The CDC reports the lifetime educational cost of hearing loss to be estimated at $115,600 per Deaf or Hard of Hearing (DHH) child. Add to this an additional $416,400 for healthcare costs and lost wages. Multiply this total of $532,000, times the 9 DHH children to be served by the proposed project ($4,788,000) and this is what the state of Georgia and Fulton County can expect to incur in the delivery of special education services, healthcare, and lost taxable income over the next decade should CSP funding not be awarded. Our Auditory Verbal Therapy (AV therapy) program proposes to reduce these costs for this specific cohort of children by empowering them with listening and spoken language proficiency without the use of sign language and full integration within our hearing culture needing no special accommodations for their hearing disability.

If left untreated, hearing loss can have a significant impact on a child's development, including speech, literacy, and socialization. Without early intervention, children with hearing loss may face lifelong consequences such as developmental disabilities, reduced learning and earning potential, and dependence on others. Without proper intervention, many never learn to read or speak at a level sufficient for full participation in society.

Research shows that 80% of language ability is established by the 18th month of age, and that hearing plays a crucial role in the development of language skills. Children with untreated hearing loss are at a higher risk of developing comorbid disabilities. The statistics show DHH persons are 61% more likely to develop a learning disability; 46.6% more likely to develop ADD/ADHD; 19.7% more likely to develop stuttering; and, 12.1% more likely to develop an intellectual disability.

Studies have found that 52% of DHH children with comorbid developmental disabilities are more likely to have multiple visits to emergency rooms compared to children without disabilities. The AV therapy program, which has 47 years of evidence-based practice, assessments, and results-driven outcome data, aims to prevent the development of these comorbid disabilities by initiating therapy during the infant and early toddler years.

Thanks to modern medical advances, children who are DHH now have access to highly effective hearing aids or cochlear implants, which can provide significant levels of auditory input. Our AV therapy program complements these devices by teaching children how to interpret the input they are receiving, toward the development of proficient listening and spoken language skills without the use of sign language. This combination of technology and therapy equips DHH children to fully understand the hearing environment in which they live; and it prepares them to participate in it safely and proficiently.

AV therapy aims to bridge the gap between a deaf child's hearing ability and their age by creating a path from the ear to the brain for language understanding. Through regular therapy sessions utilizing play-based techniques, Auditory Verbal Therapists guide parents to become their child's primary language educators. Working in conjunction with the child's audiology team, AV therapy ensures that hearing devices are optimized for maximum auditory input, meaning that the child can hear what's going on around him/her. Because parents can't live in our offices 24/7 (smile), our hands-on parent coaching becomes most critical, as it is the family environment that becomes ground zero for the child learning vocabulary and comprehending his/her surroundings. We coach the family to be the Childs primary role model for language. This daily practice, when implemented effectively, makes it so the child learns to pay attention to sound automatically, making hearing and listening an integral part of communication, play, education, and ultimately work. The most effective time frame for developing these skills is between 0-5 years old, further emphasizing the importance of early intervention.

AV therapy services include an initial comprehensive evaluation, weekly in person and virtual therapy sessions, regular progress evaluations every six months, and annual assessments. Treatment plans are customized based on the child's

Docusign Envelope ID: 1CE0C209-A14B-4339-AA7D-6D4CCBD9EF2A

evaluation results, age at diagnosis, degree of hearing loss, developmental delays, and parent involvement. Each week, children build on previously learned language, auditory, and cognitive concepts through positive reinforcement and personal connections. Progress is closely monitored to ensure parents are incorporating therapy into the child's daily home environment. Parents receive tailored lesson plans, child development literature, and access to a toy lending library. Treatment plans are adjusted based on clinical outcomes and parent feedback. Testing takes place at six-month intervals to ensure children are applying learned concepts and can communicate effectively. Completion of the program is based on the child's acquisition of age-appropriate communication skills, which typically takes 2-5 years.

The proposed program supports: three of the strategic priority area objectives within the Fulton County Government strategic priority area "Health and Human Services" and three of the CSP Disabilities Funding Priorities, as identified by the Disabilities Service Category.

1. Prevent health disparities by educating residents and connecting them to available resources (# of uninsured adults and children, # of residents with co-morbidity).

Our AV therapy program prevents health disparities by specifically targeting children who are most at-risk for going un-served due to lack of insurance coverage, low household income, and co-morbidity. All, or 100%, of children served by CSP funds will be affected by one or more of these factors.

2. Support the vulnerable residents in our social services (#of residents who have access to home-based and community services for people with disabilities, # of people who receive support services).

The project proposes to serve 9 DHH children and 9 of their parents/caregivers/family members with clinic and home-based intensive Auditory Verbal Therapy.

3. Help residents realize their educational potential through our community services and library programs.

AV therapy helps residents realize their educational potential through the development of auditory skills, comprehension, use of spoken language, and production of speech without the use of sign language. This allows DHH children to achieve cognitive speech and language functioning equal to that of or exceeding normal hearing peers allowing access to mainstream education. In fact, 100% of the children who graduate from AV therapy can transition into traditional hearing classrooms by kindergarten age, school ready, needing no special assistance for their hearing loss for the rest of their lives. They are on target for 3rd grade reading levels by the time they reach 3rd grade.

The three CSP Disabilities Funding Priorities addressed include:

1. Early intervention (0-5) services and training for children with cognitive and physical disabilities; Developing a foundation for youth (0-24) with disabilities in: (a.) Training/Education, (b.) Job readiness/Vocational; internships, and (c.) Sense of belonging; support groups respite care, program support and inclusion.

Affording younger DHH children access to Auditory Verbal Therapy during their early years is proven to put these children on the path to achieving the same educational outcomes as their same-age hearing peers, and directly helps them achieve future financial and social independence. Without early intervention, these children most often struggle in school and have limited job prospects as adults, relying on financial support from their families or government assistance. AV therapy closes this gap by teaching these children to communicate effectively so they can function independently in hearing environments.

Docusign Envelope ID: 1CE0C209-A14B-4339-AA7D-6D4CCBD9EF2A

2. After school, weekend, summer programs, and family caregiver supports and services for persons with Intellectual and Developmental Disabilities. Social and cultural programs for persons with Developmental Disabilities to decrease isolation and promote social interaction and development of interpersonal and emotional skills. Programs which promote wellness for the special needs of Persons with Disabilities exclusive of their specific disability.

AV therapy helps DHH children develop the skills they need to communicate, socialize, and succeed academically in mainstream classrooms, without the need for special accommodations. The program equips parents to be their child's language role models, enabling them to replicate the therapy environment within the home and in everyday activities. The result is full inclusion for DHH children, even for those with the most profound hearing loss.

3. Programs that promote educational (youth with disabilities) and/or vocational and Career Readiness skills (adults with disabilities); programs that support teaching work skills, interpersonal communication, customer relations skills, and opportunities which could lead to greater self-sufficiency. Job readiness/training and job opportunities for persons with disabilities, particularly youth finishing high school. Educating/training persons without disabilities how to interact/work with persons with disabilities, in the workplace and in the community. Education and access to health information for Persons with Disabilities (with specific emphasis on health topics like: COVID-19 safety, testing, and vaccines).

Our program, with a completion rate of 80%-90%, enables DHH children to attend mainstream classrooms without the need for special accommodations, and alongside their hearing peers. The success of the program is largely due to the parent/caregiver coaching component which teaches parents how to apply therapy methods in their daily lives, further ensuring that the child's progress continues outside of the therapy sessions. Graduates from the program are school ready to learn by the time they enter kindergarten and achieve 3rd grade reading level by the time they are in 3rd grade. These children are able to graduate from high school and continue on for higher education or work. They are not limited because of their hearing disability.

To help support the family's journey, AVC collaborates with multiple strategic partners. Georgia Pathway to Language and Literacy (Georgia Pathway) is one collaboration. This collaboration is a statewide coalition of 20+ service organizations dedicated to ensuring DHH children can achieve grade level reading proficiency by third grade. Our agency is an essential contributor in that we work with other coalition partners to ensure children with hearing loss diagnoses are directed to appropriate service providers and enter education programs that enable them to achieve their communication goals.

Within the Georgia Pathway system of organizations, children with hearing loss are identified and diagnosed; their parents are supported with information and resources to choose their preferred method of communication and educational program (Auditory Verbal, Auditory-Oral,Sign Language); and home visits, referrals for services, and follow-up are provided. In coordination with the Department of Education, children's progress is tracked from the Georgia Pathway system into the public education system to ensure children are meeting their milestones regardless of the education program chosen. AVC is the third point of contact in this continuum of care, administering language evaluation assessments to children every six months to root out weaknesses in the system.

Other members of the coalition include: Atlanta Area School for the Deaf, Atlanta Speech School, Children's Healthcare of Atlanta, Georgia Department of Community Health/Public Health Division - Universal Newborn Hearing Screening and Intervention (UNHSI), Georgia Department of Education, Georgia Hands & Voices, Georgia PINES, Georgia School for the Deaf (GSD), Georgia State University - Special Education Department/Deaf/HH Program, Nancy Hurd Buice, Consultant, North Georgia Regional Educational Service Agency (RESA), Georgia Learning Resources System (GLRS),

Professional Preparation in Cochlear Implants (PPCI), and Seaton Consultants. Each of these organizations play a pivotal role in the development of policy, direct service delivery, and efficacy and evaluation of efforts that directly impact Georgia's DHH population.

AVC also collaborates with Lekotek play therapy services, Audiologists, Pediatricians, Ear Nose and Throat (ENT) specialists, and Dr. Paula Harmon (MD Otolaryngology), a Cochlear Implant Surgeon. Lekotek provides assistive devices for families to use in their homes during the therapy process. Additionally, we work alongside each client's pediatrician and/or ENT throughout the therapy process to ensure our treatment plan includes critical primary care objectives. Lastly, Dr. Paula Harmon is one of the surgeons who provides Cochlear Implant surgery for qualifying children diagnosed DHH. Cochlear Implants are surgically implanted hearing devices that permit sound to travel to the brain for interpretation. Most AV therapy program participants have Cochlear Implants. The Auditory Verbal Therapy teaches children to develop the language and vocabulary for the sounds being transmitted.

In 1977, Auditory Verbal Center, Inc. began as a support group helping parents realize the best outcomes for their DHH children. Today, we represent as the leading provider of AV therapy in Georgia. We have pioneered state recognition of Auditory Verbal Therapy and achieved fiscal appropriations to serve the uninsured and underinsured. We achieved and managed a state-funded hearing aid loaner bank program in collaboration with the Georgia Department of Public Health, providing loaner hearing aids to children in need and those who will be getting a Cochlear Implant. We serve on the Executive Committee for Georgia Pathway to Language and Literacy and the Georgia Early Hearing, Detection and Intervention (EHDI) program, two statewide committees charged with ensuring that DHH children can read at grade-level by 3rd grade; as well as, Georgia Pathways Medicaid subcommittee, charged with advocating for greater coverage of AV therapy services and Access to Language.

We have referral relationships with Ear Nose and Throat doctors, Audiologists, the Georgia Department of Education's Mobile Audiology Unit, Children's Medical Services, Georgia's 18 health districts, Babies Can't Wait, and Georgia Pines; all entities working directly with children diagnosed with hearing loss. We also serve as a practicum site for the training of Auditory Verbal Therapists (a highly specialized field with a pool of only 900 professionals worldwide).

For those requiring physical accommodations, the proposed project takes place in a facility that is accessible under the Americans with Disabilities Act. We are located within six miles of downtown Atlanta and conveniently located along the public transportation route. There are clearly marked handicapped parking spaces at the front door of the building that includes a ramp for wheelchairs. The building is located at ground level and has multiple wheelchair accessible bathrooms, hallways, doorways, and height-appropriate watering stations.

Auditory Verbal Center Inc. agrees to track and report program performance to the Fulton County Department of Community Development.

County Defined Performance Measure(s):

Children and Youth: Not Applicable

Disabilities: Number of Persons with Disabilities (PWD) included in programs due to increased accessibility...,Number of Persons with Disabilities who are self-sufficient or able to live independently...,Number of Persons with Disabilities who can focus on overall wellness...,Number of persons without disabilities educated/trained to interact/work with Persons with Disabilities in workplace...

The following program measures/ Key Performance Indicators ("KPI's") will be utilized to track and report program outcomes for the Fulton County residents supported with CSP funding, during the funding period 01/01/2024 through 12/31/2024:

The overall goal of the AV therapy program is that each child graduating can demonstrate social, cognitive, speech, language, and auditory competency levels equal to or exceeding those of their same age, normal hearing peers and without the need for special assistance or assistive devices. To determine the treatment plan and measure progress, each child participates in a baseline evaluation at the first appointment and a progress diagnostic evaluation annually there-after.

Docusign Envelope ID: 1CE0C209-A14B-4339-AA7D-6D4CCBD9EF2A

Weekly clinical outcomes are collected, recorded, and measured across three indicators by Auditory Verbal Therapists. The following milestones are documented in the clinical notes:

1. Each child wears his/her hearing aid or cochlear implant throughout their waking hours and demonstrates progress in tolerating them;
2. Each child demonstrates progress in the four auditory levels: 1) Attention; 2) Discrimination; 3) Identification; and 4) Comprehension of auditory stimuli; and
3. Each child demonstrates individual growth in auditory, language, and speech skills by accomplishing 80%-90% of identified therapy objectives in all areas of communication.

The individualized treatment plan and assessment/evaluation tools are used to collect weekly progress data and serve as the basis for treatment plan revisions. The progression timeline varies with each child and is based on each's severity of hearing loss, developmental delays, start date, and parent participation.

After participating in the program for an average of 2-5 years and undergoing weekly intensive listening, verbal recognition, and home training, **100% of our graduates are able to mainstream into traditional hearing classrooms needing no additional help for their hearing loss by the time they enter kindergarten**. Each year, **an average of 10-20 children graduate** and can mainstream into kindergarten classrooms **able to learn independently.**

To ensure children are able to function cognitively in the classroom setting, we employ a number of standardized testing measures used by traditional school systems including: Alperi-Boll Developmental Profile 11, Sequenced Inventory of Communication Development (SICD), Peabody Picture Vocabulary Test, 3rd Edition, and Form A and B (PPVT). During the funding period, AVC will report on the following County-defined performance measures:

#1 "Number of persons with disabilities included in programs due to increased accessibility; physical environment, transportation, housing, alternative communications" (data collection via intervention plan documentation and clinical notes)

Each participant of our program represents a person with a disability who would not otherwise access services due to a lack of insurance coverage and financial inability to pay out-of-pocket co-pays and deductibles. Additionally, we are the only AV therapy program with bilingual Auditory Verbal Therapists serving a growing population of Hispanic children with parents who speak Spanish as their primary language. We employ three bilingual staff members and have translated all forms and documents in Spanish in order to accommodate Spanish-speaking families. These families represent 32% of our total client base.

As a direct result of these progressive policies, our program creates opportunities for hearing-disabled persons to participate in a breadth of other social-based activities once they are able to communicate without impediments.

#2 "Number of persons with disabilities who are self-sufficient or able to live independently because they can achieve necessary training or education to be employed or be able to achieve comparable salaries as those without disabilities" (data collection via intervention plan documentation and clinical notes)

Over our 47 year service history, we have proven that 100% of children who achieve the clinical outcomes defined in their individualized intervention plans can perform on par with or exceed the academic performance of their normal-hearing peers. It's the education that makes them, as adults, employable without special accommodation. Without

Auditory Verbal Therapy, according to the National Institute of Health (2015), hearing disabled persons are twice as likely to be unemployed/underemployed and have family incomes of $20,000 or less.

This will be measured by the number of Fulton County children who graduate from our program and can mainstream into typical hearing classrooms needing no special accommodations or assistance for their hearing disability.

#3 "Number of persons with disabilities who can focus on overall wellness, including better management of their disability" (data collection via intervention plan documentation and clinical notes)

Developing auditory, comprehension, cognitive, and social skills allows persons with hearing disability to avoid further health complications and co-morbid developmental and cognitive disabilities that often result due to undetected and untreated hearing loss. For hearing disabled persons, gaining the ability to listen and speak means greater self-empowerment, self-advocacy, and self-management.

#4 “Number of persons without disabilities educated/trained to interact/work with persons with disabilities in the workplace and in the community” (data collection via intervention plan documentation and clinical notes)

During weekly therapy sessions, parents/caregivers/family members receive coaching and instruction on how to integrate therapy within the home environment and within daily activities. Parents learn developmental milestones and are empowered to become their child’s primary language role model, advocate, and teacher.

Agency Defined Performance Measure(s):

During the funding period, AVC will report on the following agency-defined performance measures (data collection via intervention plan documentation and clinical notes):

1. Each child wears his/her hearing aid or cochlear implant throughout their waking hours and demonstrates progress in tolerating them;

2. Each child demonstrates progress in the four auditory levels: 1) Attention; 2) Discrimination; 3) Identification; and 4) Comprehension of auditory stimuli; and

3. Each child demonstrates individual growth in auditory, language, and speech skills by accomplishing 80%-90% of identified therapy objectives in all areas of communication.

1. Identifies specific activities and services that will be provided to support one or more CSP funding priorities.

The activities and services provided through F2W!-ESP support CCSP's Economic Stability/Poverty funding priority. The Favored To Win! Employment Services Program (F2W!-ESP) is a job readiness assessment and training program designed to assist the most disadvantaged individuals from underserved homeless populations by tailoring employment services to address their barriers, needs, and strengths. F2W!-ESP combines case management, vocational assessments, skill-building sessions, and a 4-week job readiness training program to help homeless individuals gain the knowledge and skills needed to become employable and self-sufficient.

Although the organization's initial focus was to provide decent, affordable supportive housing, a more inclusive continuum of care program model was adopted to address the multi-faceted nature of problems homeless and chronically homeless individuals face. Today, MAWH offers support services and resident access to a wealth of community resources, including case management, comprehensive referral services, transportation, and onsite support groups and life-skills training. The dedicated program staff assists formerly homeless and chronically homeless individuals with obtaining gainful employment, learning to cope with and manage mental illness, achieving long-lasting substance abuse recovery, and reintegrating back into the community as productive, independent citizens.

2. Identifies how the activities and services will be accomplished.

Making A Way Housing (MAWH) operates a gated housing community situated on 4-acres of land, located in southwest Atlanta's Grove Park neighborhood, which operates 24/7 year-round. MAWH provides emergency shelter, supportive transitional and permanent housing, and a pre-recovery program for single adults facing complex challenges related to chronic homelessness, substance addiction, mental illness, and HIV/AIDS. The facility consists of 66-two bedroom, one-bath apartment units and a 25-bed emergency shelter. Community spaces and supplemental services include a conference room, recreation room, fitness facility, laundry room, a clothes

closet, and food pantry. Free meals are served daily, and the facility is conveniently located along a MARTA public transportation route.

Participants accepted into MAWH's emergency and transitional housing program participate in monthly workshops and groups designed to address various issues that lead to housing instability. The participants begin to attend seminars within 7 days of their program acceptance. They must attend all MAWH mandatory meetings and at least 2 optional workshops/groups per month until completion of the program. Participants may attend more than the required number of workshops/groups during the month. The available workshop options include:

- Weekly MAWH Community Meeting (mandatory for ALL MAWH residents): Weekly informal resident assemblies to discuss certain residential happenings, issues, problems, and to vote on decisions that affect the entire MAWH community.
- Disease Concepts Group: Weekly groups designed to educate residents on the disease of addiction. The groups highlight the biological, neurological, genetic, and environmental sources of addiction and offer participants a safe, supportive space.
- Healthy Love/ HIV 101: A monthly workshop that provides education and risk reduction strategies to educate those who are at risk for the disease, as well as those who have the disease. Sessions offer an in-depth overview of HIV, its impact on the body, and how the medication works. The importance of adherence to medical care is also discussed.
- Financial Literacy: A series of workshops addresses budgeting, financial planning, and credit. The goal is to provide basic to intermediate financial education.
- Life Skills: Monthly learning sessions that teach the necessary skills every adult needs to manage their life. These include but are not limited to: personal hygiene, clothing care (laundry, ironing, basic sewing); personal finance (checkbook and banking skills); travel training; apartment management (kitchen and bathroom clean up, vacuuming, bed making, etc.)
- Population Specific Peer-Support Groups: Weekly groups covering population-specific (heterosexual women, heterosexual men, MSM, and LGBTQI) topics in behavioral health and coping. Assists participants in obtaining and increasing their social support network.
- Employment Training & Leadership Skills: Designed to assist individuals with acquiring and improving skills to enhance one's ability to obtain and or maintain employment. Discussions around improving leadership skills to increase the likelihood of job stability and promotion.

All participants accepted into MAWH Programs must commit to abide by the MAWH's program policies and procedures with a primary emphasis on compliance with the zero-tolerance, drug-free approach. Participants are also responsible for submitting documentation of group/meeting attendance. Participants are not covered by a 3rd party Payor (e.g. Traveler's Aid, Living Room,

Docusign Envelope ID: 4603F69F-E865-4E83-A0D9-0DC705286391

etc.). According to one's ability to pay; residents are required to contribute to their monthly housing expenses. The amount of the tenant's rental amount or portion contribution is determined at intake and reviewed quarterly. A record of all workshops attended by participants will be maintained in the participant's file and the Case Manager must document the client's monthly progress on their ISP and log notes into the Pathways tracking system.

The initial intake process into the MAWH's program generally occurs through the Damascus Inn Shelter Program. Damascus Inn is a 25-bed emergency shelter that provides homeless men and women with an address to call their own. At the same time, they focus on the initial stages of recovery from substance abuse, mental health afflictions, and HIV/AIDS. One of the initial aspects touched upon includes helping residents obtain vital documents to begin preparing to transition into supportive housing and outpatient treatment programs. Once shelter residents achieve sobriety for 30 days, they have the option to transition into one of our other supportive housing programs, Gilead's Place or Daniel's Place. Eighty-two percent (82%) of Damascus Inn residents usually transition from the shelter into one of these supportive housing programs. These programs provide affordable transitional and permanent supportive housing at discounted rates, averaging two-thirds of the fair market value.

Intensive case management continues as the emphasis is placed on continued recovery and employment. Through case management, clients gain access to health care, life skills training, literacy classes, workforce development training, a computer lab for resumes and job searches, and a food pantry for the individuals waiting for food stamp allocation or meals on wheels, and transportation to medical appointments. After leaving the MAWH Compound, the staff remains in contact with participants for up to 6 months to provide guidance and continued support and collect follow-up data.

Case Managers conduct an intake to MAWH residential programs and facilitate essential linkages for homeless and chronically homeless individuals to health and social services, including primary medical care and mental health counseling. Professional Case Workers are assigned to each client to assist in developing individualized care plans that identify relevant services needed to support the achievement of care plan goals. If a desire to work or receive training is identified, the client is referred to an Employment Specialist for an in-depth vocational assessment and to create an individual vocational career plan.

Clients participate in learning sessions that teach basic skills every adult needs to manage their life. These skills include but are not limited to: personal hygiene, clothing care (laundry, ironing, basic sewing); personal finance (checkbook and banking skills), travel training, and apartment

Docusign Envelope ID: 4603F69F-E865-4E83-A0D9-0DC705286391

management (kitchen and bathroom clean up, vacuuming, bed making, etc.). Clients also attend a series of financial literacy workshops that address budgeting, financial planning, and credit to provide a basic intermediate financial education. Clients also participate in skill-building sessions for employment and leadership training. These sessions are designed to assist individuals with acquiring and improving skills to enhance their ability to obtain or maintain employment. Discussions around improving leadership skills in order to increase the likelihood of job stability and promotion.

The program provides clients with a Job Readiness and Retention Training Program, a 4-week course that meets every Wednesday of the month from 9:00am to 12:30pm. The program includes sessions on: Orientation and Goal Setting; Communication Skills; Workplace Expectations; Interview Techniques; Effective Resume; Dress for Success; Employment Applications; and Job Searching.

The MAWH program provides safe affordable housing with rental fees determined by household income and does not exceed 30% of residents' monthly after-tax income. There are no fees to receive emergency shelter services and all MAWH residents receive case management and supportive services, regardless of whether they are housed in our emergency, transitional or permanent housing program. The program works to increase financial literacy, budgeting skills, and access to gainful employment of the clients increases their potential for economic stability. The program also creates individualized service plans for each resident that identify and address personal and developmental barriers, including literacy, comprehension, and continuing education. Lastly, the program strives to alleviate hunger amongst our residents by providing nutritional meals, emergency food boxes and/or carry-over groceries for all clients, and three meals a day for our emergency shelter residents.

MAWH's partners provide clients with affordable access to primary care services, medications, nutrition education, mental health counseling, substance abuse treatment, and employment services. The partnerships also reduce MAWH's operating costs by reducing the need for in-house program staff, thereby increasing our capacity to focus more on health education, testing, affordable housing, supportive services, and case management. These partnerships include: Atlanta Community Food Bank assists MAWH with alleviating hunger by providing affordable bulk food items; Dr. Patricia Benton provides MAWH residents with primary medical care services; HOPE Atlanta Programs of Travelers Aid provides MAWH with federally

1. Provides a clear explanation of the methods to be used and the specific goals to be obtained.

MAWH's programs drive at the heart of its mission by providing the only drug-free housing program that: 1) Operates at the center of an area with high drug traffic 2) Employs staff members, many of whom have overcome similar challenges as those faced by consumers, 3) Uses peer volunteers who have accepted the challenge of helping those most at-risk improve their health and quality of life. MAWH's governance and management underlie these results by maintaining high expectations and exercising forward-thinking to anticipate challenges and plan for future growth.

The programs offered by MAWH are designed to promote improved service delivery through quality assurance measures that ensure increased agency accountability; high quality, relevant, and timely direct client services; and client accessibility through effective, and seamless coordination among professionals and partnering agencies in service delivery. Considering the complexities of promoting health and wellness among individuals affected by comorbidities, MAWH efficiently addresses the mental, physical, emotional, and economic health of those who are most vulnerable. Ninety percent of organizational resources are devoted to programming.

MAWH measures the effectiveness of its programs by tracking the number of homeless and chronically homeless individuals who:
Experience clean, affordable and stable housing.
Have their basic survival and immediate safety needs met.
Exhibit behavioral change, sustained sobriety, improved personal functioning, and activated self-sufficiency.

Docusign Envelope ID: 4603F69F-E865-4E83-A0D9-0DC705286391

(HMIS), known locally as the PATHWAYS Compass, to capture client demographic details, income, program progress, and services provided. The staff and administrators attend annual training to maintain familiarity with the database. Participant data is collected during intake and throughout participation in the program. This information is documented in the Pathways HMIS database and is also kept in a file maintained at the MAWH administrative office. The file contains intake documents, copies of identification and income verification, waivers, individual service plans, case notes, and referral forms. Electronic files are stored and backed-up on an off-site server system.

Participants are expected to attend regularly scheduled meetings with Case Managers, who use the meeting to gather information regarding individual service plan progress and document updates in both the Pathways system and participants' files. These interactions can take place daily or weekly, depending on the specific needs of each participant. The data is evaluated weekly by the case management team, which is overseen by the Housing Program Director.

After participants leave the program, MAWH staff remains in contact with them for 3, 6 and 12-month intervals to provide guidance and continued support while collecting follow-up data. During intake, all participating individuals are required to sign a release form that gives MAWH permission to contact their landlord and treatment provider to collect data about their progress. The information collected and reported is independently verified, audited, and managed by Pathways, Housing Opportunities for Persons with AIDS (HOPWA), the Community Development Block Grant (CDBG), and an external CPA. Clients and staff use anonymous evaluation tools to determine program quality, effectiveness, staff work ethic, and program efficacy.

(a) a written contract; or

(b) an oral agreement or contract where a Certificate of Insurance showing that person or organization as an additional insured has been issued;

but the written or oral contract or agreement must be an "insured contract," and,

(i) currently in effect or become effective during the term of this Policy; and

(ii) executed prior to the "bodily injury," "property damage," "personal and advertising injury."

2. With respect to the insurance afforded to the Additional Insured identified in paragraph **1.** above, the following additional provisions apply:

(a) This insurance applies only with respect to the liability arising out of the ownership, maintenance or use of that part of the premises leased to you.

(b) The Limits of Insurance applicable to the Additional Insured are the lesser of those specified in the written contract or agreement or in the Declarations for this Policy and subject to all the terms, conditions and exclusions for this Policy. The Limits of Insurance applicable to the Additional Insured are inclusive of and not in addition to the Limits of Insurance shown in the Declarations.

(c) In no event shall the coverages or Limits of Insurance in this Coverage Form be increased by such contract.

(d) Coverage provided herein is excess over any other valid and collectible insurance available to the Additional Insured whether the other insurance is primary, excess, contingent or on any other basis unless a written contractual arrangement specifically requires this insurance to be primary.

(b) Structural alterations, new construction or demolition operations performed by or on behalf of the Additional Insured.

P. Additional Insured - Funding Sources

1. **SECTION II - WHO IS AN INSURED** is amended to include as an additional insured any Funding Source which requires you in a written contract to name the Funding Source as an additional insured but only with respect to liability arising out of:

The Limits of Insurance applicable to the Additional Insured are inclusive of and not in addition to the Limits of Insurance shown in the Declarations.

b. The insurance afforded to the Additional Insured only applies to the extent permitted by law

c. If coverage provided to the Additional Insured is required by a contract or agreement, the insurance afforded to such additional insured will not be broader than that which you are required by the contract or agreement to provide for such additional insured.

Q. Additional Insureds - By Contract

1. **SECTION II - WHO IS AN INSURED** is amended to include as an insured any person or organization whom you have agreed to add as an additional insured in a written contract, written agreement or permit. Such person or organization is an additional insured but only with respect to liability for "bodily injury," "property damage" or "personal and advertising injury" arising out of:

a. your acts or omissions, or the acts or omissions of those acting on your behalf, in the performance of your ongoing operations for the Additional Insured that are subject of the written contract or written agreement provided that the "bodily injury" or "property damage occurs, or the "personal and advertising injury" is committed, subsequent to the signing of such written contract or written agreement; or

b. the maintenance, operation or use by you of equipment rented or leased to you by such person or organization; or

c. the Additional Insureds financial control of you; or

d. operations performed by you or on your behalf for which the state or political subdivision has issued a permit

However:

1. the insurance afforded to such additional insured only applies to the extent permitted by law; and

2. if coverage provided to the Additional Insured is required by contract or agreement, the insurance afforded to such additional insured will not be broader than that which you are required by the contract or agreement to provide such additional insured.

With respect to paragraph **1.a.** above, a person's or organization's status as an additional insured under this Endorsement ends when:

(1) all work, including materials, parts or equipment furnished in connection with such work, on the project (other than service, maintenance or repairs) to be performed for or on behalf of the Additional Insured(s) at the location of the covered operations has been completed; or

(2) that portion of "your work" out of which the injury or damage arises has been put to its intended use by any person or organization other than another contractor or subcontractor engaged in performing operations for a principal as a part of the same project.

With respect to paragraph **1.b.** above, this insurance does not apply to any "occurrence" which takes place after the equipment rental or lease agreement has expired or you have returned such equipment to the lessor.

The insurance provided by this Endorsement applies only if the written contract or written agreement is signed prior to the "bodily injury" or "property damage."

We have no duty to defend an additional insured under this Endorsement until we receive written notice of a "suit" by the Additional Insured as required in paragraph **b.** of Condition **2. Duties in the Event of Occurrence**, **Offense**, **Claim or Suit** under **SECTION IV - COMMERCIAL GENERAL LIABILITY CONDITION**.

2. With respect to the insurance provided by this Endorsement, the following are added to paragraph **2. Exclusions** under **SECTION I - COVERAGE A - Bodily Injury and Property Damage Liability**:

This insurance does not apply to:

a. "Bodily injury" or "property damage" that occurs prior to your commencing operations at the location where such "bodily injury" or "property damage" occurs.

b. "Bodily injury," "property damage" or "personal and advertising injury" arising out of the rendering of, or failure to render, any professional architectural, engineering or surveying services, including:

(1) the preparing, approving, or failing to prepare or approve, maps, shop drawings, opinions, reports, surveys, field orders, change orders or drawings and specifications; or

(2) supervisory, inspection, architectural or engineering activities.

This exclusion applies even if the claims against any insured allege negligence or other wrongdoing in the supervision, hiring, employment, training or monitoring of others by that Insured, if the "occurrence" which caused the "bodily injury" or "property damage," or the offense which caused the "personal and advertising injury," involved the rendering of, or failure to render, any professional architectural, engineering or surveying services.

c. "Bodily injury" or "property damage" occurring after:

(1) all work, including materials, parts or equipment furnished in connection with such work, on the project (other than service, maintenance or repairs) to be performed for or on behalf of the Additional Insured(s) at the location of the covered operations has been completed; or

(2) that portion of "your work" out of which the injury or damage arises has been put to its intended use by any person or organization other than another contractor or subcontractor engaged in performing operations for a principal as a part of the same project.

d. Any person or organization specifically designated as an additional insured for ongoing operations by a separate additional insured endorsement issued by us and made part of this Policy.

3. With respect to the insurance afforded to these Additional Insureds, the following is added to **SECTION III - LIMITS OF INSURANCE**:

whichever is less.

This Endorsement shall not increase the applicable Limits of Insurance shown in the Declarations.

Condition **4. Other Insurance** of **SECTION IV - COMMERCIAL GENERAL LIABILITY CONDITIONS** is amended as follows:

This insurance is primary to and will not seek contribution from any other insurance available to an additional insured under your policy provided that:

(1) the Additional Insured is a named insured under such other insurance; and

(2) you have agreed in writing in a contract or agreement that this insurance would be primary and would not seek contribution from any other insurance available to the Additional Insured.

b. The following is added to paragraph **b. Excess Insurance**:

When a written contract or written agreement, other than a premises lease, facilities rental contract or agreement, an equipment rental or lease contract or agreement or permit issued by a state or political subdivision between you and an additional insured does not require this insurance to be primary or primary and non-contributory, this insurance is excess over any other insurance for which the Additional Insured is designated as a named insured.

Regardless of the written agreement between you and an additional insured, this insurance is excess over any other insurance whether primary, excess, contingent or on any other basis for which the Additional Insured has been added as an additional insured on other policies.

S. Additional Insureds - Protection of Your Limits

This provision applies to any person or organization who qualifies as an additional insured under any form or endorsement under this Policy.

2. The Limits of Insurance applicable to the Additional Insured are those specified in a written contract or written agreement or the Limits of Insurance stated in the Declarations of this Policy and defined in **SECTION III - LIMITS OF INSURANCE** of this Policy, whichever are less. These limits are inclusive of and not in addition to the Limits of Insurance available under this Policy.

T. Blanket Waiver of Transfer of Rights of Recovery Against Others to Us (Subrogation)

Under **SECTION IV - COMMERCIAL GENERAL LIABILITY CONDITIONS**, the following is added to Condition **8. Transfer of Rights of Recovery Against Others to Us**:

If required by a written contract or written agreement, we waive any right of recovery we may have against a person or organization because of payment we make for injury or damage arising out of your ongoing operations or "your work" done under a contract for that person or organization and included in the "products-completed operations hazard" provided that the injury or damage occurs subsequent to the execution of the written contract or written agreement.

U. Property Damage Extension with Voluntary Payments

1. The following is added to paragraph **1. Insuring Agreement** of **SECTION I - COVERAGE A - Bodily Injury and Property Damage Liability**:

At your request we will pay for "loss" to property of others caused by your business operations for which this Policy provides liability insurance. Such payment will be made without regard to your legal obligation to do so. The "loss" must occur during the policy period and must take place in the "coverage territory."

2. With respect to the coverage afforded under paragraph **1.** above, paragraph **2. Exclusions** of **SECTION I - COVERAGES A - Bodily Injury and Property Damage Liability** is amended as follows:

Exclusions **j.(3)**, **j.(4)**, **j.(5)** and **j.(6)** are deleted.

3. As respects coverage afforded by this coverage, **SECTION III - LIMITS OF INSURANCE** is replaced by the following:

Regardless of the number of insureds, claims made or "suits" brought or persons or organizations making claims or bring "suits":

1. Subject to **2.** Below, the most we will pay for one or more "loss" arising out of any one "occurrence" is **$ 1,000**.

2. The aggregate amount we will pay for the sum of all "loss" in an annual period is **$ 5,000**. This aggregate amount is part of and not in addition to the General Aggregate Limit described in paragraph **2.** of **SECTION III - LIMITS OF INSURANCE**.

V. Who Is an Insured - Fellow Employee Extension - Management Employees

1. The following is added to paragraph **2.a.(1)** of **SECTION II - WHO IS AN INSURED**:

Paragraph **(a)** and **(b)** above do not apply to "bodily injury" or "personal and advertising injury" caused by an "employee" who is acting in a supervisory capacity for you. Supervisory capacity as used herein means the "employee's" job responsibilities assigned by you, including the direct supervision of other "employee" of yours. However, none of these "employees" are insureds for "bodily injury" or "personal and advertising injury" arising out of their willful conduct, which is defined as the purposeful or willful intent to cause "bodily injury" or "personal and advertising injury," caused in whole or in part by their intoxication by liquor or controlled substances.

Over the last three years, GJP has experienced an increase in the number of requests for both direct services for individuals and for collaborative partnerships. On the defense side of our practice, we have experienced increased demand because of the wider array of services we offer to individuals who have pending cases, are on probation, are incarcerated, or have a suspended driver's licenses. Additionally, systemic stakeholders and partners refer clients to us because we are the only legal nonprofit that can provide criminal defense services multi-jurisdictionally. For example, the Fulton County Public Defender's office often refers individuals who have warrant issues in another county that need to be resolved before people can leave the Fulton County Jail and enter a treatment or addiction program. Furthermore, applicants with pending cases increasingly tend to have a deep set of needs related to mental health, addiction, and extreme poverty. And on the criminal records side, demand is growing for services because of ongoing inflation, the opportunities created by a booming Georgia labor market, and, in large part, due to GJP's policy success in expanding legal remedies for people with previous justice involvement.

During 2023, GJP provided services to 973 Fulton County residents across all programs and outreach initiatives, a 30% increase from the previous year. This includes individuals who attended trainings, were served through Summits and partnerships, and for whom GJP provided full legal representation or consultations. We understand the need for our services and will continue these efforts in 2024, but we do expect to scale back volume somewhat to invest more time creating self-help materials, and to deepen our partnerships with government stakeholders and service providers to provide holistic support to residents of Fulton. A grant of $45,000 will provide 1.5% of a budget of $3,036,699 and help us deliver a suite of legal interventions and supportive social services that promote economic stability, increase wealth building potential and reduce poverty and mental health challenges for underserved communities in Fulton County. Over the course of the grant, we will work in partnership with system stakeholders and other nonprofits to deliver a diverse set of legal services to 45 residents of Fulton County – and education and materials to many more. Over 12 months, we will undertake the following activities and anticipate the following outcomes for this grant.

ACTIVITIES/PROGRAMS

- Provide in-house criminal record clearing assistance from our main office located in Fulton County at 438 Edgewood Avenue SE, including consultations and full legal representation for restriction and sealing of eligible arrests and convictions, retroactive first offender, criminal record corrections, and pardon applications. As needed, social workers will work to connect clients to social services including employment, housing and training programs.
- Continue to work in partnership with the Fulton County Solicitor to receive referrals for attorney consultations on complicated cases that need the review of a lawyer before applying available legal interventions.
- Provide planning assistance and criminal record assessment for 2-3 Record Clearing Summits/Events/Partnership in collaboration with the Fulton County District Attorney, Fulton County Solicitor and/or Fulton-based community organizations. Summits are one-day sessions where prosecutors, judges and others gather to restrict/seal eligible charges from an individual's criminal history at no cost to the client.
- Provide legal assessment services for men at Metro Reentry Facility (MRF) and employment readiness services as needed. Although, the Metro Reentry Facility is not located in Fulton County (which is why

Docusign Envelope ID: 62ABC275-D26B-4556-B3F5-C2793AE9BFB5

we will not county individuals served in this grant) many of the men will be returning to Fulton when they are relased. Operated by the Georgia Department of Corrections, MRF provides reentry preparation (e.g., life skills, work skills & connections, family connections) for up to 350 men during their 24-month stay before returning to their homes in Metro Atlanta. Now in our sixth year, GJP combines employment support with pro bono legal representation for returning citizens facing legal barriers to reentry so that each client is job-ready at the time of release from custody.

- Continue to provide consultation and representation for clients facing driver's license suspension for missed court apparences and non-serious traffic tickets.
- Continue our partnership with Westside Works to pair legal services with employment/career building support. Participate in presentations with other Fulton County-based nonprofits including: Mary Hall Freedom House, SnapCo, and the Atlanta Center for Self-Sufficiency (ACSS).
- Work in partnership with Grady Health System, Atlanta PAD (Policing Alternatives & Diversion) and others to resolve outstanding warrants, bench warrants, failures to appear (FTAs), and probation violations for individuals who are eligible for diversion and currently at the Fulton County Jail.
- Continue to work with Fulton County judges to outline a unified, systemic approach to warrant clearance for stale warrants in Fulton State Court.
- Provide high quality, pro bono criminal defense, probation assistance, and wrap-around social services for low-income clients in Fulton County. Probation assistance will be supported by our partnership with Georgia's Department of Community Supervision. GJP's criminal defense practice is small and focuses on high needs clients with severe mental health or additiction needs. To increase our capacity to adequately provide services for clients with mental health/substance abuse issues, we rely on the support of community partners like DBHDD/ACT Teams and Grady Behavioral Health.
- Continue participation in the monthly Atlanta VA Medical Center, Veterans Justice Outreach legal clinic at Fort McPherson to provide legal services for veterans.

OUTCOMES

- Represent and assist 33 Fulton residents with clearing their criminal history.
- Represent and assist 12 Fulton residents with current justice involvement including: pending criminal charges and social service support, probation termination assistance, and reinstating suspended driver’s licenses.

Quality Care for Children, Learning When It Matters Most will provide services at the following locations at specified times during the contract period of **01/01/2024** through **12/31/2024**:

Service Delivery Site(s):

Name of Program Site	Program Location (complete physical address)	Program City	Program State	Program Zip code	Fulton County District of the program (Facility) location	District(s) of Fulton County Residents Served by the program (facility) location
Quality Care for Children	3 Corporate Blvd., NE., Suite 230	Atlanta	GA	30329	NA	1,2,3,4,5,6

Approach and Design:

Quality Care for Children, Learning When It Matters Most will provide services to **10** clients that reside in Fulton County, with CCSP funding.

Quality Care for Children, will provide the following activities and services in Fulton County with CCSP funding:

High quality child care in metro Atlanta costs between ($8,000 – $10,000) per year, putting it beyond the reach of low income families whose family household incomes are 100-200% of the federal poverty level ($31,284 for a family of 2 - $47,638 for a family of 4) in metro Atlanta. Child care is one of the only industries that is still struggling to recover from the effects of the pandemic. Not all child care providers came back online, and for the ones that are open, they are operating at below maximum capacity. In addition, child care providers are dealing with higher costs of operation, a

Docusign Envelope ID: EF21AB39-AC7F-4F28-9E3E-7B113144DF0C

competitive job market that is drawing away experienced teachers. Early educators have long worked for low pay and no benefits. With retail businesses offering higher starting salaries and benefits such as health insurance and retirement plans, many veteran teachers have left the industry. In such a landscape, the basic principles of supply and demand will put child care increasingly out of reach for working parents. We are more likely to lose supply in under-resourced communities where child care programs already faced challenges staying afloat before the pandemic. Additionally, only 14% of income eligible children in Georgia receive CAPS subsidy and STABLE grants that were a lifeline for providers have ended.

In keeping with our mission to ensure Georgia's children are nurtured and educated, QCC offers the Emergency ChildCare(ECC) program
that provides short-term financial assistance to families experiencing crises such as homelessness,domestic violence, and instability due to divorce or displacement, loss of job or gap in employment, hospitalization or other unexpected events.Often, women we serve are homeless or on the verge of becoming homeless. Such crises makes it difficult for parents to provide continuity and consistency of child care for their children. Lack of child care further exacerbates their challenges in addressing their crises, including finding and maintaining employment. With funds from Fulton County, QCC proposes to provide 12 weeks of emergency child care to 40 Fulton Countychildren.The actual number of child care scholarships provided will vary depending on the age of the child (infant care is more expensive), cost of child care at the facility chosen by the family, and the needs of the families.

Program Details - The Emergency Child Care (ECC) program pays for up to 12 weeks of child care ($2,185 per child -$175x12 wks. + $85 registration fees). QCC works with families to develop a child care plan and helps them locate care by searching QCC's database to find Quality Rated care that meets the families' needs. QCC provides personalized service by helping parents find care that's close to home or work, on their daily route, or accessible by public transportation. Programs that are recruited to participate in the ECC are specially trained to care for children from families in crisis. Child care
programs that provide care during non-traditional hours (e.g. evenings and weekends) are also included in the pool to meet the needs of families working these hours. We facilitate the relationship between the provider and parent, monitors the placement of the child in early learning, before- and after-school care, and summer camps to guarantee that services are being provided, and connect families to additional resources including long-term financial planning.

Eligible families will be screened when they call the 1800-ALL-GA-KIDS looking for information and financial assistance.These families are directed to the program manager of the Emergency Child Care Program. She will then verify income eligibility, help parents select the child care that meets their family's needs and serve as the liaison between the child care provider and the parent. We establish a MOU between all parties detailing the duration and amount of support - up to 12weeks of child care support ($175/week + $85 registration fees = $2,185). QCC directly reimburses the child care provider after verifying weekly attendance.

Sustainability: QCC has been offering Emergency Child Care Program since 1983 and has an established system to ensure services are being provided effectively and efficiently. Even as we implement programs to meet the immediate needs of families, QCC works to influence policy and legislative changes that would make quality child care affordable for all working families. For example, in 2020, QCC successfully advocated for widening the CAPS eligibility to include college student parents, prior to which, they were not eligible. We are currently working with United Way, Promise All Atlanta Children Thrive (PAACT) a city of Atlanta initiative, Atlanta Public School, and Atlanta Police Foundation to ensure low income families (families whose income are 200% below the poverty level) pay no more than 10% of their

Docusign Envelope ID: EF21AB39-AC7F-4F28-9E3E-7B113144DF0C

wages in child care costs. We are also working with Clayton State University to implement a child care support program for their students who are parents.

Designation of CSP Funds:

Based on the awarded amount of **$25,000.00,** the CCSP funds are designated according to the following cost categories: Administrative, Operational, and Direct Services.

Administrative Expenses- CCSP Funds that are spent on executive / management staff and administrative support staff salaries, salary fringe, and benefits; etc.).

Operational Expenditures- CCSP funds used to conduct agency/ organizational functions that are secondary to program service delivery such as office/ warehouse lease or mortgage expenses, office supplies (pens, toner, paper, etc.), utility expenses, transportation expenses (staff travel expenses), marketing/catalogs, etc.

Direct Service Expenditures- CCSP funds utilized to provide services directly to agency/program participants such as payments made on behalf of participants for rent, utilities, food, shelter, transportation (rentals, gas, and parking, bus drivers, public transportation costs, etc.) , scholarships and day care vouchers, salaries and fringe benefits for direct service personnel (Case Managers, Educators, Subcontractors, etc.), program supplies (educational/instructional materials, paper, pencils, markers, etc.) directly consumed by participants. Program materials that may be pertinent to the scope of services of a funded program and that aid in contractor meeting contracted program outcomes are included in this definition (i.e. children's story books, educational games, puzzles, and flash cards).

The maximum amount of CCSP funds allowed for administrative purposes (executive staff salaries and benefits only) is 5% of funds awarded. Throughout the contract period, program expenditures will be monitored (via performance reports) to ensure that funding is utilized as contracted.

Administrative: Administrative expenses include a portion of executive and finance support staff associated with this grant.

The following program measures/ Key Performance Indicators ("KPI's") will be utilized to track and report program outcomes for the Fulton County residents supported with CSP funding, during the funding period 01/01/2024 through 12/31/2024:

QCC measures its effectiveness in the availability and accessibility of quality child care for all Georgia children,especially those from low-income and under-resourced families. 90% of the enrolled children will successfully meet their developmental milestones for their age and stage of development and be kindergarten ready: Children enrolled in a Quality Rated program will be evaluated using the Environment Rating Scales (ERS) - Infant/Toddler Environment Rating Scale –Third Edition (ITERS-3), Early ChildhoodEnvironment Rating Scale – Third Edition (ECERS-3), Family Child Care Environment Rating Scale – Revised (FCCERS-R), School-Age Care Environment Rating Scale – Updated (SACERS-U),which gives an accurate picture of developmental stages for every children.

We seek to answer the following questions:
1.Did the program provide the number of scholarships and weeks of care intended, and did the location of the families served meet the geographic intent of the program, i.e. were children from the target zip code served. QCC uses Salesforce to track scholarship data including number and demographics of applicants and scholarship recipients,monetary value and number of weeks of each scholarship, and amount paid and amount encumbered for future payments. QCC tracks child demographic information and child attendance at the child care program. (Child attendance records are submitted by the child care facility and verified by QCC). QCC also tracks information about the child care facility used, e.g., type of care, state license number, Quality Rating, location difference for them and their child?
2. were families satisfied with the assistance they received? Did the assistance make a difference for them and their child? QCC conducts a check-in call with the parents at the time of enrollment and when they roll off the program to assess the impact of the support on their financial and employment situation, their satisfaction with the child care program, how they believe their child is benefiting from participating in a high-quality child-care program, and their overall satisfaction with the QCC program services. QCC will conduct a final evaluation survey with families to ensure their experiences are documented. These documented experiences will be shared with funders and community stakeholders. QCC's Senior Director of Research, Evaluation and Program Impact will ensure data is being properly tracked, develop a parent survey, assist with the analysis and compilation of interview data, and assist in creating a final evaluation and impact report.

Agency Defined Performance Measure(s):

Docusign Envelope ID: EF21AB39-AC7F-4F28-9E3E-7B113144DF0C

1. 100% of the children will receive Quality Rated care, leading to kindergarten readiness:
QCC requires that children be enrolled in licensed child care that is Quality Rated or working towards becoming Quality Rated as a part of the support.As a CCR&R, QCC is aware of the QR status of any given child care provider and can easily verify their status.

However, the amount paid under this endorsement shall not exceed, and will be subject to the limits and restrictions that apply to the payment of benefits in any plan included in the "employee benefit program".

(4) Deductible Amount

(a) Our obligation to pay damages on behalf of the insured applies only to the amount of damages in excess of the Deductible Amount shown in Section **B.** Limits Of Insurance, **1.** Employee Benefit Liability Coverage of this endorsement as applicable to Each Employee. (d) We may pay any part or all of the Deductible Amount to effect settlement of any claim or "suit" and, upon notification of the action taken, you shall promptly reimburse us for such part of the Deductible Amount as we have paid.

d. Additional Conditions

As respects Employee Benefit Liability Coverage, **Section IV - Commercial General Liability Conditions** is amended as follows:

(1) Item **2.** Duties In The Event Of Occurrence, Offense, Claim Or Suit is deleted in its entirety and replaced by the following:

2. Duties In The Event Of An Act, Error, Omission, Claim Or Suit

a. You must see to it that we are notified as soon as practicable of an act, error or omission which may result in a claim. To the extent possible, notice should include:

(1) What the act, error or omission was and when it occurred; and

(2) The names and addresses of anyone who may suffer damages as a result of the act, error or omission.

b. If a claim is made or "suit" is brought against any insured, you must:

(1) Immediately record the specifics of the claim or "suit" and the date received; and

(2) Notify us as soon as practicable.

You must see to it that we receive written notice of the claim or "suit" as soon as practicable.

c. You and any other involved insured must:

(1) Immediately send us copies of any demands, notices, summonses or legal papers received in connection with the claim or "suit";

(2) Authorize us to obtain records and other information;

(3) Cooperate with us in the investigation or settlement of the claim or defense against the "suit"; and

d. No insured will, except at that insured's own cost, voluntarily make a payment, assume any obligation, or incur any expense without our consent.

(2) Item **4.** Other Insurance is replaced by the following:

surance is primary, our obligations are not affected unless any of the other insurance is also primary. Then, we will share with all that other insurance by the method described in Paragraph **b.** below.

b. Method Of Sharing

If all of the other insurance permits contribution by equal shares, we will follow this method also. Under this approach each insurer contributes equal amounts until it has paid its applicable limit of insurance or none of the loss remains, whichever comes first.

If any of the other insurance does not permit contribution by equal shares, we will contribute by limits. Under this method, each insurer's share is based on the ratio of its applicable limit of insurance to the total applicable limits of insurance of all insurers.

Hands On Atlanta Inc., will provide the following activities and services in Fulton County with CCSP funding:

Hands On Atlanta's integrative program approach to youth education and development supports the Children and Youth Services priorities through a wraparound framework that includes academic enrichment, social-emotional learning, mentorship, case management, and food assistance for students across three Title 1 Fulton County School System elementary schools. A $100,000 investment from the Fulton County Community Services Program will enable Hands On Atlanta to deploy four trained AmeriCorps members and 50 community volunteers to provide academic, social-emotional, and basic needs support for students in grades K-5 within each of our three partner schools by the end of the 2024 calendar year. Each of our partner schools will participate in a partner-defined combination of the program components based on the individual needs of their students, which are outlined below:

Discovery Enrichment

Discovery is Hands On Atlanta's longest-running outreach program. It is built on the premise that by connecting community members with underserved local public school students, we can leverage volunteerism to foster improved outcomes for Atlanta's youth. The Discovery Program delivers evidence-based STEAM—Science, Technology, Engineering, Arts, and Math—enrichment programming to under-resourced City of Atlanta public schools and Title 1 public and charter schools in Fulton and Dekalb counties. In addition to enriching students' learning through interactive experiential education outside of the school day, Discovery augments students' social-emotional learning through thoughtfully curated programming delivered by trained volunteers and overseen by our education professionals. Hands On Atlanta's volunteers provide mentoring to participating students, creating a lasting impact for many years to come. The Discovery Program also supports students' health and wellness through an accessible physical activity offering and healthy snacks.

Hands On Atlanta will provide Discovery programming to at least 150 students across all three Fulton County partner schools. Hands On Atlanta will facilitate Discovery for all participants in bi-monthly Saturday morning sessions during the Fall 2024 (September-December) academic session. Discovery will be facilitated by Hands On Atlanta staff, AmeriCorps members, and community volunteers. During the Discovery Program, students participate in hands-on STEAM learning activities, such as making a rain cloud in a jar; literacy activities such as making an affirmation jar; and BOKS, which is a free physical activity program for kids of all ages and abilities that offers fitness energizers such as jump rope bursts and chair aerobics. The Discovery curriculum highlights concepts such as teamwork and problem-solving and gives children interactive experiences to practice these skills in a supportive environment. Hands On Atlanta actively boosts student engagement through a suite of interactive participation strategies and incentives like fun-centric and robust activity packets with supplies and materials.

Student Success Skills Coaching

Docusign Envelope ID: DE6B5928-3BD1-49E4-A814-A33E569C709F

Student Success Skills (SSS), Hands On Atlanta's social-emotional learning program, empowers students by providing them with essential tools to foster positive relationships, manage emotions effectively, and navigate conflicts successfully. Our AmeriCorps members serve as dedicated coaches, offering support to at-risk and under-resourced students through the nationally recognized K-12 SSS curriculum, currently implemented district-wide across all Fulton County Schools. Hands On Atlanta's SSS Coaches guide students in establishing a strong foundation for emotional regulation, cultivating healthy relationships, developing empathy and understanding for others, practicing responsibility and safety, and mastering the skills to cope with challenging situations. Through this initiative, we aim to increase students' classroom engagement, reduce disciplinary incidents, and instill lifelong positive habits.

To achieve these objectives, Hands On Atlanta will deploy four AmeriCorps members to serve as SSS Coaches, providing targeted support to a total of 60 students identified as needing additional support. Program implementation activities include:

- Daily check-ins: The SSS Coach checks in with targeted students on the caseload during the first few hours of school to set goals and encourage good decision-making. A daily progress report form is used to guide the discussion.
- One-on-one weekly SSS skill-building sessions: Coaches work individually with students using the Student Success Skills curriculum to develop skills that strengthen their ability to learn, have empathy, manage emotions, and solve problems.
- De-escalation: As needed, teachers can request support from the coach for caseload students and other students in need of de-escalation support. Note that the principal or guidance counselor continues to act as the first responder to crisis intervention calls from teachers.
- Check-outs: Toward the end of the day at least three times per week, the SSS coach speaks with targeted students on his or her caseload. As necessary, the SSS coach completes the daily progress report form with the student, which may be sent home for parental sign-off.
- Documentation and caseload meetings: Time is set aside for the SSS coach to document his or her interactions with students, capture students' progress, make referrals for students, and prepare for caseload meetings with the principal, counselor, or the principal’s designee. During these meetings, the SSS coach discusses progress with caseload students.

The Student Success Skills concepts will be taught throughout the school year in all learning environments (traditional and remote) to ensure all students engage in and master the skills. Daily case management sessions last 15-30 minutes each school day for at least 18 weeks per semester using the SSS evidence-based curricula to teach students critical non-academic skills. There will be approximately 10-15 students assigned to each set of SSS coaches per school (four total AmeriCorps SSS Coaches). Throughout the academic year, AmeriCorps SSS coaches remain attuned to help students process the chronic anxiety, isolation, and uncertainty they experience within the marginalized communities they reside within. Hands On Atlanta will continue to work closely with administrative leadership and teaching staff members at partner schools to support the mental health and safety of the students we serve.

Meals 4 Kids Food Assistance

Hands On Atlanta's Meals 4 Kids food assistance program alleviates the burden on families during extended school breaks, allowing them to redirect their resources toward other essential needs. By ensuring that children have access to nutritious meals, we help prepare them for successful learning experiences upon returning to school. Volunteers from Hands On Atlanta carefully assemble and distribute student meal packs containing a variety of nutritious, nonperishable

Docusign Envelope ID: DE6B5928-3BD1-49E4-A814-A33E569C709F

items such as whole-grain granola bars, low-sugar fruit cups, shelf-stable milk, macaroni and cheese cups, chicken salad and crackers, applesauce, and oatmeal.

Throughout the Fall 2024 academic semester, Hands On Atlanta plans to distribute 1,265 meal packs to students at two out of our three partner schools in Fulton County. These meal packs will be available to all families at each designated school. Typically distributed prior to extended school breaks like Thanksgiving and Winter Break, Hands On Atlanta will work closely with school officials to determine the most suitable times and logistics for distributing the food packs. This collaborative effort ensures efficient and effective delivery of essential resources to families in need.

Hands On Atlanta's wrap-around programming in Fulton County partner schools addresses the “Help residents realize their educational potential through our community services and library programs” strategic priority area program objective within Fulton County's strategic plan priority area of "Children and Youth Services." Specifically, Hands On Atlanta measures success by indicators directly aligned with the Fulton County Children and Youth Services.’ indicators, including a) the percentage of third through fifth graders who meet target reading levels; and b) the percentage of students over-achieving each year.

Hands On Atlanta Education Programs foster a deeper love for learning by improving overall academic performance and engagement, creating an environment for long-term student success and achievement. Our interactive, hands-on program model helps students build literacy and math skills, advance social-emotional competencies, and reduce delinquent behaviors (i.e. frequent absences and truancy) among at-risk students. Hands On Atlanta also meets the basic needs of students by significantly reducing the food insecurity within the households of the families we serve, along with creating impactful volunteer experiences that build critical capacity for our partner schools. By supporting elementary students through quality programming in and out of school, Hands On Atlanta empowers children from high-risk communities to focus on learning to reach their full potential, helping them move beyond generational poverty to scholastic achievement and promising careers.

Hands On Atlanta's school-based programs support Fulton County's Children and Youth Services Service Category. Within this category, applicable funding priorities include 1) Afterschool/ Out of School Programs to help bring up academic and social/behavioral levels of school-aged youth; 2) Programs addressing mental health, depression, stress, trauma and anxiety among youth and teens; and 3) Programs and services focusing on one or more of the six National Milestones of My Brother’s Keeper (MBK) Alliance (MBK addresses persistent opportunity gaps faced by boys and young men of color and ensure that all young people can reach their full potential.)

Hands On Atlanta's programs address the whole child so students can focus on learning and improve their academic performance. Hands On Atlanta provides quality out-of-school programming through the Saturday Discovery educational enrichment program. The program addresses academic needs through hands-on activities that complement classroom lessons, specifically in STEAM subject areas. Activities offered through Discovery increase social-emotional competencies for all program participants and reinforce concepts for students who also participate in Student Success Skills. The Student Success Skills’ social-emotional learning program and the Discovery educational enrichment program ensure safety and justice by increasing students' ability to manage their emotions and make good choices. Helping students foster positive self-image and work with peers mitigates risky behavior. This results in increased attendance, improved behaviors, and academic outcomes, fewer behavior referrals and suspensions, and a better school climate. Lastly, the Meals 4 Kids program supports students' basic nutritional needs. In reducing the stress and anxiety around food insecurity, we help students focus on improving their academic outcomes, attendance, and behavior.

Together, our three educational program components help close the opportunity gap, particularly for boys of color, through individual and group support addressing their academic and non-academic needs.

Collaboration

The partnership between Hands On Atlanta and Fulton County Schools underscores our shared commitment to fostering student success through impactful community collaborations and effective communication with our school partners. At the core of our partnership model is the integration of highly skilled AmeriCorps members into the fabric of school operations, providing crucial support to students while facilitating open communication among school staff, volunteers, and parents. Each year, Hands On Atlanta and Fulton County Schools formalize our collaboration through Memorandums of Understanding (MOUs), which outline the specific needs of each partner school to ensure the effective delivery of educational programming. Working closely with the principals of our partner schools, as well as teachers and counselors who serve as on-site supervisors for AmeriCorps members, we prioritize student success by utilizing academic testing data, attendance records, teacher recommendations, and parental input to identify students who would benefit most from our programs. Our focus is on supporting the most vulnerable students who require individualized interventions to thrive academically.

Additionally, Hands On Atlanta maintains a longstanding partnership with AmeriCorps, having managed the state's largest AmeriCorps program for nearly three decades. Hands On Atlanta’s current AmeriCorps class of 50+ members were selected from more than 1,100 applicants, which speaks to the caliber of our members and the reputation of our program. For example, one of our AmeriCorps members who served last year as an SSS coach was hired as a paraprofessional at Brookview Elementary. AmeriCorps members serving in Fulton County are often recognized as employees of the month and extended jobs after their year of service. A July 2020 study conducted by Inner City Fund found that every $1 that Congress appropriates for AmeriCorps and Senior Corps returns over $17 to society, program members, and the government.

Hands On Atlanta also partners with local colleges and volunteer groups to recruit additional volunteers for the Discovery program. In 2022-2023, 714 volunteers served in Discovery, including student volunteer groups from Georgia Tech, Emory University, Georgia State University, Spelman College, Morehouse College, and Clayton State University. Additionally, volunteer groups from various Atlanta businesses and corporations complete all meal packing and food distribution for Meals 4 Kids.

Volunteer groups and program partners that are scheduled to participate during the 2023-2024 academic year include the Atlanta Rotary, Center for Civic and Community Engagement at Emory University, Spelman's S.K.I.R.T.S. program, Little Einsteins Organization at Georgia Tech, Chick-Fil-A and IBM, Georgia Power, Morris, Manning and Martin Law, US Bank, and Kilpatrick Townsend. Hands On Atlanta's dedicated volunteers are essential to the effective and efficient facilitation of our educational programming and meal distribution efforts, as they serve as mentors and activity task leaders to provide guidance and leadership to our students.

MILESTONES and SCHEDULE:

Throughout the academic year, Hands On Atlanta's programs in Fulton County Schools provide continuous support to enrolled students. Participants in the Student Support Skills and Discovery programs will engage in our enriching activities for the entirety of the Fall 2024 semester. Planning for these programs commences in June or July of each academic year, coinciding with the initial onboarding of AmeriCorps members. In August, members undergo a comprehensive week-long training session at Hands on Atlanta's headquarters, supplemented by school-specific training sessions conducted at their respective partner schools. Concurrently, Hands On Atlanta program staff liaise with partner school staff to finalize program plans, volunteer assignments, and activity schedules. By September of each academic year, student caseloads for the AmeriCorps SSS program are established and maintained.

Additionally, the first Discovery session of the academic year occurs in October, with subsequent sessions taking place bi-monthly through May. In the calendar year 2024, Hands On Atlanta's educational programming operates from January to May and from August to December. One distribution of Meals 4 Kids is tentatively scheduled at two of our three partner schools for Fall 2024, preceding either Thanksgiving or Winter break, subject to partner school preferences.

DATA COLLECTION TOOLS:

AmeriCorps Social-Emotional Learning Program: Hands On Atlanta SSS coaches collect data utilizing various tools to report on student participation and progress throughout the program. Hands On Atlanta students receiving SSS interventions will be evaluated for pre- to post-growth in competencies such as interpersonal skills, attitude, and/or mindset, relationship-building, empathy, and problem-solving via the DESSA-mini nationally standardized assessment tool. Our teams maximizing our use of this 24/7 online system to measure eight student academic and social-emotional competencies at the pre, mid-, and post-testing points, ensuring early student intervention and improvements as needed. Additionally, Hands On Atlanta receives attendance data twice annually from partner schools at the mid-point and end of the academic year for students on caseload. This collective data is compared to the same metrics biannually, if available, to demonstrate student progress. We anticipate students will demonstrate social-emotional skill improvements and increased attendance rates biannually (January to May vs. September to December). Hands On Atlanta SSS coaches complete counseling logs for all student encounters to identify emerging patterns and develop individual case management plans. These notes are also used in weekly case management meetings with the school guidance counselor and principal. This mechanism ensures that our team and our partner schools will be apprised of up-to-date student progress and challenges. We publish a comprehensive report annually.

Discovery educational enrichment program: Hands On Atlanta tracks student attendance through parent registration forms and program attendance sheets. Student satisfaction and understanding of curriculum concepts are evaluated at the end of each Discovery session. A parent survey is administered near the end of the school year to collect parent feedback and demonstrate the program's success. Discovery volunteers complete a satisfaction survey following each volunteer event. Additionally, each school designates a member of their staff as the on-site contact from the school, who completes a feedback survey at the end of the program year.

Docusign Envelope ID: DE6B5928-3BD1-49E4-A814-A33E569C709F

Meals 4 Kids meal assistance: Hands On Atlanta tracks the number of packs distributed (always ensuring enough for the entire student body) and the number of pounds/meals at each distribution. Program staff collaborate closely with school officials on program planning and implementation, and we request feedback from the school following each food distribution to ensure that we are meeting the needs and expectations of the school, its students, and their families. Additionally, Meals 4 Kids volunteers complete a satisfaction survey following each volunteer event.

Hands On Atlanta uses Salesforce, a database management system platform, to effectively and efficiently monitor student progress and demonstrate program impact in all three program components described above. We adhere to the applicable data confidentiality standards which are outlined in our executed agreements with partner schools.

COUNTY DEFINED PERFORMANCE MEASURES:

Hands On Atlanta will report on three county-defined performance measures within the Children and Youth Services funding priority, including:

- Number of school-aged youth benefiting from Afterschool/Out of School Programs to help bring up academic and social/behavioral levels. For this measure, our goal is that 150 unduplicated students will participate in Discovery, offered on average every other Saturday morning throughout the academic year.
- Number of Elementary and middle schools' students meeting target reading level. Approximately 75 students who participate in the Hands On Atlanta academic enrichment program will demonstrate increased literacy proficiency throughout the year (MAP assessment data provided by Fulton County Schools).
- Number of boys and young men of color benefiting from My Brother's Keeper programs and services that addresses persistent opportunity gaps (defined by six National Milestones of My Brother's Keeper (MBK) Alliance). Approximately 35 boys of color who are in third grade will participate in the Hands On Atlanta academic enrichment and social-emotional learning programs. Among those students, approximately 60% will demonstrate increased literacy proficiency throughout the year (MAP assessment data provided by Fulton County Schools).

Agency Defined Performance Measure(s):

Hands On Atlanta will report on five agency-defined performance measures during the reporting period, including:

- At least 60% of students receiving SSS interventions will show pre- to post-growth in competencies such as interpersonal skills, attitude, and/or mindset, relationship-building, empathy, and problem-solving via the DESSA-mini nationally validated pre/post student assessments.
- The average score from the Discovery post-session learning objective assessments will be 85% or higher, demonstrating that students met the learning targets from the Discovery program curriculum.

SECTION I — COVERAGE

ABUSE OR MOLESTATION LIABILITY COVERAGE

1. Insuring Agreement

a. We will pay those sums that the insured is legally obligated to pay as "damages" because of "abuse" or "molestation" resulting in "injury" to which this insurance applies, if the insured is obligated to pay such "damages" by reason of:

(1) The insured's:

(a) Hiring;

(b) Training;

(c) Investigation;

(d) Supervision;

(e) Reporting "abuse" or "molestation" to the proper authorities, or failure to so report; or

(f) Retention of any "employee," volunteer, student in training or any other person or persons for whom the insured is or ever was legally responsible; or

(2) The insured's:

(a) Design;

(b) Control;

(c) Maintenance;

(d) Supervision;

(e) Inspection; or

(f) Investigation of prospective tenants of your premises, premises in your control or premises you have leased to another; or

(3) The insured's failure to provide professional services or neglect of therapeutic needs arising from "abuse" or "molestation" for which coverage applies under Item **1.a.(1)** or Item **1.a.(2)** of this insuring agreement; or

(4) The insured's liability for any "employee", volunteer, student in training or any other person or persons acting within the scope of their employment, appointment or authorization by you.

We have the right and duty to defend any "suit" seeking "damages" to which this insurance applies. However, we have no duty to defend the insured against any "suit" seeking "damages" to which this insurance does not apply. We may, at our discretion, investigate any "abuse" or "molestation" and settle any claim or "suit" that may result.

But:

(a) The amount we will pay for "damages" is limited as set forth in **SECTION III — LIMIT OF INSURANCE;** and

(b) Our right and duty to defend end when we have used up the applicable limit of insurance in the payment of "damages."

We will pay, with respect to any "suit" we defend, those "defense costs" incurred with our consent. No other obligation or liability to pay sums or perform acts or services is covered by this coverage part.

Our obligation to pay for "damages" applies only to the amount of "damages" in excess of any deductible amount shown in the Declarations. The deductible applies separately to each "abuse" or "molestation." Upon our request you will reimburse us for any amounts that we have paid that are within the applicable deductible.

b. Claims made or "suits" brought; or

c. Persons or organizations making claims or bringing "suits".

2. The **EACH "ABUSE" OR "MOLESTATION" LIMIT** shown in the Declarations is the most we will pay for all "damages" as the result of any claim of "abuse" or "molestation".

Each, every and all actual, threatened or alleged acts of physical or mental abuse, sexual abuse, sexual molestation or sexual misconduct committed, participated in, directed, instigated or knowingly permitted by one person or by two or more persons acting together shall be considered to be one "abuse" or "molestation" regardless of:

a. The number of injured parties;

b. The period of time or policy periods over which the acts took place; and

c. The number of such actual, threatened or alleged acts.

3. The **AGGREGATE LIMIT** shown in the Declarations is, subject to Paragraph **2.** of this Section, the total limit of our liability for all "damages" to which this insurance applies.

The Aggregate limits of this coverage part apply separately to each consecutive annual period; and to any remaining period of less than 12 months, starting with the beginning of the policy period shown in the Declarations to which this coverage part is attached; unless the policy period of the policy to which this coverage part is attached is extended after issuance for an additional period of less than 12 months. In that case, the additional period will be deemed part of the last preceding annual period for purposes of determining the limit of insurance.

SECTION IV — CONDITIONS

1. BANKRUPTCY

Bankruptcy or insolvency of the insured or of the insured's estate will not relieve us of our obligations under this coverage part.

1. Duties in the Event of an Incident, Claim or Suit

a. You must see to it that we are notified as soon as practicable, but in no event later than 90 days after you become aware of an incident or potential incident of "abuse or molestation". You must also see to it that if a claim is made or "suit" is brought against any insured, we receive written notice of the claim or "suit" as soon as practicable, but in no event later than 90 days after the claim is made or "suit" is brought.

b. You and any other involved insured must:

(1) Immediately send us copies of any demands, notices, summonses or legal papers received in connection with the claim or "suit";

(2) Authorize us to obtain records and other information;

(3) Cooperate with us in the investigation, settlement or defense of the claim or "suit" including the release of any personnel records of the person(s) allegedly involved in the "abuse" or "molestation"; and

(4) Assist us, upon our request, in the enforcement of any right against any person or organization which may be liable to the insured because of "abuse" or "molestation" to which this insurance may also apply.

c. No insureds will, except at their own cost, and without recourse to this coverage part, voluntarily make a payment, assume any obligation, or incur any expense, other than for first aid, without our consent.

3. Legal Action against Us

No person or organization has a right under this coverage part:

a. To join us as a party or otherwise bring us into a "suit" asking for "damages" from an insured; or

b. To sue us on this coverage part unless all of its terms have been fully complied with.

A person or organization may sue us to recover as a result of an "agreed settlement" or on a final judgment against an insured obtained after an actual trial, but we will not be liable for "damages" that are not payable under the terms of this coverage part or that are in excess of the applicable limit of insurance.

4. Other Insurance

If other valid and collectible insurance is available to the insured for a loss we cover under this coverage part, our obligations are limited as follows:

a. Primary Insurance

This insurance is primary except when Paragraph **b.** below applies. If this insurance is primary, our obligations are not affected unless any of the other insurance is also primary. Then, we will share with all that other insurance by the method described in Paragraph **c.** below.

b. Excess Insurance

If any insured has other insurance directly or indirectly providing coverage for "damages" also covered by this coverage part, then this insurance shall be excess over and shall not contribute with such other insurance except where such insurance is specifically designated as excess to this coverage part.

When this insurance is excess, we will have no duty to defend any "suit" that any other insurer has a duty to defend. If no other insurer defends, we will undertake to do so, but we will be entitled to the insured's rights against all those other insurers.

When this insurance is excess over other insurance, we will pay only our share of the amount of covered loss, if any, that exceeds the sum of:

(1) The total amount that all such other insurance would pay for the loss in the absence of this insurance; plus

(2) The total of all deductible and self-insured amounts under this insurance and all that other insurance.

We will share the remaining loss, if any, with any other insurance that is not described in this Excess Insurance provision.

c. Method of Sharing

If all of the other insurance permits contribution by equal shares, we will follow this method also. Under this approach each insurer contributes equal amounts until it has paid its applicable limit of insurance or none of the loss remains, whichever comes first. If any of the other insurance does not permit contribution by equal shares, we will contribute by limits. Under this method, each insurer's share is based on the ratio of its applicable limit of insurance to the total applicable limit of insurance of all insurers.

5. Premium and Records

a. We will compute all premiums for this insurance in accordance with our rules and rates.

b. The first named insured must keep records of the information we need for premium computation, and send us copies at such times as we may request.

6. Representations

By accepting this coverage part you agree:

a. The statements in the Declarations and in the application for insurance are accurate and complete.

b. Those statements are based upon representations made by the insureds upon reasonable inquiry; and

c. We have issued this coverage part in reliance upon those representations.

7. Separation of Insureds

Except with respect to the limits of Insurance, and any rights or duties specifically assigned to the first Named Insured, this insurance applies:

a. As if each Named Insured were the only Named Insured; and

b. Separately to each insured against whom claim is made or "suit" is brought.

8. Transfer of Rights of Recovery against Others to Us

If the insured has rights to recover all or part of any payment we have made under this coverage part, those rights are transferred to us. The insured must do nothing after loss to impair them. At our request, the insured will institute legal proceedings or transfer those rights to us and help us enforce them.

9. Two or More Coverage Parts or Policies Issued By Us

It is our intention that the various coverage parts or policies issued to you by us, or any company affiliated with us, do not provide any duplication or overlap of coverage. We have exercised diligence to draft our coverage parts and policies to reflect this intention, but if the facts and circumstances of any claim or "suit" give rise to actual or claimed duplication or overlap of coverage then, notwithstanding the other insurance provision in this coverage part, if this coverage part and any other coverage part or policy issued to the insured by us, or any company affiliated with us, apply to facts and circumstances that in any way include "abuse" or "molestation", the limit of insurance under all such coverage parts or policies combined shall not exceed the applicable limit of insurance stated in the Declarations of this coverage part.

Copyright, 2010 Selective Insurance Company of America. All rights reserved.
Includes copyrighted material of Insurance Services Office, Inc., with its permission.

This condition does not apply to any Excess or Umbrella policy issued by us specifically to apply as excess insurance over this coverage part or policy to which this coverage part is attached.

10. When We Do Not Renew

If we decide not to renew this coverage part or the policy to which this coverage part is attached, we will mail or deliver to the first named insured shown in the Declarations of the policy to which this coverage part is attached written notice of the nonrenewal not less than 30 days before the expiration date. If notice is mailed, proof of mailing will be sufficient proof of notice.

g. All interest on the full amount of any judgment that accrues after entry of the judgment and before we have paid, offered to pay, or deposited in court the part of the judgment that is within the applicable limit of insurance.

These payments will not reduce the limits of insurance.

ADDITIONAL TRANSPORTATION EXPENSES SECTION III, A.4.a. — Transportation Expenses is deleted in its entirety and replaced with the following:

We will pay up to the Limit of Insurance shown on the ElitePac Schedule for temporary transportation expenses that you incur because of any "loss" to a covered "auto", but only if the covered "auto" carries the coverages and meets the requirements described in Paragraphs **1.** or **2.** below:

1. We will pay temporary transportation expenses for total theft of a covered "auto". We will only pay for such expenses incurred during the period beginning 24 hours after the theft and ending, regardless of the policy's expiration, when the covered "auto" is returned to use or we pay for its "loss".

2. For "loss" other than total theft of a covered "auto" under Comprehensive or Specified Causes of Loss Coverage, or for any "loss" under Collision Coverage to a covered "auto", we will only pay for those temporary transportation expenses incurred during a period of time reasonably required to repair or replace the covered "auto", even if that time period extends beyond the policy expiration date.

Paragraph **2.** of this extension does not apply while there are spare or reserve "autos" available to you for your operations.

HIRED AUTO PHYSICAL DAMAGE COVERAGE

If Comprehensive, Specified Causes of Loss or Collision coverage applies to a covered "auto", the following is added to **SECTION III, A.4. — Coverage Extensions:**

Physical Damage coverage is hereby extended to apply to Physical Damage "loss" to "autos" leased, hired, rented or borrowed without a driver. We will provide coverage equal to the broadest coverage available to any covered "auto" shown on the Declarations; however, the most we will pay for "loss" to each "auto" under this coverage extension is the lesser of:

1. The Limit of Insurance stated in the ElitePac Schedule; or

2. The actual cash value of the damaged or stolen property as of the time of the "loss"; or

3. The actual cost of repairing or replacing the damaged or stolen property with other property of like kind and quality. A part is of like kind and quality when it is of equal or better condition than the pre-accident part. We will use the original equipment from the manufacturer when:

(a) The operational safety of the vehicle might otherwise be impaired;

(b) Reasonable and diligent efforts to locate the appropriate rebuilt, aftermarket or used part have been unsuccessful; or

(c) A new original equipment part of like kind and quality is available and will result in the lowest overall repair cost.

For each leased, hired, rented or borrowed covered "auto" our obligation to pay each applicable "loss" will be reduced by the hired "auto" deductible on this policy. If there is no hired "auto" coverage symbol 8 for physical damage coverage on the policy, our obligation to pay for each "loss" will be reduced by the deductible equal to the highest deductible applicable to any owned "auto" for that coverage. No deductible will be applied to any "loss" caused by fire or lightning.

SECTION IV, B.5. Other Insurance Condition, Paragraph **5.b.** is deleted in its entirety and replaced by the following:

For Hired Auto Physical Damage Coverage, the following are deemed to be covered "autos'" you own:

1. Any covered "auto" you lease, hire, rent, or borrow; and

2. Any covered "auto" hired or rented by your "employee" under a contract or agreement in that "employee's" name, with your permission, while performing duties related to the conduct of your business.

However, any "auto" that is leased, hired, rented or borrowed with a driver is not a covered "auto".

This coverage extension does not apply to Emergency Services Organizations and Governmental Entities.

HIRED AUTO LOSS OF USE COVERAGE

If Comprehensive, Specified Causes of Loss or Collision coverage applies to a covered "auto", the following is added to **SECTION III, A.4. — Coverage Extensions:**

We will pay expenses for which you are legally responsible to pay for loss of use of a leased, hired, rented or borrowed "auto" if it results from an "accident". The per day limit in the Business Auto Coverage form does not apply and the most we will pay per "accident" is the Limit of Insurance shown on the ElitePac Schedule.

Loss of Use Expense limits afforded by any endorsement added to the commercial auto policy shall apply in excess of the coverage afforded by this ElitePac form.

This coverage extension does not apply to Emergency Services Organizations, Governmental Entities, and Schools.

The following is added to **SECTION III, A.4. — Coverage Extensions:**

If this policy provides Comprehensive Coverage for a covered "auto" you own and that covered "auto" is stolen, we will pay up to the Limit of Insurance shown on the ElitePac Schedule, without application of a deductible, for lost personal effects that were in the covered "auto" at the time of theft. Personal effects do not include jewelry, tools, money, or securities. This coverage is excess over any other collectible insurance.

AIRBAG COVERAGE

The following is added to **SECTION III, B.3.a. — Exclusions:**

Mechanical breakdown does not include the accidental discharge of an airbag.

This coverage extension does not apply to Emergency Services Organizations and Governmental Entities.

EXPANDED AUDIO, VISUAL, AND DATA ELECTRONIC EQUIPMENT COVERAGE

SECTION III, B.4. — Exclusions

This exclusion does not apply to the following:

1. Global positioning systems;
2. "Telematic devices"; or

   c. Designed to be solely operated by use of power from the "auto's" electrical system; or
   d. Designed to be used solely in or upon the covered "auto".

COMPREHENSIVE DEDUCTIBLE — LOCATION TRACKING DEVICE

The following is added to **SECTION III, D. - Deductible:**

Any Comprehensive Coverage Deductible shown in the Declarations will be reduced by 50% for any "loss" caused by theft if the covered "auto" is equipped with a location tracking device and that device was the sole method used to recover the "auto".

PHYSICAL DAMAGE LIMIT OF INSURANCE

SECTION III, C. — Limit Of Insurance is deleted in its entirety and replaced with the following:

The most we will pay for a "loss" in any one "accident" is the lesser of:

1. The actual cash value of the damaged or stolen property as of the time of the "loss"; or
2. The cost of repairing or replacing the damaged or stolen property with other property of like kind and quality.

This coverage extension does not apply to Emergency Services Organizations and Governmental Entities.

GREEN AUTOMOBILE REPLACEMENT COVERAGE

In the event of a total "loss" to an owned "auto" that is a "gasoline powered auto" for which Comprehensive, Specified Causes of Loss, or Collision coverage applies, Physical Damage coverage will be amended as follows:

If the owned "gasoline powered auto" is replaced by you with a "green auto", we will pay an additional 10% of the "gasoline powered auto's" actual cash value up to a maximum of $3,000, provided the "auto" is replaced and a copy of a bill of sale or new lease agreement is received by us within 60 calendar days of the date of the "loss".

Regardless of the number of "autos" deemed a total loss, the most we will pay under this coverage extension for any one "loss" is $10,000.

SECTION IV, A.5. — Transfer Of Rights Of Recovery Against Others To Us is deleted in its entirety and replaced with the following:

We waive any right of recovery we may have against any person or organization because of payments we make for "bodily injury" or "property damage" resulting from the ownership, maintenance or use of a covered "auto" but only when you have assumed liability for such "bodily injury" or "property damage" in an "insured con-tract". In all other circumstances, if a person or organization to or for whom we make payment under this Coverage Form has rights to recover damages from another, those rights are transferred to us.

Children and Youth Services:

The C5 Georgia program is conducted outside of school hours throughout the year as well as during the summer. The program helps support academics, positive social/behavior, addresses the challenges teens face that include stress, mental health and anxiety. It provides healthy activities to that creates a positive environment to build confidence, independence, self reliance and more. The program teaches the principles of leadership at school, home work and community.

Activities include: 28 days at a residential leadership camp in the North Georgia Mountains. College Tours in the summer and during the school year. Participation in community service projects both in the summer and during the school year. The ACT NOW Summit on Emory University's campus. Career exploration activities both in person and virtually. Career Mentoring programming with UPS and other business leaders.

Academic support - C5's role in preparing youth to be ready to successfully apply for college is to ensure they are able to complete academic requirements in middle school and high school, keep them aware of requirements and timelines that they will need in their post-secondary pursuits and closely monitor their progress. Monitoring includes tracking their grades from the time of selection in 7th grade all the way through 12th grade. Students who fall below a 3.0 and/or who struggle with literacy, math and other subjects are provided with extra attention by C5 staff and volunteers. This additional tutoring is provided and/or resourced with partners in the community.

Further steps in the program that ensure both literacy and academic performance include individual attention and mentoring to take the right steps at the right time for college admission, taking modules that prepare them for the ACT/SAT testing, college applications, college essays and support with scholarship applications and FAFSA applications. C5 creates a college-bound culture and monitors each individual’s progress with high school and college action plans. The outcome is high graduation, post-secondary enrollment in either university, college, technical or skills based education.

Social/Behavior/Healthy Activities-The leadership development curriculum primarily targets the outcome: develops leadership and navigation skills in the areas of: positive behavior, self-awareness, communication, group effectiveness, inclusion, organization, social justice, decision making and problem solving. This component of our programming starts with the first and second year students at summer camp and continues throughout the entire program. This portion of our program is presented at a 30 day residential immersive setting in the North Georgia Mountains. Research shows that if teens are taken out of the comfort of their environment for 28-35 days, positive change can happen. The teens are unplugged from technology, such as phones, the internet and computers. They are encouraged to write letters home and to be present with their cabin mates and cohort.

The leadership development curriculum presented at the residential camp includes experiential activities that deal with many of the challenges teens face today. Topics such at body image, conflict resolution, building trust and peer pressure to name a few. Some activities include art class where the teens will paint an image of themselves and express their feelings. Other activities include planning a talent with their cohort and then executing the show. This teaches them collaboration, decision making and communication. Another aspect of summer program, that is a part of leadership camp, are hikes or “treks” in the wilderness. This is an important part of years one and two and a major component of year three.

This program is conducted with the National Outdoor Leadership School in the Tetons of Wyoming. It is here that the teens embrace the challenge and learn how life is full of challenges. They learn how to overcome their fears and anxiety.

Teens create mission statements, complete a structured journal, and take turns as "leader of the day" They receive feedback from their peers and adult leaders

The Social Awareness Program (SAP) builds greater understanding of social issues and how they impact perceptions of our selves, others and the world. The Social Awareness curriculum primarily targets the outcomes:

- Respects human diversity & is capable of living and working in a diverse community
- Forms and maintains positive relationships with other youth and adults

Youth learn about themselves, how to appreciate those who are different from them, and develop skills for dealing with issues related to peers, families, their communities and the world. This is accomplished with our pathway programming as well as our summer experience programs.

The social awareness programming It a series of 60-90 minute sessions with an age-appropriate message that is presented 1-2 times each week during Camp Leadership U and integrated into the third through fifth year curriculums as part of either summer programs or Pathways. Across the five years the modules follow five themes:

The community action curriculum primarily targets the outcome: Makes positive contributions to the community. This supports teens participating in healthy activities and connects them to how their actions impact the overall community.

The Community Action curriculum is sequenced to equip youth with the skills needed to become active change agents in their community over the course of the five years. Community Action is important for a number of reasons:

- Teens can learn valuable job skills through their community service, volunteerism and activism
- Teens are empowered by their impact and the recognition that they can make a difference in their community
- Community service and advocacy are excellent laboratories for teens to experiment with and employ the leadership skills they learn through C5.

As youth participate in the C5 Community Action curriculum they are guided through three stages:

1. **Education:** Youth & adults learn about their community and the value of giving back to community.
2. **Community Service:** With adult help, youth engage in community service projects and reflect on what the experience was like for them.
3. **Community Development:** Youth identify a need or issue, take action, engage adults and other youth in the process, and make meaningful change in the community.

The C5 teens are required to participate in 50 hours of commiunity service per program year. This can be done on their own as well as with
opportunities provided by the C5 organization. The community service program is where we collaborate with many other service organizations

providing opportunities for teens to experience college visits that include private, public, HBCU's, state colleges, community colleges and technical
colleges. These visits allow them to get a feel for what might be best for them.

We also do virtual college visits with representatives from various colleges across the country including admissions counselors and professors. These
opportunities help connect the teens to career paths while exploring colleges they may want to intend. This is a very intentional process for them.
Teens are also provided a college boot camp experience. This is where they are given the tools needed to start college applications, scholarship applications.
financial aid applicationa, applications essays and personal statements. As they working on the process, we have consistent check ins with them
and provide support throughout the process.

- **Completing Post-Secondary Education or Training** (just added)

The C5 College Readiness and Career Exploration program supports teens with SAT/ACT testing prep, college visits, college application support,
Scholarship and FAFSA applications. Within the college readiness program, we conitnue to make sure students are on track with their grades and
extra curriculiar activites that will support college acceptances.

We look to business professionals Entrepreasuers, Skill based workers and others in various industries to connect with the students to provide
insights in career paths. It is especially important for the young men of color to see themselves in

these individuals and to ask them how
they succeeded in their careers.

3. Number of boys and young men benefiting from My Brother's Keeper Programs and services that addresses persistent opportunity gaps (defined by the MBK alliance). Target = 10

4. Number of teens and C5 alumni receiving career exploration and career mentoring support. Target = 40

For both the Fulton County Defined Performance Measures and the Agency Defined Measures below, the specific methods and goals are as follows:

Program components for academic, behavior and career exploration support

1. When creating the C5 program, we consulted extensively with thought leaders in the youth development field. Abundant research clearly indicates what youth need in order to become productive adults. C5 Georgia has incorporated these critical elements into our programming. Our youth-centered program…

- Builds strong relationships between youth and adults — creating confidence that youth are not alone, that people care about them.
- Introduces them to new activities, ideas and concepts — expanding their horizons, helping to create a new vision for their future.
- Engages them in challenging activities — building self-confidence which youth carry with them into challenging real-life situations.
- Engages them in community service — building self-efficacy so they see that they can make a difference.

Docusign Envelope ID: 6ADD1F66-78BC-4641-9806-3C9995725B80

- Introduces the concept of college early — allowing them to see this as a realistic goal and showing them how to achieve this goal.
- Introduces them to careers — exposing them to new opportunities through job shadowing and career exploration.

Here are methods used to achieve these goals starting with students who are in their first year of the program:

- Rising **eighth graders** begin the first year of the C5 program with four weeks at summer camp, where they learn more about themselves while participating in outdoor adventure activities designed to teach them essential life and leadership skills. Canoeing, hiking, swimming, archery, and ropes courses keep our teens active outdoors; leadership training, social awareness programs, journaling and projects take them far beyond the typical camp activities. Before they return, each student completes a Leadership Development Plan, outlining his or her goals for the upcoming year.
- During the school year, our teens are involved in three to five community based group learning experiences reflective of the year's theme, volunteer 30 or more hours of community service, and carry out their individual Leadership Development Plan for the year.
- As our leaders-in-training prepare for **ninth grade**, the second year of the C5 program builds on the first emphasizing ongoing relationships with staff and peers and expanded leadership opportunities. Our teens return to summer camp for four weeks, using their newly acquired skills to provide leadership for camp activities and to plan an off-site trek for their class.
- The school year activities include initial planning for next summer's Wilderness Trek, career exploration and learning about volunteerism in their community. Community service requirements increase to 40 hours and teens continue to progress and report on their personal leadership plan.

- During the summer before **tenth grade,** teens are challenged to demonstrate their leadership skills as they finalize planning and preparation for a 7-day back-country leadership adventure. The trip — to a wilderness location in Wyoming in partnership with the National Outdoor Leadership Schools— provides real challenges and real consequences as campers make decisions, solve problems and learn to work together effectively. In this context youth begin to look at the real decisions they will be making about college and career and prepare for the challenges that will present. On returning from their trek, they spend the final days in camp reflecting on the trip and sharing their experiences with younger campers.
- Throughout their sophomore year, they will collaborate with other youth to plan a community service project and lay the foundation for their upcoming college campus tour. Community Action requirements increase to 50 hours.
- Prior to their **junior year** in high school, these young adults move away from the outdoor camp experience and explore choices for post-secondary education and career opportunities. They embark on a 8-day college campus tour that takes them to regional schools and allows them to get a taste of what college life will be like. Along the way, they engage in a volunteer service project in one of the communities they visit.

Docusign Envelope ID: 6ADD1F66-78BC-4641-9806-3C9995725B80

- During the year, youth begin work on identifying the community issue they will focus on for their ACT NOW Summit, visit additional colleges and trade schools, and complete 60 hours of volunteer work including leading a project for the first year program participants.
- In the final year of the program and their **senior year** of high school, they are fully involved in the college readiness programming, which includes applying for college, scholarships, SAT/ACT testing. In additions students engage in a week-long community leadership experience designed to help them understand how decisions are made and how needs are met in the communities where they live. Teens have the opportunity to meet the people who are making a difference in their communities and think beyond community service to community advocacy. At the end of the week, they develop a multimedia presentation showcasing their ideas for improving their community.
- During their senior year in high school, teens complete their leadership portfolio, plan and carry out a major community action project, and take part in a series of seminars designed to propel them into their future
- As noted above, each year of the program includes community service, career exploration, leadership learning, outdoor activities, college exploration and understanding their place in the community.

2. We collect report cards twice during the school year (November and March) to see how students are doing. If they have a class or classes they are struggling with (grade is below a B), we work with them or refer them to tutors or other entities like the Khan Academy. We have other students, alumni of the progam and volunteers who are able to help. We can do this virually so it has been convenient to secure help. The goal is for the students to maintain a B average or better. For the seniors high school graduation is a priority. We have a record of 100% of our seniors graduting high school since the inception of the program. It is also a goal that seniors apply for post secondary eduaction programs, whether college or university, community college or technical school. 98 % of our students have accomplished this. We are able to tap into resources provided by colleges and Atlanta Technical college to support our students in this process.

In addition to the academic support, the staff communicates with parents, teachers and guardians if there are behaviorial issues to tackle. We have a volunteer behavior psychologist that we are able to utilize to help students as well. Our program utilizes principles of youth leadership development
to ensure that students behavior remains positive. Here are the cornerstone codes our program that our students pledge to uphold: This is taught from the beginning of the 5 year year program.

- I hold myself to a higher standard.
- I represent myself and my community well.
- I respect each member of my community.
- I build the future I wish to see.

Docusign Envelope ID: 6ADD1F66-78BC-4641-9806-3C9995725B80

These are the non negotiables for our program: If a student breaks one of these rules, we work them to understand why. If it happens more than once that is grounds for dismissal and we refer them a program for help.

Data is also collected via email, social media, text/mobile communication, and parent communication. Data is compiled in a SalesForce database that tracks the student's progress over time and maintains contact and family information. There are surveys done at the completion of the 5 years as well. We ask participants how C5 has impacted them and what we can do better.

Big Brothers Big Sisters of Metro Atlanta, will provide the following activities and services in Fulton County with CCSP funding:

Program Activities and Services

This CCSP grant supports our 1:1 Mentoring with Volunteers program for children/youth in Fulton County. This program matches adult volunteers ("Bigs") with children age 8-16 ("Littles"). Men are matched with boys and women are matched with girls. Matches are made based on geographic proximity, the parent preferences, child and volunteer, and shared interests. We ask volunteers to make an initial commitment of 1 year to the program, meeting twice/month (average of 6 hours/month) with the mentee, with flexibility as to how/when visits are scheduled to be most convenient for Bigs, Littles and families.

In addition to the Fulton youth we serve through our 1:1 Mentoring with Volunteers program, including those at Sutton and Martin Luther King, Jr. Middle Schools, we serve students through our Beyond School Walls (BSW) program at Therrell, South Atlanta, Benjamin Mays and North Atlanta High Schools; and through our Level Up program at Herman J. Russell West End Academy, Jean Childs Young, Luther J. Price and Bunche Middle Schools.

Every match has a Match Support Specialist (MSS) who conducts regular check-ins with the Big, Little and parent (monthly in the 1st year and quarterly thereafter) and is always available to help address problems and provide additional resources. The MSS seeks information about: child safety; youth development; engagement in agency activities/programming; and health of the overall mentoring relationship. They also elicit input and sharing from the Big, the Little and the parent/guardian.

How Activities/Services Will Be Accomplished:

Our mentoring programs specifically address barriers to youth success such as truancy, disengagement of youth in learning, the underdevelopment of post-secondary and career aspirations and the threat of juvenile delinquency. A stable relationship with a caring adult mentor also mitigates depression, anxiety and trauma in youth, and supports mental health and well-being and resiliency.

Our core mentoring practices align with the 6standards outlined in the Elements of Effective Practice for Mentoring identified by MENTOR–The National Mentoring Partnership, a national leader in promoting quality mentoring through evidence-based standards, innovative research and essential tools. For our 1:1 mentoring program, these 6 standards include:

1 -- Recruitment: Our recruitment process for mentors and parents/guardians starts with a conversation with one of our Customer Relations Specialists who set expectations for the program. We help youth/parents understand what mentoring is and what they can expect from a mentoring relationship. Written statements outline eligibility requirements for mentors and mentees in the program. Potential mentors are required to participate in an orientation session facilitated by Program staff.

2 -- Screening: Mentor screening begins with an application to the program and a criminal background check including searching a national criminal records database along with sex offender and child abuse registries. We complete a face-to-face interview with the mentor. We conduct personal and professional reference checks. Mentee screening begins with an application completed by the parent/guardian, including informed consent for their child to participate. All participants agree to a 12-month minimum commitment to the program, and that the mentor and mentee will meet at least twice/month.

3-- Training: Required pre-match mentor training topics include: a) Program rules; b) Mentor's goals/expectations for the / relationship; c) Mentor's obligations and appropriate roles; d) Relationship development and maintenance; e) Ethical issues that

Docusign Envelope ID: 8BAA4024-6058-4749-BA8C-73380F476E78

may arise; f) How to access the support available to all mentors. We also address child safety topics including mandatory reporting requirements related to child abuse or neglect, and guidance on activities that are not allowed, such as overnight visits and out of town travel without a parent or guardian.

Our staff address the following developmental topics in the training: a) Youth development; b) Cultural, gender, and economic issues; and c) Opportunities/challenges associated with mentoring specific populations of children. We have a required training video for parents/guardians to ensure they have appropriate expectations for the mentoring relationship and our program.

4 -- Matching: When making matches, we assess geographic proximity, interests, availability, age, gender, race, ethnicity, personality and expressed preferences of mentor, mentee and parent. We conduct an initial match meeting facilitated by program staff to introduce Bigs, Littles, and parents/guardians, review the "ground rules" and celebrate the new mentoring relationship.

5 -- Monitoring and Support: Our MSS contact the Big, Little and parent/guardian twice a month in the 1st month of the match, monthly for the 1st year of the match, then quarterly thereafter. They document information about each contact, including, at a minimum, the date, length, and nature of contact. We follow evidenced-based protocol to elicit more in-depth assessment from the Big and Little about the relationship, while using relationship assessment tools developed by BBBS of America. The program provides one or more opportunities per year for mentor training, and group activities for the matches. We offer information about, and donated tickets to, activities/events that matches can participate in together.

6 – Closure: We encourage all matches that are on track to continue in the program. Procedures are in place to manage anticipated and unanticipated closures. If possible and appropriate, program staff conduct and document an exit interview with Big and Little. We have a written statement outlining terms of match closure and policies for Big/Little contact after a match ends. We also have a process for a mentor or mentee rematch, when appropriate.

Through our Big Futures program, we facilitate a suite of events and resources to provide intentional opportunities for high school matches, including:

- ***Behind-the-Scenes Career Exposure***: Matches and parents/guardians are invited each quarter to attend a career exposure event at a chosen corporate campus.
- ***Big Futures Social:*** Matches are invited to come together to kick off each school semester.
- ***Big Futures Hangouts:*** A virtual or in-person space for Bigs to connect with other Bigs and Littles to connect with other Littles and learn necessary skills for enhancing their futures.
- ***Big Futures Summit***: Our Summit brings together experts in a variety of high-demand careers, military, trades and 2-year college to ensure our Littles have exposure to the vast variety of options available to them after high school.

These opportunities are available to all high school students enrolled in any BBBSMA program.

We track the Key Performance Indicator "Percentage of high school students who graduate on time" for all the youth we serve who remain in our program through high school.

CSP funding priorities addressed

Our program addresses four Children & Youth Services funding priorities:

- Afterschool/Out of School Programs to help bring up academic and social-behavioral levels of school-aged youth
- Programs addressing mental health, depression, stress, trauma and anxiety among youth and teens

Docusign Envelope ID: 8BAA4024-6058-4749-BA8C-73380F476E78

- Ensuring Safety and Justice by providing alternatives to activities and contributing factors that lead to unhealthy behaviors in children and youth
- Programs and services focusing on one or more of the six National Milestones of My Brother's Keeper Alliance

Within the Children & Youth Services service category, our mentoring programs address effective youth **prevention** and **intervention** programs that result in academic and social-emotional benefits to youth including higher grades and test scores, guidance for post-secondary education and career alternatives after high school, development of social skills, reduced drop-out rates and increased attendance; and safe, accessible and engaging spaces to spend time outside of school and during the summer to prevent unhealthy behaviors and promote health and wellness; and in youth and young adults becoming self-sufficient and positive contributors to society.

Our program addresses outcomes and performance measures that result in:

- The prevention of youth violence and/or delinquent behaviors by targeting youth who are at enhanced risk for these behaviors;
- Changing the life trajectory for youth who have demonstrated delinquent behaviors;
- Positive family support to foster a sense of belonging and trust;
- Provide mentors and parents with tools that help to promote positive mental health for teens and kids;
- Addressing mental health, depression, stress and anxiety among teens which may be due to adverse events associated with isolation, community violence, racism.

BBBSMA uses a Risk and Protective Inventory (RPI) survey during the family in-take process. The Risk and Protective Inventory (RPI) tool assists our staff in creating a 360 assessment of risk areas (thoughts, attitudes, behaviors) so that individualized goals and support strategies can be established at the beginning of the mentoring relationship. Our program staff provide mentors ongoing training and coaching so they can effectively reinforce and model healthy relationships and behaviors.

We incorporate principles of trauma-informed care in each step of the match process. This includes seeking information about any trauma the child may have experienced, background on the child's mental health history and that of any family members that may be relevant. With parental consent, our staff may also contact school counselors, therapists or other counselors. Particular issues of concern may be addressed with the mentor so that he/she can partner with the family to support the child in the most appropriate way.

All of our program staff are required to complete the "Fundamentals of Youth Protection" course which covers child safety, and child safety is a critical component of our volunteer mentor pre-match training.

98% of the youth in our program are people of color; 86% are African American or Black. Our program closely aligns with **3 of the 6 My Brother's Keeper National Milestones**:

#3: Graduating from high school ready for college/career

Bigs help prepare their Littles for careers and build workplace skills including:

- Setting career goals and taking steps to realize them
- Using personal contacts to network with industry professionals, find internships, and locate jobs
- Introducing youth to resources and organizations they may not be familiar with
- Skills for seeking, interviewing for, and keeping a job

Docusign Envelope ID: 8BAA4024-6058-4749-BA8C-73380F476E78

Most importantly, our program is individualized for each child. Bigs plan outings that help expand their Littles' understanding of the world and their place in it. As Littles get older, their Bigs help them identify career choices and navigate those paths. It is Bigs working individually with their Littles, based on a deep understanding of each child's strengths and potential, that helps make them successful.

#4: Completing post-secondary education or training

Our mentoring programs are focused on helping youth succeed academically, build social-emotional skills, prepare for post-secondary and career, and discover and develop their full potential. We measure academic success by tracking on-time grade promotion for every child in our program. For our high school seniors, we track on-time graduation and plans for the immediate future.

#6 -- Reducing Violence and Providing a Second Chance

Research has shown that "Positive mentoring relationships can transform the trajectory of young peoples' lives by leading them away from violent and risky behavior and toward sustainable and productive opportunities. The Centers for Disease Control and Prevention lists mentoring as one of four strategies that holds the most promise for youth violence prevention. Primarily, this is because mentoring has a proven ability to decrease risk factors and enhance protective factors associated with reducing youth violence, such as staying engaged in school or displaying positive social behaviors." (*Mentoring: An Investment in Reducing Youth Violence, mentoring.org).*

Community Collaborative Relationships

We have long-standing partnerships with local organizations that connect families with resources and services. See more detail in Attachment to Question 12.

The following program measures/ Key Performance Indicators ("KPI's") will be utilized to track and report program outcomes for the Fulton County residents supported with CSP funding, during the funding period 01/01/2024 through 12/31/2024:

BBBSMA achieves program goals by implementing mentoring models utilizing evidence-based practices, as described in detail in Question 12. We are committed to tracking and reporting program data on youth development measures including academic achievement, reduction of risky behaviors, behavioral and social-emotional development and avoiding the juvenile justice system. Data is collected by our match support specialists as they monitor and coach mentoring matches throughout the lifetime of the match. This includes information gathered during monthly check-ins with Bigs, Littles and parents/guardians in our 1:1 Mentoring programs, as well as through administering surveys to children, parents and volunteers. Information is saved in our Salesforce CRM database which provides us with robust data tracking, analysis and reporting capabilities.

Milestones and Schedule

Our 1:1 Mentoring with Volunteers Program is ongoing. Our professional recruitment, enrollment and match support staff are continuously carrying out activities to recruit and screen new mentors and mentees, to train new mentors, to create new matches, and to provide ongoing monitoring, support and training for mentors and parents/caregivers. Although program participants are only required to make a 12-month commitment to the mentoring relationship, our 2023 average length of a one-to-one match was 32.6 months.

Data Collection Tools

Docusign Envelope ID: 8BAA4024-6058-4749-BA8C-73380F476E78

BBBSMA uses a combination of agency-based and individual-based metrics for program improvement and program design modification. In terms of agency-based metrics, the agency uses multiple tracking methods to monitor and evaluate program services and outcomes and to determine necessary program improvements. These methods include: Regularly scheduled Match Support Contacts, tracking agency match quantitative and qualitative goals, and surveys.

Regularly Scheduled Match Support Contacts:

For qualitative data, our programs team contacts each intentionally paired match to ensure the health and safety of the mentee and mentor. In these check-ins, the Match Support Specialist gathers information and builds rapport to support the parent, child and volunteer mentor throughout the time the mentor and mentee are matched. These conversations focus on: child safety, relationship development, activity involvement, child/ youth development and agency engagement.

Tracking agency match quantitative and qualitative goals:

For quantitative data, our programs team is given objective goals to achieve each month, such as the number of interviews and assessments completed, match support compliance, the number of matches made, etc. Beyond quantitative metrics, our agency also measures the quality of work the programs team conducts through: conducting quality assurance checks on the quality of match support conversations, managerial supervision of staff assessments for first 90 days and multiple staff assessing interviews and matches.

The Youth Outcomes Survey (YOS)/Child Outcomes Survey (COS):

We regularly survey the youth we serve to help us measure program impact and success. These surveys include the Youth or Child Outcomes Surveys (YOS and COS). The YOS is used with youth ages 11 and older; the COS is used with children ages 10 and under. Surveys are administered at the beginning of each match to gather baseline data (i.e., information about how youth are doing before receiving our services) and annually thereafter, to see how youth are progressing over time. The YOS and COS measure areas that research has shown can be positively impacted by mentoring. These areas include: Academic Performance, Educational Expectations, Social Competence, Social-Emotional and Mental Health, Depressive Symptoms and Avoidance of the Juvenile Justice System.

The Strength of Relationship (SoR) Survey:

This tool measures the level of emotional attachment, relationship satisfaction and connection between the mentor and the child. It is completed by the volunteer and the child at the three month and one year anniversaries of the match, and annually thereafter.

End of Year Outcomes Survey

This survey is administered to parents/guardians of Littles and includes questions about on-time grade promotion and graduation, and avoidance of the juvenile justice system. Other questions ask if Littles believe their mentor has helped them identify their strengths and weaknesses, and if being a Little has met their expectations.

Salesforce Program Database:

Our Salesforce database helps us track information and each match throughout the matching and support process. Using this we can see relative performance across our teams as well as potential bottlenecks and team-wide challenges. A wide range of dashboards and reports are available throughout the agency. The system is customizable to track and report on specific projects and programs and is enabling us to provide more tailored reporting to funders.

County-defined Performance Measures

For the 425 Fulton County children and youth we expect to serve in 2024 through our 1:1 Mentoring with Volunteers program, BBBSMA will report on the following county-defined performance measures in the Children & Youth Services category during the grant period:

Number of school-aged youth benefiting from Afterschool/Out of School Programs to help bring up academic and social/behavioral levels:

- *332 youth served in Fulton County through our Mentoring with Volunteers program (80%) will maintain or improve academic performance/school grades*

Number of youth receiving behavioral or mental health referrals.

- *10 Fulton County youth will receive behavioral or mental health referrals*

Number of youth involved with or at risk for involvement with the Juvenile Justice System who demonstrate decreased or no delinquent behaviors:

We estimate that of the 34 children and youth we will serve with CSP funding, 7 (22%) will be at high risk for involvement with the Juvenile Justice System because they have one or more incarcerated family members. We will measure their lack of delinquent behaviors as indicated by the number of children and youth in our program who avoid the juvenile justice system:

- *95% of youth served in Fulton County through our Mentoring with Volunteers program will avoid the juvenile justice system 394*

Number of boys and young men of color benefiting from My Brother's Keeper programs and services that address persistent opportunity gaps

Our program aligns with three of the six My Brother's Keeper milestones: Graduating from High School Ready for College and Career; Completing post-secondary education or training; and Reducing Violence and Providing a Second Chance.

- *We estimate that 208 (approximately 50%) of the children and youth we serve in Fulton County through our Mentoring with Volunteers program will be boys of color*

We have expanded our volunteer recruitment efforts overall and are using a much more targeted approach to our recruitment activities, focusing on the geographic areas of greatest need, particularly for men of color to mentor boys. We recruit new mentors through a combination of digital marketing and advertising and corporate and community outreach. Thanks to this multifaceted approach, we exceeded our 2023 goal of 750 "Priority Volunteer Inquiries" – inquiries from males in our highest-need zip codes. We also exceeded our yearly goal for "Men of Color Inquiries."

Please see the attached Logic Model, Project Timeline and Youth/Child Outcomes Survey infographic for more detailed information.

ADDITIONAL INSURED PRIMARY AND NON-CONTRIBUTORY ENDORSEMENT FOR PUBLIC ENTITIES

This endorsement modifies insurance provided under the following:

COMMERCIAL GENERAL LIABILITY COVERAGE PART

SCHEDULE

Name of Person or Organization:

A. Section II – WHO IS AN INSURED is amended to include:

4. Any public entity as an additional insured, and the officers, officials, employees, agents and/or volunteers of that public entity, as applicable, who may be named in the Schedule above, when you have agreed in a written contract or written agreement presently in effect or becoming effective during the term of this policy, that such public entity and/or its officers, officials, employees, agents and/or volunteers be added as an additional insured(s) on your policy, but only with respect to liability for "bodily injury", "property damage" or "personal and advertising injury" caused, in whole or in part, by:

a. Your negligent acts or omissions; or
b. The negligent acts or omissions of those acting on your behalf;

in the performance of your ongoing operations.

No such public entity or individual is an additional insured for liability arising out of the sole negligence by that public entity or its designated individuals. The additional insured status will not be afforded with respect to liability arising out of or related to your activities as a real estate manager for that person or organization.

B. Section III – LIMITS OF INSURANCE is amended to include:

8. The limits of insurance applicable to the public entity and applicable individuals identified as an additional insured(s) pursuant to Provision A.4. above, are those specified in the written contract between you and that public entity, or the limits available under this policy, whichever are less. These limits are part of and not in addition to the limits of insurance under this policy.

C. With respect to the insurance provided to the additional insured(s), **Condition 4. Other Insurance of SECTION IV – COMMERCIAL GENERAL LIABILITY CONDITIONS** is replaced by the following:

4. Other Insurance

a. Primary Insurance

This insurance is primary if you have agreed in a written contract or written agreement:

(1) That this insurance be primary. If other insurance is also primary, we will share with all that other insurance as described in **c.** below; or

Docusign Envelope ID: 8BAA4024-6058-4749-BA8C-73380F476E78

(2) The coverage afforded by this insurance is primary and non-contributory with the additional insured(s)' own insurance.

Paragraphs (1) and (2) do not apply to other insurance to which the additional insured(s) has been added as an additional insured or to other insurance described in paragraph **b.** below.

b. Excess Insurance

This insurance is excess over:

1. Any of the other insurance, whether primary, excess, contingent or on any other basis:
   (a) That is Fire, Extended Coverage, Builder's Risk, Installation Risk or similar coverage for "your work";
   (b) That is fire, lightning, or explosion insurance for premises rented to you or temporarily occupied by you with permission of the owner;
   (c) That is insurance purchased by you to cover your liability as a tenant for "property damage" to premises temporarily occupied by you with permission of the owner; or
   (d) If the loss arises out of the maintenance or use of aircraft, "autos" or watercraft to the extent not subject to Exclusion **g.** of **SECTION I – COVERAGE A – BODILY INJURY AND PROPERTY DAMAGE**.
   (e) Any other insurance available to an additional insured(s) under this Endorsement covering liability for damages which are subject to this endorsement and for which the additional insured(s) has been added as an additional insured by that other insurance.

(1) When this insurance is excess, we will have no duty under Coverages **A** or **B** to defend the additional insured(s) against any "suit" if any other insurer has a duty to defend the additional insured(s) against that "suit". If no other insurer defends, we will undertake to do so, but we will be entitled to the additional insured(s)' rights against all those other insurers.

(2) When this insurance is excess over other insurance, we will pay only our share of the amount of the loss, if any, that exceeds the sum of:
   (a) The total amount that all such other insurance would pay for the loss in the absence of this insurance; and
   (b) The total of all deductible and self-insured amounts under all that other insurance.

(3) We will share the remaining loss, if any, with any other insurance that is not described in this **Excess Insurance** provision and was not bought specifically to apply in excess of the Limits of Insurance shown in the Declarations of this Coverage Part.

c. Methods of Sharing

If all of the other insurance available to the additional insured(s) permits contribution by equal shares, we will follow this method also. Under this approach each insurer contributes equal amounts until it has paid its applicable limit of insurance or none of the loss remains, whichever comes first.

If any other the other insurance available to the additional insured(s) does not permit contribution by equal shares, we will contribute by limits. Under this method, each insurer's share is based on the ratio of its applicable limit of insurance to the total applicable limits of insurance of all insurers.

The Evolution Center will provide low barrier short-term residential housing (shelter) for men experiencing homelessness in Fulton County. These men will have rapid access to safe shelter and supportive services 24 hours per day, seven days a week. Prioritization will be placed on men who have the highest needs based on their scores on the Vulnerability Index-Service Prioritization and Decision Assistance Tool assessment completed by our Coordinated Entry team. Placing these guests in short-term residential housing aligns with Fulton County's Strategic Objective to support the vulnerable residents in our social services while reducing the homeless population year to year as we assist individuals experiencing homelessness in transitioning to stable housing placements. It also addresses the Homelessness Funding Priority of providing rapid re-housing for individuals experiencing homelessness in order to transition them to stable housing quickly. While men are enrolled in The Evolution Center program, they will have the opportunity to receive intensive case management, coordination of care, behavioral health and substance abuse recovery services, housing placement assistance, entitlement benefit assistance, and career readiness coaching and training. These holistic supportive services will assist men experiencing homelessness in obtaining sustainable income and transitioning to housing placements.

Utilizing Critical Time Intervention and Housing First models, we encourage guests to actively participate in intensive case management services and coordination of care services. The first priority is to stabilize housing for individuals who have been experiencing homelessness by providing low barrier short-term residential housing (shelter). After housing is stabilized, guests have capacity to work alongside Case Managers to develop goals utilizing an Individual Service Plan (ISP). One of the universal ISP goals is to secure sustainable income, and Case Managers provide guests with assistance in applying for eligible benefits including SNAP, Medicaid/Medicare, Supplemental Security Income (SSI), Social Security Disability Income (SSDI), retirement from Social Security, and others. The comprehensive assistance with entitlement benefits supports Fulton County's homelessness funding priority of reducing/eliminating barriers to self-sufficiency and paths to self-sufficiency created by increasing income, access to cash or non-cash mainstream benefits.

Because Evolution Center is a low-barrier residential housing (shelter) program assisting men experiencing homelessness in transitioning to stable housing, we are able to assist individuals who are chronically homeless and struggle with substance use and/or mental health diagnoses by connecting them with appropriate treatment. Therefore, not only does the program address Fulton County's Health and Human Services' Strategic Objectives to (1) Prevent illness by engaging in healthier behavior and (2) Prevent health disparities by educating residents and connecting them to available resources, but it also addresses the Homelessness Funding Priority for residents as follows:

The first priority is providing Transitional Housing/Bridge Housing options for the homeless population affected by mental health and/or substance-use disorders. Our intensive case management and support services provide our guests with the support necessary to reach individuals who are chronically homeless, struggling with substance use, and struggling with mental health diagnoses. Our on-site Behavioral Health Specialist provides sessions for individuals as well as psychoeducational classes for groups to assist our guests in learning coping skills and life skills that better equip them for their transition to housing placements. Our Certified Peer Specialist provides support for individuals who are struggling with substance use by working with guests individually and through 12-Step groups. Finally, our team is trained in Trauma Informed Care, which guides their approach and direction as they meet the needs of each individual guest.

For guests looking to obtain employment or increase their wages by developing marketable skills training, The Evolution Center has an onsite Career Resource Center to assist them with career coaching, referrals to marketable skills training partners, and linkage to employment placements. These services help guests who are able to return to the workforce by improving their access to economic opportunities, programs, and resources focused on education and career exploration.

To adequately monitor services provided, prevent duplication of services, collect data, and maintain records, Gateway Center utilizes Client Track and Apricot. Gateway Center tracks key information such as barriers to housing, changes in income, and housing placements. We partner with researchers Michelle Ediger, Ph.D., & Christyl Wilson Ebba, Ph.D. for an annual assessment of our program success and ensure our statistics are complete and error-free. Data reports are generated and analyzed on a monthly basis, which is a valuable tool for ensuring the success of this program.

According to Fulton County's "All People are Self-Sufficient" program objectives, The Evolution Center addresses all five objectives: (1) Economic stability –men who experienced homelessness receive short-term shelter and career services training and referrals to employment placements in jobs earning a livable wage to become economically self-sufficient, or they are assisted in obtaining entitlement benefits; (2) Housing –men transition from homelessness to our short-term residential housing (shelter) program until they are placed in long-term housing through the coordinated entry process; (3) Literacy –men receive referrals for adult and financial literacy, including GED and/or pursuing vocational training or college; (4) Food – men who formerly experienced hunger during their homelessness have access to proper nutrition; (5) Independence – men who were some of the most vulnerable residents of Fulton County will be independent when they transition to stable housing.

Since our inception almost 19 years ago, Gateway Center has utilized a collective impact service model for all of our programs. By using a collective impact model, we leverage the available resources and expertise of other service providers who share our passion of supporting individuals and families experiencing homelessness in becoming stably housed. Approach and Design:

The Summit Counseling Center, Inc., Subsidized Mental Health Counseling will provide services to **35** clients that reside in Fulton County, with CCSP funding.

The Summit Counseling Center, Inc., will provide the following activities and services in Fulton County with CCSP funding:

Addressing complex mental health concerns, including suicide and suicidal ideation, through evidence-based, outpatient DBT and non-DBT counseling will dramatically and positively affect teens, emerging adults, and adults in becoming healthy, safe, self-sufficient, and positive contributors in their community and society. This will be accomplished through subsidized DBT and non-DBT counseling sessions for 35 Fulton County residents needing evidence-based treatment. Counseling services will be offered at our three Fulton County locations (2 in Johns Creek and one in Milton) and via telehealth when necessary. Summit is providing our services using local and CDC guidelines regarding COVID-19. Summit's main and satellite offices are all ADA-compliant facilities; the schools where we provide our services are also ADA-compliant.

The Subsidized Mental Health Counseling Program Goals will address the following Fulton County Health and Wellness Priorities:

- Prevent illness and health disparities by educating and connecting individuals to available resources.
    - Through the Summit's therapists, marketing and community partners, individuals with a variety of mental health concerns, inlcuding complex medical issues, will learn about our fully subsidized counseling sessions to improve their mental health.
- Programs addressing mental health, depression, stress, trauma and anxiety among individuals
    - Summit's Subsidized Mental Health Counseling Program will provide subsidized counseling, including outpatient therapy for individuals with complex mental health concerns.
- Programs focusin on financial literacy and wellness
    - Summit's Subsidized Mental Health Counseling Program will provide cost-effective mental health treatment that will promote overall wellness through techniques and processes learned by clients who are better able to control their emotions and impulsive actions, resulting in fewer hospitalizations for more in-depth treatment.

Teens, emerging adults, and adults needing mental health services will be identified through referrals from parents, schools, community providers, and self-referrals. The Summit may also identify individuals needing counseling through referrals from participants in our free community training sessions and/or through promotional materials distributed in the community. During the screening and intake process, The Summit utilizes free and reduced lunch, government-sponsored benefits, and insurance information to determine eligibility for subsidized mental health services during the intake process. Licensed and certified mental health professionals conduct client assessments to determine mental health issues, severity, and length of service; when minor youth are involved, the assessment process involves the parent(s)/guardian(s). The designated therapists develop an individualized treatment plan. Outcome measurements tracked will include the number of individuals connected to available resources, the number of individuals receiving behavioral health and other supportive services, the % of clients who report or demonstrate improved health-related outcomes or other "quality of life" measures, the number of subsidized DBT sessions, the number of

Docusign Envelope ID: B61BCE63-F7F5-40B2-BAEE-31AB0DAC4C35

subsidized non-DBT sessions, and the number of fully subsidized parent intake sessions for minor youth. Improved health-related outcomes, including emotional and behavioral functioning, will be measured by the Youth Symptom Checklist (for individuals under age 17), the General Anxiety Disorder–7, and Patient Health Questionnaire-9 (for individuals age 17+). These assessments are implemented at the 1st session and every 7th session afterward.

Individuals participating in DBT counseling will have access to subsidized treatment for 12 months in alignment with the grant period. The recommended DBT protocol involves weekly individual counseling sessions and participation in up to 32 group sessions over 12 months; youth under age 18 receiving DBT therapy must have a parent/guardian participate in their group sessions.

Summit offers the following three modules for Group Therapy sessions; each module lasts 7 -9 weeks

- Emotional Regulation: Participants will learn to recognize and name emotions accurately, respond appropriately, and learn how to change their emotional responses.
- Interpersonal Effectiveness: In this series of classes, participants will learn interpersonal effectiveness skills to help them build and maintain stable relationships. This module teaches skills to help clients with boundary setting, balancing a relationship's needs with their goals and values, and living a life consistent with their own values.
- Distress Tolerance: Participants will learn to increase their tolerance for negative emotions.

Individuals receiving non-DBT counseling will have access to subsidized treatment for 12 months in alignment with the grant period. Not all clients will need counseling sessions for this length of time. Each client will work with the Summit's therapist to determine the appropriate length of counseling and when the individual is ready to lessen the frequency of their counseling sessions or exit from counseling.

The Summit has strong, health collaborative relationships in Fulton County. The Summit deeply appreciates the Partners in Caring – schools, businesses, non-profit organizations, and faith communities that relate as mission extensions. Partners in Caring includes, but is not limited to Alpharetta Methodist, Be Rich (North Point Community Church), Church on the Hill, CURE Childhood Cancer, DeKalb County Schools, Dunwoody United Methodist Church, For the Love of Ryan, Fulton County, Fulton County Schools, Greater Atlanta Christian School, Johns Creek United Methodist Church, Milton First Responders, Mount Vernon School, Mt. Pisgah, North Point Community Church, Perimeter Church, SAM Foundation, St. James UMC, Stonecreek Church, Victory Church, NAMI Northside, Will to Live Foundation, and Walton Communities. The Summit founded and continues to host the North Fulton Mental Health Collaborative, connecting community stakeholders to provide a life span behavioral healthcare system for North Fulton County. The Collaborative meets monthly during the school year and is open to all behavioral healthcare stakeholders, providers, and consumers.

The 28 North Fulton County public schools served by our Summit OnSite Program are Abbotts Hill Elementary School; Alpharetta Elementary School; Alpharetta High School; Autrey Mill Middle School; Barnwell Elementary School; Birmingham Falls Elementary School; Cambridge High School; Chattahoochee High School; Crabapple Crossing Elementary School, Crabapple Middle School; Creek View Elementary School; Dolvin Elementary School; Esther Jackson Elementary School; Findley Oaks Elementary School; Hopewell Middle School; Innovation Academy; Johns Creek High School; Lake Windward Elementary School; Milton High School; Mountain Park Elementary School; Northview High School; Northwestern Middle School; Ocee Elementary School; River Trail Middle School; Summit Hill Elementary School; Sweet Apple Elementary School; Taylor Road Middle School; and Webb Bridge Middle School.

The activities involved in the program will address the following Health and Human Services Key Performance Indicators:

Docusign Envelope ID: B61BCE63-F7F5-40B2-BAEE-31AB0DAC4C35

- Prevent illness by engaging in healthier behavior
    - Percent of residents engaged in substance abuse treatment – opioid, drinking, vaping. Individuals with complex mental health concerns may also employ other risky behaviors, including substance abuse. Summit also offers counseling to address these concerns.
- Prevent health disparities by educating residents and connecting them to available resources
    - Number of uninsured adults and children. Summit provides subsidized individual counseling and group therapy for those without insurance and who demonstrate financial need. This Program will provide subsidized counseling to 35 unduplicated Fulton County residents.
    - Number of residents who receive behavioral health services. Summit will provide subsidized DBT and non-DBT counseling to 70 unduplicated Fulton County residents.
- Help residents realize their educational potential through our community services and library programs.
    - Percentage of high school students who graduate on time. Summit provides on-site mental health counseling at 28 Fulton County School through our Summit OnSite School-Based Program. Summit's efforts help ensure that more high school-age youth have improved emotional and behavioral health to graduate high school on time.

Nationally, only 40% of students with emotional, behavioral, and mental health disorders graduate from high school, compared to the national average of 76%; more than 50% of students with emotional and behavioral disabilities ages 14 and older, drop out of high school. This is the highest drop-out rate of any disability group. Early diagnosis and treatment of mental health disorders can dramatically improve the outcomes for youth. More than 40% of children aged 3 to 17 have trouble accessing the mental health treatment and counseling they need. When these issues are not confronted, vulnerable youth face plummeting grades, delayed graduation, risks with the juvenile justice system, and unhealthy relationships – all factors impeding a healthy transition to adulthood, often contributing to higher rates of poverty, unemployment, and greater use of health care systems. According to SAMHSA, "undiagnosed untreated, or undertreated co-occurring disorders can lead to a higher likelihood of experiencing homelessness, incarceration, medical illnesses, suicide, or even early death."

The Subsidized Mental Health Counseling Program will have a positive impact on Fulton County individuals in need of mental health services and on adults who participate in our community trainings and will address the following Fulton County "Health and Human Services" strategic objectives:

- Prevent illness by engaging in healthier behavior (The provision of mental health services reduces at-risk behavior among youth)
- Prevent health disparities by educating residents and connecting them to available resources (Summits' telehealth reduces transportation barriers. Our Signs of Suicide workshops help trusted adults connect at-risk youth with mental health services.)
- Support vulnerable residents in our social services (Free and subsidized mental health services ensure vulnerable individuals receive the mental health care they need.)

Champions Community Foundation chooses the following Key Performance Indicators under #4 "Support the vulnerable residents in our social services":

Number of residents who have access to home based and community based services for seniors and people with disabilities.

Through this grant funding, 12 physically disabled young adults residing in Fulton County will have access to community-based services through CCF's Titans Sports and Social programs. To overcome the isolation that often follows aging out of high school, CCF provides much needed programs such as wheelchair sports activities and a broad range of other social opportunities, including virtual programming. Sporting and social activities help build friendships, acceptance, and support within the community. On average, CCF hosts two sport scrimmage events per month at Mount Pisgah Christian School Gym, where Titans enjoy friendly athletic competition and healthy exercise through fun and exciting wheelchair sports games. On average, 45 Titans attend each scrimmage. Social events are also hosted every other month and include a variety of fun events like bowling, attending professional sporting events, seasonal parties, cookouts, and more. CCF has also recently launched a new virtual social program, "Champions Community Connect" (C3), which provides Titans the opportunity to be together even more frequently. Through this new program, CCF offers numerous weekly virtual events, such as movies, book club, trivia night, virtual games, as well as open time to connect socially with friends.

All registered Titans are invited to participate in all CCF programs at no cost to them. These community-based services help physically disabled young adults overcome the isolation that often follows aging out of high school; helping them build friendships, acceptance, and support within the community.

Number of people who receive permanent supportive housing and support services.

Recognizing the need for safe, accessible, and affordable living options for physically disabled young adults, CCF designed and built Champions Place, a shared independent-living residence located in Fulton County, Georgia for 14 young adults with physical disabilities such as cerebral palsy, spina bifida, muscular dystrophy, and physical injury. Currently, there are no other independent living residences for these young adults. Without the opportunity to live at Champions Place, residents report that they would likely be living with their parents, staying in a facility for people with intellectual disabilities, or having to move to a nursing home, which is sometimes the only option for disabled young adults. Like their non-disabled peers, these individuals deserve access to an affordable community where they can socially engage with their friends, families, and peers. Champions Place fills this gap in the existing lack of independent living residences suited to the needs of physically disabled young adults. While residing at Champions Place, the residents benefit from two full-time Brenau University Master of Occupational Therapy Students who live on-site and provide support and training for our residents, as they work to improve skills related to independent living, such as cooking, laundry, exercise, etc. Champions Place offers a viable and cutting-edge shared living alternative for our unique population to live independently and become self-sufficient in ways previously thought impossible. A portion of grant funding will support independent living for 14 physically disabled young adults who reside at Champions Place in Fulton County.

Number of seniors/disabled persons aging/staying in place as a result of home repairs

Assistive technology makes independent living possible, allowing disabled young adults to live healthy, productive, independent, and dignified lives. Leveraging what we have learned through automating the individual suites at Champions Place, CCF created "Champions Place@Home" which provides minor home modifications for Titans who reside at home with their parents. Often, these technologies are cost-prohibitive for families. Each Titan and his/her family receives a personalized assessment to determine which assistive technologies are best for them and their household and include options such as turning on/off lights and fans, controlling tv/streaming devices, choosing and listening to music/books, accessing weather/news, making video/voice calls, and more. Minor home modifications may also be made and can include automatic doors, voice activated blinds, voice-controlled home

thermostat, and Nest doorbells for improved security and vision to visitors.

With grant funding support, CCF will implement Champions Place@Home installations for 2 physically disabled young adults who reside in Fulton County. This program will provide improved independent functioning and well-being for these young adults, who through this effort will be able to perform daily tasks which were previously difficult or impossible for them to do on their own. Additionally, their need for supportive services or the work of caregivers will be reduced.

Champions Community Foundation chooses the following CSP funding priorities, as identified by the primary service category selected (Disabilities Service Category)

CSP Funding Priority #2. Social and cultural programs for persons with developmental disabilities to decrease isolation and promote social interaction and development of interpersonal and emotional skills. Programs which promote wellness for the special needs of Persons with Disabilities exclusive of their specific disability.

Our goal is to implement a broad range of athletic and social programs to engage a growing community of young adults with physical disabilities, known as the Titan Community (which currently has 105 members) and to build awareness, friendships, and community. Grant funding will support 22 social and/or social programs conducted by CCF in 2024. Champions Place is functioning as a social hub for the residents as well as the Titan community, with ample indoor and outdoor common areas for residents to enjoy with friends and family. Year-round activities offered at no charge to Titans include wheelchair sports and monthly social events. Our focus is the inclusion of the individual as well as their families and friends, into the community at large. Titans meet bi-weekly at Mount Pisgah Christian School Gym to enjoy friendly athletic competition and healthy exercise through fun and exciting wheelchair sports games. On average, 45 Titans attend each scrimmage. Titans and their families, friends, and caregivers also meet monthly to enjoy social opportunities, such as bowling, professional league games (Braves, UGA, etc.), seasonal parties, cookouts, and more. These community-based events help build long-lasting friendships and a support network. Many of the social activities are held at Champions Place, which in addition to a residence also functions as the “social hub” for the broader Titan community, with ample indoor and outdoor common areas for our unique population to safely spend time together as well as with family and friends. Champions Place also serves as a hub for volunteer engagement and community outreach opportunities, with Titans serving as community ambassadors, fostering understanding and education about physical disabilities, and building acceptance and support within the community. Champions Place gives community volunteers and organizations the opportunity to serve and interact with the Titans and the disability community.

CCF also offers a new “virtual community” through Champions Community Connect (C3), providing Titans the opportunity to be together even more frequently. Through this program, CCF offers numerous weekly virtual events, such as movies, book club, trivia night, virtual games, as well as open time to connect socially with friends.

CSP Funding Priority #3. Programs that promote educational (youth with disabilities) and/or vocational and Career Readiness skills (adults with disabilities); programs that support teaching work skills, interpersonal communication, customer relations skills, and opportunities which could lead to greater self-sufficiency. Job readiness/training and job opportunities for persons with disabilities.

Champions Place began construction in 2019 and opened in October 2020 (several months late due to COVID-19 delays). Champions Place was built with no debt incurred and recently completed its third year of operation. Champions Place is a “first of its kind” shared-living residence designed for young adults with physical disabilities, with the objective to provide them with the support they need and the freedom and opportunity they desire to lead independent and productive lives and experience life to its fullest. For the first time, our residents are living separately from their families in a place that meets their needs. This shared living concept offers a viable and leading-edge residential alternative for young adults with physical disabilities. At Champions Place, our focus is “ability not disability.”

Champions Place was designed to support the physical needs and requirements of its residents. Individual suites, customized to the abilities and needs of each resident, comprise each of the four quads. Each quad has its own common area, accessible kitchenette, and access to outdoor spaces. Four quads surround a main living room, a private dining room and a kitchen outfitted with

Docusign Envelope ID: 1B0D8BB3-0E03-468A-A06D-727AE14CA1D1

accessible appliances, providing room to prepare and share meals. Hydrotherapy treatment, necessary to prevent infections and pressure sores for those in wheelchairs, is provided through a large soaking tub. Google voice-recognition technology allows residents to control their environment and perform daily tasks, such as operating a TV/streaming shows, turning on/off lights and fans, opening/closing blinds, listening to music or audio books, calling friends and family, and more. Tommy Hilfiger provided and beta tested Tommy Adaptive clothing, enabling Titans to have independence while dressing and further increasing their self-reliance and self-esteem. In turn, CCF provided valuable feedback to the Tommy Adaptive team as part of their beta testing process. The Tommy Hilfiger team also donated furniture and bedding to Champions Place. This partnership has enriched the lives of Champions Place residents in many ways.

CCF also has a partnership with Brenau University's College of Occupational Therapy (Norcross location), where their master's level candidates provide day-to-date support for our residents through exercise, cooking classes, budgeting workshops, and social emotional skill development to help manage stress and frustrations. Two doctoral students live on site, providing additional support for our residents while gaining the clinical hours required for their degree. 14 physically disabled young adults will receive supportive services from CCF which enable them to live independently from their families with greater self-sufficiency.

CSP Funding Priority #5. Minor home modification projects, renovations, and/or repairs to increase accessibility for persons with disabilities

Assistive technology makes independent living possible, allowing disabled young adults to live healthy, productive, independent, and dignified lives. Google plays a critical role at Champions Place, reducing the need for support services or the work of caregivers. More importantly, through its usage we have seen residents become self-sufficient in ways previously thought impossible. CCF has created an innovative program called Champions Place@Home, with a goal to expand assistive technologies to our broader community of Titans who live at home with their parents, promoting their independence, decreasing their need for support, and allowing them to become self-reliant. Assistive Technologies will allow our Titans to perform daily tasks such as turning on/off lights and fans, opening/closing blinds, watching TV/streaming devices, calling friends and family, and more. Support from the Fulton County Consolidated Community Services Program will enable CCF to implement minor home modification projects for 2 Titans residing in Fulton County in 2024, at an estimated expense of $2,000 per household, which includes an assessment, needed equipment, and installation/training). Each Titan and his/her family will receive an assessment to determine which Assistive Technologies are best for them and their household.

Champions has built and maintained the following partnerships that support our mission:

1. National Charity League (NCL): Volunteer on an ongoing basis with the Titans sports leagues, socials and onsite as needed.
2. Young Men's Service League (YMSL): Volunteer on an ongoing basis with the Titans sports leagues, socials and onsite as needed.
3. Brenau University's College of Occupational Therapy: Masters and Doctoral students provide in residence and onsite services.
4. Men of Saint Brigid – Volunteer on an ongoing basis through activities such as driving vans, planning and implementing social events for Titans, and cooking meals at Champions Place.
5. The Kyle Pease Foundation: CCF collaborates with the Foundation on the Publix Marathon and promotion of people with disabilities in sports.
6. Google: Provides assistive technology products to enable residents and the Titan community to perform basic tasks on their own. They have also provided technology for Champions Place.
7. Tommy Hilfiger: Provides beta-test Tommy Adaptive clothing, offering these young adults more independence while dressing and further increasing their self-reliance and self-esteem.
8. Mt. Pisgah Church: Provides shared services at an affordable rate for CCF, including finance/accounting, database management, facilities support (use of the Gym for the Titans Wheelchair Sports programs, meeting rooms and

maintenance services), and video production support.

The following program measures/ Key Performance Indicators ("KPI's") will be utilized to track and report program outcomes for the Fulton County residents supported with CSP funding, during the funding period 01/01/2024 through 12/31/2024:

The main goal of CCF's Titans Program is to enable young adults with physical disabilities such as cerebral palsy, spina bifida, muscular dystrophy, and physical injury to reach their full potential as self-sufficient, productive, and fulfilled citizens in their local community. Our focus is the inclusion of the individual, as well as their family and friends, into the community at large.
Through CCF's array of programs and services, the Titans Program will attain the following Fulton County defined performance measurements under the Disability Service Category in 2024:

- Number of Persons with Disabilities (PWD) included in programs due to increased accessibility, physical environment, transportation, housing, alternative communications. 12 Persons with Disabilities will achieve this metric.
- Number of Persons with Disabilities who are self-sufficient or able to live independently because they can achieve the necessary training or education to be employed or, be able to achieve comparable salaries as those without disabilities. 14 Persons with Disabilities will achieve this metric.
- Number of Persons with Disabilities benefiting from minor home modification projects, renovations, and/or repairs to increase availability and accessibility. 2 Persons with Disabilities will achieve this metric.

CCF staff are outcome driven. Program success will be measured based upon results from Titan participation in our various programs and services, as they align directly with CCF's mission to significantly improve the lives of young adults with physical disabilities, enabling them to reach their full potential as self-sufficient, productive, and fulfilled citizens in their local community. CCF has a tracking system in place to monitor Titan attendance at social and sports programs, as well as a similar tracking system for volunteer hours. All measures and performance indicators are tracked and recorded within the organization's internal database by the Volunteer Coordinator, with oversight by the Executive Director.
Champions Community Foundation is a business-minded entity leveraging our unique knowledge base and passions to serve young adults with physical disabilities such as cerebral palsy, spina bifida, muscular dystrophy, and physical injury. The needs of this existing population are great. With each successive year, a new group of young adults with physical disabilities "ages out" of high school, finding themselves increasingly isolated at home, dependent upon aging parents for personal care and support. CCF's mission requires "heavy lifting", there are unique challenges associated with implementing programs and services for this community of disabled young adults. To overcome one of these unique challenges, CCF broadened its focus in 2014 by pursuing

Docusign Envelope ID: 1B0D8BB3-0E03-468A-A06D-727AE14CA1D1

the development of Champions Place, a uniquely designed, safe, accessible and affordable shared living community where these young adults would live independent and productive lives. After opening in October of 2020, 14 physically challenged young adults, who reside in Fulton County, now call Champions Place “home”.

Volunteer opportunities help change community perceptions of disabled persons, allowing for a better understanding of their unique abilities and of the special needs community. Through volunteering, community integration – the process of welcoming people with disabilities into our larger community – will take place; this process is essential in order for those with disabilities to fully participate in life at the same level as nondisabled individuals. To support community integration, CCF offers an array of volunteer opportunities including making or providing meals for the residents of Champions Place; driving the van to help get residents to their jobs, volunteer activities, or retail/grocery shopping; providing support at Titan social or athletic events; or hosting special events such as gardening, yoga, or ice cream socials for the Titans. CCF has set a goal of 1500 hours of community impact through our volunteer base in 2024.

Assistive technology makes independent living possible, allowing disabled young adults to live healthy, productive, independent, and dignified lives, whether as residents of Champions Place or for those residing at home with family members and/or caregivers. Google plays a critical role in both environments, reducing the need for support services or the work of caregivers. More importantly, through its usage we have seen Titans become self-sufficient in ways previously thought impossible. Assistive Technologies allows residents to perform daily tasks such as turning on/off lights and fans, opening/closing blinds, watching TV/streaming devices, calling friends and family, and more. CCF has set a goal to bring Assistive Technologies to 2 Titans residing at home with their families/caregivers in Fulton County in 2024, thus better enabling their independence and self-reliance.

For the Titans, Champions Place is a safe and accessible space where they can benefit from the latest adaptive technology, allowing them to be self-reliant and experience life to its fullest. Nationally there are no other facilities like Champions Place in existence at this time. However, demand is strong, and CCF receives inquiries every month from groups seeking to replicate our model. By utilizing shared community support services (funded through Medicaid), qualified residents have the ability to share the cost of personal staff. Combined with a reasonably priced rental unit, this approach provides young adults with physical disabilities a safe and cost effective alternative to living at home with their aging parents, enabling them to live productive and independent lives in their community. Capital and operating costs vary by facility and community. To keep monthly fees affordable and ensure sustainability, CCF’s fundraising strategy was to raise upfront 100% of capital required. This included generous cash and gifts of in-kind donations from foundations, corporations, and individuals; cash reserves for two years operating expense and maintenance; governance board to protect the mission and vision of Champions Place, as well as resident and family participation in fundraising efforts in order to maintain reasonable monthly rental costs. CCF will support independent living for 14 Titans at Champions Place in 2024, allowing for each to have greater independence and self-reliance.

On average, CCF provides Titans with access to two athletic scrimmages, one in-person social event, and multiple virtual social events monthly. Athletic events are held at Mount Pisgah Church and are friendly competitions of wheelchair sports programs, held bi-weekly. In addition, CCF hosts on average ten in-person social offerings for Titans annually, including activities such as bowling, professional league games (Braves, Falcons, etc.), seasonal parties, cookouts, and more. These gatherings of young adults and their families, friends, and caregivers help build long-lasting friendships and support. Champions Community Connect (C3) is our virtual community, providing Titans the opportunity to be together even more frequently. Through this program, CCF offers numerous virtual events, such as movies, book club, trivia night, virtual games, as well as open time to connect socially with friends. On average, five virtual events are hosted monthly. Combined, CCF will host a minimum of 22 opportunities for physically disabled young adults to attend a CCF program in 2024 (both in-person social and/or athletic programs and virtual programs).

Areas of evaluation for the Program include:

- Improved accessibility to participate in social and athletic programs for Titans through an array of monthly offerings.

Docusign Envelope ID: 1B0D8BB3-0E03-468A-A06D-727AE14CA1D1

- Promotion of independent living through Champions Place or Google Assistive Technology for Titans living at home with their families/caregivers.
- Improved connection to the community through volunteer opportunities, both internally with CCF and Champions Place as well as for Titans in the broader community at large, fostering understanding and education about people with disabilities.

E2L's FIFTEEN program ensures that program graduates achieve high school graduation, attend post-secondary school and graduate debt free, find a meaningful and successful career, and develop the life skills necessary to be leaders in their communities. Through a 3 year commitment, the FIFTEEN Program engages students in collaborative exercises to deliver a deep understanding of skills. E2L tailors it's services to meet the specific needs of the community using knowledge gained through years of experience and community analyses. E2L developed programming to address a gap in Atlanta public schools that hinders the academic achievement, cultivation of creativity, and life skill development of low-income students. E2L develops emerging leaders, entrepreneurs, and successful future professionals among high-risk students who may otherwise be stuck in the cycle of poverty, crime, and a lack of purpose.

Research shows that disconnected youth or Opportunity youth, youth who are not connected to school, community activities, or employment, are often difficult to re-engage; however, E2L works from a relational model in which trust and respect is built in order to obtain overall program outcomes. Strong programming, with the FIFTEEN Program, features robust links between education, training, and the 21st century job market; project-based and experiential learning; both hard and soft skill building; the use of youth development approaches; comprehensive support services; and support after programs end.

E2L has researched and developed a model-based curriculum, One Degree Curriculum, that engages and empowers these at-risk high school students through activities that encourage and foster creativity while providing these youth with the support and resources needed to strengthen and promote self-sufficiency. Research shows that positive role models play a vital role in influencing good choices, decreasing risky behaviors, and fortifying positive outcomes for at-risk youth. The FIFTEEN Program ensures that participants have mentors throughout their three-year involvement in the program. In certain components, E2L invites community leaders to speak to and engage with participants, inspires students to take leadership roles in community organizations, and organizes tours of local businesses to understand how they work. Through its model programming, E2L teaches its participants ingenuity, tenacity, public-speaking skills, personal responsibility, and many other skills needed to succeed as individuals, in school, at home, and throughout life.

Through this 3 year commitment, the FIFTEEN Program engages students in collaborative exercises to deliver a deep understanding of skills from the evidence-based One Degree Curriculum, which is built upon a foundation of solid educational research that embraces the fundamental principles of the National After-school Association. One Degree promotes Research-

Based Learning, Holistic Student Development, Learning Communities, and Experiential Learning. E2L curriculum topics include 1) leadership and life skills, 2) service learning, 3) life planning (career and college), 4) financial literacy, 5) conflict management, 6) character development, 7) self-help, and 8) personal discipline. Through this curriculum with a robust and solid mentoring component, E2L equips students to become leaders by teaching them social responsibility, self-awareness, servant-leadership, and life skills – disciplines that prepare them for critical 21st century educational attainment and career success.

Strong programming, such as the FIFTEEN program, feature strong links between education, training, and the job market; the use of youth development approaches; comprehensive support services; and support after programs end. Program activities include:

-Building leadership skills, communication skills, life skills, and teamwork

-Fostering leadership and teamwork through community service projects

-Opportunities to interact with influential community members, coaches, and communicators

-Field trips to cultural institutions in metro Atlanta

-College tours to area universities

-Post-Secondary School Education (college vs trade school vs military, college selection, application process, SAT/ACT test prep, cost of attendance, financial support, etc.)

-Career Planning (career choices, career aptitude testing, education requirements, etc.)

-Personal Finance (budgeting, bank accounts, types of debt, insurance, housing, and transportation costs, saving for the long term, etc.)

-Workforce readiness (resume writing, internships, interviewing skills, etc.)

-Creation of a life plan

-Attendance at the annual summer retreat/end of year trip

E2L's plan to implement the activities to achieve the objective and purpose includes working closely with counselors and teachers, who nominate sophomore students during the fall semester. E2L accepts applications and carefully choses new program participants through a three-stage interviews process. E2L's incoming sophomore class will include 30 new participants. The selection process focuses on students who are teetering on the edge of success and failure.

E2L's Executive Director will work closely with the Program Director and volunteers, who have committed to mentor the youth for 3 years. The Program Director will secure a space on the Georgia Tech campus to hold bi-weekly Saturday classes. The Executive Director will work with local community partners to arrange field trips to local businesses, community leaders who will lead sessions or give speeches. Program curriculum has been developed in semester blocks to be given bi-weekly by volunteer/mentor with the support of the Program Director. The Program Director will work with volunteer/mentor to conduct pre-survey, gather student records including report cards and behavior scores, school counselors, and interview the students and their families in order to develop an Individualized Plan, which are created with goals unique to each student. Plans are kept and reviewed by program staff and volunteers.

Fifteen Program objectives include:

- To reduce the number of student dropouts from high school by 100% amongst E2L program participants as measured by school attendance

- To increase the number of students in E2L programming that will go directly onto college (or other post-secondary program) to 90% of program participants as measured by acceptance into post-secondary program

- To increase at least 90% of students' GPA or improve their grades by 10% as measured by repost cards

- To increase demonstrated life and soft skills mastery in at least 3 new skills in 90% of students in E2L programing as evidenced by pre- and post-tests

Community Partners - range from the schools E2L partners with - 4 of them in Fulton County and 3 in Cobb - Maynard Jackson High School, South Atlanta High School, Frederick Douglass High School, and Banneker High School in Fulton County and Osborne High School, Campbell High School, and South Cobb High School in Cobb County. Georgia Tech and the Russell Innovation Center are also a critical partner as the host site for the bi-weekly sessions throughout the year. Earlier in 2023, E2L and Ser Familia (a community-based nonprofit serving Latino families and the unique situations they face) partnered to bring culturally proficient services to youth in the high schools in the Fair Oaks community footprint in Cobb County – one of the poorest and lowest-resourced areas in the area. This partnership is part of a long term, place-based effort (launched by Ser Familia and the Community Foundation for Greater Atlanta) to bring about community development and overall revitalization to this neighborhood. Other community partners include Project Hope, 100 Black Men, Ser Familia, Chick Fil A, and Boys and Girls

Clubs. E2L is also working to leverage its track record of student success, evidence-based approach, and community partnerships to engage the local foundation community to support the program's development and growth. A multitude of funders are both short term and long-term supporters of these initiatives.

Years of disinvestment, lack of educational attainment, and general fraying of Southwest Atlanta's social fabric have resulted in populations largely unable to prepare for the green economy opportunities now emerging. The Build-Up: Green Workforce Alliance aims to enhance the availability and quality of job training for individuals from Southwest Atlanta's disadvantaged communities to ensure they are equipped with the skills and knowledge required to thrive in the burgeoning green economy. This program aims to improve access to economic opportunities and provide job-readiness skills and vocational training to support gainful employment. Through the practicum, the program seeks to promote wider access to and adoption of clean energy technologies within the social and cultural institutions of these areas. By doing so, the project aims to elevate community awareness and enthusiasm for clean energy and reduce the environmental and energy burdens these communities encounter.

Build-Up's sector-specific curriculum and practicum provide education and experience in energy efficiency analysis and data collection as well as electric vehicle charger and solar panel installation consultation. These industries are witnessing substantial private capital investment in Georgia and are also prioritized for public infrastructure funding through the Bipartisan Infrastructure Bill and associated federal initiatives. Build-Up strives to ensure that the economic opportunities presented by this wave of federal and private investment are accessible to minority workers and spur economic growth in historically neglected communities. Build-Up intends to serve as a regional training hub, building an ever expanding base of minority energy assessors and entrepreneurs to meet the needs of a growing market for such job skills as the transition to a zero-carbon economy accelerates.

Build-Up's workforce development program is meticulously crafted to provide sector-specific technical training, practical hands-on experience, development of essential soft skills, and entrepreneurial and career counseling. Each prep-apprenticeship cohort, lasting 6 weeks, concludes with participants earning education and experience that will enable them to pursue employment or entrepreneurial aspirations in the clean energy sector. Gemini Energy Solutions, a Black-owned enterprise specializing in energy efficiency technology, has supplied technical training for Build-Up's three program trainers. By leveraging the technical training provided by Gemini Energy Solutions, STAND-UP has developed a curriculum and practicum that are engaging and accessible to participants of all educational backgrounds.

The curriculum for the workforce development program will emphasize three pivotal sectors of green technology: energy efficiency and auditing, solar energy, and electric vehicle (EV) charging. This specialized training will be augmented by practical, hands-on sessions led by union partners, which will introduce the trainees to traditional trades. This multifaceted approach ensures that participants are well-versed in both emerging green technologies and foundational trade skills, fostering a comprehensive learning environment that prepares them for a diverse range of opportunities in the green economy. The program also incorporates soft skills development, entrepreneurial and career counseling, and provides training and certifications in OSHA10, CPR, and First Aid. These additional layers are crucial in molding well-rounded individuals who can seamlessly integrate into the workforce, adapt to diverse work environments, and navigate their career paths with foresight and resilience.

Build-Up's prep-apprenticeship program emphasizes the significance of practical learning, offering trainees hands-on experiences in various green technology sectors. Initial training efforts are designed to help identify energy consumption patterns, sources of waste, and potential savings to building owners. Under the guidance of the Build-Up trainers, participants will gain hands-on experience conducting energy audits in African American churches in Fulton County. As the historic site of social organizing and community building within the African American community, Build-Up deliberately chose these churches as the practicum's training sites in order to posture these existing community

institutions as Clean Energy Hubs. Starting with high-visibility faith institutions in African American communities helps ensure that this historically underserved population will not be excluded from the transition to climate-resilient technologies. Leveraging the Clean Energy Hubs, STAND-UP aims to educate residents at high risk of PM2.5 and other environmental health factors and connect them to resources to mitigate this health disparity.

The Build-Up program aligns with three key Fulton County "Health and Human Services" Key Performance Indicators (KPIs), enhancing its impact on the community. Firstly, it contributes to the prevention of illness by promoting healthier behaviors through its focus on clean energy technologies. This initiative aims to reduce environmental health disparities, such as exposure to PM2.5, thereby fostering healthier outcomes in the community. Secondly, the program addresses the prevention of health disparities by educating residents about clean energy and providing hands-on experiences. This approach not only enhances awareness but also connects residents to resources that can mitigate health disparities associated with environmental factors. Lastly, by aiming to reduce unemployment and provide resources to vulnerable populations, the program supports efforts to reduce homelessness.

The success of the program hinges on robust workforce outreach to ensure maximum participation from the target audience. Georgia STAND-UP will leverage its existing community base built through two decades of place-based advocacy and organizing to reach prospective participants. This includes hosting outreach events and collaborations with community institutions, such as churches or at Metro-Atlanta Rapid Transit Authority (MARTA) stations, to amplify the program and serve as recruitment sites. Additionally, STAND-UP will draw prospective trainee referrals from its well-established network of faith-based organizations, social service agencies and community-based providers such as legal aid and housing assistance, food pantries, and feeding centers.

STAND-UP's twenty-year history of community organizing and coalition building well-positions the project in terms of community and stakeholder engagement and partnership formation. STAND-UP maintains deep-rooted partnerships across Atlanta’s southside, including the Atlanta University Center, a renowned consortium of five historically Black colleges and universities, influential faith-based institutions, and strategic alignments with the Atlanta and Fulton County governments. Tapping into their enduring partnerships with the Atlanta North-Georgia Labor Council and the Georgia AFL-CIO, STAND-UP will address challenges and pave pathways for sustainable employment, while also crafting avenues for Build-Up graduates to transition into trade apprenticeships.

County Defined Performance Measure(s):

Children and Youth: Not Applicable

Disabilities: Not Applicable

Economic Stability: Number of individuals placed in Living Wage Employment; receiving training/job development/employment support...,Number of individuals receiving Emergency Financial Assistance,Number of individuals with improved access to economic opportunities, programs/resources focused on education...

Health and Wellness: Not Applicable

The following program measures/ Key Performance Indicators ("KPI's") will be utilized to track and report program outcomes for the Fulton County residents supported with CSP funding, during the funding period 01/01/2024 through 12/31/2024:

The Build-Up program has established a set of performance measures and Key Performance Indicators (KPIs) to effectively track and report program outcomes. These measures are aligned with the county-defined performance measures for this RFP and are designed to ensure the program's accountability and success in achieving its objectives.

- Number of Individuals Connected to Emergency Financial Assistance: The program aims to connect over 25 individuals annually with financial support resources, such as utility bill assistance or emergency housing support. This KPI tracks the effectiveness of the program in providing access to these critical resources. Progress will be monitored through monthly reports, and data will be tracked using a dedicated database that records all referrals and connections made to financial assistance providers.
- Number of Individuals Placed in Living Wage Employment: The program focuses on training and job development to lead participants toward self-sufficiency. The goal is to place at least 20 individuals in

DocuSign Envelope ID: 2805AF12-25FE-4BD9-9DB9-9A33CB31435B

living wage employment each year. Major milestones include completion of training programs, certification, and successful job placements. Data collection will be facilitated through partnerships with local employers, tracking employment outcomes and wages through follow-up surveys and employment verification forms.

- Number of Individuals with Improved Access to Economic Opportunities: This measure assesses the program's success in providing participants with access to educational programs, career exploration, and job-readiness skills. The target is to improve access for at least 40 individuals annually. Progress will be measured through pre- and post-program assessments, tracking improvements in skills, knowledge, and access to resources. Data will be collected using participant surveys and feedback forms, as well as tracking enrollment and completion rates in educational and training programs.

Agency Defined Performance Measure(s):

With over 70% of the 54 disadvantaged census tracts in Southwest Atlanta identified as experiencing a systemic workforce development burden, a key goal of the program is to ensure a high job placement rate for graduates. To achieve this, STAND-UP and Trade-Up plan to use their networks to create partnerships with energy assessment firms to provide a direct employment pipeline. Progress will be tracked by the number of graduates securing stable, unionized positions in the green energy sector, focusing on placement rates, employment timelines, and the quality of wages and benefits, with the aim of surpassing the region's median household income. Additionally, the program will track the number of graduates who advance within their careers, including those who move into supervisory or leadership roles within the green energy sector.

The project is also committed to reducing the energy costs of the African American churches that participate as practicum sites by 20%. This initiative will not only improve energy efficiency and reduce carbon footprints but also free up resources for community investment. While the audits will take place during the practicum phase at these community institutions, the broader community is expected to benefit, with churches serving as Clean Energy Hubs to engage community members about the benefits of clean energy. By sparking enthusiasm for clean energy and referring Build-Up graduates to community members to conduct residential energy assessments, the initiative facilitates a ripple effect, enhancing energy efficiency and cost savings across individual households.

ADDITIONAL INSURED PRIMARY AND NON-CONTRIBUTORY ENDORSEMENT FOR PUBLIC ENTITIES

This endorsement modifies insurance provided under the following:

COMMERCIAL GENERAL LIABILITY COVERAGE PART

SCHEDULE

Name of Person or Organization:

A. Section II – WHO IS AN INSURED is amended to include:

4. Any public entity as an additional insured, and the officers, officials, employees, agents and/or volunteers of that public entity, as applicable, who may be named in the Schedule above, when you have agreed in a written contract or written agreement presently in effect or becoming effective during the term of this policy, that such public entity and/or its officers, officials, employees, agents and/or volunteers be added as an additional insured(s) on your policy, but only with respect to liability for "bodily injury", "property damage" or "personal and advertising injury" caused, in whole or in part, by:

a. Your negligent acts or omissions; or
b. The negligent acts or omissions of those acting on your behalf;

in the performance of your ongoing operations.

No such public entity or individual is an additional insured for liability arising out of the sole negligence by that public entity or its designated individuals. The additional insured status will not be afforded with respect to liability arising out of or related to your activities as a real estate manager for that person or organization.

B. Section III – LIMITS OF INSURANCE is amended to include:

8. The limits of insurance applicable to the public entity and applicable individuals identified as an additional insured(s) pursuant to Provision A.4. above, are those specified in the written contract between you and that public entity, or the limits available under this policy, whichever are less. These limits are part of and not in addition to the limits of insurance under this policy.

C. With respect to the insurance provided to the additional insured(s), **Condition 4. Other Insurance of SECTION IV – COMMERCIAL GENERAL LIABILITY CONDITIONS** is replaced by the following:

4. Other Insurance

a. Primary Insurance

This insurance is primary if you have agreed in a written contract or written agreement:

(1) That this insurance be primary. If other insurance is also primary, we will share with all that other insurance as described in **c.** below; or

DocuSign Envelope ID: 2805AF12-25FE-4BD9-9DB9-9A33CB31435B

(2) The coverage afforded by this insurance is primary and non-contributory with the additional insured(s)' own insurance.

Paragraphs (1) and (2) do not apply to other insurance to which the additional insured(s) has been added as an additional insured or to other insurance described in paragraph **b.** below.

b. Excess Insurance

This insurance is excess over:

1. Any of the other insurance, whether primary, excess, contingent or on any other basis:
   (a) That is Fire, Extended Coverage, Builder's Risk, Installation Risk or similar coverage for "your work";
   (b) That is fire, lightning, or explosion insurance for premises rented to you or temporarily occupied by you with permission of the owner;
   (c) That is insurance purchased by you to cover your liability as a tenant for "property damage" to premises temporarily occupied by you with permission of the owner; or
   (d) If the loss arises out of the maintenance or use of aircraft, "autos" or watercraft to the extent not subject to Exclusion **g.** of **SECTION I – COVERAGE A – BODILY INJURY AND PROPERTY DAMAGE**.
   (e) Any other insurance available to an additional insured(s) under this Endorsement covering liability for damages which are subject to this endorsement and for which the additional insured(s) has been added as an additional insured by that other insurance.

(1) When this insurance is excess, we will have no duty under Coverages **A** or **B** to defend the additional insured(s) against any "suit" if any other insurer has a duty to defend the additional insured(s) against that "suit". If no other insurer defends, we will undertake to do so, but we will be entitled to the additional insured(s)' rights against all those other insurers.

(2) When this insurance is excess over other insurance, we will pay only our share of the amount of the loss, if any, that exceeds the sum of:
   (a) The total amount that all such other insurance would pay for the loss in the absence of this insurance; and
   (b) The total of all deductible and self-insured amounts under all that other insurance.

(3) We will share the remaining loss, if any, with any other insurance that is not described in this **Excess Insurance** provision and was not bought specifically to apply in excess of the Limits of Insurance shown in the Declarations of this Coverage Part.

c. Methods of Sharing

If all of the other insurance available to the additional insured(s) permits contribution by equal shares, we will follow this method also. Under this approach each insurer contributes equal amounts until it has paid its applicable limit of insurance or none of the loss remains, whichever comes first.

If any other the other insurance available to the additional insured(s) does not permit contribution by equal shares, we will contribute by limits. Under this method, each insurer's share is based on the ratio of its applicable limit of insurance to the total applicable limits of insurance of all insurers.

Innovative Solutions for Disadvantage and Disability, Inc., 2024 Project GRANDD (Grandparents Raising And Nurturing Dependents with Disabilities) Comprehensive Kinship Family Services will provide services to **50** clients that reside in Fulton County, with CCSP funding.

Innovative Solutions for Disadvantage and Disability, Inc., will provide the following activities and services in Fulton County with CCSP funding:

1. Specific Activities and Services Supporting Senior Services Funding Priorities

Project GRANDD provides a critical gap service for kinship families in Fulton County that include children with disabilities and aligns with Fulton County Strategic Priorities. Parenting these children can be demonstrably more stressful for seniors. Our service plan is designed to build the capacity of seniors to successfully raise relative children (particularly those with special needs), ensure that grandparents remain healthy, have access to adequate food and other resources, and can remain independent in the community and age in place. The specific services and activities provided are:

DocuSign Envelope ID: 0F72F692-2A0C-455B-BB96-D16C17A17407

· Collaboratively created care plans to guide service delivery

· Case Management (service coordination, information & referral and advocacy) to accomplish care plan goals

· Monthly Support Groups for adults, children and teens in virtual and in-person formats

· Parenting classes using three evaluated curriculum – Parenting As Second Time Around, 123 Magic and ACT: Raising Safe Kids

· In-home tutoring

· Respite Care

· Guardianship Legal Services

· Special Education Advocacy- assistance with IEPS (Individual Education Plans) and 504 plans.

· Material Assistance (food, clothing, school supplies, beds, bedding, utility & rent payments, etc.)

· Family Outings (organized group visits to cultural and entertainment venues)

· Newsletters and Resource Emails

· Outreach Activities

· Data Collection and Management

· Program Evaluation and Reporting

2. How activities and services are accomplished

Kinship caregivers are referred to our program by other agencies or by self-referred. Initial intake is conducted by the program director within 3 business days using the GA Division of Aging Services' Kinship Program Intake Form. The program director enters demographic and other information into our client relationship management (CRM) system (Apricot 360). The family is added to our newsletter and email blast lists, and invited to participate in support groups and parenting classes. Referrals for immediate needs are provided where possible and the family is placed on the wait list until there is an opening on our case load and a case manager can be assigned. New participants are provided with a welcome packet with

DocuSign Envelope ID: 0F72F692-2A0C-455B-BB96-D16C17A17407

program information including what to expect and the grievance process should they be unhappy with the services.

Case managers schedule a home visit within one week of a family's addition to their case load. Clients complete liability release forms and the case manager reviews the welcome packet so that clients understand all of the services available. The NCFAS-G assessment tool is delivered during the visit utilizing motivational interviewing techniques. Using the information collected, the case manager collaboratively creates a care plan for the family which identifies the measurable goals that the caregiver wishes to accomplish. Goals may be health related, financial, educational, emotional, social, legal (custody issues), etc. depending on the needs of the senior and the child. For example, a goal could be to obtain formal guardianship so that the caregiver can access additional SNAP benefits to feed the children in their care or to reduce stress through support group attendance. Case managers make necessary referrals or provide information caregivers need to address their goals. Follow up, in-person or by phone, on the status of care plan goals occurs weekly or monthly depending on the need. Reassessments take place annually to assess progress and the necessity to remain in the program.

Support groups, facilitated by case managers and the program director and organized by the program manager, are offered monthly in-person for adults, children and teens with child care for those under the age of 8. A separate virtual group is also offered for adults to eliminate transportation barriers). The executive director and program manager provide childcare. Educational programming is also provided at support groups, utilizing guest speakers to present information about kinship care legal issues, mental health care, self-care, special education law and other topics of interest. Refreshments, light dinners (for evening meetings) and $5.00 travel stipends are provided to facilitate attendance.

Parenting classes are offered in group and individual in-home formats by case managers who have been trained in the curriculums. Participants receive manuals and handouts and pre and post testing include with the curriculum is delivered to evaluate change in knowledge. Refreshments and $5.00 travel stipends are offered to facilitate attendance. Participants receive certificates of completion and can receive grocery store gift card incentives.

In-home tutoring is provided to children who have demonstrated that they are not performing at grade level, particularly in reading and math. In-home Tutors – Atlanta provides qualified staff for this service. Case managers document the need for the service and monitor the provision with caregivers. The program director provides supervision of the provider and conducts quality assurance activities.

DocuSign Envelope ID: 0F72F692-2A0C-455B-BB96-D16C17A17407

Respite care is provided to caregivers of children with disabilities who indicate that they are unable to get relief from their caregiver role. This service is provided by Your Respite Care qualified caregivers, who specialize in providing care for children with disabilities. Case managers document the need for the service and monitor the provision with caregivers. The program director provides supervision of the provider and conducts quality assurance activities.

The need for guardianship assistance services is identified as a result of the client intake or by the caregiver. Legal guardianship ensures that caregivers can make educational and medical decisions for the children in their care. It also impacts the ability to access benefits for the care of the child and helps to protect the rights and interests of both the child and the caregiver. Case managers work with the client to obtain guardianship. Some of these cases are handled by our MOU with Atlanta Legal Aid Society, in cases where this is not possible, ISDD has some funding to pay for legal services. The program director works with legal services attorneys and supervises this service.

Material Assistance is provided to families with incomes of 200% of poverty or less and who document an unexpected or urgent need and for whom there are no other available resources. Clients must complete and submit an application for assistance along with the required documentation to their case manager who reviews the application with the program director for approval consideration. Applications that meet standards for assistance are referred to the executive director who determines if funding is available and approves the payment or provision of requested assistance.

Family outings are organized at least once a year (depending on available funding) so that kinship caregivers have an opportunity to bond with the children in their care and make fun memories together as a family. Outings are organized by the program manager with input from the caregivers, case managers, and program and executive directors. The outing is publicized through the newsletter and email communications and by the case managers to their clients. Case managers and volunteers staff the events as needed with support from the program manager and program and executive directors.

Newsletters and resource emails are created by the program manager with supervision by the program and executive directors. Newsletters are delivered by mail and electronically according to client preference. These communications relay important information for kinship caregivers about ISDD programming and other topics of interest.

DocuSign Envelope ID: 0F72F692-2A0C-455B-BB96-D16C17A17407

Outreach activities include tabling at community events and resource fairs as well as individual speaking engagements. These activities inform the community about our services and are conducted by case managers and the program and executive directors.

Data collection and management is a critical program activity. Data is collected using intake forms, assessments, survey tools, pre- post tests, one-on-one interviews and focus groups. Data entry is conducted by case managers, the program director and program manager. The program manager is responsible for managing the data in our Client Relationship Management system (Apricot 360). The program manager also creates and runs reports for program evaluation and reporting purposes.

Program evaluation and reporting is a critical activity for both ISDD staff and our funders. We use the information we gather to identify needed services and make decisions about service improvements. Clients, case managers, program manager and program and executive directors all play important roles in gathering data, entering it into our CRM and analyzing it.

Community Collaborations

ISDD maintains numerous collaborative relationships to assist us with delivering services to kinship/grandparents raising relative children with special needs. A few of these are:

DocuSign Envelope ID: 0F72F692-2A0C-455B-BB96-D16C17A17407

Evaluation tools: case management notes, NCFAS- G and the Kinship Care Participant Survey.

3. 80% seniors report improved relationships with the children they are raising.

Grandparents who feel that they have strong relationships with the children they're raising are more likely to continue to provide care for them.

Methods: parenting education, peer support groups, newsletters and case management.

Evaluation tools: parenting education pre- and post test results, post group Likert surveys, case management notes, Kinship Care Participant Survey.

NOTE due to character limitations: see County Defined Performance Measure Section for program milestones and supporting schedule, which applies to ALL performance measures.

3. Data collection tool(s)/ source(s) used

Client data is collected using intake and care plan forms. We use NCFAS- G assessment tool and surveys to gather additional data which helps us to determine Project GRANDD's impact on grandfamilies and the performance measures concerning our kinship services. This includes:

NCFAS-G - North Carolina Family Assessment Scale – General is a validated assessment tool designed to evaluate the strengths and needs of families. The scale assess family functioning, identifies areas for intervention, and guides decision-making processes. It provides a structured framework for case managers to evaluate various aspects of a family's life and functioning.

The **Kinship Care Participant Survey** is administered twice a year to Project GRANDD participants and includes questions regarding the services and resources the participant may have used and their satisfaction with those services. Other questions using a Likert scale are used to measure attitudes, preferences and subjective reactions relating to various kinship issues. This includes whether the grandparents feel able to continue to care for the children in their care, can handle problems as they arise, feel confident in their ability to help their grandchild grow and develop, etc. The survey also includes questions concerning how

DocuSign Envelope ID: 0F72F692-2A0C-455B-BB96-D16C17A17407

stressed the caregiver feels, if their health and sense of well-being have improved and if they feel better able to cope with caring for their grandchildren.

The **Case Management Services Satisfaction Survey** is provided to clients who receive this service annually in July and **Program Exit Surveys** are provided to clients who no longer require our services to determine their level of satisfaction and collect feedback that can help us improve our programming. We use Likert Scale **Post Event Surveys** after every support group for adults, children and teens and at the conclusion of Family Fun Day Outings to find out if participants found the events reduced their stress, taught them something new or if they have suggestions to improve our programming.

We use **parenting curriculum pre- and post-testing** provided by the publisher to evaluate change in knowledge as well as client satisfaction with the service.

Case Notes, goal tracking and service participation entered into each client's record in our CRM, Apricot 360, is another source of information used in our performance measurement process. Through Apricot's outcome reporting we can track a client's progress in Project GRANDD.

All the data we collect is entered into **Apricot 360,** a secure cloud platform for client relationship management (CRM), case management service coordination and tracking, outcome measurement and program evaluation. ISDD made this investment in order to rigorously evaluate the effectiveness of Project GRANDD. Apricot Core allows us to efficiently collect, manage and analyze data related to Project GRANDD goals and objectives. We are able to create customized forms and surveys to collect this information and use robust reporting and visualization tools to help interpret the data. Using this planform, we are able to track progress over time and make informed decisions about our services, leading to improved outcomes and greater impact. We are one of the very few kinship services programs in the state as well as the nation that is using this technology.

Approach and Design:

Innovative Solutions for Disadvantage and Disability, Inc., 2024 Project GRANDD (Grandparents Raising And Nurturing Dependents with Disabilities) Comprehensive Kinship Family Services will provide services to **50** clients that reside in Fulton County, with CCSP funding.

Innovative Solutions for Disadvantage and Disability, Inc., will provide the following activities and services in Fulton County with CCSP funding:

1. Specific Activities and Services Supporting Senior Services Funding Priorities

Project GRANDD provides a critical gap service for kinship families in Fulton County that include children with disabilities and aligns with Fulton County Strategic Priorities. Parenting these children can be demonstrably more stressful for seniors. Our service plan is designed to build the capacity of seniors to successfully raise relative children (particularly those with special needs), ensure that grandparents remain healthy, have access to adequate food and other resources, and can remain independent in the community and age in place. The specific services and activities provided are:

DocuSign Envelope ID: 0F72F692-2A0C-455B-BB96-D16C17A17407

· Collaboratively created care plans to guide service delivery

· Case Management (service coordination, information & referral and advocacy) to accomplish care plan goals

· Monthly Support Groups for adults, children and teens in virtual and in-person formats

· Parenting classes using three evaluated curriculum – Parenting As Second Time Around, 123 Magic and ACT: Raising Safe Kids

· In-home tutoring

· Respite Care

· Guardianship Legal Services

· Special Education Advocacy- assistance with IEPS (Individual Education Plans) and 504 plans.

· Material Assistance (food, clothing, school supplies, beds, bedding, utility & rent payments, etc.)

· Family Outings (organized group visits to cultural and entertainment venues)

· Newsletters and Resource Emails

· Outreach Activities

· Data Collection and Management

· Program Evaluation and Reporting

2. How activities and services are accomplished

Kinship caregivers are referred to our program by other agencies or by self-referred. Initial intake is conducted by the program director within 3 business days using the GA Division of Aging Services' Kinship Program Intake Form. The program director enters demographic and other information into our client relationship management (CRM) system (Apricot 360). The family is added to our newsletter and email blast lists, and invited to participate in support groups and parenting classes. Referrals for immediate needs are provided where possible and the family is placed on the wait list until there is an opening on our case load and a case manager can be assigned. New participants are provided with a welcome packet with

DocuSign Envelope ID: 0F72F692-2A0C-455B-BB96-D16C17A17407

program information including what to expect and the grievance process should they be unhappy with the services.

Case managers schedule a home visit within one week of a family's addition to their case load. Clients complete liability release forms and the case manager reviews the welcome packet so that clients understand all of the services available. The NCFAS-G assessment tool is delivered during the visit utilizing motivational interviewing techniques. Using the information collected, the case manager collaboratively creates a care plan for the family which identifies the measurable goals that the caregiver wishes to accomplish. Goals may be health related, financial, educational, emotional, social, legal (custody issues), etc. depending on the needs of the senior and the child. For example, a goal could be to obtain formal guardianship so that the caregiver can access additional SNAP benefits to feed the children in their care or to reduce stress through support group attendance. Case managers make necessary referrals or provide information caregivers need to address their goals. Follow up, in-person or by phone, on the status of care plan goals occurs weekly or monthly depending on the need. Reassessments take place annually to assess progress and the necessity to remain in the program.

Support groups, facilitated by case managers and the program director and organized by the program manager, are offered monthly in-person for adults, children and teens with child care for those under the age of 8. A separate virtual group is also offered for adults to eliminate transportation barriers). The executive director and program manager provide childcare. Educational programming is also provided at support groups, utilizing guest speakers to present information about kinship care legal issues, mental health care, self-care, special education law and other topics of interest. Refreshments, light dinners (for evening meetings) and $5.00 travel stipends are provided to facilitate attendance.

Parenting classes are offered in group and individual in-home formats by case managers who have been trained in the curriculums. Participants receive manuals and handouts and pre and post testing include with the curriculum is delivered to evaluate change in knowledge. Refreshments and $5.00 travel stipends are offered to facilitate attendance. Participants receive certificates of completion and can receive grocery store gift card incentives.

In-home tutoring is provided to children who have demonstrated that they are not performing at grade level, particularly in reading and math. In-home Tutors – Atlanta provides qualified staff for this service. Case managers document the need for the service and monitor the provision with caregivers. The program director provides supervision of the provider and conducts quality assurance activities.

DocuSign Envelope ID: 0F72F692-2A0C-455B-BB96-D16C17A17407

Respite care is provided to caregivers of children with disabilities who indicate that they are unable to get relief from their caregiver role. This service is provided by Your Respite Care qualified caregivers, who specialize in providing care for children with disabilities. Case managers document the need for the service and monitor the provision with caregivers. The program director provides supervision of the provider and conducts quality assurance activities.

The need for guardianship assistance services is identified as a result of the client intake or by the caregiver. Legal guardianship ensures that caregivers can make educational and medical decisions for the children in their care. It also impacts the ability to access benefits for the care of the child and helps to protect the rights and interests of both the child and the caregiver. Case managers work with the client to obtain guardianship. Some of these cases are handled by our MOU with Atlanta Legal Aid Society, in cases where this is not possible, ISDD has some funding to pay for legal services. The program director works with legal services attorneys and supervises this service.

Material Assistance is provided to families with incomes of 200% of poverty or less and who document an unexpected or urgent need and for whom there are no other available resources. Clients must complete and submit an application for assistance along with the required documentation to their case manager who reviews the application with the program director for approval consideration. Applications that meet standards for assistance are referred to the executive director who determines if funding is available and approves the payment or provision of requested assistance.

Family outings are organized at least once a year (depending on available funding) so that kinship caregivers have an opportunity to bond with the children in their care and make fun memories together as a family. Outings are organized by the program manager with input from the caregivers, case managers, and program and executive directors. The outing is publicized through the newsletter and email communications and by the case managers to their clients. Case managers and volunteers staff the events as needed with support from the program manager and program and executive directors.

Newsletters and resource emails are created by the program manager with supervision by the program and executive directors. Newsletters are delivered by mail and electronically according to client preference. These communications relay important information for kinship caregivers about ISDD programming and other topics of interest.

DocuSign Envelope ID: 0F72F692-2A0C-455B-BB96-D16C17A17407

Outreach activities include tabling at community events and resource fairs as well as individual speaking engagements. These activities inform the community about our services and are conducted by case managers and the program and executive directors.

Data collection and management is a critical program activity. Data is collected using intake forms, assessments, survey tools, pre- post tests, one-on-one interviews and focus groups. Data entry is conducted by case managers, the program director and program manager. The program manager is responsible for managing the data in our Client Relationship Management system (Apricot 360). The program manager also creates and runs reports for program evaluation and reporting purposes.

Program evaluation and reporting is a critical activity for both ISDD staff and our funders. We use the information we gather to identify needed services and make decisions about service improvements. Clients, case managers, program manager and program and executive directors all play important roles in gathering data, entering it into our CRM and analyzing it.

DocuSign Envelope ID: 0F72F692-2A0C-455B-BB96-D16C17A17407

Evaluation tools: case management notes, NCFAS- G and the Kinship Care Participant Survey.

Grandparents who feel that they have strong relationships with the children they're raising are more likely to continue to provide care for them.

NOTE due to character limitations: see County Defined Performance Measure Section for program milestones and supporting schedule, which applies to ALL performance measures.

3. Data collection tool(s)/ source(s) used

Client data is collected using intake and care plan forms. We use NCFAS- G assessment tool and surveys to gather additional data which helps us to determine Project GRANDD's impact on grandfamilies and the performance measures concerning our kinship services. This includes:

NCFAS-G - North Carolina Family Assessment Scale – General is a validated assessment tool designed to evaluate the strengths and needs of families. The scale assess family functioning, identifies areas for intervention, and guides decision-making processes. It provides a structured framework for case managers to evaluate various aspects of a family's life and functioning.

The **Kinship Care Participant Survey** is administered twice a year to Project GRANDD participants and includes questions regarding the services and resources the participant may have used and their satisfaction with those services. Other questions using a Likert scale are used to measure attitudes, preferences and subjective reactions relating to various kinship issues. This includes whether the grandparents feel able to continue to care for the children in their care, can handle problems as they arise, feel confident in their ability to help their grandchild grow and develop, etc. The survey also includes questions concerning how

DocuSign Envelope ID: 0F72F692-2A0C-455B-BB96-D16C17A17407

stressed the caregiver feels, if their health and sense of well-being have improved and if they feel better able to cope with caring for their grandchildren.

The **Case Management Services Satisfaction Survey** is provided to clients who receive this service annually in July and **Program Exit Surveys** are provided to clients who no longer require our services to determine their level of satisfaction and collect feedback that can help us improve our programming. We use Likert Scale **Post Event Surveys** after every support group for adults, children and teens and at the conclusion of Family Fun Day Outings to find out if participants found the events reduced their stress, taught them something new or if they have suggestions to improve our programming.

We use **parenting curriculum pre- and post-testing** provided by the publisher to evaluate change in knowledge as well as client satisfaction with the service.

Case Notes, goal tracking and service participation entered into each client's record in our CRM, Apricot 360, is another source of information used in our performance measurement process. Through Apricot's outcome reporting we can track a client's progress in Project GRANDD.

All the data we collect is entered into **Apricot 360,** a secure cloud platform for client relationship management (CRM), case management service coordination and tracking, outcome measurement and program evaluation. ISDD made this investment in order to rigorously evaluate the effectiveness of Project GRANDD. Apricot Core allows us to efficiently collect, manage and analyze data related to Project GRANDD goals and objectives. We are able to create customized forms and surveys to collect this information and use robust reporting and visualization tools to help interpret the data. Using this planform, we are able to track progress over time and make informed decisions about our services, leading to improved outcomes and greater impact. We are one of the very few kinship services programs in the state as well as the nation that is using this technology.

Health & Human Services Key Performance Indicators

1. Percentage of sixth through eighth graders who meet target reading levels

2. Percentage of third through fifth graders who meet target reading levels

3. Percentage of students over achieving each year

Through afterschool and summer camp programming, we aim to serve 70 Fulton County youth in 2024. The majority of these youth will be elementary aged students from Atlanta Public Schools within Fulton County (Benteen Elementary and Parkside Elementary primarily). Some will be middle school aged students from Atlanta Public Schools within Fulton County (King MS and Howard MS primarily). For our youth within this cohort that are in grades 6-8 or grades 3-5, we will seek to obtain Milestones and MAP (reading) scores to compare to their subgroups within their schools (as this is the best baseline for comparison). We will then chart improvement over time based on subsequent data. During daily afterschool programming, we hold 60 minutes of learning acceleration/homework help time aside in addition to our STEAM-based programming. Additionally, we intend to foster an increased love of learning in 2024 through creation of an EAKC library in partnership with a community Eagle Scout and local businesses such as Bookish Atlanta and an incentive program that rewards program youth by empowering them to select books from this library. During summer programming, we will partner with Literacy education program, Leap Year, to hold daily reading sessions with program youth at the elementary level as well, tapping Leap Year fellows as our summer camp counselors and utilizing their literacy education training. While all of these interventions are fully within our control, data sharing agreements with APS schools and the willingness of parents to share Milestones and MAP scores inform our ability to measure literacy outcomes well. We will endeavor to collect 85+% of relevant scores from youth in grades 3-5 and 6-8 to report throughout the grant period.

CSP Funding Priorities

1. In school/ Afterschool/ Out of School Programs to help bring up academic and social/behavioral levels of school-aged youth (afterschool programming, enrichment programs, tutoring, mentoring, summer camps, camps during school breaks) Our after school program for elementary school students offers academic tutoring and enrichment activities with a focus on improving reading and writing competencies and engaging the youth in a rich array of STEAM (Science, Technology, Engineering, Arts and Math)-oriented programming. Students are engaged in numerous hands-on projects that increase their competencies in reading, writing, oral expression, math and computer skills. Youth also participate in visual and performing arts, fitness activities, as well as healthy eating classes, anti-bullying and character development activities, including quarterly community service projects. In the summer, we work with professional educators to deliver a science and technology-themed summer camp. The curriculum includes computer science, robotics, music production, chemistry, physiology and life science activities, as well as dance, tennis, cycling, visual art and literacy-building activities. Our partnerships have included long-standing after school partnerships with partners such as 8 Legged Scales, Arts Education Integration Agency, Black Kid Art, and Emory SciCovery. We mainatin a literacy focused and near peer mentorship partnership with Leap Year and SEL and wellness programming with Atlanta Youth Rugby and Girls on the Run. Additionally, we have engaged the FoodWell Alliance for support with our community gardening efforts and have worked with Georgia State University and AUC staff and students to provide ongoing tutoring and mentorship for our kids & teens. In 2024, we launched a film camp partnership with AppleBox Productions, Drama Inc, Magnolia Arthouse, the Plaza Theatre, Central Atlanta Props & Sets, Neil Dorman Camera, and Cinder Lighting and Grip. Finally, we will lead an in-house podcast unit for teens in summer camp to help them share their voice and learn valuable skills in Our

Teen Club for middle and high school students currently offers a curriculum focused on college and career readiness, entrepreneurialism, service based learning, and leadership development. Teen Club participants engage in educational and career goal-setting activities, and are supported to seek out hands-on experiences with local employers and educational institutions, including workplace tours, job shadowing experiences, and internships. The club takes Teen Club members on at least 2 college/vocational school campus tours per year and helps to facilitate other campus visits and career exploration experiences for our students. At our program site they learn job and life skills as well as career-specific skills according to their interests; in the past two years, those have included coding, carpentry, culinary arts, engineering, graphic design and audio/video production. Recent student-led service projects have centered on the homeless and hungry, senior citizens, the inhumane treatment of animals, and domestic/dating violence. In particular, our youth have engaged in career exploration with Emory University Alumni through Emory Cares.

2. Ensure Safety and Justice by providing alternatives to activities and contributing factors that lead to unhealthy behaviors in children and youth: (Truancy; Gangs; Student mobility and homelessness; Sexual activity; Vaping; Drug and alcohol abuse; Eating disorders; Cyberbullying and bullying; Juvenile Crimes; Violence in media and culture; Internet and social media addiction). This is primarily achieved through the provision of ample SEL and positive sports based youth development programming at EAKC. Through engaging in running, rugby, basketball, and tennis, our youth spend time developing authentic, supportive relationship with caring adults who can coach them not only through the drills and competencies of the sports that we offer, but also provide coaching and dialog about healthy behaviors and alternatives to unhealthy behaviors. Along with our daily STEM and learning acceleration programming, these opportunities both physically remove youth from spaces where they might fall into these unhealthy behaviors and place them into productive ones, and they also build their self-efficacy and social capital to create long-term pathways to success and opportunity.

3. Programs and services focusing on one or more of the six National Milestones of My Brother’s Keeper (MBK) Alliance (MBK addresses persistent opportunity gaps faced by boys and young men of color and ensure that all young people can reach their full potential) https://www.obama.org/mbka/our-work The six National Milestones of MBK Alliance align neatly with Fulton County's KPIs for "All People are Self-Sufficient". In particular, we are focused on the following" "Getting a Healthy Start and Entering School Ready to Learn," "Reading at Grade Level by Third Grade," "Graduating from High School Ready for College and Career," and "Keeping Kids on Track and Giving Them Second Chances". Reading through MBK milestones, the thing that stands out as a recurring need for investment is strengthening families and investing in building capacity of parents, guardians, and youth. To that end, we now have a Family Services & Outreach Manager who engages families of EAKC youth for monthly (at minimum) family engagement events that bring parents into our space and create opportunities for them to build stronger relationships with their youth and our staff. These events include, free haircuts, trunk or treat, holiday drives, days of community service, family game nights, workshops on financial wellness, workshops on advocating for youth in schools and in the community, and more. As noted above, our out of school time programming aligns with these milestones and KPIs by design, as we seek to increase literacy and reading level, ensure our youth have healthy programming and alternatives, remain on track for on-time graduation within their K-12 pathway, and prepare youth for workforce development and higher education pathways. In particular, we are seeking to ramp up a more rigorous model for our Teen Club in 2024. Historically, this program has been a natural extension of Kids Club as it originally developed as kids aged out of that setting and remained engaed with EAKC. Our new Executive Director, having come from a leading workforce development program for Opportunity Youth in Year Up, is working with our Advisory Board and Program Director to implement a more modular approach to Teen Club that is built around pathways that meet youth demand and track them toward K-12 completion and next steps - whether they be within higher education, the workforce, or alternative workforce

DocuSign Envelope ID: C80B0760-3D31-47B7-A05D-905838CD6CC9

development programs such as Year Up, Generation, or Per Scholas. In particular, we seek to recruit, retain, and achieve positive post-EAKC outcomes for our young men of color through creation of programming/coding, culinary arts, and AV production pathways. This design, which will lean on the expertise of young professionals in these fields from partner institutions and leading corporate partners in Greater Atlanta. In particular, we know that focusing youth on potential career pathways in these in-demand, middle skills fields and creating experiential learning opportunities can lead to an increase in the percentage of individuals and families who earn a living wage. There are clear wins in this space among programs serving 18-24 year olds, and we see our role in serving 5-17 years olds as larger in scope than simply providing out of school time programming. We have an opportunity and a responsibility to connect the dots to next steps for our youth so that they might achieve upward mobility despite their zip code, knowing that upward mobility remains elusive for far too many Atlantans, particularly young men of color. Along the way, we are concerned with a final KPI of food security. We have had an agency partnership with Atlanta Community Food Bank for many years, and historically, we served as a congregate setting partner, meaning we purchased food from ACFB to support our healthy snacks for youth during after school and summer camp and to support our healthy eating/nutrition programming. Typically, this would entail the procurement and distribution of ~6,000 pounds of quality meat, produce, dairy, and shelf-stable goods each year. In the midst of the pandemic, we have broadener our direct services to inclue weekly food distribution to our youth and familes alongside hundreds of additional neighbors in need (seniors, unsheltered neighbors, essential workers, multigenerational households at risk during the public health crisis). To this end, we hold weekly food distributions on Fridays. This support aligns with our vision to serve holistically and to create a resilient community for our youth and their families. In 2024, we anticipate we will distribute and additional 60,000 pounds of food to our community. This is not our primary area of direct service, but it is crucial, and it ensures our people are well. To reiterate, we operate through many community collaborative relationships, including but not limited to: Atlanta Community Food Bank (weekly food distributions as a partner agency), Emory University Alumni Association and Emory Cares (program volunteers), Emory SciCovery (STEM instruction), Georgia State University (program volunteers and interns), Atlanta University Center (program volunteers), Black Kid Art (art instruction), FoodWell Alliance (garden assistance and funding), Kemunity Yoga, Girls on the Run, Atlanta Youth Rugby (sports based youth development and SEL programming), and Leap Year (camp counselor staffing and literacy instruction). Beyond these programmatic partnerships, we have been fortunate to work with several local businesses to support our programming through in-kind services, including but not limited to: Roots Real Estate, Emerald City Bagels, Set Supplies, Saucebox Apparel,, East Atlanta Community Association, Qommunity, Joes Coffee, East Atlanta Parents Network, Girls Scouts, Temple University, Argosy East Atlanta, Dell Technologies, and more. We have a robust network of supporters, from storefront businesses in East Atlanta, to large corporations based in Atlanta, to non-profits working alongside us in this space. As we continue to refine our programming in our 26th year of service, we are seeking to establish stronger bonds and linkages to other organizations to provide a continuity of care such that a child can enter our program at the age of 5 and exit at 17 with a clear pathway and a community of wraparound support ensuring that they are able to reach their full potential and return to serve their community with the same care that was poured into them.

Designation of CSP Funds:

Based on the awarded amount of **$40,000.00,** the CCSP funds are designated according to the following cost categories: Administrative, Operational, and Direct Services.

DocuSign Envelope ID: C80B0760-3D31-47B7-A05D-905838CD6CC9

Administrative Expenses- CCSP Funds that are spent on executive / management staff and administrative support staff salaries, salary fringe, and benefits; etc.).

Operational Expenditures- CCSP funds used to conduct agency/ organizational functions that are secondary to program service delivery such as office/ warehouse lease or mortgage expenses, office supplies (pens, toner, paper, etc.), utility expenses, transportation expenses (staff travel expenses), marketing/catalogs, etc.

Direct Service Expenditures- CCSP funds utilized to provide services directly to agency/program participants such as payments made on behalf of participants for rent, utilities, food, shelter, transportation (rentals, gas, and parking, bus drivers, public transportation costs, etc.) , scholarships and day care vouchers, salaries and fringe benefits for direct service personnel (Case Managers, Educators, Subcontractors, etc.), program supplies (educational/instructional materials, paper, pencils, markers, etc.) directly consumed by participants. Program materials that may be pertinent to the scope of services of a funded program and that aid in contractor meeting contracted program outcomes are included in this definition (i.e. children's story books, educational games, puzzles, and flash cards).

The maximum amount of CCSP funds allowed for administrative purposes (executive staff salaries and benefits only) is 5% of funds awarded. Throughout the contract period, program expenditures will be monitored (via performance reports) to ensure that funding is utilized as contracted.

Cost Category	Designation of CCSP Funding Award
Administrative (5% Admin max of funds awarded.)	$2,000.00
Operational	$9,000.00
Direct Services	$29,000.00
Total	$40,000.00

Explanation of Funding Details:

DocuSign Envelope ID: C80B0760-3D31-47B7-A05D-905838CD6CC9

We are seeking $2,000 (5%) in Administrative support. This will support our ongoing accounting work with our external CPAs (Marshall Jones for monthly support and Gregg Bossen for annual audit support) and the salary of our Associate Director of Operations & Development who will support the Executive Director in managing this contract and the direct service program staff who deliver the work to our youth and their families.

The $9,000 in Operational costs includes partial utilities (gas and electric) at our program site, Brownwood Park Recreation Center, office supplies, transportation required for direct services that are not directly youth-facing (e.g. transportation costs associated with increased food distribution efforts), and increased efforts in marketing the program to an expanded pool of youth, families, and community partners. We have seen a surge in operational costs related to utilities in particular as our enrollment has surged at our program site. Ensuring these occupancy expenses are well supported ensures that our staff and youth have a safe, producitve place to experience our program.

The $29,000 in Direct Services costs would fund partial salary for our crucial Program staff, supporting the following roles (base salary for each role in parentheses - not inclusive of total expenses associated with each employee/role): Program Manager 1 ($45,000), Family Services & Outreach Manager ($45,000), Program Assistant/Driver ($35,000), and Afterschool Instructors (in aggregate, $54,000). These staff are the lifeblood of our program, and they are driving the increase in service days, piloting new STEAM curriculum that aligns with workforce development pathways, and increasing contact hours with youth through our newly launched family engagement opportunities and our expanded after school and extended summer camp programming. Any Direct Services expenses not allocated to these program staff will support additional STEAM tutors & instructors and Student transportation expenses related directly to the utilization of EAKC vehicles to pick up youth from local schools and drop them off at their homes. This student transportation is one of the primary ways we reduce barriers to the program for our youth, and we consider it a direct service expense as it relates directly to youth transportation vs. staff travel.

Program Performance Measures:

The following program measures/ Key Performance Indicators ("KPI's") will be utilized to track and report program outcomes for the Fulton County residents supported with CSP funding, during the funding period 01/01/2024 through 12/31/2024:

Number of school-aged youth benefiting from Afterschool/ Out of School Programs to help bring up academic and social/behavioral levels. For this KPI, we intend to serve 70 Fulton County youth during our program year, with the ratio of youth served split evenly between after school and summer camp. That is, we seek to ensure 35 youth participants in after school offering. This is a 40% increase from our 2023 goal of 50 Fulton County youth (2023 actual 64), and as we already have served 32 Fulton County youth through 2/23/2024 in our daily afterschool programming, we feel we are able to achieve this goal. This year, we will also measure SEL impact through a grant-funded partnership with HelloInsight (this is funded by the Heisman Trophy Youth Development Fund, but the data will be usable and shareable for all funding sources).

Number of families attending support sessions and family engagement opportunities. We know that familial support and building the capital and capacity of our parents/guardians is critical, so we will endeavor to hold at minimum 2 family engagement events per quarter and to engage 50+% of our EAKC parents/guardians on a quarterly basis (defined by attendance at a family engagement event and/or logged volunteer hours outside of a family engagement event. We will also engage ALL of our parents/guardians through monthly newsletters and conversations at pick-up and drop-off.

Number of boys and young men of color benefiting from My Brother's Keeper programs and services that addresses persistent opportunity gaps (defined by six National Milestones of My Brother's Keeper (MBK) Alliance). Of our 70 Fulton County youth, we intend to enroll at least 35 young men of color. In particular, we intend to focus this recruitment on our teen club modules focused on career pathways to ensure our young men of color have clear opportunities to pursue mobility beyond our programming for 5-17 year old youth. This year, teen club will focus on skills that have a direct correlation to workforce outcomes (computer programming, film production, A/V production & podcasting)

Agency Defined Performance Measure(s):

Our program provides afterschool programming that creates linkages to school day learning and empowers students to be more focused to learn, improve their self-confidence, and equip them with social and emotional skills based on positive youth development. Our youth also benefit from enrichment activities that increase their interest in STEAM related careers and that expose them to real-world application of STEAM concepts. We expect to demonstrate the following:

Improvements in Homework Completion (1) At least 60% of students who regularly attend our after-school program will complete their homework assignments with accuracy. We will monitor and communicate about student progress with parent and school teachers. Student progress refers to helping students set and meet homework goals, develop discipline and create healthy study habits. Homework completion and level of accuracy (low, medium, high) will be collected using weekly homework logs and staff observation notes (positive feedback provided, comments on mastery of concepts, areas of need, strengths, or next steps, for example). The method of data collection involves homework logs competed by staff as listed above.

Improvements in Social and Emotional Behaviors At least 60% of students who attend our after-school program regularly will show improvement in social-emotional skills throughout the year of at least average to high functioning level. We will partner with HelloInsight to provide data about our youth's SEL evalutions relative to a large, validated dataset of youth (200,000+ records). This is a tool provided to us by separate grant funding through the Heisman Trophy Youth Development Fund, and it will highlight our strengths and growth areas for supporting SEL at EAKC.

Increase Physical Activity At least 80% of students will participate in physical activities for 30 minutes, 4 times per week throughout the grant period. This will be logged in Salesforce under Program Activity Description and is able to be pulled for reporting purposes Increase

Parent/Guardian Capacity At least 50% of Kids Club and Teen Club parents/guardians participate in Family Engagement/Parent Cafes programming, increasing their capacity and providing qualitative feedback to ensure iterative improvement of program

Approach and Design:

Trees Atlanta, Inc., Youth Tree Team Employment and Enrichment Program will provide services to **28** clients that reside in Fulton County, with CCSP funding.

Trees Atlanta, Inc., will provide the following activities and services in Fulton County with CCSP funding:

Youth Tree Team's activities and outcomes will primarily support CSP Economic Stability / Poverty Funding Priorities #2 and #5 above.

Those being: Training/Job Development/Employment which leads to self-sufficiency AND Improved access to economic opportunities, programs and resources focused on foundational education, career

DocuSign Envelope ID: 0B110A97-C42D-4099-BFF1-A6A9BEC69735

exploration coaching to re-engage youth up to 21 and job readiness skills for employment.

The program also supports skills development for the middle skills jobs noted in priority #4, as it provides entry level opportunities during the first year that incorporate significant training and instruction and that evolve into positions of leadership and meaningfully higher pay for returning students.

Note: The Youth Tree Team program primarily addresses issues related to Fulton County Strategic Priority Area (4), Infrastructure and Economic Development and does not provide services that tie to the Key Performance Indicators under Health and Human Services. However, Youth Tree Team does support Fulton high school student education by teaching financial literacy and personal budgeting throughout the summer. The program also exposes students to job opportunities that will be available for those who graduate high school, helps build knowledge in natural sciences, and develops students' self-confidence and personal responsibility that will support their educational success when they return to the classroom after the summer. In those ways, there is support for the desired outcomes under the Health and Human Services Strategic Priority Area.

Activities within the Program

Youth Tree Team consists of five primary activities to help students learn new skills and concepts.

- All team members work outside at least two days per week. Activities include watering trees, weeding, pruning young trees, mulching, and cutting and pulling out undesirable invasive plants. This is hard work that develops the students physically, helps them build resilience and allows them to learn the specific technical skills (like pruning) needed to perform the work effectively and efficiently. They perform this work on the Atlanta BeltLine and in neighborhoods across the metro area, helping to ensure newly planted trees and shrubs have their intended impact for area residents.
- Students work in the classroom and the field with our trained staff and other experts to understand plant science, tree identification, invasive plant identification, the ingredients trees need to thrive and why trees are important in urban environments.
- We take students on field trips or host professionals in-house to discuss their careers, how they got started, what one might expect to do day to day in those jobs, and what different career paths can offer. We will also host our third career fair this summer, bringing in non-profit, government and corporate partners to educate students about other opportunities they might pursue after high school or college.
- Our partner, the Community Sustainability Enterprise, brings the students seven weeks of financial literacy training. This component teaches the kids about opening and managing bank accounts, the necessary balance between saving and spending (personal budgeting), the compounding effect of long-term investing and the upside to forgoing consumption today.
- Finally, the students put their new found skills and understanding to use in small teams, managing their own capstone projects and associated budgets. The team then creates a

DocuSign Envelope ID: 0B110A97-C42D-4099-BFF1-A6A9BEC69735

presentation to share their findings, successes and challenges with the other teams, Trees Atlanta staff and board members, and their parents. The capstone focus is organization, teamwork, and presentation skills.

Trees Atlanta has leveraged collaborative relationships to support the Youth Tree Team since we launched the program in 2016. Some of our key partners include the following.

1. City of Atlanta, Department of Parks and Recreation. Provides financial support for the Youth Tree Team summer program.
2. Community Sustainability Enterprise (CSE). A nonprofit partner that hosts weekly financial literacy sessions with our summer team members. This organization pursues an active role in the socioeconomic transformation of low income/high potential communities through financial literacy and job skills training.
3. Georgia Forestry Foundation (GFF) assists us with educational content regarding the value and uses of timber-related products and the proper management of our forest resources. They will host an enrichment day at a processing mill this summer.
4. University of Georgia Warnell School of Forestry is a field trip partner and educational resource provider.
5. Fifth Third Bank financially supports the Community Sustainability Enterprise so that CSE's financial literacy services may be provided free of charge to our program.
6. Dorsey Tree Nursery and Summer Shade are two of our tree nursery providers and they host our students to help them understand nursery operations.
7. The Atlanta BeltLine, Inc. educates our team members regarding the development and impact of the Atlanta BeltLine on the greater Atlanta community.
8. Arabia Davidson Mountain National Heritage Area partners with us for outdoor experiential learnings with its Park Ranger.
9. Georgia Tech partners with us to give tours of their Living building, one of the most sustainable buildings in the southeast.
10. Atlanta Botanical Garden will work with us on a pilot to host three students from Youth Tree Team at their facility throughout the summer.
11. WestRock is developing a tour of their facilities near metro Atlanta with a focus on sustainable packaging.
12. Sweetwater Creek will host the team for experiential learning with a park ranger.

We have attached the preliminary day to day plan for Youth Tree Team below. The schedule is a draft version of what program leadership anticipates team members will be doing each day of the 7-week summer, including outdoor work days, financial literacy days, capstone project works days, etc.

Explanation of Funding Details:

The Youth Tree Team budget for 2024 includes costs for organizational infrastructure that is critical to creating and managing the program. Our summer 2024 budget spans across our 2024 and 2025 fiscal years, with the majority of summer 2024 Youth Tree Team costs being incurred during fiscal 2024. Those costs include the expenses to develop the program, market the program to schools and recruit students, hire and train Senior leads, pay for trucks, tools and other equipment plus insurance, and rent needed transportation. In May and June, we begin paying Youth Tree Team participants including both the senior leads and the high school 'leaders-in-training', who are the students coming back for a 2nd or 3rd summer that participate in special training in May before other students arrive.

Most of the program costs in July are for ongoing payroll costs, insurance, equipment costs and some minor expenses related to the capstone projects and graduation celebration. We have included a total of $1,150 for executive administration costs, as allowed under the grant terms. This figure equates to 4% of our $29,169 grant request, which is below the allowable 5% limit. Our budget breakdown by category is $1,150 administrative, $1,250 operational and $29,169 direct expenses.

Program Performance Measures:

Trees Atlanta, Inc. agrees to track and report program performance to the Fulton County Department of Community Development.

County Defined Performance Measure(s):

Children and Youth: Not Applicable

Disabilities: Not Applicable

Economic Stability: Number of individuals placed in Living Wage Employment; receiving training/job development/employment support...,Number of individuals receiving access/support for educational resources...,Number of individuals with improved access to economic opportunities, programs/resources focused on education...

Health and Wellness: Not Applicable

Homelessness: Not Applicable

DocuSign Envelope ID: 0B110A97-C42D-4099-BFF1-A6A9BEC69735

Senior Services: Not Applicable

Veterans Services: Not Applicable

The following program measures/ Key Performance Indicators ("KPI's") will be utilized to track and report program outcomes for the Fulton County residents supported with CSP funding, during the funding period 01/01/2024 through 12/31/2024:

Regarding the agency-defined metrics, we will count the number of Fulton students who successfully complete all program requirements and divide that figure by the number that started. Ultimately, we want every team member to complete the summer, but we have historically lost participants owing to changes in their availability, transportation issues (some of which we can resolve but not all), or a poor match between the program and the participant's interests.

We will quiz team members at summer's end to see which of them can successfully identify at least ten different trees and 10 non-native invasive plants. These figures will allow us to evaluate the ecological information that each team member absorbed during the summer through both field work and in-classroom study with our staff and guest speakers.

Finally, we track operating metrics in our normal course of business and are able to separate the work that was performed specifically by Youth Tree Team members. This operating data is collected and recorded manually by team leaders each time their group is in the field and then consolidated by the program coordinator weekly and at summer's end. This data is a compilation of the actual physical achievements of the team members during the summer.

Every other week Youth Tree Team members are given a performance evaluation with their mentor focused on Leadership, Initiative, Accountability, Teamwork, Self-Awareness, Responsibility, Professionalism, Safety, and Tree/Plant Knowledge. While not part of our formal performance measures for this grant, these evaluations help keep students on track throughout the summer to address issues early and help students maximize their seven weeks with us.

Agency Defined Performance Measure(s):

Agency metrics

DocuSign Envelope ID: 0B110A97-C42D-4099-BFF1-A6A9BEC69735

1. Number of Fulton County students who begin and complete the entire Youth Tree Team summer program (goal for at least 85% completion)
2. Number of students who are able to successfully identify at least 10 trees and 10 invasive plant species on their own (goal for at least 75% of students for both).
3. Team members will complete the following outdoor tasks: at least 1,200 young trees maintained (watered, mulched, pruned, weeded) and a minimum of 20 acres of invasive plants cleared in area greenspaces.

H. Amended Fellow Employee Exclusion

SECTION II - LIABILITY COVERAGE, B. Exclusions, 5. Fellow Employee is modified as follows:

Exclusion **5. Fellow Employee** is deleted.

I. Hired Auto - Physical Damage

If hired "autos" are covered "autos" for Liability Coverage, then Comprehensive and Collision Physical Damage Coverages as provided under **SECTION III - PHYSICAL DAMAGE COVERAGE** of this Coverage Part are extended to "autos" you hire, subject to the following:

1. The most we will pay for "loss" to any hired "auto" is $50,000 or the actual cash value or cost to repair or replace, whichever is the least, minus a deductible.

2. The deductible will be equal to the largest deductible applicable to any owned "auto" for that coverage, or $1,000, whichever is less.

3. Hired Auto - Physical Damage coverage is excess over any other collectible insurance.

Includes copyrighted material of ISO Properties, Inc., with its permission.

4. Subject to the above limit, deductible, and excess provisions we will provide coverage equal to the broadest coverage applicable to any covered "auto" you own insured under this policy.

Coverage includes loss of use of that hired auto, provided it results from an "accident" for which you are legally liable and as a result of which a monetary loss is sustained by the leasing or rental concern. The most we will pay for any one "accident" is $3,000.

If a limit for Hired Auto - Physical Damage is shown in the Schedule, then that limit replaces, and is not added to, the $50,000 limit indicated above and the deductibles shown in the Schedule are applicable.

J. Rental Reimbursement

SECTION III - PHYSICAL DAMAGE COVERAGE is amended by adding the following:

1. We will pay for rental reimbursement expenses incurred by you for the rental of an "auto" because of a "loss" to a covered "auto". Payment applies in addition to the otherwise applicable amount of each coverage you have on a covered "auto". No deductible applies to this coverage.

2. We will pay only for those expenses incurred during the policy period beginning 24 hours after the "loss" and ending, regardless of the policy's expiration, with the lesser of the following number of days:

a. The number of days reasonably required to repair the covered "auto". If "loss" is caused by theft, this number of days is added to the number of days it takes to locate the covered "auto" and return it to you; or

b. 30 days.

3. Our payment is limited to the lesser of the following amounts:

a. Necessary and actual expenses incurred; or

b. $50 per day.

4. This coverage does not apply while there are spare or reserve "autos" available to you for your operations.

K. Transportation Expense - Higher Limits

Clubhouse Atlanta , will provide the following activities and services in Fulton County with CCSP funding:

1. Identifies specific activities and services that will be provided to support one or more CSP funding priorities.

DocuSign Envelope ID: 9054BE31-0433-4719-8641-14BE9F1BFE77

Disability Funding Priority: Programs that promote vocational and Career Readiness skills (adults with disabilities); programs that support teaching work skills, interpersonal communication, customer relations skills, and opportunities which could lead to greater self-sufficiency. Job readiness/training and job opportunities for persons with disabilities, particularly youth finishing high school.

Clubhouse Atlanta provides its members help finding and maintaining employment, which falls under the Disability Funding Priority. Our Recovery Through Work program (RTW), which includes the Work-Order-Day (WOD), is where staff and Members work side by side to run the day-to-day operations of the program while at the same time receiving job training that helps them learn valuable, transferable skills that they need to be successful in reaching their goals. RTW assists members in creating resumes, practicing for interviews, determining their desired industry, ensuring they have all the proper documentation and clothing for employment and, with the help of staff, will find, apply and work to maintain employment.

People with mental illness face inequality and challenges as they seek to obtain and maintain employment and fully integrate with society. Return to paid employment is a gateway to recovery. For members needing more support, CA offers a Transitional Employment Program (TEP). TEP allows an individual to work their way up from part-time entry level jobs to permanent, fulltime positions. CA's TEP helps fight the challenges and stigma a person with mental illness finds in obtaining and securing employment because a CA staff member trains side-by-side with them for the position and manages any problems that may arise so that the employer has very little risk and the member is supported. TEP placements are based on the needs of the membership and are managed by members and staff. These positions are often entry to mid-level, 6 to 9 months in length, and paid the prevailing wage. As part of RTW, members work on resumes, cover-letters, interview preparation, and benefit management to help prepare them for independent employment. CA supports members by teaching job etiquette and helping them obtain job appropriate clothing, if needed. An added benefit is when members return to work it helps them move towards being self-sufficient because they are earning a wage. It also allows them to become taxpayers rather than a "tax burden" since it can also reduce the cost of federal benefits they receive.

Clubhouse Atlanta also offers Supported Education (SE) to help members with their educational goals (GED, certificate, college degrees). Evidence shows that the onset of a mental illness typically occurs during the transition years from high school to college, so having a strong supported education program is a priority. CA builds relationships with local educational institutions to ensure that members are set up for success. We help members determine their educational path including visiting programs, assisting with applications, and obtaining financial aid. Once enrolled, we connect them with school disability counselors and provide continued support by teaching study techniques, stress reduction methods and in-house tutoring, often taught by other members.

2. Identifies how the activities and services will be accomplished. (3 points)

Recruitment of employers to participate in the TEP is the responsibility of staff, members, and board of directors. Our goal is to have at least 2 businesses partner in the TEP program. We host a weekly Employment Unit meeting where members discuss the types of positions that would be best for the membership, often restaurants, retail, or manual labor.

Next, we recruit employers through a three-step process:

1. Outreach via phone to determine if they have open positions and would consider using Clubhouse Atlanta members to fill those positions.

DocuSign Envelope ID: 9054BE31-0433-4719-8641-14BE9F1BFE77

2. Visit the employer in person to confirm placement.

3. Follow-up via email to confirm details.

Once an employer is confirmed, CA's staff and Clubhouse Atlanta member will train for the position. The job position belongs to "Clubhouse Atlanta" versus a specific member, so employers trust that we will place the members appropriately. Clubhouse Atlanta supports TEP throughout the entire process. We begin by helping members prepare resumes and cover letters and practice interviewing. We also teach job etiquette and help them obtain clothing that is job appropriate, if needed.

Like TEP, CA also provides Supported Education for our members. Members are encouraged to further their education, if desired, whether it is to receive a GED, an undergraduate or graduate degree, or a trade program.

To do so, Clubhouse Atlanta:

1. Connects with local area schools, especially their Disability Office, to determine program availability and services offered

2. Works with Members to achieve financial aid, if needed

3. Offer assistence in attaining skills needed for educational success including how to study, time management and stress management

4. Offers in-house classes or tutoring, including basic computer skills and GED prep

Other activities include:

Host weekly Job Unit meetings to determine employment needs of Members, as well as help with resumes, cover letters and interviewing

Host monthly Education Unit meetings to determine education needs of Members, as well as help with skills needed for educational success

Create a database of potential employers and educators. Goal of 2 contacts per quarter.

Secure employment position for members, per goals above

Refer members to behavioral health services

Refer members to community based services for people with disabilities

Regularly monitor earned wages of members engaged in the TEP to ensure their earned income does not exceed the maximum allowed if they are currently receiving SSI or SSD benefits

Provide support, as needed, (i.e., study groups, skills training, etc.)

Prevent health disparities by educating residents and connecting them to available resources

Number of people who receive behavioral health services

DocuSign Envelope ID: 9054BE31-0433-4719-8641-14BE9F1BFE77

Clubhouse Atlanta is a holistic program that not only assists with job or education goals, we also assits membes with finding housing and accessing individual services and support. We anticipate all 21 Fulton County residents will recieve these important KPIs.

4. **Proposal addresses three CSP funding priorities as identified by the primary service category selected.**

funding, during the funding period 01/01/2024 through 12/31/2024:

*Goals are for Fulton County residents, not full program -

Number of Persons with Disabilities who are self-sufficient or able to live independently because they can achieve necessary training or education to be employed or be able to achieve comparable salaries as those without disabilities Goal: 4 or more

* Most Clubhouse Atlanta members need to keep their disability benefits so are unable to work full time. However, Clubhouse Atlanta jobs are paid the prevailing rate and if the member was able to work full time, it would allow them self-sufficiency. Our focus is on receiving comparable salaries.

- Number of community partnerships established that train and hire person with disabilities for gainful employment (Goal: 1 or more);

Clubhouse Atlanta's Recovery Through Work program has an overall goal of having 40 active members (21 or more from Fulton County) receiving services to assist them with their overall wellness, with a daily attendance of 15 (5 or more from Fulton County).

Our employment goal is 10 placements with members (4 or more from Fulton County) receiving comparable salaries as those without disabilities, and our education goal is 2 placements (1 from Fulton County). 65% of members are from Fulton County and will be served with CSP funding.

The system is fully customizable and allows us to track many types of data such as basic demographics, education, employment, hospitalizations, incarceration, financial and more. Data is collected and entered into the database, double checked for accuracy and then the physical forms are placed in a historical binder. Data is then reviewed monthly and placed into a quarterly report that is reviewed by the Executive Director and Board of Directors.

Each of the above measures will be reviewed on a regular basis for effectiveness and efficiency. We will conduct member, employer, and instructor surveys bi-annually to ensure that our programming is meeting the needs of all involved. The surveys will then be reviewed by a steering committee made up of staff, members, board members, community partners and funders with the purpose of determining what, if any, changes must be made. * Most Clubhouse Atlanta members need to keep their disability benefits so are unable to work full time. However, Clubhouse Atlanta jobs are paid the prevailing rate and if the member was able to work full time, it would allow them self-sufficiency. Our focus is on receiving comparable salaries.

Approach and Design:

Diabetes Association of Atlanta, Inc., Diabetes Prevention and Control Program will provide services to **145** clients that reside in Fulton County, with CCSP funding.

Diabetes Association of Atlanta, Inc., will provide the following activities and services in Fulton County with CCSP funding:

The Diabetes Prevention and Control Program (DPC) addresses the following three objectives of Fulton County's Health and Human Services Priority Area:

DocuSign Envelope ID: F5E2F252-191F-4839-ADD7-6853BC50348A

Prevent illness by engaging in healthier behavior.

Prevent health disparities by educating residents and connecting them to available resources

Support the vulnerable residents in our social services.

The program also addresses the primary CSP Funding Priority "Health and Wellness." In doing so, the program will report on three performance indicators within this funding priority:

Number of uninsured adults and children

Percentage of residents who experience food insecurity

Number of residents with comorbidity

The program will primarily address one CSP funding priorities in the Health and Wellness category:

Prevent illness and health disparities by educating and connecting individuals to available resources.

The Diabetes Prevention and Control Program impacts the aforementioned priority areas by connecting uninsured adults and children to diabetes prevention and management education and other health resources. The program targets persons with diabetes, comorbidities, lack of insurance and food insecurities. The program is evidenced based and follows the guidelines of the National Standards of Diabetes Care established by the American Diabetes Association. The program activities are based on integrated interventions that address the "whole person" and eliminates barriers to health.

The program addresses the "Health and Wellness" objectives, three indicators and the funding priority with four specific activities: 1) provide effective diabetes prevention and management education; 2) increase access to healthy food options to reduce food insecurity; 3) reduce the risk for diabetes complications with free medical assistance; and 4) provide early detection through free assessments and referrals to medical homes.

The first activity is our diabetes prevention and management education. The COVID pandemic increased persons' focus on staying healthy and preventing disease. As a result, DAA is receiving a record number of responses to our diabetes education classes. In response, DAA contracted with the online education platform, Healthie, Inc. to offer virtual education programming. This platform is HIPPA compliant and allows DAA's Diabetes Educator to conduct the Diabetes Self-Management Education Classes. These are five week classes that are certified by the American Diabetes Association. The average price of a certified diabetes education class is $1,500 without insurance and $400 copay with insurance. DAA offers all education classes at no cost. For persons without technology, DAA provides onsite classes.

Classes are led by DAA's Diabetes Educator. She teaches healthy nutrition tips that are practical and culturally sensitive. A few class topics include, "Healthy Soul food Cooking," "Healthy Cooking on a

DocuSign Envelope ID: F5E2F252-191F-4839-ADD7-6853BC50348A

Budget," and "Easy Meal Planning." DAA will further enhance the food security and nutrition education with live healthy cooking demonstrations and fresh produce as incentives.

During this activity DAA will collect data addressing each priority (number of uninsured, percentage of those with food insecurity, and number with a comorbidity). In order to impact health outcomes, we collect the number of persons with diabetes and comorbidities. We collect their blood pressure level, A1C percentage and weight. Instructors teach participants how to set SMART health goals such as increased exercise and lower A1C. After class completion, DAA follow-ups at 3, 6 and 9 months to assess their progress towards goals. Those who respond to follow up will receive a free blood pressure monitor, portion control plates, a Kroger gift card and healthy grocery bags of fresh produce.

Another component of this diabetes education activity, DAA also provides nutrition education workshops focused on diabetes prevention. These are one hour, online webinars that focus on healthy eating and other lifestyle habits to prevent diabetes. They are led by healthcare professionals such as Diabetes Educators, Pharmacists, Registered Nurses, and physicians. DAA utilizes the online platform, Click Meeting to conduct classes, recruit participants and store data.

Within this activity, DAA will report on the three Health and Wellness performance indicators. DAA will report on the number of class participants who are uninsured, have comorbidities and food insecurities. DAA will help them mitigate illness by providing supportive follow at 3, 6 and 9 months. This follow up includes individual nutritional counseling. During the counseling and class sessions, DAA will refer persons with multiple needs to our partner organizations. Persons with diabetes often express mental health concerns due to the stress of managing a chronic disease. DAA has a partnership with *Mental Health of America and Wholistic Stress Control Institute*. DAA will report on the number of persons who meet their SMART health goals. These goals focus on achieving a healthy hemoglobin A1C and incorporating at least one healthy behavior change.

The second activity supports persons who have limited access to healthy food options due to food desserts or low incomes. These vulnerable persons facing food and economic insecurities may need assistance through food drives and pantries. While a needed resource, unfortunately community food drives and pantries provide canned and processed foods. Persons with chronic illnesses such as diabetes require healthy meal options low in fat and carbohydrates. In response, DAA partners with local food drives and pantries to supplement their groceries with fresh produce and lean meats. Our grocery bags have included fresh collard greens, cabbage, salmon, whole turkeys, potatoes, almond milk, and canola oils. DAA places nutrition education materials and recipe cards within grocery bags to help with nutritional meal planning.

Within this activity, DAA will report on the three Health and Wellness performance indicators. DAA will report the number of uninsured adults and children receiving health grocery bags and facing food insecurities. We will assess the number of persons with diabetes and other comorbidities. DAA will also offer participants at the food drives individual counseling and information to help mitigate their illness. Persons without a medical home will receive a list of free clinics and affordable health providers. DAA will

DocuSign Envelope ID: F5E2F252-191F-4839-ADD7-6853BC50348A

also refer persons to our diabetes and nutrition education classes. DAA will report on those with improved quality of life by reporting on the number of persons with reduced food insecurity.

The third activity identifies persons with undiagnosed diabetes and referring at risk persons to medical homes. DAA meets this objective through the provision of diabetes risk assessment tests. In partnership with the *Georgia Department of Public Health (GDPH),* DAA offers diabetes risk assessment test to identify persons at risk or undiagnosed with diabetes. During the food drives, DAA provides GDPH risk assessment cards. The cards have a Quick Response (QR) code that directs persons to an online risk assessment. A person's risk for diabetes is determined based on their scored answers.

Since this activity occurs in partnership with food pantries, DAA will report on the three performance indicators. With an increased understanding of their risk for diabetes, DAA will help them mitigate the risk factors with onsite counseling. For further diagnosis and evaluation, DAA provides a referral list to affordable clinics and physicians. DAA provides a follow up survey to determine those who connected with a medical home and to enroll at risk persons in DAA's diabetes education classes.

The fourth activity is the provision of free medical assistance. Through a partnership with *Kroger pharmacies*, DAA provides free medical assistance and supplies for low-income, uninsured, and underinsured adults and children. Participants receive a Kroger card programmed to allow purchases of test strips, meters, needles, and insulin. DAA provides $350 a month for up to six months of medical assistance. These costs equate to $2,100 per person. If persons need assistance beyond six months, DAA allows an extension based on available funds which equates to $4,200 per person.

DAA's medical assistance impacts the three aforementioned performance indicators. DAA connects persons with diabetes and lack of insurance with free medical assistance to reduce comorbidities. Participants are eligible to receive free diabetes education and free groceries to reduce their food insecurities. DAA also connects them with a primary care physician if they need an updated prescription and further healthcare. DAA will report the number of persons with improved health as a result of the medical assistance.

DAA will utilize partnerships that work with uninsured persons to promote the program. DAA has partnerships with senior centers, residential facilities, clinics, health systems, and churches. These are considered "trusted and accessible environments." For purposes of this grant, DAA will provide onsite and virtual education classes and free grocery bags at the Emmaus House, Peach State Diabetes Camps, Villages at Carver Family YMCA, East Lake Family YMCA, Helen Mills Senior Center, Maggie Russell Towers, Asbury Harris Epworth Towers and Quality Living Services. Through our partnership with Emmaus House, we supplement their food pantry with fresh produce bags while promoting our classes m, medical assistance and diabetes risk tests. DAA will partner with local grocery stores, farmer's markets, and *Eat Right Atlanta* to deliver healthy grocery bags at community food drives and pantries. Through the partnership with Eat Right Atlanta, DAA purchases their fresh produce and delivery services. Eat Right

Atlanta has grocery bags designed for persons with diabetes. They deliver the groceries directly to the program site or the participants' homes.

DAA also partners with clinics and hospitals serving uninsured persons such as Grady Hospital, Piedmont Hospital, Emory Hospital and Good Samaritan Health Clinic. These health systems promote our program through their onsite and media networks. They also provide Diabetes Educators and Chefs to host our diabetes education classes and webinars.

Approach and Design:

Harvest Rain Early Learning Academy, Harvest Rain Children and Youth Services will provide services to **50** clients that reside in Fulton County, with CCSP funding.

Harvest Rain Early Learning Academy, will provide the following activities and services in Fulton County with CCSP funding:

Alignment with Fulton County Strategic Plan & Priority:

According to the Fulton County consolidated plan, the public housing agency's strategy for improving the living environment of low - moderate income families residing in public housing included coordinating services such as childcare and education. The plan described the goal of suitable living environment - youth services as recreational based youth activities, education and counseling, quality affordable childcare, after school care, career exploration, and special needs services.

Harvest Rain is able to alleviate the burden of low-income residents (all people, as defined by Fulton CountyStrategicPlans) by providing affordable childcare and school age academic supplemental services. To meet this need Harvest Rain will provide affordable services to all Fulton County residents that reside in District 6. Harvest Rain's priority and activities are aligned with five (5) of the Fulton County Board of Commissioners six (six) priority areas, specially, 'all people' are: 1)Healthy, 2) Safe, 3) Self-sufficient, 4) Culturally and recreation-ally enriched, and 5) have economic opportunities.

To address the indicator of economic stability and literacy (under the children and youth category) and the serious problem of low-income families with preschool children entering kindergarten ill-prepared, and youth at risk for failure in the 3rd, 5th,and 8th grade due to academic challenges, Harvest Rain will provide innovative curriculum, activities and methods to counteract these negative impacts.

List of Activities & Description of how they will be accomplished:

HRA currently provides and seeks to enhance the following programs and services to meet the needs of its participants:

Birth -4 yrs Services:

Kindergarten readiness and Birth through 4 years old full-service program (State Accredited Quality Rated) & GA Pre-K. This service includes early interventions services, reading/literacy, child abuse and sexual abuse prevention.

This program uses the research based High Scope Curriculum, Ages and Stages Assessment to detect disability early, and the Bright from the Start best practices Quality Rated Standards and GA Early Learning Standards(GELDS) to ensure that an increased number of children enters kindergarten with the developmental skills(kindergarten readiness skills) that enable them to achieve academic success.

Parenting Workshops/Family Engagement Service:

The parents and teachers will be trained on prevention of child abuse and sexual abuse using the StrengtheningFamilies Georgia Curriculum commissioned by the Georgia Division of Family and Children Services. Parents also participate in various activities to support their child's learning (ex: Parenting workshops, parent nights, conferences,school events and activities).

School Age (Afterschool/Summer) Academic Enrichment Services:

English Language Arts Standards (ELA), Math and Science Program for Kindergarten-8th Grade (Special emphasison 3rd & 5th) tutorial services. This program utilizes the North Western Evaluation Assessment (NWEA) service to

DocuSign Envelope ID: 0CE5A3A4-3ED9-4878-BCD4-169EEA1FE874

evaluate, and detect a student's strengths and weaknesses in ELA, Math, Science, Reading; and create individualized improvement plans for each students.

The students are then given daily instructions to strengthen their Reading and Math skills. The students are provided with enrichment activities that are computerized and hands-on. In collaboration with the students' school, the program works to help provide supplemental reading activities to support their school work.

English Language Arts (ELA) and Science, Reading, Technology, Engineering, Art and Math services (STREAM) are provided for these students. The students are given computerized assessment/tutorials, small group and individualized academic tutorials in Math and Reading; hands on STEM workshops/projects; academic tracking and early interventions to ensure transition from one grade level to another and high-school graduation.

These students will also complete their summer reading list, go on field trips to the library, and participated in the Fulton County Summer Reading Program.

Apprenticeship/Business Camps/Workshops Services:

During the summer months school age students complete an innovative curriculum that teaches them Math and ELA skills using a hands on real -life application approach. They learn to create, research, present and set up their own small businesses. Participants take part in an assimilation of their business and learn to generate money. They are also exposed to other business owners within the community.

Careers Apprenticeship Service:

Middle and High School students are given the opportunity to follow and plan their career path using a curriculum called CHOICES (during the summer months). They create a realistic portfolio of their future goals. Students learn how to create the future lifestyle they desire by budgeting, researching the results of different life choices, and engaging with professional mentors.

They are afforded the opportunity to receive SAT Prep tutorials in Reading and Math, volunteer hours (from our community services outreach events), and assistance with completing college applications.

Students will be employed as part-time employee with a stipend during their out of school time. GED preparation will be offered to help students who have dropped out of school, but desire to enter secondary education (college) or employment to become productive citizens.

Mentor-ship, Social-Emotional Support & Performing Acts Activities:

School age students will participate in mentor-ship activities designed to deter students from unhealthy behaviors.Guest speakers will be invited to speak to the children about prevention of suicide, cyber- bullying and bullying,violence and drug prevention, healthy eating habits, and prevention of internet and social media addiction.

Students will further participate in theater and art workshops using these themes (i.e. creation of comic strips against bullying, a theater production about violence prevention) and other activities in dance and music will be offered.Students participate in social emotional small group addressing issues impacting them.

Community Collaborative/Partners:

To meet the need and provide the above services, we have successfully applied for and received grant funding from various agencies. Though our tuition fees are low (i.e. due to sliding scale & scholarships from outside funding), our families living in poverty still find it difficult to pay the additional expenses related to enrichment services & activities.Therefore, we are requesting the CSP funding to enhance and expand the access of these services to more low income families and their children.

Hence, instances of community collaborative relationships that have helped HRA to address the aforementioned need areas follows:

1. Partnership with E.C. Elementary School & Bear Creek Middle School Providing enrichment for their students.

2.Quality Care for Children (Staff Training and Technical Assistance service)

Approach and Design:

Friends of Disabled Adults and Children, Too!, Inc., FODAC 2024 Home Medical Equipment Program will provide services to **200** clients that reside in Fulton County, with CCSP funding.

Friends of Disabled Adults and Children, Too!, Inc., will provide the following activities and services in Fulton County with CCSP funding:

With full funding from Fulton County, FODAC will provide free or low-cost Home Medical Equipment (HME) to at least 500 Fulton County residents who could not otherwise afford HME items or who are on waiting lists for approval or service from third party providers including Medicare, Medicaid, insurance, or other service organizations. We also repair equipment that is broken and, if needed, we loan clients equipment to use while the repairs are being made. Other FODAC programs assist with home and vehicle modifications to enable clients to have greater freedom of movement in and outside their homes, and to have low-cost computers that help to expand their horizons.

This proposal supports the Fulton County Government's Strategic Priority Area Objectives for Health and Human Services by providing equipment that enables people with disabilities to adopt healthier behaviors. With assistive devices they can be more independent in performing the activities of daily living such as bathing, toileting,

DocuSign Envelope ID: 7ED77993-DF51-410A-A360-D78A17B6E39B

dressing, eating and moving about. They are better able to shop for or prepare healthier food. Having mobility aids like wheelchairs, walkers, and vehicle lifts s enables them to access public transportation or personal vehicles so they can access medical care and appointments for routine medical services **to reduce the health disparity for people with disabilities**. Assistive devices, especially wheelchairs and refurbished computers, make it possible for children to attend and stay in school **to realize their educational potential**. About 88% of FODAC's school-age clients respond that they are able to stay in school due to having mobility aids, which means they are receiving education which may lead to employment. Parents often acknowledge that their children would not be allowed to attend school without a wheelchair that FODAC has provided. **Other assistive devices provide support to other vulnerable residents** in our communities. Special support chairs, foot supports, motorized wheelchairs, and reach extenders help about 49% of FODAC's adult clients to remain in the workforce. Home medical equipment (HME) also helps the elderly and those with intellectual, physical, and developmental disabilities by making it possible for many of them to stay in their own homes, either alone or with a caretaker. Having lifts, transfer boards and/or gait belts in the home enables caretakers to safely assist with movement from bed to chair and back or into the shower, which can be essential in helping many adults to remain out of institutional care. It also helps prevent accidents and injuries to clients and their caretakers and complications of immobility. Having greater independence and mobility allows people of all ages to participate more in family, community and worship activities, which promotes a positive mental health outlook and sense of well-being. About 70% of FODAC's clients are new to us every year and are newly dealing with a disability causing a serious financial and emotional challenge for them. They often find that the expense of specialized assistive devices is prohibitive even if they have insurance, as they may have to choose items that are lighter weight or easier for caregivers to use instead of heavier motorized items that allow them more independence. Often, they cannot afford additional items. Having access to a power chair means a person with a disability can move themselves in and outside their home and avoid dependence on someone to push them. Other FODAC programs will provide portable ramps so that individuals can move in and outside the home independently. The Home and Vehicle Modification Program will also install lifts to personal cars and vans so families can transport a power chair or scooter, enabling those with disabilities to be part of family and community activities outside their home.

This proposal further supports four of the CCSP Funding Priorities for the Disability section:

1. Early Intervention Services: FODAC provides equipment specially designed to help parents care for children with disabilities aged 0-5 and older. Specialized strollers, positioning chairs, and bathing and feeding aids provide for safety and inclusion in everyday family activities. Standers, gait trainers and walkers help children develop muscle strength and balance to be able to learn to walk. Scooters and adaptive bicycles and tricycles allow them to play with their peers and siblings. Physical activity and social interaction support development of cognitive skills and reduce social isolation and low self-esteem as well.

2.Training/ Quality of Life: Having access to assistive devices tailored to the specific needs of a person's disabilities can mean the difference in being able to stay in their own home, taking care of their own needs with minimal assistance, or being dependent on caregivers and often forced into institutional care. Parents and caregivers are coached in identifying developing needs, availability of resources, and in use and maintenance of equipment. Some devices (like lifts, transfer boards, bathing and toileting items, and eating tools) provide for more and safer freedom of movement within the home and reduce the burden on caregivers. Some make it possible for the person with a disability to remain active outside the home in community, worship, school, and work activities. Without mobility, opportunities are limited for increased social interaction. FODAC traditionally conducts two events annually that allow people with disabilities to

DocuSign Envelope ID: 7ED77993-DF51-410A-A360-D78A17B6E39B

participate in physical activity, competition, conversation, and fun with others, both those with and without disabilities: the Run, Walk, and Roll Rally for all ages and the Breakfast with Santa event for children.

3.Job Readiness: Clients who are more self-sufficient report that they can participate in school and remain active in the workforce, further advancing their ability to maintain independence. Parents often tell us their children could attend school without a wheelchair that FODAC provided. While FODAC does not provide specific job training courses for people with intellectual or physical disabilities, we do provide employment opportunities for both in positions that allow them to use and expand their full capabilities. At least four of our permanent staff are wheelchair users. We also engage people with disabilities as volunteers in positions that allow them to expand their skills in customer service, data management, thrift store operations, repair and maintenance and direct service.

4.Inclusion: FODAC is an ardent supporter of inclusion of people with disabilities in all aspects of life and demonstrates this in our own workforce and public communications. We participate in community planning for inclusiveness in events we organize and attend and are one of the active members of the State Coalition for Disaster Planning for People with Disabilities to ensure that all preparedness and response activities address their needs.

Program Methods: Our model is simple: We collect items, refurbish, and reissue them to those in need. Used medical equipment is donated by individuals who no longer need it or by companies and health care providers who have a surplus. It is repaired by skilled staff and volunteers in FODAC's Stone Mountain facility and refurbished to factory standards, often using parts salvaged from donated items that cannot be repaired. The equipment is then fitted to the needs of the individual client and issued free or at very low cost to anyone who needs it, without regard to income, ethnicity, race, or other criteria. The only requirement is need. We do not file for Medicare, Medicaid or insurance, which eliminates wait time for approvals from third party payers. Most of our clients receive immediate assistance as a walk-in. or within 2-4 days of making a request. There are no other agencies providing the specific services on the scale provided by FODAC. Equipment loan closets provided by a few scattered churches and organizations tend to focus on their members or to have a limited-need focus, like for a specific condition such as cancer. Most of the organizations managing condition-specific loan closets have eliminated those programs and now refer clients to FODAC. FODAC coordinates with Tools for Life, which offers complementary services such as training in Braille or use of sight enhancement devices but does not issue home medical equipment.

Collaborations: In addition, FODAC has an extensive list of agencies and organizations in the Metro area and Fulton County with which we collaborate in providing services. Examples include:

1.Grady Memorial Hospital: FODAC provides regular and expedited urgent delivery of refurbished medical equipment which hospital staff issue to clients who need it in order to be released from the hospital. Larger items like hospital beds can be delivered and set up directly in the patient's home. This arrangement often results in reduced hospital admissions or shorter stays.

2.Emory Hospital Therapy: FODAC provides equipment on request for specific patients.

3.Children's Hospital of Atlanta: FODAC renewed an agreement that allowed creation of an on-line directory of available items so that CHOA staff can order items for expedited delivery to their patients. This agreement makes items more readily accessible to children throughout the Metro area. The renewed program is expanding to include all Children's facilities.

DocuSign Envelope ID: 7ED77993-DF51-410A-A360-D78A17B6E39B

4.Shepherd Spinal Center: FODAC provides equipment to be used in the PT department for all patients to use such as standers or puff-powered chairs; valued at around $100,000 per year. Therapists indicate they send at least one person per day to FODAC for items to have at home.

5.Area Agency on Aging (AAA): FODAC has an agreement to provide HME to AAA offices around the state. Seven local agencies have completed agreements, including Cobb Senior Services, which coordinates AAA services for the entire Metro Atlanta area.

6.Blaze Sports: FODAC provides free wheel chairs for sports activities like basketball and racing for their clients.

7 .Project Walk: FODAC provides equipment, like standers, for use in their therapy programs to assist clients in learning to walk again.

8.Georgia Emergency Management Agency: FODAC maintains a cache of durable medical equipment that can be sent to any disaster shelter or disaster site to be used by clients displaced from their homes or separated from essential equipment and supplies due to a disaster.

9.Voluntary Organizations Active in Disaster (VOAD): FODAC is an active member to plan for disaster needs and to coordinate movement of assistive equipment to shelters or to sites where they can be accessed by disaster victims.

10.Atlanta Regional Commission: Through a contract for the "Money Follows the Person" program, FODAC is the exclusive provider of HOM and home modifications to persons residing in nursing homes to aid them in returning to independent living.

11.Georgia Vocational Rehabilitation: Provides funding to FODAC to support ongoing operations of the HME and Home & Vehicle Modification programs.

12.Tools for Life: Provides funding to support ongoing operations for the HME and Home and Vehicle Modification programs; sponsors the display area for clients to try out and view high-tech and very expensive items like low-vision readers, and three-wheeled adult bikes and carriers.

Designation of CSP Funds:

Based on the awarded amount of **$40,000.00,** the CCSP funds are designated according to the following cost categories: Administrative, Operational, and Direct Services.

Administrative Expenses- CCSP Funds that are spent on executive / management staff and administrative support staff salaries, salary fringe, and benefits; etc.).

Operational Expenditures- CCSP funds used to conduct agency/ organizational functions that are secondary to program service delivery such as office/ warehouse lease or mortgage expenses,

DocuSign Envelope ID: 7ED77993-DF51-410A-A360-D78A17B6E39B

office supplies (pens, toner, paper, etc.), utility expenses, transportation expenses (staff travel expenses), marketing/catalogs, etc.

Direct Service Expenditures- CCSP funds utilized to provide services directly to agency/program participants such as payments made on behalf of participants for rent, utilities, food, shelter, transportation (rentals, gas, and parking, bus drivers, public transportation costs, etc.) , scholarships and day care vouchers, salaries and fringe benefits for direct service personnel (Case Managers, Educators, Subcontractors, etc.), program supplies (educational/instructional materials, paper, pencils, markers, etc.) directly consumed by participants. Program materials that may be pertinent to the scope of services of a funded program and that aid in contractor meeting contracted program outcomes are included in this definition (i.e. children's story books, educational games, puzzles, and flash cards).

The maximum amount of CCSP funds allowed for administrative purposes (executive staff salaries and benefits only) is 5% of funds awarded. Throughout the contract period, program expenditures will be monitored (via performance reports) to ensure that funding is utilized as contracted.

Cost Category	Designation of CCSP Funding Award
Administrative (5% Admin max of funds awarded.)	$0.00
Operational	$9,500.00
Direct Services	$30,500.00
Total	$40,000.00

Explanation of Funding Details:

Operational expenses include the cost of collecting, transporting, warehousing, and maintaining the facilities for serving clients. They also include utilities, phone and computer services and general office supplies and equipment. Overhead for building operations, utilities and maintenance have been reduced in the last five years due to the payoff of our mortgage and installation of energy conserving measures funded by a successful capital campaign. Expenses also include the costs of operating the trucks that pick up and deliver donated items including fuel, maintenance, and insurance.

DocuSign Envelope ID: 7ED77993-DF51-410A-A360-D78A17B6E39B

Direct Services includes the staff time to prepare equipment for re-issue and to serve the clients directly. Equipment is donated, and parts are salvaged from items that cannot be repaired for use on other items. This keeps direct purchase of expendable items to effect repairs and refurbishing to a minimum. The chemicals. tools and other supplies used to sanitize and repair equipment must be purchased. The major expenses in recycling equipment are for the skilled technicians who make the repairs, and for the client services staff who intake and register clients, assess their needs, match them with appropriate items, oversee any adaptations to ensure fit, and train clients and their caregivers to use items safely. Additional costs are for the operation of the trucks and staff to pick up and deliver items for repair and to install large items like beds in a client's home. The retail value of equipment to be issued next year is estimated to be well over $500,000.

Program Performance Measures:

Friends of Disabled Adults and Children, Too!, Inc. agrees to track and report program performance to the Fulton County Department of Community Development.

County Defined Performance Measure(s):

Children and Youth: Not Applicable

Disabilities: Number of Persons with Disabilities (PWD) included in programs due to increased accessibility...,Number of Persons with Disabilities benefiting from minor home modification projects, renovations, and/or repairs...,Number of Persons with Disabilities who can focus on overall wellness...

Economic Stability: Not Applicable

Health and Wellness: Not Applicable

Homelessness: Not Applicable

Senior Services: Not Applicable

Veterans Services: Not Applicable

The following program measures/ Key Performance Indicators ("KPI's") will be utilized to track and report program outcomes for the Fulton County residents supported with CSP funding, during the funding period 01/01/2024 through 12/31/2024:

DocuSign Envelope ID: 7ED77993-DF51-410A-A360-D78A17B6E39B

There are **three CSP County defined performance measurements** that will be measured throughout the contract period.

- Number of persons with disabilities (PWD) included in programs due to increased accessibility, physical environment, transportation, housing, alternative communications.
- Number of persons reporting they are self-sufficient or able to live in their own homes instead of in institutional care.
- Number of persons with disabilities who can focus on overall wellness, including better management of their disability.

Goal 1: Provide 500 Fulton County residents in 2023 with HME or other services such as HME repairs, repair clinics, home/vehicle modifications or assistive technology. The HME provided will increase accessibility to the client's physical environment, such as their home or their workplace, school, or place of worship. Once a client is issued a wheelchair or other ambulation device, it becomes possible for them to access transportation by Marta Mobility buses or vehicles that have been modified for wheelchairs. Independent movement within their home is enhanced, and the likelihood of falls and injuries is reduced. Assistive technology, available through high-tech software, computers, and other electronic devices, to aid people who are unable to speak clearly or who have limited vision can be tested and tried out to determine their usefulness before deciding to purchase such expensive items.

Method: Track the number of items issued to Fulton residents that assist them to have increased mobility in their homes, and their access to transportation. This includes manual and power wheelchairs, scooters and transporters, ambulation aids (canes, walkers, etc.), vehicle lifts, and repairs. Clients complete a Registration Form & Client Survey each time they visit. Data on services provided is attached and the information is entered into the FODAC database for tracking. Partner agencies and hospitals that issue FODAC equipment to their clients also have clients complete the forms and return them to FODAC for data entry so that data on their clients can also be tracked. The Registration form captures geographical and demographic information, and information on how the equipment and services will benefit the client. Clients seen at the FODAC headquarters are also asked to provide a copy of their state-issued ID, so we are sure we have accurate and full information. Rosters of participants at repair clinics held at independent and assisted living centers and at FODAC also include this information and are entered into the database. This database is the source of all information used to complete the quarterly reports.

FODAC clients are referred to us from a large network of agencies, organizations, clinicians, and service providers, but clients can come in without a referral. We have paid service contracts with the Area Agency on Aging serving the Metro Atlanta area (Cobb Senior Services) and with several area hospitals (including Grady Hospital and Children's' Hospital of Atlanta) to provide them with priority access to HME items that they can issue directly to their clients. This makes items more accessible and has the potential to shorten some hospital stays with earlier release to home care. These hospital agreements increase our outreach to clients in Metro Atlanta and provide another sustainable source of income. Additional agreements are being negotiated with other clinical facilities.

Milestones & Schedule:

- Ongoing: Serve clients Monday-Thursday 9am-5pm fifty-one weeks of the year.
- 1st Quarter: review internal data collection procedures and revise as needed to ensure inclusion of info on all equipment repairs, home and vehicle modifications, bulk deliveries of HME.
- 1st Quarter: review data collection procedures with each partner agency

DocuSign Envelope ID: 7ED77993-DF51-410A-A360-D78A17B6E39B

- Quarterly: Collect data from each partner agency
- Quarters 3-4: Conduct at least one repair clinic at Fulton County residential facilities or targeting Fulton residents as needed.
- Quarterly: Run reports on all clients served, review by organization leadership, and report as required.

Goal 2: At least 60% (120) of clients will report ability to stay in their own homes and to leave or avoid institutional care with the aid of access to appropriate HME.

Method: The Client Satisfaction Survey requested from all clients includes questions about housing, and clients often add comments about their ability to remain at home. These questions will be reviewed and potentially strengthened to get more information and included in routine tabulation for quarterly reports so that we can more accurately track and report the number of clients who are able to remain in their own homes – either independently or with caregiver support -- instead of in institutional care. Intern or volunteer support is needed to be able conduct additional phone or other surveys to obtain more in-depth data on the impact of HME on clients' living arrangements.

Milestones:

- 1st Quarter: Review and potentially strengthen data collection tool and quarterly report formats
- Quarterly: Run data reports and review and analyze to assess effectiveness of data collection and progress toward goal based on current data collection tools.
- 2nd & 3rd Quarters: Determine resource availability for conducting follow-up impact assessment surveys
- 3rd & 4th Quarter: Potentially revise or redesign survey instruments/ methods
- 4th Quarter: Pilot revised data collection if resources obtained.

Goal 3: Increase the number of persons with disabilities who can focus on overall wellness to at least 140 (70%) of the total Fulton clients served. With increased mobility and independence, clients can focus on overall wellness, including better management of their disability. Having access to proper equipment promotes movement to prevent muscle atrophy and development of contractures and pressure sores, allows clients to manage their own personal hygiene, improves mental health, and prevents injuries to clients and their caretakers. Management of physical disabilities through mobility is essential to living independently, using public transportation such as MARTA, maintaining a job, attending school and even going for doctor visits. Access to some aids makes it possible for clients to perform some housekeeping chores, prepare and consume meals, and to engage in family activities.

Method: All clients are asked to complete a Client Satisfaction Survey which gathers information on how the equipment provided will help them, the impact it will have on their quality of life and independence, and on their satisfaction with the services provided. Responses are recorded in our Reuse database. Data collection on clients seen through partner agencies is being strengthened.

FODAC staff produce reports based on the client surveys, which are used by senior staff and Management to evaluate effectiveness of service delivery, inclusion of all demographic groups, and appropriate geographic and demographic outreach.

Major milestones to be achieved:

DocuSign Envelope ID: 7ED77993-DF51-410A-A360-D78A17B6E39B

- 1st quarter: Review & potentially revise internal data collection and reporting procedures to improve collection of impact data and inclusion in compilation for quarterly reports.
- 1st quarter: Review any revised data collection procedures with each partner agency
- Ongoing: Monitor effectiveness of data collected.

The project "Empowering Our Youth (EOY) Locating Avenues Through Peer Support (LEAPS): Pathways to Success" primary focus is to provide programs that develop a foundation for youth with disabilities to have a pathway to success with educational and employment opportunities. The program targets and aligns with CSP funding priorities as it works towards programs that provide tools for young adults of diverse backgrounds that intersect with disabilities to prepare for adult life. These priorities include programs that promote educational and/or career readiness skills for people with disabilities. In addition, through teaching skills, it can lead to greater self-sufficiency. The project aligns with these priorities and focuses on educational and social skills, job readiness, employment, career alternatives, and developing skills of advocacy for self. Many factors and barriers influence the success of youth with disabilities. These factors include the individual, community, employers, and parents. The project aims at breaking down those barriers. We believe that to improve employment and self-sustaining outcomes, it is critical to provide training and opportunities to those without disabilities to interact/work with people with disabilities in the workplace and the community. Part of that includes training for parents, teachers, and potential employers. This project does just that as we anticipate serving 37 youth through in-school and summer programming and 17 community members, including parents, teachers, employers, caretakers, and other community members not listed. The total number of Fulton County residents expected to receive services is 54. Although our target audience focuses primarily on ages 14 to 22, we have found that individuals often have gone back to college or are just now learning to be independent in their own lives. The traditional transition age is well into the age of 30 and above. "Empowering Our Youth (EOY) Locating Avenues Through Peer Support (LEAPS): Pathways to Success" takes a three-pronged approach to address employment disparities within the disability community. 1) We provide the opportunity for students transitioning from high school to adulthood programming to explore options to make their own choices. 2) We provide the opportunity for students and recent graduates with disabilities to gain hands-on professional experience to help advance their career goals. 3) We work with the community, parents, teachers, and worksites to provide support and guidance while the young adult gains independent living and employment skills. The project aligns with MBK and Fulton County CSP priorities. The first priority is that every American child should be college and career-ready. The project focuses directly on providing skills pre-transition and for those who have graduated. The curriculum supports youth with disabilities in exploring career and educational opportunities. As mentioned above, these skills revolve around educational, career, and social skill development. The second priority is that all Americans should receive the education and training needed for the jobs of today and tomorrow. The project encompasses a portion of gaining skills through paid and unpaid internships that further develop skills. In addition, the curriculum addresses job readiness and social skill development, career exploration activities, and preparing for educational opportunities. The last priority is having the tools to get a job that allows them to support themselves and their families. The curriculum addresses this with a real look at budgeting, applying for programs eligible for, self-advocacy, and career opportunities. Providing opportunities to gain skills that will equip individuals with disabilities is essential. Fast-tracking skill-building and work readiness in a post-COVID environment is vital. The curriculum is designed to support youth with disabilities in educational and career readiness, which is needed to lead to self-sufficiency and independence. It provides for persons with disabilities to understand their skill set, improve upon their skill set, and determine the best course of employment and involvement in the community as it relates to them while providing individualized support. Furthermore, it assists in recognizing their advocacy skills to live independently. Another barrier lies in the family unit. The lack of knowledge of rights and benefits limits the family's willingness to support any employment. Family members sometimes do not understand that employment is attainable if a person has a disability. This curriculum provides advocacy skills and benefits training to look to the future while supporting their family member with a disability. In addition, breaking barriers and developing relationships with industry and business sectors are essential. Training and education are aimed at working towards breaking down myths held by employers, such as hiring a person with a disability will increase workers' compensation insurance rates or people with disabilities

DocuSign Envelope ID: EE2A6A47-3BB6-42AA-8AB5-178C19C40504

have more accidents or injuries than others, and even that the person with a disability is less reliable and has a higher absentee rate than other employees or that the person with a disability. More importantly, it assists individuals in recognizing their strengths and employers, families, and the community in recognizing that people with disabilities are indeed an integral part of the community. It is also important to engage other community members, such as teachers, healthcare workers, and other community members, to learn how to interact with people with disabilities while providing support. At disABILITY LINK, we have seen tremendous success with our in-school, after-school, and summer programs and community outreach and training.

Participants will:

1. Identify their career or educational path to facilitate employment goals.

2. Learn the characteristics of skills needed to be successful at work

3. Learn social work skills to interact with others

4. Increase self-awareness and advocacy skills related to independent living and employment.

The program goals include:

1) Individuals will be better prepared to find employment and maintain employment.

The outcome or accomplishments of the program include:

a. Identify their career or educational path to facilitate employment goals.

b. Individuals will demonstrate greater acuity with basic job readiness concepts.

c. Increase self-awareness and advocacy skills related to independent living and employment.

d. Increase the individual's employability and competitiveness for available and desired jobs.

e. Ensure that the individual is ready to meet the ongoing demands and expectations of employment.

f. Increase individual's knowledge of different workplace environments.

2) Increase awareness and break down myths and barriers held by family members, employers, teachers, healthcare workers, and the community.

a. Networking and education reinforce that individuals with disabilities are qualified for positions.

b. Educational opportunities to provide information related to hiring practices, accommodations

The project consists of Pre-Employment Transition Services, including:

DocuSign Envelope ID: EE2A6A47-3BB6-42AA-8AB5-178C19C40504

• Instruction in self-advocacy, which may include peer mentoring.

The curriculum allows for various options for students to participate:

1. The curriculum is a 6-week course of 22 lessons that can be broken down for students to learn skills.

2. During the school year, 22 lessons will be provided during the school year to those students transitioning from high school or college.

3. Summer programming with participation in the choice of week lengths.

We continue to provide services to individuals in Metro Atlanta, including Fulton County. We utilize funding opportunities that have allowed disABILITY LINK to provide baseline services. The funding would provide an opportunity to make a direct impact while delivering a specific curriculum and program to the community of Fulton County. The process for this would include the following:

1. Recruit a diverse class of participants for the different opportunities. disABILITY LINK will rely on our existing relationships with disability and career offices on numerous college campuses across the country to help recruit participants and post on our email, social media networks, and other internship websites. disABILITY LINK seeks to find diverse participants across disability, geography, gender, gender identity and expression, sexual orientation, race/ethnicity, and experience.

2. Students who are identified for the in-school program will be notified and begin intake packets and begin the program immediately through the school year and into the summer to complete the 22 lessons. (37 students overall through all programming)

3. Implement the different program curricula to address disability rights activism, history, and professional development. disABILITY LINK also delivers a curriculum for in-school and summer programs.

4. "Empowering Our Youth (EOY) Locating Avenues Through Peer Support (LEAPS): Pathways to Success" in conjunction with summer internship programs.

5. "Empowering Our Youth (EOY) Locating Avenues Through Peer Support (LEAPS): Pathways to Success" Summer program will have four sessions with a choice of a 1-week, 4-week, or 8-week program. We utilize the 22-week curriculum and adjust to meet different criteria throughout.

6. Plan to have an impact with specific goals:

A. "Empowering Our Youth (EOY) Locating Avenues Through Peer Support (LEAPS): Pathways to Success" in conjunction with school and summer programs- a total of 37 through in-school and/or summer programs.

B. Impacting the family with involvement of increasing independence for the young adult by providing peer support groups for the families.

C. Impacting employers through interactions with people with disabilities and realizing potential.

D. Impacting diverse and underrepresented groups through educational, behavioral, social, and advocacy skills.

E. Providing education to teachers and the community about people with disabilities.

DocuSign Envelope ID: EE2A6A47-3BB6-42AA-8AB5-178C19C40504

F. Total impact in the community (employers, parents, teachers, healthcare workers, and other community members) will be targeted at 17 individuals. The total served will include 37 students/youth with disabilities and 17 community members to equal 54.

7. Solicit participant, supervisor, and mentor feedback about the program and ways to improve it. Over the course of the program, disABILITY LINK touches base with our participants to gather feedback and suggestions. At the end of the program, participants are asked to complete an evaluation. disABILITY LINK also seeks input from supervisors and mentors. Once all feedback is collected, it is analyzed and incorporated into the planning efforts for the next year of the program.

disABILITY LINK has established a strong collaboration with various organizations, including schools, rehabilitation centers, service providers, vocational rehabilitation, and peer-led groups (locally and nationally). We have developed substantial partners in various high schools, universities, colleges, and technical schools. We are a field site for social work students, education students, occupational therapy students, and rehabilitation students, with a primary selection of students interning are people with disabilities. We have developed MOUs with Georgia State University, Fort Valley State University, Morehouse School of Medicine, Alabama and Kentucky University. We partner in a grant with Kennesaw University to provide training on youth and disabilities. We currently provide services at schools in Fulton County.

disABILITY LINK regularly collaborates with other peer-led organizations, including GMHCN, People First, NFB, Parent Network, Respect Institute, AAPD, National Council of Independent Living, Association of Programs for Rural Independent Living, Statewide Independent Council of Georgia, Walton Options, Tools for Life, and others and non-peer led organizations such as GCDD, Center for Leadership and Disability (CLD) Area of Regional Commission (ARC), Parent-to-Parent, providers, Shepherd Center, University of Kansas, Kennesaw University. We work with the City of Clarkston, rated one of the most diverse cities in the United States, and engage several local businesses, non-related disability organizations, Diversity Councils within the different Counties we serve, and schools. We also collaborate with organizations that share our information. One such organization is the Brain Injury Peer Visitor Association which includes our brochures in the hundreds of packets of information shared with newly diagnosed people with brain injuries in 25 hospitals around Metro Atlanta. In addition, we have a strong relationship with Georgia VR and the Department of Aging Services, which provides referrals to the organization.

The project addresses priority areas for the Fulton County strategic areas in Health and Human Services by developing a foundation for individuals to gain hands-on learning skills to look to the future and improve employment and educational outcomes. It identifies several aspects through the curriculum and involvement with the community, employers, parents, and teachers. In line with the priorities it:

1. Increases family and community support

2. Addresses methods of coping through peer support and mentorship

3. Addresses self-advocacy and systemic advocacy

4. It develops job readiness and/or career skills.

5. It provides opportunities for social and cultural programs for people with disabilities to gain a sense of inclusion and belonging.

DocuSign Envelope ID: EE2A6A47-3BB6-42AA-8AB5-178C19C40504

6. It promotes self-worth.

Overall, the program identifies, on a one-on-one basis, the level of their individual education and needs, assists in exploring and preparing for college or employment opportunities, provides resources to apply for internship programs they may be eligible for, learning social skills, and provides peer support for issues that they may face with social, economic, and environmental well-being. The program will also meet the goals of not only CSP funding priorities but also the MKB objectives of preparing to transition from high school into adult life either for college or a career, providing skills to enter the workforce, learning advocacy skills, and gain information on overall well-being, developing skills to start over, and prepare young adults for real-life scenarios.

Approach and Design:

youthSpark, Inc., Youth Services Center: Building Brighter Futures for At-Risk Youth will provide services to **190** clients that reside in Fulton County, with CCSP funding.

youthSpark, Inc., will provide the following activities and services in Fulton County with CCSP funding:

Our work supports the county's service category "Children and Youth Services" funding area and we anticipate we will serve 190 Fulton County youth with victimizations identified before and after initial assessment, with

DocuSign Envelope ID: F91186B9-77E6-462E-9EAC-40DCC6B0FE66

many of these youth experiencing multiple victimizations. The Youth Services Center operates on an evidence-based "screen and serve" model, where at-risk youth are provided time and safe spaces to disclose victimization experiences without threat of adjudication. Our early intervention model is designed to provide overlooked youth with a safe, affirming point of entry for life-transforming services through our Center.

The majority of the kids we serve through our Youth Services Center are involved in the Fulton County juvenile justice system or Fulton County DFCS most of whom are referred directly by these agencies. We strongly believe that effective prevention and intervention practices—such as those services we offer—must target court-involved youth exposed to violence in order to reduce the likelihood of re-victimization and mental health problems, as well as prevent future justice involvement.

To make a positive impact for all of our youth, we must not let any of our kids fall through the cracks. So, at our Center, kids, ages 12 to 18, receive crisis intervention, court and legal advocacy, trauma-informed case management, evidence-based group therapy, empowerment activities through our individual program tracks, crisis intervention and/or connections to trusted community-based support. We also recognize that when kids are not consistent in schooling and are consistently away from their home, they are unsafe and often targeted by predators and exposed to illegal activity.

Referrals:

Currently, most youthSpark clients are referred directly by Fulton County Juvenile Court. The CHINS Unit takes a proactive approach by offering resources and services on the front end to youth who commit status offenses, such as missing/runaway, wandering or loitering, ungovernable, and truancy/educational neglect. These resources and services are in place to prevent the formal filing of cases in the juvenile court. CHINS works with pre-adjudicated youth and families to prevent adjudication. Referrals also come from the Court's Probation Department, Behavioral Health Department, and Guardian Ad Litems.

Our Process:

Upon intake, each youth completes a trauma-informed assessment to determine the extent of needs, strengths, and resources, and level of case management required, which includes weekly telephone contact with the youth and parent/guardian, community support, and court advocacy. To ensure that we can effectively provide trauma-informed care for youth referrals, our assessments include the Adverse Childhood Experiences (ACE) and Basic Symptom Inventory (BSI) assessments. We are also able to review the Court's own assessments (YASI Youth Assessment and Screening Instrument, Predisposition Risk Assessment, Massachusetts Youth Screening Instrument, PDRA, MAYSI tools) to help inform a collaborative plan when applicable, ensuring we reduce the number of times youth have to discuss trauma and abuse. In the event that either of these tools indicate a need for immediate intervention, our case management team notifies our Clinical Director who conducts the Columbia-Suicide Severity Rating Scale (C-SSRS) and manages next steps. Our Clinical Director, who is a licensed clinical

DocuSign Envelope ID: F91186B9-77E6-462E-9EAC-40DCC6B0FE66

social worker, oversees the coordination of all services, including individual mental health services and crisis intervention from a trauma-informed care and systems-involved perspective. A case manager enters their details into our database, TraxSolutions, triages them based on risk factors, and works with the client to create a case plan. The case plan outlines goals for the child (and oftentimes, family) to work on while receiving services through youthSpark.

Using the results of the triage, the Center case managers then work with youth to execute their individualized case plan, based on their unique needs and circumstances. Multi-Disciplinary Team meetings (MDT's) are held to help us ensure careful coordination and smooth communication so we can troubleshoot issues and intervene as soon as possible. Stakeholders, including the family, DFCS, Probation Officers, and CHINS coordinators, often attend MDT meetings. We offer direct and enabling services, such as therapy and transportation assistance. The Center staff refer clients to qualified partners for additional support as needed.

Our Youth Services Center clients may also engage in any one of our three intensive in-house program tracks: Voices, Expressions, and Connections. Each program track is clinically-based, educational group sessions, specifically designed to align with each group's needs and values. The Voices program is for youth who have experienced or are vulnerable to sex trafficking and sexual exploitation. The Expressions program supports LBGTQ+ youth to ensure they have basic human rights, and can be open, honest, and safe and feel free to express their gender at home, school, work, and the community. The heart of Connections centers around consistent conflict-resolution, anger management support aimed towards youth who have a history of maladaptive expressions of anger, conflictual relationships, family disruption, runaway behaviors, and grooming or recruitment into gangs or trafficking (victims or exploiters). The goal for Connections is to ensure that "every youth is able to recognize, discover, and find alternative ways to ease, express, resolve internal/in-home conflict and feelings of anger – resulting in home stabilization."

Partnering with the Fulton County Juvenile Court, we work to best identify appropriate youth for participation in these programs. These programs are designed to work collaboratively with vetted community partners to increase school attendance, decrease running away or homelessness, and build critically-needed educational and leadership skills. These programs provide each client with evidence-based trauma-informed assessments and clinical case management using a system of care approach.

youthSpark staff offer meals and transportation assistance to minimize youth's barriers to consistent participation. Specialized, trained youthSpark staff facilitates the group sessions. We have taken care to hire staff who are uniquely positioned to connect on a personal level, have previous success with similar clients, and have also undergone cultural competency training. Another key component of our programming is to provide extensive clinical case management and direct services to victims by also building formal relationships with verified community services providers, rather than attempting to recreate all in-house services ourselves.

DocuSign Envelope ID: F91186B9-77E6-462E-9EAC-40DCC6B0FE66

Providing our kids with educational resources that enhance their ability to succeed is also central to our work. Across all of our program tracks, one key specific objective includes helping each of our kids to (1) strengthen their career and education skills and knowledge, (2) expose them to potential career pathways, (3) and develop strategies to strengthen their academic outcomes. We do this, for example, through employment coaching, entrepreneurship, and other skills-based opportunities. Uniforms, school supplies, and public transportation cards are provided through the Center to ensure that our kids remain in school. We also know that not all of our kids will be bound for college, so we work to expose them to other career possibilities like those found in the trades (i.e., electrical, construction, etc.).

In addition, because many of the kids who we serve come from families requiring financial assistance to meet their daily needs, it is important to address economic stability as well. Emergency assistance is provided when needed for the youth and families, and we individualize each response after we have exhausted other existing community supports. Because so many have so little, the Center also maintains meals and snacks in our Center, and a resource closet, the Dream Closet, to assist youth with clothing and personal items.

Lastly, youthSpark leverages our unique position within the Fulton County Juvenile Court to improve the effectiveness of affiliated service providers and public agencies. We offer training and advocate for systemic changes, such as providing LGBTQ+ training for Fulton County Juvenile Court staff.

YouthSpark's project aligns the following CSP funding priority in the Children and Youth Services category to "Ensure Safety and Justice by providing alternatives to activities and contributing factors that lead to unhealthy behaviors in children and youth."

Our work will result in:

--Safe environments through prevention of youth violence and/or delinquent behaviors by targeting youth who are at enhanced risk for violence/delinquent behaviors

--Changing the life-trajectory for those youth who have already demonstrated violent or serious delinquent behaviors by providing comprehensive, multi-component, tertiary interventions addressing a constellation of risk factors

-- Positive family support to foster a sense of belonging and trust

--Addressing mental health, depression, stress, trauma, and anxiety among teens which may be due to adverse events in their lives

PROVIDES COMMUNITY COLLABORATIVE RELATIONSHIPS TO ASSIST ORGANIZATION IN ADDRESSING THE NEED: youthSpark works in collaboration with many community partners throughout the

DocuSign Envelope ID: F91186B9-77E6-462E-9EAC-40DCC6B0FE66

year. Our primary program partner is the Fulton County Juvenile Court. As an independent nonprofit organization housed within the Court, our collaboration with its probation officers allows us to meet regularly with the officers and access their reports, including such things as school attendance logs. We also formalized a joint partnership with the Children's Advocacy Centers of Georgia's (CACGA) CSEC (Commercial Sexual Exploitation of Children) Response team and the Georgia Center for Child Advocacy to collaboratively serve minor victims and other high-risk youth. This partnership allows us to maintain regular multidisciplinary meetings to ensure therapy and residential services, law enforcement coordination, and court advocacy needs are in place. It also reduces case management hours previously spent coordinating services (like residential treatment to WellSpring Living and the Receiving Hope Center) where efforts and information are often duplicated. Additionally, we work closely with other nonprofit partners who are also housed within the court, Atlanta Court Appointed Special Advocates (CASA), and the Truancy Intervention Project. In addition, we partner closely with representatives in local metro area jurisdictions, including the Atlanta, Sandy Springs, and College Park Police Departments.

We continuously maintain relationships with other community partners and organizations who offer their time, talents, and treasure to our kids. Corporate partners such as Verizon, UPS, Federal Home Loan Bank, and American Family Insurance provide financial support to ensure summer program opportunities that introduce a variety of skills-based and career exploration workshops. Agencies such as Youth Build, Urban League of Atlanta, and academic partners at Spelman College and Georgia State University also help us extend our reach by supporting our agency's mission and individual client needs. Our friends at COR help ensure families have access to food and educational support, particularly those in the Carver Schools cluster. When victims who we are serving turn 18 years old, our support does not stop here. We work directly with the Empower Her Network to ensure those young women are able to remain connected to services and propel them into independent adulthood through career, education, and personal advancement.

youthSpark relies heavily on trusted, dedicated individuals who serve as volunteers or official community ambassadors to help ensure we remove barriers to our kids receiving services, such as Dr. Angela Brown (a licensed counselor) who serves as a special mentor to high-priority girls outside of our Center's walk-in hours. We have also held long-term relationships with two contracted transporters to ensure our kids who need it are able to safely attend group sessions every week. Without this service, we would not be able to maintain consistent contact, improving their overall outcomes.

Explanation of Funding Details:

youthSpark will expend $40,000 in CSP funds to support Youth Services Center costs for serving 190 Fulton County clients in 2024. In 2023, we outlined in our budget request (of $75,000) that we would serve 155 Fulton County youth. In 2024, because of the increase in the number of youth served over that year, we are anticipating serving 190 youth, an increase of approximately 23%. Our 2024 budget proposal includes $32,000 for direct services, which provides for our program clinical director, deputy program director, client support specialist, and case managers, supplies and activities for weekly group sessions (workbooks, art supplies, etc.); outside activities and outings for our program tracks, and course materials. It also includes financial assistance for emergency clothing/food/shelter, community outreach, and other victim outreach costs. Emergency and individual client assistance is available for youth who require help during emergency situations and/or meet individual client needs to support their upward progress. This includes such costs related to school, jobs, medical assistance, and basic necessities.

We will also use a small amount for meals and snacks for those youth who have emergency food needs, or meals to support in-person client meetings/groups. This is often the only healthy meal they receive in the week—and we keep our Center kitchen stocked with healthy snacks for youth who visit. Other expenses include our annual recognition ceremony, back-to-school and holiday events, supplies for additional workshops, and transportation for our kids to travel to and from the Center (via driver services, MARTA).

youthSpark will also use $6,000 for operational costs for staff education, training, and meetings, client-related staff travel, office supplies, printing, and postage. In addition, it will include operational costs for technology platforms. Of our operational expenses of $6,000, we would include $1,000 for these technologies. In addition, we will allocate $1,000 of our $6,000 for operational expenses towards our sanctuary training certification. The Sanctuary Model has been implemented throughout the country and has also been introduced to the Fulton County Juvenile Court. The Sanctuary Model is a blueprint for clinical and organizational change which, at its core, promotes safety and recovery from adversity through the active creation of a trauma-responsive community. A recognition that trauma is pervasive in the experience of human beings forms the basis for the Sanctuary Model's focus not only on the people who seek services, but equally on the people and systems who provide those services. The Sanctuary Model will help us provide trauma-responsive practices across all program operations using a process which will build internal capacity and increase sustainability of practice.

youthSpark will expend $2,000 for administrative support and management staff oversight.

These costs are reasonable per comparable, fair-market value costs for enabling and direct services, administration, and management. The budget is built on the resources required to achieve our program goals to serve 190 Fulton County youth and to train our community partners on proactive, supportive policies. The total Youth Services Center budget for 2023-2024 of $619,560 represents a per client cost of approximately $2,881.67 annually (for ALL clients served at 215 youth total). Fulton County CSP funds will support approximately $210.52 per youth for 190 youth.

Program Performance Measures:

youthSpark, Inc. agrees to track and report program performance to the Fulton County Department of Community Development.

County Defined Performance Measure(s):

Children and Youth: Number of youth involved with or at risk for involvement with the Juvenile Justice System...

Disabilities: Not Applicable

Economic Stability: Not Applicable

Health and Wellness: Not Applicable

Homelessness: Not Applicable

Senior Services: Not Applicable

Veterans Services: Not Applicable

The following program measures/ Key Performance Indicators ("KPI's") will be utilized to track and report program outcomes for the Fulton County residents supported with CSP funding, during the funding period 01/01/2024 through 12/31/2024:

In 2024, we aim to serve 190 unduplicated Fulton County youth through our Youth Services Center. Our success continues to be defined by our ability to provide a safety net of evidence-based clinical and community-based direct victim services that ensure youth are: (1) improving their mental, emotional, and social health; (2) addressing factors that lead to court involvement, running away, and truancy; and, (3) modeling/demonstrating healthy communication, stress, and/or anger management techniques that will allow them to reduce their justice system involvement and reach their long-term goals.

Every child we serve through our Center comes to us at different points in the year, depending on the time of referral. They also require varying levels of support. For example, we might welcome a child into our Center who simply needs a few school supplies and a referral for self-sustaining services offered by one of the many partners

DocuSign Envelope ID: F91186B9-77E6-462E-9EAC-40DCC6B0FE66

we collaborate with every day. These cases are considered a "pass through," as they may only require minimal intervention (Tier 1). Most youth we serve require more extensive interventions.

Tier 2 cases have had several contacts with the Center over the course of a 12-month period, as well as contact with other corroborating parties such as the probation department, law enforcement, or other court personnel. These clients have presenting problems that will require further supportive interventions and resources to stabilize them. This tier level may also be assigned to a youth who has shown progress after interventions at a higher tier level and is moved to our alumni group or is being connected to other programs, but is still receiving regular support from a case manager to ensure transitions happen smoothly.

Clients assigned Tier 3 have presented with significant need (e.g., require individual or group mental health intervention due to a traumatic event, experiencing educational disconnection and permanency issues). Clients in this tier may be candidates to participate in our youth groups, Connection, Voices, and Expressions.

Tier 4 clients are those who meet the criteria for Tier 3, but are in an acute crisis that requires immediate crisis management.

youthSpark's overall goal is to make sure no child experiences further trauma, abuse, or exploitation. The following are our Youth Services Center goals and what success looks like:

We seek to achieve these program-specific objectives by providing case management, services, group sessions, and referrals tailored to each population group throughout the year. youthSpark also offers field trips for recreation, guest speakers, and extracurriculars to all participants. Lastly, youthSpark celebrates our clients' accomplishments by holding regular events and a Recognition Ceremony at the end of each cohort.

MAJOR MILESTONES TO BE ACHIEVED WITH A SUPPORTING SCHEDULE: Since our work is ongoing and services are tailored to each individual, youthSpark measures progress using information from our team and data collected using our electronic data management system, TraxSolutions. The assigned case manager works with each youth and their assigned multi-disciplinary team (family, court, school liaison, partner service providers, etc.) to monitor their progress towards achieving case plan goals. Each quarter, we aim to serve approximately 48 youth to meet our goal to serve 190 Fulton County youth annually.

youthSpark measures program-level milestones using quarterly benchmarks that align with our fiscal year. EACH QUARTER IN 2024 OUR SCHEDULE INCLUDES:

--48 unduplicated Fulton County youth across the abuse continuum coming into the Center are screened to determine appropriate tier level (measured by number of referrals and intakes).

--100% of youth coming into the Center are screened and served to determine appropriate tier level of support

DocuSign Envelope ID: F91186B9-77E6-462E-9EAC-40DCC6B0FE66

--Enroll 75% Tier 2-4 youth with tier-specific case management which will improve their mental, emotional, and social health by addressing the factors that lead to court involvement, runaway attempts, and truancy as measured by BSI pre- and post-tests.

--90% of participants complete an individual action plan

--100% of youth who need to be in group are enrolled in a group program

--85% of those youth make progress on their Individual Development Plans, stabilize, and show improvements in psychological distress as measured as intentional contact with their individual case manager to address their identified service needs

--75% of youth in group programs demonstrate/model healthy ways to (1) strengthen positive peer/adult relationships; (2) understand/express their thoughts and feelings; (3) develop/express positive body images; and, (4) navigate difficult social situations

--100% of youth participating in summer group programs strengthen career/education skills and knowledge, are exposed to potential career pathways, and develop strategies to strengthen academic outcomes

Additional milestones for our Center, overall, include youth participation in our annual summer program activities to learn new skills and explore and our annual Youth Recognition Ceremony which takes place each year in December.

DATA COLLECTION TOOL(S)/ SOURCE(S) USED TO REPORT PROGRESS ON PERFORMANCE MEASURES: Our Case Managers track client progress using the TraxSolutions database, which staff use to collect and store data and measure individual progress towards achieving case plan goals. We use validated pre- and post-tests that measure client outcomes by each domain, and a monthly client satisfaction survey. Other measurement tools include attendance logs, intake and case plans, satisfaction surveys, and observation reports.

COUNTY- AND AGENCY- DEFINED PERFORMANCE MEASURES: youthSpark will collect and report data on Children & Youth Services county-defined performance measures (Number of youth involved with or at risk for involvement with the Juvenile Justice System who demonstrate decreased or no delinquent behaviors i.e. truancy, in school suspension, out of school suspension, etc.):

175 of 190 youth served= Number of youth involved with or at risk for involvement with the juvenile justice system who demonstrate decreased or no delinquent behaviors (i.e. truancy, in school suspension, out of school suspension, etc.) through their contact with the Youth Services Center.

DocuSign Envelope ID: F91186B9-77E6-462E-9EAC-40DCC6B0FE66

This will help us achieve Fulton County's goals to (1) create safe environments through prevention of youth violence and/or delinquent behaviors by targeting youth who are at enhanced risk for violence/delinquent behaviors; (2) change the life-trajectory for those youth who have already demonstrated violent or serious delinquent behaviors by providing comprehensive, multi-component, tertiary interventions addressing a constellation of risk factors; (3) create a positive family support to foster a sense of belonging and trust; and, (4) address mental health, depression, stress, trauma, and anxiety among teens which may be due to adverse events associated with COVID, community violence, racism.

Agency Defined Performance Measure(s):

Our agency performance measures for the Youth Services Center that we will report on include:

--190 Fulton County youth are screened across the abuse continuum coming into the Center to determine appropriate tier level (measured by number of referrals and intakes).

--100% of youth coming into the Center are screened and served to determine appropriate tier level of support

--Enroll 75% Tier 2-4 youth with tier-specific case management which will improve their mental, emotional, and social health by addressing the factors that lead to court involvement, runaway attempts, and truancy as measured by BSI pre- and post-tests.

--90% of participants complete an individual action plan

--100% of youth who need to be in group are enrolled in a group program

--85% of those youth make progress on their Individual Development Plans, stabilize, and show improvements in psychological distress as measured as intentional contact with their individual case manager to address their identified service needs

--75% of youth in group programs demonstrate/model healthy ways to (1) strengthen positive peer/adult relationships; (2) understand/express their thoughts and feelings; (3) develop/express positive body images; and, (4) navigate difficult social situations

--100% of youth participating in summer group programs strengthen career/education skills and knowledge, are exposed to potential career pathways, and develop strategies to strengthen academic outcomes

House of Cherith will provide proven interventions in survivor services focused on positively impacting the Fulton County CCSP Homelessness Funding Priority while also supporting other CCSP funding priority areas of Health and Wellness, Economic Stability, and Disabilities through its conceptualized continuum of care that collectively addresses safety, stability, and reintegration for survivors. Key activities include:

Safe Supportive Housing (Emergency, Long-Term/Transitional): HOC gives each family unit a secure, dignified room of its own with communal dining and living areas. HOC maintains a range of housing options to address the full continuum of care:

- Safe House (12 rooms), providing food, clothing, and emergency safe housing for adult female survivors.
- HOC 1 & 2 (26 rooms), providing long-term safe housing with the comprehensive support needed for adult survivors to become healthy emotionally and physically, maintain sobriety, and work toward more independent living.
- Family Care (rooms for 3 mothers with their children), offering the same services as HOC's other programs along with childcare and family counseling and a way for mothers to remain with their children while they both recover.

When survivors are ready to graduate, HOC works with each to place them in safe, stable housing where they can maintain their health as they reintegrate into society.

Case Management & Service Planning: HOC Case Managers work closely with each survivor to assess service needs, provide information about their rights to services, and establish an individual service plan. Case managers identify and make referrals for services, coordinate services, advocate on behalf of survivors, and provide emotional and moral support. Case management also works with residents to access eligible benefits.

Mental Health Care: A key component of HOC programming is the presence of full-time clinicians to ensure residents receive ongoing services to address mental, physical, and emotional health. HOC focuses on gifts and strengths assessments to empower each survivor and incorporates curricular elements focused on addiction and substance abuse, sexual recovery, suicide prevention, and trauma recovery. Residents receive weekly individual and group counseling as well as substance abuse sessions. HOC also offers options such as art therapy, equine therapy, yoga therapy, music therapy, and play therapy on a rotating basis. In addition to focusing on safety and healing relationships, programming helps each resident to regulate her emotions and to combat stigma as she learns to see herself as a survivor rather than a victim.

DocuSign Envelope ID: 55109555-6784-4EBF-AE1F-79D44036D767

Comprehensive Support Services: Comprehensive services for all residents promote socialization, recovery, wellness, self-advocacy, development of a support system, and maintenance of community living skills.

- Nutrition & Meals. HOC provides three meals a day. Residents learn about nutrition and assist with meal preparation and clean up as they develop skills for independent living.
- Clothing & Hygiene. HOC not only meets residents' immediate needs for clothing and personal supplies but also offers an onsite boutique and salon for survivors to practice decision-making and reflect their new identity as a survivor rather than victim.
- Life Skills Training. HOC programming incorporates basic life skills such as cooking, health and wellness, personal hygiene, self-care, cleaning and laundry, and independent living skills. Programs also focus on soft skills such as healthy communication, boundaries, and cultivating positive relationships. Residents attend financial foundations classes and practice budgeting. Mothers attend special parenting classes.
- Medical Care. HOC maintains close partnerships with medical and dental providers to ensure residents receive annual exams, vaccinations, and routine medical, dental, and vision services. Staff help schedule and accompany residents to appointments.
- Fitness. HOC offers regular fitness opportunities to promote overall health.
- Transportation & Financial Assistance. HOC provides transportation and financial assistance for residents to access services and employment opportunities on their path to independence.

House of Cherith prioritizes survivors' needs and well-being, empowering each resident to view herself from a position of strength as a survivor rather than a victim, adhering to the strictest confidentiality procedures, and creating safety plans. HOC has received Gold Certification from the Safe House Project indicating the provision of the highest-quality programming. HOC's residential recovery programming addresses the following "Health and Human Services" Strategic Objectives and KPIs within the Health & Human Services priority area:

1. Prevent illness by engaging in healthier behaviors. Upon arrival, all residents have access to regular health care and mental health care, including substance abuse treatment, through HOC's strong partnerships. This increases the percentage of residents engaged in substance abuse treatment.

DocuSign Envelope ID: 55109555-6784-4EBF-AE1F-79D44036D767

2. Prevent health disparities. All HOC residents have access to regular meals three times a day to reduce the percentage of residents who experience food insecurity. HOC also employs dedicated behavioral health specialists, increasing the number of people who receive services.
3. Support the vulnerable. HOC residents receive residential recovery services that help increase the number of people who gain permanent supportive housing with ongoing access to the services they need to increase self-sufficiency.

These interventions address three Fulton County CCSP funding priorities in the primary service category of Homelessness.

1. Permanent supportive housing options for the chronically homeless. When victims do not receive the specialized services needed to overcome their history of abuse, they can spiral into a lifetime of homelessness. HOC ensures they receive case management, health care, mental health care and counseling, substance abuse treatment, and career and life skills training to help them obtain more permanent housing where they can maintain their self-sufficiency.
2. Transitional housing options for homeless population affected by mental health, substance use disorders, and violence. Women who have been trafficked must quickly find safe, supportive housing to manage the trauma, substance use, and mental health disorders they battle. HOC partners throughout the Metro Atlanta area to ensure each survivor finds suitable housing where she can reclaim her life. HOC's long-term programming ensures women have access to safe, supportive housing throughout their healing journey.
3. Rapid rehousing. HOC provides a continuum of care from emergency to transitional to permanent housing for survivors of trafficking. HOC works with the Continuum of Care and Coordinated Entry process to follow guidelines for victims that minimize frustration and maximize the use of resources so that homelessness for victims is rare, brief, and nonrecurring. Women who enter Safe House are connected with resources to rehouse them within 30-45 days.

In HOC's efforts to fill in the gaps of services in the anti-trafficking movement to best prevent trafficking, reach overlooked populations, and serve trafficked survivors, HOC collaborates with dozens of partners across sectors throughout the region in the fight for freedom from exploitation.

- Law enforcement partners that send clients to HOC and that HOC calls for help or resources include Atlanta City Detention Center, City of Atlanta's Office of the Public

Defender, Community Court, Fulton County District Attorney, Fulton County Annex, Fulton County Adult Supervision, the Georgia Public Defender, and the Georgia Bureau of Investigation. Council. These relationships help agencies on both sides implement structures and solutions to connect more survivors with the support they need to break free from those who seek to exploit them, avoid traumatization, and reclaim hope.

- Wilbanks Child Endangerment and Sexual Exploitation (CEASE) Clinic, Atlanta Legal Aid, and the Atlanta Volunteer Lawyers Foundation help survivors access the legal assistance they need to manage their cases.
- HOC gets more than 100 referrals from Frontline Response each year and also partners with Wellspring Living, Gigi's House, and other survivor-serving programs. These established relationships help more survivors access residential programs that best support their needs.
- HOC is a key partner of MOST (Men Opposing Sex Trafficking), providing essential training for its members on how to identify when trafficking is taking place and what they can do about it.
- City of Refuge (COR) helped launch HOC ten years ago, and the two organizations continue to collaborate closely to serve the most marginalized. COR assists with meals, utilities, security, and access to tuition-free school and workforce development services that can increase self-sufficiency and promote reintegration into society. HOC provides training and trauma-informed support for COR housing program staff to identify and support survivors.
- Mercy Care, Recovery Consultants of Atlanta, the Georgia Department of Public Health, Grady Health Systems, Narcotics Anonymous, Penfield, Willowbrook Psychiatric Center, and Ridgeview Institute help ensure residents receive critical medical, dental, and mental health services.
- Free fab'rik provides an onsite clothing boutique while Back to You Salon and Van Michael Salon offer a safe place for each resident to feel loved and valued as she begins to reflect her new identity as a survivor rather than a victim.
- House of Cherith is a member of the Georgia Statewide Human Trafficking Task Force and an active participant in the Georgians for Refuge, Action, Compassion, and Education Commission (GRACE Commission) to combat human trafficking and seek justice for survivors.

All these established relationships keep HOC and its numerous collaborators and partners well-informed of the landscape in serving survivors, helping them best work together to address the

holistic needs of survivors of human trafficking. Together, we empower more survivors to reclaim, renew, and rekindle their hopes for a successful future free of exploitation.

The following program measures/ Key Performance Indicators ("KPI's") will be utilized to track and report program outcomes for the Fulton County residents supported with CSP funding, during the funding period 01/01/2024 through 12/31/2024:

The overall goal is to provide a safe space for survivors to recover from the trauma of sexual exploitation that they have endured, recognize that they are valued and respected, and prepare to live a self-sufficient life of hope. While each journey is individual, the following offers a general timeline with goals and outcomes for each phase of the journey:

· Safe House

The primary goal of Safe House is to deliver safe emergency housing and support services where women can make clear, sober decisions about next steps. Key outcomes are that each resident will be discharged to HOC long-term or another long-term program:

o substance/alcohol-free

o emotionally stable

o within 30-45 days of intake.

· Long-Term & Transitional (HOC1 and HOC2 homes)

The primary goal is to deliver safe and sustainable transitional housing and support services where women are able to become healthy emotionally and physically, maintain sobriety, and secure employment as they recover from their trauma and prepare to live a self-sufficient lifestyle. Key outcomes are that 12 months after discharge, graduates

o are living independently in permanent housing

o feel safe in their new environment

DocuSign Envelope ID: 55109555-6784-4EBF-AE1F-79D44036D767

- o have access to reliable transportation
- o adults are employed and/or accessing benefits while children's behavior is generally school appropriate
- o have visited the dentist and doctor annually and are being treated for long-term mental health needs.

House of Cherith's evaluation tools are designed to help the organization monitor success based on the ability to guide each survivor on her journey to recovery and to course-correct as necessary. The first tool is the referral spreadsheet maintained by the intake team for the adult programs and the HSP for the minor program. This provides quantitative information on the number of intake inquiries and the sources of referrals handled.

HOC collects demographic and biographic information on the original application form for all survivors. This form will be used to collect age, race/ethnicity, gender, disabilities, homeless status, and veteran status. The organization then maintains a spreadsheet of client enrollment to include the date of entry, the number of survivors housed in emergency and long-term programming, when a client is referred to long-term care, and when clients are discharged or graduate from the program. This data collection aligns with Anti-Trafficking Information Management System and HIPAA requirements.The application form also includes trauma & substance abuse history, sexual abuse/trafficking/domestic violence history, safety needs, and triggers. The Case Management team then documents key metrics such as the number and types of advocacy, therapies, and referrals provided. Program staff are responsible for maintaining accurate data and compiling this information into regular reports. HOC uses the ClientTrack case management platform. All information is compiled into annual reporting to inform ongoing program planning and outcome targets.

Approach and Design:

CaringWorks, Inc, CaringWorks Supportive Housing will provide services to **100** clients that reside in Fulton County, with CCSP funding.

CaringWorks, Inc, will provide the following activities and services in Fulton County with CCSP funding:

12.1 Activities and Services: CaringWorks activities and services will address homelessness by providing all clients in our programs with housing that is appropriate to their needs and desires. The choices include either permanent supportive housing (long-term) or transitional housing (up to two years) in the Hope House Residential Addiction Recovery program. In addition, clients are offered intensive case management services, access to mainstream benefits, employment assistance, food, clothing, medical assessment, life-skills support, mental healthcare, substance abuse treatment, and linkages to essential community resources (documentation obtainment, legal services, credit repair, healthcare, and more). CaringWorks is a CORE Medicaid Provider of Behavioral Health services, residents with Medicaid or other health insurance have access to CaringWorks Behavioral Health programs. To support healthcare access for residents without health insurance, CaringWorks continually seeks public and private funding to support those who are uninsured. Additionally, CaringWorks advocates for clients

DocuSign Envelope ID: CDB41DDA-7B3F-4721-92A5-E4224BC031DC

to obtain Social Security Disability Benefits by collaborating with First Step Staffing to help our residents navigate the rigorous application process. CaringWorks behavioral health includes individual and group therapy, psychiatric services, residential and outpatient addiction treatment, relapse prevention programs, psychosocial rehabilitation, and peer support.

12.2 How the Services are Accomplished – CaringWorks accomplishes our goals to provide immediate housing and supportive services to homeless clients by 1) participating in the Fulton County Continuum of Care (CoC), 2) by employing best practices in housing and behavioral health, and 3) by working extensively with partner agencies in Atlanta's services community. CaringWorks has been actively providing services in Fulton County since 2005, when Hope House opened. All clients seeking permanent supportive housing are referred to CaringWorks through the Fulton County Continuum of Care's (CoC) Coordinated Entry system. Coordinated entry assesses individuals, prioritizing them for housing and services based upon their level of need. CaringWorks is an active partner with the CoC, providing 275 apartments for permanent supportive housing and 70 transitional beds for Fulton County citizens, particularly individuals with disabilities. Homeless men seeking housing and addiction recovery are referred to Hope House Residential Treatment Center by the Fulton CoC, the Atlanta Veterans' Administration, the Fulton County Public Defender's Office, or by the State Department of Behavioral Health and Developmental Disabilities (DBHDD).

Our expertise includes engaging and serving individuals with mental illness, substance abuse issues, or co-occurring disorders. Our clients include men and women of all ages, Veterans, people with HIV/AIDS, and returning citizens. At Hope House, CaringWorks has the only residential treatment program in the region for homeless individuals who are deaf or hard of hearing. This program is named Deaf Bridges to Recovery.

Clients are either housed at a CaringWorks facility (Hope House in downtown Atlanta) or in permanent supportive housing where CaringWorks typically holds the master lease. CaringWorks pays the rent and utilities on behalf of clients, ensuring housing stability. CaringWorks also mitigates challenges that can arise between property management and clients.

Supportive services are integral to helping clients remain stably housed. Once a client has stable housing they are assigned a case manager. The case manager maintains a low caseload and is therefore able to provide intensive support. They help each client develop a Person-Centered Plan (PCP) focused on self-sufficiency. In accordance with the client's goals, the case manager provides referral to resources within CaringWorks and linkage to other system partners. The case manager then provides follow up services, assisting clients to achieve their plan. Case managers, along with peers, other professional staff, and alumni, supply information, education, and inspiration.

Community meetings are held regularly and clients who are not working are encouraged to get involved in community events and volunteering. CaringWorks Recovery@Work employment program and collaborations with First Step Staffing and other employment partners assist clients who can work with job preparation, training, job search and placement. For those who are unable to work due to severe disabilities, CaringWorks has an MOU with First Step Staffing to provide SOAR Benefits Counselors to represent and advocate for our clients as they navigate the arduous process of applying for Social Security disability benefits, Veterans benefits, and other mainstream entitlements.

12.3 CSP Health and Human Services Key Performance Indicators- CaringWorks Supportive Housing program addresses three of the four Health and Human Services Performance Indicators under the goal of "Support the vulnerable residents in our social services."

DocuSign Envelope ID: CDB41DDA-7B3F-4721-92A5-E4224BC031DC

1. **At least 100 low-income Fulton County residents with disabilities will receive access to permanent supportive housing and support services. CaringWorks' intensive case management is designed to ensure that clients' individual needs are addressed, resulting in housing stability. In addition, CaringWorks has developed the expertise to help specific subsets of the population such as Veterans, individuals with AIDS, returning citizens, the elderly, people with conditions such as mental health, substance use disorders, and individuals who are Deaf and/or hard of hearing. Clients with intellectual or developmental disabilities who wish to live independently but need support can remain at CaringWorks housing until they are able to become fully independent.**

2. **At least 100 seniors and people with disabilities will have access to home-based services. All residents referred to and enrolled in the permanent supportive housing program have a diagnosed disability. Over 50% are over the age of 55.**

3. **CaringWorks impacts the percentage change in the homeless population each year. As one of the largest suppliers of permanent supportive housing, the agency is responsible for housing and providing support services for over 300 people in Fulton County at any given time. In the course of the year, over 600 Fulton County residents will be helped by CaringWorks.**

CaringWorks Supportive Housing program addresses three of the CSP funding priorities. They are as follows:

1. **CaringWorks will provide permanent supportive housing options for 60 individuals/households who are chronically homeless as defined by HUD. Program participants are encouraged to work toward self-sufficiency. However, they may remain in supportive housing for as long as they need. Year after year, over 90% remain permanently housed, either with CaringWorks or in unsubsidized housing. Permanent supportive housing is available to individuals or families as long as the adult has a diagnosed disability. The agency's specialty is working with individuals with a behavioral health diagnosis.**

2. **CaringWorks will provide transitional and bridge housing options for 40 homeless men who are affected by mental health and/or substance use disorders. Hope House provides housing for up to 2 years, Level III ASAM Addiction Recovery Services, daily meals, and comprehensive wrap around support.**

3. **CaringWorks will provide homeless prevention and awareness strategies including those related to mental health and/or substance use disorders for 100 homeless individuals/households. CaringWorks provides services, and connections to resources that are designed to stabilize and strengthen client resiliency. CaringWorks supports clients to gain a reliable income – through work for those who are able, or through Social Security Disability if they are unable to work.**

12.5 Community Collaboration - CaringWorks works closely with our service partners to provide resources that build skills and resiliency among our clients. Collaboration provides a broad spectrum of support to assist clients to achieve the personal goals they have identified in their Personal Care Plans. CaringWorks' collaborative partners and their roles/responsibilities are as follows:

1. **Mercy Care – Medical care, behavioral health treatment, vision, and dental services**

2. **First Step – Job placement and representation for Social Security disability benefits**

DocuSign Envelope ID: CDB41DDA-7B3F-4721-92A5-E4224BC031DC

10. **Fulton County Continuum of Care – Convenes non-profit, government and business leaders to solve the problem of homelessness in Fulton County. Administers the coordinated entry system, ensuring the most vulnerable Fulton County residents are prioritized for housing and services.**
11. **United Way of Greater Atlanta – Provides linkage to other system partners, direct funding, and educational opportunities for CaringWorks staff.**

13.3 Data Collection Tools and Sources

CaringWorks' case managers have primary responsibility for entering program data. They meet with clients initially to enroll them in the program and then meet regularly to gather follow up information. Initially, information such as client demographics, former housing status, and specific challenges (i.e. type of disability, veteran status, criminal history, number of obstacles to stability) is collected. Care Coordinators then continue to collect and record information related to progress toward goals. That enables them to provide linkage to needed resources and to ensure clients are progressing toward self-sufficiency. Case information is maintained in paper files securely located at service sites. In addition, key performance data is input by the care coordinators into ClientTrack, the primary HMIS system of homeless providers in Georgia. ClientTrack will be the tool used to report on the proposed county-defined and agency-defined Fulton CSP performance indicators. Data is reviewed monthly by CaringWorks' program managers. In addition, the data is reviewed by the corporate Quality Assurance Coordinator. She inputs key measures into our corporate dashboard. She also leads our corporate Performance Improvement Committee (PIC) which meets quarterly to review feedback, incidents, and results. We also randomly audit case files to ensure compliance with CaringWorks' procedures. Finally, we engage an independent evaluator to conduct a customer satisfaction survey, enabling clients to provide additional qualitative feedback. As you can see, we are serious about monitoring data at CaringWorks. We thrive on continuing to improve the ability to positively impact the health, well-being, and self-sufficiency of our clients.

Agency Defined Performance Measure(s):

Agency Defined Performance Measures:

DocuSign Envelope ID: CDB41DDA-7B3F-4721-92A5-E4224BC031DC

2. From 1/1/24 – 12/31/24, 50% of clients will either maintain or increase their income and/or mainstream benefits.

After-school/Out of School Programs to help bring up academic and social/behavioral levels of school-aged youth

Scholars receive support out of school, including academics, social and emotional benefits, higher grades and test scores, and increased attendance. Activities include after-school academic enrichment support, provided Monday through Friday each day APS is in session, and summer camp to reduce learning loss during June and July. In addition to one-on-one support to help with homework, TSH teaches financial skills to help Scholars overcome financial adversity later in life. TSH also ensures Scholars participate in daily exercise, learn about healthy eating, and receive nutritious food each day. Scholars must maintain regular attendance at school and at TSH, ensuring they have a safe place to go that will help prevent unhealthy behaviors and reduce the risk of them participating in violence and/or delinquent behaviors.

TSH programming and activities are organized around a five-point "Scholar Model":

(1) Academic Enrichment: Scholars receive individualized attention every day after school from experienced staff members, who provide homework assistance and interactive tutorial lessons. Assistance is provided based on an individual plan designed to meet the specific needs of each Scholar. In the computer lab, the Scholars also benefit from online educational games and a literacy skill development program. Scholars requiring additional help with reading skills are paired with retired educators who can tutor them one-on-one.

(2) Cultural Enrichment: Scholars are introduced to a wide variety of new experiences during the year. Club meetings based on their interests and needs offer participation in music, dance, arts and crafts, the sciences, and other topics. Scholars vote on specific projects of interest to them. Topics have included biology, electrical engineering, drones, underwater robotics, the water cycle, pollution, the food chain, fashion design, media productions, video gaming, and coding essentials. Students will have the opportunity to build skills and build on what they are learning throughout the school year and demonstrate their projects at parent meetings, in classroom presentations, and on other occasions throughout the year.

(3) Financial Literacy: Teaching financial skills helps Scholars overcome financial adversity later in life. Academic coaches, with the help of volunteers from financial institutions, engage the children in age-appropriate lessons in managing money.

(4) Civic Engagement: Scholars learn the importance of positively contributing to their community by participating in semester-long community service projects based on social challenges of interest to them. Past projects have involved eradicating hunger and homelessness and fostering environmental sustainability. For some of the children, this marks the first time they have been asked to give back to their community. This empowers them to act as contributors to the greater good.

(5) Health and Wellness: TSH is committed to the overall wellness of Scholars. It provides healthy snacks and meals, teaches lessons on the importance of physical activity, and raises awareness of health issues that most impact the community. They will engage in 30 minutes of daily physical activity and exercise according to the Georgia Department of Public Health's Shape program. TSH currently provides Scholars with healthy snacks, and once renovations to the new location are complete, it will provide a warm dinner before taking them home each evening. The children will also learn how to grow produce by working in TSH's garden and learning how to prepare it in the facility's kitchen.

Community collaborative relationships to assist in addressing the need:

TSH participates in several collaborations and looks forward to developing even more partnerships in their new neighborhood. Current collaborative relationships include the following:

Program Performance Measures:

The Study Hall, Inc agrees to track and report program performance to the Fulton County Department of Community Development.

County Defined Performance Measure(s):

Children and Youth: Number of school-aged youth engaged in/benefiting from In school/ Afterschool/ Out of School Programs...

Disabilities: Not Applicable

Economic Stability: Not Applicable

Health and Wellness: Not Applicable

Homelessness: Not Applicable

Senior Services: Not Applicable

Veterans Services: Not Applicable

The following program measures/ Key Performance Indicators ("KPI's") will be utilized to track and report program outcomes for the Fulton County residents supported with CSP funding, during the funding period 01/01/2024 through 12/31/2024:

Methods to be used and goals to be obtained:

TSH will use the following methods to reach goals relating to three Children and Youth Services performance measures:

1. Number of Elementary and middle school youth meeting target reading level
2. Number of school-aged youth benefiting from after-school/ Out of School Programs to help bring up academic and social/behavioral levels
3. Number of youth involved with or at risk for involvement with the Juvenile Justice System who demonstrate decreased or no delinquent behaviors (i.e. truancy, in school suspension, out of school suspension, etc.)

1. *Number of Elementary and middle school youth meeting target reading level*

DocuSign Envelope ID: 27966181-0E4A-4FF0-9E6A-1F40B1DED5C7

Goal: at least 50 Scholars or 63% of participants served will show incremental growth in English/Language Arts skills

Methods: TSH assesses Scholars' reading levels using an interactive educational tool, Renaissance 360, which is a comprehensive assessment tool aligned with Georgia Standards of Excellence that allows academic coaches to target instruction, measure student growth, and monitor student progress. This tool will also provide supplemental resources that help scholars practice specific areas of literacy that prevent them from performing at grade level. scholars will continue to practice their English/Language Arts skills. Renaissance 360 reporting features help staff and the Program Manager analyze student progress, Lexile levels, and areas where additional tutoring and support for Scholars are needed.

To accomplish this, TSH will provide trained academic coaches who will review scholars' progress reports for English/Language Arts, data gathered from Renaissance 360, Individualized Education Programs, and other reports that will allow them to assess their current skill level and provide appropriate supplemental support and homework tutorials. Scholars who need additional/intensive tutoring in reading skills will be paired with volunteer educators who will provide one-on-one support to address specific goals. By helping scholars learn the required skills at each level, TSH prepares them for the Milestones tests in 3rd and 5th grade.

2. Number of school-aged youth benefiting from after-school/ Out of School Programs to help bring up academic and social/behavioral levels

Goal: 95 Scholars or 95% of participants will maintain regular attendance in both school and TSH after-school programs, measured by agency attendance records.

Methods: All participants must be in good standing at school and must attend TSH's after-school program a minimum of three days per week to continue in the program. Academic Coaches prepare weekly behavior reports for parents and are available to discuss these reports. When serious concerns arise about attendance or behavior, staff members schedule a meeting with parents. If behaviors continue, a progressive redirection plan is followed, and the Program Manager offers the parents assistance in locating behavioral health services if indicated.

3. Number of youth involved with or at risk for involvement with the Juvenile Justice System who demonstrate decreased or no delinquent behaviors (i.e. truancy, in school suspension, out of school suspension, etc.)

Goal: All 100 Scholars or 100% of participants will receive safe, supervised after-school care and will be required to maintain regular attendance, both at school and TSH.

Methods: Scholars are required to attend at least three days a week to participate in the program, thereby preventing them from engaging in delinquent or unsafe behaviors during critical after-school hours. Staff members also serve as mentors and work with scholars and their parents to develop their social-emotional skills. TSH promotes mindfulness by requiring each classroom space to have a Recharge Zone (safe space). The recharge zones in each classroom include a bean bag chair, multicolored carpet squares, and dry-erase boards. These spaces allow scholars who need a moment to decompress or re-center themselves to go and regroup; scholars are encouraged to use the dry-erase boards to write out their thoughts versus demonstrating negative behavior that causes the classroom space to feel unsafe to their peers. We also assist parents in finding behavioral health services when indicated.

Easter Seals North Georgia, Inc., Early Education and Care Program will provide services to **145** clients that reside in Fulton County, with CCSP funding.

Easter Seals North Georgia, Inc., will provide the following activities and services in Fulton County with CCSP funding:

I. Activities and Services and How Accomplished

DocuSign Envelope ID: A273A3DE-8CDF-4927-BD17-78D1510B9FCD

Easter Seals North Georgia's full-year early education and care program will prepare 145, 3-5-year-old children from low-income families for success in Kindergarten and their families for self-sufficiency. This will be accomplished by providing the following services: A) a subsidized, high-quality, developmentally appropriate early education program to ensure that children acquire new skills and knowledge to prepare them for success as they enter Kindergarten. B) comprehensive services including nutrition, medical, dental, mental health, and disability to ensure that children are healthy, and C) Family Support Services to families to improve their self-sufficiency.

A. Developmentally Appropriate Early Education Program

a. Children and families are recruited from neighborhoods surrounding the schools' locations. All participating children must meet the federal income guidelines, which is 100% of the poverty level. Selection criteria is used to identify the children and families most in need.

b. ESNG uses Creative Curriculum that utilizes developmentally appropriate practices that focus on improving children's skills in the areas of cognition, language, motor, literacy, pre-writing, math, science, and social-emotional development.

c. Children participate in a full-year, accredited early childhood program.

d. Every child enrolled in the program receives an early childhood assessment using the tool Teaching Strategies Gold within 60 days of enrollment. The results of this assessment will be used to develop an individualized care plan that contains goals and objectives specific to that child. Each child enrolled in the program will have a child-specific lesson plan that will be used during the course of the program year.

e. The classrooms have specific learning centers such as fine motor area, dramatic play, reading corner, and science and math areas. Each area has specific learning objectives. Children select the different area they would like to participate in throughout the day, and teachers move through the areas with the children. Anecdotal observations are conducted by teachers a minimum of two times per week per child. These observations indicate skills observed during the educational day and are transferred into the child's GOLD report. These observations are compiled throughout the year.

f. Child outcomes: Children will receive GOLD assessments to track their developmental skill levels. GOLD is used with developmentally appropriate early childhood curricula and is based on 38 research□based objectives that include predictors of school success and are aligned with the Common Core State Standards, state early learning guidelines, and the Head Start Child Development and Early Learning Framework. GOLD is administered three times per year to track child progress.

B. Comprehensive Services

a. Nutrition: Many of the enrolled children do not receive adequate nutrition at home. Often, the meals they receive at school make up their food for the day. Each child receives breakfast, lunch, and a snack based on the USDA food guidelines. Children eat meals in a family-style to encourage conversation and teach children important concepts such as measuring, labeling, and counting. Also, through partnerships with local churches and the United Way of Greater Atlanta, children receive snack packs for weekends. We are also currently looking into an emergency food initiative due to the increase in food insecurity seen among the families we serve and their communities.

b. Disabilities: Currently, 30 percent of the children enrolled have a disability. Early intervention is critical to a child's future success in school and life. Children receive a developmental screening within 45 days of enrollment to identify children who may have developmental concerns. ESNG partners with the Babies Can’t Wait Program along with the

DocuSign Envelope ID: A273A3DE-8CDF-4927-BD17-78D1510B9FCD

Lead Education agency to provide services to children who have been identified as having special needs. Therapy services are delivered to children while they participate in our Early Learning Program.

c. Health: Children enrolled in the program will receive hearing, vision, height, weight, physical, and dental examinations. Children in need of follow-up medical care will receive those services. ESNG Family Support Advocates work with families to schedule and transport (if necessary) children to their follow-up care appointments. All children with an ongoing health issue have a developed health plan with goals and objectives. ESNG partners with Fulton County Health Department, the Auditory-Verbal Center, Prevent Blindness Georgia, and Brenau Nursing School as well as local medical and dental providers to deliver these services.

d. Child Social/Mental Health: Every child receives a mental health screening during the first 45 days of enrollment. Children who display concerns receive a full mental health assessment that is conducted by our Early Childhood Mental Health staff and, as necessary, receive services through our Early Childhood Mental Health Program. ESNG's Early Childhood Mental Health program promotes emotional and social competence and prevents, reduces, and supports young children's behavioral and emotional needs. ESNG is a pioneer in the area of early childhood mental health services providing more than 20 years of services. One of the evidenced based practices we use is The Incredible Year. The Incredible Years Program is a nationally recognized program cited as best practices by Health and Human Services. It offers specialized assessment, staff, training, and group intervention for children and parents to address children's social-emotional needs for those appropriate for and selected to participate in this project. In addition, ESNG's family support advocates have received training on the Incredible Years Basic Parent Training, which works with parents to strengthen their interactions and attachment with their children, reduce harsh discipline, and foster their children's social, emotional, and language development. We also provide Child-Parent Psychotherapy for those who have experienced trauma.

C. Family Support Services: ESNG operates under the premise that high-quality childcare is critical for all families, and low-income families often experience needs that extend beyond this service. Often families in poverty require a comprehensive approach to support services to become empowered toward self□sufficiency. Therefore, a comprehensive, high-quality child development program must be linked to a wide array of services and supports that are flexible in meeting the individual needs of the family. Case management services enable families to access resources in the community to become adept at solving immediate family concerns and empower advocacy for future family needs. ESNG provides a variety of services and programs, which will help families move toward self-sufficiency. Among them are adult basic education/ basic literacy, GED preparation, computer training, basic child development training, work preparation activities, job development, and housing, rent and transportation assistance, budgeting, financial planning, computer training, and emergency or crisis directed services. The Family Support Advocates conduct a Family Assessment with the family during the first 90 days of enrollment. Every family then develops goals in a Family Partnership Agreement. Each family works with support from the FSA's to achieve these goals over the course of the year.

II. “Health & Human Services" Strategic Priority Program Objectives.

ESNG's Early Education and Care Program addresses the following Strategic Priority Program Objectives as follows:

A. Prevent health disparities by educating residents and connecting them to available resources.

DocuSign Envelope ID: A273A3DE-8CDF-4927-BD17-78D1510B9FCD

As mentioned above under our comprehensive services our program also addresses the health and wellbeing of our children and families including nutrition, medical, dental, disability, and social-emotional services. We help them navigate finding a medical home, obtaining insurance, and even provide medical screenings, health plans, and ongoing service provision. We track their physical and mental health outcomes as well as provide services and resources as needed.

B. Help residents realize their educational potential through our community services programs

ESNG's programs and services are evidence-based and developmentally appropriate. We provide programs designed to help children master skills they need to develop and thrive no matter their ability, disability, or circumstance. Children receive developmental assessments at 3 checkpoints throughout the year using Teaching Strategies GOLD. Typically, at the beginning of the year only 45% of the children are at developmental expectations but by the end of the year 94% show that they are meeting or exceeding developmental expectations in the areas of social–emotional, physical, language, cognitive, literacy, and mathematics.

C. Support the vulnerable residents in our social services

ESNG utilizes a case management and family support approach that builds on family strengths, is culturally sensitive, links families to appropriate community resources, and empowers families toward optimal functioning and well-being. Our Family Support Advocates support families in reaching their goals, becoming self-sufficient, learning how they can support their child's learning with and without disabilities, and connects them to the right emergency resources they may need. Some resources might include housing stability, food security, continuing education including access to technology, and financial literacy tools. Last year, 154 families received housing support such as rental and utility assistance, 258 family members received services to address Mental Health challenges, 444 families received emergency or crisis-directed services including substance abuse supports and treatment, and 224 parents received job training to address unemployment. In addition, ESNG created a Family Navigator position within our Early Education Program. The Family Navigator provides care coordination for children diagnosed or suspected of ASD and their families upon receiving a referral. Services provided by the Family Navigator include but are not limited to: connecting families with internal and external services, completing classroom observations, assisting in the facilitation of transition plans, and providing classroom support to children diagnosed with ASD or suspected of ASD.

III. Children and Youth Services Funding Priorities

A. Kindergarten Readiness:

The Easter Seals Early Education and Care program for children ages 3-5 years, is a comprehensive program that prepares children to enter Kindergarten healthy and ready to meet with success. a. English Language Arts Standards, Math, and Science Proficiency: The ESNG Early Education and Care Program's curriculum focuses on improving children's cognitive, social-emotional, motor, language, literacy, science, and math scores. The Early Childhood Program is aligned with the Head Start School Readiness Framework, the Georgia Early Learning and Development Standards and the Common Core Georgia Performance Standards for K-12, which includes the English Language Arts Standards and the Math and Science Standards. ESNG also has implemented a Science, Technology, Engineering, and Math Program into our Early Education Program and implemented the Raising a Reader program to enhance literacy for the children and their families.

B. Ensure Safety and Justice - Alternatives to unhealthy behaviors in children and youth AND Programs addressing mental health, depression, stress, trauma and anxiety:

ESNG's Early Education and Care Program has a strong focus on the social-emotional development of young children. Social-emotional development refers to a child's capacity for self-confidence, trust, and empathy, as well as the capacity to develop competencies in language usage and cognitive curiosity. Strong social-emotional development is a predictor of later academic social and emotional success. The foundations of social competence that are developed in the first five years are linked to emotional wellbeing and affect a child's later ability to functionally adapt in school and to form successful relationships throughout life. - National Scientific Council on the Developing Child. ESNG started the first Early Childhood Mental Health Program in Georgia to provide early identification and treatment to those children who were demonstrating challenges in their social-emotional development. We know that relationships formed with primary caregivers, family members, and others are the vehicle that drives social-emotional development. Therefore, our program holds monthly parent training to focus on parent-child relationships and parent education concerning their child's development. Environmental toxins, abuse, poverty, and community violence are all environmental factors that affect social-emotional development, and our Family Support Services work with families to address these issues and identify community resources to provide assistance. In addition, children who need individualized or further mental health services will receive treatment from a licensed mental health professional. Treatment methodologies include Child-Centered Play Therapy (CCPT), which is Trauma-informed. CCPT is a developmentally responsive, play-based mental health intervention for young children experiencing social, emotional, behavioral, and relational disorders. CCPT is typically delivered in 16-20 weekly, 45-minute individual play sessions. ESNG also offers Child-Parent Psychotherapy (CPP), a heavily studied and validated intervention treatment model for children 0 – 6 years old who have experienced trauma and/or are experiencing mental health or behavioral problems, including post-traumatic stress disorder.

C. Programs and Services Focusing On MBK Milestones: Our early childhood development centers serve 788 Fulton County children ages 3-5 years old annually. 424 are males, with over 93% being boys of color. By participating in our comprehensive program, these young boys will have access to not only a quality early education program that includes early literacy and S.T.E.M but also the basic health, nutrition, and mental health services they need to get them ready for school and life. As mentioned under the Kindergarten Readiness priority, ESNG’s Early Education and Care Program's curriculum focuses on improving children's cognitive, social-emotional, motor, language, literacy, science, and math scores. The Early Childhood Program is aligned with the Head Start School Readiness Framework, the Georgia Early Learning and Development Standards and the Common Core Georgia Performance Standards for K-12, which includes the English Language Arts Standards and the Math and Science Standards. ESNG also has implemented a Science, Technology, Engineering, and Math Program into our Early Education Program and implemented the Raising a Reader program to enhance literacy for the children and their families.

IV. Community Collaboration Easter Seals North Georgia works with many organizations to achieve its vision that every child will start school healthy and ready to learn. The following is a partial list of community partners:

1. Fulton County Department of Health and Wellness: ESNG Early Childhood Education Program partners with the Fulton County Department of Health and Wellness in several ways. First, ESNG ensures that all enrolled children receive physicals, well-baby checks, and ongoing medical treatment. Many of our children receive these services through Fulton County's Department of Health and Wellness. Also, Easter Seals North Georgia's early childhood centers are inclusive environments for children of all abilities. Thirty percent of the children enrolled have a disability. To ensure that children with disabilities receive the necessary early intervention services, the organization has partnered with the Fulton County Department of Health and Wellness which administers the early intervention service, Babies Can't Wait. The Babies

Finally, ESNG's Early Education and Care Program has a Health Care Advisory Council which meets to discuss community healthcare needs along with issues accessing health care. Fulton County's Department of Health and Wellness is represented on this Council.

Help a Child Smile: This organization is a mobile dental health provider that brings its dental van to our centers to provide: dental examinations, cleaning, dental x-rays, treatment plans, and restorations to the children enrolled in the program. Children enrolled in the summer program will have access to dental services as necessary.

5. Marcus Autism Center: Through a partnership with the Marcus Autism Center, ESNG staff screen young children using a new, more sensitive assessment tool that can detect potential autism diagnoses as early as nine months old.

6. Georgia Department of Early Care and Learning: ESNG offers English language learners a summer program for rising Kindergartners. The extra two-month session allows English language learners the opportunity to be exposed to school concepts before the school year begins.

7. Nicholas House: ESNG's Early Education and Care Program partners with Nicholas House to assist families who are homeless. Nicholas House is the only shelter in Atlanta that helps homeless families regardless of family makeup with housing and a path to self-sufficiency.

8. North Fulton Community Charities: ESNG's Early Education and Care Program's two centers located in North Fulton partner with North Fulton Community Charities for families needing emergency financial assistance with rent and utilities. We also refer families to North Fulton Community Charities who need additional food, to access their Food Pantry and also to participate in their Family Enrichment Program.

Program Performance Measures/Key Performance Indicators

A. Program Goals

There are three main goals of the early education and care program.

1. The program provides young children living in poverty with the skills, tools, and knowledge they need to start Kindergarten.

2. The program offers comprehensive care, including nutrition, disability, and mental health services to ensure that children start Kindergarten healthy.

3. The program provides the children's families with Support Services, including case management, parent education and training, and community resources, to reach self-sufficiency and support their children's learning.

B. Methods Used to Attain Goals and Track Outcomes

Easter Seals North Georgia develops and implements all its programs using evidence-based practices and research. The organization has been tracking child and family outcomes related to the effectiveness of its programs for more than 20 years.

1. Kindergarten Readiness: ESNG utilizes the evidence-based Creative Curriculum which is based upon developmentally appropriate practices to achieve Kindergarten Readiness. The organization measures child outcomes for our early education program using standardized and evidence-based assessments. Three times a year - beginning, middle, and end of the school year - we measure children's developmental levels within ten domains using the evidenced-based Teaching Strategies Gold. During each assessment period, we measure the number of children who have met or exceeded developmental expectations in each of the ten developmental domains. Every child enrolled has an Individualized Care Plan, with goals specific to each child. Goals achieved within their plans are reviewed three times a year.

2. Child Health: ESNG follows the guidelines set by the American Academy of Pediatrics' Well-Child Care Visits, as well as the schedule of Child Screenings and Assessments to achieve Child Health and Wellness goals. Every child receives developmental, mental health, and Autism screenings within the first 45 days of enrollment. Children identified through the screenings are evaluated by the Lead Education Agency Partners and our Early Childhood Mental Health staff for diagnosis and treatment. An Individualized Education Plan is developed with specific goals and services for children with identified needs. Child outcomes are assessed by reviewing progress made on the goals and objectives in the child's IEP. All children receive well-child visits, including vision, hearing, physicals, and immunizations during the first 90 days of enrollment. Children also receive follow-up care as prescribed. ESNG tracks the number of children who receive these services and follow-up care within the prescribed time. Children identified with ongoing health care needs, such as disease management, allergies, etc. are placed on a Health Care Plan. The Program's Health Specialist ensures that the child receives the necessary health treatment and that the goals of the Health Care Plan are implemented and achieved.

3. Self-Sufficiency: Every family enrolled in our early childhood program develops a Family Partnership Agreement (FPA) to ensure they reach their goals related to increased self-sufficiency. The Family Support Advocates conducts a Family Assessment within 90 days of enrollment. Goals are established based on results from the Family Assessment Form (FAF). This assessment tool allows our social workers to identify strengths in family functioning. These are then built into the FPA and developed through goal-setting and casework. By focusing on both strengths and concerns, the FAF enables social workers to look at multiple dimensions of family functioning and develop a comprehensive and meaningful understanding of the family. It assesses strengths as well as needs in six areas of family functioning: living conditions, financial conditions, interactions between adult caregivers, interactions between caregivers and children, support available to the family and stimulation available to the children.

Please see attached Major Milestones to be achieved with a supporting schedule.

C. Data Collection Tools

1. Kindergarten Readiness –

Teaching Strategies GOLD is used to track child outcomes related to Kindergarten Readiness across ten developmental domains. This assessment is administered by the classroom teaching team three times per year. GOLD is formatted for

DocuSign Envelope ID: A273A3DE-8CDF-4927-BD17-78D1510B9FCD

the Head Start Outcome Framework providing information in all of the necessary domains as listed in the framework. The results are analyzed across classes and centers and are used to assess child progress. This data is analyzed for outliers related to child progress. Additional training or resources are implemented to improve performance.

-An Individualized Child Plan is developed for every child enrolled in the program. Child outcomes related to this plan are assessed every six months.

2. Child Health –

Child Plus Data Collection System is used to track well-child visits, physicals, dental, and follow-up care.

-The Ages and Stages Questionnaire-3 is used to screen children to identify special needs. The Smart ESAC is used to screen children for Autism. The Early Childhood Mental Health Screen is administered to all children to identify possible mental health concerns. The Devereux is administered to provide a full assessment of children with mental health concerns. This assessment is administered upon identification and at the end of the school year to assess gains and outcomes across areas of child resiliency.

3. Self-Sufficiency –

The Family Assessment Form is used to collect data related to areas of family functioning. It assesses strengths as well as needs in six areas of family functioning: living conditions, financial conditions, interactions between adult caregivers, interactions between caregivers and children, support available to the family and stimulation available to the children. This assessment is administered during the first 90 days of enrollment and at the end of the program year to determine progress.

-The Family Partnership Agreement contains goals and objectives developed from the results of the Family Assessment Form. Goals on the FPA are reviewed every six months to determine progress. Review of the Family Partnership Agreement assures communication between the agency and family. It documents service delivery to families and the degree to which families are moving or have moved toward self-sufficiency while enrolled.

-Pre- and Post-tests are administered for monthly Parent Training to measure the degree to which program participants have increased their knowledge of effective parenting strategies.
