an additional 20 children, which will be supported by CSP funding. The estimate of 20 is based on working with 20 volunteers, which supports an average of 1 child. Data will be collected from client records, case management files, recruitment files, training enrollment and completion records, the number of children in court, and the Judge assigned to a volunteer.
- Quality. An assessment of whether the program met or exceeded expectations, complaints, positive feedback, number of volunteers. Feedback from families will be solicited through survey questionnaires and informal discussions. Families are asked to fill out a survey rating the effectiveness of CASA's services. The questionnaires will be used to identify improvement areas to provide improved quality and service that is more effective. The survey questions will focus on how helpful volunteers were, their

Docusign Envelope ID: 64C4DF96-33A3-448A-83DC-42A8D222A370

knowledge of volunteers, and whether services were provided as expected. Feedback will also be solicited on the areas for improvement. By obtaining this feedback, the program will be able to make necessary adjustments to provide quality services. In addition to surveys sent out to families, Atlanta CASA is fortunate to have a database used to track each case's outcomes. This database allows the program to look at how long a child is in care, how long a volunteer works on a case, and the case closure rate.

- Satisfaction. An assessment of how satisfied were the stakeholders with the services provided. By the end of the project period in December 2024, we will have met or exceeded most stakeholders' satisfaction. Since Atlanta CASA's reputation relies heavily on "word of mouth," the referral sources and other stakeholders' feedback on the program is crucial. Surveys will be used to solicit feedback from referral sources and stakeholders. Atlanta CASA developed and began sending surveys to judges, attorneys, and other community partners. Survey results and case status are discussed in quarterly meetings. The program can determine the needed changes in staff development or potential volunteers' training using the collected data. This data helps with determining the type of in-service training we offer volunteers and staff. The surveys' results will be analyzed and used to identify unmet community needs, any gaps in the services provided by Atlanta CASA. The finding will also be used to improve the quality, effectiveness, and services provided to the target population. The surveys' results will help identify additional training needed for volunteers and staff or update the program's policies and objectives. The findings are shared with community partners to determine how we can collectively work more efficiently to expedite the permanency process for the children and families we serve.

The above describes the key performance measures' expected outcomes for the year. However, we will review progress periodically, particularly at the midpoint (June 2024) of the project period, to ensure that we are on track to achieve stated milestones.

Each child that participates in the program is assessed. As such, the measures will be determined by the assessment findings. The case manager and volunteer will work with the child and family members to identify resources to support and improve the academic and social-behavioral levels; and risk or level of involvement with the Juvenile Justice System. All activities are documented as part of the family's individualized service plan.

Agency Defined Performance Measure(s):

The Agency defined performance measures to report as defined by our strategic plan include:

- Within the next three to five years, Atlanta CASA goal is to increase our service rate of 94% of children in Fulton County DFCS care to serving 100%. The benefit of achieving this goal would be getting closer to our vision that every child in care has a CASA. During FY24, Atlanta CASA aims to enhance its recruitment plan such that more energetic and committed community members are actively serving.
- Ensure Atlanta CASA’s volunteer pre-service training prepares community members to effectively advocate for our client population. To achieve the goal of having committed volunteers, we will engage

Docusign Envelope ID: 64C4DF96-33A3-448A-83DC-42A8D222A370

on-going training and activities that maximize volunteer preparedness, advocacy readiness and case assignment ensuring a pool of well-trained volunteers to advocate for the duration of their assigned cases (18 months). This includes increasing our capacity to serve children through volunteer supervision and retention. Improve volunteer retention. Serve 100% of children in care through volunteer retention while appreciating the volunteers.

The progress of the above agency goals will be reported on during the project period.

Approach and Design:

Atlanta Music Project, Inc., FY24 Atlanta Music Project will provide services to **144** clients that reside in Fulton County, with CCSP funding.

Atlanta Music Project, Inc., will provide the following activities and services in Fulton County with CCSP funding:

Activities & Services & How They Will Be Accomplished:

AMP's first programming was part of the after-school program at the Gilbert House, a City of Atlanta recreation center. AMP provided music instruction (music theory, choir, symphony orchestra, and group lessons for a variety of instruments) 5 days a week for two hours to 30 elementary school students with an annual budget of $150,000. Today, AMP's annual operating budget is $3M+ and serves 600 K-12 students through the following programs:

AMP After-School Band & Orchestra: an after-school band and orchestra program for young musicians (elementary and middle school) who are at the beginning of their respective musical journeys. In a 13-year partnership with the City of Atlanta Department of Parks & Recreation, 40 students meet 4 days a week for 2 hours per day at two City of Atlanta Recreation Centers: Perkerson Park and South Bend Center for Arts & Culture. Students can choose to learn violin, viola, cello, bass, clarinet, flute, trumpet, trombone, or percussion and perform a minimum of four concerts annually.

AMP Preparatory School: beginner-level band, choir, and string orchestra program based at the AMP Center for students grades K-5 who are at the beginning of their respective musical journeys. Students meet 1-2 days per week/2 hours and perform 4 concerts annually.

AMP Junior & Senior Youth Orchestras: the ultimate goal for AMP After-School Band & Orchestra and Preparatory School students, the AMP Youth Orchestras are AMP's elite orchestral ensembles. Competitive, audition-based, and open to middle and high school students, these ensembles meet two days per week for 2 hours per day at the AMP Center and perform dozens of concerts annually.

AMP Junior & Senior Youth Choirs: the ultimate goal for AMP Preparatory School students, the AMP Youth Choirs are AMP's elite choral ensembles. Competitive, audition-based, and open to middle and high school students, these ensembles meet two days per week for 2 hours per day at the AMP Center and perform dozens of concerts annually.

AMP Academy: provides weekly private lessons to 50 AMP students at the AMP Center. Students are selected by audition and must perform three solo recitals (accompanied by piano) and one adjudicated performance examination annually, in addition to participating in their respective AMP orchestral or choral program.

The Residencies: throughout the year AMP will invite professional musicians from around the country to participate in a residency consisting of a concert, masterclass, mentoring, and a fireside chat. Past residencies include pianist Terrence Wilson, the Harlem String Quartet, British soprano Alison Buchanan, the Imani Winds Quintet, and operatic baritone Edward Parks.

Docusign Envelope ID: CCA03AB8-BD0D-44ED-BDB5-F18A3DAAEED8

AMP Summer Series: a four-week (expanded in 2022 from three weeks) music festival and school-based at the AMP Center and Sylvan Hills Middle School taking place each summer in June. Comprising a music day camp for 150 middle and high school musicians, and a five-concert series featuring students, faculty, and guest artists.

Satellite Programs: hosting organization pays a fee for AMP to provide beginner-level string orchestra and choir programs. Students will meet one day per week for two hours and perform 4 concerts annually. Past and present satellite sites include the Atlanta Youth Academy and the Utopian Academy for the Arts. No CSP funding will go towards these Satellite Programs as the funding is secured by the hosting organization.

All classes and performances are led by AMP's faculty of teaching artists (all paid local, degreed professional musicians, music educators, and conductors). Throughout all programs, students learn theory and technique, collectively performing 50+ concerts annually throughout Metro Atlanta of classical repertoire and music of the African Diaspora (Jazz, Spirituals, R&B, Caribbean, etc.), representing the community and youth being served. Tuition is covered by AMP, but a $25 registration fee is requested of students and payment plans and waivers are offered to alleviate any heavy financial burden.

With support from an anonymous donor, AMP has been able to set up an endowed fund to pay for annual travel, tours, and competitions for our advanced students. This year, the AMP Senior Youth Choir will travel to Auckland, New Zealand to compete in the World Choir Games and the AMP Senior Youth Orchestra will participate in an artistic and cultural exchange with the orchestra from De La Salle High School in Ottawa, Canada. Opportunities being planned include exchanges with the Antigua & Barbuda Youth Symphony Orchestra and joint performances with the Spartanburg Youth Philharmonic in South Carolina.

AMP prides itself on providing the highest quality music instruction and performance opportunities for students. Every teaching artist hired, every piece selected to be performed, and every programmatic decision made is compared to top music conservatories. Rehearsals and performances are run in a professional manner and AMP students are expected to come prepared to learn and act professionally: on and off stage.

AMP teaching artists form the foundation on which all programs are built. While trained at some of the world's greatest music institutions, they are more than just first-rate performers; they are musicians with social change in mind, the desire to pass on their talent and art to the next generation, and the ability to play a vital role in youth and community development. All paid, local, professional degreed musicians and music educators, many AMP teaching artists are also active performing musicians, reside in the community AMP serves, and are graduates of Atlanta Public Schools.

AMP provides a safe and enriching environment for students to spend after-school and summer hours. Students learn crucial life skills by becoming musically proficient, building community, finding mentorship with AMP teaching artists, learning how to learn better and applying it to their academics, and finding a sense of identity and purpose in the larger Atlanta community. Success is evident in retention numbers, an increase in new AMP students throughout the year, and the increase in performance opportunities.

In the Georgia Music Educators Association (GMEA) All-State ensembles (competitive statewide ensembles of the most talented young musicians), there is a glaring absence of Atlanta students. These students desire to be the best, but the affordability of private musical instruction necessary to guide them to reach their musical potential hampers success. AMP requires all AMP Academy students to audition for their respective GMEA All-State ensemble. Each year, the

Docusign Envelope ID: CCA03AB8-BD0D-44ED-BDB5-F18A3DAAEED8

number of AMP students that advance to the final round of auditions increases, and in the most recent year, it was 11: the highest to date.

Over the past 14 years, AMP students have increased both their individual and collective musical competency, which has led to a higher level of music performed and a greater number of performance opportunities. Throughout the year, AMP receives requests from major Atlanta organizations/corporations for AMP ensembles and soloists to perform at their galas and events. In AMP's first year, five organizations requested a run-out performance; now, over 40 organizations request a run-out performance annually. Our students have performed in local recreation centers and at some of Atlanta's most prestigious venues: the Georgia World Congress Center, Mercedes-Benz Stadium, Spivey Hall, and the Woodruff Arts Center. In March 2018, six members of the AMP Youth Orchestra participated in a week-long workshop in Mexico City under LA Philharmonic Maestro Gustavo Dudamel. AMP has performed the national anthem at the Mercedes-Benz Stadium 3 times, and we are already planning on how to be included when the FIFA World Cup comes to Atlanta in 2026.

Community Collaborative Relationships:

AMP is in its 14th year of partnering with the City of Atlanta's Department of Parks & Recreation. AMP provides everything necessary for our programs and the recreation center provides wraparound services (transportation, snacks, homework assistance, and a warm dinner). AMP plans to expand this partnership in the next three years as AMP continues to increase its capacity and impact.

AMP partners with Sylvan Hills Middle School to utilize their auditorium and classrooms for AMP's major concerts and the AMP Summer Series. AMP's Program Staff cultivates relationships with Atlanta Public School principals and teachers to foster trust and build a pathway from school to AMP. The majority of schools in the communities that AMP serves do not have the resources to provide strong music programs, so they welcome exposing AMP to their students. AMP staff goes into schools for in-person presentations/PTA meetings and provides flyers to include in weekly packets that go home.

Schools know that participation in AMP will give students the experiences needed to build upon what they're learning in school (music or otherwise) and become leaders in their classes. AMP students are consistently section leaders in their school music programs and are some of the only students to participate in their GMEA All-State ensemble. Participation in these ensembles requires a school teacher's registration of a student, so this partnership is crucial for providing access to this formative experience.

As previously mentioned, AMP partners with the Utopian Academy for the Arts to provide Satellite Beginner-Level AMP Programs. *No CSP funding will go toward Satellite Programs as the funding is secured by the hosting organization.*

Throughout the year, AMP hosts Open Houses for community members to come to the AMP Center and learn more about our programs. In addition to free food and door prizes, attendees enjoyed performances by AMP students and faculty, panel discussions with AMP parents, and an instrument petting zoo.

AMP partners with several local organizations to increase AMP's presence and to provide high-exposure performance opportunities. AMP students have performed at the Beloved Benefit, as a result of continued partnerships with The Arthur M. Blank Family Foundation and Dan Cathy of Chick-fil-A. Similarly, because of AMP's partnership with the Atlanta Regional Commission (specifically AMP's previous board member and ARC Executive Director, Doug Hooker)

Docusign Envelope ID: CCA03AB8-BD0D-44ED-BDB5-F18A3DAAEED8

AMP students recently performed at the 2019 State of the Region Breakfast. Several other AMP supporters have engaged our ensembles for performances at corporate events, including Habitat for Humanity, Mercedes-Benz USA, and SunTrust Bank.

Collaborations with celebrities are continually fostered to increase AMP's presence and cultivate learning and performance opportunities. AMP students have performed alongside GRAMMY Award-winning superstars such as gospel rapper Lecrae, R&B artist Monica, and rapper T.I. on NPR's Tiny Desk concert series. AMP Summer Series students have learned from and performed with professional musicians such as the Harlem String Quartet, American pianist Terrence Wilson, British Soprano Alison Buchanan, American baritone Joshua Conyers, operatic Baritone Edward Parks, and Imani Winds quintet.

Collaborations for Continuing Education:

According to Learn4Life's data, only 29% of college enrollees in Georgia complete their degrees within five years. Students can often be derailed by emergencies and unexpected financial hurdles that can prevent them from completing their education. AMP supports all their seniors throughout the entire college application process to ensure that each student has all the necessary tools and support in selecting the step in their education.

Beyond music, AMP's programs prepare students to successfully gain admission into college and become leaders in the field of their choice. AMP is leveraging music education to create first-generation college graduates. AMP has graduated five high school classes (2019-2023) and has achieved a 100% on-time high school graduation rate – 19.7% higher than the APS average – with 90% of alumni currently enrolled in college. Comparatively, the communities that AMP serves have a high school graduation rate of 80.8% and a college enrollment rate of 47.6%.

In August 2021, AMP hired our first-ever College & Career Counselor to assist our high school students to prepare to successfully graduate on time, plan for their next steps (whether continuing their education or looking for employment), as well as continuing to support their endeavors after graduation (assisting in finding scholarships, internships, professional connections, etc.). Since the hiring of this counselor, AMP has begun to create new relationships with music programs across the country, opening new avenues for collaboration and heightened investment in AMP students' future.

AMP students have access to our in-house College & Career Counselor who assists AMP students and alumni throughout the entire college selection (SAT/ACT-prep, scholarship opportunities, applications, pre-screening videos, interviews, final decisions, etc.) and completion process (scholarship opportunities, internship discovery, etc.). This individual also cultivates opportunities for AMP students and alumni to develop workforce skills, including resume building, interview skills, basic administration skills, and etiquette.

Additionally, AMP students who graduate high school are eligible to continue their education at the collegiate level due in part to two partnerships: with 1) Clayton State University via the AMP Endowed Scholarships (providing financial support to AMP students who choose to major or minor in music at the university) and 2) the Chestnut Family Foundation Scholarship Fund (assisting AMP alumni pursuing any post-secondary degree for tuition, room and board, books, instruments, and emergency living expenses).

Fulton County Strategic Priority & CSP Funding Priorities:

Docusign Envelope ID: CCA03AB8-BD0D-44ED-BDB5-F18A3DAAEED8

AMP will 'Help resident realize their educational potential through our community services and library programs' under Fulton County's "Health & Human Services" strategic priority. Specifically, AMP will continue to track the percentage of AMP high school students who graduate on time as well as the percentage of AMP students overachieving. AMP intrinsically addresses several of the Community Services Program's "Children & Youth Services" funding priorities:

1) AMP is an afterschool/out-of-school program to help bring up academic and social/behavioral levels of school-aged youth.

2) AMP ensures safety and justice by providing alternatives to activities and contributing factors that lead to unhealthy behaviors in children and youth.

3) AMP focuses on assisting students in graduating from high school ready for college and career, as defined by the National Milestone of My Brother's Keeper Alliance.

The following program measures/ Key Performance Indicators ("KPI's") will be utilized to track and report program outcomes for the Fulton County residents supported with CSP funding, during the funding period 01/01/2024 through 12/31/2024:

Methods & Goals:

The Atlanta Music Project (AMP) provides world-class music training and performance opportunities in under-resourced communities where high-quality band, orchestra, choir, and private lesson programs are not typically found. AMP programs take place six days per week (Monday-Saturday) in a variety of fashions: private instruction (for AMP Academy students), sectional rehearsals (e.g. "all strings" or "all sopranos and altos"), and full ensemble rehearsals. All lessons and rehearsals are led by AMP's faculty teaching artists who are all paid, local, degreed professional musicians, music educators, and conductors. AMP hires the best local musicians to be teaching artists and models conservatory-level musical training to ensure that students are receiving the highest-quality music education to set them up for success in all their future endeavors: musical and beyond.

AMP tracks artistic standards by ensuring that AMP students are progressing through method books (Winning Rhythms, Essential Elements), performing music that increases in graded difficulty throughout the year, and (for the AMP Senior Youth Orchestra) by the amount of standard classical repertoire performed. For AMP Academy private lessons, AMP faculty guide their students through the Suzuki Method Book, other "etude" books, and solo pieces that are part of the canon for each particular instrument. Across all programming, AMP seeks to (and continues to successfully) surpass the Georgia Department of Education Standards of Excellence for music.

The Program Staff regularly observes rehearsals and private lessons to ensure that AMP's musical standards are upheld. Should an issue arise, the Chief Program Officer is notified and the necessary steps will be taken to either assist the teaching artist to restructure their lesson plans. In addition to the agency-defined desired performance measures listed in the next section, AMP programs have the following desired outcomes:

Beginner-Level Programs (After-School Band & Orchestra, Preparatory School): the difficulty of music gradually increases throughout the year, based on advancement through method books and level of ensemble pieces performed. The appropriate amount of progress through method books is determined by the expert assessment of AMP teaching artists and Program Staff for the entire ensemble and for each individual AMP student.

AMP Youth Orchestras & Choirs: the difficulty of music gradually increases throughout the year, based on the level of difficulty of ensemble pieces performed and progress through any assigned method books. The appropriate increase in

Docusign Envelope ID: CCA03AB8-BD0D-44ED-BDB5-F18A3DAAEED8

the difficulty of pieces performed and progress through method books is determined by the expert assessment of AMP teaching artists and Program Staff for the entire ensemble and for each individual AMP student.

AMP Academy: first-year students will perform two solo recitals and returning students three recitals, of increasingly advanced music. All students will perform (and must pass) a graded performance adjudication in May. All AMP Academy students are required to audition for the Georgia Music Educators Association (GMEA) All-State ensembles. The appropriate increase in the difficulty of pieces performed and progress through any method books is determined by the expert assessment of AMP teaching artists and Program Staff for the entire ensemble and for each individual AMP student.

AMP Summer Series: experienced music students grades 4-12 participate in a four-week music day camp, receiving seven hours of music instruction daily, and performing seven concerts. The appropriate amount of musical progress is determined by the expert assessment of AMP teaching artists and Program Staff for the entire ensemble and for each individual AMP student, with any necessary adjustments being made after each performance throughout the festival.

Collectively, AMP students perform 50+ concerts per season. Throughout the year, AMP receives requests from major Atlanta organizations/corporations for AMP ensembles and soloists to perform at their galas and events, which accounts for roughly 40% of the total number of performances each season. The rest of the AMP students' concerts are hosted by AMP. Some annual performances (and auditions) include:

- 'First Listen' Concerts each September/October (beginner-level programs)

- Fall Recitals (AMP Academy students)

- GMEA All-State auditions each Fall (AMP Academy students and interested AMP students in other AMP programs)

- Collegiate Music School pre-screen auditions each Fall

- Holiday Concerts each December (all AMP ensemble programs)

- Summer Music Festival auditions each Winter (for all interested AMP students)

- Collegiate Music School final auditions each January/February (AMP high school students interested in pursuing a degree in music or a music scholarship)

- Music of the African Diaspora Concert Series each February (all programs)

- Spring Recitals each April (AMP Academy students)

- End-of-Year Concerts each April/May (all AMP ensemble programs)

- AMP Summer Series Concert Series each June (all AMP Summer Series students)

To determine participant and audience satisfaction, AMP issues post-program surveys to parents, track student retention, and operates an anonymous system where both students and parents can submit feedback at any time. To include the community in the planning and evaluation of programming, the AMP Board of Directors holds an ex officio spot for the president of the Atlanta Music Project Family Committee, as well as being available to hear suggestions at any point during the season.

Through the registration process, AMP is able to monitor the pertinent demographics of students, including their address, school, race, gender, and socio-economics. All of the data gathered from the registration form is uploaded to Jumbula (a cloud-based database specifically designed for youth music groups) and is updated regularly to account for all changes in student data.

Third-Party Impact Evaluation:

Last season, AMP has partnered with the University of Kansas Center for Public Partnerships & Research to conduct a Transformative Mixed Methods Evaluation of the AMP Academy (our private lessons program) and the AMP Youth Orchestras & Choirs. This evaluation is unique in that it collects both quantitative and qualitative data, with two examined outcomes:

1) Participant-Driven Measures of Success: Rather than assigning measures in advance of the study, researchers will allow interviews and focus groups with stakeholders to generate the measures they deem appropriate. These data would be qualitative, taken from students, instructors, and parents. Onsite focus groups are ideal, which can be supplemented with online surveys, interviews, and focus groups, as needed. Focus groups will occur once at the beginning of the school year and once at the end.

2) Characteristics of Success: Researchers will examine persistence, grit (through National Institute of Health PROMIS measures), and mindset. We will also do a growth analysis that should show how extended involvement in AMP can benefit students over time. Additionally, students will complete the Positive Youth Development Instrument that examines five theoretical constructs (competence, confidence, connection, character, compassion), and a growth analysis of these results will occur.

AMP selected this method as it allows us to evaluate what our field/donors as well as our constituents value as effective results. Typical evaluations focus on quantitative data, driven by how the larger field or donors define success, to statistically prove the efficacy of an organization. While this information is important and necessary, an oft-missing factor is how those served define success. AMP will use this research to compare and contrast these two facets to discover 1) where AMP as an organization stands in our definition of success values in comparison to our students and families and 2) how effective we are in fulfilling our mission.

The evaluation plan will be reviewed and approved by the Human Research Protection Program, which administers the Institutional Review Board, at the University of Kansas. All findings will be published for AMP stakeholders, academic publications, and arts education advocacy, and should we decide to continue this research into future years, data collection instruments would be refined, more data collection could be remote, and future data could go into the published report if publication is extended.

Fulton County Performances Measures:

AMP will report on the following Community Services Program's "Children & Youth Services" performance measures:

1) Number of school-aged youth benefiting from AMP programs to help bring up academic and social/behavioral levels.

2) Number of youth involved with or at risk for involvement with the Juvenile Justice System who demonstrate decreased or no delinquent behaviors.

3) Number of boys and young men of color benefiting from My Brother's Keeper programs and services that address persistent opportunity gaps (defined by six National Milestones of My Brother's Keeper (MBK) Alliance). Specifically gaps in graduating from high school and being ready for college and a career.

Agency Defined Performance Measure(s):

In addition to the aforementioned performance measures, AMP will report on the following performance measures:

1) Present a minimum of 50 public performances to increase AMP's presence in the Metro Atlanta community and allow high-exposure performance opportunities for AMP students.

2) 90% of AMP high-school senior students graduate on time (8% higher than the Georgia state average).

3) An increase in the difficulty of music performed. This will be determined by the progress through method books (appropriate amount of progress determined by teaching artists for each AMP student), amount of classical canon repertoire performed (for AMP Youth Orchestras), and complexity of vocal parts (Youth Choirs).

4) Gain a "Satisfied" or "Very Satisfied" in 90% of performance surveys administered to parents, students, and teaching artists.

5) At least 10 AMP students advance to the final round of GMEA All-State auditions.

Time2Give's will focus on supporting In School/ Afterschool/ Out of School Programs to enhance the student experience and exposure to topics centered around AgSTEM. The program will focus on STEM curriculum design and integration leveraging robotics kits. Robotic kits consist of ready to assemble hardware and sensor hardware and software. Adequate resources are being devoted to ensure that the appropriate materials are developed, teachers are trained and that the infrastructure needed to implement is in place. Our efforts include:

1. Curriculum Development: Under this grant, one full course leveraging hands on experimentation using the existing robotics kits will be developed. The course components will vary to be grade level specific. The course will be designed to be interdisciplinary, modular and will support the core education standards, combined with one or more hands on activities.
2. Training & PD: Time2Give will provide resources to train two teachers on proper implementation of the course developed. Time2Give will shadow those teachers as they lead a cohort of students through selected modules with partner schools' teachers to ensure successful implementation of the course within the classroom.

Proposal addresses three Fulton County "Health & Human Services" Key Performance Indicator(s) (ref. pages 3-4 of CSP manual) (3 points)

Our program's goal is to expose youth in an at-risk community to STEM and spark a desire to pursue a career in STEM. Between 2017 and 2029, the number of STEM jobs will grow 8 percent, a higher rate than non-STEM jobs (US Bureau of Labor Statistics) resulting in lower unemployment in the field. The median annual wage of STEM occupations in 2020 was $89,780, well over that of non-STEM occupation. Employment & financial stability will help to improve economic factors – one of the key inputs into Fulton County Health Ranking and Roadmaps report. This falls under Health & Human Services KPI "Prevent health disparities by educating resident and connecting them to available resources."

The National Dropout Prevention Center (NDPC) has identified 15 effective strategies for dropout prevention. Our program is in alignment with two of these strategies, specifically;

School- Community Collaboration – our program establishes year-round collaboration between APS and community organizations such as Truly Living Well to support the STEM lab established within the schools.

After-School/Out-of-School Opportunities – this program is designed to inspire interest in STEM and urban gardening. We are currently implementing an afterschool and summer programming centered on AgSTEM that will align with the content developed for the school year and provide an enriching activity over the summer.

Docusign Envelope ID: F7970CC7-1AED-442C-86E2-D89F6853EA08

Therefore, our program is in alignment with percentage of high school students who graduate on time under the KPI “Help residents realize their educational potential through our community services and library programs”. This program is also improve unemployment, math scores as measured in the County Health Rankings and Roadmaps report. Therefore our program is in alignment with Improve the County's standing in the County Health Rankings and Roadmaps report under the KPI “Prevent health disparities by educating residents and connecting them to available resources”.

Identifies specific activities and services that will be provided to support one or more CSP funding priorities. (3 points); Proposal addresses three CSP funding priorities as identified by the primary service category selected. (3 points);

Time2Give also plans on addressing the following CSP Children &Youth Services Funding Priorities.

My Brother’s Keeper Objective: Entering School Ready to Learn.

The pandemic took a heavy toll on the learning gains of metro Atlanta students. According to research by Georgia State University's Metro Atlanta Policy Lab for Education (MAPLE) published May 2021 - the average slowdown in achievement growth ranged from none to as high as seven months of learning across the districts for eighth grade math and 7.5 months for seventh grade reading across the three districts. Specifically, math achievement growth for students eligible to receive free or reduced-price meals—a crude measure of poverty—was substantially lower than for ineligible students, with a disparity of up to 3.2 months of learning in sixth grade in one district (more than a third of a typical 9.5-month school year).

Several research studies have shown that early exposure to STEM topics has led to an increase in achievement in mathematics and science.

· Mathematics achievement of students at STEM schools was significantly higher than that of students in other schools. The effect of STEM education on mathematics achievement of fourth-grade underrepresented minority students. McClain (2015)

· STEM training increased elementary school students’ mathematics achievement. Effects of transferring to STEM- focused charter and magnet schools on student achievement. Judson (2014)

Docusign Envelope ID: F7970CC7-1AED-442C-86E2-D89F6853EA08

· A study with elementary school pupils found that a curriculum based on engineering design enhanced elementary school pupils' science knowledge. Engineering design based science, science content performance, and science attitudes in elementary school. Wendell and Rogers' (2013)

· A study conducted with high school students concludes that the academic performance brought by STEM increased students' science and mathematics achievement. Impact of academic performance improvement (API) skills on math and science achievement gains. (Wosu, 2013)

Our program will develop and implement Computer Science themed Problem Based Learning (PBL) lessons which is in alignment with the content that is currently being taught or has recently been taught in the Science, Math classroom. CONSUMER DISCLOSURE

From time to time, Carahsoft OBO Fulton County, Georgia (we, us or Company) may be required by law to provide to you certain written notices or disclosures. Described below are the terms and conditions for providing to you such notices and disclosures electronically through the DocuSign, Inc. (DocuSign) electronic signing system. Please read the information below carefully and thoroughly, and if you can access this information electronically to your satisfaction and agree to these terms and conditions, please confirm your agreement by clicking the 'I agree' button at the bottom of this document.

Getting paper copies

At any time, you may request from us a paper copy of any record provided or made available electronically to you by us. You will have the ability to download and print documents we send to you through the DocuSign system during and immediately after signing session and, if you elect to create a DocuSign signer account, you may access them for a limited period of time (usually 30 days) after such documents are first sent to you. You may request delivery of such paper copies from us by following the procedure described below.

Withdrawing your consent

Consequences of changing your mind

If you elect to receive required notices and disclosures only in paper format, it will slow the speed at which we can complete certain steps in transactions with you and delivering services to you because we will need first to send the required notices or disclosures to you in paper format, and then wait until we receive back from you your acknowledgment of your receipt of such paper notices or disclosures. To indicate to us that you are changing your mind, you must withdraw your consent using the DocuSign 'Withdraw Consent' form on the signing page of a DocuSign envelope instead of signing it. This will indicate to us that you have withdrawn your consent to receive required notices and disclosures electronically from us and you will no longer be able to use the DocuSign system to receive required notices and consents electronically from us or to sign electronically documents from us.

All notices and disclosures will be sent to you electronically

Unless you tell us otherwise in accordance with the procedures described herein, we will provide electronically to you through the DocuSign system all required notices, disclosures, authorizations, acknowledgements, and other documents that are required to be provided or made available to you during the course of our relationship with you. To reduce the chance of you inadvertently not receiving any notice or disclosure, we prefer to provide all of the required notices and disclosures to you by the same method and to the same address that you have given us. Thus, you can receive all the disclosures and notices electronically or in paper format through the paper mail delivery system. If you do not agree with this process, please let us know as described below. Please also see the paragraph immediately above that describes the consequences of your electing not to receive delivery of the notices and disclosures electronically from us.

Docusign Envelope ID: AEE09447-210F-4057-B6F4-7AF9FEF5B59F

Families First behavioral health and Navigator services are provided in office and virtually to reduce barriers to access. Families are supported through intensive case management, counseling and other support services. We will provide intervention and prevention services to Fulton County individuals and families and others who are referred to us.

The families served by the Navigator program are struggling with complex challenges, including homelessness, housing insecurity, unemployment, underemployment, food insecurity, lack of health care and often untreated trauma. Navigators will develop family care plans, walk with clients through the process of enrolling in social service assistance, ensure clients get the help they need in the present, and act as a guide and mentor to support the family in becoming self-sufficient.

The behavioral health program is designed to improve the coping and functioning skills of low-income children, adults and families by providing counseling services to help them heal from emotional pain and trauma, stabilize mental health symptoms, develop coping skills to deal with life stressors, strengthen family and social relationships and achieve a greater sense of well-being and improved quality of life.

By offering counseling through our Behavioral Health Department and intensive case management via our Navigator services, Families First will provide Fulton County clients two “front doors” to access the help they need. For instance, if a client who is receiving counseling is housing or food insecure, a Families First counselor can refer them internally to our Navigator program and vice versa; if a Navigator services client is suffering from substance abuse, they will be referred to the Behavioral Health Department for mental health counseling.

Families First proposes to deliver effective, comprehensive, evidenced based/informed, nonjudgmental, empathetic services that focus on reducing stigma, are accessible and meet the needs of the individuals and families we serve. These activities will be led by the Director of Clinical Services and the Director of Navigator Services. Families First behavioral health and Navigator professionals are culturally competent and reflect the population being served, including race, language and sexual orientation.

Individuals and families will be screened for baseline resilience at the beginning of treatment using the FFRNS and the Social Determinants of Health assessment. Clients will have their resiliency scored again at the end of treatment and aftercare.

Families First behavioral health services and Navigator care model directly address two of Fulton County's Health & Human Services Key Performance Indicators:

1. Prevent illness by engaging in healthier behaviors by increasing the percentage of residents engaged in substance abuse treatment – opioid, drinking, vaping
2. Prevent health disparities by educating residents, thus increasing the number of people who receive behavioral health services and connections to available resources

Additionally, these services meet the CCSP funding priority of Health and Wellness service category via the following two priorities:

1. Prevent illness and health disparities by educating and connecting individuals to available resources.
2. Programs addressing mental health, depression, stress, trauma and anxiety among individuals.

By coordinating behavioral health and Navigator services Families First is providing whole person, wrap-around care that holistically addresses behavioral issues that have been impacted by social factors. These services address the underlying depression, anxiety, lack of steady employment and other challenges poverty creates in the lives of our clients. By utilizing this comprehensive approach, we are much more effective in increasing the resiliency of our clients.

Families First will ensure that fewer Fulton County residents experience hunger by helping clients enroll in SNAP benefits and providing linkages to food pantries and other community food resources. Clients who are stably housed and food secure are able to focus their energy on other economic stability efforts, like workforce development or gaining their GED. Families First services provide a foundation to help clients overcome the long-term impacts of intergenerational poverty. Navigator and other behavioral health services will help families build resilience through addressing unresolved trauma, anxiety and other mental health struggles. Our comprehensive services will stabilize famiies in the present and provide coping skills for families to use in the future.

Families First has developed several strategic partnerships with agencies and organizations in the community that share our vision of all children and families strengthening their resilience so they can achieve their full potential. Partners such as the City of Atlanta provide funding to support direct services; Odyssey Family Counseling delivers substance use treatment to our clients in need of specialized

treatment; Morehouse School of Medicine supplies psychiatric services, including medication management; and Raising Expectations shares our main office space and provides virtual schooling and youth programming to children on the Westside. Raising Expectations also serves as a referral source for the Navigator program. We have also partnered with the Westside Future Fund, connecting us to other local partners who are specifically focused on caring for and strengthening Westside residents and the community we call home. Our partnership with Laureus Sport for Good allows participants to explore various sports and how to lead a healthy lifestyle. We have a partnership with Work Source Georgia for workforce development coaching. These carefully cultivated partnerships help support our families by providing services that lie outside Families First programs and provide our clients with a comprehensive, well-rounded, customized care plan and resources they can utilize to help them build resiliency and remain self-sufficient when future challenges arise.

Program Performance Measures:

Families First, Inc. agrees to track and report program performance to the Fulton County Department of Community Development.

County Defined Performance Measure(s):

Children and Youth: Not Applicable

Disabilities: Not Applicable

Economic Stability: Not Applicable

Health and Wellness: Number of individuals connected to available resources to help mitigate illness and health disparities,Number of individuals receiving referrals to behavioral health and other supportive services,Number of individuals who report or demonstrate improved health-related outcomes or other “quality of life” measures

Homelessness: Not Applicable

Senior Services: Not Applicable

Veterans Services: Not Applicable

The following program measures/ Key Performance Indicators (“KPI’s”) will be utilized to track and report program outcomes for the Fulton County residents supported with CSP funding, during the funding period 01/01/2024 through 12/31/2024:

Families First has identified four projected outcomes for the coordination of services between behavioral health Navigator services: 1) Decrease barriers to physical and mental health services; 2) Increase clients’

Docusign Envelope ID: AEE09447-210F-4057-B6F4-7AF9FEF5B59F

feelings of safety and stability; 3) Improve overall family functioning; and 4) Stabilize families for the long-term.

Strengthening resiliency is the foundation of these outcomes. Upon entry to the program, each family will be screened for resilience using the FFRNS and the SDOH assessment. This assessment will first help us ensure that the client's housing and other basic needs are met, followed by a custom treatment plan around housing, food, safety, education, and medical and mental healthcare.

We know that when clients do not have to worry about having a roof over their head, they are more intentional about working on family dynamics, workforce development and education. Families will learn the skills to advocate for themselves, navigate community resources, and maintain stability physically, mentally, emotionally and spiritually.

First staff are trained in Motivational Interviewing (MI), a method that facilitates and engages intrinsic motivation within the client in order to change behavior based on a goal-oriented, client-centered counseling style. We utilize Trauma-Informed Care follows nine key principles: Safety, Transparency, Peer Support, Collaboration, Empowerment, Voice/Choice, Cultural, Historical and Gender Issues. Mental health is fundamental to the safety, well-being and success of children, families and the community we serve.

At the same time that we are addressing mental health issues, we are working on clients' education and career goals by partnering with organizations that specifically address workforce development. These skills, knowledge and capabilities are directly correlated to creating stability and building resilience over time in order for clients to be less dependent on social services.

While we continue to evaluate a client's progress through the duration of the program, we will score family resilience at the end of treatment and schedule after-care check-ins for 6-18 months. These aftercare check-ins allow us to assess where a client is emotionally, physically and mentally on the path to continuing mental stability and self-sufficiency.

Families First counselors and Navigators will work with clients and their families to ensure their effective utilization of all supportive services and completion of their treatment plans. We believe that the combined services of behavioral health and the Navigator program will have a significant impact on families' abilities to remain stably housed, achieve economic stability, build resilience and improve their mental and emotional well-being. Families that strengthen their resilience can adapt to future challenges by accessing community resources rather than returning to Families First or our partners.

Families come to our doors seeking support because they have exhausted their existing resources and connections. We work first to ensure their basic needs are met and then we work on the underlying barriers that resulted in whatever challenges they may be facing.

Docusign Envelope ID: AEE09447-210F-4057-B6F4-7AF9FEF5B59F

Many of our clients are dealing with unresolved trauma from generations of poverty which can result in mental health challenges that prevent them from gaining and/or maintaining employment. We offer mental health counseling to help clients address and start to overcome the anxiety, depression and other issues that can prevent them from participating in workforce development initiatives and future employment.

Because our treatment plans are tailored to address the unique needs of the individuals we serve, the achievement of milestones during the contract period will vary. However, as an example, for a client receiving counseling services, treatment goals are reassessed at least every 90 days. The FFRNS, which is the entry point for all clients receiving services, is completed every 90 days, again at program exit and throughout aftercare.

The Families First's Continuous Quality Improvement (CQI) team is responsible for monitoring and evaluating the agency's programs and ensuring compliance with grants, contracts and alignment with the strategic plan for the agency. Applying a 360-degree model of evaluation, participants, program staff and community partners will all be involved in submitting, reviewing and analyzing data for the overall agency.

Data about the program, specifically the number of inputs and activities, the number and percent of participation and feedback will be tracked through our organization's database and is compiled and reviewed by staff bi-monthly. Families First will maintain and evaluate rosters to track program participation and guide outreach and recruitment. The program will be formally evaluated by our CQI department using a logic model and evaluation plan. Additionally, participants will be given client satisfaction surveys to assess the success of the program from the client's point of view. Both the formal evaluation by our Data and Evaluation Analyst and the client surveys will allow Families First staff to evaluate the effectiveness of the program and make adjustments if outcomes and goals are not being met.

The county-defined performance measures that Families First will compile and report on during the contract period are:

1. Number of individuals connected to available resources to help mitigate illness and health disparities
2. Number of individuals receiving referrals to behavioral health and other supportive services
3. Number of individuals who report or demonstrate improved health-related outcomes or other "quality of life" measures

· 75% of clients will reduce the barrier to access to healthcare due to out of pocket costs

· 80% of clients will exhibit progress on at least one goal on their treatment plan or family care plan

· Clients will increase overall resiliency

· Clients will reduce barriers to access to healthcare due to out-of-pocket costs

Clients will be screened for resilience using the FFRNS-14 Screening at intake and screened again at program exit and throughout aftercare. Families First staff will maintain and evaluate rosters to track program participation and guide outreach and recruitment. Staff may develop and administer additional surveys, assessments and/or evaluations to inform program design and improvement.

ADDITIONAL INSURED PRIMARY AND NON-CONTRIBUTORY ENDORSEMENT FOR PUBLIC ENTITIES

This endorsement modifies insurance provided under the following:

COMMERCIAL GENERAL LIABILITY COVERAGE PART

SCHEDULE

Name of Person or Organization:

A. Section II – WHO IS AN INSURED is amended to include:

4. Any public entity as an additional insured, and the officers, officials, employees, agents and/or volunteers of that public entity, as applicable, who may be named in the Schedule above, when you have agreed in a written contract or written agreement presently in effect or becoming effective during the term of this policy, that such public entity and/or its officers, officials, employees, agents and/or volunteers be added as an additional insured(s) on your policy, but only with respect to liability for "bodily injury", "property damage" or "personal and advertising injury" caused, in whole or in part, by:

a. Your negligent acts or omissions; or
b. The negligent acts or omissions of those acting on your behalf;

in the performance of your ongoing operations.

No such public entity or individual is an additional insured for liability arising out of the sole negligence by that public entity or its designated individuals. The additional insured status will not be afforded with respect to liability arising out of or related to your activities as a real estate manager for that person or organization.

B. Section III – LIMITS OF INSURANCE is amended to include:

8. The limits of insurance applicable to the public entity and applicable individuals identified as an additional insured(s) pursuant to Provision A.4. above, are those specified in the written contract between you and that public entity, or the limits available under this policy, whichever are less. These limits are part of and not in addition to the limits of insurance under this policy.

C. With respect to the insurance provided to the additional insured(s), **Condition 4. Other Insurance of SECTION IV – COMMERCIAL GENERAL LIABILITY CONDITIONS** is replaced by the following:

4. Other Insurance

a. Primary Insurance

This insurance is primary if you have agreed in a written contract or written agreement:

(1) That this insurance be primary. If other insurance is also primary, we will share with all that other insurance as described in **c.** below; or

Docusign Envelope ID: AEE09447-210F-4057-B6F4-7AF9FEF5B59F

(2) The coverage afforded by this insurance is primary and non-contributory with the additional insured(s)' own insurance.

Paragraphs (1) and (2) do not apply to other insurance to which the additional insured(s) has been added as an additional insured or to other insurance described in paragraph **b.** below.

b. Excess Insurance

This insurance is excess over:

1. Any of the other insurance, whether primary, excess, contingent or on any other basis:
   (a) That is Fire, Extended Coverage, Builder's Risk, Installation Risk or similar coverage for "your work";
   (b) That is fire, lightning, or explosion insurance for premises rented to you or temporarily occupied by you with permission of the owner;
   (c) That is insurance purchased by you to cover your liability as a tenant for "property damage" to premises temporarily occupied by you with permission of the owner; or
   (d) If the loss arises out of the maintenance or use of aircraft, "autos" or watercraft to the extent not subject to Exclusion **g.** of **SECTION I – COVERAGE A – BODILY INJURY AND PROPERTY DAMAGE**.
   (e) Any other insurance available to an additional insured(s) under this Endorsement covering liability for damages which are subject to this endorsement and for which the additional insured(s) has been added as an additional insured by that other insurance.

(1) When this insurance is excess, we will have no duty under Coverages **A** or **B** to defend the additional insured(s) against any "suit" if any other insurer has a duty to defend the additional insured(s) against that "suit". If no other insurer defends, we will undertake to do so, but we will be entitled to the additional insured(s)' rights against all those other insurers.

(2) When this insurance is excess over other insurance, we will pay only our share of the amount of the loss, if any, that exceeds the sum of:
   (a) The total amount that all such other insurance would pay for the loss in the absence of this insurance; and
   (b) The total of all deductible and self-insured amounts under all that other insurance.

(3) We will share the remaining loss, if any, with any other insurance that is not described in this **Excess Insurance** provision and was not bought specifically to apply in excess of the Limits of Insurance shown in the Declarations of this Coverage Part.

c. Methods of Sharing

If all of the other insurance available to the additional insured(s) permits contribution by equal shares, we will follow this method also. Under this approach each insurer contributes equal amounts until it has paid its applicable limit of insurance or none of the loss remains, whichever comes first.

If any other the other insurance available to the additional insured(s) does not permit contribution by equal shares, we will contribute by limits. Under this method, each insurer's share is based on the ratio of its applicable limit of insurance to the total applicable limits of insurance of all insurers.

Described below are the terms and conditions for providing to you such notices and disclosures electronically through the DocuSign, Inc. (DocuSign) electronic signing system. Please read the information below carefully and thoroughly, and if you can access this information electronically to your satisfaction and agree to these terms and conditions, please confirm your agreement by clicking the 'I agree' button at the bottom of this document.

Getting paper copies

At any time, you may request from us a paper copy of any record provided or made available electronically to you by us. You will have the ability to download and print documents we send to you through the DocuSign system during and immediately after signing session and, if you elect to create a DocuSign signer account, you may access them for a limited period of time (usually 30 days) after such documents are first sent to you. You may request delivery of such paper copies from us by following the procedure described below.

Withdrawing your consent

If you decide to receive notices and disclosures from us electronically, you may at any time change your mind and tell us that thereafter you want to receive required notices and disclosures only in paper format. How you must inform us of your decision to receive future notices and disclosure in paper format and withdraw your consent to receive notices and disclosures electronically is described below.

Consequences of changing your mind

If you elect to receive required notices and disclosures only in paper format, it will slow the speed at which we can complete certain steps in transactions with you and delivering services to you because we will need first to send the required notices or disclosures to you in paper format, and then wait until we receive back from you your acknowledgment of your receipt of such paper notices or disclosures. To indicate to us that you are changing your mind, you must withdraw your consent using the DocuSign 'Withdraw Consent' form on the signing page of a DocuSign envelope instead of signing it. This will indicate to us that you have withdrawn your consent to receive required notices and disclosures electronically from us and you will no longer be able to use the DocuSign system to receive required notices and consents electronically from us or to sign electronically documents from us.

All notices and disclosures will be sent to you electronically

Approach and Design:

Entryway, Entryway - Fulton County Career Training, Job Placement, and Housing Program will provide services to **5** clients that reside in Fulton County, with CCSP funding.

Entryway, will provide the following activities and services in Fulton County with CCSP funding:

While the work of Entryway Atlanta addresses many of the funding priorities related to the CSP Service Category of "Homelessness," we have chosen to highlight how our programs align with the funding priorities associated with the CPS Category of "Economic Stability/Poverty." Those priorities include:

- CSP Funding Priority #1: Training/Job Development/Employment which leads to self-sufficiency. Ex-offender support services (employment, housing options and transitional skills training).
- CSP Funding Priority #2: Access to digital literacy / training for middle skill jobs including "earn and learn" models which allow job seekers to meet basic needs while training to enter living wage jobs.
- CSP Funding Priority #3: Improved access to economic opportunities, programs and resources focused on foundational education, career exploration; coaching to re-engage youth up to age 21 and provide job-readiness skills for employment. Wraparound Support to address basic needs during training (rental assistance, transportation, childcare).

Service/Activity: Entryway works with Continuum of Care service providers to identify program candidates that are a good fit for our program.

In our model, Entryway staff cultivate relationships with non-profit social service providers who work with individuals experiencing homelessness, provide workforce development opportunities, or both. Those providers help us identify individuals who have the skills sought by our property management partners and would potentially be interested in our program. We then screen and vet candidates through interviews and background checks to ensure they are a good fit for our partners' open positions and vice versa.

Nonprofits referring candidates to Entryway must complete a program application for each candidate. The program application (sent to the Executive Director and the national program team) requires the following information about the candidate, which is later confirmed by Entryway staff:

- Client information - age, demographics, gender, race, marital and veteran status
- Household information - family members/dependents along with age, race, relationship status
- Education, criminal background, employment information
- Sources of income

- All expenses and debt

Service/Activity: Entryway cultivates partnerships with multifamily housing companies that are willing to interview, employ and affordably house program participants

A research study released in May 2022 commissioned by the National Multifamily Housing Council and National Apartment Association reports that the U.S. needs 4.3M new apartments by 2035 to meet demand. This rapid growth in the multifamily housing industry also leads to a demand for quality employees to fill entry-level positions in property management. Entryway matches leading property management companies with individuals who are ready to work and have the motivation and skill set for a career in property management. The result is an innovative program that provides full-time employment and housing opportunities for individuals at-risk of or facing homelessness and a pipeline of high-quality, motivated employees for the multifamily housing industry.

Entryway Atlanta partners with 13 apartment management companies, placing people experiencing situational homelessness in entry-level jobs at residential communities where they are also provided with discounted onsite housing. Most regional partners provide a 70% market rate discount to rent for the first 12 months of the program participants' employment. By comparison, the industry standard housing discount for on-site employees is approximately 20%.

Service/Activity: Entryway hosts/sponsors/attends targeted job fairs where participants are provided opportunities to connect with partnering multifamily housing companies that will ultimately offer them employment and housing.

In 2024, Entryway Atlanta is committed to hosting two job fair hiring events. Hosted events feature the following components and deliver tangible results:

- These are all-day events. In the morning, our referrals/candidates will receive interview prep sessions and resume coaching to be well-prepared for actual interviews that will occur in the afternoon.
- Prospective employers set up booths where they display recruitment and marketing materials and can interact with candidates.
- In this model, candidates have an opportunity to talk to multiple potential employers, get a chance to practice "soft skills" like interviewing and networking, and have a greater agency in selecting where to submit applications.
- Prospective employers have an opportunity to interview potential employees, survey the candidate pool, pitch their specific job opportunities, and further their DEI objectives.
- These events also provide an opportunity for funders and other corporate partners to see first-hand the value of Entryway in breaking down stereotypes about unhoused individuals and, most importantly, in connecting these persons with a future prospect that includes housing and a job. Not a theoretical, nebulous future but rather a tangible and near-term future.
- We will capture metrics for all events, including overall participation numbers. Candidate metrics include demographic information, family status, job categories, placements, and veteran status. For industry partners, we will track the number of interviews and for what role; the number of individuals asked back for a follow-up interview; and the number of individuals hired.

Docusign Envelope ID: 0094D188-D346-455E-9033-6CEA0EBE92FA

In addition, Entryway will co-sponsor and attend at least four additional job placement events aimed at connecting participants with employers and identifying future participants. In these cases, participants will receive interview preparation and job skills training virtually.

Service/Activity: Entryway's mentor program supports program participants in the longer-term

The Entryway mentoring program pairs Entryway candidates with volunteer mentors who commit to engaging with the candidates for 12 months. We believe a robust mentoring program is crucial for our clients and will help ensure long-term self-sufficiency beyond the first year of employment. To work with our program participants, mentors must:

- Be at least 20 years old
- Complete a volunteer application, sign a volunteer confidentiality agreement, and interview with the Executive Director (to assess appropriateness, commitment level, and gather the information that will assist in developing good mentor-mentee matches)
- Complete a specialized training program that covers topics like healthy mentoring relationships, boundaries, understanding the issue of homelessness, codes of conduct, procedures, and communicating with Entryway.
- Once matched, the Mentor, Mentee, and Entryway will enter into a formal mutual mentoring agreement.

Service/Activity: Entryway provides online training opportunities specific to the needs of participants and high-demand jobs sought after by the property management industry as well as more advanced vocational/technical training that improves opportunities for advancement in the multifamily housing industry over time.

Entryway has recently incorporated a state-of-the-art Learning Management System, Edge2Learn, into our program. This online training platform specializes in vocational training for roles in the multifamily housing industry. They provide courses and learning paths that prepare program participants to succeed in Groundskeeper, Maintenance Technician, and Leasing Office Coordinator roles. A myriad of industry-specific and soft-skill training topics are available through Edge2Learn, including modules related to property maintenance, leasing and marketing, operations, human resources, and leadership.

Entryway also develops its own internal training courses that have been customized to meet the specific needs of our program participants. The Entryway Training Department will continue to evolve our in-house offerings as the needs of participants and our multi-family partners emerge. Our soft skill literacy training courses are particularly valuable to participants, topics include: communication, interviewing, resume writing, presentation skills, self-motivation, and email etiquette. Technical training in Microsoft Word, Outlook, PowerPoint, and Excel are also offered.

Service/Activity: Entryway partners with organizations that can equip program participants with more advanced vocational/technical training that improves their opportunities for advancement in the job market.

When participants are ready, Entryway helps provide pathways to more advanced and specialized training to improve their ability to get wage increases, promotions, or certifications. Entryway engages in numerous partnerships with vocational training entities. Examples of these partnerships include:

- Goodwill Industries 7-week CAMT (Certified Apartment Maintenance Technician) course: Entryway participants taking advantage of this opportunity receive training for careers in the field of residential or

Docusign Envelope ID: 0094D188-D346-455E-9033-6CEA0EBE92FA

commercial facility management and repair, OSHA 10 Safety Training, EPA Universal as well as R410A (Refrigerant). Plumbing, Electrical, and CPO (Certified Pool Operator) coursework. This 7-week course is free to all Entryway participants.

- Licensing Boards of America offers an EPA 608 Certification. Entryway refers their participants to the Licensing Board of America for EPA (Environmental Protection Act) 608 certification. This certification is mandatory for any maintenance technician who maintains, services, repairs, or disposes of chemicals in standard HVAC and heating systems.

- Chadwell University offers training in Appliance TroubleShooting. This hands-on program provides participants with the skills and experience to service all major appliances, from washing machines and dryers to ranges and refrigerators.

- The Atlanta Apartment Association offers CALP (Certified Apartment Leasing Professional) Certification. This is the first credential earned in a career in residential property management, and assists leasing agents with integrating successful sales techniques, increasing resident retention, and meeting resident needs.

Health and Human Services Strategic Objectives/Key Performance Indicator Alignment

The services provided by Entryway most closely align with the following Fulton County "Health and Human Services" Strategic Objectives and the associated Key Indicators that are improved by those services appear below:

Fulton County "Health and Human Services" Strategic Objective #1: "Prevent health disparities by educating residents and connecting them to available resources."

- Associated Key Indicator improved by the services provided by Entryway include:
    - Number of uninsured adults and children

According to a study done by the National Healthcare for the Homeless Council, of the more than 20,000 patients served by Georgia's federally-funded Health Care for the Homeless facilities in 2019, 65% were uninsured. When Entryway enters into a partnership with a multifamily housing property management company, we negotiate a series of minimum requirements related to the job offers our program participants receive. Health insurance is one of those requirements. Therefore, we expect that all 20 Fulton County participants funded by this grant will become insured as part of their employment terms, thus helping Fulton County reduce the number of uninsured adults and children in 2024. In addition, the health insurance status of participants is tracked both 90-days after a participant is hired by one of our property management partners, and at Graduation or program exit (whichever comes first) as part of our "Self-Sufficiency Matrix" assessment.

HHS Strategic Objective: "Support the vulnerable residents in our social services."

- Associated Key Indicators Improved by the services provided by Entryway
    - Number of residents who receive permanent supportive housing and support services
    - Percentage change in the homeless population each year.

Docusign Envelope ID: 0094D188-D346-455E-9033-6CEA0EBE92FA

Entryway has delivered impressive outcomes related to participant job retention and housing stability. As previously mentioned, data shows that 87% of Entryway participants remain employed for at least one year in the multifamily housing industry - that employment includes discounted housing. Data also confirms that 93% of Entryway participants do not re-enter homeless services within one year. We expect these trends to extend to the 22 Fulton County residents that would benefit from these grant funds, thus contributing to an increased number of residents receiving permanent, long-term housing and avoiding chronic homelessness.

Collaborative relationships to assist organizations to address this need:

Most non-profit organizations serving those experiencing homelessness must choose which to prioritize for their clients: housing or employment. Entryway can offer both simultaneously through our partnerships with non-profit partners and property management firms.

Entryway is a Continuum of Care (CoC) organization in Atlanta and has relationships with more than 30 local nonprofits that help identify candidates for our program. These “referring nonprofit partners” help Entryway connect with individuals experiencing situational homelessness, are enthusiastic about working in the multifamily housing industry, and have workforce experience. Referral partners in the Atlanta area include the Atlanta Veterans Administration, ARCHI (Atlanta Regional Collaborative for Health Improvement), Goodwill of North Georgia, the Salvation Army, Mercy Care of Atlanta, Action Ministries, the Atlanta Mission, Atlanta Technical College, Chris 180, the Warrior Alliance, Hope Atlanta, Project Community Connections, Inc., United Way of Atlanta, and Hands on Atlanta.

Entryway has 13 multifamily industry partners that have agreed to interview, hire and house Entryway participants in Atlanta including ACRE First Communities. Cortland. Crescent Communities. Dominium, Fairfield, Gables, Windsor, Harbor Group, IMT Residential, IRT Living, Middleburg, Ti Communities, and Waterton.

In addition, we partner with CORT Furniture, a company that provides furniture rentals and transitional services throughout the country. CORT and Entryway have teamed up to provide a Housewares Essentials Kit to every Entryway participant when they transition to their new apartment. The kit includes essentials such as linens, towels, kitchen necessities, small appliances, and more to make their new place to live a home in which to thrive. CORT also provides furniture pieces to our participants, which include bedroom furniture, dining room sets, and living room sets - tables, chairs, ottoman, coffee table, and television.

Through a partnership with Comcast, we can provide free internet service and laptops to participants without significantly impacting our program budget. Any participant in our program who wants or needs a computer gets one. Computer literacy training will also be provided by our volunteers.

The following program measures/ Key Performance Indicators ("KPI's") will be utilized to track and report program outcomes for the Fulton County residents supported with CSP funding, during the funding period 01/01/2024 through 12/31/2024:

Entryway Atlanta will use the following methods to reach goals relating to three Economic Stability/Poverty County defined performance measures:

1. Number of referrals to WorkSource Fulton/WorkSource Atlanta
2. Number of individuals placed in Living Wage Employment, receiving training/job development/employment support services which lead to self-sufficiency
3. Number of individuals receiving access to and support for educational resources (vocational partnerships)

County-defined performance measure #1: Number of referrals to WorkSource Fulton/Worksource Atlanta

- Corresponding Goal: 11
- Methods: After a candidate has been screened and accepted into the Entryway program, it is standard practice to refer them to WorkSource Fulton/WorkSource Atlanta (WorkSource). The executive director makes these referrals and keeps a record of any WorkSource assistance received for each candidate in the program. After referral to WorkSource Fulton/WorkSource Atlanta, candidates will have the option to apply for WIOA funding for the following 2 services:

  (1) WorkSource provides funding to economically disadvantaged adults, at-risk youth, and dislocated workers through the WIOA (Workforce Innovation and Opportunity Act). When well-suited, this program provides funding to Entryway participants seeking training to increase or enhance skill levels to gain employment. When Entryway participants need vocational or technical training from a WorkSource-eligible training provider, WorkSource uses WIOA funds to pay for the training.

  (2) On-the-Job Training (OJT) utilizes WIOA resources to subsidize the training period for eligible new hires. New hires must be WIOA-eligible participants and hired as "employees" of the business. Subsidies can be up to 75% of wages for six months for qualified employers and qualified jobs/positions. For example, if an apartment complex hired one of our participants as a leasing coordinator, Entryway could ask WorkSource to use WIOA funds to subsidize up to 75% of their salaries for the first 6 months.

- How this will be measured (tools used): Entryway will track the number of referrals to WorkSource Fulton and WorkSource Atlanta as well as the number of participants who are subsidized for WIOA funding for training and credentialing and/or OJT.

County-defined performance measure #2: Number of individuals placed in Living Wage Employment, receiving training/job development/employment support services which lead to self-sufficiency

- Corresponding Goals: 11

Docusign Envelope ID: 0094D188-D346-455E-9033-6CEA0EBE92FA

- Methods: Helping people move from homelessness to self-sufficiency is at the core of our mission. As such, we ensure that we are effectively meeting the needs of those we serve by closely tracking job placement, training, and housing data. The Executive Director maintains this data.

  Additionally, Entryway uses a tested tool, the "Self-Sufficiency Matrix," to ascertain how self-sufficient participants are at different stages in our relationship with them and uses that information to guide the support we provide them. The Self-Sufficiency Matrix is administered at three points in the relationship: 1) initial screening, 2) 90 days after a participant is hired by one of our property management partners, and 3) at Graduation or program exit (whichever comes first). To complete the Self-Sufficiency Matrix, the Executive Director or Intake/Evaluation Program Assistant of Entryway Atlanta asks the program participant a series of questions related to seven domains of self-sufficiency: income, employment, housing, food, adult education, legal, and life skills.

  Once the appropriate current status of the participant is found, the Executive Director or Intake/Evaluation Program Assistant scores all seven domains and enters it into a system referred to as "Trax" so that information can be aggregated for analysis to help refine programming over time. This information has a very immediate impact on participants as well. As mentioned, administering the Self-Sufficiency Matrix includes direct interaction between the participant and the Entryway staff. Participants' responses are scored by domain and on a continuum that includes ratings of 1) in-crisis, 2) vulnerable, 3) safe, 4) building capacity, and 5) empowered. Because there is real-time interaction, Entryway can act quickly to help participants if they fall into an "in-crisis" or "vulnerable" state in any of the domains. This tool lets us strategically engage our wide network of CoC partners. This tool also allows us to identify areas of opportunity that might help a participant move from a "safe" to an "empowered" state in a domain.

- How this will be measured (tools used): We will capture metrics for all job fair events, including overall participation numbers. Candidate metrics include demographic information, family status, job categories, placements, and veteran status. For industry partners, we will track the number of interviews and for what role; the number of individuals asked back for a follow-up interview; and the number of individuals hired. Entryway also monitors and adjusts participant support over time by using the Self-Sufficiency Matrix with all participants at the three intervals mentioned above.

County-defined performance measure #3 Number of individuals receiving access to and support for educational resources (including vocational partnerships)

- Corresponding Goals: 11

- Methods: All Entryway program participants engage in career and life skill training. The Executive Director and Training manager closely track each participant's education-related connections and accomplishments while in the Entryway program. We believe that the strongest path to economic self-sufficiency lies in providing their participants with extensive vocational training and specific certifications. We encourage program participants to continue honing their skill sets in the long term, making it more likely that their financial health and overall quality of life will continue to improve over time.

Docusign Envelope ID: 0094D188-D346-455E-9033-6CEA0EBE92FA

As discussed in more depth under the Design & Activities section, we have relationships with training providers like Goodwill Industries, Licensing Boards of America, Chadwell University, and the Atlanta Apartment Association. Some of the specialized certifications/skills available to our participants through these providers include:

- Certified Apartment Maintenance Technician
- OSHA 10 Safety Training Certification
- EPA Section 608 Technician Training (Universal)
- R410A (Refrigerant) Certification
- Make Ready Maintenance Technician training (including basic Plumbing, Electrical, and
- Certified Pool Operator (CPO)
- Appliance Tear Down & TroubleShooting Coursework
- Certified Apartment Leasing Professional) Certification

The Self-Sufficiency Matrix is also used to identify challenges and opportunities specifically related to "adult education." For instance, if a participant doesn't have a high school diploma or GED, and isn't currently enrolled in high school, a GED program, or an alternative education program, they are flagged as "in crisis." In this case, Entryway would refer that participant to a CoC partner with a GED or alternative education program.

How this will be measured (tools used): Entryway tracks the number of participants who enroll in training and credentialing programs and the number of participants who graduate and obtain a credential or certification. The Self-Sufficiency Matrix is also administered as described above.

Entryway also measures milestones per participant as opposed to the program year. The two biggest milestones are the 1 year graduation (the participant has been in the program for 1 year and been with the same employer for a year and maintained stable housing for a year), and not returning to homelessness at the end of the program. The other two milestones are that at the end of the year, the participant has received a promotion and or wage increase.

Data collection tool(s) used to report progress on performance measures: We use focus groups, surveys, telephone surveys/screenings, and customer service polls.

Agency Defined Performance Measure(s):

The following agency-defined performance measures correspond with our national objectives, and Entryway will strive to achieve them locally and capture data to report to Fulton County as well:

Agency-defined performance measure #1: Number of individuals remaining with their original employer after one year of employment.

Methods: We commit to exceeding an 80% retention rate, defined as Entryway participants remaining with their original employer after one year of employment. High retention rates generally reflect healthy job satisfaction among participants and, for the employer, create value in labor stability, resident satisfaction, and cost savings (lower turnover rates are associated with lower recruitment training costs).

In the multifamily industry, workforce turnover is extremely high. According to the National Multifamily Housing Council, on average, property management companies replace 31% of their workforce annually, with many operators reporting a 50% turnover for their entry-level positions. Shelters for Shutters has an astonishing 87% annual employee retention rate among the individuals we have placed through this program.

Docusign Envelope ID: 0094D188-D346-455E-9033-6CEA0EBE92FA

How this will be measured: Job retention rates reported by employer-partners and the participants.

Agency-defined performance measure #2: Number of individuals not reentering homeless services within 1 year.

Methods: We expect that at least 90% of Fulton County participants will not re-enter homeless services within 1 year. Through our comprehensive program that combines housing, employment, training, and support services, we expect to help participants overcome common barriers to stability that cause them to experience homelessness again. Our goal is to transition individuals from experiencing homelessness or housing instability to economic self-sufficiency. We are proud to have a 93% success rate of participants not re-entering homeless services. We commit to maintaining this level of success and will continue to track this metric.

How this will be measured: By analyzing HMIS data and participant follow-up contact.

Agency-defined performance measure #3: Number of individuals that receive a wage increase within 12 months.

Methods: The multifamily industry offers clear and direct pathways with opportunities for advancement and promotions mapped out for entry-level employees. We work with our entry-level participants to enroll them in training and certification courses, making them eligible for wage increases and promotions to ensure their long-term success further. Of those participants who have been with the program for at least one year, 89% have received wage increases.

For Fulton County participants supported by this funding, this performance measure would be tracked at multiple points after employment (3 months, 6 months, 12 months)

How this will be measured: Wage increase information is reported by employer-partners and the participants.

This will indicate to us that you have withdrawn your consent to receive required notices and disclosures electronically from us and you will no longer be able to use the DocuSign system to receive required notices and consents electronically from us or to sign electronically documents from us.

All notices and disclosures will be sent to you electronically

To reduce the chance of you inadvertently not receiving any notice or disclosure, we prefer to provide all of the required notices and disclosures to you by the same method and to the same address that you have given us. Thus, you can receive all the disclosures and notices electronically or in paper format through the paper mail delivery system. If you do not agree with this process, please let us know as described below. Our grant request focuses on the CSP funding priority of "Kindergarten Readiness." This is, in fact, the primary focus of our entire school. Preparing youngsters to be ready to succeed in Kindergarten is at the heart of everything we do at the CDA. Our school

Docusign Envelope ID: 50800DD8-1BEF-4C00-9305-BDBD69150746

follows the guidelines established by the National Association for the Education of Young Children (NAEYC) and Georgia's Bright from the Start and Department of Early Care and Learning programs. We follow evidence-based programs and practices of quality early childhood education, early intervention, nutrition, and healthcare that support a child's intellectual development and academic success.

- Play-based Creative Curriculum promotes social/emotional, physical, cognitive, and language development
- Early literacy program focuses on reading skills and language acquisition
- Enrichment activities, such as field trips, cultural performances, and nature explorations, and in-center visits from community helpers
- Parent-teacher conferences inform and engage parents in their child's education
- Parent workshops and family-based activities
- Developmental assessments and referrals
- Federally-funded nutrition program (CACFP) – wholesome breakfast, lunch, and snack

Our curriculum provides developmentally appropriate activities in:

- Literacy – Vocabulary and language, phonological awareness, letters, words, print, comprehension, and books
- Mathematics – Numbers, patterns and relationships, geometry and spatial awareness, measurement, data collection and organization
- Science – Life science, earth, and the environment
- Social Studies – Spaces and geography, culture, the environment, and history
- Arts – Dance, music, movement, drama, and visual arts
- Technology – Awareness, basic operations, and tools

The daily schedule is a carefully planned balance between child-initiated and teacher-directed activities. Each child is offered small and large group experiences, one-on-one interactions with the teacher, and free play. Actively supervised outdoor play is offered twice daily on our two-acre playground. The teacher's role is to observe, plan, guide, and assess child learning in one to two week thematic content units.

In addition to our robust curriculum, we also offer two additional support programs to help our disadvantaged children overcome hurdles so they can achieve their fullest potential: our Early Literacy Program and our Family Advocate program.

Early Literacy

Early Literacy has been a key Kindergarten-readiness program at the CDA for more than a decade. Staffed by a full-time Literacy Coach, the program prepares our young children, including a large number of English language learners, to arrive at Kindergarten with the skills they need to read, write, follow a list of instructions, anticipate what comes next in a story, and use pictures to interpret new printed words and to count objects. Early Literacy promotes language development and reading with activities designed to

Docusign Envelope ID: 50800DD8-1BEF-4C00-9305-BDBD69150746

stimulate their curiosity and desire to read. Enrichment programs such as puppet shows, live music and movement, clowns, magicians, visits from community helpers such as police and firefighters, and even a petting zoo, all contribute to early literacy. Kiwanis members read regularly to Pre-K classes, and Read Across America Day brings in civic and elected leaders as guest readers. The Roswell Rotary created a Birthday Book Box for children to choose a book to keep on their special day. With the help of volunteers and book donations, the CDA maintains a bilingual Little Free Library on our campus, which helps ensure that families always have access to age appropriate books at home.

Reading is a family affair at CDA. Parents receive monthly literacy newsletters in both English and Spanish encouraging family literacy with activities and techniques that increase reading comprehension and engagement. Families participate in workshops such as our fall and spring Family Literacy Nights, read to classes on Fridays, and take part in the Hands Up for Reading program that encourages children to read at home. At the beginning of the school year, parents receive valuable information on reading development milestones, choosing books for children, and a literacy kit at our Open House.

Family Advocacy

The CDA employs a Family Advocate who serves as a bridge between home and school, providing resources that children need to do well in school. She is responsible for coordinating developmental, vision, hearing, dental, and immunization screenings, and referrals. Six weeks after enrollment, children are screened in five developmental areas: communication, gross motor, fine motor, problem-solving, and personal-social. Coming to the CDA is often the first time that a child's developmental delay is noticed. Parents do not always know what to look for or how other children compare to theirs. Our experienced educators can detect concerns and bring them to the attention of our Advocate for additional action. Parents are sometimes surprised to learn not only that their child is behind in a skill but that there are resources available to overcome or head off a delay before it becomes a learning disability. Early intervention made possible by having a Family Advocate is essential to learning success.

When a family struggles with challenges such as job loss, death, divorce, food insecurity, legal or other problems, the Family Advocate offers resources and referrals for services. Combating the stressors and pressures that plague low income families promote family stability, which in turn stimulates healthy child development. The young children in our care are prone to events and situations that challenge family stability. These difficulties, often due to conditions of poverty, are detrimental to a child's learning ability. Prolonged exposure to adversity creates a condition called toxic stress that affects brain development in a young child. Extensive research shows that prolonged stress response in the body and brain has damaging lifelong effects on learning, behavior, and health. Early intervention can make a huge difference.

Goal Achievement

We accomplish our goals by employing the very best teachers and staff available. Our Center Director, Early Literacy Coordinator, and Family Advocate have more than 40 years of experience in Early

Education. They are all committed to program excellence and work together as a team to ensure our program meets the many needs of our students and families. Our Executive Director, Maggie DeCan, has over 25 years of successful executive leadership experience and oversees all aspects of our organization. Together, with a committed Board of Directors, our Executive Director works closely with the Center Director to ensure we maintain a focus on quality programming.

Perhaps the strongest strategy we employ to ensure we accomplish our program goals is our commitment to maintaining our NAEYC and 3-Star Quality Rating. By continually striving to meet the benchmarks of these two measures of excellence, we ensure that our program will always exceed industry standards and deliver the very best early-learning experience for our young students. Maintaining these high-quality measures ensures that we are doing all we can to help prepare our students for Kindergarten success.

Health and Human Services Key Performance Indicators

Our program helps Fulton County achieve its strategic program objectives for Health and Human Services. Our literacy based early-learning program helps students build the foundational skills needed to ensure that our students will read on grade level in elementary school, graduate on time, and meet literacy requirements. We are also helping to reduce food insecurity in our community. In addition to providing 2 nutritious meals and snacks for our students each day, we also offer a Food Assistance program for our families. Bi-weekly, we share food provided by our local food partners with our parents, helping to ensure that none of our families experience hunger. Finally, our Family Advocate helps prevent health disparities in our community by coordinating developmental, vision, hearing, dental, and immunization screenings, and by connecting our families to available resources.

CSP Funding Priorities

Our program helps Fulton County achieve their funding priorities within the “Children and Youth Services” category by the following:

- Kindergarten Readiness: our entire program is focused on this goal
- Out of School Programs: Each summer we offer the following summer transition programs - Rising Kindergarten program to help any students in our area who need help preparing for Kindergarten. We also offer a Rising Pre-K program targeted primarily to students from bilingual homes who need help preparing for Pre-K success.
- MBK milestone: Reading at Grade Level by third grade. Our Early Literacy program is geared to ensure our students receive the important early literacy foundation that will prepare them to enter Kindergarten ready to learn to read, which will help them stay on target for reaching this third-grade milestone.

Community Collaboration

The CDA has successfully delivered our mission of affordable, high-quality early learning by establishing a strong reputation in our community and among the philanthropic individuals and organizations in our area. With a solid track record of successful leadership and a commitment to program excellence, we have cultivated a diverse fundraising strategy over the years that includes support from local and national funders, several collaborative partners, successful special events, and numerous individual patrons who champion our cause. Among the many collaborative partnerships, the following examples highlight the diversity of our partners:

The Goizueta Foundation: Our largest funder, the Goizueta Foundation has provided six-figure, multi-year grants that help us provide scholarships. The foundation also established a small endowment fund that is used to provide additional tuition support to families in crisis.

Zion Missionary Baptist: For many years now, Zion has pledged annual funding to our school for scholarship support, and Zion members frequently volunteer at our school.

Referral Partners: The CDA works with local nonprofits including North Fulton Community Charities, The Drake House, HomeStretch, Groveway Community Group, and Family Promise to refer families for additional services, and they in turn refer their clients to the CDA for preschool.

Civic Partners: Among the many volunteers who support our mission, the CDA has longstanding partnerships with the Roswell Rotary Club who provides books for our Birthday Book Box in addition to annual grant funding; the Kiwanis Club who sponsors a Fourth of July Celebration; the Roswell Woman's Club who provides funding for scholarships and classroom volunteers; and we also work with several chapters of the National Charity League and Young Men's Service League that provide numerous volunteers and much-needed in-kind donations of supplies.

Food Partners: The CDA stocks a reach-in refrigerator just inside the school's front entrance so that families can help themselves to donated food at drop-off and pick-up. Local restaurant Souper Jenny provides 40 quarts of freshly made soup bi-weekly, and local farm Martin's Gardens regularly provides fresh vegetables.

North Point Community Church: North Point's Be Rich campaign provides substantial funding, including urgent capital needs, like classroom renovations, as well as scholarship support for our students, and countless donations of "essential items" like paper towels, tissues, and wipes.

Roswell Presbyterian Church: The CDA is one of the Mission Partners for Roswell Presbyterian Church. In addition to annual financial support, the RPC Mission provides volunteers for numerous projects throughout the year and holds collection drives for Back to School supplies.

Fulton County Performance Measure

The CDA will track the Fulton County Performance Measure of "Number of students assessed ready for Kindergarten" under the Children and Youth Services defined Performance Measures category. At the

Docusign Envelope ID: 50800DD8-1BEF-4C00-9305-BDBD69150746

CDA, teachers use a developmental assessment called Work Sampling Online (WSO) to measure our Pre-K student's progress across 69 indicators in seven domains of learning: Personal and Social Development, Language and Literacy, Mathematical Thinking, Scientific Thinking, Social Studies, The Arts, and Physical Development, Health and Safety. All indicators are aligned with the Georgia Early Learning and Development Standards (GELDS). Teachers evaluate children throughout the year and use the data to create individualized instruction and provide guidance to families. This assessment data is transferred at the end of the Pre-K year and is available to the child's Kindergarten teacher at the beginning of their Kindergarten year.

To measure "Kindergarten readiness" we will track the following performance measures:

1. WSO Performance: At least 70% of our Pre-K students will score Proficient on all seven indicators for this assessment, and at least 80% will score Proficient on four indicators. The WSO is administered to all Pre-K students twice a year by the Lead Teacher.

2. Ages and Stages Questionnaire (ASQ): Over 90% of our Fulton County students (enrolled for at least six weeks at the time of the screening) will receive this age-appropriate developmental screening. This screening is administered twice per year by the classroom Lead Teacher and shared with the parents.

3. Early Intervention Referral: 100% of all students identified by the ASQ results as "needing Early Intervention services" will be notified and free or low-cost intervention services will be suggested. This process is administered by our Family Advocate primarily after the ASQ's are evaluated, but our teachers are always looking for indications that a child may have delays.

Agency Defined Performance Measure(s):

CDA (Agency) Performance Measures

1. Enrollment - We anticipate 2024 enrollment to be similar to 2023, in which we served 198 children from Fulton County. Approximately 60 Fulton County children will be enrolled in our 3-Year-Old program (the area funded by the CSP grant). The CDA will provide 51 weeks of full-day, early childhood education services to the Fulton County students funded by the CSP.

2. Nutrition - We serve a nutritious breakfast, lunch, and snack to our students each day, following Georgia's Bright from the Start CACFP nutrition guidelines. All of our Fulton County students will receive these 3 meals each day they attend our program in 2024. This represents more than 2,000 meals served to Fulton County children each week and more than 100,000 meals or snacks served each year!

Electronic Record and Signature Disclosure

CONSUMER DISCLOSURE

From time to time, Carahsoft OBO Fulton County, Georgia (we, us or Company) may be required by law to provide to you certain written notices or disclosures. Described below are the terms and conditions for providing to you such notices and disclosures electronically through the DocuSign, Inc. (DocuSign) electronic signing system. Please read the information below carefully and thoroughly, and if you can access this information electronically to your satisfaction and agree to these terms and conditions, please confirm your agreement by clicking the 'I agree' button at the bottom of this document.

Getting paper copies

At any time, you may request from us a paper copy of any record provided or made available electronically to you by us. You will have the ability to download and print documents we send to you through the DocuSign system during and immediately after signing session and, if you elect to create a DocuSign signer account, you may access them for a limited period of time (usually 30 days) after such documents are first sent to you. You may request delivery of such paper copies from us by following the procedure described below.

Withdrawing your consent

If you decide to receive notices and disclosures from us electronically, you may at any time change your mind and tell us that thereafter you want to receive required notices and disclosures only in paper format. How you must inform us of your decision to receive future notices and disclosure in paper format and withdraw your consent to receive notices and disclosures electronically is described below.

Consequences of changing your mind

If you elect to receive required notices and disclosures only in paper format, it will slow the speed at which we can complete certain steps in transactions with you and delivering services to you because we will need first to send the required notices or disclosures to you in paper format, and then wait until we receive back from you your acknowledgment of your receipt of such paper notices or disclosures. To indicate to us that you are changing your mind, you must withdraw your consent using the DocuSign 'Withdraw Consent' form on the signing page of a DocuSign envelope instead of signing it. This will indicate to us that you have withdrawn your consent to receive required notices and disclosures electronically from us and you will no longer be able to use the DocuSign system to receive required notices and consents electronically from us or to sign electronically documents from us.

All notices and disclosures will be sent to you electronically

Unless you tell us otherwise in accordance with the procedures described herein, we will provide electronically to you through the DocuSign system all required notices, disclosures, authorizations, acknowledgements, and other documents that are required to be provided or made available to you during the course of our relationship with you. To reduce the chance of you inadvertently not receiving any notice or disclosure, we prefer to provide all of the required notices and disclosures to you by the same method and to the same address that you have given us. Thus, you can receive all the disclosures and notices electronically or in paper format through the paper mail delivery system. If you do not agree with this process, please let us know as described below. Please also see the paragraph immediately above that describes the consequences of your electing not to receive delivery of the notices and disclosures electronically from us.

BCM's Emergency Assistance Program aligns with the Economic Stability/Poverty CSP Funding Priority. Qualifications to receive financial support from the Emergency Assistance Program include:

- Lease, mortgage, or hotel receipt in their name
- Lived in their home/rental unit for at least three months; BCM has flexibility based on client circumstances
- Paid three full months of rent, mortgage, or hotel rates; BCM has flexibility based on client circumstances
- Utility bill in their name (excludes hotel residents)
- Documented emergency (hospitalization, job loss, car repairs, reduced work hours, etc.)
- Photo ID and Social Security Card

BCM has adapted our program requirements to meet the continued increased need due to the long-term effects of the pandemic on vulnerable individuals and families, such as flexibility regarding length in their current residence. Due to increased need and rapidly rising rents in the Atlanta region, BCM's maximum assistance payment is $3,500/household, based on demonstrated need. As a result, BCM may serve fewer clients in 2024 than in 2023 with grant funds but with increased financial support for each household.

BCM's offices are closed to the public, and all programs are delivered virtually with excellence. BCM has increased the number of appointments for emergency financial assistance. BCM continues to use an online application process for emergency financial assistance to simplify and expedite the process; this continues to be an excellent model for our clients.

Appointments for Emergency Financial Assistance occur on Monday, Tuesday, Thursday and Friday from 8:00 a.m. - 4:00 p.m. Appointments are not scheduled on Wednesdays. When open, BCM's facility is ADA-compliant, utilizing ramps and an elevator to accommodate individuals with mobility challenges. BCM's client intake form is attached.

To receive assistance, clients complete an online application on BCM's website and select three appointment options. Case Managers screen the online applications and collect all required documentation before the appointment; accommodations are made for those with technology challenges. The Case Manager assesses each case and issues a pledge for how much rent/mortgage and/or utility assistance BCM will pay. BCM typically does not pay the entire amount due, and the client has seven days to redeem the pledge. In certain instances, and with appropriate funding, BCM can fulfill the total amount due. Then the Case Manager processes the file, BCM's Business Manager issues the check, the Chief Program Officer signs it, and the payment is sent to the client's landlord and/or utility company. Payments are not made directly to the client. The entire process can be completed in 3-12 days.

BCM is a United Way 211 agency and also partners with the following organizations to provide additional services for our clients: Open Doors (advocates for affordable housing for low-income workers); Urban League (resume and employment services); Furniture Bank of Atlanta (furniture for clients); Our House (childcare and housing referrals); Atlanta Children's Shelter (childcare); City of Refuge (referral agency); St. Vincent De Paul Society (rent/mortgage pledge assistance), and Agape (referrals; Budget for Life partner). We collaborate to ensure our program participants have access to a full spectrum of services, including individual and family counseling, mental health and medical services from LifeGate Counseling Center, the Potter's House, Ben Massell Dental Clinic, and Georgia Light House; domestic violence support from the Women's Resource Center and Partnership Against Domestic Violence; and job readiness training from First Step Staffing and Goodwill Career Services.

Clients receiving direct financial assistance can apply for the Budget for Life Program. Budget for Life helps financially vulnerable families learn to budget, pay down debilitating debt, and establish habits that lead to financial security. It is an intense, twelve-month program that aims to help participants lower their debt, increase their credit score, manage their expenses, and begin to increase their income. The scope of services includes:

Docusign Envelope ID: 72C61DFF-F941-4D20-B3AE-17137B9C1C0A

- Financial Assistance: BCM provides financial assistance through tapered rent (or mortgage) and utility payments for six months, up to $5,250 per family.
- Money Management Education: BCM's Money Management Program is a 22-week education program designed to help clients develop skills and learn strategies to manage their household finances. In addition to learning in a classroom setting, each client works one-on-one with a volunteer coach to help put the lessons learned into daily practice.
- Case Management: BCM staff works with each client to develop an individualized service plan. The service plan is an agreement between BCM and the client, outlining the client's goals and objectives in employment, finances, housing, and health and identifying the client's needs for supportive services.
- After-Care Savings Match: BCM provides a dollar-for-dollar savings match, up to $1,000, for participants who show a consistent record of savings deposits during the final six months of the program after completion of the Money Management classes.
- Career Path: The Career Path occurs in the final six months of the program after the Money Management Classes conclude. This will include two career path classes and meetings, as needed, with a career coach.

Budget for Life is, at its foundation, a partnership. While BCM provides the services listed above, the participating clients are responsible for working towards their own solutions and preparing for the future. Each participating family is required to:

- Pay all household expenses other than rent and utilities
- Use 30% of their household income for debt reduction or savings
- Attend all Money Management classes and work cooperatively with their coach to put into practice what they are learning
- Work with their Case Manager in developing and following through with their service plan

Last year, 28 households graduated from this program, collectively eliminating over $201,000 in personal debt and saving over $7,200. BCM has expanded the program this year, and 50 households are currently enrolled. BCM has established the following goals for Budget for Life participants:

- Set and adhere to a household budget
- Set and adhere to a debt reduction plan
- Open and manage a bank account
- Establish a savings account

Budget for Life aims to help low-income workers meet basic needs and achieve financial stability. Program goals include the following:

- 80% of the Budget for Life participants will complete all components of the program
- 75% of graduates will be housed six months after services
- 50% will continue to make contributions to their savings or debt reduction plan after services are completed.

BCM collects data through interviews and documentation at the time of service and throughout the follow-up period. Data is collected in person, via phone calls and e-mails. Through BCM's Emergency Assistance Program, individuals can receive financial assistance to help weather a financial crisis and avoid the loss of their residence through eviction, learn money management and budgeting skills, and receive case management services to improve their employment situation. The ultimate goal of the Emergency Assistance Program is to provide assistance during a family's financial crisis, including the supportive services and tools they need to avoid a similar incident in the future. Case Managers work with each client to determine their current needs and identify existing resources to aid in their financial crisis. Due to our clients' rapidly rising rents and significant rental arrears, BCM can provide emergency financial assistance up to $3,500/household. In some cases, this can fulfill the total amount owed. As a result of participation in the program, BCM's historical data indicates that 80% of families served who respond to BCM follow-up will remain housed 90 days after receiving financial assistance, and 70% remain self-sufficient after completing Budget for Life.

The Emergency Assistance Program will attain the following Fulton County defined performance measurements in 2024 for Fulton County residents:

· 68 individuals will receive Emergency Financial Assistance

· 5 individuals placed in Living Wage Employment; receiving training/job development/employment support services which leads to self-sufficiency

This includes information on race, veteran status, employment status, the number of members in the household and their demographic information, any public assistance being received, proof of residence, or the name of the shelter or recovery/transitional program in which the client is enrolled, and monthly income and expenses. Data during the follow-up period

BCM is in the process of expanding its internal database to capture more program outcome information. BCM's Case Managers are outcome and data-driven, with the knowledge that intervention is critical in evaluating the outcomes and process of the performance measures.

BCM's Emergency Assistance Program aligns with the Economic Stability/Poverty CSP Funding Priority. Qualifications to receive financial support from the Emergency Assistance Program include:

- Lease, mortgage, or hotel receipt in their name
- Lived in their home/rental unit for at least three months; BCM has flexibility based on client circumstances
- Paid three full months of rent, mortgage, or hotel rates; BCM has flexibility based on client circumstances
- Utility bill in their name (excludes hotel residents)
- Documented emergency (hospitalization, job loss, car repairs, reduced work hours, etc.)
- Photo ID and Social Security Card

BCM has adapted our program requirements to meet the continued increased need due to the long-term effects of the pandemic on vulnerable individuals and families, such as flexibility regarding length in their current residence. Due to increased need and rapidly rising rents in the Atlanta region, BCM's maximum assistance payment is $3,500/household, based on demonstrated need. As a result, BCM may serve fewer clients in 2024 than in 2023 with grant funds but with increased financial support for each household.

BCM's offices are closed to the public, and all programs are delivered virtually with excellence. BCM has increased the number of appointments for emergency financial assistance. BCM continues to use an online application process for emergency financial assistance to simplify and expedite the process; this continues to be an excellent model for our clients.

Appointments for Emergency Financial Assistance occur on Monday, Tuesday, Thursday and Friday from 8:00 a.m. - 4:00 p.m. Appointments are not scheduled on Wednesdays. When open, BCM's facility is ADA-compliant, utilizing ramps and an elevator to accommodate individuals with mobility challenges. BCM's client intake form is attached.

To receive assistance, clients complete an online application on BCM's website and select three appointment options. Case Managers screen the online applications and collect all required documentation before the appointment; accommodations are made for those with technology challenges. The Case Manager assesses each case and issues a pledge for how much rent/mortgage and/or utility assistance BCM will pay. BCM typically does not pay the entire amount due, and the client has seven days to redeem the pledge. In certain instances, and with appropriate funding, BCM can fulfill the total amount due. Then the Case Manager processes the file, BCM's Business Manager issues the check, the Chief Program Officer signs it, and the payment is sent to the client's landlord and/or utility company. Payments are not made directly to the client. The entire process can be completed in 3-12 days.

BCM is a United Way 211 agency and also partners with the following organizations to provide additional services for our clients: Open Doors (advocates for affordable housing for low-income workers); Urban League (resume and employment services); Furniture Bank of Atlanta (furniture for clients); Our House (childcare and housing referrals); Atlanta Children's Shelter (childcare); City of Refuge (referral agency); St. Vincent De Paul Society (rent/mortgage pledge assistance), and Agape (referrals; Budget for Life partner). We collaborate to ensure our program participants have access to a full spectrum of services, including individual and family counseling, mental health and medical services from LifeGate Counseling Center, the Potter's House, Ben Massell Dental Clinic, and Georgia Light House; domestic violence support from the Women's Resource Center and Partnership Against Domestic Violence; and job readiness training from First Step Staffing and Goodwill Career Services.

Clients receiving direct financial assistance can apply for the Budget for Life Program. Budget for Life helps financially vulnerable families learn to budget, pay down debilitating debt, and establish habits that lead to financial security. It is an intense, twelve-month program that aims to help participants lower their debt, increase their credit score, manage their expenses, and begin to increase their income. The scope of services includes:

Docusign Envelope ID: 72C61DFF-F941-4D20-B3AE-17137B9C1C0A

- Financial Assistance: BCM provides financial assistance through tapered rent (or mortgage) and utility payments for six months, up to $5,250 per family.
- Money Management Education: BCM's Money Management Program is a 22-week education program designed to help clients develop skills and learn strategies to manage their household finances. In addition to learning in a classroom setting, each client works one-on-one with a volunteer coach to help put the lessons learned into daily practice.
- Case Management: BCM staff works with each client to develop an individualized service plan. The service plan is an agreement between BCM and the client, outlining the client's goals and objectives in employment, finances, housing, and health and identifying the client's needs for supportive services.
- After-Care Savings Match: BCM provides a dollar-for-dollar savings match, up to $1,000, for participants who show a consistent record of savings deposits during the final six months of the program after completion of the Money Management classes.
- Career Path: The Career Path occurs in the final six months of the program after the Money Management Classes conclude. This will include two career path classes and meetings, as needed, with a career coach.

Budget for Life is, at its foundation, a partnership. While BCM provides the services listed above, the participating clients are responsible for working towards their own solutions and preparing for the future. Each participating family is required to:

- Pay all household expenses other than rent and utilities
- Use 30% of their household income for debt reduction or savings
- Attend all Money Management classes and work cooperatively with their coach to put into practice what they are learning
- Work with their Case Manager in developing and following through with their service plan

Last year, 28 households graduated from this program, collectively eliminating over $201,000 in personal debt and saving over $7,200. BCM has expanded the program this year, and 50 households are currently enrolled. BCM has established the following goals for Budget for Life participants:

- Set and adhere to a household budget
- Set and adhere to a debt reduction plan
- Open and manage a bank account
- Establish a savings account

Budget for Life aims to help low-income workers meet basic needs and achieve financial stability. Program goals include the following:

- 80% of the Budget for Life participants will complete all components of the program
- 75% of graduates will be housed six months after services
- 50% will continue to make contributions to their savings or debt reduction plan after services are completed.

BCM collects data through interviews and documentation at the time of service and throughout the follow-up period. Data is collected in person, via phone calls and e-mails. Through BCM's Emergency Assistance Program, individuals can receive financial assistance to help weather a financial crisis and avoid the loss of their residence through eviction, learn money management and budgeting skills, and receive case management services to improve their employment situation. Participation in this program addresses the following Fulton County "Health & Human Services" Strategic Objectives:

The ultimate goal of the Emergency Assistance Program is to provide assistance during a family's financial crisis, including the supportive services and tools they need to avoid a similar incident in the future. Case Managers work with each client to determine their current needs and identify existing resources to aid in their financial crisis. Due to our clients' rapidly rising rents and significant rental arrears, BCM can provide emergency financial assistance up to $3,500/household. In some cases, this can fulfill the total amount owed. As a result of participation in the program, BCM's historical data indicates that 80% of families served who respond to BCM follow-up will remain housed 90 days after receiving financial assistance, and 70% remain self-sufficient after completing Budget for Life.

The Emergency Assistance Program will attain the following Fulton County defined performance measurements in 2024 for Fulton County residents:

· 68 individuals will receive Emergency Financial Assistance

· 5 individuals placed in Living Wage Employment; receiving training/job development/employment support services which leads to self-sufficiency

· 5 individuals receiving improved access to economic opportunities, programs and resources focused on foundational education, career exploration, and coaching to re-engage youth and provide job-readiness skills for employment

The Emergency Assistance Program will attain the following BCM agency defined performance measurements in 2021:

· 37 individuals will avoid eviction as a result of emergency financial assistance received

· 80% of those who respond to case management follow-up will have maintained their housing for 90 days after receiving emergency financial assistance.

· 90% of Budget for Life clients will reduce their debt by 10% within six months

BCM collects client data through its online Intake Form (attached to Question 12), which is now completed online. This includes information on race, veteran status, employment status, the number of members in the household and their demographic information, any public assistance being received, proof of residence, or the name of the shelter or recovery/transitional program in which the client is enrolled, and monthly income and expenses. Data during the follow-up period

Docusign Envelope ID: 72C61DFF-F941-4D20-B3AE-17137B9C1C0A

is collected through virtual meetings, phone calls, and e-mails. BCM has recently switched our internal databases, Drupal and Tableau, to Salesforce to record and report this information and the HMIS ClientTrack system when appropriate. BCM is in the process of expanding its internal database to capture more program outcome information. BCM's Case Managers are outcome and data-driven, with the knowledge that intervention is critical in evaluating the outcomes and process of the performance measures.

CONSUMER DISCLOSURE

From time to time, Carahsoft OBO Fulton County, Georgia (we, us or Company) may be required by law to provide to you certain written notices or disclosures. Described below are the terms and conditions for providing to you such notices and disclosures electronically through the DocuSign, Inc. (DocuSign) electronic signing system. Please read the information below carefully and thoroughly, and if you can access this information electronically to your satisfaction and agree to these terms and conditions, please confirm your agreement by clicking the 'I agree' button at the bottom of this document.

Getting paper copies

At any time, you may request from us a paper copy of any record provided or made available electronically to you by us. You will have the ability to download and print documents we send to you through the DocuSign system during and immediately after signing session and, if you elect to create a DocuSign signer account, you may access them for a limited period of time (usually 30 days) after such documents are first sent to you. You may request delivery of such paper copies from us by following the procedure described below.

Withdrawing your consent

Consequences of changing your mind

If you elect to receive required notices and disclosures only in paper format, it will slow the speed at which we can complete certain steps in transactions with you and delivering services to you because we will need first to send the required notices or disclosures to you in paper format, and then wait until we receive back from you your acknowledgment of your receipt of such paper notices or disclosures. To indicate to us that you are changing your mind, you must withdraw your consent using the DocuSign 'Withdraw Consent' form on the signing page of a DocuSign envelope instead of signing it. This will indicate to us that you have withdrawn your consent to receive required notices and disclosures electronically from us and you will no longer be able to use the DocuSign system to receive required notices and consents electronically from us or to sign electronically documents from us.

All notices and disclosures will be sent to you electronically

Unless you tell us otherwise in accordance with the procedures described herein, we will provide electronically to you through the DocuSign system all required notices, disclosures, authorizations, acknowledgements, and other documents that are required to be provided or made available to you during the course of our relationship with you. To reduce the chance of you inadvertently not receiving any notice or disclosure, we prefer to provide all of the required notices and disclosures to you by the same method and to the same address that you have given us. Thus, you can receive all the disclosures and notices electronically or in paper format through the paper mail delivery system. If you do not agree with this process, please let us know as described below. Please also see the paragraph immediately above that describes the consequences of your electing not to receive delivery of the notices and disclosures electronically from us.

Our formal collaborations include MOUs with:

- United Way of Greater Atlanta 2-1-1 Contact Center partnership to assist in critical emergencies

- Fulton County CoC- Continuum of Care to serve the homeless population and homelessness prevention

PROGRAMS

CAC's Emergency Assistance Program is modeled after the most effective homeless prevention programs according to parameters outlined by The National Alliance to End Homelessness research that concludes that successful prevention programs: * Provide the least amount of intervention to the greatest number of people * Focus on Housing Stability, not Emergency Shelter * Provide mechanisms for Crisis Resolution * Target the right population * Offer Client Choice * Manage for Efficiency and Effectiveness * Maximize Community Resources.

Based on these premises, CAC has developed a program that incorporates all of those components. CAC works to improve conditions caused by poverty, whether that poverty is permanent or temporary and is a proactive agent of change in the community and in the lives of those we serve. CAC focuses on hunger and homeless prevention by first directing its aid to families who are experiencing a financial crisis and struggle to meet their basic needs of food, clothing, and shelter, addressing point 2 and 4 of the Fulton County Health & Human Services KPIs (helping residents who experience food insecurity and affecting a percentage change in the homeless population year to year, respectively). Once basic needs are provided for, we help individuals and families on their journey to improve their economic stability.

When a client contacts CAC the first step is to complete an assessment to establish need and eligibility. Next is an interview to review the client's assets and their critical needs, document the need and help the client to develop an Individual Service Plan (ISP). The ISP starts with Benefits Screening to evaluate if the household is receiving or qualifies for benefits such as SNAP, Medicaid, TANF, and others, addressing point 2 of the Fulton County H&HS KPIs (affecting the number of uninsured adults and children). It includes referrals to appropriate resources, internal at CAC such as the Emergency Assistance Program to provide for basic needs of financial assistance for rent and/or utility payments, food and clothing, and external to CAC such as transitional housing, shelter, counseling, etc. One component of the Individual Service Plan is an assessment of employment potential based on current skills to determine what additional skills may be needed to sustain career and personal success to achieve greater economic security and self-sufficiency.

Financial Assistance Program – Goal:

To prevent clients from losing their homes by providing financial assistance to individuals seeking help to overcome a temporary financial setback and adequate referral services to individuals seeking assistance. Financial assistance is in the form of partial payments for rent, mortgage, and/or utilities to prevent evictions or utility disruptions and is paid directly to the vendor. The nature of the emergencies considered include changes in personal circumstances such as job loss, illness, and unpaid maternity leave, disasters such as fire and flood, unusual expenses such as high medical bills, and family changes such as death, divorce, or separation.

Food Program - Goals:

1) To reduce the number of households experiencing food insecurity in our community by providing groceries and nutritious food when needed.

2) To improve the nutritional status of clients by enhancing the quality and appeal of meals and groceries provided through the food pantry and providing nutrition education.

When clients first come requesting food to CAC, 44% state that they are missing at least one meal a day and routinely do not have enough food to feed their families. CAC helps clients overcome issues of food insecurity by providing groceries and nutritious meals all year round, additional pounds of food for kids's meals during the summer break, and during the holiday season a food basket to celebrate. Following the national best practices for emergency food providers, the food pantry offers a "Client Choice Model". Food Pantry clients "shop" the shelves, select the items that they prefer, and leave with customized bags of groceries for their family's meals. In addition to upholding the dignity of clients by allowing them freedom of choice, CAC serves clients with specific health concerns and dietary restrictions and reduces food waste. CAC operates three food pantries, two of which are in Sandy Springs and serve Fulton County residents, creating a vital lifeline for families in the immediate area that may otherwise go hungry. The CAC food pantry serves an average of 850 families per month during the school year, a number that rises to 930 in the summer when children do not have access to free and reduced school lunches. Of the 6,300 individuals that CAC Food Pantry touched last year, 120 were homeless, 362 living in a recovery program for substance abuse, 36 were in transitional housing, and 24 living in a hotel as a result of evictions. 37% were children aged newborn to 18 years old. CAC's Food Pantry has become an essential food service provider addressing Fulton County Health and Human Services initiatives.

Clothing Program - CAC Canopy Thrift - Goals:

1)To provide clothing and household basics for our neighbors in need by providing clean and wearable clothing, furniture, toys, and household items.

2)To increase the earned revenue stream of this venture by selling to the public.

The Clothing Program via the CAC Canopy Thrift provides free clothing and household needs including furniture on a voucher system to approximately 200 households each month. CAC ensures more than 4,000 individuals will have appropriate clothing for school and work. The shop in addition to increasing significantly the amount of in-kind donations to clients in need is also a revenue generator and will progressively contribute more towards the financial stability of CAC.

The Adult Education and Career Center Programs - Goals:

1)To offer classes that prepare our clients for work and daily living on their path to self-sufficiency.

2)To engage in partnerships that offer education, training and career readiness programs for CAC clients.

3)To partner with employers to refer clients to better employment opportunities to increase their income and achieve greater economic stability.

4)To provide job search mentoring through a team of 30 Volunteer Career Advocates. Assistance with resume writing, interviewing, connections with local employers

Docusign Envelope ID: 5BE4F095-ED4D-418B-A8BE-4B0E52C25BB9

At CAC we strive to give our neighbors opportunities to get integrated into society, the workforce, and the modern world. In addition to helping clients overcome economic challenges, CAC works to identify the educational and needs of our clients. We offer classes that help our clients improve their personal and/or work situations. Classes include English for Successful Living, computers, career planning and financial literacy.

CAC's Career Center Program is a natural extension of CAC's mission of promoting self-sufficiency. The Center has proved to be very successful in connecting the workforce to the workplace and has assisted over 330 clients since 2022. CAC is in a perfect position to connect its clients to employment opportunities given the robust marketplace of the Atlanta Perimeter Area and our access to those in need of better-paying jobs. Most of the referrals to the Career Center come from the CAC Assistance Team. Volunteer Career Advocates serve as mentors through the short-term process of securing a new job and long-term follow-up to encourage and provide support needed for continued success. Referrals are made to CAC's Adult Education Program if Language or Computer Skills are needed and to other organizations that provide industry-specific training. To best achieve the goal of connecting job-seekers to local companies, the Career Center has partnered with the City of Sandy Springs to host Sandy **Springs Connects!** Career Expos. The Career Expos continue to grow, with over 20 high-quality employers and 200 job seekers attending the event at City Center in September 2023. CAC has also partnered with the City of Dunwoody to offer **HireDunwoody.** The next HireDunwoody event is scheduled for May 2024. The Career Center offers computer workstations for clients to research jobs and access a resource library. While we have worked primarily with CAC clients we plan to offer our services to the broader community. As the cost of housing and transportation continues to rise, many people who currently do not need CAC's Emergency Assistance services will likely need to move up in income to maintain housing stability. With the significant number of employers in our area, match making our clients to their jobs is a win-win. The goal is to become the go-to Career Center for the vibrant Perimeter Business district.

Volunteer Income Tax Assistance Program (VITA) – Goal:

To offer free tax return preparation help to low-to-moderate-income households who need help with their tax returns.

VITA works in partnership with the IRS and United Way and provides a necessary service for struggling families. IRS-trained CAC volunteers prepare tax returns at no cost for individuals and families within the allowed income level. Clients benefit greatly from knowledgeable tax preparation assistance that ensures that tax returns are filed properly and that clients take advantage of the earned income, child and/or education credit as appropriate. These credits are a key contributor to poverty reduction. The CAC VITA site prepared 333 tax forms in 2023, resulting in over $400,000 in returns, and over $320,000 from child, education, and earned income credits. Many clients come for tax preparation and discover opportunities to receive assistance, gain valuable skills and meet self-sufficiency goals.

Youth Programs - Goal:

To provide support for the unique needs of children and families thus mitigating additional economic stress. CAC is committed to stabilizing families and providing critically needed extra support at particularly challenging times of the year. CAC offers Summer Lunches to relieve the added financial stress for many families during the summer months when kids are out of school. CAC's Tools for Schools program provides students with backpacks filled with grade-level specific supplies to make sure they have the tools needed for the start of the academic year. CAC provides classroom supplies via the Teachers' Closet program. CAC's Adopt a Family Program matches donors with families to provide gifts for kids ages newborn to 18.

The following program measures/ Key Performance Indicators ("KPI's") will be utilized to track and report program outcomes for the Fulton County residents supported with CSP funding, during the funding period 01/01/2024 through 12/31/2024:

CAC has made the evaluation process an integral part of all programs, resulting in data-driven analysis that informs planning and management decisions. Thus, only programs which are having the desired effect are continued and improved. The results are reviewed regularly by the staff to consider operational improvements. Decisions requiring policy changes are considered by a Board Committee and decided by the Board. The results have been used to target assistance to families at higher risk and to commit more resources to obtain more stable, positive outcomes and to expand access and capacity.

For this grant CAC will report on the following County Defined Performance Measures:

- Number of individuals receiving Emergency Financial Assistance
- Number of individuals receiving access to and support for educational resources (GED testing, college / vocational school scholarships and partnerships)
- Number of individuals with improved access to economic opportunities, programs and resources focused on foundational education, career exploration, and coaching to re-engage youth and provide job-readiness skills for employment.

In addition, CAC measures its success by the following Key outcome indicators:

- Percent of clients that are able to remain housed

- Percent of clients who resolve their crisis

- Percent of clients avoiding food insecurity

Agency Defined Performance Measure(s):

Community Assistance Center focuses on prevention. Therefore, one of the most important measures of its effectiveness is whether the assistance provided helps clients remain in their homes. Data is collected after 30, 90 and 180 days after financial assistance is given. This allows the agency to ascertain if the families who received financial assistance are still

Docusign Envelope ID: 5BE4F095-ED4D-418B-A8BE-4B0E52C25BB9

housed and evaluate progress toward goals and resolution of the crisis that led them to seek assistance These evaluations include questions about service needs and client satisfaction as well as outcomes.

CAC tracks the following Key Performance Indicators (KPI) after 30, 90 or 180 days

OUTCOMES

- % of the clients who are still in their home

- % of clients who have resolved the crisis which caused them to seek assistance

- % of clients who have full use of utilities

- % of clients who are employed full time and part time

- Number of individuals who entered employment/education/training

- % of clients that are food insecure

CAC uses several sources of data to evaluate its programs:

- Outcome evaluation questionnaires that include questions about progress towards ISP goals, outcomes, service needs and client satisfaction.

- Client feedback and suggestions

- Volunteer and staff feedback and suggestions

- Client demographic and service data to determine demand, trends, demographics, etc.

- Environmental scan to assess changes affecting low income families in particular

The following are the results of the 180-day evaluation in 2023:

49% of clients were able to resolve the crisis that caused them to seek assistance

84% of clients had been able to keep a home on their own 180 days after receiving assistance

69% of clients reached house stability for 6 months and more

82% of the clients have been able to keep their utilities connected 69% of clients are employed (full or part time

18% of clients are unemployed

25% of clients have increased their income

25% of clients reported a decrease in their income

55% of clients are food insecure

These results indicate that in a large percentage of the cases the goal of preventing homelessness, maintaining basic services and regaining stability was attained. This demonstrates that timely support directed to those who need it the

Docusign Envelope ID: 5BE4F095-ED4D-418B-A8BE-4B0E52C25BB9

most and in the amount that is needed works. CAC's prevention efforts stabilize households, prevent blight in the community and offer many residents a smoother path to recovery. CAC's Board reviews Strategic Plan goals and objectives against performance indicators quarterly. They analyze appropriateness of scope and effectiveness of assistance and adjusts plan as needed. For example, results were used to target assistance to families at higher risk and to commit more resources to obtain more stable, positive outcomes. CAC focuses on prevention and has consistently delivered successful outputs and outcomes associated with grant awards. The agency has been awarded multi-year funding by United Way because of its outstanding outcomes and excellent operational and financial management.

At any time, you may request from us a paper copy of any record provided or made available electronically to you by us. You will have the ability to download and print documents we send to you through the DocuSign system during and immediately after signing session and, if you elect to create a DocuSign signer account, you may access them for a limited period of time (usually 30 days) after such documents are first sent to you. To indicate to us that you are changing your mind, you must withdraw your consent using the DocuSign 'Withdraw Consent' form on the signing page of a DocuSign envelope instead of signing it. This will indicate to us that you have withdrawn your consent to receive required notices and disclosures electronically from us and you will no longer be able to use the DocuSign system to receive required notices and consents electronically from us or to sign electronically documents from us.

All notices and disclosures will be sent to you electronically

Unless you tell us otherwise in accordance with the procedures described herein, we will provide electronically to you through the DocuSign system all required notices, disclosures, authorizations, acknowledgements, and other documents that are required to be provided or made available to you during the course of our relationship with you. To reduce the chance of you inadvertently not receiving any notice or disclosure, we prefer to provide all of the required notices and disclosures to you by the same method and to the same address that you have given us. Thus, you can receive all the disclosures and notices electronically or in paper format through the paper mail delivery system. If you do not agree with this process, please let us know as described below. Please also see the paragraph immediately above that describes the consequences of your electing not to receive delivery of the notices and disclosures electronically from us.

Activities and services that will be provided to support three CCSP funding priorities.

Our Transportation Options Program for Seniors (TOPS) is the program for which we are requesting CCSP funding. Our transportation program provides transportation services for older adults to and from their medical appointments and quality-of-life rides. This is a gap service not provided by the Fulton County Department of Senior Services for seniors living in North Fulton County. Our TOPS program is designed solely to serve the elderly. Elderly residents are among the most vulnerable populations in our community.

Our program supports three CCSP priorities, to provide gap services to older adults that aligns with the Strategic Priorities of Fulton County Government, to increase access to services that enable older adults to remain in the community and age-in-place, and to improve health outcomes for older adults.

Providing older adults with transportation services supports the first CCSP funding priority to provide gap services to older adults which aligns with the Strategic Priorities of Fulton County Government. Our TOPS program aligns with the Health and Wellness priority to support the vulnerable residents in our social services.

Our TOPS program picks clients up at their homes and takes them to healthcare and medical appointments or affords them quality-of-life rides. We offer four types of transportation depending on the clients' mobility, health status, or other special needs. These include passenger van transport, wheelchair accessible van transport, our One on One service, and Common Courtesy. Many of our clients cannot get into a van and need our One-on-One service, which uses a passenger car that is easier for them to enter and exit. Our transportation program drivers are trained to handle the frail elderly and can provide transportation to people with wheelchairs and other devices, and those who are blind, have limited eyesight, or have such physical or cognitive impairment that they cannot simply be dropped off at the front of a hospital or medical office complex. These clients need someone to accompany them to their appointments. We offer healthcare and medical transportation without requiring a week or two weeks lead-time, enabling seniors to get to both regularly scheduled and urgent appointments as needed.

Common Courtesy enables us to extend our transportation services using Lyft or Uber depending on our clients' transportation needs. The use of Lyft or Uber drivers reduces our costs while providing our clients safe, affordable, and reliable transportation services.

The Program Manager and Program Assistant explain the program to our clients and schedule all transportation for them with our transportation service providers. They prepare trip authorizations to the subcontract provider, ensure they make confirmation calls the day before the client's scheduled appointment, handle calls from clients and answer their questions regarding the service and eligibility, prepare grant reports, monitor grant fund usage, and conduct client surveys.

In addition to transportation to medical appointments, we also provide seniors with non-medical transportation or quality-of-life rides. This was identified as an unmet need by our clients and one that when fulfilled contributes to their ability to age in place. Quality-of-life rides could be trips to the grocery store, to pick up prescription drugs, to attend social events, or for some other personal need for transportation. Providing access to health care and quality-of-life rides is vital for maintaining optimal health and independent living in the community.

Other services we provide for older adults which are not provided through the Fulton County Department of Senior Services include but are not limited to Client Emergency Assistance, Meals on Wheels for Pets, and Pantry to You. All of

Docusign Envelope ID: 22F5D57E-E3D4-445B-99D3-6020F9EEA7FD

these services enable older adults to remain in the community and age-in-place which supports the second CCSP funding priority to increase access to services that enable older adults to remain in the community and age-in-place.

Through our Client Emergency Assistance Fund we provide qualifying seniors emergency financial assistance. In 2013, we identified the critical need for client emergency assistance and established our Client Emergency Assistance Fund with an initial grant of $2,000 from Sawnee EMC Foundation. Over the past ten years, we have increased the funding and the number of clients we are able to provide emergency assistance. Providing this service enables older adults in North Fulton the opportunity to remain in the community and age-in-place.

Our Meals on Wheels for Pets program is another gap service we provide older adults in North Fulton County. When we realized some of our clients were being challenged to provide food for their pets and themselves, we created our Meals on Wheels for Pets program. A grant of $2,500 from the Banfield Charitable Trust helped us launch our program in 2013. Our Meals on Wheels for Pets program is an integral part in accomplishing our goal of helping older adults to age in community. Providing seniors with monthly pet food and supplies allows them to continue to benefit both mentally and physically from the companionship of their pets. The costs are more than some of our clients can afford on limited incomes, and many cannot get to the store to purchase food or pet supplies because they no longer drive. Our program helps relieve our clients with some of the financial and logistical burdens of providing for their pet's nutritional and other pet care needs such as litter and special treats.

We have a MOU with North Fulton Community Charities (NFCC) which enables us to refer clients between our organizations who have food insecurity issues. Our Pantry to You program is a wonderful partnership which allows us to further serve the needs of our homebound clients. The goal of the program is to provide essential grocery items to those who are unable to get to the food pantry.

Our TOPS program which provides safe, affordable, and reliable transportation assures that seniors can get to their preventive and required healthcare appointments. This supports the third CCSP funding priority to improve health outcomes for older adults. The main purpose of the program is to ensure that seniors get to their medical appointments so that they receive the health services that promote better health outcomes.

How activities and services will be accomplished?

Transportation Options Program for Seniors

Clients qualify for our Transportation Options Program for Seniors in several ways. First, our Care Managers will identify our in-home clients who could benefit from the program and refers them to our Program Manager or Program Assistant. Our Program Manager or Program Assistant will explain the program to clients and when appropriate they will provide them with an application to complete. We also operate several Senior Centers. Our Center Managers and our Program Manager make center participants aware of the program through presentations, posters on site at the centers and during individual assessments. The community at large will continue to learn about our program by word of mouth, visiting our website, and listening to staff community presentations. Our community partners and collaborating agencies will also refer seniors to us to participate in the program.

Participation in our Transportation Options Program for Seniors requires individuals to complete a client application before services can be offered. Seniors provide their birth date and gross income within predetermined categories. This is a self – reporting application which the senior is required to sign and declare that he/she has responded to all questions truthfully and to the best of his/her knowledge.

Docusign Envelope ID: 22F5D57E-E3D4-445B-99D3-6020F9EEA7FD

Once a senior is qualified for the program, our Program Manager or Program Assistant will schedule transportation to and from their healthcare or medical appointments or quality-of-life rides. The number of rides each client can receive each month is determined by the availability of funding. We will offer information about the other programs and services we provide as well as the Starline and Aging and Disability Resource Center to help clients connect with needed services.

Meals on Wheels for Pets

We operate Meals on Wheels for Pets alongside our Meals on Wheels program and Senior Center programming. A volunteer coordinates Meals on Wheels for Pets. Other volunteers secure the food and other items, store them, and then distribute them to our client's homes or to seniors coming to one of our senior centers.

Pantry to You

We operate Pantry to You in partnership with North Fulton Community Charities. Twice a month, our volunteers pick up the pantry orders from North Fulton Community Charities food pantry and deliver the food to our clients' homes.

Angels in Autumn

Formerly Angel Tree, we moved this program to September in 2021. Our clients receive many donations and special deliveries over the holidays, so we decided to make this an autumn program to allow seniors to have something to look forward to during the year. This program provides gifts to seniors who otherwise may not receive any. In addition, visits from parents and children help lift clients' spirits. Many of our civic groups are involved with this program, National Charity League, Young Men's Service League, Spiritual Living Center. Most gifts are practical and useful items. Gift cards are also donated by volunteers, giving seniors additional access to much needed supplies and prescriptions.

Home Repair

This program provides minor home repairs and home safety checks for seniors, with a focus on fall prevention and home livability**.**

Client Emergency Assistance

As our Case Managers and Senior Center Managers work with clients, they often become aware of situations where clients need help with basic needs. These include food, prescription drugs, transportation services, assistance with rent, mortgage, or utilities and other emergency or basic needs. Clients who have typically needed emergency assistance are those who are the frailest and living alone. They are among the most at risk older adults we serve. Without the services and programs we provide for these clients, and the emergency assistance when needed, they may not be able to remain independent and live in their homes.

Proposal addresses three Fulton County "Health and Human Services' Key Performance indicators.

Our agency supports vulnerable residents in our social services. Our TOPS clients, as well as all of the clients we serve, are screened or surveyed to ensure that we offer and/or connect them with appropriate home based community services and programs and services which we offer seniors.

We will report the percentage of our clients who report experiencing food insecurity. We will report this performance measure on the final report.

Docusign Envelope ID: 22F5D57E-E3D4-445B-99D3-6020F9EEA7FD

We will report the number of residents who have access to home based and community based services for seniors and people with disabilities. We will report this performance measure on the final report.

We will report the number of seniors/disabled persons aging/staying in place as a result of home repair for seniors. We will report this performance measure on the final report.

Our proposal addresses three Fulton County "Health and Human Services' Key Performance Indicators. We identify seniors who need food assistance and subsequently provide them access to home delivered meals and food pantry items through our Meals on Wheels Expansion Program and Pantry to You.

In addition, we will provide seniors other community based services such as Meals on Wheels for Pets, Pantry to You, Angels in Autumn, Home Repair and Client Emergency Assistance. Our Angels in Autumn and Client Emergency Assistance programs are not new to our agency. We have been providing them for several years and they have proven to support the health and wellness of our clients and enable them to increase their viability to maintain independence. Additionally, we will continue to identify clients needing increased access to legal and/or kinship services and make appropriate referrals.

And finally, our volunteers have been providing minor home repairs for our clients for years and we have partnered with or made referrals to Habitat for Humanity and other groups to carry out more extensive repair projects.

Provides more than 7 instances of community collaborative relationships to assist organization in addressing the need.

The Strategic Plans for both Fulton County and the Atlanta Regional Commission contain transportation services as a key priority.

We provide a broad base of services that span the continuum of care for older adults and their caregivers. One of these services is providing transportation services in addition to transportation to the grocery store and the pharmacy. We are also working hard to end senior hunger in North Fulton. We provide Meals on Wheels and collaborate with the Atlanta Regional Commission and local farmers through the Farmer's Market program, which provides qualifying clients food vouchers for fresh vegetables and fruits during the summer. The following program measures/ Key Performance Indicators ("KPI's") will be utilized to track and report program outcomes for the Fulton County residents supported with CSP funding, during the funding period 01/01/2024 through 12/31/2024:

Program Performance Measures

A critical service we provide seniors is in collaboration with the Fulton County Department of Senior Services in-home services. Our Care Management staff oversees in-home services such as personal care assistance, light housekeeping (to tackle tasks that can be troublesome for an older adult living alone) and respite care (for family caregivers). Providing in-home services is critical for maintaining independence and self-sufficiency. Our Care Managers assess and approve clients for services. Licensed homecare providers supply the services. Providing in-home services and reporting those with increased self-sufficiency resulting from in-home services we will meet one county defined measurement.

Access to health care is vital for maintaining optimal health and independent living in the community. It supports aging in place and high quality of life for seniors. A review of the data from previous program years demonstrates that 90% our clients reported that using our transportation program resulted in them having missed or canceled fewer appointments and helped them to remain independent and living in their homes. Further review of the same client surveys showed that

Docusign Envelope ID: 22F5D57E-E3D4-445B-99D3-6020F9EEA7FD

our clients also overwhelmingly reported that using our transportation program resulted in them feeling more confident about managing their health care needs.

Clients are enrolled into our Transportation Options Program for Seniors (TOPS) through an application process before services can be offered. Seniors provide their birth date, gross income within predetermined categories and other statistical data. This is a self – reporting application which the senior is required to sign and declare that he/she has responded to all questions truthfully and to the best of his/her knowledge. Once a client is qualified for the program, our Program Manager or Program Assistant will schedule transportation to their medical appointments or quality-of-life rides.

Clients are referred to our TOPS program in several ways. First, our care managers will identify our in-home clients who could benefit from the program and refer them to our Program Manager. We also operate Senior Centers. Our Center Managers and our Program Manager make center participants aware of the program through presentations, posters on site at the centers and during individual assessments. The community at large will continue to learn about our program by word of mouth, visiting our website, and listening to staff community presentations. Our community partners and collaborating agencies will also refer seniors to us to participate in the program. By providing clients our transportation services and reporting those who report an increase in viability to maintain independence we will meet a second county defined performance measure.

We will report the number of seniors who report increased self-sufficiency resulting from in-home services from 01/01/2024 – 12/31/2024. We will report this performance measure on the final report.

We will report the number of seniors who report an increase in viability to maintain independence resulting from using TOPS from 01/01/2024 - 12/31/2024. We will report this performance measure on the final report.

Major milestones to be achieved and a schedule.

We will provide in-homes services for older adults and report the number of seniors who report increased self-sufficiency resulting from in-home services from 01/01/2024 – 12/31/2024. We will report this performance measure on the final report.

We will enroll and begin tracking for up to 120 clients in our Transportation Options Program for Seniors program on 01/01/2024.

We will report client survey results by 01/10/2025 or with the final report.

We will report program progress through the Fulton County WebGrants as required and to other funders as requested.

Specific data collection tool(s) source(s) used to report progress on performance measures.

We will use the Transportation Options Program for Seniors (TOPS) Client Application, and the Client Survey for the TOPS to collect data and report progress on performance measures. The client application asks questions about missed, canceled, or delayed medical appointments, food insecurity and kinship care issues. The client survey includes a question about maintaining independence. We will also gather and report data from other client surveys and internal reports.

Attached are copies of the Transportation Options Program for Seniors Client Application and Client Survey.

CONSUMER DISCLOSURE

From time to time, Carahsoft OBO Fulton County, Georgia (we, us or Company) may be required by law to provide to you certain written notices or disclosures. Described below are the terms and conditions for providing to you such notices and disclosures electronically through the DocuSign, Inc. (DocuSign) electronic signing system. Please read the information below carefully and thoroughly, and if you can access this information electronically to your satisfaction and agree to these terms and conditions, please confirm your agreement by clicking the 'I agree' button at the bottom of this document.

Getting paper copies

At any time, you may request from us a paper copy of any record provided or made available electronically to you by us. You will have the ability to download and print documents we send to you through the DocuSign system during and immediately after signing session and, if you elect to create a DocuSign signer account, you may access them for a limited period of time (usually 30 days) after such documents are first sent to you. Consequences of changing your mind

If you elect to receive required notices and disclosures only in paper format, it will slow the speed at which we can complete certain steps in transactions with you and delivering services to you because we will need first to send the required notices or disclosures to you in paper format, and then wait until we receive back from you your acknowledgment of your receipt of such paper notices or disclosures. To indicate to us that you are changing your mind, you must withdraw your consent using the DocuSign 'Withdraw Consent' form on the signing page of a DocuSign envelope instead of signing it. This will indicate to us that you have withdrawn your consent to receive required notices and disclosures electronically from us and you will no longer be able to use the DocuSign system to receive required notices and consents electronically from us or to sign electronically documents from us.

All notices and disclosures will be sent to you electronically

Unless you tell us otherwise in accordance with the procedures described herein, we will provide electronically to you through the DocuSign system all required notices, disclosures, authorizations, acknowledgements, and other documents that are required to be provided or made available to you during the course of our relationship with you. To reduce the chance of you inadvertently not receiving any notice or disclosure, we prefer to provide all of the required notices and disclosures to you by the same method and to the same address that you have given us. Thus, you can receive all the disclosures and notices electronically or in paper format through the paper mail delivery system. If you do not agree with this process, please let us know as described below. Please also see the paragraph immediately above that describes the consequences of your electing not to receive delivery of the notices and disclosures electronically from us.

Atlanta Urban Squash, Inc, will provide the following activities and services in Fulton County with CCSP funding:

Docusign Envelope ID: 30F1016A-9FA8-4EE9-8CE9-D787EE386915

A+ Squash will provide year-round, long-term, out-of-school youth development programming for Fulton County children and youth starting as early as 4th grade and lasting through high school graduation and pursuit of college and career goals. A+ students come from some of Atlanta's lowest-income communities and are enrolled based on need and commitment, not academic or athletic talent. A+ takes a holistic approach to youth development, drawing from evidence-based best practices for out-of-school programs to provide students with quality programming across three interrelated components:

1. **Academics**: A+ offers a safe place to study, one-on-one tutoring, individualized education plans, test preparation, discussion, debate, and critical thinking activities. Programming reinforces school-day learning, works on gaps, and establishes positive organizational and study skills.
2. **Fitness**: Squash is at the core of fitness programming, but A+ is much more. Activities on the court advance students' squash abilities while fostering self-confidence, determination, persistence, discipline, hard work, healthy communication, and a positive attitude. A+ coaches all students in general health, nutrition, and well-being to establish positive habits. Students have access to nutritious food each program day.
3. **Citizenship**: A+ holds regular team meetings to promote peer support and accountability. Regular service opportunities enable students to practice communication skills and empathy while seeing how they can positively impact their community.

A+ creates a support network for each student by working and communicating closely with teachers, administrators, and guardians. All team members foster positive, trusting relationships with and among the students and their families. Core programming takes place each weekday after school and through three weeks of camp. A+ provides daily transportation from school to the squash facility and return transportation in the evenings. All equipment and supplies are provided, and all programming is offered free of charge to the low-income families served.

A+ collaborates with area schools and community partners to maximize impact for Fulton County children and youth:

- Partner Schools: A+ Squash works with leadership and teachers at Atlanta Classical Academy, Centennial Academy, Midtown HS, North Atlanta HS, and Westside Atlanta Charter School to best support the unique needs of each enrolled student.
- Atlanta Community Squash (ACS), a separate LLC with Atlanta Urban Squash as its sole member, provides facilities to A+ free of charge. In addition, ACS provides free memberships to all program families and contributes all its profits to support A+.
- Yoga Kinship delivers regular yoga sessions and weekly SEL workshops for A+ students. She also leads mindful movement and self-care workshops for A+ families.
- Students from area colleges, such as Georgia State, Kennesaw State University, Morehouse College, and Spelman College, help motivate students of all ages and prove particularly impactful in helping high school students as they consider college and career next steps.
- A+ coordinates closely with the Squash and Education Alliance to improve urban squash programming by following all industry best practices.

Docusign Envelope ID: 30F1016A-9FA8-4EE9-8CE9-D787EE386915

- A+ and AUS work with the Southeastern Squash Racquets Association, a district association of US Squash, to grow and diversify the game of squash while uniting all of squash's constituencies in the Atlanta region.

These activities will keep underprivileged youth in Fulton County safe, healthy, and on track in school to advance Fulton County Health and Human Services KPIs while directly addressing Fulton County CCSP funding priorities in the Children & Youth Services primary service category as follows:

1. Afterschool/ Out of School Programs to help bring up academic and social/behavioral levels of school-aged youth. A+ academic, fitness, and citizenship programming offered each day after school and for at least 3 weeks in the summer has a demonstrated positive impact on academic performance and social/emotional behaviors.
2. Programs addressing mental health, depression, stress, trauma and anxiety among youth and teens. Strong mentorship, physical activity, and nutrition are all proven protective factors in maintaining youth mental health. A+ provides a safe space for each student, with squash and trauma-informed yoga helping reduce stress and increase well-being. Having academic support to succeed in school also reduces anxiety.
3. Ensure Safety and Justice by providing alternatives to activities and contributing factors that lead to unhealthy behaviors in children and youth. A+ maintains access to schools' Infinite Campus system to monitor attendance not only at the program but also in school. Having a safe space with trusted team members and mentors, along with a focus on performing well in squash, also motivates A+ students to abstain from unwanted behaviors such as sexual activity and substance abuse. A+ students do not use phones during program hours and only use computers for educational purposes, thus reducing the likelihood of social media issues, bullying, and addiction.

A+ youth development programming will help Fulton County youth improve academic motivation and interest as they develop the skills and knowledge needed to graduate high school with the tools to overcome historical inequities and become citizens prepared to lead confidently in our community.

CONSUMER DISCLOSURE

From time to time, Carahsoft OBO Fulton County, Georgia (we, us or Company) may be required by law to provide to you certain written notices or disclosures. Described below are the terms and conditions for providing to you such notices and disclosures electronically through the DocuSign, Inc. (DocuSign) electronic signing system. Please read the information below carefully and thoroughly, and if you can access this information electronically to your satisfaction and agree to these terms and conditions, please confirm your agreement by clicking the 'I agree' button at the bottom of this document.

Getting paper copies

At any time, you may request from us a paper copy of any record provided or made available electronically to you by us. You will have the ability to download and print documents we send to you through the DocuSign system during and immediately after signing session and, if you elect to create a DocuSign signer account, you may access them for a limited period of time (usually 30 days) after such documents are first sent to you. You may request delivery of such paper copies from us by following the procedure described below.

Withdrawing your consent

How you must inform us of your decision to receive future notices and disclosure in paper format and withdraw your consent to receive notices and disclosures electronically is described below.

Consequences of changing your mind

If you elect to receive required notices and disclosures only in paper format, it will slow the speed at which we can complete certain steps in transactions with you and delivering services to you because we will need first to send the required notices or disclosures to you in paper format, and then wait until we receive back from you your acknowledgment of your receipt of such paper notices or disclosures. To indicate to us that you are changing your mind, you must withdraw your consent using the DocuSign 'Withdraw Consent' form on the signing page of a DocuSign envelope instead of signing it. This will indicate to us that you have withdrawn your consent to receive required notices and disclosures electronically from us and you will no longer be able to use the DocuSign system to receive required notices and consents electronically from us or to sign electronically documents from us.

All notices and disclosures will be sent to you electronically

Unless you tell us otherwise in accordance with the procedures described herein, we will provide electronically to you through the DocuSign system all required notices, disclosures, authorizations, acknowledgements, and other documents that are required to be provided or made available to you during the course of our relationship with you. To reduce the chance of you inadvertently not receiving any notice or disclosure, we prefer to provide all of the required notices and disclosures to you by the same method and to the same address that you have given us. Thus, you can receive all the disclosures and notices electronically or in paper format through the paper mail delivery system. If you do not agree with this process, please let us know as described below. Please also see the paragraph immediately above that describes the consequences of your electing not to receive delivery of the notices and disclosures electronically from us.

Disclosures

RT Specialty is typically compensated through commission from the insurer for the placement of policies in most transactions. The amount of the commission varies by insurance line and by carrier. RT Specialty might also receive additional compensation. In order to place the insurance requested we may charge a reasonable fee for additional services such as performing a risk analysis, comparing policies, processing submissions, communication expenses, inspections, working with underwriters on the coverage proposal, issuing policies, or servicing the policy after issuance. Any fees charged are fully earned at inception of the policy. Third-party inspection or other fees may be separately itemized upon request. Our fees are applied to new policies, renewal policies, and endorsements. Fees applicable to each renewal and endorsement will be set forth in the quotes. It is the insurance carrier's decision whether to offer the insurance quoted, and your client's decision whether to accept the quote. Our fee is not imposed by state law or the Insurer.

Depending upon the Insurer involved with your placement, we might also have an agreement with the Insurer that we are proposing for this placement that might pay us future additional compensation This compensation could be based on formulas that consider the volume of business placed with the Insurer, the profitability of that business, how much of the business is retained for the Insurer's account each year, and potentially other factors. The agreements frequently consider total eligible premium from all clients placed during a calendar year and any incentive or contingent compensation is often received at a future date. Because of variables in these agreements, we often do not have an accurate means at the time of placement to determine the amount of any additional compensation that might be attributable to any single placement. You, as the retail broker with the direct relationship with the Insured, must comply with all applicable laws and regulations related to disclosure of and consent and agreement to, compensation, and informing the Insured that it may request more information about producer or broker compensation that might be paid in connection with the Insured's placement. If we request a copy of any legally required insured consent or agreement, you will provide us with a copy. If you need additional information about the compensation arrangements for services provided by RT Specialty affiliates, please contact your RT Specialty representative.

RT Specialty is a division of RSG Specialty, LLC. RSG Specialty, LLC is a Delaware limited liability company and a subsidiary of Ryan Specialty, LLC. In California: RSG Specialty Insurance Services, LLC (License # 0G97516).

Premier Academy, Inc., will provide the following activities and services in Fulton County with CCSP funding:

Through collaborative partnerships with mental health providers, Odyssey Family Counseling and Heartwork Counseling; and Kids on the Block mental health puppet troupe; parents; Atlanta Public Schools feeder elementary school staff and teachers (informal collaborative communicative relationships); the YMCA, Easterseals of North Georgia, GA DECAL Bright from the Start, and our early learning teachers, Premier Academy's CAMP program, which launched in 2013, provides a free comprehensive mental health services model to low income children on-site in an early learning environment, as well as offers coordinated follow-up care to children and their families through third grade. The CAMP program supports the primary CCSP funding priority Children & Youth Services Funding Priority, specifically relating to 1) the *focus on kindergarten readiness* and 2) *address mental health, depression, stress, trauma, and anxiety among youth and teens.* Premier Academy's mission is to ensure all children are prepared for success in kindergarten, and 98% of children who leave our program are prepared. Moreover, through its comprehensive free, onsite mental health services to the most vulnerable population (i.e. low-income, primarily African-American, preschool aged children) and their families, the CAMP also secondarily addresses the Health and Wellness priorities, specifically in two areas: 1) prevent health disparities by educating and connecting individuals to available resources and 2) programs addressing mental health, depression, stress, trauma, and anxiety among individuals.

Good social-emotional and mental health is a key component of children's health and healthy development. Our theory of change seeks to approach this effort from many angles: individual, family, school, and community levels to promote and strengthen social, emotional, and behavioral health. Our children are deeply affected by the relationships, communities, and society in which they reside. Thus, it is critical to provide prevention strategies that include a range of activities that address each of these levels of influence. This comprehensive approach is more likely to have lasting prevention effects over time than any one single intervention alone.

Children receive weekly individualized counseling services that include one-on-one play therapy or group therapy (five children per session) during normal school hours, and all children at the early learning centers receive therapeutic puppet shows which discuss mental health topics in an educational, entertaining, and age-appropriate manner, reducing the stigma of mental health common in minority communities and ensuring children have sustained supports up to grade 3, the most critical stage of a child's development.

Through the school-based delivery model, parents receive individualized education and training on the mental and behavioral health issues affecting their children; learn how to manage these issues to increase academic and social performance; receive (at no cost and no requirement for health insurance coverage) counseling services to address contributing factors to their child's mental and behavioral well-being and learn coping techniques to manage their mental health as well as their child's. Teachers in both centers receive coaching, training, and wellness services to support children and their families within their classrooms.

Since the implementation of the CAMP program in 2013, we have experienced a far greater demand for mental health services than we expected each year. However, we are limited by budget and staffing in the number of

Docusign Envelope ID: 251B2572-8254-477C-A3D3-ED893749FB45

children we can serve through direct counseling services so we actively solicit funding from donors to expand our current efforts. Thus, we request $40,000 from the 2024 Fulton County Community Services Program funding to provide the following:

1. Comprehensive weekly one-on-one mental health counseling services (1 hour sessions; hours) to 15 children for the grant period (services beginning in January- December 2024). Mental health counselors will meet one-on-one with children during the normal school day onsite at one of Premier Academy's two centers.
2. At least 15 parents will receive take-home resources and support on mental health topics, including Developmental Milestones-understanding age-appropriate milestones for different age groups and what to do if there are concerns; Stress Management for Parents-helps parents navigate and develop coping strategies for managing stressors of parenting; Healthy Routines-helps parents with bedtime, meal times and various school and home routines to build and reinforce healthy routines and structure; and Setting Healthy Limits and Boundaries-how to navigate positive boundaries and limits with children and teaching tools to use, from mental health workers.
3. Two (2) puppet shows to the program schedule at its two centers (1 per site). Premier Academy staff will work with our CAMP partner, Kids on the Block puppet troupe, to raise awareness of mental and behavioral health topics for preschool and elementary-aged children. The puppet shows will allow children to receive additional opportunities during the most critical stages in their development to learn about mental health topics in an age-appropriate manner.
4. In support of the above direct services, funding will also be used to conduct an annual program evaluation to collect and analyze the data for each of the four program deliverables (i.e., counseling, parenting workshops, classroom pop-ins, and puppet shows), collectively and individually, and for program expenses: general office supplies, printing, and postage.
5. There will be monthly pop-in classroom observations of 10 classrooms conducted by a mental health counselor to provide real-time feedback to teachers and offer lessons and group counseling to children.
6. Twenty (20) teachers will receive support services that promote teacher wellness. The centers will have a "getaway space" for teachers to relax, regroup, meditate, reflect, and read. Teachers will also have access to counseling sessions, coping skills classes (addressing behavioral adjustments in the classroom), and self-care (i.e., health and fitness exercise program and meditation/yoga program)

By providing early intervention services to children who demonstrate emotional challenges and behavioral problems in class, we are minimizing the number of children who are given IEPs in 1st or 2nd grade, a designation that will follow them throughout their schooling and affect the rigor of their academic pathway. If children are given IEPs, we ensure their parents, who often find it difficult to navigate the mental health services provided by Atlanta Public Schools or Fulton County Schools, are equipped and empowered to advocate for the highest quality of services available for their children. Furthermore, children receive support in school and out of school and positive family support to foster a sense of belonging and trust through home visits and school-

Docusign Envelope ID: 251B2572-8254-477C-A3D3-ED893749FB45

based mental health services, ensuring a strong support system and continuation of critical mental health care in the home environment. Finally, our efforts increase the likelihood of children's future self-sufficiency by providing safe and nurturing environments by changing the life trajectories of young children who already present disruptive classroom and home behaviors or emotional challenges. We strongly believe that our early and strong comprehensive and multi-component interventions create the necessary foundation for lifelong learning success and making positive contributions to society.

CSP Funding Priority-Children and Youth Services

County Defined Performance Measures: Number of students assessed as ready for kindergarten; The number youth/teens receiving referrals to behavioral health, evidence based programming/other supportive services

The overarching goal of CAMP is to ensure low-income children are ready for kindergarten. We accomplish this by strengthening the social, emotional, and behavioral health of children in early care and learning settings to prepare them to meet developmental milestones and succeed in kindergarten and beyond which also addresses the number of youth/teens (children) receiving referrals (on site) to behavioral health, evidence based programming/other supportive services. Our researched-based curriculum and individualization of teaching strategies support children in our care to have successful transitional experiences. Specific agency-defined performance measures and objectives include (during the 12-month grant year):

Docusign Envelope ID: 251B2572-8254-477C-A3D3-ED893749FB45

- Children will gain more self-confidence through puppet shows, one-on-one weekly therapy, and group therapy with counselors

- Children will learn positive conflict resolution skills through puppet shows, one-on-one weekly therapy, and group therapy with counselors during the academic year

- Children will improve their classroom behavior because of individualized counseling services, puppet shows, and increased parental involvement and attentiveness.

- Parents will participate in ongoing training and utilize online resources and take home educational resources to become more involved with their children, communicate more with teachers, learn appropriate and healthy coping techniques for stress, and support the healthy emotional development of their children

-Children and their families will be evaluated for and receive appropriate, targeted and individualized mental health services at no cost

- Reduce the stigma of mental health and mental illness among children we serve and their families by using language and terms that promote social and emotional well-being for children and their families versus mental illness.

In addition to the growing number of children served each year, CAMP also added to its program offerings to provide additional take home resources for children and their families by conducting. The primary objectives of the take home kits are to:

- Cultivate parents' ability to form strong, positive attachments with their children and to keep them safe

- Promote children's healthy physical, cognitive, and social-emotional development by monitoring their progress, guiding parents in recognizing their children's and their own needs, and accessing appropriate services.

With grant funding from the Fulton County Community Services Program, our specific goals will include:

- In an effort to strengthening parents' mental health literacy and creating safe and nurturing environments for children at home, we will provide parents with supportive mental health resources, created by mental health counselors, curated online resources and take home printed materials during the academic year.

- Premier Academy will serve an additional 15 Fulton County children, providing them with 477.78 hours of weekly one-on-one school-based individualized mental health counseling services in the form of play therapy.

-Twenty teachers will receive teacher wellness resources such as counseling sessions, coping skills classes (on behavioral adjustments in the classroom), and self-care (i.e. exercise and yoga/meditation programs). Electronic Record and Signature Disclosure

CONSUMER DISCLOSURE

From time to time, Carahsoft OBO Fulton County, Georgia (we, us or Company) may be required by law to provide to you certain written notices or disclosures. Described below are the terms and conditions for providing to you such notices and disclosures electronically through the DocuSign, Inc. (DocuSign) electronic signing system. Please read the information below carefully and thoroughly, and if you can access this information electronically to your satisfaction and agree to these terms and conditions, please confirm your agreement by clicking the 'I agree' button at the bottom of this document.

Getting paper copies

At any time, you may request from us a paper copy of any record provided or made available electronically to you by us. You will have the ability to download and print documents we send to you through the DocuSign system during and immediately after signing session and, if you elect to create a DocuSign signer account, you may access them for a limited period of time (usually 30 days) after such documents are first sent to you. You may request delivery of such paper copies from us by following the procedure described below.

Withdrawing your consent

If you decide to receive notices and disclosures from us electronically, you may at any time change your mind and tell us that thereafter you want to receive required notices and disclosures only in paper format. How you must inform us of your decision to receive future notices and disclosure in paper format and withdraw your consent to receive notices and disclosures electronically is described below.

Consequences of changing your mind

If you elect to receive required notices and disclosures only in paper format, it will slow the speed at which we can complete certain steps in transactions with you and delivering services to you because we will need first to send the required notices or disclosures to you in paper format, and then wait until we receive back from you your acknowledgment of your receipt of such paper notices or disclosures. To indicate to us that you are changing your mind, you must withdraw your consent using the DocuSign 'Withdraw Consent' form on the signing page of a DocuSign envelope instead of signing it. This will indicate to us that you have withdrawn your consent to receive required notices and disclosures electronically from us and you will no longer be able to use the DocuSign system to receive required notices and consents electronically from us or to sign electronically documents from us.

All notices and disclosures will be sent to you electronically

Unless you tell us otherwise in accordance with the procedures described herein, we will provide electronically to you through the DocuSign system all required notices, disclosures, authorizations, acknowledgements, and other documents that are required to be provided or made available to you during the course of our relationship with you. To reduce the chance of you inadvertently not receiving any notice or disclosure, we prefer to provide all of the required notices and disclosures to you by the same method and to the same address that you have given us. Thus, you can receive all the disclosures and notices electronically or in paper format through the paper mail delivery system. If you do not agree with this process, please let us know as described below. Please also see the paragraph immediately above that describes the consequences of your electing not to receive delivery of the notices and disclosures electronically from us.

The Drake Village will provide Drake House graduates with up to two years at below-market rate rent with an annual lease.

A host of services complement the key components, including a food market (staples and fresh produce, milk, and meat), laundry facility, transportation assistance, mental health counseling, legal and medical assistance, and housing partnerships.

The Drake House builds its programs based on best practices in emergency housing and program support for families experiencing homelessness. We are the only program in North Fulton that provides private emergency residential housing and supportive services for single mothers and their minor children experiencing homelessness. The trauma-informed, client-centered programs offer the opportunity for families to reach long-term financial and housing stability.

We have many significant groups of partners and collaborating agencies that support our program in various ways: intake partners, client service partners, life skills and employment readiness partners, and housing transition partners.

Intake partners assist with the referral process for eligible families by identifying homeless families and providing our application for admission. The Drake House partners with Coordinated Entry, Fulton Country Schools (60 separate schools), North Fulton Community Charities (Roswell), Community Assistance Center (Sandy Springs), Family Haven (North Fulton Domestic Violence), and Family Promise to refer families to our program. They provide our third-party verification of homelessness. Other agencies working with us to offer services to our families include Homestretch, Child Development Association (CDA), Northside Mental Health, and Comprehensive Family Services.

Our client service partners complement our services to meet our residents' basic needs for childcare, clothing, transportation, medical and vision care, and mental health care. These partners provide paid facilitators for weekly Life Skills classes for mothers and teens, employment readiness seminars for the mothers in collaboration with our Career Coach, and volunteer speakers with subject area expertise in personal finance skills, health and wellness, organizational skills, parenting, stress management, child sexual abuse prevention, and employment readiness topics.

The Drake House has over 50 employment partners, including Kimberly Clark, Lexus Nexis, Ryder, WellCare, Marta, Grand Hyatt, State Farm, Synovus Bank, and Verizon. The Drake House works with educational partners to offer certificates and further training to our families to increase income and career opportunities. Electronic Record and Signature Disclosure

CONSUMER DISCLOSURE

From time to time, Carahsoft OBO Fulton County, Georgia (we, us or Company) may be required by law to provide to you certain written notices or disclosures. Described below are the terms and conditions for providing to you such notices and disclosures electronically through the DocuSign, Inc. (DocuSign) electronic signing system. Please read the information below carefully and thoroughly, and if you can access this information electronically to your satisfaction and agree to these terms and conditions, please confirm your agreement by clicking the 'I agree' button at the bottom of this document.

Getting paper copies

At any time, you may request from us a paper copy of any record provided or made available electronically to you by us. You will have the ability to download and print documents we send to you through the DocuSign system during and immediately after signing session and, if you elect to create a DocuSign signer account, you may access them for a limited period of time (usually 30 days) after such documents are first sent to you. You may request delivery of such paper copies from us by following the procedure described below.

Withdrawing your consent

If you decide to receive notices and disclosures from us electronically, you may at any time change your mind and tell us that thereafter you want to receive required notices and disclosures only in paper format. How you must inform us of your decision to receive future notices and disclosure in paper format and withdraw your consent to receive notices and disclosures electronically is described below.

Consequences of changing your mind

If you elect to receive required notices and disclosures only in paper format, it will slow the speed at which we can complete certain steps in transactions with you and delivering services to you because we will need first to send the required notices or disclosures to you in paper format, and then wait until we receive back from you your acknowledgment of your receipt of such paper notices or disclosures. To indicate to us that you are changing your mind, you must withdraw your consent using the DocuSign 'Withdraw Consent' form on the signing page of a DocuSign envelope instead of signing it. This will indicate to us that you have withdrawn your consent to receive required notices and disclosures electronically from us and you will no longer be able to use the DocuSign system to receive required notices and consents electronically from us or to sign electronically documents from us.

All notices and disclosures will be sent to you electronically

Unless you tell us otherwise in accordance with the procedures described herein, we will provide electronically to you through the DocuSign system all required notices, disclosures, authorizations, acknowledgements, and other documents that are required to be provided or made available to you during the course of our relationship with you. To reduce the chance of you inadvertently not receiving any notice or disclosure, we prefer to provide all of the required notices and disclosures to you by the same method and to the same address that you have given us. Thus, you can receive all the disclosures and notices electronically or in paper format through the paper mail delivery system. If you do not agree with this process, please let us know as described below. Please also see the paragraph immediately above that describes the consequences of your electing not to receive delivery of the notices and disclosures electronically from us.

Activities and Services Provided: Crossroads' primary purpose has traditionally focused on providing access to programs and resources intended to empower people experiencing homelessness so they may progress on the road toward economic and personal stability. We work with Fulton County residents to equip them with tools and essentials necessary to break the cycle of homelessness in an effort to achieve economic stability through the attainment of personal health and safety, gainful employment, stable housing and overall self-sufficiency. With so many children and adults impacted by the economic challenges in our community, Crossroads remains committed to providing increased resources over the next year and beyond. We will serve up to 50 Fulton County households through our Door-To-Door Housing program. This will include connecting them with our Case Managers to determine their needs, as well as our Housing Specialist assess needs in regards to financial assistance related to secure permanent housing or emergency rent and utility assistance for those who are imminently at-risk of homelessness. We anticipate 70% of households will maintain their existing home and avoid evictions or utilities disconnected, and 100% of households served will be able to successfully move into a permanent home.

How Activities and Services will be Accomplished: Through our Case Managers and Housing Specialists, qualifying candidates will complete orientation and intake at Crossroads and provide proof of continuing income, which may include government benefits. Any documentation needs can be resolved through our existing programs, including the use of our address for applications or to receive mail. Case managers will work with each client to develop an Individual Service Plan (ISP), including a monthly budget, that will increase the likelihood of maintaining their housing.

The Crossroads Housing Specialist will connect participants to landlords within our network of community partnerships (we have established relationships with landlords who are willing to accept tenants who may have lower credit scores or previous evictions). Once the participant has been approved for housing, Crossroads will coordinate payment of initial fees for move-in (security deposit, administrative fees, furniture). After move-in, the housing specialist provides extended support for an additional 90 days through case management, referrals to other needed services, accountability to meet stability plan goals, budgeting training, etc.

Since our inception in 1996, Crossroads has always been there for thousands of homeless men, women and children as they take their first steps toward ending their homelessness and moving along the path toward economic self-sufficiency. Fundamental services we offer include individual counseling and assessment, case management, mailing address and mailbox access, birth certificate and identification services, MARTA passes, healthcare, daily meals, and employment and job training navigation.

Due to the comprehensive nature and diverse offerings of our programs, the length of time an individual or family may spend accessing our programs for help may vary. Some guests only access our food kitchen daily, while others may access all components of programs. It mostly depends on what stage of stability they are when they come to us. Some guests may matriculate through programs and have their needs met more quickly than others. The housing assistance program is about four months, from start to finish. The comprehensive program which may include housing, counseling, case management and other services averages about 9 to 12 months.

Crossroads' core programs align with the "support the vulnerable residents in our social services" as defined by the priority related to the following:

- Number of people who receive permanent supportive housing and support services
- Percentage change in the homeless population year to year

Docusign Envelope ID: B1801303-9119-4030-BC64-0952E8700A18

This program aligns with the Homelessness Service Category. The priorities which the Crossroads Door-To-Door Housing program will address include:

- Emergency Financial Assistance supported by case management and other supportive services (i.e., rent and utility assistance, security/utility deposits, food, transportation)

Through the Door-To-Door Housing program, we will provide permanent supportive housing and support services to individuals and families experiencing or imminently at risk of homelessness in the Fulton County District 4 community. Neighbors will benefit from financial housing assistance, as well as support services provided through our team of Case Managers and Housing Specialist. Their work focuses on helping individuals and families we serve become self-sufficient through use of wrap-around services including mailing address and mailbox access, birth certificate and identification services, MARTA passes for access to healthcare and job interviews, etc.); and access to nutritious meals provided 5 days each week. These services will directly decrease the percentage of people experiencing or at risk of homelessness in the Fulton County District 4 community.

Community Collaborative Partners: Crossroads works with several collaborative community partnerships to help serve those who access our services. Over 3,300 individuals come to us each year in need of personal identification, such as birth certificates, state IDs and social security cards. Identification is crucial for an independent and self-sufficient life, as it is a primary requirement in obtaining employment and housing. Crossroads provides identification services at no cost, by contacting the birth state of participants on their behalf. If a Georgia state-issued ID is needed, Crossroads provides vouchers and assistance completing necessary paperwork.

Several non-profit partners refer Guests to Crossroads for documentation and housing assistance, along with other support services. They include (1) Atlanta Mission, (2) HOPE Atlanta, (3) City of Refuge, (4) Salvation Army, and (5) The Gateway Center. (6) St. Luke's Episcopal Church provides long-term volunteers to staff many of our programs. (7) The Furniture Bank assists Crossroads with furniture for women and children, who are placed in a safe, secure home. (8) Crossroads refers Guests to Mercy Care's facility on Decatur Street for medical treatment. (9) Richmont University counselors provide mental health services on-site one day per week, and financial counselors from Front-line Housing offer two monthly financial literacy classes.

The Gateway Center provides homelessness diversion services on-site at Crossroads one day per week. Crossroads refers guests to the Gateway Center for access to showers; laundry services; clothing services; and referrals to other support services and housing resources as appropriate.

We also partner with PTSGA who provides HIV and STD testing. Additionally, we have partnerships with MercyCare and Fulton County Department of Behavioral Health who offer a variety of physical/behavioral medical supports, both directly onsite here at Crossroads as well as via referrals to their facilities.

Crossroad's goals are to equip participants with tools and essentials necessary to break the cycle of homelessness and achieve economic stability through the attainment of personal health and safety, gainful employment, stable housing and overall self-sufficiency.

When an individual or family arrives at Crossroads, they are immediately Case Managers, who assesses their unique needs and registers them into the ClientTrack case management system. Crossroads case managers are specially trained in trauma-informed care and provide extended case management to those who may need it. Case Managers recommend supportive services that help ensure each person's needs and goals are pursued and achieved.

Twelve-month program goals include:

1. Week 1 of accessing Crossroads: Connect participants with Case Managers, who will work with them to provide services including individual counseling and assessment, registration into the ClientTrack case management database, establishment of a mailing address, assistance acquiring state-issued identification and birth certificates, MARTA cards, and on-site healthcare through our community partnerships.
    a. Expected outcome: 80% of participants will receive access to mail, which is a lifeline for more than 300 of our guests who depend on this to receive benefit checks, medical reports, prescriptions, medical equipment and other vital documents.
2. First 30 days of accessing Crossroads: Provide housing assistance to up to 50 households in Fulton County District 4 by providing assistance with moving costs related to securing permanent housing; and emergency rent and utility assistance to individuals/families currently in their own housing who are imminently at-risk of homelessness.
    a. Expected outcome: 70% of households experiencing a housing crisis will have their homelessness prevented or ended.
3. Monday – Friday of each week: Provide daily nutritional meals through Crossroads Clyde's Kitchen to 175 adults and children six days per week.
    a. Expected outcome: 100% of children and families served will receive meals 5 days per week.

Crossroads uses data and evaluation results to develop our strategic planning, gauge our progress and introduce new programs. We make adjustments as necessary if performance or impact targets are not met. Additionally, we remain in constant communication with our program staff to determine where improvements may be needed. We utilize feedback from program participants to ensure that we are providing beneficial stabilization services, and may adjust as needs change.

Crossroads tracks the number of clients with a housing crisis who receive emergency prevention assistance within 12 months. The Crossroads Case Managers and Housing Specialist maintain ongoing follow up with those who receive housing assistance and serves as a resource to help ensure residents are able to stay in their homes.

Crossroads also tracks the number of participants who access programs for stabilization services. We have a number of guests who only access our programs for daily meals. For that reason, Crossroads tracks the number of meals we provide through our kitchen separately. Upon entry into other programs outside of the kitchen, participants are registered into the ClientTrack case management system. Participant progress is monitored throughout the program to include tracking the number of individuals who receive housing assistance, MARTA passes, and healthcare services. Additionally, Crossroads tracks the number of birth certificates and identifications ordered on behalf of participants in need of documentation, as well as the number of guests who receive regular mail through our mailroom.

CONSUMER DISCLOSURE

From time to time, Carahsoft OBO Fulton County, Georgia (we, us or Company) may be required by law to provide to you certain written notices or disclosures. Described below are the terms and conditions for providing to you such notices and disclosures electronically through the DocuSign, Inc. (DocuSign) electronic signing system. Please read the information below carefully and thoroughly, and if you can access this information electronically to your satisfaction and agree to these terms and conditions, please confirm your agreement by clicking the 'I agree' button at the bottom of this document.

Getting paper copies

At any time, you may request from us a paper copy of any record provided or made available electronically to you by us. You will have the ability to download and print documents we send to you through the DocuSign system during and immediately after signing session and, if you elect to create a DocuSign signer account, you may access them for a limited period of time (usually 30 days) after such documents are first sent to you. You may request delivery of such paper copies from us by following the procedure described below.

Withdrawing your consent

If you decide to receive notices and disclosures from us electronically, you may at any time change your mind and tell us that thereafter you want to receive required notices and disclosures only in paper format. How you must inform us of your decision to receive future notices and disclosure in paper format and withdraw your consent to receive notices and disclosures electronically is described below.

Consequences of changing your mind

If you elect to receive required notices and disclosures only in paper format, it will slow the speed at which we can complete certain steps in transactions with you and delivering services to you because we will need first to send the required notices or disclosures to you in paper format, and then wait until we receive back from you your acknowledgment of your receipt of such paper notices or disclosures. To indicate to us that you are changing your mind, you must withdraw your consent using the DocuSign 'Withdraw Consent' form on the signing page of a DocuSign envelope instead of signing it. This will indicate to us that you have withdrawn your consent to receive required notices and disclosures electronically from us and you will no longer be able to use the DocuSign system to receive required notices and consents electronically from us or to sign electronically documents from us.

All notices and disclosures will be sent to you electronically

Unless you tell us otherwise in accordance with the procedures described herein, we will provide electronically to you through the DocuSign system all required notices, disclosures, authorizations, acknowledgements, and other documents that are required to be provided or made available to you during the course of our relationship with you. Docusign Envelope ID: 4603F69F-E865-4E83-A0D9-0DC705286391

Making A Way Housing, Inc, will provide the following activities and services in Fulton County with CCSP funding:

1. Identifies specific activities and services that will be provided to support one or more CSP funding priorities.

The activities and services provided through F2W!-ESP support CCSP's Economic Stability/Poverty funding priority. The Favored To Win! Employment Services Program (F2W!-ESP) is a job readiness assessment and training program designed to assist the most disadvantaged individuals from underserved homeless populations by tailoring employment services to address their barriers, needs, and strengths. F2W!-ESP combines case management, vocational assessments, skill-building sessions, and a 4-week job readiness training program to help homeless individuals gain the knowledge and skills needed to become employable and self-sufficient.

Although the organization's initial focus was to provide decent, affordable supportive housing, a more inclusive continuum of care program model was adopted to address the multi-faceted nature of problems homeless and chronically homeless individuals face. Today, MAWH offers support services and resident access to a wealth of community resources, including case management, comprehensive referral services, transportation, and onsite support groups and life-skills training. The dedicated program staff assists formerly homeless and chronically homeless individuals with obtaining gainful employment, learning to cope with and manage mental illness, achieving long-lasting substance abuse recovery, and reintegrating back into the community as productive, independent citizens.

2. Identifies how the activities and services will be accomplished.

Making A Way Housing (MAWH) operates a gated housing community situated on 4-acres of land, located in southwest Atlanta's Grove Park neighborhood, which operates 24/7 year-round. MAWH provides emergency shelter, supportive transitional and permanent housing, and a pre-recovery program for single adults facing complex challenges related to chronic homelessness, substance addiction, mental illness, and HIV/AIDS. The facility consists of 66-two bedroom, one-bath apartment units and a 25-bed emergency shelter. Community spaces and supplemental services include a conference room, recreation room, fitness facility, laundry room, a clothes

Docusign Envelope ID: 4603F69F-E865-4E83-A0D9-0DC705286391

closet, and food pantry. Free meals are served daily, and the facility is conveniently located along a MARTA public transportation route.

Participants accepted into MAWH's emergency and transitional housing program participate in monthly workshops and groups designed to address various issues that lead to housing instability. The participants begin to attend seminars within 7 days of their program acceptance. They must attend all MAWH mandatory meetings and at least 2 optional workshops/groups per month until completion of the program. Participants may attend more than the required number of workshops/groups during the month. The available workshop options include:

- Weekly MAWH Community Meeting (mandatory for ALL MAWH residents): Weekly informal resident assemblies to discuss certain residential happenings, issues, problems, and to vote on decisions that affect the entire MAWH community.
- Disease Concepts Group: Weekly groups designed to educate residents on the disease of addiction. The groups highlight the biological, neurological, genetic, and environmental sources of addiction and offer participants a safe, supportive space.
- Healthy Love/ HIV 101: A monthly workshop that provides education and risk reduction strategies to educate those who are at risk for the disease, as well as those who have the disease. Sessions offer an in-depth overview of HIV, its impact on the body, and how the medication works. The importance of adherence to medical care is also discussed.
- Financial Literacy: A series of workshops addresses budgeting, financial planning, and credit. The goal is to provide basic to intermediate financial education.
- Life Skills: Monthly learning sessions that teach the necessary skills every adult needs to manage their life. These include but are not limited to: personal hygiene, clothing care (laundry, ironing, basic sewing); personal finance (checkbook and banking skills); travel training; apartment management (kitchen and bathroom clean up, vacuuming, bed making, etc.)
- Population Specific Peer-Support Groups: Weekly groups covering population-specific (heterosexual women, heterosexual men, MSM, and LGBTQI) topics in behavioral health and coping. Assists participants in obtaining and increasing their social support network.
- Employment Training & Leadership Skills: Designed to assist individuals with acquiring and improving skills to enhance one's ability to obtain and or maintain employment. Discussions around improving leadership skills to increase the likelihood of job stability and promotion.

All participants accepted into MAWH Programs must commit to abide by the MAWH's program policies and procedures with a primary emphasis on compliance with the zero-tolerance, drug-free approach. Participants are also responsible for submitting documentation of group/meeting attendance. Participants are not covered by a 3rd party Payor (e.g. Traveler's Aid, Living Room,

Docusign Envelope ID: 4603F69F-E865-4E83-A0D9-0DC705286391

etc.). According to one's ability to pay; residents are required to contribute to their monthly housing expenses. The amount of the tenant's rental amount or portion contribution is determined at intake and reviewed quarterly. A record of all workshops attended by participants will be maintained in the participant's file and the Case Manager must document the client's monthly progress on their ISP and log notes into the Pathways tracking system.

The initial intake process into the MAWH's program generally occurs through the Damascus Inn Shelter Program. Damascus Inn is a 25-bed emergency shelter that provides homeless men and women with an address to call their own. At the same time, they focus on the initial stages of recovery from substance abuse, mental health afflictions, and HIV/AIDS. One of the initial aspects touched upon includes helping residents obtain vital documents to begin preparing to transition into supportive housing and outpatient treatment programs. Once shelter residents achieve sobriety for 30 days, they have the option to transition into one of our other supportive housing programs, Gilead's Place or Daniel's Place. Eighty-two percent (82%) of Damascus Inn residents usually transition from the shelter into one of these supportive housing programs. These programs provide affordable transitional and permanent supportive housing at discounted rates, averaging two-thirds of the fair market value.

Intensive case management continues as the emphasis is placed on continued recovery and employment. Through case management, clients gain access to health care, life skills training, literacy classes, workforce development training, a computer lab for resumes and job searches, and a food pantry for the individuals waiting for food stamp allocation or meals on wheels, and transportation to medical appointments. After leaving the MAWH Compound, the staff remains in contact with participants for up to 6 months to provide guidance and continued support and collect follow-up data.

Case Managers conduct an intake to MAWH residential programs and facilitate essential linkages for homeless and chronically homeless individuals to health and social services, including primary medical care and mental health counseling. Professional Case Workers are assigned to each client to assist in developing individualized care plans that identify relevant services needed to support the achievement of care plan goals. If a desire to work or receive training is identified, the client is referred to an Employment Specialist for an in-depth vocational assessment and to create an individual vocational career plan.

Clients participate in learning sessions that teach basic skills every adult needs to manage their life. These skills include but are not limited to: personal hygiene, clothing care (laundry, ironing, basic sewing); personal finance (checkbook and banking skills), travel training, and apartment

Docusign Envelope ID: 4603F69F-E865-4E83-A0D9-0DC705286391

management (kitchen and bathroom clean up, vacuuming, bed making, etc.). Clients also attend a series of financial literacy workshops that address budgeting, financial planning, and credit to provide a basic intermediate financial education. Clients also participate in skill-building sessions for employment and leadership training. These sessions are designed to assist individuals with acquiring and improving skills to enhance their ability to obtain or maintain employment. Discussions around improving leadership skills in order to increase the likelihood of job stability and promotion.

The program provides clients with a Job Readiness and Retention Training Program, a 4-week course that meets every Wednesday of the month from 9:00am to 12:30pm. The program includes sessions on: Orientation and Goal Setting; Communication Skills; Workplace Expectations; Interview Techniques; Effective Resume; Dress for Success; Employment Applications; and Job Searching.

The MAWH program provides safe affordable housing with rental fees determined by household income and does not exceed 30% of residents' monthly after-tax income. There are no fees to receive emergency shelter services and all MAWH residents receive case management and supportive services, regardless of whether they are housed in our emergency, transitional or permanent housing program. The program works to increase financial literacy, budgeting skills, and access to gainful employment of the clients increases their potential for economic stability. The program also creates individualized service plans for each resident that identify and address personal and developmental barriers, including literacy, comprehension, and continuing education. Lastly, the program strives to alleviate hunger amongst our residents by providing nutritional meals, emergency food boxes and/or carry-over groceries for all clients, and three meals a day for our emergency shelter residents.

3. Fulton County "Health and Human Services" Key Performance Indicator(s)

- 20 out of 20 program participants (100%) will receive permanent supportive housing and support services.

- Percentage change in the homeless population year to year. Case Managers/Intake staff will collect baseline data at intake, and follow-up at 6 month and 12-month intervals to document program's contribution to reducing homeless population.

4. CCSP funding priorities as identified by the primary service category selected

In addition to working with traditional community-based organizations, MAWH leverages its resources and capacity to serve clients through formal and informal partnerships, work-release programs, social organizations, churches, businesses, and individuals interested in healthy, vibrant communities. MAWH's partners provide clients with affordable access to primary care services, medications, nutrition education, mental health counseling, substance abuse treatment, and employment services. The partnerships also reduce MAWH's operating costs by reducing the need for in-house program staff, thereby increasing our capacity to focus more on health education, testing, affordable housing, supportive services, and case management. These partnerships include: Atlanta Community Food Bank assists MAWH with alleviating hunger by providing affordable bulk food items; Dr. Patricia Benton provides MAWH residents with primary medical care services; HOPE Atlanta Programs of Travelers Aid provides MAWH with federally

Docusign Envelope ID: 4603F69F-E865-4E83-A0D9-0DC705286391

(HMIS), known locally as the PATHWAYS Compass, to capture client demographic details, income, program progress, and services provided. The staff and administrators attend annual training to maintain familiarity with the database. Participant data is collected during intake and throughout participation in the program. This information is documented in the Pathways HMIS database and is also kept in a file maintained at the MAWH administrative office. The file contains intake documents, copies of identification and income verification, waivers, individual service plans, case notes, and referral forms. Electronic files are stored and backed-up on an off-site server system.

Participants are expected to attend regularly scheduled meetings with Case Managers, who use the meeting to gather information regarding individual service plan progress and document updates in both the Pathways system and participants' files. These interactions can take place daily or weekly, depending on the specific needs of each participant. The data is evaluated weekly by the case management team, which is overseen by the Housing Program Director.

After participants leave the program, MAWH staff remains in contact with them for 3, 6 and 12-month intervals to provide guidance and continued support while collecting follow-up data. During intake, all participating individuals are required to sign a release form that gives MAWH permission to contact their landlord and treatment provider to collect data about their progress. The information collected and reported is independently verified, audited, and managed by Pathways, Housing Opportunities for Persons with AIDS (HOPWA), the Community Development Block Grant (CDBG), and an external CPA. Clients and staff use anonymous evaluation tools to determine program quality, effectiveness, staff work ethic, and program efficacy.

Approach and Design:

Mercy Housing Southeast, Behavioral Health and Nutrition Support for Affordable Housing Residents will provide services to **150** clients that reside in Fulton County, with CCSP funding.

Mercy Housing Southeast, will provide the following activities and services in Fulton County with CCSP funding:

MHSE's 2024 Consolidated Community Services Program will include the following:

Behavioral Health:

A significant number of Mercy Housing Southeast residents face mental health challenges and have limited access to resources that support their needs. Beginning in 2021, Mercy Housing Southeast contracted with the Atlanta Regional Commission (ARC) to bring behavioral health coaches on-site to address issues residents face that impact their stability. The Behavioral Health Coaching (BHC) program is designed to support low-income individuals with mental health and/or substance abuse challenges who wish to live independently and avoid premature institutionalization or homelessness. MHSE site staff refer residents to ARC whom they identify as at-risk due to behavioral health needs, including lease violations based on behavior that could impact their housing stability. The coaches are trained social workers with experience in mental health and substance abuse counseling and have the ability to engage hard to reach individuals. They provide assessments, case management, and group support, and further assist residents with accessing benefits, referrals to specialized care, crisis management, caregiver support, social engagement, transportation, and other wellness resources. They work in collaboration with ARC's Aging and Disability Resource Center to help participants access much needed services that address social determinants of

Docusign Envelope ID: 1F98C1E7-A9DF-4A82-AE7E-A6AFFAD3A79F

health issues. Without year over year funding, residents with behavioral health challenges would have much more limited options for assistance.

BH coaches work to address the root of individuals' behavioral health issues and help them navigate new systems. The BHC goals are focused on ensuring clients have the resources, services, and skills they need to address their health challenges successfully and continue to live independently when they are no longer in the program. In addition to the above, activities also include:

· Holding weekly clinical team meetings to discuss, review, and revise plans of care for each participant; exchange information; and brainstorm ways to address, resolve problems, and offer support

· Sharing training and resources with MHSE staff across its Atlanta area housing facilities to help build capacity to identify and better support residents with behavioral health issues

· Facilitating rental assistance to hold units while residents undergo in-patient substance abuse treatment

· Cleaning and decluttering units that have fallen into disrepair

There are few programs that address behavioral health and housing stability for older adults, particularly in the aftermath of the COVID-19 pandemic. The BHC program is a proven critical connection between housing stability and behavioral health. Without treatment and access to supportive, person-centered services like the Behavioral Health Coaching (BHC) program, some individuals could end up prematurely moving into higher levels of care (such as personal care homes or nursing homes) while others may become at-risk of homelessness. With affordable housing being a critical component to the health and independence of older adults, appropriately addressing unmet behavioral health needs can both improve quality of life and enable them to age in place without fear of losing their place of residence.

Food security:

Mercy Housing Southeast has provided residents in its housing with an array of options to acquire supplemental foods and household goods, and COVID-19 and economic impacts like inflation have intensified our efforts to meet this great need. Our main food supply partners are Open Hand Atlanta, Meals on Wheels, Atlanta Community Food Bank, Peach State Health Plan, University of Georgia Extension, and several food trucks that visit the properties (including the Fulton Fresh Food Truck).

Market baskets from Open Hand Atlanta contain fresh produce, proteins, grains and healthy beverages for people to prepare meals at home which are higher quality than shelf-stable goods and preferred by residents. The Market Baskets are approved by a Registered Dietitian Nutritionist (RDN) and aim to provide two-thirds of an individual's caloric intake per week. Each bag includes appropriate macronutrient

Docusign Envelope ID: 1F98C1E7-A9DF-4A82-AE7E-A6AFFAD3A79F

distribution and follows recommended limits on calories from saturated and/or trans-fat, sodium, sugar, and fiber. In addition, recipients receive monthly nutrition education materials and simple, practical recipes.

Supported by the CCSP, MHSE has introduced a program in which Meals on Wheels delivers medically-tailored dinners and shelf-stable breakfasts each week to MHSE senior households in Fulton County. As part of the agreement, MHSE provides matching support for additional senior households. Since on-site staff select people for the program, this partnership enables MHSE to focus on those with the highest needs. It also gives us an opportunity to reach more residents, in addition to the food baskets and food pantry offerings we provide. Meals on Wheels recognizes that older adults are one of the most underserved and vulnerable demographics in Atlanta. The meals they serve are prepared by chefs and a dietitian and are tailored for a variety of dietary restrictions, including heart health, low-carbohydrate, vegetarian, kidney friendly, and other needs.

Since MHSE submitted its original application to Fulton County, Meals on Wheels has temporarily paused accepting new individuals to receive food. Current MHSE residents remain in place to receive the service, but any additions would be added to a waiting list. Depending on the status of this offering, CCSP funding may support expansion of this program to a greater number of residents in 2024.

While our food security programs have significantly improved food access, demand has outpaced supply even in years prior to the pandemic. Greater food resources will ensure residents have access to a variety of quality, nutritious ingredients. This programming impacts several populations with resource challenges. It allows senior residents to receive consistent nutritional support, save money for other vital needs, and limit outings that require transportation and physical mobility. The CCSP would enable MHSE to serve up to 3,100 Open Hand Market Baskets and 4,900 meals from Meals on Wheels. In addition to direct food support, residents can receive nutrition education from accompanying healthy recipes and other resources that emphasize healthy eating behaviors.

Conclusion:

The activities in this proposal connect Fulton County residents to comprehensive health and wellness services from qualified providers, including mental wellness, nutritious foods, health education, and other services to improve stability and independence. The programming addresses the following three of Fulton County's Health and Human Services strategic objectives: prevent illness by engaging in healthier behavior, prevent health disparities by educating residents and connecting them to available resources, and support vulnerable residents in our social services. MHSE prioritizes the adoption of healthy behaviors among those we serve, improving access to healthcare services, and creating safe supportive environments, as outlined by Fulton County.

Designation of CSP Funds:

Based on the awarded amount of **$42,348.00,** the CCSP funds are designated according to the following cost categories: Administrative, Operational, and Direct Services.

Administrative Expenses- CCSP Funds that are spent on executive / management staff and administrative support staff salaries, salary fringe, and benefits; etc.).

Operational Expenditures- CCSP funds used to conduct agency/ organizational functions that are secondary to program service delivery such as office/ warehouse lease or mortgage expenses, office supplies (pens, toner, paper, etc.), utility expenses, transportation expenses (staff travel expenses), marketing/catalogs, etc.

Direct Service Expenditures- CCSP funds utilized to provide services directly to agency/program participants such as payments made on behalf of participants for rent, utilities, food, shelter, transportation (rentals, gas, and parking, bus drivers, public transportation costs, etc.) , scholarships and day care vouchers, salaries and fringe benefits for direct service personnel (Case Managers, Educators, Subcontractors, etc.), program supplies (educational/instructional materials, paper, pencils, markers, etc.) directly consumed by participants. Program materials that may be pertinent to the scope of services of a funded program and that aid in contractor meeting contracted program outcomes are included in this definition (i.e. children's story books, educational games, puzzles, and flash cards).

The maximum amount of CCSP funds allowed for administrative purposes (executive staff salaries and benefits only) is 5% of funds awarded. Throughout the contract period, program expenditures will be monitored (via performance reports) to ensure that funding is utilized as contracted.

Cost Category	Designation of CCSP Funding Award
Administrative (5% Admin max of funds awarded.)	$0.00
Operational	$0.00
Direct Services	$42,348.00
Total	$42,348.00

Docusign Envelope ID: 1F98C1E7-A9DF-4A82-AE7E-A6AFFAD3A79F

Explanation of Funding Details:

Funding of $42,348 would be used for Direct Services costs. This support would enable us to address heightened needs around behavioral health, food security, and healthy eating by significantly expanding existing programming.

Direct Services – Behavioral Health:

$40,000 of CCSP funding would support behavioral health coaching focusing on social determinants of health needs and mental health treatment so that residents can continue to live independently in affordable housing. Using a program partnership with the Atlanta Regional Commission (ARC), behavioral health coaches treat residents experiencing mental health challenges. Coach training, continuing education, and consultation are provided by Emory University School of Medicine's Fuqua Center for Late-Life Depression. The coaches conduct assessments, connect clients to resources, consult with providers, and assist with crisis management and intervention as needed. Our program partnership with ARC is a unique opportunity to provide much-needed support and services to residents struggling with mental health issues.

Direct Services – Food Support:

Through an array of offerings, Mercy Housing Southeast is able to support food security among households with a variety of needs. These include fresh groceries with complementary healthy recipes and nutrition education from Open Hand Atlanta and delivered meals from Meals on Wheels. CCSP funding would allow MHSE to expand Open Hand Atlanta Market Baskets from its current one property to up to four additional properties. Focusing on older adults, Meals on Wheels Atlanta offerings would be increased to serve a greater number of senior households at four Fulton County properties operated by MHSE. $2,348 from Fulton County would partially underwrite costs for these ongoing programs.

Program Performance Measures:

Mercy Housing Southeast agrees to track and report program performance to the Fulton County Department of Community Development.

The following program measures/ Key Performance Indicators ("KPI's") will be utilized to track and report program outcomes for the Fulton County residents supported with CSP funding, during the funding period 01/01/2024 through 12/31/2024:

Mercy Housing Southeast incorporates evidence-based best practices in our program measurement and evaluation. MHSE is committed to measuring the impact of its work and has made significant investments in infrastructure to accomplish that end. We use evaluation data to inform improvements to program design and delivery. To measure program success, we observe and analyze the outcomes that result from service utilization. Mercy Housing uses a standardized process at over 100 properties nationwide to track participation in services and outcome results. Staff input data into our database to track attributes like skills learned, goals achieved, and other outcomes. Our measurement systems allow us to create unique reports to monitor the success of a particular program or activity. This flexibility allows MHSE to evaluate program results at any time in the program year on a regional, county, or property level.

Mercy Housing conducts an annual resident survey that compares Mercy Housing residents across properties, program models, age groups, gender, and among the general population. Once the survey is complete, our National Resident Services team performs a deep analysis and reports on response rate, changes over previous years (with statistical significance), and comparisons to county, state, regional and national data. Data is analyzed using social solutions ETO software and R, with comparisons to analogous question data from previous years' surveys. The results are analyzed by region so MHSE can observe trends and identify needs in our area. Senior residents complete a health and wellness survey annually. The results of both surveys are analyzed and reported on by the end of each year.

Over the years, results from our surveys continue to suggest that service-enriched housing has a positive influence on residents' health outcomes. They also further suggest that the existence of full-time resident

Docusign Envelope ID: 1F98C1E7-A9DF-4A82-AE7E-A6AFFAD3A79F

services at our properties is effective in improving certain outcomes, such as ER visits, food security, and the ability to live independently. Additionally, our evaluations present evidence that resident service interventions are effective in positively influencing behaviors and provide the support needed for families and seniors to live independently.

For its 2024 CCSP proposal, MHSE has identified three County defined performance measures to report on:

To determine the number of individuals connected to available resources to help mitigate illness and health disparities, we will observe engagement in key activities including food support programming, behavioral health assessments, behavioral health coach consultation, and referrals. In its collaboration with ARC, MHSE refers residents to the BHC program. Those who are referred are selected based on demonstrated needs for support, such as high severity of illness that puts their housing and safety at risk, substance abuse, chronic stress, isolation, and other concerns as noted by ARC. Residents are also identified by staff for the Open Hand Market Basket and Meals on Wheels programs, for which residents may otherwise be unqualified or have to apply on their own. Connecting them to these resources enables them to improve access to healthy foods which is an essential social determinant of health and ultimately leads to greater stability. The impacts of this measure will also be determined by health outcomes such as adverse health conditions, hospitalizations, and self-assessed health. Improvements in these areas represent reduced health disparities among a senior population that often faces inequitable resources, discrimination, and other effects resulting from their socioeconomic status.

To determine the number of individuals receiving referrals to behavioral health and other supportive services, Mercy Housing Southeast will work with the ARC to document and report outcomes for participants who receive behavioral health support. The coaches specialize in assessing needs surrounding challenges residents face that could impact their independence and wellbeing. As discussed in question 12, BH coaches address the root of individuals' challenges and ensure residents have the resources and skills needed to live independently when they are no longer in the program. Participants will be counseled individually or in group settings on crisis management, benefit acquisition, caregiver support, social engagement, transportation, and holistic wellness. Note: ARC is able to share updates with site staff if an individual fits the criteria for treatment or not, the dosage of treatment, and if they are experiencing general successes or challenges. However, due to HIPAA regulations, ARC is unable to provide us with specific diagnoses but remains in communication regarding the overall status of participating residents.

Mercy Housing Southeast will gauge the number of individuals who report or demonstrate improved health-related outcomes or other "quality of life" measures by observing resident outcomes on our annual resident survey and senior health and wellness survey. Food security is determined by a combination of questions from the U.S. Department of Agriculture food security module that ask about residents' ability to purchase enough food for their household. Other topics include health provider status, healthcare utilization, insurance status, health related issues (i.e., tobacco use, diet, high blood pressure, etc.),

Docusign Envelope ID: 1F98C1E7-A9DF-4A82-AE7E-A6AFFAD3A79F

hospitalizations, self-reported health, and fall risk. Our survey also measures social isolation through the Lubben Social Network Scale, which involves a series of questions surrounding relationships with family and friends. Using the most recent survey results as a baseline, our goals are for at least 85% of households to be food secure, no more than 15% to report mental health distress, and at least 40% to view their health as excellent, or very good. At the end of the CCSP contract period, we can share survey outcomes with Fulton County when it is compiled.

MHSE's Health and Human Services KPIs include to prevent health disparities by educating and connecting residents to available resources and support the vulnerable residents in our social services. Both our food security and BHC offerings will make valuable resources easily accessible to families, seniors, and individuals in our housing communities. As mentioned above, we aim for at least 85% of households to be food secure. We expect behavioral health coaching will reach a maximum of up to an estimated 25 individuals served. By addressing the needs described in this proposal, we expect our programming to improve the County's standing in the County Health Rankings and Roadmaps report, specifically the Food Environment Index since we will be improving access to healthy foods and combatting food insecurity; Quality of Life through supports that improve physical and mental health; Adult Obesity resulting from healthy eating; Mental Health Providers; Severe Housing Cost Burden, since BHC supports people to remain stably housed; Preventable Hospital Stays; and Premature Death. We will support vulnerable residents with home-based and community-based services by offering these activities on-site, including seniors and people with disabilities.

Major Milestones

Behavioral Health Coaching: MHSE makes behavioral health coaches available to residents in need of mental health supports year-round. The ability to continue funding coaches from the Atlanta Regional Commission would allow MHSE to identify and provide deep levels of support to hard-to-reach individuals faced with challenges related to depression, isolation, addiction, and other concerns. BHC outreach prioritizes resident agency, allowing them to make decisions on their own terms and timeline. Behavioral health coaches will: (1) assess unmet needs, (2) facilitate appropriate service intervention, (3) work with clients and housing providers to create a coordinated plan, and (4) determine eligibility for services such as intake, screening, and assessments for Home and Community Based Services, assistance with Medicaid applications, warm referrals to outside services, and follow-up. Their work will connect residents to programs that maximize public benefits, crisis management, caregiver support, social engagement, and other wellness resources.

Food Security: Open Hand Market Baskets are received and distributed to residents on a weekly basis accompanied by healthy recipes using the foods included in each box. Each month, Open Hand Atlanta makes deliveries to the participating properties, with a projected 160 households receiving support in Fulton County. CCSP funding would allow MHSE to continue a Meals on Wheels program that assists MHSE residents in Fulton with breakfasts and dinners on a weekly basis. Resident Services staff select

Docusign Envelope ID: 1F98C1E7-A9DF-4A82-AE7E-A6AFFAD3A79F

residents for the program enabling us to focus on those with the highest needs. The program also gives us an opportunity to reach more residents, in addition to the food boxes and food pantry offerings we provide. If full CCSP support is awarded, by the end of the year MHSE would be able to serve up to 3,100 Open Hand Market Baskets and 4,900 meals from Meals on Wheels.

MHSE's agency defined performance measures are improving behavioral health access, promoting healthy behaviors, and avoiding hospital readmissions, discussed below.

Agency Defined Performance Measure(s):

Agency defined performance measures that Mercy Housing Southeast will track and report on during the contract period, using our annual resident survey, health and wellness survey, program rosters and other qualitative data, include the following:

1. Behavioral health access: This measure includes such factors as receiving referrals to behavioral health, screenings, and coaching; avoiding social isolation; access to affordable healthcare; and health insurance enrollment. With help from BHCs, participating residents will learn how to access resources and skills to address the challenges they are facing. These considerations will be documented as part of the proposed BHC program, the annual resident survey, and health and wellness survey.

2. Promoting healthy behaviors: This measure includes utilizing nutrition support from Market Baskets, Meals on Wheels, and the resulting impacts on food security among MHSE residents. Complementary nutrition education from sharing healthy recipes and cooking demonstrations will emphasize the importance of practicing a healthy balanced diet. Our health and wellness survey also explores healthy behaviors by asking about specific health concerns like tobacco use, diet, blood pressure, diabetes, stress, substance use, hearing, vision and memory loss. We expect that access to behavioral health coaching and screenings will call attention to the importance of identifying and addressing mental health concerns and available tools. Utilizing care regularly leads to better health, and the BHC program will raise awareness of its benefits, especially among those who experience mental health challenges.

3. Avoiding hospital admissions: Identifying and addressing behavioral health concerns contributes to reduced hospitalizations, and practicing healthy eating helps avoid adverse health conditions like hypertension and diabetes. Our goal is to empower residents to maintain stable health so they can live independently in their housing and thrive.

Please see the attached examples of questions from Mercy Housing's annual resident survey.

Approach and Design:

Camp Kudzu Inc., Education and Disease Management for Children & Teens with Type 1 Diabetes (T1D) will provide services to **57** clients that reside in Fulton County, with CCSP funding.

Camp Kudzu Inc., will provide the following activities and services in Fulton County with CCSP funding:

Camp Kudzu chooses the following Key Performance Indicators:

#2 "Prevent health disparities by educating residents and connecting them to available resources"

Number of residents with comorbidity

According to the Centers for Disease Control and Prevention (CDC), youth-onset diabetes is "associated with various health complications such as kidney disease, eye disease, and nerve damage, and poses a substantial clinical and public health burden," (https://www.cdc.gov/diabetes/research/reports/children-diabetes-rates-rise-html). Additionally, Children's Healthcare of Atlanta, a leading center providing advanced diabetes care for T1D youth and their families, reports that youth living with T1D are also at elevated risk for "other physical and mental issues, including thyroid disease, celiac disease, high cholesterol/triglycerides, and depression, anxiety and mental illness," (https://www.choa.org/medical-services/diabetes).

Camp Kudzu programs provide diabetes education and management skill development in a fun, medically supervised environment, demonstrating to children, teens, and their families that they can lead "regular lives" while simultaneously controlling this life-long condition. According to a study conducted by the American Camp Association, children who attend camp programs show increased

Docusign Envelope ID: E4CC87D9-F839-47F8-8760-3B60E24D1F04

confidence, independence, self-esteem, and social skills. Diabetes camp is the ideal setting for children to learn diabetes self-medical management skills and adopt health lifestyle habits, both of which will position campers to have the best health outcomes possible. Through our camp programs, youth with T1D gain the following diabetes management skills: how and when to check blood glucose levels, how to count carbohydrates, how to calculate insulin injection and adjust for carbs and/or correction, how to adjust insulin for impact of physical activity, how to draw up insulin, how to use an insulin pen (if applicable), how to give own injection, how to insert a new pump site, understanding importance of site/injection rotation, understanding how/when/why to check for ketones.

Children with T1D must adhere to a complex regimen of care to ensure that their blood sugar stays within "healthy" range 24 hours a day, 7 days a week, for the rest of their lives. Countless dollars are saved each year on ER visits, hospitalizations, and complications that are avoided due to education and prevention services provided by Camp Kudzu, as reported by parents through our Camp Kudzu Research Report. By providing education and support services to newly diagnosed youth and underserved youth who have had limited access to diabetes education and care, Camp Kudzu will help reduce the potential for comorbidities for at least 33 Fulton County residents aged 5-18 living with type 1 diabetes during 2024.

Number of people who receive behavioral health services

Living with a chronic illness like diabetes is hard. Patients experience daily demands related to checking blood sugar levels and administering insulin, deal with diabetes related emergencies and development of complications/health issues, and even changes in treatment plans add to the emotional burden of diabetes, which can lead to significant distress. According to the World Health Organization, over 350 million people in the world experience depression, and within the diabetes community (type 1 and type 2), depression is estimated to affect 1 in 4 people. Adolescents with T1D experience 5 times the rate of depression than those who do not have diabetes (https://www.jdrf.org/t1d-resources/living-with-t1d/mental-health/depression/). Youth with T1D and depression have increased risk for diabetic ketoacidosis and severe hypoglycemia, and often have more challenges transitioning to adulthood in terms of managing their disease. The American Diabetes Association recommends that individuals with T1D should be screened by their healthcare provider for depression on a regular basis, and finding a mental health provider who is knowledgeable about diabetes is recommended. Recognizing the need for behavioral health services as it relates to managing T1D, Camp Kudzu includes mental health professionals as part of the medical care team at camp programs. During camp, these highly trained individuals evaluate camper's mental health and use therapeutic techniques backed by evidence based best practices. Through attending a 2024 Camp Kudzu program, 33 Fulton County youth living with T1D will receive behavioral health services as part of our diabetes education and support program.

#4 "Support the vulnerable residents in our social services"

Number of residents who have access to home based and community based services for seniors and people with disabilities

The Americans with disabilities Act (ADA) is a federal law that prohibits discrimination against individuals with disabilities, including diabetes. People with diabetes of all types are protected under the ADA, including school aged children, who are afforded diabetes care while at school or during school outings or activities. By law, schools must provide educated and trained staff to monitor a child's blood glucose levels and administer insulin, as well as provide supervised care during school outings or activities (https://diabetes.org/tools-support/know-your-rights/attorney-materials/employment-materials/proving-diabetes-is-a-disability).

Through participation in Camp Kudzu programs, a minimum of 33 Fulton County youth living with T1D will receive diabetes education and disease management tools to increase their knowledge about living a healthy life with diabetes. Over 80% of youth participating in our programs will demonstrate an increase in self-sufficiency and independence, including a willingness to accept ownership of managing their disease. Additionally, these youth also demonstrate an increase in skills gained and/or demonstrated (including checking blood glucose levels, gain familiarity with blood glucose monitor, master insulin administration, calculate carbohydrates, understand proper nutrition, identify warning signs of hypoglycemia/hyperglycemia, etc.).

Camp Kudzu chooses the following CSP funding priorities, as identified by the primary service category selected (Health &

Docusign Envelope ID: E4CC87D9-F839-47F8-8760-3B60E24D1F04

Wellness)

CSP Funding Priority # 1: Prevent illness and health disparities by educating and connecting individuals to available resources.

Camp Kudzu provides an array of programs addressing the needs – medical, social, developmental, mental, psychological – of youth living with T1D, ensuring they have the best information for the strongest health outcomes possible. All programming is evidence based, revolves around best practices in diabetes care for children, and is delivered in a recreational medical setting as children learn best and adopt new skills when they are relaxed and having fun. Programming is designed to help children learn how to best care for themselves, empower them to take charge of their health, and mentor/support others with the disease. Camp Kudzu is dedicated to the safety of its campers; all disease management programming is overseen by our Medical Leadership Team and Medical Advisory Board, which are led by Dr. Andrew Muir, Division Chief of Endocrinology and Medical Director of the Diabetes Program at Children's Healthcare of Atlanta.

Camp Kudzu's programs are centered on a strong medical base of information and care. Getting participants to check blood glucose levels often and respond appropriately is an important objective of programming. Other objectives are for participants to gain familiarity with the technical aspects of a blood glucose monitor, master insulin administration, calculate carbohydrates and understand proper nutrition, identify the warning signs of hypoglycemia and hyperglycemia, participate in a minimum of three energetic activities per day, connect with medical specialists, and benefit from meeting positive role models and peers facing similar medical challenges.

Camp Kudzu is a community dedicated to the learning and growth of our campers living with T1D, and we offer the following programs, where T1D youth and family members receive diabetes education and support programs: Overnight Summer Camp, Day Camp, Family Camp Weekends, Teen Retreat, Junior Retreat, a Leadership Development Program, and Kudzu One Day outreach program.

CSP Funding Priority #2: Programs addressing mental health, depression, stress, trauma, and anxiety among individuals.

Living with type 1 diabetes can be hard, the daily demands of disease management add an emotional burden to the disease, often leading to significant diabetes distress. According to the Juvenile Diabetes Research Foundation, "diabetes distress" is defined as a "range of emotional responses to living with and managing diabetes" (https://www.jdrf.org/tid-resources/living-with-t1d/mental-health/dealing-with-distress/). Symptoms include fear and worry about complications, feeling overwhelmed, defeated and discouraged. As many as 75% of youth with T1D will experience "diabetes distress" and because of this are at heightened risk for depression, stress, and anxiety. In addition, youth with T1D and depression have increased risk for diabetic ketoacidosis and severe hypoglycemia, and often have more challenges transitioning to adulthood in terms of managing their disease. The American Diabetes Association recommends that individuals with T1D should be screened by their healthcare provider for depression on a regular basis, and finding a mental health provider who is knowledgeable about diabetes is recommended. Recognizing the need for behavioral health services as it relates to managing T1D, Camp Kudzu includes mental health professionals as part of the medical care team at camp programs. During camp, these highly trained individuals evaluate camper's mental health and use therapeutic techniques backed by evidence based best practices. In addition, all of Camp Kudzu's programs include educational sessions related to mental health, including diabetes distress.

CSP Funding Priority # 5: Programs focusing on financial literacy and wellness.

Camp Kudzu believes in providing campers with opportunities to continue developing their diabetes management skills and leadership skills as they transition out of "camper" life and into independent adults. Participants of our Leadership Development Program engage in tasks focused on communication, decision-making, leadership, and youth development. Included in the curriculum for this program are exercises focused on helping these teens prepare for adulthood as it relates to disease management, including the financial aspects of managing life with diabetes. Camp Kudzu's Leadership Development Program is available for teens who have completed 11th grade (Counselors-In-Training) and for teens who have completed high school (Junior Counselors).

Camp Kudzu has built and maintained the following partnerships that support our mission:

The following program measures/ Key Performance Indicators ("KPI's") will be utilized to track and report program outcomes for the Fulton County residents supported with CSP funding, during the funding period 01/01/2024 through 12/31/2024:

The main goal of Camp Kudzu's Education and Disease Management Program for Children & Teens with Type 1 Diabetes (T1D) is to provide specialized diabetes programming focused on learning best practices for diabetes management for T1D youth and family members. Camp Kudzu's mission is to educate, empower, and inspire children and teens living with type 1 diabetes (T1D). As Georgia's largest provider of diabetes self-management education and support services, Camp Kudzu fills an important need for children and teens aged 5 to 18 living with insulin-dependent diabetes.

Through Camp Kudzu's offering of year-round programs, Camp Kudzu will attain the following Fulton County defined performance measures under the Health & Wellness Service Category in 2024:

-Number of individuals connected to available resources to help mitigate illness and health disparities. 30 Fulton County youth living with T1D will achieve this metric.

-Number of individuals who report or demonstrate improved health-related outcomes or other "quality of life" measures. 24 Fulton County youth living with T1D will achieve this metric.

-Number of individuals participating in programs focusing on financial literacy and wellness. 3 Fulton County youth living with T1D will achieve this metric.

Camp Kudzu provides for the protection, safety, and welfare of children in Fulton County, Georgia who are living with type 1

Docusign Envelope ID: E4CC87D9-F839-47F8-8760-3B60E24D1F04

diabetes (T1D). Since our founding in 1999, the majority of our participants have resided in the Metro Atlanta area, including Fulton County. Children with T1D must adhere to a complex regimen of care to ensure their blood sugar stays within “healthy” range 24 hours per day, for the rest of their lives. Countless dollars are saved each year on ER visits, hospitalizations, and complications that are avoided due to education and prevention services provided by Camp Kudzu. Last year, Camp Kudzu served 66 T1D youth from Fulton County with our best practice services.

Camp Kudzu relies heavily on volunteer support to deliver our mission. Last year, 659 volunteers donated nearly 90,000 people hours to provide organizational and program support. Approximately 30% of our volunteers are medical staff and are a critical component for delivery of medical care to T1D children and teens while attending camp programs. To facilitate camp, an entire spectrum of healthcare professionals is needed, including endocrinologists, medical nurses, clinicians, and dietary staff. Prior to attending camp, each family completes a health history form for their camper, which includes their current diabetes insulin regimen. During camp, monitoring of blood sugar levels happens throughout the day and night, and insulin adjustments are made as needed in reflection of amount of physical activity and/or camper food intake. Volunteers also serve in numerous roles on the Programming Team, with responsibilities such as head staff, cabin counselors, program activity staff, and logistics volunteers.

Camp Kudzu believes that no child should suffer from complications of T1D that could be avoided with support and education. A significant goal in our strategic plan is the expansion of services to underserved youth, which includes those who may not have access to pediatric diabetes education, live in rural areas, are low-income, and/or have other barriers to care. Each year, we conduct outreach efforts to reach families in “high impact areas” (as determined through market analysis conducted in partnership with the Georgia Center for Nonprofits in 2019), which includes South Metro Atlanta and South Fulton County. A significant barrier for many families is the financial cost of attending camp. The true cost greatly exceeds what we charge for camp programs, averaging $3,500 per camper/week. Camp Kudzu fundraises to offset the cost of camp for all families and utilizes a tiered fee structure for camp fees. Last year, 50% of all campers and families received financial assistance in order to attend a camp program. Overall, we hosted 738 campers through our offering of year-round programs. $285,110 in financial stipends were awarded to 369 underserved campers/families to attend a camp program; $19,300 was awarded to 28 underserved Fulton County campers/families living with T1D.

Having a child diagnosed with T1D can be overwhelming, suddenly the entire family must learn how to count carbohydrates, monitor blood sugar, and give insulin injections, not to mention dealing with insurance, managing T1D in school, and figuring out their “new normal.” The pressures of having a child with special medical needs which require constant 24/7 care can be demanding and often parents report feelings of guilt, anxiety, and fear. Camp Kudzu provides support to parents and siblings of youth living with T1D, to help with the many faceted aspects of managing this complex disease. Our Family Camp Weekends (held multiple times per year) are specifically designed to support newly diagnosed families and those who need a boost in dealing with their disease. Diabetes education and disease management lessons are integrated throughout the weekend programming. Kudzu One Day is another Camp Kudzu program designed to meet families where they are at, in their local communities. On average, we host 10 K1D programs throughout the state of Georgia in a given year. All K1D events are free to attend and include disease education and information on diabetes management, as well as traditional camp activities. Last year Camp Kudzu supported 45 Fulton County T1D family members through our Family Camp Weekends and K1D events.

Camp Kudzu utilizes specialized camp management software (UltraCamp) to manage registrations, track and process payments, manage scholarship stipends, communicate with parents, and more. The specialized camp software also provides extensive reporting options, including medication distribution, which is imperative to managing camp for insulin-dependent youth. The system also provides functionality to manage camp volunteers.

Camp Kudzu believes in providing campers with opportunities to continue developing their diabetes management skills and leadership skills as they transition out of “camper” life and into independent adults. Participants of our Leadership Development Program engage in tasks focused on communication, decision-making, leadership, and youth development. Included in the curriculum for this program are exercises focused on helping these teens prepare for adulthood as it relates to disease management,

Docusign Envelope ID: E4CC87D9-F839-47F8-8760-3B60E24D1F04

including the financial aspects of managing life with diabetes. Camp Kudzu's Leadership Development Program is available for teens who have completed 11th grade (Counselors-In-Training) and for teens who have completed high school (Junior Counselors). Camp Kudzu staff are outcome driven. Through a partnership with Clemson University, we conduct outcomes-based research to measure program success and to fully understand the impact of our programming on the lives of campers. As a result of their children participating in Camp Kudzu programs, parents continue to report statistically significant growth in their children's communication skills, responsibility, competence of disease management, self-confidence, self-awareness, social skills, and normalization of diagnosis. Program success will also be measured internally by Camp Kudzu staff as it relates to the number of campers served, number of camp stipends (scholarships) awarded, and number of outreach programs to underserved communities conducted, as all of these metrics align directly with Camp Kudzu's mission to educate, empower, and inspire children and teens living with type 1 diabetes.

As it relates to blood glucose, time spent "in range" is important data collected each summer, ensuring that protocols are best-practice and specific to the camp setting. Analyzed through extensive chart reviews, this information is shared with diabetes camps across the country as a benchmark for diabetes protocol in the camp setting. Measured youth outcomes gathered in recent years indicate that Camp Kudzu is a setting that facilitates exceptional levels of positive socio-emotional growth and skill development. Camp Kudzu is proud of the ground-breaking outcomes and diabetes research that occurs at camp each year, further highlighting the direct benefit that our camp programs provide to campers and their families. We remain dedicated to data-driven proof of success.

Milestones and a schedule for Performance Measurements identified above are as follows:
