Agape Community Center, Inc., will provide the following activities and services in Fulton County with CCSP funding:

ACTIVITIES AND SERVICES PROVIDED THAT WILL SUPPORT ONE OR MORE OF THE CCSP FUNDING PRIORITIES AND HOW THEY WILL BE ACCOMPLISHED

Agape's In-School, After-School and Summer Camp Programs directly align with three (3) of the CCSP funding priorities include the following:

DocuSign Envelope ID: EA7B61DC-9A8E-4BE5-B921-F419AC3EBBCD

- 1) Children and Youth Services - Kindergarten readiness (and early childhood development ages 3-5 years); Achievement of elementary and middle school reading level targets;
- 2) Children and Youth Services – In-school/Afterschool/ Out of School Programs to help bring up academic and social/behavioral levels of school-aged youth; and,
- 5) Children & Youth Services - Programs and services focusing on one or more of the six National Milestones of My Brother's Keeper (MBK) Alliance.

The Agape In-School, After-School and Summer Camp Programs provide 205 Fulton County youth with resources to achieve reading literacy and math proficiency, graduate on-time, and have access to college, vocational school or workforce opportunities. Activities and services offered to each child include over 1,000+ hours of educational achievement, enrichment, and wraparound services each year, accomplished through the following:

- **In-school programming** for elementary, middle and high school students that provides advocacy for children in the schools Agape serves and links with teachers and counselors to be a liaison between the school and the family;
- **After-school programming** for elementary, middle and high school students that offers one-on-one academic support and enriching experiences while providing a safe place for children, eliminating barriers to success;
- **Summer camp** that ensures our students learn during summer months and avoid the "summer slide" that children from low-income families experience at higher rates;
- **Critical household and wraparound resources** including nutritious meals daily and free transportation, as well as supply-filled backpacks at the start of each school year.

In-school programming - CYS CCSP Priorities 1, 2, and 5 are addressed by the In-School Program.

Agape continues a long-standing partnership with Atlanta Public Schools, which embeds Agape Education Specialists, many of whom are bilingual, in each of the five (5) schools we support. Agape implemented the In-School Support model to provide academic support and counseling and Push In/Pull Out support for struggling students to ensure student retention and to address language barriers. Agape's partner schools provide dedicated space within the school where Education Specialists meet with students one-on-one and in small groups to guide them to educational success. Each specialist is integrated into the school day, creating a seamless experience for the children from the school day into Agape's after-school program, attending PTSA meetings and parent/teacher conferences and translating meetings and school-related documents. Education Specialists provide academic support through tutoring and test preparation and serve as liaisons between the family and the school for non-Native-English-speaking parents and guardians. With the consent of parents, specialists receive student progress reports directly from the schools, enabling Agape to closely monitor each student's academic progress. Agape has a three-year memorandum of understanding with partner schools.

After-school programming - CYS CCSP Priorities 1, 2, and 5 are addressed by the After-School Program.

In addition to Agape's high-quality in-school program, we provide after-school programming that reinforces a continuum of academic support from the in-school setting, offering individualized tutoring and homework assistance, literacy and math enrichment, holistic health activities and character-building workshops. Each week during the school year, Agape Youth Instructors lead classes of students through three hours of program.

During academic hours, Youth Instructors and volunteers use resources including My Backpack, other math and literacy apps, and other virtual tools to support learning. Our reading curricula including Heggerty Curriculum for Phonemic

DocuSign Envelope ID: EA7B61DC-9A8E-4BE5-B921-F419AC3EBBCD

Awareness, Cupp Readers, and resources from the Atlanta Speech School's Cox Campus as well as leveled reading books for K-5th grade. Staff and volunteers can read books with each student on their individual reading level. Our dedicated volunteers serve as Homework Buddies to the same student or small group of students, providing tutoring and academic support while building long-term positive relationships.

Agape's after-school program partners enhance the enriching activities we offer. The after-school programs meet Monday through Friday for 32 weeks each year following the Atlanta Public Schools calendar, serving kindergarten through 12th grade students. In addition, our education team offers academic interventions for students who are at-risk academically and to address learning loss. These intervention sessions are offered in-school and after-school to address deficits in skills mastery and are on average 25 minutes. In Fall 2023, we offered 785 academic interventions totaling 376 hours working with students one-on-one or in small groups.

For our teens, Agape also emphasizes post-graduation planning throughout the afterschool program. Agape creates individual goal planning for each high school student. They attend North Atlanta High School where, due to population size, they could easily get lost or not receive the necessary guidance to properly make a post-graduation plan. Specialists have developed grade-level benchmarks to ensure our students remain on track to graduation with a post-secondary plan. Our students attend annual college tours during spring break and receive exposure to various career opportunities through our Corporate Tutor program where corporate employees speak to the students about varied career options. We host resume writing and ACT/SAT preparation classes and workshops and expose our students to options including getting work experience while in high school and pursuing trades that generate a livable wage. We also help students apply for and attend college and provide support for application fees, books and computers, MARTA cards, and other needs to remove barriers to successfully completing a degree or working full time. We also have launched the Agape Mentoring Institute, which promotes graduation for high school students while teaching life skills, expanding social development and ensuring exposure and access to post-secondary options.

Summer Camp - CYS CCSP Priorities 1 and 5 are addressed through Summer Camp.

Agape's summer programming, which focuses on physical fitness, character development, and STEAM, helps to further close the achievement and opportunity gap. The goals of summer camp are to reduce summer learning loss, build healthy lifestyle habits, and discover new interests. Our summer learning units also focus on introducing new concepts in science, social studies and creative arts to provide opportunities for learning acceleration for our students.

Camp JumpSmart (CJS) is an early reading initiative for rising Kindergarten, 1st and 2nd graders. It occurs over an eight-week period during the summer. Pre-K students are assessed for reading level and proficiency at the start and conclusion of the camp. In addition, CJS offers math, science, arts and crafts, cooking and field trips. In 2023, CJS offered academic hours every Monday to Wednesday. Students received a total of 40 hours of academic instruction during camp (20 hours of ELA/Reading instruction and 20 hours of Math instruction). Mystery Readers regularly joined our enrichment day, providing Agape Board Members and other community volunteers the opportunity to read a book to our campers and interact with them. CJS provided students with a copy of each Mystery Reader book to build their personal libraries at home and to foster a love for reading. In 2023, all pre-K students in CJS were prepared for kindergarten, as indicated by their first term grades of Satisfactory for reading and math in Fall 2023.

GoGirlGo! & FIT Camp are active-based camps with incorporated literacy support for rising 3rd-5th grade students. Agape offers a robust math and literacy curriculum within the full-day camp program to address learning loss and provide critical support for below grade level learners. Integrated supports in CJS, GoGirlGo!, and FIT Camp help English Language Learners achieve grade-level reading standards.

Comprehensive Supports - CYS CCSP Priority 1, 2 and 5 are addressed through our comprehensive supports including Social-Emotional Learning, Wellness Programming and our Child and Family Advocate.

Comprehensive supports provided by Agape include Social-Emotional Learning (SEL), STEAM enrichment programming, wellness programming, transportation to and from Agape, household resources, as well as Dinner for Kids.

Agape prioritizes student well-being, and Social Emotional Learning (SEL) is a critical component of the education process. Not only does it impact the academic lives of students, but it also has a tremendous effect on their happiness and decision-making abilities as adults. Our emphasis on SEL will improve students' social, emotional, and academic skills and strengthen relationships among students and between students and teachers. Moreover, it will influence our youths' ability to make healthy choices in their behavior and education. We expect to see four targeted areas of growth in our students' lives: positive social behavior, fewer conduct problems, less emotional distress, and improved academic performance. We are applying evidence-based SEL strategies from the CASEL Framework. Agape utilizes the Second Step Social Emotional Learning curriculum, the same used in APS, which strengthens Agape's out of the classroom' partnership with APS. We also use a well-being indicator called the WIT-Y Assessment to assess the social-emotional health of our students. We focus on five domains, including mental health, physical health, cognitive health, purpose, and relational health. We use this feedback to consistently find new ways to support our students. Finally, we partner with organizations like CHRIS 180 and Silence the Shame to provide clinical support and workshops onsite to help us provide youth and their families with greater resources to address wellness needs and ensure that our students succeed. Our Child and Family Advocate makes referrals to additional resources, as appropriate.

One of the key features of Agape's innovative and hands-on programming is its ability to engage students in their learning. During our after-school program, our program team also leads academic enrichment activities to increase engagement and student well-being. In addition to the social-emotional curriculum, Agape integrates engaging STEAM lessons and physical wellness activities. Our STEAM lab and Tech Lab were updated in 2023 to provide access to cutting-edge technology and resources. We have partnered with Good Sports and the Atlanta Hawks to further support physical wellness and healthy lifestyle activities.

Agape vans and buses offer free transportation to and from our center every day during the academic year program and summer camp. They also provide support for field trips, campus tours, and other day trips for our students. We also provide a hot nutritious meal before the children are transported home each day. In the fall semester of 2023, the Agape buses and vans safely transported our students 10,590 miles.

Agape revamped our Back-to-School event in 2023 to better serve the students and families enrolled in our program. The Back to School Bonanza provides wrap-around services and resources to prepare our students to be ready for Day One of school. We have always provided backpacks and school supplies and will add clothing and shoes. In addition, we intend to offer haircuts, vaccines and dental and vision screenings.

Our program team is consistently working to identify ways to improve through undergoing a Continuous Quality Improvement process. We are integrating the David P. Weikart Center for Youth Program Quality Model throughout our programming. In addition, Agape is training youth instructors on trauma-informed behavior management, which will be led by our Child and Family Advocate.

We included our program schedule as an attachment, demonstrating the breadth of support provided each day to our students.

ADDRESSING MORE THAN THREE (3) FULTON COUNTY "HEALTH & HUMAN SERVICES" KEY PERFORMANCE INDICATORS

Through the In-School, After-School and Summer Camp Programs, Agape addresses all five (5) of the Health and Human Services Key Performance Indicators underneath the Strategic Objective defined as "Help residents realize their educational potential through our community services and library programs."

Agape addresses Fulton County's Key Performance Indicator of **the percentage of high school students who meet literacy requirements** through our focus on literacy from the beginning of their time with Agape by striving to increase reading proficiency among low-income students. Our senior class of 2024 has an average of 10 years with Agape. Each year we offer our students over 1,000 hours of support to meet their academic goals.

Agape addresses Fulton County's Key Performance Indicator of **the percentage of high school students who graduate on time** through providing continuous academic support, educational interventions as needed and supporting our high school students with planning and resources for post-graduation. We currently have 10 seniors on track to graduate in May 2024. Given that Agape is a long-term solution to the complex challenge of generational poverty, we encourage enrollment in our program as early as possible so that we have the critical time necessary to support our students on their trajectory toward graduation and post-graduation success. Notably, 14 of our high school graduates spent 13 years in our program, beginning in Kindergarten. Agape was honored to be part of their academic journey.

Agape addresses Fulton County's Key Performance Indicator of **the percentage of third through fifth graders who meet target reading levels**, **the percentage of sixth through eighth graders who meet target reading levels,** and **the percentage of students over achieving each year** through our focus on literacy and comprehensive academic supports throughout our programming. Agape understands the relationship between 3rd grade reading proficiency and high school dropout rates and has made reading an important skill for Agape students to master early. We consistently observe progress in our students' academic performance and effectively support those who are top-performing or over-achieving. The Fall 2023 MAP Scores for our students reflect that 42% of students scored on or above grade level in Reading, with seven (7) students performing in the top 25%. The Winter MAP Scores for our students reflect that 41% of students scored on or above grade level in Reading, with 10 students performing in the top 25%.

Our Dinner for Kids program also addresses all of the key performance indicators above as it is a critical support to our students in their academic efforts. Food insecurity is a growing problem in many of Atlanta's communities, particularly Agape's service area of northwest Atlanta, and is a reality for many of the families we serve. While northwest Atlanta has experienced tremendous redevelopment, poverty remains a barrier for many living beyond the renovated main streets. Many of the households in our service area live in poverty, which has negative effects on a child's life such as limited academic support and repeating cycles of generational poverty. Dinner for Kids is incorporated into all of our after-school and summer camp offerings and ensures that students receive a healthy snack upon arrival and a hot meal (during the academic school year) or a hot lunch (during the summer months) before returning home each day. While it is not our main focus of this proposal, Agape also addresses Fulton County's Strategic Objective to prevent health disparities by educating residents and connecting them to available resources and the performance indicator of residents who experience food insecurity. We address this key performance indicator through our Dinner for Kids program.

INSTANCES OF COMMUNITY COLLABORATIVE RELATIONSHIPS TO ASSIST ORGANIZATION IN ADDRESSING THE NEED

In addition to our strategic partnership with Atlanta Public Schools, Agape has established key partnerships to offer a variety of academic enrichment, technology, and preventive health and wellness programs. These partnerships include Ivy Tutors Network, Buckhead Christian Ministries, Fernbank Museum and the Latin American Association. Agape partners with various groups throughout the year to help support the health and well-being of our students. Silence the Shame (mental health), CHRIS 180 (mental health), Open Hand (healthy lifestyles), Street Smart Youth Prevention (prevention program) and American Red Cross (CPR/First Aid Training for staff) are some of these partnerships. There are also community-based partnerships that foster an environment that support active lifestyles, like Soccer In The Streets, and partnerships with local sports teams such as the Atlanta Braves that engage students in athletic fun. Students also experience various field trips that involve outdoor movement and environments, like hiking trails and/or overnight outdoor tent experiences with Julie's Dream.

Agape also engages corporate partners and civic, faith-based and school groups, which provide volunteer support as well as in-kind and financial contributions. Our corporate tutors speak to the students about varied career options and offer job shadow days. As an example, Truist Bank provides engaging financial literacy training for our older teens called "Reality Checks." Selig Enterprises and Your 3rd Spot are corporate partners that support Agape initiatives and student activities through hosting events and engaging their employees. We also have a three-year partnership with Buckhead Rotary, which will increase volunteer engagement efforts throughout our program. Our CEO, Nell Benn, has recently become a member of this chapter. We are also part of a cohort with Learn4Life called "Literacy and Justice for All" where we receive literacy training through the Atlanta Speech School's Cox Campus. We have included our 2024 Program Partnerships as an attachment.

Agape will spend 100% of the Fulton County CCSP grant in the Direct Services cost category. The CCSP funds will support a portion of the salaries for three (3) Agape program staff: the Director of Programs and Partnerships and three (3) Youth Education Specialists. We plan to allocate the $50,000 in the following way: $30,000 for Director of Programs and Partnerships, $10,000 for Youth Education Specialist #1 and $10,000 for Youth Education Specialist #2. These individuals will help accomplish the outcomes and performance measures that Fulton County wants to achieve through effective and efficient youth prevention and intervention programs. Agape's team of direct service staff is committed to ensuring that every child in our program is well-prepared for kindergarten, receives necessary support both in and out of school, and is on the right track to becoming self-sufficient and positive contributors to society. To achieve this goal, each student is provided with over 1,000 hours of personalized attention, with the staff serving as liaisons in their schools, participating in parent-teacher conferences, educating parents about evidence-based tools and resources that can enhance their child's academic success, and guiding students through grade-level transitions towards high school graduation and college or entering the workforce. The team also provides tutoring and coaching to volunteer homework buddies, and teaches math and reading to help each child realize their educational potential. Our direct services staff also work closely with any program partners to provide further support to our students.

Agape utilizes key tools for academic, social and emotional development, including one-on-one counseling and mentorship, academic coaching and individual education plans, and group forums. In order to ensure we are making progress toward our performance goals, our program staff monitors student and family participation, attendance and retention, standardized test scores, grades, and survey data as well as social integration.

MAJOR MILESTONES TO BE ACHIEVED WITH A SUPPORTING SCHEDULE

Agape's programming is results-driven, and program success is based on the following goals:

- Retention: 85% of students will reenroll in our program for 2023-2024 (reported annually in September)
- Program satisfaction: 90% of our students, parents and teachers will report satisfaction with Agape's programs (reported annually in June)

Fulton County's 2024 CCSP funding would be utilized for the spring semester of the 2023-2024 school year (January – May 2024); Summer 2024 (June – July 2024) and the fall semester of the 2024-2025 year (August – December 2024).

SPECIFIC DATA COLLECTION TOOL(S)/SOURCE(S) USED TO REPORT PROGRESS ON PERFORMANCE MEASURES

Agape uses various data collection tools and sources to track and report progress on performance measures such as academic data, attendance, retention, social/behavioral data, and demographics. All program-related data is stored in Blackbaud, an interactive database for program participant data, as well as Excel. Information collected includes data from students, parents, volunteers, schools, and other partner organizations.

Academic Data:

Each child's academic progress is evaluated by collecting progress reports and report cards—provided directly to Agape staff by Atlanta Public Schools. Scores are evaluated regarding goals including pass/fail, matriculation to the next grade and achievement of an 80+ GPA. Successful transition to the next grade level is reported in final report cards, which are kept in student progress files.

APS' assessment tool, the Measures of Academic Progress (MAP), is administered three times each year in August, January and May. Agape has access to these assessments, which inform our lesson plans and individualized goals. Our

DocuSign Envelope ID: EA7B61DC-9A8E-4BE5-B921-F419AC3EBBCD

partner schools provide comparison data including national norms as well as peers within the schools that are not enrolled in Agape. With mid-year MAP assessments, Agape evaluates the effectiveness of the support we are providing to our students and adjusts the program for the second semester as needed. Agape uses MAP scores from the end of the school year, administered in May, to inform learning plans during summer camp based on students' strengths and weaknesses. MAP data is critical to our ability to assess literacy levels of our students as we work toward Fulton County's strategic priority area of helping residents achieve their educational potential. Specifically, MAP data tells us the percentage of high school students who are meeting literacy requirements; the percentage of sixth through eighth graders who meet target reading levels and the percentage of third through fifth graders who meet target reading levels. MAP data also reports the percentage of students overachieving each year.

Attendance/Retention Data:

Agape staff tracks daily attendance, new and returning student ratios and year-to-year retention rates. Numerous studies examining after-school program-related achievements indicate a strong correlation between student attendance and positive academic and social outcomes. In a recent study published in the Child Development Research journal, researchers found that students with the greatest increase in academic skills were highly engaged in activities and attended the after-school program regularly. Conversely, those who attended sporadically did not achieve the same gains as their regularly-attending peers. Agape's attendance policy and strong parent-student-school interaction fosters active engagement. While Agape encourages student involvement in extracurricular activities, enrolled families are aware that the expectation is that students attend Agape programming at least three times per week.

Program retention is a critical component to helping our students remain on track to achieve their academic goals and graduate from high school. In the 2024 senior class, the average length of participation in Agape is 10 years. High School graduation is the ultimate marker of the success of our program. Since 2009, we have maintained a 95% graduation rate.

Social/Behavioral Data:

We are informed of behavioral incidents and parent conferences, and daily behavioral information, participation and progress notes are recorded in the Blackbaud client database by program staff. We collect program satisfaction ratings at the end of each school year from our parent, teacher and student surveys, with an additional program satisfaction survey after summer camp.

Agape utilizes a well-being indicator (WIT-Y Assessment) to better assess the social-emotional health of our students. We assess five domains-mental health, physical health, cognitive health, relational health, and purpose. We survey older elementary, middle and high school students. The findings will be used to better support our students and inform our social-emotional learning activities.

Demographic Data:

Household demographic information is collected via enrollment applications and parent and student surveys. Data collected includes family size and income, federal benefits received, and transportation and insurance information.

Agape's Director of Strategy and Outcomes who is responsible for collecting and analyzing program data, managing the program's database, tracking Agape's impact, guiding the program strategically, and ensuring quality improvement. Our overall program progress is also reviewed by the CEO each month. This data is used to communicate the impact of our programs and measure growth.

Wings for Kids, will provide the following activities and services in Fulton County with CCSP funding:

Wings for Kids respectfully requests $40,000 to provide high-quality, social emotional after school programming to 50 students at Bethune Elementary, Boyd Elementary, Heritage Academy, Hutchinson Elementary, and Fickett Elementary at no cost to caregivers. WINGS After School is a codified, evidence-based after school program that provides students from disadvantaged backgrounds opportunities to build key social emotional skills and to have access to otherwise unavailable extra-curricular opportunities, academic enrichment in English Language Arts, Math, and Science, educational field trips, a well-balanced meal, and a positive mentorship with a student from a local university. Social emotional learning is intentionally interwoven throughout every component of the WINGS program. WINGS is the only after school program in the U.S. focused solely on social emotional learning through a codified evidence-based model and is the only social emotional after school program in the country with positive results confirmed by a Randomized Control Trial. WINGS After School is provided for three hours every day after school, Monday through Friday, throughout the academic year.

DocuSign Envelope ID: B959942E-D223-45B6-A330-722C83D038D4

The WINGS After School program will take place during the award period of July 1, 2024 to December 31, 2024 from 2:30 p.m. to 5:30 p.m. each school day. During this time students receive more than 200 hours of direct programming over approximately 120 days. WINGS requires all students to commit to attending the program full-time, instead of on a drop-in basis. As a result of full-time participation, students will receive the maximum behavioral and cognitive benefits the program has to offer. WINGS programming is valued at $2,895 per student and is always provided at no cost to families.

There are four main components of WINGS programming: Community Unity, Academic Center, Choice Time, and WildWINGS. Within these blocks several program elements are provided and vary by day:

- Community Unity – 45-55 minutes of each day is focused on creating a caring community, a high-energy environment, teaching weekly social emotional learning objectives (related to relationship building, self-management, self-awareness), and character and cultural education lessons. All lessons are discussed in small groups and emphasized in programming and teachable moments throughout the academic year. Children also receive a nutritious snack during this time.
- Academic Center – 60 minutes, four times per week, during which staff, volunteers, and certified teachers provide direct academic instruction and tutoring. Students may rotate through different stations depending on their academic needs. The stations include: Homework, WINGSReads (library of books for read-alouds and discussions), Foundational Math (math board games and activities), ELA (sight words, phonics, and writing station), and STEAM (Legos, engineering projects, computer games, science experiments).
- Choice Time – 40 minutes, two times per week. Choice Time provides students with the opportunity to participate in enrichment activities such as music, photography, sports, cooking, STEM, robotics, and much more. These courses are taught by local experts and provide students with new experiences that would otherwise be inaccessible to them. In the past, students have: written and recorded their own songs in a mobile recording studio; created and cooked their own recipes with the assistance of a five-star chef; learned about mechanical engineering by building and battling robots; and participated in a range of other athletic, STEM, and artistic enrichment activities. Through Choice Time, students also develop a sense of social responsibility through various opportunities to give back to their community. Students choose a Choice Time activity and commit to it for the trimester. Studies indicate that children who participate in extracurricular activities improve academically and have greater career opportunities as adults.
- WildWINGS – Each Friday, WINGS celebrates student accomplishments with social emotional games, discussions, and role playing, summarizing and celebrating the weekly learning objective in a high-energy, exciting environment.

In addition to curriculum components, WINGS provides students with healthy snacks, a well-balanced dinner, and bus transportation home at the end of the program each day, if needed.

Children achieve their full potential when parents are engaged and supportive. According to the Annie E. Casey Foundation, “Decades of research have made one thing clear: parental involvement in education improves student attendance, social skills and behavior. It also helps children adapt better to school.” Therefore, WINGS hosts a variety of parent events that are designed to build stronger family relationships, connect parents to critical community services (such as food banks, domestic shelters, emergency bill pay services, financial literacy classes, free medical clinics, and more) and provide adult education.

DocuSign Envelope ID: B959942E-D223-45B6-A330-722C83D038D4

WINGS' codified and evidence-based curriculum relies on ten social emotional lessons. Each lesson is supported with a corresponding learning objective. These lessons and objectives are taught weekly and repeated multiple times throughout the year in trimesters. The trimester design reinforces social emotional skills taught earlier in the year and ensures that children who join the program midway will have the opportunity to reap the full benefits of the WINGS curriculum.

According to the Collaborative for Academic, Social, and Emotional Learning (CASEL), the short-term goals of social emotional learning programs are to: 1) promote students' self-awareness, self-management, social awareness, relationship skills, and responsible decision-making skills; and 2) improve student attitudes and beliefs about self, others, and school. WINGS developed its learning curriculum based on research provided by CASEL and by individual community need assessments. A curriculum rooted in social emotional learning provides a foundation for better adjustment and academic performance as reflected in improved grades and test scores, more positive social behaviors and peer relationships, fewer social problems, and less emotional distress.

There is a growing national awareness among educators and policymakers about the importance of social emotional development for successful student performance in pre-school and elementary school. Increasingly, school districts, including Atlanta Public School District and Fulton County School District, are incorporating social emotional learning into their district-wide strategic priorities. The five core competencies of social emotional learning are important from very early in life but are especially relevant as children begin to spend time with adults outside the home and to socialize with peers. Social emotional skills play a role in determining how well-equipped children will be to meet the demands of the classroom. They also help determine whether students are able to fully engage in learning.

How Services Will be Accomplished

Wings for Kids has successfully provided high quality after school programming in Fulton County since 2012. Students are recommended for the WINGS program by teachers, guidance counselors, and social workers. These students are from low-income or disadvantaged backgrounds, and frequently demonstrate recurring behavioral or academic issues in the classroom, and often lack support at home.

WINGS recruits full and part-time program staff from similar socioeconomic backgrounds as the children WINGS serves. Apart from school teachers, WINGS program staff are often the only adults WINGS kids know who have graduated from college. At each school, the WINGS program is staffed by a full-time Program Coordinator and Coach (PCC) and Program Administrative Assistant (PAA). WINGS PCCs and PAAs have offices at the school in order to facilitate relationships with teachers, principals, administrators, and parents.

Each year, WINGS specifically recruits college students from local universities to work directly with students as mentors. Frequently, these students are education, social work, or psychology majors. The majority of these college students will go on to utilize their training in social emotional learning to help under-resourced students nationwide as teachers, social workers, therapists, guidance counselors, school administrators, and principals. Additionally, college students serve as relatable positive role models who contribute to the high-energy, exciting environment that typifies the WINGS program.

These part-time staff members, called WINGS Leaders (WL), are responsible for small groups of ten to fifteen children in each grade from K-5. WINGS' low student-to-staff ratio of 10:1 during Academic Center and 15:1 during other components allows program staff to provide engaged, personalized support for each student. WINGS Leaders serve twenty-five hours each week for the duration of the school year and receive more than 65 hours of professional development each year. Professional development topics include cultural awareness, Diversity/Equity/Inclusion (DEI),

best-practice social emotional learning teaching strategies, modeling positive skills, positive behavior management techniques, communication strategies, empowering students growing up in poverty, active listening, and more.

One of the most striking aspects of the WINGS After School program is the unique way in which program staff communicate with students. WINGS staff maintain affirmative tones, consistently praise students for positive behavior and encourage students to be their best selves, especially when a student makes a negative choice. When a student presents a behavioral issue, WINGS Leaders respond with empathy and active listening, modeling the social emotional skills that serve as the epicenter of the WINGS program. The communication strategy utilized by WINGS staff is a pioneering approach to educating the whole-child by prioritizing student self-esteem.

Wings for Kids was the subject of a rigorous four-year Randomized Control Trial (RCT) conducted by the University of Virginia, College of Charleston, and Yale University. The RCT confirmed that students who participate in WINGS for two years or more demonstrate improved cognitive abilities, behavior, academic performance, and better relationships with teachers and peers.

The results of the RCT also reflect the goals that the WINGS program aims to achieve. When children participate in the WINGS program for just two years, they:

- Develop strong social emotional skills;
- Demonstrate improved behavior and make more positive choices; and
- Develop a greater attachment to school and learning and reduce chronic absenteeism.

Strategic Priority Area Objectives

The WINGS After School program addresses Fulton County's strategic priority area: "Health and Human Services," and is committed to providing a safe space where the most vulnerable population can receive the care and community support they need.

The WINGS program addresses the following three Health and Human Services Key Performance Indicators (KPI):

- "Prevent health disparities by educating residents and connecting them to available resources": Number of people who receive behavioral health services. WINGS programming provides needed social, emotional, mental, and behavioral services to students through the evidence-based social emotional learning curriculum and the strong relationships that WINGS mentors build with students. Specifically, WINGS' Community Unity, Choice Time, and WildWINGS components provide opportunities for explicit and implicit social emotional skill development. In addition, through family engagement events and partnerships in the community, WINGS supports students and families with connections to behavioral specialists and intervention programs to support clinical diagnoses.
- "Help residents realize their educational potential through our community services and library programs": Percentage of third through fifth graders who meet target reading levels. WINGS programming addresses literacy by providing academic support in literacy, math, and STEM for 60 minutes per day, four days per week. The Academic Center component includes homework support, one-on-one tutoring, and academic games designed to meet target reading levels and increase competencies in literacy, math, and STEM. Moreover, research shows that a curriculum rooted in social emotional learning results in improved grades and test scores.

DocuSign Envelope ID: B959942E-D223-45B6-A330-722C83D038D4

- "Help residents realize their educational potential through our community services and library programs": Percentage of students over achieving each year. WINGS programming supports students' academic growth to close achievement gaps, but also, supports students' growth to exceed and excel beyond target metrics. Through a sequenced, active, focused, and explicit social emotional learning curriculum and consistent schedule of components (Community Unity, Academic Center, Choice Time, and WildWINGS), students are developing strengths and weaknesses, focus, and goal-setting strategies that enable them to meet and exceed goals.

CCSP Funding Priorities

The WINGS program addresses the following three CCSP funding priorities in the primary service category Children and Youth Services:

- "Kindergarten Readiness and Early Childhood Development for ages 3 to 5 years; Achievement of elementary and middle school reading level targets." Wings for Kids provides high quality after school programming for children ages five to eleven. For five-year-old children, the Academic Center component of the WINGS curriculum focuses on developing academic readiness skills and reading level targets, such as fine and gross motor skills, listening, understanding stories, identifying letters, phonics, counting, problem-solving, and recognizing patterns. Social emotional education is the foundation of the WINGS program. A social emotional curriculum helps young children develop and maintain social kindergarten readiness skills such as managing emotions, staying on task, getting along with others, and following rules and routines. Studies show that children from low-income households typically lag 12-18 months behind their wealthier peers developmentally and academically. Consequently, WINGS helps these children develop the readiness skills they lack.
- "Afterschool/Out of School Programs to help bring up academic and social/behavioral levels of school-aged youth (afterschool programming)." WINGS After School operates a high-quality, high-fidelity afterschool program, three hours per day, five days per week throughout the school year (on a non drop-in basis) in low student to staff ratios in Academic Center (10:1) and Enrichments (15:1) with highly trained staff. WINGS utilizes a codified, evidence-based social emotional curriculum on a daily basis to help disadvantaged elementary-aged students improve their academic competencies and develop social emotional skills such as relationship building, social awareness, self-management, responsible decision making, and self-awareness. The WINGS program is proven to improve student behavior, academic skills, cognitive abilities, bullying, hyperactivity, and relationships with peers and teachers. WINGS After School strives to close that gap and provide equity of opportunity to all students, regardless of socioeconomic background.
- "Ensure safety and justice by providing alternatives to activities and contributing factors that lead to unhealthy behaviors in children and youth." Children with strong social emotional skills lead healthier lives and are less likely to engage in risky behaviors such as substance abuse, juvenile delinquency, and crime. WINGS's social emotional curriculum helps students make responsible decisions and is proven to help students demonstrate increased positive behaviors in and out of the classroom. WINGS also reduces chronic absenteeism, disciplinary referrals, and bullying. WINGS After School provides children with a safe, positive environment and ensures that children spend less free time in neighborhoods with high crime rates.

Community Collaborative Relationships

Wings for Kids recognizes the importance of developing and maintaining community collaborative relationships. Some of those community collaborative relationships include the Department of Family and Children Services, Georgia Department of Education, Fulton County School District, and Atlanta Public School District. WINGS' most significant partners are the five Fulton County Schools, where WINGS implements programming. Additional partners include:

- Volunteers – High school students, alternative spring break college students, retirees, members of Greek-letter organizations, and others assist with Academic Center, or work one-on-one with a child who needs extra attention. Volunteers undergo rigorous background checks and training to ensure child safety.
- Certified Teachers – WINGS contracts with teachers who ensure that the WINGS curriculum aligns with Georgia education standards. WINGS is an integral component of each school's community, not just an after school 'add-on'. WINGS strives to marry programming seamlessly with what students learn during the school day.
- In addition to the school districts and elementary schools where WINGS operates, WINGS also collaborates with a number of community partners in the region. Collaborative community relationships include organizations and local experts who teach a WINGS enrichment activity (e.g., robotics, urban gardening, foreign language, martial arts, drama, dance, and more). Community experts provide instruction during the Choice Time component of the WINGS program. Current Choice Time partners include: Girls Inc., Yes! Dance, Nexplore, Engineering for Kids, South Atlanta Tennis, Mindful ATL, Music for Kids, Football and Team Play, and Inspire Your Daughters and Sons.

Methods & Goals

WINGS seeks to achieve the following goals in Fulton County in 2024. Specific metrics for these goals are included in the County and Agency defined performance measures sub-section of this proposal:

- Provide High-Quality After School Programming: Serve 50 elementary-aged students from low-income households with high-quality afterschool programming at Bethune Elementary, Boyd Elementary, Heritage Academy, Hutchinson Elementary, and Fickett Elementary.
- Decrease Chronic Absenteeism: WINGS students will attend school regularly.
- Develop Student Social Emotional Skills: WINGS students will demonstrate a deep understanding of social emotional skills and learning objectives.
- Improve Student Behavior: WINGS students will demonstrate appropriate or improved behavior.

In order to achieve these goals, Wings for Kids relies on a codified, evidence-based social emotional curriculum, high-quality and extensively trained program staff, pioneering student engagement and communication strategies, low student-to-staff ratios, a dynamic holistic program design, close-knit relationships with school teachers and staff, collaborative partnerships with other like-minded organizations, cutting-edge evaluation tools, and discerning evaluative measures.

The results of the WINGS Randomized Control Trial (RCT) indicate that participation in the WINGS After School program for two years results in an improvement in student: cognitive development, executive function, self-regulation, academic skills, vocabulary knowledge, letter-word ID, classroom behavior, closeness, hyperactivity, and bullying. The RCT also demonstrated an overall reduction in negative classroom behaviors and improved quality of student relationships with teachers and peers. These results indicate that the WINGS program model will be successful at achieving its program goals.

The WINGS After School program is unique because ongoing evaluation is a top priority. Evaluations are conducted by program staff and teachers and use diverse evaluative tools to create a multi-dimensional picture of each student's successes, challenges, and areas for improvement. Program staff also receive ongoing feedback from colleagues and supervisors throughout the year to ensure they are providing a high-quality experience for WINGS students.

Milestones & Schedule

WINGS will adhere to the following schedule to complete program deliverables in a timely manner:

Data Collection Tools/Sources

WINGS maintains a strong commitment to effective program evaluation. WINGS utilizes the performance management system Efforts to Outcomes (ETO) to track all key performance indicators and to assess program outcomes. This system is used to track data and report on progress by individuals and by the WINGSLeaders responsible for results. This high level of precision in record-keeping helps individualize interventions for maximum effectiveness, maintains quality, and keeps WINGSLeaders focused on how to better help students master learning objectives. WINGS also relies on the following data collection tools:

- The Devereux Students Strengths Assessment Comprehensive System – The Devereux Student Strengths Assessment (DESSA) is a standardized, norm-referenced behavior rating scale that assesses the social-emotional competencies for kids in Kindergarten through 8th grade.The DESSA is a thorough assessment of social emotional skills that provides a variety of tools to chart and communicate results, monitor progress, and evaluate outcomes. The DESSA is administered twice a year by WINGS staff to assess social emotional strengths and growth.
- The Objective Knowledge Assessment (OKA) – Twice a year, WINGSLeaders administer an OKA to each student in the WINGS After School Program. The goal of the OKA is to gauge student understanding of social emotional skills and learning objectives.
- Report cards, attendance records, disciplinary records, and standardized test results- Provided by the schools at the end of the school year; this information helps WINGS track academic success and a reduction in truancy and disciplinary referrals.

Specific Activities and Services Accomplished

Ascensa Health provides integrated treatment services for behavioral, physical and mental health to improve the health and wellness of each client served. Men and women in the agency's Residential Treatment Program reside in a therapeutic community and participate in a structured treatment program, which includes intensive day treatment, residential care, individual and group therapy, case management, 12-Step meetings, life skills training, health and wellness education, employment services, primary healthcare services and family services. Medication-assisted treatment is available for alcohol and opioid use disorders if needed, depending on the level of care appropriate for the individual.

Upon admission, clients complete an assessment to determine their specific needs in order to create an individualized treatment plan. Addiction treatment is the primary concern when clients are admitted to residential programs. The length of stay is determined on an individual basis depending on the level of care required for each person. Clients progress through the stages of the treatment program once they complete the goals of the previous stage. The stages of the treatment program include:

· Intensive Care: Clients enter treatment, complete initial program assessments and attend intensive addiction treatment for at least 20 hours a week.

· Independent: Clients attend treatment programming 12 hours a week while they are supported in seeking employment, housing, and re-connecting with their family and/or support system.

· Recovery Support: Clients attend treatment programming an average of 5 hours a week while maintaining employment.

· Continuing Care: As needed, clients receive outpatient services after program discharge.

Recovery from addiction is supported through the integrated services of the program. During Residential Treatment program involvement, clients participate in the agency's Health Services program, Employment Services program and the Continuing Care program to support their long-term recovery goals. At admission to residential programs, clients receive health assessments to determine their physical health baseline. Clients also receive treatment and medication for existing physical health conditions. All clients are screened for Hepatitis C and HIV, provided education regarding HIV prevention, and referred for HIV and Hep C treatment if needed. All clients receive education regarding physical health and wellness at program admission as well as throughout treatment while participating in group treatment activities.

The Employment Services program provides critical support for client success, as many of Ascensa Health's clients have difficulty finding employment because they lack job-seeking experience, a work history, occupational skills and/or have a criminal history. Employment helps clients have a greater consciousness of community and a greater sense of autonomy, empowering them to find stability in all aspects of life. Employment Services include financial literacy education, job training, resume writing, job search and interviewing skills, career counseling and post-employment support groups. The agency provides MARTA Breeze cards to clients who are seeking employment and newly employed, or who are referred to outside services.

Ascensa Health provides Continuing Care services, including group therapy, education and individual counseling for all clients who have completed Intensive Day Treatment as part of their Residential Treatment Program. Through this program, clients address individual needs in regards to self-sufficiency to ensure a seamless transition into their community, including finding permanent housing. Family services are also offered to anyone in the client's support system to provide family counseling, education and support. All agency services are readily accessible within walking distance of the Residential Treatment program.

The following client success outcomes of the agency were accomplished in fiscal year 2022/23:

· 100% of clients were below the federal poverty level at admission, however, only 5% of clients were below federal poverty level at program discharge

· 92% of clients who entered the Employment Services program became employed, and 94% of clients with a prior felony charge became employed

Fulton County Strategic Priority Area Program Objectives

DocuSign Envelope ID: A3DFB24E-7AB2-4DFF-9BFD-91FE2C341C67

The Residential Treatment program at Ascensa Health addresses the following Fulton County "Health and Human Services" strategic priority area objectives:

1. Prevent illness by engaging in healthier behavior
2. Prevent health disparities by educating residents and connecting them to available resources
3. Support the vulnerable residents in our social services

Ascensa Health will prevent illness by providing onsite Residential Treatment for substance use disorder and co-occurring mental health disorders. Health disparities are lessened by providing behavioral health services to uninsured adults, many of whom have a comorbidity of mental health or chronic physical health conditions, leading to improved outcomes in the County's Health Rankings and Roadmaps report. The agency will also refer clients to outside resources if the client requires care that is outside of the scope of the agency's services, ensuring that they have access to care for all their physical and behavioral health needs. Vulnerable residents are supported through the agency's supported services, which include employment support, family services to increase social connectedness, and case management to ensure transition to housing upon program discharge.

CCSP Funding Priorities

The four Health and Wellness CCSP funding priorities addressed by this proposal include:

1. Prevent illness and health disparities by educating and connecting individuals to available resources.
2. Programs addressing mental health, depression, stress, trauma and anxiety among individuals.
3. Programs focusing on HIV prevention and education.
4. Programs focusing on financial literacy and wellness.

Community Collaborative Relationships

Ascensa Health collaborates on many levels with other providers to address all client needs. The agency has an onsite healthcare center that provides a comprehensive system of care. The Healthcare Center allows for the provision of significantly improved outcomes for the vulnerable, uninsured, and underserved populations. The agency partners with Grady and Emory Hospital to provide clients with medical services that are beyond the scope of the agency's healthcare services. The Ben Massell Dental Clinic provides clients with dental care. Ascensa Health has a Memorandum of Understanding with Dress for Success and Buckhead Ministries to ensure clients have appropriate attire for job interviews and when they become

employed. The agency also has a partnership with MARTA to provide Breeze cards (at a reduced rate) for clients who are seeking employment.

Ascensa Health collaborates with a number of organizations to facilitate clients' recovery and assist them in establishing self-sufficiency. Other collaborating partners and referral sources not mentioned above include the Department of Veteran's Affairs (VA), Fulton County Drug Court and Family Court, the Department of Corrections, Federal Probation, Urban League of Atlanta, Crossroads Ministry, and The Georgia Law Center.

Methods, Goals and Measurement Procedures

Ascensa Health recognizes the importance of tracking program goals using a measurement and management system that is reliable, meaningful, and assures that each program focuses on the organization's mission of providing integrated treatment services that sustain long-term recovery from addiction and co-occurring mental health disorders. Ascensa Health defines program success and, more importantly, client success by meeting the following criteria:

1. Clients acquire the tools needed to sustain long-term recovery
2. Clients obtain employment
3. Clients transition to housing upon leaving the program

Ascensa Health’s programs are evaluated using the agency's Performance Improvement Program (PIP) and outcomes management system. The PIP ensures high standards of service based on state and national regulations and accreditation requirements. The agency utilizes the PIP system to collect data in multiple areas to better manage the course of treatment and identify possible obstacles to recovery for each client. In addition, the PIP includes the following mechanisms for quality control: client satisfaction surveys, community meetings, and regular review of client records. The PIP ensures that Ascensa Health is accountable to its clients. Through the outcomes management system, program evaluation is conducted to increase effectiveness and efficiency, to ensure adequate and appropriate responses to clients, and to provide the agency's executive management team with a means of monitoring the overall clinical progress. Information, including demographic information, is collected at the time an individual presents for admission to the agency and again at the time of exiting the program. Delivery of services for all programs

DocuSign Envelope ID: A3DFB24E-7AB2-4DFF-9BFD-91FE2C341C67

is tracked by the Electronic Health Record (CareLogic) system. In addition, client records are audited both during and after treatment to ensure that all information is complete and accurate.

Client satisfaction surveys are collected at admission regarding the admission process and access to services. Client satisfaction surveys are also collected quarterly in the residential program regarding residential and program issues. Outcomes are tracked, measured, and analyzed in the data management system (SPSS) for efficiency and effectiveness and reviewed by the management team on a monthly basis to ensure that the specific goals set are being achieved or are on target. Utilizing multiple sources allows for comparison and ensures reliability, validity, completeness, and accuracy of all outcome data. Outcomes are reported at the Performance Improvement Committee meetings quarterly to address areas for improvement and of achievement. This data information is available in a dashboard format for all staff to view and is provided to funding sources as requested.

The Bankhead Youth Renaissance Program utilizes the evidenced based framework of Positive Youth Development to impact the lives of youth living in Fulton County. This model is a comprehensive framework outlining the supports all young people need to be successful and addresses Fulton County's Children and Youth Services Funding priorities 2, 3 and 4. This program creates a unique and structured environment where youth receive the following:

1. Competence – Through mentoring and hands on skill building in a variety of areas including studio production, jewelry making, cosmetology, and small business development, participants become competent in an area of their interest. In building these skills, participants are also able to potentiate income for themselves, which contributes to their independence and economic stability.

2. Confidence – Through their skill building and leadership development activities, youth build their self-esteem and become leaders among their peers.

3. Connection – An important part of the program is their connection with a trained mentor, who provides stability and consistency in their life. The program will recruit and provide 10 new mentors in 2024 to meet our growing program needs and increased student participation. Additionally, the participants become connected to the Restore Life family, that has more than 200 students and a variety of adults that are committed to their success.

4. Compassion – Throughout the program participants are consistently uplifted by the Restore Life staff and given additional opportunities to receive services that they may need including counseling, academic support, housing, and healthcare if necessary.

5. Character – Throughout the program, participants have various opportunities for character development by taking responsibility for their actions and focusing on developing and maintaining values that take them into adulthood.

Mentoring- Once the participant is enrolled in the program, and needs assessed, they are then aligned with a mentor and can begin Classes/Sessions/Trainings Monday through Thursday all year. These activities support the afterschool and out of school priorities that help support academic and social/behavioral of students between the ages of 8 and 18 and support our youth to become self-sufficient and positive contributors to society. Students are mentored in a variety of areas by industry professionals in landscaping, Coding, IT, sound and studio engineering, photography, videography, business and finance,

entrepreneurship, art and music, fashion and design, and culinary arts in a culturally relevant environment. These are the areas of interests chosen by our youth. Their participation in Bankhead Renaissance afterschool and out of school activities are safe places that are having a positive impact on our youths' overall behaviors, leading to better grades and test scores that help students to graduate on time, while enhancing their chances for employment during and beyond high school.

Wrap Around Services- Restore Life provides students access to various services through our partner organizations that help to enhance their experience. These services include access to a food pantry, mental health counseling, housing assistance, and academic assistance to support our youth and their immediate families to live in mental, emotional, and spiritual wholeness. Bankhead Youth Renaissance program is supported by the following community collaborating relationships: Grove Park Foundation, Paradise Missionary Baptist Church, Thrive Academy, Frontier Music, The Aster Project, Fountain of Hope, Next Generation Youth Center, Movers & Shakers a Furniture Ministry, Jobs for Life, First Step Staffing, and Staffwrx. Additionally, Restore Life is comprised of a team of Atlanta based hip hop artists, producers, engineers, R&B singers, radio personalities and music industry businessmen/women who are dedicated to our mission and the success of the youth of Fulton County.

We are particularly pleased to add to our wrap around services "Stress Management Coaching" from Restore Life Restoration Agent, Kimberly Iverson. City of Refuge, Incorporated, will provide the following activities and services in Fulton County with CCSP funding:

City of Refuge will take a whole child health approach to provide positive youth development programming and services after school and during the summer for youth in our community. Programs will serve K-12 students of mixed gender. Programs will offer a safe, welcoming environment with critical support and learning opportunities for youth communities to grow, develop skills, and make positive choices that help them thrive as they build their inherent strengths. COR will utilize a skill-building and relational approach to youth development that reinforces the unique educational needs of students from low-income and under-resourced communities. Programming will be delivered in a dedicated setting and emphasize interpersonal skills. Social-emotional learning is supported using Positive Action (elementary) and TYRO (middle/high school) evidence-based curricula.
The program will serve 125 low-income children in grades K-12 at two locations; grant funds will help support expenses associated with providing programming to 50 of these Fulton County youth. Programming at COR's campus on Joseph E. Boone Boulevard will serve students in grades K-5 who live in Eden Village, COR's residential program for women and children experiencing homelessness, as well as in surrounding low-income neighborhoods in Atlanta's Westside. Students are divided by age, so each group has a similar skill level; K-2 students are in one group, and 3rd- 5th grade students are in another. Middle and High School students in 6th–12th grade are served at the City School Centre on Gary Road, about 1.5 miles from the main campus; these youth attend our onsite school, City School, and live in either Eden Village or low-income neighborhoods in Atlanta's Westside. Both locations comply with ADA standards to ensure accessibility by individuals with mobility challenges.

City Youth (middle/high school) operates Monday-Friday for the afterschool program (2 hours/day for 36 weeks) and summer program (8 hours/day for eight weeks). City Kids (elementary) operates Monday-Friday for the afterschool program (2.5 hours/day for 36 weeks) and summer program (6 hours/day for eight weeks). City Youth and Kids offer Intercessory programming for 8 hours/day.

Unlike traditional after-school programs, ours also focuses on character development, team-building exercises, recreation, career development opportunities, and S.T.E.A.M. opportunities and instruction. Through the City School's low teacher-to-student ratio of 1:12 and daily study halls, individualized instruction and homework completion are integrated into each school day so the Afterschool Program can also focus on other equally important aspects of personal development for each student. Academic assistance is provided for those students who are struggling with their grades. Transportation to and from the program utilizes COR's buses and 15-passenger vans. Daily, three nutritious meals and a healthy snack are provided during the school week. Dinner is cooked and served onsite and is enjoyed in a family environment. Studies have proven that family mealtime can be a critical part of a youth's day, and COR provides important values and structure during this time.

Programming is designed to provide the high-quality educational and emotional resources needed to support children's positive social and academic development and help overcome long-existing inequities in these communities. Students follow the same general schedule daily to know what to expect and develop effective routines. Throughout all

DocuSign Envelope ID: B9DA2AC8-C3BA-459D-89D6-3963AAEE8041

programming, staff focus on keeping activities fun, innovative, and relatable to the students we serve. Once students arrive, programming will consist of the following key components:

Healthy Snack and Team Time (15-20 minutes)

Healthy snacks and beverages are provided free to each student immediately upon arrival from school. This time allows staff and students to unwind while enjoying healthy fuel for their bodies and minds. Students will take turns helping serve and clean up each day to reinforce the importance of this healthy time. Snacks will follow the Dietary Guidelines for Americans (DGA) and the federal child nutrition programs and standards the DGA informs. Each snack includes a fruit or vegetable and easily accessible drinking water.

COR also operates The COR Kitchen, which serves over 300,000 meals annually to ensure all program participants have access to hot and healthy meals. The COR Kitchen provides meals for all children on the COR campus during lunch and dinner. The COR Kitchen will prepare “reheat and serve” meals for the City Youth served at City School Centre using that site’s commercial kitchen.

Once a week during snack time, staff will deliver a 15-minute lesson plan from the Positive Action (elementary) or Tyro (middle/high school) program. Positive Action is a nationally recognized, evidence-based program that improves academics, behavior, and character. In addition to the lesson, each day's snack time will help reinforce the Positive Action philosophy that you feel good about yourself when you do positive actions, and there is a positive way to do everything. For the remaining days of the week, students will have access to the activity booklets, journals, and other hands-on materials to reinforce these healthy habits.

Homework Help (approximately 1 hour)

Each age group goes to their dedicated homework space after snack time. Daily programming will include group and individualized homework support to reinforce the school-day learning and work on any gaps in knowledge. A key emphasis of this time is for students to learn good homework habits. This time will be structured not just to complete required work and master basic concepts but to foster positive organizational and study skills that will benefit them well beyond their current grade level. Staff also will treat this time as an essential opportunity for students to practice independent study and ask for assistance when needed. Volunteers from nearby colleges and universities such as Morehouse, Spelman, Georgia Tech, and Georgia State may also provide youth individualized tutoring and mentoring opportunities.

By turning to work as soon as snack time is finished, at the same time each day in the program, students will establish homework routines that they can carry to other settings to help promote academic achievement. Staff will check in with each student. Program staff also will actively assist students in improving organizational and study skills that can support overall academic success.

COR’s youth programming areas are arranged for independent study and small group work. At COR’s main campus, a loft covering a portion of the room makes space for more individualized learning centers and reading stations. The space is equipped with technology that can help keep students engaged in learning, including educational tools that can promote reading and literacy and help students learn to use technology strategically and capably. City School Centre provides individual space for homework completion, a dedicated AV lab space, and an art room.

Students bring their textbooks and assignments. COR will supply all necessary technology, materials, and supplies for students to complete their work. COR provides books and educational games to keep students engaged when completing

DocuSign Envelope ID: B9DA2AC8-C3BA-459D-89D6-3963AAEE8041

homework. These materials also may be used to reinforce learning and as tools to explain more difficult homework concepts. A dedicated staff member will supervise all homework areas and be available to answer questions.

Most middle and high school students in City Youth will attend City School, allowing COR Youth staff to maintain a regular presence with the teachers to reinforce school connections. City Youth mentorship, tutoring, and life skills support will also be delivered with the hook of basketball, utilizing a basketball court at the City School Centre. The program will follow recommended research levels of time per grade level, understanding that certain students need additional support. Students who complete their homework during the first part of the academic time may spend the remaining time reading or engaged in other quiet activities.

If students need help with specific material, staff will encourage the student to note what needs to be clarified and discuss it with their teacher the next school day. If this communication does not solve the problem, program staff may contact the student's classroom teacher.

COR's youth programming emphasizes hands-on experiences to engage youth in their learning. This is particularly important for our community's low-income, underserved students to overcome historic inequities. This work will be designed to extend learning beyond the school day during the school year. By having students apply knowledge from their school subjects to new situations, they will see the importance of their school. For the students COR serves, reading at grade level is a challenge. COR staff thus will pay extra attention to providing personalized literacy enrichment activities for each student. Over 500 academic workshops and enrichment activities will be conducted in the Afterschool Programs in 2024.

Physical Fitness/Recreation/Skill Development Time (30-45 minutes)

COR offers developmentally appropriate, inclusive daily physical activities, games, and sports that encourage youth to establish healthy habits and be physically active. This time also provides opportunities to practice healthy communication, teamwork, and self-control. At least 15 minutes of this time will be devoted to moderate-vigorous activity. COR has installed shade tents to facilitate outdoor playground use even during inclement weather. In addition, COR has an indoor gym available for students at all sites. The City School Centre also has a sand volleyball court, outdoor basketball court, GaGa Ball, and a large multipurpose field.

Programming varies daily to keep students engaged and always includes physical activity. Unstructured play is offered both for physical fitness and to take advantage of the benefits of exercise for the brain. Programming will deliver expanded learning opportunities that support developmentally appropriate cognitive, social, physical, and emotional outcomes. Recreational outlets designed to engage students, build critical skills, and encourage self-expression will include music, art, science, and technology opportunities, along with visits from Scouts, the Atlanta Ballet, Draw Change, and other programming partners.

STEAM is incorporated daily using age-appropriate activities and may include the use of STEM kits, 3D printing, drones, coding (Sphero Balls, electronic boards, and collaborative and critical thinking activities), music (vocal training, electric/acoustic guitar, drums, and keyboard), arts/crafts, photography and videography, culinary arts and gardening, and financial literacy. Children will have opportunities to work collaboratively, problem-solve, and develop critical thinking. All programming will incorporate social-emotional learning to advance academic and personal growth. COR will also offer cultural enrichment, including regular field trips that are important for disadvantaged students to level the playing field.

Summer Programming

Summer Camp provides more time to provide hands-on learning experiences throughout the day. During the school year, staff will follow a similar schedule each day with time for snacks, exercise, academic support and remediation, hands-on enrichment activities, lunch, themed games, and free play. This enables the children to arrive knowing what to expect and ready to engage.

DocuSign Envelope ID: B9DA2AC8-C3BA-459D-89D6-3963AAEE8041

The camp has a weekly theme for elementary-aged children. Each theme week will be concluded with a field trip to a local destination to reinforce the exciting learning that has taken place during the week. Themes will be carefully chosen to make learning fun while complementing school priorities.

All activities selected will offer multiple solutions to allow youth to explore, design, and solve the activity in an age-appropriate way that works for their learning level. This will be critical in serving students of various levels and having each learn to problem solve based on their abilities. Activities will also be inexpensive and low prep. They will use everyday materials found in grocery stores so that families can see that this type of fun learning experience may be done at home as well. Delivering these hands-on, engaging opportunities will also allow all students to learn uniquely away from the classroom setting. Since there is no "right" way to do any of these activities, students can approach each day with confidence and a positive mindset. Activities will include a mix of individual and group projects that are beneficial and engaging for a wide range of ages. Themed games will be selected to complement the enrichment activities while providing the students with opportunities for physical fitness in a non-competitive environment.

The students will be engaged in selecting the materials they will use and creating their unique designs. This will help them increase independence and confidence as well as problem-solving skills. Projects will also be selected for students to experience the close connections between what they learn in school and their everyday lives. For example, making their ice cream will help students see the science behind their food choices. This project will be used as a way to not only learn science but also discuss the importance of natural ingredients to reinforce healthy eating habits. Parents will be supplied with a list of household supplies, materials, and instructions for their students to share what they have learned at home.

Themes and activities will include age-appropriate excitement. For example, during S.T.E.A.M Intro, students may have opportunities to build paper roller coasters, create animal cages, and build Lego bridges. They may make a balloon hovercraft, experiment with magnetic slime, and see how peroxide fizzes. They may make lava lamps and rubber band helicopters. Corresponding field trips can then correlate this learning to Georgia Standards of Excellence. COR is also partnering with Girl Scouts, an art therapy group, and a dance group to offer exciting camp programming that extends what elementary students experience during the week.

We have several partners who aid in the service delivery model for the youth enrolled in the program. These include Georgia Tech, Georgia State, Morehouse and Spellman (tutoring and mentoring), Buckhead Church (tutoring and mentoring), Youth Entrepreneurship (curriculum and program support), Atlanta Technical College (Dual Enrollment), Truist (financial literacy and Career Day), CBRE (Career Day), DeNyse Signs (Career Day), Junior Achievement (Biz Town and Finance Park), Tyro (leadership program for young men of color), Scouts, Atlanta Ballet, Draw Change (art therapy), Camp Lighthouse (overnight camp and retreats), and Atlanta Breakfast Club and The COR Kitchen (cooking and nutrition classes).

No other program in the Westside operates in the manner that COR does and with the same success rate. Since 2014, we have experienced a 90% graduation and post-secondary acceptance rate. All students attend COR programs at no cost.

The Afterschool and Summer Program will address the following Fulton County Health and Human Services Key Performance Indicators:

- Prevent health disparities by education residents and connecting them to available resources
    - Percentage of residents who experience food insecurity. (COR provides three meals a day and healthy snacks for youth enrolled in the programs)
    - Number of people who receive behavioral health services (COR's onsite partner Mercy Care provides behavioral health services, and COR's clients have access to onsite mental health clinicians through House of Cherith)
- Help residents realize their educational potential through our community services and library programs

DocuSign Envelope ID: B9DA2AC8-C3BA-459D-89D6-3963AAEE8041

- Percentage of high school students who meet literacy requirements (We have had a 10% overall ITBS test score improvement annually)
- Percentage of high school students who graduate on time (COR has had a 90% graduation rate since 2014)
- Percentage of eighth graders who meet target reading levels (10% ITBS test score increase annually)
- Percentage of fifth graders who meet target reading levels (10% ITBS test score increase annually)

Through Afterschool and Summer Program participation, K -12th grade youth receive enrichment opportunities focusing on S.T.E.A.M, academic support, healthy meals, transportation, and consistent, positive adult role models. COR's Afterschool and Summer Program addresses the following CSP Children and Youth Services Funding Priorities:
* In-school/Afterschool / Out of School Programs to help bring up academic and social/behavioral levels of school-aged youth (afterschool programming, enrichment programs, tutoring, summer camps, camps during school breaks)
* Ensure Safety and Justice by providing alternatives to activities and contributing factors that lead to unhealthy behaviors in children and youth (truancy; gangs; student mobility and homelessness; sexual activity; vaping; drug and alcohol abuse; eating disorders; cyberbullying and bullying; juvenile crimes; violence in media and culture; internet and social media addiction)
* Programs and services focusing on one or more of the six National Milestones of My Brother's Keeper (MBK) Alliance (MBK addresses persistent opportunity gaps faced by boys and young men of color and ensure that all young people can reach their full potential.)

In addition, participation in this program addresses the following Fulton County "Health & Human Services" Strategic Objectives:

- Prevent illness by engaging in healthier behavior: COR's youth are provided a safe space during the at-risk hours after school to decrease at-risk behaviors, including drinking, vaping, and sexual activity. They are also offered positive mentoring relationships with COR staff and volunteers, in addition to being surrounded by like-minded peers.
- Prevent health disparities by educating residents and connecting them to available resources: COR addresses food insecurity by providing an afterschool snack and dinner during the Afterschool Program and lunch and a snack during the Sumer Program.
- Help residents realize their educational potential through our community services and library programs: COR's youth graduate on time, meet literacy requirements after being enrolled for six months to 1 year (most arrive 1-2 years below grade level), and 5th and 8th graders meet targeted reading levels by the end of the year.
- Support the vulnerable residents in our social services: COR offers life-building interventions in four Key Impact Areas: Health and Wellness, Housing, Youth Development, and Vocational Training. We help arrest crises and restore dignity by providing the comprehensive support needed to address all barriers individuals and families face on their path to self-sufficiency.

- 50 school-aged youth will benefit from Afterschool / Out of School Programs to help bring up academic and social /behavioral levels
- 50 youth at risk for involvement with the Juvenile Justice System will demonstrate decreased or no delinquent behaviors (truancy, in-school suspension, out-of-school suspension, etc.)

Attendance is recorded daily in the Afterschool & Summer Program. Areas of success and needed improvement are noted and followed up on the following week. Conduct is reported and recorded daily and discussed during weekly staff meetings. Behavior modifications and consequences occur when warranted based on daily behavior. Each situation is handled individually, according to each youth's situation and the nature of the concerning behavior. All measures and performance indicators are tracked and recorded within the organization's internal database by the Program Manager, with oversight by the Vice President of Education.

Areas of evaluation for the Program include:

1. Is the academic tutoring the youth receive in the Afterschool Program and Summer program sufficient?
2. Are youth receiving the intended enrichment activities?
3. Are the enrichment activities enhancing the academic curriculum?

Odyssey, Inc., Odyssey Atlanta After-School Student Enrichment Program will provide services to **18** clients that reside in Fulton County, with CCSP funding.

Odyssey, Inc., will provide the following activities and services in Fulton County with CCSP funding:

For Summer 2024, Odyssey is prepared to measure the following three County-defined performance measures within Children & Youth Services:
1. In-school/ Afterschool/ Out of School Programs to help bring up academic and social/behavioral levels of school-aged youth (afterschool programming, enrichment programs, literacy programs, tutoring, mentoring, summer camps, camps during school breaks).
2. Programs and services focusing on one or more of the six National Milestones of My Brother's Keeper (MBK) Alliance. We will focus on the following three milestones: entering school ready to learn, reading at grade level by third grade, and graduating from high school ready for college and career.
3. Programs addressing mental health, depression, stress, trauma, and anxiety among youth and teens.

Odyssey partners with The Westminster Schools in Atlanta, rated one of the best private schools in Georgia, to provide access to curriculum, teachers, equipment, and materials. Odyssey's model is designed for each grade level to benefit from hands-on, immersive learning experiences. Each grade's curriculum is designed around age-appropriate themes, which drive day-to-day classroom structure, projects, and field trips. Our "whole learner" approach emphasizes the importance of building skills that transcend academics and exposing students to arts and culture, public service, and other concepts that prepare them for academic and post-graduate success. To help achieve this, Odyssey has built meaningful partnerships with museums, colleges and universities, and other organizations across Atlanta and Georgia that help meet the needs of our students.

Starting with a driving question, students learn by actively exploring real-world concepts and themes to acquire deeper knowledge and appreciation. Programs focus on the most critical measures of success at each level of development:

First Grade: Commotion in the Ocean
Driving Question: How does an understanding of the Earth's oceans affect the behavior of human interaction?

Second Grade: Stories of the Land
Driving Question: How can we, similar to the Native Americans of Georgia, use the land to help our community?

Third Grade: Living to 100 – Healthy Habits
Driving Question: What does it mean to be healthy?

Fourth Grade: Government and Me
Driving Question: How does the government impact me?

Fifth Grade: The World as a Village
Driving Question: If the world were a village, how would human rights be respected, but compromised?

DocuSign Envelope ID: 78980F6C-611A-423D-A385-0FA8E5573FA1

Sixth Grade: Community and Me
Driving Question: What are the key elements of community, public services, environment, and my place in society and my social responsibilities?

Seventh Grade: Odyssey Undercover
Driving Question: How does the criminal justice system impact our community?

Eighth Grade: Being Your Own Boss
Driving Question: How Do I Become My Own Boss?

Ninth Grade: Community Builders
Driving Question: What are the characteristics of a good community? Why?

Tenth Grade: Hidden Figures
Driving Question: With the technology and resources that are available today, how could the John Glenn launch be modified and still be successful?

Eleventh Grade: Social Impact of the Industrial Food Complex on Teens (Filming)
Driving Question: How does the Industrial Food Complex affect the physical, emotional, and social lives of teens?

Twelfth Grade: Odyssey University
Driving Question: How do you generate, revise, and polish a meaningful college essay that communicates your story most effectively?

Overview of Lower School

Odyssey's youngest learners in grades 1-5 engage in core academic lessons in reading, writing, and math, and enjoy extra-curricular activities such as art, dance, cooking and nutrition, physical education, and technology. Primary themes of study in lower school include health and wellness, ecology, globalism, and government. Students are exposed to places like the Chattahoochee Nature Center, Georgia Aquarium, High Museum of Art, and the National Center for Civil and Human Rights.

Overview of Middle School

Odyssey's middle school curriculum focuses on elements of the community, public services, environment, and their place in society and their social responsibility. Rising eighth graders focus on business plans and the finance market. During our "Shark Tank" activity, students persuade current business owners to invest in their businesses. Students are tasked with creating a prototype and developing a marketing and business plan to "pitch" to a panel of guest judges at the end of the program. This course enhances their financial literacy skills, enhances public speaking, and develops a better understanding of how to create a diverse economic portfolio, thus setting them up for post-graduate financial success. Middle school students visit spaces including the Atlanta History Center, the Georgia Bar Museum, Emory's Genetics Lab, the Southern Poverty Law Center, the Atlanta Food Bank, and the Federal Reserve.

Overview of High School

High school programs are designed around the seven Odyssey Scholar Pillars, which include: 1) Financially Literate, 2) Technologically Literate, 3) Knowledgeable and Skillful Collaborator, 4) Self Aware, 5) Socially Engaged, 6) Skillful Leader, and 7) College and Career Ready. Odyssey's goal for students in grades 9-12 is to prepare them for college and the workforce, ensuring they have the skills necessary to be successful. Programs focus on building persuasive writing

DocuSign Envelope ID: 78980F6C-611A-423D-A385-0FA8E5573FA1

skills, public speaking, self-management, SAT preparation, creative communication, mock interviews, and writing college essays. 11th and 12th-grade students meet with college counselors to actively complete multiple components of their college application and admissions process and learn about financial aid opportunities. Student field trips include visiting various neighborhoods around Atlanta, corporate visits, and several college and university campuses, including the Atlanta University Center, Kennesaw State University, Georgia Tech, University of Georgia, and several colleges & universities in the Southeastern region of the United States.

A critical component of Odyssey's programs for all grades (1-12) is providing ongoing mental health support for students and families. A 2019 report published by the Learning Policy Institute stated that a child's brain develops most fully when they feel emotionally and physically safe, and when they feel connected, challenged, and engaged. Facing adversity and trauma (housing instability, food insecurity, low income) hinders the brain's ability to develop. By creating a safe, inclusive environment and providing resources and mentors for students, we see a direct correlation to improved academic performance. Odyssey students receive daily Social Emotional Learning lessons and access to one-on-one sessions with licensed mental health professionals through referrals.

The following program measures/ Key Performance Indicators ("KPI's") will be utilized to track and report program outcomes for the Fulton County residents supported with CSP funding, during the funding period 01/01/2024 through 12/31/2024:

For Summer 2024, Odyssey is prepared to measure the following three County-defined performance measures within Children & Youth Services:

1. Number of school-aged youth engaged in/benefiting from In school/ Afterschool/ Out of School Programs to help bring up academic and social/behavioral levels.
2. Number of youth/teens receiving referrals to behavioral health, evidence-based programming, and other supportive services.
3. Number of boys and young men of color benefiting from one or more of the My Brother's Keeper (MBK) Alliance six National Milestones. We will focus on the following three milestones: entering school ready to learn, reading at grade level by third grade, and graduating from high school ready for college and career.

Methods for Success

Since 2009, Odyssey has measured program success against five SMART Objectives (Specific, Measurable, Achievable, Realistic, and Time-Bound) to demonstrate measurable results. This data assesses academic progress and program retention throughout all grade levels, graduation rates, and college matriculation of our high school students. Odyssey SMART Objectives are organized into five categories comprising 13 SMART objectives. These are Academic, High School Graduation, Student Attendance, and Student Retention. The Academic section is subcategorized by reading, writing, mathematics, and High School Graduation.

In addition, Odyssey will measure the following agency-defined objectives:

- 70% of students who complete a summer at Odyssey will return for the following summer.
- 90% of Odyssey students will miss 3 days or less during the six weeks of the Odyssey summer program.
- 90% of Odyssey students participating in rising 11th or 12th-grade summers will attend a college, university, or technical school.
- 90% of Odyssey students participating in two or more years between 9th and 12th grades will graduate from high school.

To determine how well we are accomplishing our SMART objectives, Odyssey tests each student at the beginning and

DocuSign Envelope ID: 78980F6C-611A-423D-A385-0FA8E5573FA1

end of the program. The testing is designed for each grade level based on Georgia's teaching standards. The tests are also created from the Georgia assessment website to ensure standards and instruction are aligned with the state's expectations. Attendance objectives are tracked by daily attendance logs. Odyssey maintains a strict absentee policy of only 3 missed days each summer. If a student misses more than 3 days, they are asked to leave the program. This policy is based on extensive research demonstrating that an absentee rate of greater than 10% not only has adverse effects on the absent child but also on the peers in class who may miss instruction time or suffer a negative impact as an absent child attempts to get caught up in class. Families are informed of this policy before attending and sign an agreement demonstrating their commitment to take full advantage of Odyssey. Reading objectives are measured by regular book reports prepared by the students. The core learning objectives in math, reading comprehension, and writing are determined in part by the pretesting. Our faculty shapes the objectives to meet the most critical academic needs –eg. phonics, sentence structure, or vocabulary in language arts; place value and math facts in math; or critical thinking. For more than 5 years, Odyssey has used Edulastic, a universal assessment tool, to measure the progress of our students in grades 1-12. This longitudinal tool will give Odyssey the ability to monitor and impact each student's academic growth throughout the six-week program and track year-over-year improvement. In addition, Odyssey launched a new Salesforce database platform to house student data. The new database will serve as one of the tools to help in creating individual scholar profiles. Every student's unique profile will be used as part of the counseling program to guide each student through their academic career.

In alignment with our 2020-2025 Strategic Plan, Odyssey addresses three CSP funding priorities that impact Children & Youth Services, Economic Stability, and Health and Wellness. Odyssey incorporates Health and Human Services initiatives throughout all three divisions. Specifically, third graders focus on Health and Wellness as part of their "Living to 100" unit. Over six weeks, scholars focus on all elements of diet, nutrition, and exercise, and the importance of a healthy lifestyle to ensure a long lifestyle. The theme inspires learning healthy ways to prolong their lifespan, including exercise, sleep, and other healthy habits. To educate our scholars on the importance of economic stability, Odyssey incorporates financial literacy into its programming. Students have the opportunity to visit the Federal Reserve Bank where they learn the importance of maintaining stability in our financial systems and containing risks that may arise in financial markets. High school students are exposed to college campuses and trips to local companies as part of our career quests and networking events where they can learn more about various careers and the necessary steps to achieve success in these areas. In addition, the summer of 2024 will introduce rigorous financial literacy programming in partnership with Truist; introducing curriculum, online tools, and mentorship for grades 1-12.

In addition, Odyssey has identified social-emotional learning (SEL) as a priority for all grade levels. Odyssey's 2025 strategic plan included strengthening the project-based learning format, adding an SEL curriculum, developing a system for mental health support, and creating a road map that would support students leading up to and throughout their collegiate journey until graduation. Odyssey recently expanded its mental health services to connect with families year-round to provide them with the necessary support to succeed throughout the school year. Odyssey's Mental Health Committee consists of a diverse group of licensed professionals who meet with students and families to discuss topics ranging from boundary-setting, managing emotions, preparing for college, self-regulation strategies, and other topics to ensure they are equipped with the social and emotional skills to navigate life at each grade level. SEL programs and outcomes are developed and measured in partnership with Second Step, a program that helps students build social and emotional skills. We also conduct feedback surveys from students, teachers, and parents regularly to ensure we are meeting their needs.

Odyssey, Inc., Odyssey Atlanta After-School Student Enrichment Program will provide services to **18** clients that reside in Fulton County, with CCSP funding.

Odyssey, Inc., will provide the following activities and services in Fulton County with CCSP funding:

For Summer 2024, Odyssey is prepared to measure the following three County-defined performance measures within Children & Youth Services:
1. In-school/ Afterschool/ Out of School Programs to help bring up academic and social/behavioral levels of school-aged youth (afterschool programming, enrichment programs, literacy programs, tutoring, mentoring, summer camps, camps during school breaks).
2. Programs and services focusing on one or more of the six National Milestones of My Brother's Keeper (MBK) Alliance. We will focus on the following three milestones: entering school ready to learn, reading at grade level by third grade, and graduating from high school ready for college and career.
3. Programs addressing mental health, depression, stress, trauma, and anxiety among youth and teens.

Odyssey partners with The Westminster Schools in Atlanta, rated one of the best private schools in Georgia, to provide access to curriculum, teachers, equipment, and materials. Odyssey's model is designed for each grade level to benefit from hands-on, immersive learning experiences. Each grade's curriculum is designed around age-appropriate themes, which drive day-to-day classroom structure, projects, and field trips. Our "whole learner" approach emphasizes the importance of building skills that transcend academics and exposing students to arts and culture, public service, and other concepts that prepare them for academic and post-graduate success. To help achieve this, Odyssey has built meaningful partnerships with museums, colleges and universities, and other organizations across Atlanta and Georgia that help meet the needs of our students.

Starting with a driving question, students learn by actively exploring real-world concepts and themes to acquire deeper knowledge and appreciation. Programs focus on the most critical measures of success at each level of development:

First Grade: Commotion in the Ocean
Driving Question: How does an understanding of the Earth's oceans affect the behavior of human interaction?

Second Grade: Stories of the Land
Driving Question: How can we, similar to the Native Americans of Georgia, use the land to help our community?

Third Grade: Living to 100 – Healthy Habits
Driving Question: What does it mean to be healthy?

Fourth Grade: Government and Me
Driving Question: How does the government impact me?

Fifth Grade: The World as a Village
Driving Question: If the world were a village, how would human rights be respected, but compromised?

DocuSign Envelope ID: 78980F6C-611A-423D-A385-0FA8E5573FA1

Sixth Grade: Community and Me
Driving Question: What are the key elements of community, public services, environment, and my place in society and my social responsibilities?

Seventh Grade: Odyssey Undercover
Driving Question: How does the criminal justice system impact our community?

Eighth Grade: Being Your Own Boss
Driving Question: How Do I Become My Own Boss?

Ninth Grade: Community Builders
Driving Question: What are the characteristics of a good community? Why?

Tenth Grade: Hidden Figures
Driving Question: With the technology and resources that are available today, how could the John Glenn launch be modified and still be successful?

Eleventh Grade: Social Impact of the Industrial Food Complex on Teens (Filming)
Driving Question: How does the Industrial Food Complex affect the physical, emotional, and social lives of teens?

Twelfth Grade: Odyssey University
Driving Question: How do you generate, revise, and polish a meaningful college essay that communicates your story most effectively?

Overview of Lower School

Odyssey's youngest learners in grades 1-5 engage in core academic lessons in reading, writing, and math, and enjoy extra-curricular activities such as art, dance, cooking and nutrition, physical education, and technology. Primary themes of study in lower school include health and wellness, ecology, globalism, and government. Students are exposed to places like the Chattahoochee Nature Center, Georgia Aquarium, High Museum of Art, and the National Center for Civil and Human Rights.

Overview of Middle School

Odyssey's middle school curriculum focuses on elements of the community, public services, environment, and their place in society and their social responsibility. Rising eighth graders focus on business plans and the finance market. During our "Shark Tank" activity, students persuade current business owners to invest in their businesses. Students are tasked with creating a prototype and developing a marketing and business plan to "pitch" to a panel of guest judges at the end of the program. This course enhances their financial literacy skills, enhances public speaking, and develops a better understanding of how to create a diverse economic portfolio, thus setting them up for post-graduate financial success. Middle school students visit spaces including the Atlanta History Center, the Georgia Bar Museum, Emory's Genetics Lab, the Southern Poverty Law Center, the Atlanta Food Bank, and the Federal Reserve.

Overview of High School

High school programs are designed around the seven Odyssey Scholar Pillars, which include: 1) Financially Literate, 2) Technologically Literate, 3) Knowledgeable and Skillful Collaborator, 4) Self Aware, 5) Socially Engaged, 6) Skillful Leader, and 7) College and Career Ready. Odyssey's goal for students in grades 9-12 is to prepare them for college and the workforce, ensuring they have the skills necessary to be successful. Programs focus on building persuasive writing

DocuSign Envelope ID: 78980F6C-611A-423D-A385-0FA8E5573FA1

skills, public speaking, self-management, SAT preparation, creative communication, mock interviews, and writing college essays. 11th and 12th-grade students meet with college counselors to actively complete multiple components of their college application and admissions process and learn about financial aid opportunities. Student field trips include visiting various neighborhoods around Atlanta, corporate visits, and several college and university campuses, including the Atlanta University Center, Kennesaw State University, Georgia Tech, University of Georgia, and several colleges & universities in the Southeastern region of the United States.

A critical component of Odyssey's programs for all grades (1-12) is providing ongoing mental health support for students and families. A 2019 report published by the Learning Policy Institute stated that a child's brain develops most fully when they feel emotionally and physically safe, and when they feel connected, challenged, and engaged. Facing adversity and trauma (housing instability, food insecurity, low income) hinders the brain's ability to develop. By creating a safe, inclusive environment and providing resources and mentors for students, we see a direct correlation to improved academic performance. Odyssey students receive daily Social Emotional Learning lessons and access to one-on-one sessions with licensed mental health professionals through referrals.

The following program measures/ Key Performance Indicators ("KPI's") will be utilized to track and report program outcomes for the Fulton County residents supported with CSP funding, during the funding period 01/01/2024 through 12/31/2024:

For Summer 2024, Odyssey is prepared to measure the following three County-defined performance measures within Children & Youth Services:

1. Number of school-aged youth engaged in/benefiting from In school/ Afterschool/ Out of School Programs to help bring up academic and social/behavioral levels.
2. Number of youth/teens receiving referrals to behavioral health, evidence-based programming, and other supportive services.
3. Number of boys and young men of color benefiting from one or more of the My Brother's Keeper (MBK) Alliance six National Milestones. We will focus on the following three milestones: entering school ready to learn, reading at grade level by third grade, and graduating from high school ready for college and career.

Methods for Success

Since 2009, Odyssey has measured program success against five SMART Objectives (Specific, Measurable, Achievable, Realistic, and Time-Bound) to demonstrate measurable results. This data assesses academic progress and program retention throughout all grade levels, graduation rates, and college matriculation of our high school students. Odyssey SMART Objectives are organized into five categories comprising 13 SMART objectives. These are Academic, High School Graduation, Student Attendance, and Student Retention. The Academic section is subcategorized by reading, writing, mathematics, and High School Graduation.

In addition, Odyssey will measure the following agency-defined objectives:

- 70% of students who complete a summer at Odyssey will return for the following summer.
- 90% of Odyssey students will miss 3 days or less during the six weeks of the Odyssey summer program.
- 90% of Odyssey students participating in rising 11th or 12th-grade summers will attend a college, university, or technical school.
- 90% of Odyssey students participating in two or more years between 9th and 12th grades will graduate from high school.

To determine how well we are accomplishing our SMART objectives, Odyssey tests each student at the beginning and

DocuSign Envelope ID: 78980F6C-611A-423D-A385-0FA8E5573FA1

end of the program. The testing is designed for each grade level based on Georgia's teaching standards. The tests are also created from the Georgia assessment website to ensure standards and instruction are aligned with the state's expectations. Attendance objectives are tracked by daily attendance logs. Odyssey maintains a strict absentee policy of only 3 missed days each summer. If a student misses more than 3 days, they are asked to leave the program. This policy is based on extensive research demonstrating that an absentee rate of greater than 10% not only has adverse effects on the absent child but also on the peers in class who may miss instruction time or suffer a negative impact as an absent child attempts to get caught up in class. Families are informed of this policy before attending and sign an agreement demonstrating their commitment to take full advantage of Odyssey. Reading objectives are measured by regular book reports prepared by the students. The core learning objectives in math, reading comprehension, and writing are determined in part by the pretesting. Our faculty shapes the objectives to meet the most critical academic needs –eg. phonics, sentence structure, or vocabulary in language arts; place value and math facts in math; or critical thinking. For more than 5 years, Odyssey has used Edulastic, a universal assessment tool, to measure the progress of our students in grades 1-12. This longitudinal tool will give Odyssey the ability to monitor and impact each student's academic growth throughout the six-week program and track year-over-year improvement. In addition, Odyssey launched a new Salesforce database platform to house student data. The new database will serve as one of the tools to help in creating individual scholar profiles. Every student's unique profile will be used as part of the counseling program to guide each student through their academic career.

In alignment with our 2020-2025 Strategic Plan, Odyssey addresses three CSP funding priorities that impact Children & Youth Services, Economic Stability, and Health and Wellness. Odyssey incorporates Health and Human Services initiatives throughout all three divisions. Specifically, third graders focus on Health and Wellness as part of their "Living to 100" unit. Over six weeks, scholars focus on all elements of diet, nutrition, and exercise, and the importance of a healthy lifestyle to ensure a long lifestyle. The theme inspires learning healthy ways to prolong their lifespan, including exercise, sleep, and other healthy habits. To educate our scholars on the importance of economic stability, Odyssey incorporates financial literacy into its programming. Students have the opportunity to visit the Federal Reserve Bank where they learn the importance of maintaining stability in our financial systems and containing risks that may arise in financial markets. High school students are exposed to college campuses and trips to local companies as part of our career quests and networking events where they can learn more about various careers and the necessary steps to achieve success in these areas. In addition, the summer of 2024 will introduce rigorous financial literacy programming in partnership with Truist; introducing curriculum, online tools, and mentorship for grades 1-12.

In addition, Odyssey has identified social-emotional learning (SEL) as a priority for all grade levels. Odyssey's 2025 strategic plan included strengthening the project-based learning format, adding an SEL curriculum, developing a system for mental health support, and creating a road map that would support students leading up to and throughout their collegiate journey until graduation. Odyssey recently expanded its mental health services to connect with families year-round to provide them with the necessary support to succeed throughout the school year. Odyssey's Mental Health Committee consists of a diverse group of licensed professionals who meet with students and families to discuss topics ranging from boundary-setting, managing emotions, preparing for college, self-regulation strategies, and other topics to ensure they are equipped with the social and emotional skills to navigate life at each grade level. SEL programs and outcomes are developed and measured in partnership with Second Step, a program that helps students build social and emotional skills. We also conduct feedback surveys from students, teachers, and parents regularly to ensure we are meeting their needs.

Activities and Services

In 2024, VOX will serve teens in Fulton County through the following activities and services in order to support our CSP funding priorities:

Media and Journalism Education and Publishing

-Atlanta Teen Voices Journalism Fellowship: This 12 week program supports teens in developing journalism and content creation skills, including researching, interviewing, writing, video and podcast production, and interviewing. Participants are eligible for a $500 stipend.

-Media and Journalism Workshops: We offer regular in-person workshops for teens to learn about journalism and media production including interviewing skills, podcast production, short and long form video production, investigative journalism, opinion writing, food, film, music and theater reviews, and photography.

-Virtual Media & Journalism Workshops: For increased accessibility and to reach teens who may not be able to make it to downtown Atlanta, VOX provides monthly virtual workshops. The workshops focus on ways for teens to utilize free platforms to create media at home, and feature guest speakers in the media industry. These are often open to any teens in Metro Atlanta.

-Publishing Meetings: These weekly virtual meetings are open to all VOX participants to discuss story ideas, receive feedback or story support, and learn/review foundational journalism skills.

-VOX Media Cafe (VMC): VOX's signature summer camp, VMC offers a unique hands-on-opportunity for teens to explore multimedia production, journalism and public speaking. Teens spend two weeks learning writing, interviewing, video editing, podcasting, photography and graphic design, and then create a media piece to be published on VOXATL.org. VMC also features field trips, volunteer support, and peer connections.

-Teen-led Publishing: VOX publishes teen-created content across a variety of multimedia formats. Both VOX participants, and any teen in metro Atlanta, can submit their work to be published. All VOX publications are teen driven, uncensored but not unedited, and adhere to the Society of Professional Journalists Code of Ethics. VOX publishing staff and volunteer copy editors and story coaches support teens in producing high-quality content. Qualifying teens are eligible to receive stipends for published work.

-Print Publishing: VOX teens create 1-3 print publications each year. We are in the process of updating our distribution list, but typically 30,000+ copies of each issue are distributed, free of charge, to 300+ schools and youth-serving organizations throughout metro Atlanta. 14,000+ of those copies are distributed to 140+ sites in Fulton County.

-Coverage Opportunities: VOX teen journalists participate in various coverage opportunities including sports games, music festivals, and Broadway plays.

-Studio Productions: Through VOX's community outreach initiatives, teens and young alumni exercise their skills through commissioned media production. Teens are paid a stipend, and complete each project with a piece to add to their portfolio.

Leadership Development

Wherever possible, program workshops and events, at VOX or hosted with partner organizations, are facilitated by teen participants who are provided ongoing training to support the planning, delivery, and review of our program offerings. We also seek to build teens' leadership skills to take into their academic, professional, and personal lives. Activities include:

-Leadership workshops: Interactive workshops develop teens' leadership skills through civic and community engagement, public speaking, advocacy, professional life skills, and other areas teens self-identify.

-Atlanta Youth Voice Leadership Accelerator: This 6-week program is an opportunity for teens to develop their

DocuSign Envelope ID: 3E525CF4-3706-4CA1-AAA3-580A3E9CB551

leadership capabilities by building a knowledge of their own voice and leadership style and how to uplift and amplify the voices of other teens. The cohort works together on a project that culminates in a community event. Teens who complete the Leadership Accelerator are eligible for a $500 stipend.
-Community Outreach Facilitators: VOX prioritizes youth leadership in all of our programming, including outreach & community-based activities, such as journalism and self-expression workshops, creation stations, open mics and more. Teens, alumni and lead volunteers are trained as community outreach facilitators to develop agendas, deliver workshops, represent VOX at events, and support community content deliverables.
-Post-secondary Support: VOX offers networking opportunities, workshops and resources to assist teens with graduation and post-secondary planning. Topics include college application and scholarship help, financial planning, resume building, interview skills, cooking and household maintenance, and alternatives for post-secondary education.

Atlanta Word Works (AWW)
Founded in 2009 by Natalie Cook, a VOX teen, AWW is VOX's creative writing hub focused on poetry (written and spoken word) lyricism, and storytelling. AWW provides opportunities to develop social-emotional learning skills and coping strategies through authentic self-expression, artistry feedback, and community building. Activities include:
-Workshops: Poetry workshops support artist cultivation through technical writing, editing and performance, and social-emotional literacy.
-Community Days: Participants gather monthly at the VOX office for dinner and peer-led community-building sessions to share their work, receive feedback, and engage in discussions about poetry and related topics.
-Youth Poet Laureate (YPL): In partnership with Urban Word, VOX hosts the Atlanta Youth Poet Laureate competition each spring. The application is open to all young writers and leaders who are committed to civic & community engagement, poetry & performance, human relations, diversity, social justice and education. A review panel of adults and teens selects the Atlanta YPL, along with several YPL Ambassadors, who are all honored at our YPL Commencement. Year round, the Atlanta YPL and Ambassadors can be commissioned for poetry performances and engagement in the Atlanta area.
-Anthology: The anthology is a semester-long project with a cohort of up to 12 teens who participate in monthly meet-ups to workshop original poems for publication in a chapbook. In addition to print publication, authors record one of their submissions as a part of an Anthology extended-play (EP), available on VOX's streaming channels, and are featured in a showcase. Poets receive a stipend for their published works.

Community Building
During the school year, the VOX office is open Tuesday - Thursday from 3pm-7pm and Saturdays from 10am-5pm. All VOXers are welcome into the office during those times to work on story publication, poetry, homework, or simply to have a safe, welcoming space to hang out with friends and connect with supportive adults. Partner organizations and schools are invited to schedule a field trip to the VOX office to experience the environment and engage in hands-on activities. Additional activities include:
-Community Events: VOX provides regular opportunities for teens to connect, have fun, and just be themselves. These include ice cream socials, art activities, movie days, game tournaments, how-to workshops, and field trips to local games, movie screenings, and theater performances.
-Internships: VOX offers paid semester-long internship opportunities for teens and young adults to support the planning, implementation, and evaluation of all programming. Each program branch offers a teen internship and near-peer internship position that works alongside adult staff. Registered VOX teen participants are eligible to apply for the teen positions. Near-peer positions are available to internal alumni and external applicants. Selected interns participate in

DocuSign Envelope ID: 3E525CF4-3706-4CA1-AAA3-580A3E9CB551

orientation, facilitation and program specific training, receive on-going professional development and are supported in their self-identified goals.

How Activities and Services Will Be Accomplished
In order to accomplish the activities and services outlined above, VOX will do the following in 2024:

-Serve 50 Fulton County teens through afterschool and summer programming
-Provide internships for 6-8 teens and young alumni in the spring and fall semesters, and 4-6 teens and young alumni in the summer
-Offer stipends to teen participants and young alumni for eligible content creation, commissioned media production and community facilitation
-Publish digital content multiple times each week on VOXATL.org and social media channels
-Publish print content (newspaper, Free Your Feels workbook, poetry anthology) and do intentional outreach to update our distribution sites in Fulton County
-Facilitate free workshops for schools and youth-serving organizations throughout Fulton County
-Host community activities open to all Fulton County teens including youth voice showcases and the Atlanta Youth Poet Laureate program
-Do intentional outreach to Fulton County teens to take our VOX Teen Survey, which was created to fill an information gap in the youth development field
-Continue to build on our long-standing partnerships with other nonprofits serving the Fulton community

“Health & Human Services” Key Performance Indicators

VOX Teen Voices addresses three of the strategic objectives:
1. Prevent illness by engaging in healthier behavior: We support teens in developing positive strategies for maintaining their mental health and wellness by providing one-on-one social-emotional support, facilitating specific mental-health workshops and incorporating mindfulness into program activities. In addition, our skill-building workshops on topics like cooking and household maintenance help teens develop necessary skills before leaving home.

2. Prevent health disparities by educating residents and connecting them to available resources: All health-related content published on VOXATL.org and in our print content includes important educational information and connections to community resources.

3. Help residents realize their educational potential through our community services and library programs. We want all teens to see themselves as leaders and strive to support them in recognizing their innate potential. One tangible way we do this is by providing opportunities for teens to get paid for their work as interns, content creators and community facilitators. Paying teens is a best practice in youth development and shows teens that hard work, energy and expertise are valued and financially rewarded. By putting teens in leadership positions, they are reminded that their voices matter and that they have something important to contribute to the community. In addition, our educational out-of-school time programming supports teens in increasing positive attitudes and behaviors towards academics, including strengthening literacy and reading skills, and we consistently see 100% of high school seniors who participate in our program graduate on time (in support of the Health and Human Services key performance indicators).

CSP Funding Priorities

VOX Teen Voices addresses four of the CSP funding priorities for the Children & Youth Services category:

1. In school/Afterschool/out of school programs to help bring up academic and social/behavioral levels of school-aged youth
VOX believes that education happens everywhere. Education is infused into every aspect of our holistic youth development programs, and VOX Teen Voices supports teens in developing the 21st century skills needed for healthy, productive futures. Our outcomes are consistent with many of the National Common Core Learning Standards. For example, our collaborative editing process aligns with the following:
-Respond thoughtfully to diverse perspectives, summarize points of agreement and disagreement, and, when warranted, qualify or justify their own views and understanding and make new connections in light of the evidence and reasoning presented.
-Develop and strengthen writing as needed by planning, revising, editing, rewriting, or trying a new approach

We also adhere to several of the standards from the Georgia Standards of Excellence, including:
-ELAGSE9-10W6 ELAGSE11-12W6 Use technology, including the Internet, to produce, publish, and update individual or shared writing products in response to ongoing feedback (use Google Docs and Wordpress to publish content)
-ELAGSE11-12SL1c. Propel conversations by posing and responding to questions that probe reasoning and evidence, d. Respond thoughtfully to diverse perspectives (the feedback process utilized by AWW)

2. Programs addressing mental health, depression, stress, trauma and anxiety among youth and teens
As we shared earlier, this country is experiencing a mental health crisis among teens, and it is essential that programs like VOX support teens in developing positive coping mechanisms. Everything VOX does is framed in a social-emotional learning lens. Teens turn to the adult staff, which includes trained social workers, for help in solving complex problems, accessing additional services and determining next steps in challenging situations. We are committed to using healing-centered practices to create a space where all teens can thrive and know that they belong. An important component of that is building a community where every participant feels valued and knows they belong. We intentionally create that space by always doing welcomes and go-around questions, developing community agreements for each cohort of teens, and normalizing the sharing of pronouns. We also recognize that youth are not generally included in conversations around their own mental health, despite participant investment being crucial to positive outcomes. As a teen-led space, we uplift youth voice, which provides countless opportunities for teens to share what they need. All of this helps to reduce stigma and foster communication about mental health and well-being.

Since 2019, in partnership with the Georgia Department of Behavioral Health and Disabilities (DBHDD), VOX has been supporting “Free Your Feels,” a mental health awareness campaign encouraging Georgia's young people to explore their real feelings and share them fearlessly. Providing outlets to create content and art around these topics makes both the creators and the audience feel connected in times of disconnection and division.

3. Ensure safety and justice by providing alternatives to activities and contributing factors that lead to unhealthy behaviors in children and youth
VOX philosophically recognizes that all teens are at-risk. Risky behaviors often start during childhood and adolescence, meaning that programs such as VOX are essential during this pivotal time of life. By choosing to connect with VOX’s

DocuSign Envelope ID: 3E525CF4-3706-4CA1-AAA3-580A3E9CB551

content, young people are expressing their interest in connecting with resources and receiving information that will help them learn skills and improve their ability to avoid risky behaviors. Through our print and digital publishing, VOX teens cover a number of issues related to risky behaviors including self-care, mental health and hip-hop, hypermasculinity, body positivity, gun violence and bullying. Our content always includes links to resources. Teens share personal stories about their own experiences with these topics and ways their peers can take action to care for themselves and their communities.

4. Programs and services focusing on one or more of the six National Milestones of My Brother's Keeper (MBK) Alliance

Our 21st century skills-based programming ensures that teens are graduating from high school with transferable skills that will help them thrive when they enter the workforce. Through our digital media, journalism and facilitation training, VOX teens participate in hands-on skill-building opportunities. As they publish content in different forms of digital media, teens are able to build portfolios to share with college admissions officers and future employers. For most teens we serve, their work at VOX is their first job, and for teens earning stipends, it is their first paycheck. The leadership and peer-to-peer work teens do to create tangible products (workshop agendas, digital content, print newspapers, etc.) also prepares them for the workforce. We support teens with job shadowing and networking opportunities, and we also build intentional partnerships with organizations such as the Posse Foundation to connect teens with important scholarship opportunities. VOX provides unique and innovative ways to ensure that our teens are developing the hard and soft skills they need to graduate from high school and be successful in their college and career pursuits.

Community Collaborative Relationships

We distribute our print product to a diverse group of 300+ schools and youth-serving organizations throughout metro Atlanta, including 140+ sites in Fulton County. We also provide free self-expression workshops for schools and youth-serving organizations. Through these workshops, teens create art, written content, podcasts and videos, and we publish their voices on VOXATL.org. Below are nine specific partnerships for 2024 we would like to highlight:

1. Broadway in Atlanta & Most Valuable Kids: These organizations provide free tickets for VOX teens to attend shows at the Fox Theatre and then publish content about those experiences.
2. Georgia Department of Behavioral Health and Developmental Disabilities: Through this partnership, VOX teens create mental health-specific content for their peers in the community and also facilitate self-expression activities for teens across Georgia.
3. North Springs High School & Sandy Springs Education Force: We are continuing this partnership by offering a four-part workshop series focused on media literacy, self-expression and podcasting for students at North Springs High School.
4. Free Your Feels: We partner with Silence the Shame and Voices for Georgia's Children to lead Free Your Feels, a mental health awareness campaign hosted by the Georgia Department of Behavioral Health and Developmental Disabilities. Our work includes teen-led programming, self-expression outreach activities and mental health campaign content.
5. Fulton County Board of Health: We are renewing our partnership with the SKYE Program to provide teen-to-teen self-expression activities and youth voices to inform this pregnancy-prevention and holistic health program.
6. Atlanta Public Schools: During the 2024 Spring semester, we are hosting two work-based learning students in partnership with APS.
7. Morehouse School of Medicine: VOX supports the Black Youth Mental Health project led by Morehouse School of

DocuSign Envelope ID: 3E525CF4-3706-4CA1-AAA3-580A3E9CB551

Medicine by leading the youth engagement strategy and supporting intergenerational advisory council and youth-adult partnership through technical assistance and trainings.
8. YOU(th) Belong: We are a community partner for this coalition that celebrates youth leadership, advocacy and creative expression with monthly events for LGBTQ+ youth and allies.
9. Community workshop partners: In January, we facilitated self-expression activities at The New School and the Beloved Community Youth Fair. In February we will be at Asian American Journalists' Association Student Day. And we are planning with the following organizations to provide workshops in 2024: 100 Black Women of Atlanta (Teen Mental Health Summit), The Drake House, Future Foundation and youthSpark.

Methods & Goals
In 2018, VOX's staff, teens and board members conducted a needs assessment by surveying a wide range of VOX's stakeholders to identify what teens in Atlanta need, what needs VOX currently fills and what the possibilities of growth are for our organization. Below are the top four needs that respondents indicated VOX should fill:
-Safety/safe spaces: Teens need safe spaces to go outside of school and home. Teens need spaces to be themselves (emotional/psychological safety) and to take risks in order to grow. Communities need to be safe from violence and discrimination.
-High quality educational opportunities: Teens need support and experiences to become self-actualized individuals who have plans for life after high school. The community needs a more holistic and realistic understanding of youths' positive futures to provide environments and opportunities for youth to define and achieve success after high school.
-Mental health/wellness: Individuals need quality, culturally and developmentally relevant mental health and well-being supports. The community needs a culture shift, changes in the systems of care, informed by youth voices to increase the system's effectiveness and impact.
-Outlets for teens: For their voices, creativity, self-expression and community engagement; to be heard by adults in order to influence change.

We used the information from our needs assessment to inform the development of our 2019-22 strategic plan. At the

DocuSign Envelope ID: 3E525CF4-3706-4CA1-AAA3-580A3E9CB551

core, success for this strategic plan was focused on VOX's ability to serve more teens and create a shift in our community so that all young people are seen and valued for exactly who they are. As we were going through a leadership transition / executive director hiring process near the end of that strategic plan, we added additional time to our 2019-22 strategic plan. VOX is currently in the midst of a new strategic planning process led by Charaun Cash, Executive Director, and Josh Penny, Board Chair, in collaboration with Aarti Sharma, of LuNoor Consulting. The anticipated strategic plan will be complete by the end of March 2024. We have uploaded our 2018 needs assessment and our 2019-22 strategic plan in the Other Supporting Documents section.

VOX's current strategic plan lays out our three organizational goals:
-Teen Driven Programs: We will create and deliver high quality, teen-driven programs while understanding and deepening their impact.
-VOX Culture: We will leverage our expertise and scale our teen-driven culture with a commitment to program integrity and quality.
-Amplify Teen Voice: We will create cohesive, visible branding that amplifies VOX's role as a significant voice, resource, and platform for teens, by teens.

Our strategic plan also outlines our overall program goals:
-Teens develop leadership, technical and soft skills through engaging with programs, peers, and adults.
-Teens experience changes in attitudes such as increased self-esteem, self-actualization, hope and motivation.
-Teens experience changes in lifestyle and behavior through access to safe spaces and resources to develop skills, cope with life, and prepare for the future.
-Teens, adults, and organizations impacted by VOX share what they learn with the world.

With that framework in mind, our specific goals for VOX Teen Voices in 2024 are:

1. To provide skill-building, self-expression opportunities and leadership development through our free, quality, educational, out-of-school time programming for Fulton teens (to include our afterschool program during the academic year and VOX Media Cafe in the summer).
2. To offer activities focused on positive mental health and wellness, both for teens at VOX as well as community partners and other youth service providers.
3. To share the voices of Fulton teens through our print publications and digital publishing on VOXATL.org, and to increase our number of distribution sites in Fulton County. This will allow us to share resources with even more teens in the community.
4. To strengthen existing partnerships, and develop new partnerships, with schools and nonprofit organizations in the Fulton community so that we can serve teens who might not be able to attend programs at our downtown Atlanta program space due to geographic challenges. Teens will be able to participate in self-expression and skill-building workshops, community dialogues, our VOX Teen Survey, and our Atlanta Word Works poetry and spoken word program.

Another important source of data that informs our methods and goals is our annual VOX Teen Survey. We created the VOX Teen Survey in 2015 to fill an information gap in the youth development field. Through the survey, we hear from hundreds of metro Atlanta teens (both those who are connected to VOX and those who are not), and their insights and perspectives inform adults who work with and care about youth. The data also helps inform our next year of projects and coverage topics. We conducted our ninth annual survey from May-September 2023, and teens had the opportunity to

DocuSign Envelope ID: 3E525CF4-3706-4CA1-AAA3-580A3E9CB551

answer questions about:

-How they spend time outside of school & what influences how they spend their time
-Their favorite digital communications tools
-What topics they most want information about
-Where they feel valued
-What adults really need to know about teens and mental health

Below is a preview and sampling of what we are learning from our 2023 survey respondents. We have included the full report as an attachment in the "Other Attachments" section.

DocuSign Envelope ID: 3E525CF4-3706-4CA1-AAA3-580A3E9CB551

-Education (during the high school years): 40%

All of this data informs our program planning, along with the goals outlined in our strategic plan. We use both quantitative and qualitative methods to measure our outcomes and get feedback from VOX teens, as well as teens in the community. Our larger scale evaluations that are done on a less frequent basis (like the 2018 needs assessment or the annual VOX Teen Survey) supplement the data from these regular evaluation tools, which are described in detail later in this section.

Any metro Atlanta teen is invited to join VOX as a teen participant after completing our registration form. We also take VOX out into the community to reach teens who are not able to join VOX as a teen participant. Our methods to accomplish the above goals include providing teens with:
-Free, constructive, engaging, positive activities during out-of-school time
-Journalism and digital media skill-building and publishing opportunities
-Leadership, public speaking and facilitation training
-Paid opportunities to work as interns / peer editors, content creators and community facilitators
-Graduation support through college application and scholarship assistance, financial planning, interview skills, resume building and alternatives for post-secondary education
-Opportunities for academic enrichment and career exploration with adult role models
-Mental-health based activities, connections to community resources and social-emotional support
-Creative writing activities through Atlanta Word Works
-Community activities such as youth voice showcases, self-expression workshops, speak-out stations, open mics and poetry performances

And of course, all of these activities include opportunities for teens to create digital content and share their personal experiences, unique perspectives and important resources. Multimedia content is published on VOXATL.org, as well as on our social media channels (Apple Podcasts, Instagram, Soundcloud, Spotify and Youtube). 2024 will also feature some special print publications: an anthology of poetry from Atlanta Word Works and a new Free Your Feels journal / workbook with accompanying multimedia.

As we look ahead to the remainder of 2024, VOX is excited to build capacity and expand our organizational infrastructure through increased staffing, exploring strategic partnerships for community engagement and a satellite office space, and developing an e-learning platform. Although our downtown newsroom is centrally located and easily accessible by MARTA, it’s simply not possible for all teens that are interested in and could benefit from our programs to travel to us. To help close this gap, VOX envisions an e-learning platform of resources to help teens grow in their publishing and self-expression, and ultimately serve as a workforce development tool for young writers. We also plan to add teacher training resources for educators on supporting youth publishing and the aspiring youth journalist and authors in the classroom.

In addition to our direct service program activities, we are committed to influencing the education and youth development fields by supporting other organizations with technical assistance and facilitation. We believe that we can have an even greater impact by working with other youth service providers to infuse youth voice and leadership into what they are already doing. We also lead workshops at youth development conferences on everything from engaging meaningful and authentic youth leadership to effectively achieving 21st century outcomes to what teens have to say

DocuSign Envelope ID: 3E525CF4-3706-4CA1-AAA3-580A3E9CB551

about mental health. In addition, in fall 2019 the Community Foundation for Greater Atlanta commissioned VOX to share stories of high-quality youth development in our region. Over the next year, we spoke with providers and youth themselves to hear their real-life stories that illustrate quality. Through that process, we launched our “Guide on the Side” series to share their voices (please visit https://voxatl.org/about/guide-on-the-side/ to learn more). This provided us the opportunity to dive into real world applications of the data outlined in the Georgia Afterschool & Youth Development’s Quality Standards, the Wallace Foundation’s 10 Success Principles for youth arts programs, and the Center for Youth Program Quality’s seven key elements. While we have been using these data-driven elements as a framework for years, the knowledge we gained through this project has strengthened our ability to provide high-quality programming. Projects like this also provide important revenue for VOX to ensure that we are sustainable. We are excited to continue to grow in this area as we amplify our teen-driven culture and pedagogy.

Major Milestones & Schedule

Please see the uploaded document outlining our milestones and schedule regarding our program performance measures.

Data Collection Tools & Sources

We use a number of different data collection tools to report progress on performance measures:

1. Participant Feedback Surveys: We collect feedback from program participants (both internally at VOX and at community workshops / events) through surveys to gauge their overall satisfaction, experience, and the impact of the program on their personal and skill development. These surveys allow us to understand the effectiveness of the program from the perspective of the teens themselves.

2. Pre- and Post-Fellowship Assessments: We conduct assessments before and after the fellowship to evaluate the participants' knowledge and skills growth. By comparing the results, we can quantify the progress made during their engagement with the program.

3. Engagement Metrics for Content: We track engagement metrics for the content produced by the teens. This includes metrics such as views, shares, and interactions with their published works, providing insights into the reach and impact of their creative output.

4. Success of Fellowship Alumni: Tracking the educational and career achievements of fellowship alumni related to journalism and media production is crucial. This assessment allows us to understand the long-term impact of the program on participants' career trajectories.

5: VOX Teen Survey: In 2015, VOX created our own VOX Teen Survey to fill an information gap. The survey answers these important questions from teens’ perspectives: What do teens need? Where are teens spending time after school? How do teens want to communicate? Where do teens feel valued? What are teens saying about the topic of mental health? The information from this survey allows us to maximize how we are reaching and interacting with our audience and provides data on how VOX’s content impacts our audience’s behavior related to risky behaviors.

6: Formative Evaluation: VOX uses on-going formative evaluation through qualitative methods to check in with our teens at various points throughout the year. This may include sending out a survey to see what days of the week and times work best for programming, conducting a SWOT analysis for a new program offering, or brainstorming new

DocuSign Envelope ID: 3E525CF4-3706-4CA1-AAA3-580A3E9CB551

activities at a teen staff meeting. We regularly go back to our teens to ensure that our programming is meeting their needs. Whenever we notice challenges around program engagement, we do what VOX does best – engage teens as leaders to facilitate conversations around the direction of the program.

Agency Defined Performance Measure(s):

-Number/percentage of teen participants who report increased academic achievement and attitudes (measured by end of semester surveys taken in May and December)
-Number/percentage of teen participants who report that VOX has contributed to their knowledge about self-care and/or report feeling supported by the adult staff and their peers
-Percentage of teen participants who are provided access to nutritious food during non-school hours
-Number/percentage of school-year and VOX Media Café participants who report new skills learned

(6) The most we will pay under this Additional Coverage, for each described building insured under Section **I** – Property, is $10,000. If a damaged building(s) is covered under a blanket Limit of Insurance which applies to more than one building or item of property, then the most we will pay under this Additional Coverage, for each damaged building, is $10,000.

The amount payable under this Additional Coverage is additional insurance.

(7) With respect to this Additional Coverage:

(a) We will not pay for the Increased Cost of Construction:

(i) Until the property is actually repaired or replaced, at the same or another premises; and

(ii) Unless the repair or replacement is made as soon as reasonably possible after the loss or damage, not to exceed two years. We may extend this period in writing during the two years.

(b) If the building is repaired or replaced at the same premises, or if you elect to rebuild at another premises, the most we will pay for the Increased Cost of Construction is the increased cost of construction at the same premises.

(c) If the ordinance or law requires relocation to another premises, the most we will pay for the Increased Cost of Construction is the increased cost of construction at the new premises.

(8) This Additional Coverage is not subject to the terms of the Ordinance Or Law Exclusion, to the extent that such exclusion would conflict with the provisions of this Additional Coverage.

(9) The costs addressed in the Loss Payment Property Loss Condition in Section **I** – Property do not include the increased cost attributable to enforcement of or compliance with an ordinance or law. The amount payable under this Additional Coverage, as stated in Paragraph **(6)** of this Additional Coverage, is not subject to such limitation.

m. Business Income From Dependent Properties

(1) We will pay for the actual loss of Business Income you sustain due to physical loss or damage at the premises of a dependent property or secondary dependent property caused by or resulting from any Covered Cause of Loss.

However, this Additional Coverage does not apply when the only loss at the premises of a dependent property or secondary dependent property is loss or damage to "electronic data," including destruction or corruption of "electronic data." If the dependent property or secondary dependent property sustains loss or damage to "electronic data" and other property, coverage under this Additional Coverage will not continue once the other property is repaired, rebuilt or replaced.

The most we will pay under this Additional Coverage is $5,000 unless a higher Limit Of Insurance is indicated in the Declarations.

(2) We will reduce the amount of your Business Income loss, other than Extra Expense, to the extent you can resume "operations," in whole or in part, by using any other available:

(a) Source of materials; or

(b) Outlet for your products.

(3) If you do not resume "operations," or do not resume "operations" as quickly as possible, we will pay based on the length of time it would have taken to resume "operations" as quickly as possible.

(4) Dependent property means property owned by others whom you depend on to:

(a) Deliver materials or services to you, or to others for your account. But services does not mean water, supply services, wastewater removal services, communication supply services or power supply services;

(b) Accept your products or services;

(c) Manufacture your products for delivery to your customers under contract for sale; or

(d) Attract customers to your business.

The dependent property must be located in the coverage territory of this policy.

(5) Secondary dependent property means an entity which is not owned or operated by a dependent property and which;

(a) Delivers materials and services to a dependent property, which in turn are used by the dependent property in providing materials or services to you; or

(b) Accepts materials or services from a dependent property, which in turn accepts your materials or services.

A road, bridge, tunnel, waterway, airfield, pipeline or any other similar area or structure is not a secondary dependent property.

Any property which delivers any of the following services is not a secondary dependent property with respect to such services:

(i) Water supply services;

(ii) Wastewater removal services;

(iii) Communication supply services; or

(iv) Power supply services.

The secondary dependent property must be located in the coverage territory of this policy.

(6) The coverage period for Business Income under this Additional Coverage:

(a) Begins 72 hours after the time of direct physical loss or damage caused by or resulting from any Covered Cause of Loss at the premises of the dependent property or secondary dependent property; and

(b) Ends on the date when the property at the premises of the dependent property or secondary dependent property should be repaired, rebuilt or replaced with reasonable speed and similar quality.

(7) The Business Income coverage period, as stated in Paragraph **(6),** does not include any increased period required due to the enforcement of any ordinance or law that:

(a) Regulates the construction, use or repair, or requires the tearing down of any property; or

(b) Requires any insured or others to test for, monitor, clean up, remove, contain, treat, detoxify or neutralize, or in any way respond to, or assess the effects of "pollutants."

The expiration date of this policy will not reduce the Business Income coverage period.

(8) The definition of Business Income contained in the Business Income Additional Coverage also applies to this Business Income From Dependent Properties Additional Coverage.

ADDITIONAL INSURED – DESIGNATED PERSON OR ORGANIZATION

This endorsement modifies insurance provided under the following:

COMMERCIAL GENERAL LIABILITY COVERAGE PART

SCHEDULE

Name Of Additional Insured Person(s) Or Organization(s):
Any person or organization that you are required to add as an additional insured on this policy, under a written contract or agreement currently in effect, or becoming effective during the term of this policy. The additional insured status will not be afforded with respect to liability arising out of or related to your activities as a real estate manager for that person or organization.
Information required to complete this Schedule, if not shown above, will be shown in the Declarations.

A. **Section II – Who Is An Insured** is amended to include as an additional insured the person(s) or organization(s) shown in the Schedule, but only with respect to liability for "bodily injury", "property damage" or "personal and advertising injury" caused, in whole or in part, by your acts or omissions or the acts or omissions of those acting on your behalf:

1. In the performance of your ongoing operations; or

2. In connection with your premises owned by or rented to you.

However:

1. The insurance afforded to such additional insured only applies to the extent permitted by law; and

2. If coverage provided to the additional insured is required by a contract or agreement, the insurance afforded to such additional insured will not be broader than that which you are required by the contract or agreement to provide for such additional insured.

B. With respect to the insurance afforded to these additional insureds, the following is added to **Section III – Limits Of Insurance:**

If coverage provided to the additional insured is required by a contract or agreement, the most we will pay on behalf of the additional insured is the amount of insurance:

1. Required by the contract or agreement; or

2. Available under the applicable Limits of Insurance shown in the Declarations; whichever is less.

This endorsement shall not increase the applicable Limits of Insurance shown in the Declarations.

4. Other Insurance

If other valid and collectible insurance is available to the insured for a loss we cover under Coverages **A** or **B** of this Coverage Part, our obligations are limited as follows:

a. Primary Insurance

This insurance is primary except when Paragraph **b.** below applies. If this insurance is primary, our obligations are not affected unless any of the other insurance is also primary. Then, we will share with all that other insurance by the method described in Paragraph **c.** below.

b. Excess Insurance

(1) This insurance is excess over:

(a) Any of the other insurance, whether primary, excess, contingent or on any other basis:

(i) That is Fire, Extended Coverage, Builder's Risk, Installation Risk or similar coverage for "your work";

(ii) That is Fire insurance for premises rented to you or temporarily occupied by you with permission of the owner;

(iii) That is insurance purchased by you to cover your liability as a tenant for "property damage" to premises rented to you or temporarily occupied by you with permission of the owner; or

(iv) If the loss arises out of the maintenance or use of aircraft, "autos" or watercraft to the extent not subject to Exclusion **g.** of Section **I** – Coverage **A** – Bodily Injury And Property Damage Liability.

(b) Any other primary insurance available to you covering liability for damages arising out of the premises or operations, or the products and completed operations, for which you have been added as an additional insured.

(2) When this insurance is excess, we will have no duty under Coverages **A** or **B** to defend the insured against any "suit" if any other insurer has a duty to defend the insured against that "suit". If no other insurer defends, we will undertake to do so, but we will be entitled to the insured's rights against all those other insurers.

(3) When this insurance is excess over other insurance, we will pay only our share of the amount of the loss, if any, that exceeds the sum of:

(a) The total amount that all such other insurance would pay for the loss in the absence of this insurance; and

(b) The total of all deductible and self-insured amounts under all that other insurance.

(4) We will share the remaining loss, if any, with any other insurance that is not described in this Excess Insurance provision and was not bought specifically to apply in excess of the Limits of Insurance shown in the Declarations of this Coverage Part.

c. Method Of Sharing

If all of the other insurance permits contribution by equal shares, we will follow this method also. Under this approach each insurer contributes equal amounts until it has paid its applicable limit of insurance or none of the loss remains, whichever comes first.

If any of the other insurance does not permit contribution by equal shares, we will contribute by limits. Under this method, each insurer's share is based on the ratio of its applicable limit of insurance to the total applicable limits of insurance of all insurers.

5. Premium Audit

a. We will compute all premiums for this Coverage Part in accordance with our rules and rates.

b. Premium shown in this Coverage Part as advance premium is a deposit premium only. At the close of each audit period we will compute the earned premium for that period and send notice to the first Named Insured. The due date for audit and retrospective premiums is the date shown as the due date on the bill. If the sum of the advance and audit premiums paid for the policy period is greater than the earned premium, we will return the excess to the first Named Insured.

c. The first Named Insured must keep records of the information we need for premium computation, and send us copies at such times as we may request.

6. Representations

By accepting this policy, you agree:

a. The statements in the Declarations are accurate and complete;

Youth Empowerment Success Services, will provide the following activities and services in Fulton County with CCSP funding:

YESS seeks to provide transitional housing options for ten (10) homeless Fulton County young adults. The service population is youth ages 18-24, male and female (including parenting youth). YESS services and activities offers:

- Transitional Housing - Up to six months of transitional housing to help youth gain immediate housing and provide intensive support to get them rapidly rehoused.
- Rapid Rehousing - We will provide short-term rental assistance and services to help them prepare for rapid rehousing. The goals are to help young adults obtain housing quickly, increase self-sufficiency, and stay housed. We will offer rapid rehousing without preconditions (such as employment, income, absence of a criminal record, or sobriety) and the resources and services provided will be tailored to the needs of each youth who enters the program. Youth will be provided with the three core rapid Rehousing services:
- Housing Identification - The goal of housing identification is to find affordable housing for young people quickly.
- Rent and Move-In Assistance is to help with the costs associated with getting into housing. The amount and duration of this assistance vary, but at a minimum, it should be enough to help young people secure a place to live. This assistance will not be a standard “package” but flexible in order to meet the unique needs of the individuals or families. This is particularly important when financial circumstances or housing costs change.
- Case Management to help stabilize young people once housed by connecting them to services and support if needed. Case management support will focus on helping young people navigate barriers that may stand in the way of securing and maintaining housing, and it will also strive to build a support system by connecting them with people and programs in the community.
- Household Furnishing - We will provide housing start-up items, and through our partnership with the Furniture Bank we will provide support with basic household furnishings
- Life Skills - Using the Casey Life Skills Homeless Youth Assessment, we will help youth develop the life skills they need to maintain housing and economic stability. We will provide group and individual life skills sessions.
- Employment Support - Employment support will include career planning, job skills, and job preparation skills (resume preparation, interview skills, job applications, and interview follow-up). We plan to use the Ringer Center of Excellence’s Youth on the M.O.V.E. Job Readiness curriculum and partner with the local workforce offices to connect youth with employment opportunities.
- Transportation - Transportation assistance will help youth get to important appointments for work, school, and health and wellness appointments. Additional life skills support will be provided to youth to teach them how to manage their daily time and transportation costs. This will benefit the youth served by

DocuSign Envelope ID: 0B441771-F333-4922-9148-D842B38BA82C

ensuring they have reliable transportation to critical appointments, time management, and budgeting skills to coordinate their own schedules.

Services and activities will be accomplished with the following program flow. Youth who are referred through Coordinated Entry (HMIS), homeless services agencies, or self-referral will go through the following process:

- Initial Interview Assessment and Individualized Service Plan: Includes an in-depth interview and the administration of the Casey Life Skills Homeless Youth Assessment by a YESS Life Coach/Case Manager. This Casey Homeless youth assessment evidence-informed tool that addresses issues of care for youth living on the streets. It taps domains crucial to ensuring they understand the resources available to them, ways to be safe, how to avoid victimization, and how to secure safe and sustainable housing. It covers knowledge and behavior in the skill areas of daily life, family and friends, health, housing, jobs, legal, safety and survival, and school. Heightened self-awareness for homeless young people may result in successfully and permanently leaving homelessness and achieving greater long-term success. From the interview and assessment, an individualized service plan is developed that focuses on the client's needs and addresses the barriers that led them to homelessness.

- Housing: Based on the initial interview and assessment youth will be placed in one of the transitional housing slots for up to 6 months and provided support to move them towards rapid rehousing supportive services for up to 6 months

- Case Management and Life Skills Services: This process engages young adults in an ongoing information-gathering and decision-making process to help identify their goals, strengths, and challenges. Rebound Support Services program focuses on homeless youth on basic life skills; our Life Coaches are also aware that many of the young adults coming to the program have never lived on their own and will also need support, skills, and training on money management, preparing meals, and understanding tenant rights and responsibilities. The Life Coaches will also help the young adults review and understand links to benefits and employment services; eventually, the young adults will have to assume responsibility for rent. When young adults enter our Rebound Support Services program, they will still be in “survival mode” and have histories of trauma. Our Rebound Support Services program will provide strategies to vulnerable young adults with programmatic opportunities to develop knowledge, skills, and supportive family and community relationships necessary for success as adults

- Information and Referral: This will provide young adults with assistance in identifying and assessing community-based resources to meet basic needs and connect them to necessary resources.

- Advocacy: Advocating for rights, decisions, and strengths and promoting client access to resources, supports, and services. This includes modeling behavior that helps the young adults learn to advocate for themselves and negotiate with service systems to obtain needed support and help.

RSS will address the following Fulton County Health and Humann Services Strategic Priority and Strategic Objective #4 to support the vulnerable residents in our social services. RSS will address two of the three applicable funding priorities:

DocuSign Envelope ID: 0B441771-F333-4922-9148-D842B38BA82C

- Transitional housing options for homeless youth, persons with substance use disorders, and households fleeing domestic violence.
- Rapid rehousing for non-chronic households (families and singles).

YESS has several collaborative partnerships that assist the organization with addressing the needs of youth homelessness. Our collaborative partnerships include:

- Project Community Connections Inc. (PCCI) - Provides our agency with satellite office space and access to their housing locator and employment resource services.
- The Park at Galaway Apartments and The Ashford at Stone Ridge Apartments partnerships provide YESS with transitional housing apartments to immediately house homeless youth.
- Georgia Department of Labor - Is conveniently located across the street from our Phoenix Blvd. offices and our Case Managers make job connections with their office. We refer youth to their job and hiring fairs on a regular basis.
- Georgia Vocational Rehabilitation Services - Is also conveniently located across the street from our Phoenix Blvd. office. We have connected our clients to their services on a regular basis.

The YESS Rebound Support Services (RSS) program will use the Casey Life Skills Homeless Assessment and Pre- and Post-program Assessment. This evidence-informed 48-item assessment addresses care issues for youth living on the streets. The Assessment taps domains crucial to ensuring they understand the resources available, ways to be safe, how to avoid victimization, and how to secure safe and sustainable housing. It covers knowledge and behavior in the skill areas of daily life, family and friends, health, housing, jobs, legal, safety, survival, and school. Heightened self-awareness for homeless young people may result in successfully and permanently leaving homelessness and achieving greater long-term success.

The pre-assessment results will be used in the initial intake interview to develop a baseline and initial individualized skills and service plan that will be established to identify skills and goals in the following key areas:

- Daily Life assesses hygiene and nutrition skills while identifying available community resources
- Family and Friends cover skills necessary to maintain healthy relationships with friends and family members, including communication and developing a personal support system.
- Health focuses on skills necessary to maintain good physical and emotional health, how to access medical services, the risks and treatment for alcohol and drug use, pregnancy and STD prevention and treatment, personal strengths and weaknesses, and goal setting
- Housing covers skills necessary for locating, obtaining, and maintaining housing.
- Employment covers skills needed to create a career plan, search for part-and full-time employment, employment maintenance and job transitions.
- Legal focuses on skills needed to obtain legal documents, access legal resources, and understand the consequences of unlawful behavior.
- Safety and Survival address skills necessary to stay safe while homeless.
- School covers skills important to academic success and the relationship between education and employment.

RSS is a 12-month program to provide solutions to youth homelessness. RSS programs are designed to help youth achieve permanent housing within 12 months using the following schedule.

By the 12th month, youth will be able to pay 100% of their living expenses.

Case management will remain in place for 12 months of program participation.
- Group Life Skills: Youth will also participate in a 3-month life skills group that will be offered each month and will rotate each quarter. The group life skills curriculum will be delivered once a month and will cover the following three key life areas, these areas are Employment, Housing, and Support Systems by the end of each session, youth will be able to do the following as demonstrated by taking the post-Casey Life Skills Homeless Assessment in the specific domain, and the goal is to see a change in knowledge and behavior in their responses from “No”, “Mostly No” and “Somewhat” to “Yes” and “Mostly Yes”.

Casey Life Skills Homeless Assessment will be used to baseline youth track progress towards the performance measures and help develop case plans and life skills goals. Using the strengths-based life skills curriculum, we will provide a post-assessment for each life skill domain (i.e., Housing, Employment, Support system) that will measure short and intermediate-term outcomes and will correspond with changes in the participant's skills, attitudes, confidence, and behaviors with regards to career/employment skills, securing housing, and developing a support system.

Our agency is an appointment-only clinic to ensure we are able to see each patient that enters the door. Patients learn about our services through our website, active listing on the Georgia Charitable Care Network website and the National Association of Free & Charitable Clinics website, and through local partners. New patient appointments are generally scheduled about one to two months out. We have many patients who no longer rely on the Emergency Department for medication and primary care needs, as they can now effectively manage their health by consistently following up and visiting our clinic for acute and chronic illnesses. Our staff includes three mid-level providers (one is the executive director), two medical assistants, a phlebotomist/lab technician, a receptionist, a director of development, a patient care coordinator, and a contracted bookkeeper. Our Volunteer Medical Director is an Emergency Department Physician at Emory Healthcare, who serves as the overseeing physician for our mid-level providers. Our agency will target Health & Human Services Key Performance Indicator #1: Prevent illness by engaging in healthier behavior. Our clinic provides free STI testing and treatment or HIV referrals if needed (generally 20% of total patients receive STI testing and treatment). We provide prostate and cervical cancer screenings on-site for eligible patients and provide referrals for mammograms and colon cancer screenings through established partnerships for eligible patients. In addition, we will target Health & Human Services Key Performance Indicator #2: Prevent health disparities by educating residents and connecting them to available resources. 100% of Fulton County patients served at our clinic are uninsured, on average 40% of patients will receive a flu vaccine while in our care, 90% of our patients have comorbidity and are managing two or more diseases in our care, and 50% of patients are receiving behavioral health services on-site or through a referral.

Our agency also supports the following selected CSP funding priorities as explained above: Health and Wellness - Prevent illness and health disparities by educating and connecting individuals to available resources and Programs addressing mental health, depression, stress, trauma and anxiety among individuals. 100% of patients will be connected to available resources to help mitigate illness and health disparities, 100% of patients will report or demonstrate improved health-related outcomes or other “quality of life” measures, and 25% of patients will receive referrals to behavioral health and other supportive services.

The following activities will help our agency ensure all Health & Human Services Key Performance Indicators and CSP funding priorities are achieved. (1) Retain and support current medical providers (paid and volunteer). (2) Conduct outreach to other community/healthcare agencies serving similar populations to attract new patients and develop new partnerships. (3) Maintain evidence-based practice by adhering to up-to-date, peer-reviewed algorithms for acute and chronic disease management. (4) Offer health education classes to patients with chronic diseases. (5) Continue to utilize three methods of communication (patient portal, phone call, text message, etc.) and three points of contact to promote retention in care. (6) Maintain and expand systems to enter patients into specific treatment cohorts and track and report their outcomes accordingly.

Our agency has a number of established community partners that help expand our ability to serve patients and decrease barriers to care.

Americares/Direct Relief/MAP International - donates a portion of needed medications and other medical supplies
MedShare - provides donated PPE and other needed equipment for clinical staff and volunteers

The following program measures/ Key Performance Indicators (“KPI’s”) will be utilized to track and report program outcomes for the Fulton County residents supported with CSP funding, during the funding period 01/01/2024 through 12/31/2024:

Under the program category, Health and Wellness, our agency will use the following county defined performance measures: (1) Number of individuals (projected 300 Fulton County residents over 12 month period) connected to available resources to help mitigate illness and health disparities. (2) Number of individuals (projected 75 Fulton County residents over 12 month period) receiving referrals to behavioral health and other supportive services. As it relates to the tracking and implementation of organization-wide goals identified in this application, the clinical team regularly monitors progress and accomplishments each month. In addition, our patient care coordinator has each patient complete a feedback survey during patient check-out. This data helps us measure patients' satisfaction rates of their care, decrease utilization of Emergency Department while in our care and other self-reported health-related outcomes.

Subject: RE: COI Waiver - Urban Health and Wellness dba The Urban Clinic of Atlanta- APPROVED

Good morning Doris,

The Urban Clinic of Atlanta's request for waiver for the **Umbrella and Professional E/O** is **approved** based on the evidence of Medical Malpractice Insurance from the GVHCP which gives Sovereign Immunity protection.

Additionally the request for waiver of the **automobile liability** is **approved** based on the agency stating that vehicles are not operated during business hours for the purposes of program service delivery.

The content of the waiver request has been included below for quick reference for the Fulton County Attorney's Office. The agency should include this email with the Certificate of Insurance as one document.

Subject: COI Waiver - Urban Health and Wellness dba The Urban Clinic of Atlanta

Hello Ms. Edwards,

We are thrilled to receive this award from the Fulton County CSP, thank you!

Last year, we submitted a waiver (which Risk Management approved) to upload with our COI. In lieu of umbrella and professional e & o policies, our organization has Medical Malpractice Insurance from the Georgia Volunteer Health Care Program (GVHCP) of the Department of Public Health (DPH), which provides Sovereign Immunity protection to licensed health care professionals who treat uninsured individuals at or below 200 percent of the federal poverty level. And just to confirm our non-profit clinic does not have auto insurance, because we do not operate vehicles during operating clinic hours.

I've attached an updated waiver for your review, along with the documentation of our immunity protection. Please let us know if you have any additional questions. Thank you!

Sincerely,
Rachel

GEORGIA VOLUNTEER HEALTH CARE PROGRAM
VOLUNTEER HEALTH CARE PROVIDER AGREEMENT

What You Deserve
Georgia Volunteer Health Care Program

The Georgia Department of Public Health ("DPH") and **Urban Health and Wellness, Inc.** ("Volunteer")
(Name of individual, private practice, and/or clinic partner)

hereby agree as follows:

I. RELATIONSHIP OF PARTIES

This Agreement is intended to allow volunteer health care providers to assist DPH in providing health care and administrative services ("Services") to underserved individuals. Volunteer understands the execution of this Agreement serves as permission to provide Services which Volunteer desires to perform for charitable and humanitarian reasons.

Volunteer shall offer Services as an agent of DPH and shall be considered a state officer or employee for the purposes of the Georgia Tort Claims Act, O.C.G.A. § 50-21-20, *et seq.*, provided that Volunteer acts within the Scope of Service and Responsibilities set forth in this Agreement. For all other purposes, DPH shall not be considered an employer of Volunteer. Georgia laws, rules, and regulations directly or indirectly relating to state employment, worker's compensation, unemployment, collective bargaining, hours of work, rates of compensation, leave time, or employee benefits shall not apply to Volunteer. Volunteer shall be solely responsible for any loss or liability resulting from Volunteer's acts outside the scope of this Agreement. Volunteer does hereby release and forever discharge and hold harmless the State of Georgia and DPH from any liability or claim that Volunteer may have with respect to bodily injury, personal injury, illness, death, or property damage that may result from Volunteer's participation in this Agreement.

Volunteer acknowledges that in entering into this Agreement, DPH has relied upon the information provided in Volunteer's Georgia Volunteer Health Care Program Volunteer Health Care Provider Application ("Application"). Volunteer warrants that all information contained in Volunteer's Application is truthful and accurate.

II. VOLUNTEER SCOPE OF SERVICE AND RESPONSIBILITIES

A. Have and maintain in good standing applicable Georgia professional license during the performance of Services under this Agreement.

B. Provide Services to those individuals whom DPH has deemed eligible to receive said Services ("Patients"). Patient eligibility must be determined by an Eligibility Specialist approved and trained by the DPH Regional Volunteer Coordinator, as provided in Section III(A) of this Agreement. Services must be provided in facilities approved by DPH.

1. Volunteer shall provide Services and accept all Patients on a walk-in and referral basis, except that Volunteer shall not be required to accept more than _____ Patients per month.

C. Render only Services as authorized by law and in accordance with Volunteer's professional license. Experimental or clinically unproven procedures shall not be performed.

D. Refrain from providing Services for a non-emergency Patient if Patient's health care need is not within the area of expertise of Volunteer and cannot be reasonably met by Volunteer.

E. Report all Adverse Incidents that occur while providing Services under this Agreement to the DPH contact listed in Section VI within twenty-four hours of such occurrence.

1. "Adverse Incident" means an incident, whether intentional or unintentional that caused or could have caused injury to or death of a patient including, but not limited to, those incidents that are required by state or federal law to be reported to any governmental agency or body, and occurrences that are reported to or reviewed by any health care facility peer review, risk management, quality assurance, credentials, or other similar committee.

2. The Adverse Incidents set forth above are not intended to be an exhaustive list. DPH shall report Adverse Incidents to the appropriate department, agency, or board for further action. DPH may conduct its own investigation and immediately terminate this Agreement if DPH deems such action to be appropriate, in its sole discretion.

3. DPH and Volunteer acknowledge that the reporting of an Adverse Incident is not intended as, and shall not be interpreted as, an admission of fault or responsibility on the part of Volunteer.

F. Ensure that transfer of any Patient to another health care provider does not violate anti-dumping provisions of the Emergency Medical Treatment and Active Labor Act, 42 U.S.C. § 1395dd.

G. Notify DPH contact listed in Section VI of:

1. Any change in Volunteer's address, telephone number, facsimile number, or e-mail;

J. Immediately, and in no case more than twenty-four hours after receipt, provide written notice to the DPH contact listed in Section IV of any actual or threatened legal action against Volunteer for work related to this Agreement, whether the action is formal, informal, administrative, mediation, arbitration, civil or criminal litigation.

B. Within the applicable notice period, DPH will notify the U.S. Department of Health and Human Services and any other state or federal agency, as required, of any Adverse Incidents that arise from the performance of Services by Volunteer.

Approach and Design:

Truancy Intervention Project Georgia, Inc., Ensuring Students Reach their Educational Potential through Absence Prevention and Truancy Intervention will provide services to **150** clients that reside in Fulton County, with CCSP funding.

Truancy Intervention Project Georgia, Inc., will provide the following activities and services in Fulton County with CCSP funding:

The consequences of chronic absenteeism and truancy extend far beyond high school, with studies indicating that only a small percentage of chronically absent students in kindergarten and first grade achieve appropriate reading levels by third grade. Moreover, truancy is a significant contributor to involvement in the criminal justice system, with a large proportion of crimes committed by high school dropouts. By promoting regular school attendance, TIP not only enhances literacy levels but also mitigates involvement in the justice system, thereby facilitating the long-term well-being and independence of children.

TIP's initiatives align with Fulton County's Health and Human Services Strategic Objectives, particularly in increasing school attendance rates and fostering educational attainment. By utilizing key performance indicators such as the percentage of high school students meeting literacy requirements, the percentage of on-time high school graduates, and reading proficiency among third to eighth graders, TIP contributes to the overall educational success of Fulton County students.

In pursuing funding priorities outlined by the Community Services Program (CSP), TIP strategically aligns its activities with the Children & Youth Services Service Category.

DocuSign Envelope ID: 66295B18-5403-4054-9858-096C7EF76EF0

Specifically, TIP focuses on ensuring safety and justice by providing alternatives to activities that contribute to unhealthy behaviors in children and youth, targeting milestones outlined by the My Brother's Keeper Alliance, and offering afterschool/out-of-school programs to enhance academic and social/behavioral outcomes among school-aged youth.

To address truancy and chronic absenteeism, TIP implements four core programs: Early Intervention Program (EIP), Juvenile Court Program (JCP), Volunteer and Training Program (VTP), and Behavioral Health Services Program (BHS). Through these programs, TIP engages trained volunteers, including attorneys, to provide personalized support and advocacy to at-risk students and their families. The EIP focuses on early intervention at the elementary school level, offering mediation and case management to resolve attendance issues before they escalate. In parallel, the JCP addresses truancy through a comprehensive court intervention model, supplemented by behavioral health services to address underlying issues contributing to absenteeism.

Moreover, TIP's Volunteer and Training Program ensures that volunteers are equipped with the necessary skills and resources to support students effectively, with ongoing training seminars and mentorship opportunities. By leveraging community collaborations with entities such as the Fulton County Juvenile Court, Atlanta Public Schools, Fulton County Schools, and the Atlanta Bar Association, TIP maximizes its impact and extends its reach to vulnerable populations. Within the BHS Program, TIP provides social-emotional learning resources, incentive programs, and client outreach initiatives to support students' mental health and well-being. Social-emotional learning kits distributed to partner elementary schools facilitate emotional regulation among students, while incentive programs and outreach efforts reinforce positive behaviors and engagement with educational opportunities. In order to meet the needs of clients and their families, TIP’s BHS program relies upon strong partnerships with community organizations, including Helping Mamas, the Society of St. Vincent de Paul, the Grocery Spot, and the Furniture Bank of Metro Atlanta, among others. A graphic listing all of TIP’s community partners is attached to this response.

TIP's holistic approach to addressing truancy and chronic absenteeism underscores the organization's commitment to fostering a supportive and nurturing environment for Fulton County students and families. By leveraging community collaborations, evidence-based interventions, and targeted programming, TIP empowers students to overcome barriers to educational success and realize their full potential.

DocuSign Envelope ID: 66295B18-5403-4054-9858-096C7EF76EF0

To continue and expand its impactful work, TIP is seeking funding support totaling $100,000, representing less than 25% of its overall program budget of $444,890. With this funding, TIP aims to enhance its outreach efforts, expand programmatic initiatives, and further strengthen its collaborations with community partners, ultimately advancing its mission of promoting school attendance and academic achievement among Fulton County youth.

Designation of CSP Funds:

Based on the awarded amount of **$50,000.00,** the CCSP funds are designated according to the following cost categories: Administrative, Operational, and Direct Services.

Administrative Expenses- CCSP Funds that are spent on executive / management staff and administrative support staff salaries, salary fringe, and benefits; etc.).

Operational Expenditures- CCSP funds used to conduct agency/ organizational functions that are secondary to program service delivery such as office/ warehouse lease or mortgage expenses, office supplies (pens, toner, paper, etc.), utility expenses, transportation expenses (staff travel expenses), marketing/catalogs, etc.

Direct Service Expenditures- CCSP funds utilized to provide services directly to agency/program participants such as payments made on behalf of participants for rent, utilities, food, shelter, transportation (rentals, gas, and parking, bus drivers, public transportation costs, etc.) , scholarships and day care vouchers, salaries and fringe benefits for direct service personnel (Case Managers, Educators, Subcontractors, etc.), program supplies (educational/instructional materials, paper, pencils, markers, etc.) directly consumed by participants. Program materials that may be pertinent to the scope of services of a funded program and that aid in contractor meeting contracted program outcomes are included in this definition (i.e. children's story books, educational games, puzzles, and flash cards).

The maximum amount of CCSP funds allowed for administrative purposes (executive staff salaries and benefits only) is 5% of funds awarded. Throughout the contract period, program expenditures will be monitored (via performance reports) to ensure that funding is utilized as contracted.

The following program measures/ Key Performance Indicators ("KPI's") will be utilized to track and report program outcomes for the Fulton County residents supported with CSP funding, during the funding period 01/01/2024 through 12/31/2024:

As a program focused primarily on intervention, TIP's main performance measure and our primary Key Performance Indicator is our success in preventing further involvement with the Juvenile Court system or diverting children from it entirely. By examining the Juvenile Court records of referred children, TIP has determined that, once involved with TIP's program, 86.5% of students experience an interruption in their Juvenile Court trajectory. Specifically, 96% of children referred to the Early Intervention Program avoid a referral to Juvenile Court altogether, and 76% of Juvenile Court Program students do not re-offend for any offense - including another truancy charge. Achieving this success rate requires the dedicated efforts of TIP staff, volunteers, and partner school systems. Accordingly, TIP tracks data related to all of these components to inform its performance measures.

Each school year, TIP serves roughly 320 children residing in Fulton County and attending either Atlanta Public Schools or Fulton County Public Schools. Pandemic-related school closures led to a decrease in referrals as school social workers struggled to reach families amidst changing addresses, disconnected phone numbers, and the inability to conduct home visits. With the return of in-person school, however, TIP's referrals are once again on pace to meet or exceed pre-pandemic levels. During virtual schooling, many families fell out of the habits and routines necessary for regular school attendance, and those patterns are persisting even into the 2023-24 school year. The need for reinforcement of positive attendance behaviors and TIP's intervention services is therefore greater than ever in 2024.

TIP has trained over 1,300 volunteers in our 30 years, approximately 150 of whom are actively representing TIP clients at any given time. In a typical case, a volunteer works with the student and their family for six to eight months, depending on the needs of the child and depth of advocacy required. While most cases are opened and resolved within a single school year, TIP has been developing programs to track and assist families over the summer so that the progress made in one school year carries over to the next. Volunteers work in partnership with TIP staff to identify the underlying causes of the child's truancy, connect the family with appropriate community resources, and provide support and encouragement to the child and family.

DocuSign Envelope ID: 66295B18-5403-4054-9858-096C7EF76EF0

Additionally, recognizing that children (and their families) need positive reinforcement of their efforts in order to progress further, TIP hosts two annual outreach programs for clients and their families. Volunteers often attend these events to build relationships with their clients and family members and provide additional support to the entire family. Given the chronic scarcity in which most TIP clients and their families live, an important facet of our volunteers' involvement is connecting the family with the broader community, including social and community resources that can assist the family. TIP volunteers also serve as mentors and advocates for their clients, increasing the child's self-esteem and encouraging them to stay in school and get involved in productive, non-criminal activities.

TIP's goal for the 2024 CSP grant, based on historical data, is to serve at least 300 students in the 2023-24 school year, and at least 150 students by the end of December in the 2023-24 school year. These students will be served through involvement in TIP's Early Intervention Program, the Juvenile Court Program, and/or the Behavioral Health Services Program, including life skills groups. TIP tracks referrals, program enrollment, and related case information using robust case management software. This software allows TIP to report on the number of unduplicated children served, even if a child is active in more than one TIP program. In terms of volunteers, TIP's goal is to host two training sessions and train an additional thirty volunteers in 2024. For our client outreach events, TIP's goal is for 50% of the students and families served to attend those events, which will be approximately 150 students and families.

Consistent with TIP's primary KPI, TIP will track and report on the County defined performance measure of number of youth involved with or at-risk of involvement with the juvenile justice system who demonstrate decreased or no delinquent behaviors. TIP will track and report on this performance measure by reviewing data and records from the Fulton County Juvenile Court. TIP staff compare this data to the students in both the Early Intervention and Juvenile Court Programs from the previous year and identify children who have not entered or returned to the Juvenile Court for any reason. Students who have not entered the Juvenile Court or returned to it are recorded as having had a successful TIP intervention. We measure this rate against the previous year to ensure there has been adequate time to capture potential student problems and provide a more accurate picture of the program's impact.

TIP will also report on the County defined performance measure of number of boys and young men of color benefiting from My Brothers' Keeper programs and services that address persistent opportunity gaps. As discussed earlier in this application, students cannot learn to read or graduate from high school if they do not attend school on-time, every day. By helping boys and young men of color, who comprise approximately 50% of TIP's caseload, attend school regularly, TIP

DocuSign Envelope ID: 66295B18-5403-4054-9858-096C7EF76EF0

provides services that address the MBK milestones of Reading on Grade Level by Third Grade and Graduating from High School Ready for College and Career. TIP will report on this performance measure by tracking the number of boys and young men of color served by our program in 2024. TIP tracks demographic information of all clients served in our case management system. TIP's goal is to serve at least 150 boys and young men of color in 2024.

Additionally, TIP will report on the County defined performance measure of number of school-aged youth benefiting from Afterschool/Out of School Programs to help bring up academic and social/behavioral levels. TIP's enrichment programs, including the Holiday Gift Drive, Winners for Life, provision of social-emotional learning kits, and truancy prevention life skills groups provide the support needed to help children reengage with school and improve their social-emotional coping skills. School reengagement and improved coping skills are necessary prerequisites for improving academic and social/behavioral levels among school-aged children. TIP will report on this performance measure by tracking the number of school-aged children served through our enrichment programs. This information is tracked in our case management software. TIP's goal is to serve 250 school-aged children in these enrichment programs in 2024.

TIP will also track three Agency defined performance measures designed to gauge volunteer contributions and client participation in agency activities outside of the one-to-one volunteer relationship. Specifically, TIP will report on: 1) the number of hours donated by TIP volunteers to TIP clients, 2) the number of training seminars held during the reporting period, and 3) the number of clients and family members attending TIP's two annual outreach programs.

Additionally, our goal in 2024 is to demonstrate improved attendance for at least 70% of the students we serve. We will accomplish this by providing trained volunteers and staff support to referred children as well as the outreach programs and volunteer management outlined above. TIP will track and report on this goal by obtaining attendance data for children involved in TIP programs in the 2023-24 and 2024-25 school years from our school partners.

The major milestones to measure our success are: serving 150 students by the end of May 2024 and an additional 150 students by the end of December 2024 (during the 2024-25 school year). Additional milestones include the annual Winners for Life event, at which we hope to have 75 students and family members in attendance, our back-to-school backpack event, through which we hope to serve 100 students, and our Holiday Gift Drive, which usually reaches at least 350 individuals. Our overall success rate for students served in the 2022-23 school year, as well as EIP and JCP success rates, will be calculated by August 2024. Success rates for the 2023-24 school

DocuSign Envelope ID: 66295B18-5403-4054-9858-096C7EF76EF0

year will be available in the summer of 2025. Attendance rates for students served by TIP in the 2023-24 school year will be available in the summer of 2024.

Agency Defined Performance Measure(s):

TIP will track three Agency defined performance measures designed to gauge volunteer contributions and client participation in agency activities outside of the one-to-one volunteer relationship. Specifically, TIP will report on: 1) the number of hours donated by TIP volunteers to TIP clients, 2) the number of training seminars held during the reporting period, and 3) the number of clients and family members attending TIP's two annual outreach programs.

Approach and Design:

Self-Discovery: Pain, Positioning & Purpose, Inc., SDp3: Building Community Resilience Through Whole Health and Wellness will provide services to **170** clients that reside in Fulton County, with CCSP funding.

Self-Discovery: Pain, Positioning & Purpose, Inc., will provide the following activities and services in Fulton County with CCSP funding:

SDp3 is committed to prioritizing programs aimed at suicide prevention, aligning with the strategic priorities of Health & Human Services in Fulton County. Our diverse range of programs are carefully designed to address the needs identified in Fulton County, specifically catering to vulnerable populations such as low-income, minority, Veterans, LGBTQIA+, and youth. Our approach goes beyond awareness to provide practical tools for recovery, including evidence-based practices. These methods include:

- Mental first aid trainings (Our most recent one was February 13, 2024.)
- Mental Wellness Workshops
- Community Resilience Model (CRM) training: “The Community Resiliency Model (CRM)® trains community members to not only help themselves but to help others within their wider social network. The primary focus of this skills-based, stabilization program is to re-set the natural balance of the nervous system.
- CRM’s goal is to help to create “trauma-informed” and “resiliency-focused” communities that share a common understanding of the impact of trauma and chronic stress on the nervous system and how resiliency can be restored or increased using this skills-based approach.
- Whole Action Management (WHAM): “The primary goal of this training and participant guide is to teach skills to better self-manage chronic physical health conditions, and mental illnesses and addictions — known as “behavioral health” — to achieve whole health. In the context of this training, whole health is defined as having a healthy mind and body.”

DocuSign Envelope ID: 95594F2E-7E99-4337-8599-BD46C9C58A58

- Wellness Recovery Action Plan (WRAP): "…In this model, two specially trained and certified peer Facilitators meet with a group of voluntary participants for about 2 hours once a week for 8 to 12 weeks." …" In 2010, WRAP was designated as an evidence-based practice by the United States–based Substance Abuse and Mental Health Services Administration (SAMHSA)."
- Mentoring and Peer-to-Peer Support.
- Ruddy's Café and Chew: To teach resilience and coping strategies via a wellness recovery perspective, utilizing a peer-to-peer method that normalizes trauma-informed dialogue, while also providing tools and local resources.
- Training volunteers as peer facilitators for dialogue and as Mental Health, wellness, resiliency, and education-sharing resources.
- Suicide Prevention: The Journey of Self-Discovery: Focused on crisis intervention and suicide services for families throughout Fulton and we will train volunteers as suicide prevention and information-sharing resources.
- Exercise Therapy for Families: Given the advantages of physical exercise on overall health, this will assist participants of all fitness levels to overcome hurdles, teach correct stretching methods, and introduce yoga for mental clarity. We will train volunteers as health/fitness facilitators and information-sharing resources.
- Heroes and Sidekicks: Adolescent Wellness Education: Our children have suffered from separation anxiety, depression, and other Mental Health concerns that cause withdrawal from everyday life during the pandemic. This interactive program will teach coping methods in a fun way to children aged 5 to 12 and 13 to 18. Volunteers serve as teaching assistants.

How Activities and Services Will Be Accomplished

SDp3 recognizes the need to reach diverse communities, including rural areas. To readily serve Fulton County, the organization plans to utilize virtual platforms and in-person opportunities, collaborating with community partners. We understand that a sub-threshold diagnosis of PTSD can be considered a risk factor for severe mental health outcomes, emphasizing the importance of targeted and timely intervention.

Our commitment to virtual offerings, including COVID-specific programs, ensures that we adapt to the changing needs arising from the pandemic. By addressing mental health challenges induced by COVID-19, such as anxiety, loss, and grief, SDp3 remains at the forefront of supporting the community's mental wellbeing. We will also be out in the commnity! There are local events that happen througout the year, especially in summer months. SDp3 is currently reaching out to local event coordinators in order to participate in community wide events and let people know about our services available to the community at large. We will send out invitees and update our social media and website with more events. We will also continue to posting inspirational messages on our social media as well as increase the sharing of the active work we are doing to help residents, share more stories, and more about our partnerships. We will also send out regular press releases to the media to share organization activities. We want the work and the results to be more visible so that we can help more people!

Addressing Fulton County Health and Human Services Key Performance Indicators (KPIs):

Prevent Illness by Engaging in Healthier Behavior: SDp3's Mental Wellness Workshops and Exercise Therapy for Families contribute to healthier behaviors and overall wellness.

DocuSign Envelope ID: 95594F2E-7E99-4337-8599-BD46C9C58A58

Prevent Health Disparities by Educating Residents and Connecting Them to Resources: SDp3 focuses on education through Mental First Aid Trainings, CRM training, and WRAP, ensuring access to resources that mitigate health disparities.

Support Vulnerable Residents in Social Services: Our programs like Suicide Prevention: The Journey of Self-Discovery and Ruddy's Café and Chew directly support vulnerable residents, providing crisis intervention, resilience training, and coping strategies.

Bolstering Mental Health Services: To be successful at what we do, it's imperative to build sustainable partnerships with the right organizations. SDp3 collaborates with organizations like Mary Hall Freedom Village, Blessed Horizons, and Community Friendship Inc.,enhancing mental health services and providing a comprehensive support system.

Broadening Telehealth Services: We prioritize virtual offerings, ensuring broad access to mental health support, especially in rural and vulnerable populations.

Improving Access to Care: Our collaboration with law enforcement, criminal justice agencies, and community Mental Health providers emphasizes the importance of crisis intervention training and suicide prevention awareness. We also offer wrap around services which include helping with co-pays and other necessities individuals may need to help them get right from the inside out.

Community Collaborative Relationships: SDp3 will continue to nurture and grow the amazing relationships we have established. Statistics show that there is a void in our communities. We will continue to garner resilient partnerships to serve our beloved community.

1. Mary Hall Freedom Village, located in Fulton's Sandy Springs, empowers veterans, women, children, and families to end homelessness, addiction, and poverty. SDp3 has collaborated with them on programs twice weekly over past ~3 years and is continuing in '23.
2. Blessed Horizons provides a safe and supportive environment that will help our clients navigate the challenges of their new clean and sober lives, all well maintaining mental wellness. They provide a place where clients can re-establish themselves and rediscover their place in society.
3. Community Friendship Inc is a pioneer of psychiatric rehabilitative services, offering comprehensive recovery-based programs, support and training in self-sufficiency and independent living, career development, and full integration in the community. We collaborate with them on group sessions, mentoring, coaching, exercise, and healthy cooking demonstrations, as well as on our books for curricula, the past ~3 years and continuing now.
4. Covenant House GA provides "more than a bed" for youth experiencing homelessness. Trained speakers share personal experiences about living with Mental Health conditions and recovery, information about the Helpline with additional resources, and a listening ear. SDp3 has partnered with Covenant House these past few years. Our joint programs include substance abuse, peer support, life skills, talking circles, mentoring, "build a bear and share" talk sessions, and coaching. The group sessions tend to include 5-10 young adults, and new programs in '23 will introduce painting and vision boards.
5. National Alliance on Mental Illness ("NAMI") GA empowers affiliates to create communities where all affected by mental illness find hope, help, and acceptance through support, education, and advocacy. SDp3 partners with NAMI through "In our Own Voice" programs 3-4 times a week, and SDp3 Executive Director Venessa Abram shares about NAMI and their services in virtually all programs she leads/teaches.
6. We have also collaborated in the past with the Community Foundation for Greater ATL, GA Mental Health Consumer Network, RISE, and Resilient Georgia, and may continue collaborating with them to serve Fulton residents via this grant as well.

DocuSign Envelope ID: 95594F2E-7E99-4337-8599-BD46C9C58A58

7. We have partnered with Wreaths Across America and Toys for Tots, raising funds for critical missions, providing toys for children as well as food for Thanksgiving and Christmas.

In addition to collaborations with nonprofit above, SDp3 will complement existing government initiatives in important ways. For instance, SAMHSA has partnered with the VA to bring the Governor's and Mayor's Challenges to Prevent Suicide Among Service Members, Veterans, and Families to states and communities across the nation. 35 states (including GA) are taking part in the Governor's challenge, We need to see our communities on the Mayor's Challenge a well. (mentalhealth.va.gov.; samhsa.gov.).

Georgia Department of Behavior Health and Developmental Disabilities - is The Division of Behavioral Health manages programs and services delivered by DBHDD's community-based behavioral health providers, which are divided into three tiers: TIER 1: Comprehensive Community Providers are DBHDD's community service boards, which serve as the public safety net and offer a core benefit package, as well as additional specialty services. TIER 2: Community Medicaid Providers ensure choice for individuals receiving Medicaid and offer a core benefit package. TIER 3: Specialty Providers offer an array of specialty treatment and support needed in the continuum of care. The division's goal is to build a recovery-oriented, community-based system of care, with the capacity to provide timely access to high-quality behavioral health treatment and support services. Recovery accepts that severe and persistent mental illness, substance use, and co-occurring disorders are long-term conditions that a person will be managing for life. This model signifies a shift from crisis-driven services to a prevention-focused continuum of care that provides sustained support, and is based on the strengths, wellness, and goals of the person in recovery. SDp3 is currently looking in to how we can better support Medicaid recipients as provider or through additional priority partnerships.

Fulton County School System currently offers First Aid and CPR Trainings. SDp3 offers Youth and Adult Mental Health First Aid Trainings to School Administrators, parents, and students. Fulton County School system models promotion of wellness activities that would eradicate suicide, create mental wellness, suicide awareness, and resiliency knowledge that would produce healthier students, staff, and families not just for now but for the future.

Finally, our staff, Board members, and volunteers will learn about the above as well as the following, sharing resources with Fulton County Schools, Communities, and veterans/family members in need as we seek to support and partner with these: Misdemeanor Mental Health Court (MMC) which is a voluntary court program to divert and support eligible misdemeanor citizen-defendants with mental health concerns. MMC is a joint misdemeanor justice project, housed in the Magistrate Court of Fulton County. The Misdemeanor Mental Health Court strengthens connections between the court system and the mental health community. The program encourages safe and supported release of participants from the jail into the community, including assisting with housing and behavioral health treatment prior to release. MMC enhances the interconnection of participants, crime victims and our community. MMC reduces the incarceration and re-arrest of individuals with a mental health diagnosis and increases community confidence in the criminal justice system; therefore, improving the overall quality of life for the entire community. The permanent 12-month program will be divided into 4 phases, based on individual participant needs and criminogenic risks. Misdemeanor Mental Health Court program has had seven graduations since it began as a pilot program in July 2018 and has an 80% graduation rate for entering participants. The permanent 12-month program will be divided into 4 phases, based on individual participant needs and criminogenic risks.

The COMPACT Act signed December 5, 2020, enables VA to implement programs, policies, and reports related to transitioning service members, suicide prevention, and crisis services; mental health education and treatment; and improvement of services for women veterans. Specific to emergency suicide care, this act will strengthen coordination of care between VCL and the Office of Community Care by furnishing emergent care to an eligible individual at a medical facility of the department, pay for emergent suicide care provided to an eligible individual at a non-department facility, and reimburse an eligible individual for emergent suicide care provided to the eligible individual at a non-department facility. (National Veteran Suicide Prevention Annual Report.)

DBHDD services are accessible 24 hours a day, 7 days a week via the Georgia Crisis and Access Line (GCAL) at (800) 715-4225. Callers are connected to caring professionals trained to help them get the most appropriate services for crises related to mental health, substance use, and intellectual and developmental disabilities. In the case of an emergency, or risk to the safety of an individual or others, GCAL works collaboratively with other resources such as 911, local law enforcement, and emergency departments.

Methods and Data Collection Tools to Be Used, Goals to be Obtained: To gauge the effectiveness of our programs, we employ a comprehensive evaluation strategy. For inputs, we gather data through sign-in sheets from seminars and workshop training, and tracking of referrals and client follow-ups. In assessing outcomes, we employ post-surveys to quantify the transfer of knowledge to our beneficiaries. We gather insights through round-table discussions and feedback notes obtained during community training, ensuring a qualitative understanding of impact. Additionally, self-reports from individuals we assist contribute to our outcome evaluation.

Our commitment to holistic evaluation extends to both direct beneficiaries and the volunteers and trainers we engage. To enhance demographic insights, we encourage those we serve to self-identify across key parameters such as veteran status, race/ethnicity, religion, age, rural/suburban/urban residence, gender, and sexual preference. This approach builds on successful pilot programs, ensuring our assessments are thorough, inclusive, and aligned with the diverse identities within our community. Our afterschool program at the YMCA Early Learning Center at Woodson Park will not only keep children engaged and safe in the hours after the traditional school hours, but it will also leverage this precious time to motivate youth to develop social-emotional skills, improve math and numeracy, explore new skills, and engage in fun fitness activities. We utilize several signature initiatives and program components to accomplish these goals:

ACADEMIC SUPPORT: Our youngest afterschool participants at the YMCA Early Learning Center at Woodson Park benefit from Read Right From the Start. Created in partnership with the Atlanta Speech School, this professional development program focuses on building the language and literacy teaching skills of our early learning teachers. It enriches our afterschool program with research-based training and practice-based coaching and mentoring.

STEAM PROGRAMMING: Recognizing that early exposure to Science, Technology, Engineering, Art, and Math (STEAM) is critical to helping children develop skills through experiential learning, the afterschool program is infused with STEAM concepts and activities. Through dedicated hands-on experiences and developmentally appropriate curriculum, children are exposed to the skills they need to become future STEAM leaders.

PHYSICAL ACTIVITY: Our youngest afterschool children participate in Start For Life, a research-based wellness program designed to address the activity levels of preschoolers during planned playtime. The program develops gross motor skill movement and teaches children to make healthy choices through positive self-management skills.

FAMILY WRAP AROUND SERVICES: Head Start programs are provided at no cost to low-income children from birth to five. Recognizing family well-being is core to student success; our Family Support Advocates connect Head Start students and family members with services, including mental, dental, and medical healthcare, housing stability, food security, and financial literacy.

FOUNDATIONAL LIFE SKILLS: We will take an intentional approach to embedding activities and interactions where children can develop communication, social awareness, self-management, critical thinking, resiliency, and other social-emotional skills.

STRATEGIC PRIORITY AREA PROGRAM OBJECTIVES:

Our afterschool/extended hours program addresses two of the Fulton County "Health and Human Services" strategic priority area program objectives. The program addresses the "prevent health disparities by educating residents and connecting them to available resources" objective and its associated key performance indicators, "percentage of residents who experience food insecurity," because all participants receive meals and healthy snacks each day, and "number of Fulton County residents who receive a flu vaccine," as these services are provided to our early learning families. The program addresses the "help residents realize their educational potential through our community services and library programs" through the Read Right From the Start professional development program for our early learning teachers.

CSP FUNDING PRIORITIES:

Our afterschool program addresses two CSP Funding Priorities within the "Children & Youth Services" category. Our program for our participants at the YMCA Early Learning Center at Woodson Park addresses both the priorities of kindergarten readiness and in-school/afterschool/out of school programs to help bring up academic and social/behavioral levels of school-aged youth.

COLLABORATIONS:

We collaborate regularly with partner organizations to build innovative programming and ensure our work builds on the current vital programs and best practices. The following is a list of more than seven instances of community collaborative relationships that assist us in addressing the needs of the Grove Park community:

Atlanta Public Schools: The Y has been a proud partner of Atlanta Public Schools for many years. We provide early learning support, afterschool programming, and out-of-school services to thousands of preschool, elementary, middle, and high school students, working with school administration to ensure we engage students at the most significant risk of falling behind.

DocuSign Envelope ID: 9E1B24B9-CB25-4DD4-826D-C1C4359422F0

Atlanta Speech School: By partnering with the Atlanta Speech School for the past ten years, the Y has continued to expand the number of children served through Read Right From the Start, a research-based educator training model. The Atlanta Speech School serves as the researcher, program developer, and thought leader, while the Y has been instrumental in piloting the original program, testing new ideas, and providing ongoing program delivery.

Good Samaritan Health Care: Good Samaritan Health Care is a community-based health clinic delivering medical, mental, and dental care to the Westside community for years. Located just over a mile from the Grove Park campus, Good Sam partners with the Y to serve this community directly.

Grove Park Foundation: Acting as the "community quarterback," the Grove Park Foundation coordinates the community engagement, program implementation, and inter-agency continuum of services for the Grove Park neighborhood. In close collaboration with the YMCA, KIPP Metro Atlanta Schools, and Purpose Built Communities, the Grove Park Foundation works alongside its partners to break the cycle of intergenerational poverty through comprehensive investments.

KIPP Metro Atlanta Schools: The Y and KIPP have had a longstanding partnership united around seeing children reach their full potential. The YMCA Early Learning Center at Woodson Park serves as a feeder school for neighboring KIPP Woodson Park Academy.

Purpose Built Communities/Schools: The Y has a long partnership with Purpose Built, dating back to implementing the first Purpose Built community in East Lake. Through our expanded efforts in Grove Park, the Y will work with Purpose Built to accomplish two of its key components of community revitalization: supporting cradle-to-college education and community wellness.

Westside Early Learning Providers: The Y is actively building partnerships with early learning providers in the Grove Park, Vine City, and English Avenue communities through our You Are the Promise program to elevate the quality of learning across the Westside.

Westside Education Collaborative: Through this collaborative, the Y is working closely with GEEARS (Georgia Early Education Alliance for Ready Students) and United Way of Greater Atlanta to ensure our efforts are leveraging the strengths of all education partners in the Westside to improve student outcomes.

Designation of CSP Funds:

Based on the awarded amount of **$40,000.00,** the CCSP funds are designated according to the following cost categories: Administrative, Operational, and Direct Services.

Program Performance Measures:

Young Men's Christian Association of Metropolitan Atlanta, Inc. agrees to track and report program performance to the Fulton County Department of Community Development.

County Defined Performance Measure(s):

Disabilities: Not Applicable

Economic Stability: Not Applicable

Health and Wellness: Not Applicable

The following program measures/ Key Performance Indicators ("KPI's") will be utilized to track and report program outcomes for the Fulton County residents supported with CSP funding, during the funding period 01/01/2024 through 12/31/2024:

For our afterschool program participants, the Y will conduct pre- and post-evaluations of child performance, parent engagement, and teacher engagement to monitor the program's ongoing success based on best practice metrics for early learning education. The Y's early learning program also follows four steps to set and measure students' individual needs and goals, including adopting and aligning established child goals from the Head Start Early Learning Outcomes Framework; Creating and implementing a plan of action for achieving goals; Assessing child progress on an ongoing basis and aggregate and analyze data 2-3 times per year; and Examine data for patterns of progress for groups of children to develop and implement a plan for program improvement.

MILESTONES and SCHEDULE:
As part of the Y's afterschool program, we evaluate children's outcomes at the middle and end of the school year utilizing the tools detailed below. Upon receiving the data and outcomes, the Senior Director of Head Start, Senior Director of Early Learning Signature Programs, and Vice President of Early Learning review the measurements and can adjust as needed. Additionally, the early education team presents the status of teacher and children outcomes to the Y's President & CEO twice yearly.

DocuSign Envelope ID: 9E1B24B9-CB25-4DD4-826D-C1C4359422F0

DATA COLLECTION TOOLS:
As required by Head Start, we conduct internal assessments of our work in alignment with local, state, and federal standards. Children in infant, toddler, and preschool classrooms participate in Teaching Strategies Gold thrice yearly (fall baseline, winter, and spring). In our Pre-K classrooms, children participate in the Work Sampling Online evaluation twice a year. All children in Head Start programs are also screened using Brigance. This learning evaluation tool identifies incoming students at risk for learning difficulties and who might benefit from intervention.

· Classroom Assessment Scoring System (CLASS) observations of preschool and Pre-K classrooms evaluate classroom quality as it relates to Emotional Support, Classroom Organization, and Instructional Support.

· Preschool Teachers' Attitudes & Beliefs toward Science (PTABS) measures a teacher's understanding and comfort of teaching science concepts.

· The EARLY CHILDHOOD ENVIRONMENT RATING SCALE (ECERS-3) provides feedback on the quality of the learning environment.

The Y anticipates serving 60 youths through the proposed program and achieving the following measurable milestones within each of the key components of our afterschool programs:

· ACADEMIC SUPPORT: at least 80% of participants of the afterschool program at the YMCA Early Learning Center at Woodson Park at the end of the school year will be assessed as ready for kindergarten as measured by Work Sampling Online.

· STEAM PROGRAMMING: at least 85% of participants will be exposed to the skills they will need to become future STEAM leaders, as measured by quarterly check-ins with participants.

COUNTY-DEFINED PERFORMANCE MEASURES:
During the contract period, the Y will report on two county-defined performance measures within the "Children & Youth Services" service category.

· We will report on the "number of students assessed as ready for kindergarten" by indicating the number of students who leave our afterschool program at YMCA Early Learning Center at Woodson Park who meet this criteria. Historically, 90% of our pre-K early learners graduate ready for kindergarten (performing at or above average scores in receptive vocabulary, expressive vocabulary, and print and alphabet knowledge).

· We will report on the "number of school-aged youth benefiting from In school/ Afterschool/ Out of School Programs to help bring up academic and social/behavioral levels" by indicating the total number of program participants.

Agency Defined Performance Measure(s):

AGENCY-DEFINED PERFORMANCE MEASURES:
During the contract period, the Y will report on two AGENCY-defined performance measures within the "Children &

DocuSign Envelope ID: 9E1B24B9-CB25-4DD4-826D-C1C4359422F0

Youth Services" service category.

We will report on the number of children participating in the program for three years or more to demonstrate kindergarten preparedness for language & literacy by tracking student retention.

We will report on the number of children demonstrating growth across language and literacy, STEAM, and social-emotional and physical domains. We will do this by analyzing the assessments listed above.

a. your acts or omissions, or the acts or omissions of those acting on your behalf, in the performance of your ongoing operations for the Additional Insured that are subject of the written contract or written agreement provided that the "bodily injury" or "property damage occurs, or the "personal and advertising injury" is committed, subsequent to the signing of such written contract or written agreement; or

With respect to paragraph **1.a.** above, a person's or organization's status as an additional insured under this Endorsement ends when:

(1) all work, including materials, parts or equipment furnished in connection with such work, on the project (other than service, maintenance or repairs) to be performed for or on behalf of the Additional Insured(s) at the location of the covered operations has been completed; or

(2) that portion of "your work" out of which the injury or damage arises has been put to its intended use by any person or organization other than another contractor or subcontractor engaged in performing operations for a principal as a part of the same project.

With respect to paragraph **1.b.** above, this insurance does not apply to any "occurrence" which takes place after the equipment rental or lease agreement has expired or you have returned such equipment to the lessor.

(2) supervisory, inspection, architectural or engineering activities.

This exclusion applies even if the claims against any insured allege negligence or other wrongdoing in the supervision, hiring, employment, training or monitoring of others by that Insured, if the "occurrence" which caused the "bodily injury" or "property damage," or the offense which caused the "personal and advertising injury," involved the rendering of, or failure to render, any professional architectural, engineering or surveying services.

c. "Bodily injury" or "property damage" occurring after:

(1) all work, including materials, parts or equipment furnished in connection with such work, on the project (other than service, maintenance or repairs) to be performed for or on behalf of the Additional Insured(s) at the location of the covered operations has been completed; or

(2) that portion of "your work" out of which the injury or damage arises has been put to its intended use by any person or organization other than another contractor or subcontractor engaged in performing operations for a principal as a part of the same project.

When a written contract or written agreement, other than a premises lease, facilities rental contract or agreement, an equipment rental or lease contract or agreement or permit issued by a state or political subdivision between you and an additional insured does not require this insurance to be primary or primary and non-contributory, this insurance is excess over any other insurance for which the Additional Insured is designated as a named insured.

Regardless of the written agreement between you and an additional insured, this insurance is excess over any other insurance whether primary, excess, contingent or on any other basis for which the Additional Insured has been added as an additional insured on other policies.

These limits are inclusive of and not in addition to the Limits of Insurance available under this Policy.

T. Blanket Waiver of Transfer of Rights of Recovery Against Others to Us (Subrogation)

Under **SECTION IV - COMMERCIAL GENERAL LIABILITY CONDITIONS**, the following is added to Condition **8. Transfer of Rights of Recovery Against Others to Us**:

If required by a written contract or written agreement, we waive any right of recovery we may have against a person or organization because of payment we make for injury or damage arising out of your ongoing operations or "your work" done under a contract for that person or organization and included in the "products-completed operations hazard" provided that the injury or damage occurs subsequent to the execution of the written contract or written agreement.

At your request we will pay for "loss" to property of others caused by your business operations for which this Policy provides liability insurance. 2. The aggregate amount we will pay for the sum of all "loss" in an annual period is **$ 5,000**. This aggregate amount is part of and not in addition to the General Aggregate Limit described in paragraph **2.** of **SECTION III - LIMITS OF INSURANCE**.

V. Who Is an Insured - Fellow Employee Extension - Management Employees

1. The following is added to paragraph **2.a.(1)** of **SECTION II - WHO IS AN INSURED**:

Paragraph **(a)** and **(b)** above do not apply to "bodily injury" or "personal and advertising injury" caused by an "employee" who is acting in a supervisory capacity for you. Supervisory capacity as used herein means the "employee's" job responsibilities assigned by you, including the direct supervision of other "employee" of yours. ACTIVITIES and HOW THEY ARE ACCOMPLISHED:

DocuSign Envelope ID: 493B45D4-1F00-46F7-AE44-5C3F1023CC31

Thus far in 2024, we have provided 16 school groups in 11 schools in Fulton County and anticipate supporting an additional 10+ schools in the fall semester. Ultimately, we intend to support the 90+ other public schools in the county - to provide closed groups for bereaved students that meet once a week for 6 to 12 weeks. Each group consists of four to eight students of similar ages who have been identified by the school counselor. Over the course of six weeks, students work through an activity-based curriculum that includes normalizing grief, sharing their story, coping with changes, identifying and expressing feelings, utilizing healthy coping strategies, and finding ways to remember the person who died. Students also build social connections with one another to feel less alone.

When planning for a semester and academic school year, we begin by reconnecting with previous school partners, reminding them about school groups, staff development opportunities, and parent education options. This communication also includes language for them to share with other schools within their cluster. We also promote our school group request form and professional training request form in our quarterly community partner newsletters.

Within each school, we partner with the school's counselor and/or social worker to identify and recruit grieving students, helping build trust in Kate's Club and our grief groups. We also work with other community partners present in schools (e.g., Communities In Schools, CHRIS 180, etc.) to identify and refer students. We educate teachers and provide them with materials and Kate's Club website links containing instructions on how to refer students. Kate's Club also provides ways for parents and guardians to obtain more information, and for students to self-refer. Our communications with both school staff and parents or caregivers are critical to building trust and impact.

All grief groups conclude with surveys of student participants, teachers and counselors, and parents and caregivers. Our Director of Metro Atlanta and our Metro Atlanta Outreach Coordinators review survey and evaluation results on a quarterly basis to ensure the efficacy of Kate's Club school group curriculum and that these tools accurately capture and reflect our participants' experiences. In 2023, Kate's Club began to implement our more rigorous bereavement needs assessments - historically utilized in our Clubhouse programs - in our schools groups.

Finally, we utilize professional networks (e.g. Georgia Society for Clinical Social Workers, Georgia Association for Play Therapy, Licensed Professional Counselors Association of Georgia, LinkedIn, Work for Good) to recruit applicants for staff and subcontracted facilitator positions. Kate's Club hires licensed therapists for all our programs who have an eligible license and group experience with children and/or teens.

STRATEGIC PRIORITY AREA PROGRAM OBJECTIVES:

Of the Strategic Priority Area: "Health & Human Services," Kate's Club programming aligns with "the number of people who receive behavioral health services."

CSP FUNDING PRIORITIES:

Kate's Club's programs support the CSP services category "Children & Youth Services." Our program outcomes and performance measures result in children receiving support, primarily in schools and potentially in juvenile courts, that includes social and emotional benefits to youth as well as safe, accessible and engaging programs that prevent unhealthy behaviors and promote health and wellness. Our programs strengthen youth mental health including management of stress, anxiety and strong feelings - such as anger - through facilitated grief groups for youth, and education and trainings for adults supporting bereaved youth, such as teachers, counselors and social workers in addition to parents and caregivers. Given that up to 90% of youth in juvenile courts are grieving the loss of someone important to them,

DocuSign Envelope ID: 493B45D4-1F00-46F7-AE44-5C3F1023CC31

providing court-involved bereaved youth with the tools, resources and strategies to learn how to grieve in a healthy way, can support this at-risk, and often very under-resourced, population.

Designation of CSP Funds:

Based on the awarded amount of **$25,000.00,** the CCSP funds are designated according to the following cost categories: Administrative, Operational, and Direct Services.

Administrative Expenses- CCSP Funds that are spent on executive / management staff and administrative support staff salaries, salary fringe, and benefits; etc.).

Operational Expenditures- CCSP funds used to conduct agency/ organizational functions that are secondary to program service delivery such as office/ warehouse lease or mortgage expenses, office supplies (pens, toner, paper, etc.), utility expenses, transportation expenses (staff travel expenses), marketing/catalogs, etc.

Direct Service Expenditures- CCSP funds utilized to provide services directly to agency/program participants such as payments made on behalf of participants for rent, utilities, food, shelter, transportation (rentals, gas, and parking, bus drivers, public transportation costs, etc.) , scholarships and day care vouchers, salaries and fringe benefits for direct service personnel (Case Managers, Educators, Subcontractors, etc.), program supplies (educational/instructional materials, paper, pencils, markers, etc.) directly consumed by participants. Program materials that may be pertinent to the scope of services of a funded program and that aid in contractor meeting contracted program outcomes are included in this definition (i.e. children's story books, educational games, puzzles, and flash cards).

The maximum amount of CCSP funds allowed for administrative purposes (executive staff salaries and benefits only) is 5% of funds awarded. Throughout the contract period, program

DocuSign Envelope ID: 493B45D4-1F00-46F7-AE44-5C3F1023CC31

expenditures will be monitored (via performance reports) to ensure that funding is utilized as contracted.

Cost Category	Designation of CCSP Funding Award
Administrative (5% Admin max of funds awarded.)	$1,250.00
Operational	$2,000.00
Direct Services	$21,750.00
Total	$25,000.00

Explanation of Funding Details:

Administrative expenses include Director of Metro Atlanta's and Director of Education and Innovative Programs' oversight as well as administrative support required for school partner and caregiver permissions and communications.

Operational expenses include communications and marketing materials provided to school administrators, counselors and teachers to distribute to parents and caregivers of grieving children to educate them on the importance of addressing a child's grief and to establish trust in Kate's Club. Data about a grieving child including who died, how and when they died, any behavior issues, etc. is collected prior to a grief group's start. At the conclusion of the group, surveys - student, caregiver and teacher - are conducted and results are measured to determine the student's growth in coping skills as well as the overall impact of the group and program. These, along with a student's attendance and participation, are tracked in Kate's Club Apricot database. Finally, in addition to student grief groups, Kate's Club provides materials (e.g., a guide on what to say, and what not to say, when speaking with a grieving child) when it trains school professionals and educates caregivers and other (non-grieving) students on how to recognize grief, talk about it and support a grieving child.

Direct expenses include compensation of Kate's Club staff and subcontracted grief-trained counselors and therapists who facilitate the multi-week groups and conduct the trainings and grief education sessions. Also included are the curriculum and materials required for each week's activities, primarily arts and crafts.

AGENCY DEFINED PERFORMANCE MEASURES:

Kate's Club believes in an integrated family approach to programming, given that the number one indicator for a child's ability to work through their grief is the parent's capacity to work through theirs. We have seen the importance of educating not only parents and caregivers on the tools they need to help manage their grief and then support their child, but also the importance of educating professionals on this as well.

To measure reach, Kate's Club will track the number of students in school-based grief groups, the number of schools participating in KC Connects, the number of parents/caregivers with whom we provide bereavement education, and the number of professionals working with children (e.g., school counselors, social workers, etc.) trained in grief support and communications. We will also track the number of Fulton County juvenile court-involved youth (delinquent and dependent) in court-based grief groups as well as the number of parents/caregivers with whom we provide bereavement education and support, and the number of court professionals trained in grief support and communications.

EVALUATION METHODS AND GOALS:

Kate's Club intends to continue the use of the Bereavement Needs Assessment within the KC Connects grief groups in Fulton County to assess our programs' quality and impact. In 2023, Kate's Club completed two 8-week school-based grief groups with TGCT-driven curriculum (the basis of the BNA), with pre- and post-BNAs completed with 14 seventh and eighth graders at Wesley International Academy. Some highlights of our BNA findings from these two closed groups include:

- 50% decreased longing for the person(s) who died and improvement in coping with their new identity
- 64% experienced fewer PTSD symptoms (e.g., trouble sleeping or concentrating, intrusive thoughts about the death, feeling alone around other people, trouble feeling happiness or love)
- 57% experienced lower depressive symptoms after group and 43% acquired skills to better cope with their hard feelings

With funding from Fulton County, we plan to implement the BNA as an evaluation tool at Tri Cities High School in the fall, with plans to expand into more school groups. Consistent with the results from our pilot group at Wesley International Academy, we anticipate seeing a decrease in all types of distress and risks. Additionally, we will implement pre- and post-BNAs with Fulton County juvenile court-based grief groups, similar to work completed in our pilot juvenile court-based grief groups.

We will evaluate the outcomes of our KC Connects programming in Fulton County by tracking grief group attendance and conducting teacher or court staff, caregiver, and youth surveys. Youth surveys measure development of coping skills, participation in activities that make them feel connected to the deceased, decrease in depressive symptoms, and utilization of available sources of support. Staff and teacher surveys evaluate participant mood, behaviors, attendance, and performance in the classroom, and parent/caregiver surveys evaluate youth behaviors at home. We anticipate that 90% of responding youth, caregivers, teachers and staff will report finding the groups helpful, and that 90% of youth will report that they would recommend the group to another young person who is grieving.

The ultimate goal of KC Connects is that children and teens are able to accept the reality of their loss, process the pain of grief, adjust to a world without the deceased, and develop an enduring connection with their loved ones while embarking on a new life.

DocuSign Envelope ID: 02A0ADDC-2CE3-4A7A-B481-39596B1D545C

Raksha Inc., will provide the following activities and services in Fulton County with CCSP funding:

Raksha's Fulton County Housing Assistance Program will focus on eight performance measures and use them as benchmarks for success:

Fulton County Performance Measures:

Number of potential instances of homelessness prevented

Number of individuals assisted through rapid rehousing

Number of individuals placed in transitional housing

Number of individuals whose barriers to self sufficiency are eliminated/reduced; path to self-sufficiency created

Number of individuals receiving emergency financial assistance

Raksha's Performance Measures:

Number of clients who meet at least one goal set forth in their housing plan

Number of clients who maintain stable housing for at least 6 months during the program

Number of clients who report an improvement in sense of well-being

Raksha, with assistance from our community partners, aims to meet the above benchmarks for success through our design of a joint rapid rehousing/transitional housing assistance program.

Joint Rapid Rehousing/Transitional Housing Program Design

Since our clients are "difficult to house" due to multiple, intersecting barriers, we utilize a joint rapid rehousing/transitional housing program design. Our joint housing program provides a safe place for people to stay, crisis housing, with financial assistance and wraparound supportive services based upon client needs. We believe that the crisis housing portion of our assistance should be brief and without preconditions with the ultimate goal of helping clients quickly move into permanent housing. Neither rapid rehousing or transitional housing homelessness interventions are sufficient standalone solutions for our clients. Our typical client may be seeking immigration relief as a victim of crime and is in need of safe, affordable housing which will likely need to be supplemented for an extended amount of time while they utilize our other services to create a plan for financial self-sufficiency and empowerment. They will also have access to additional emergency financial assistance supported by case management and other supportive services. This could include assistance for food, transportation, and economic empowerment activities that will help the client more easily secure employment or start a business that will help them financially support themselves. Through our services,

DocuSign Envelope ID: 02A0ADDC-2CE3-4A7A-B481-39596B1D545C

our clients have more stable access to housing, food, and behavioral health services as well as other services and referrals that improve the County's standing in the County Health Rankings and Roadmaps report.

One of the most important elements of our joint housing program is flexibility. Most programs that offer housing assistance offer a progressive subsidy plan which typically consists of some version of the program paying a larger percent at the outset, and then gradually decreasing the amount of subsidy until the participant is paying the full cost of housing. Since our clients are often unemployed, awaiting immigration relief, and/or dealing with significant emotional trauma when they seek our assistance, we implement a more flexible approach while we provide other services that are aimed at ensuring long term self-sufficiency. This approach takes into account the unique challenges our clients are facing and prioritizes long lasting self-sufficiency rather than ensuring that financial assistance is as brief as possible.

Program Implementation

The Executive Director has built a relationship with a landlord that has multiple properties in Fulton County who will work with Raksha and partners to bypass some of the requirements that make it difficult for the survivors that Raksha works with to meet application/rental requirements to get an apartment. Raksha's Director of Programs will continue to work closely with the Advocates to expand our Landlord Engagement Strategy in Fulton county. The Director of Programs and the Advocates will ask landlords interested in partnering with Raksha to offer client housing opportunities to sign an MOU or participation equivalent.

Advocates complete an intake with each client to assess the client's housing needs. In order to be eligible for housing assistance under the Fulton county grant, they will need to be in Fulton county, experiencing homelessness or at risk of experiencing homelessness, earning 30% or less of the area median income, and a survivor of domestic violence.

Once the client has completed the intake, they will be assigned to work with an Advocate as their point of contact. The Advocate will complete a Housing Needs Assessment with the client in order to further determine the most appropriate intervention from the information provided. The client will work with the Advocate to set goals that will support their housing stability through the creation of a housing plan. A client's housing plan would include goals to help the client become more financially stable in order to ensure that they will be able to continue to pay for their housing once financial assistance is no longer available. As part of this goal setting, the Advocate will make appropriate referrals to inhouse and outside services in order to best support the client. Raksha is uniquely positioned to provide this support because we have culturally and linguistic expertise as well as well-established community connections and services from our 29 years of experience in supporting survivors as they flee domestic and sexual violence.

If it is determined that the client could benefit from rapid rehousing funds the Advocate will work with the client to help them secure appropriate housing in units that are desirable and sustainable, in neighborhoods where they want to live and feel safe. Clients may also choose to remain in their current housing situation if possible. If a client decides to secure an apartment on their own, the Advocate will offer services as needed and give the client suggestions of possible apartments based upon landlord engagement partnerships. The Advocate will also provide assistance as needed to help the client move into the housing, including deposits, utility deposits, last month's rent, arrears, moving costs, and credit repair.

After three months of services, the client and Advocate will reassess the client's housing needs. If the client will require continued rental assistance, the Advocate will move the client into the Transitional Housing program. In prior years, Raksha would continue to subsidize the client's housing beyond 30% of their income up to $2800/year. Due to the

DocuSign Envelope ID: 02A0ADDC-2CE3-4A7A-B481-39596B1D545C

pandemic and continuing inflation, Raksha has relaxed this limit based on unusual pandemic-related circumstances and increased barriers that immigrant survivors have faced in fleeing violence and meeting basic needs such as food and housing. The client's needs and eligibility will continue to be reassessed every three months up to one year.

Community collaborative relationships are absolutely essential to successfully meeting these housing and additional needs for survivors in Fulton county and throughout the metro Atlanta area. Raksha is the founder and a member of the Immigrant and Refugee Housing Justice Coalition which comprises organizations that serve immigrant and refugee survivors of domestic violence (Tapestri, Karibu Community Legacy, Center for Pan Asian Community Services, New American Pathways, House of Globalization, Women's Resource Center, and Georgia Coalition Against Domestic Violence). This came out of a need to find creative solutions for immigrant and refugee survivors who are often not eligible for traditional programming. We have also worked with the Housing Justice League to translate some of their housing materials into various South Asian languages, the Partnership Against Domestic Violence to advocate for shelter space and food for clients fleeing violence, and Open Doors to provide support with landlord engagement. We are able to better serve the community through these collaborations because we can offer more comprehensive services and referrals for needs that are outside the scope of our organization.

DocuSign Envelope ID: 02A0ADDC-2CE3-4A7A-B481-39596B1D545C

Operational	$3,500.00
Direct Services	$29,750.00
Total	$35,000.00

Explanation of Funding Details:

Since advocacy is a significant part of our housing assistance program, we have included it in the funding request. **$29,750.00 (85%)** of funds will be used for **direct service** - housing, moving, daycare costs, and other client needs with the aim of preventing homelessness. It will also cover a prorated portion of the salaries and benefits for a therapist (Nisha Khan) and an advocate (TBD). The prorated portion is based on an expected 20% of our clients living in Fulton county. **$3,500.00 (10%)** will be dedicated to **operating costs** (supplies, marketing, interpretation, staff transportation expenses, grant management). This will include outreach efforts to educate Fulton county survivors of violence on the services available as well as staff transportation expenses associated with advocacy and outreach. **$1,750.00 (5%)** will be allocated to the **administrative costs** that make running the program and the associated advocacy possible (prorated staff salaries, salary fringe, and benefits).

COMMERCIAL LIABILITY UMBRELLA COVERAGE FORM

Various provisions in this policy restrict coverage. Read the entire policy carefully to determine rights, duties and what is and is not covered.

Throughout this policy the words "you" and "your" refer to the Named Insured shown in the Declarations, and any other person or organization qualifying as a Named Insured under this policy. The words "we", "us" and "our" refer to the company providing this insurance.

The word "insured" means any person or organization qualifying as such under Section **II** – Who Is An Insured.

Other words and phrases that appear in quotation marks have special meaning. Refer to Section **V** – Definitions.

SECTION I – COVERAGES

COVERAGE A – BODILY INJURY AND PROPERTY DAMAGE LIABILITY

1. Insuring Agreement

a. We will pay on behalf of the insured the "ultimate net loss" in excess of the "retained limit" because of "bodily injury" or "property damage" to which this insurance applies. We will have the right and duty to defend the insured against any "suit" seeking damages for such "bodily injury" or "property damage" when the "underlying insurance" does not provide coverage or the limits of "underlying insurance" have been exhausted. When we have no duty to defend, we will have the right to defend, or to participate in the defense of, the insured against any other "suit" seeking damages to which this insurance may apply. However, we will have no duty to defend the insured against any "suit" seeking damages for "bodily injury" or "property damage" to which this insurance does not apply. At our discretion, we may investigate any "occurrence" that may involve this insurance and settle any resultant claim or "suit" for which we have the duty to defend. But:

(1) The amount we will pay for the "ultimate net loss" is limited as described in Section **III** – Limits Of Insurance; and

(2) Our right and duty to defend ends when we have used up the applicable limit of insurance in the payment of judgments or settlements under Coverages **A** or **B.**

No other obligation or liability to pay sums or perform acts or services is covered unless explicitly provided for under Supplementary Payments – Coverages **A** and **B.**

b. This insurance applies to "bodily injury" or "property damage" that is subject to an applicable "retained limit". If any other limit, such as a sublimit, is specified in the "underlying insurance", this insurance does not apply to "bodily injury" or "property damage" arising out of that exposure unless that limit is specified in the Declarations under the Schedule of "underlying insurance".

c. This insurance applies to "bodily injury" and "property damage" only if:

(1) The "bodily injury" or "property damage" is caused by an "occurrence" that takes place in the "coverage territory";

(2) The "bodily injury" or "property damage" occurs during the policy period; and

(3) Prior to the policy period, no insured listed under Paragraph **1.a.** of Section **II** – Who Is An Insured and no "employee" authorized by you to give or receive notice of an "occurrence" or claim, knew that the "bodily injury" or "property damage" had occurred, in whole or in part. If such a listed insured or authorized "employee" knew, prior to the policy period, that the "bodily injury" or "property damage" occurred, then any continuation, change or resumption of such "bodily injury" or "property damage" during or after the policy period will be deemed to have been known prior to the policy period.

d. "Bodily injury" or "property damage" which occurs during the policy period and was not, prior to the policy period, known to have occurred by any insured listed under Paragraph **1.a.** of Section **II** – Who Is An Insured or any "employee" authorized by you to give or receive notice of an "occurrence" or claim, includes any continuation, change or resumption of that "bodily injury" or "property damage" after the end of the policy period.

(1) Reports all, or any part, of the "bodily injury" or "property damage" to us or any other insurer;

(a) Liability to such party for, or for the cost of, that party's defense has also been assumed in the same "insured contract"; and

(b) Such attorneys' fees and litigation expenses are for defense of that party against a civil or alternative dispute resolution proceeding in which damages to which this insurance applies are alleged.

if the "occurrence" which caused the "bodily injury" or "property damage" involved that which is described in Paragraph **(1), (2)** or **(3)** above.

However, this exclusion applies only if you are in the business of manufacturing, distributing, selling, serving or furnishing alcoholic beverages. For the purposes of this exclusion, permitting a person to bring alcoholic beverages on your premises, for consumption on your premises, whether or not a fee is charged or a license is required for such activity, is not by itself considered the business of selling, serving or furnishing alcoholic beverages.

This exclusion does not apply to the extent that valid "underlying insurance" for the liquor liability risks described above exists or would have existed but for the exhaustion of underlying limits for "bodily injury" and "property damage". To the extent this exclusion does not apply, the insurance provided under this Coverage Part for the liquor liability risks described above will follow the same provisions, exclusions and limitations that are contained in the applicable "underlying insurance", unless otherwise directed by this insurance.

b. "Personal and advertising injury" for offenses that are committed during the policy period of this Coverage Part.

However, if any "underlying insurance" is written on a claims-made basis, the "retained limit(s)" will only be reduced or exhausted by claims for that insurance that are made during the policy period, or any Extended Reporting Period, of this Coverage Part.

The Aggregate Limit, as described in Paragraph **2.** above, applies separately to each consecutive annual period and to any remaining period of less than 12 months, starting with the beginning of the policy period shown in the Declarations, unless the policy period is extended after issuance for an additional period of less than 12 months. In that case, the additional period will be deemed part of the last preceding period for purposes of determining the Limits of Insurance.

SECTION IV – CONDITIONS

1. Appeals

If the "underlying insurer" or insured elects not to appeal a judgment in excess of the "retained limit", we may do so at our own expense. We will also pay for taxable court costs, pre- and postjudgment interest and disbursements associated with such appeal. In no event will this provision increase our liability beyond the applicable Limits of Insurance described in Section **III** – Limits Of Insurance.

2. Bankruptcy

a. Bankruptcy Of Insured

Bankruptcy or insolvency of the insured or of the insured's estate will not relieve us of our obligations under this Coverage Part.

b. Bankruptcy Of Underlying Insurer

Bankruptcy or insolvency of the "underlying insurer" will not relieve us of our obligations under this Coverage Part.

However, this insurance will not replace the "underlying insurance" in the event of bankruptcy or insolvency of the "underlying insurer". This insurance will apply as if the "underlying insurance" were in full effect.

3. Duties In The Event Of Occurrence, Offense, Claim Or Suit

a. You must see to it that we are notified as soon as practicable of an "occurrence" or an offense, regardless of the amount, which may result in a claim. To the extent possible, notice should include:

(1) How, when and where the "occurrence" or offense took place;

(2) The names and addresses of any injured persons and witnesses; and

(3) The nature and location of any injury or damage arising out of the "occurrence" or offense.

b. If a claim is made or "suit" is brought against any insured, you must:

(1) Immediately record the specifics of the claim or "suit" and the date received; and

(2) Notify us as soon as practicable.

You must see to it that we receive written notice of the claim or "suit" as soon as practicable.

c. You and any other involved insured must:

(1) Immediately send us copies of any demands, notices, summonses or legal papers received in connection with the claim or "suit";

(2) Authorize us to obtain records and other information;

(3) Cooperate with us in the investigation or settlement of the claim or defense against the "suit"; and

(4) Assist us, upon our request, in the enforcement of any right against any person or organization which may be liable to the insured because of injury or damage to which this insurance may also apply.

d. No insured will, except at that insured's own cost, voluntarily make a payment, assume any obligation, or incur any expense, other than for first aid, without our consent.

4. Legal Action Against Us

No person or organization has a right under this Coverage Part:

a. To join us as a party or otherwise bring us into a "suit" asking for damages from an insured; or

b. To sue us on this Coverage Part unless all of its terms have been fully complied with.

A person or organization may sue us to recover on an agreed settlement or on a final judgment against an insured; but we will not be liable for damages that are not payable under the terms of this Coverage Part or that are in excess of the applicable limit of insurance. An agreed settlement means a settlement and release of liability signed by us, the insured and the claimant or the claimant's legal representative.

5. Other Insurance

a. This insurance is excess over, and shall not contribute with any of the other insurance, whether primary, excess, contingent or on any other basis. This condition will not apply to insurance specifically written as excess over this Coverage Part.

When this insurance is excess, we will have no duty under Coverages **A** or **B** to defend the insured against any "suit" if any other insurer has a duty to defend the insured against that "suit". If no other insurer defends, we will undertake to do so, but we will be entitled to the insured's rights against all those other insurers.

b. When this insurance is excess over other insurance, we will pay only our share of the "ultimate net loss" that exceeds the sum of:

(1) The total amount that all such other insurance would pay for the loss in the absence of the insurance provided under this Coverage Part; and

(2) The total of all deductible and self-insured amounts under all that other insurance.

6. Premium Audit

a. We will compute all premiums for this Coverage Part in accordance with our rules and rates.

b. Premium shown in this Coverage Part as advance premium is a deposit premium only. At the close of each audit period we will compute the earned premium for that period and send notice to the first Named Insured. The due date for audit and retrospective premiums is the date shown as the due date on the bill. If the sum of the advance and audit premiums paid for the policy period is greater than the earned premium, we will return the excess to the first Named Insured.

c. The first Named Insured must keep records of the information we need for premium computation, and send us copies at such times as we may request.

7. Representations Or Fraud

By accepting this policy, you agree:

a. The statements in the Declarations are accurate and complete;

b. Those statements are based upon representations you made to us;

c. We have issued this policy in reliance upon your representations; and

d. This policy is void in any case of fraud by you as it relates to this policy or any claim under this policy.

8. Separation Of Insureds

Except with respect to the Limits of Insurance, and any rights or duties specifically assigned in this Coverage Part to the first Named Insured, this insurance applies:

a. As if each Named Insured were the only Named Insured; and

b. Separately to each insured against whom claim is made or "suit" is brought.

9. Transfer Of Rights Of Recovery Against Others To Us

If the insured has rights to recover all or part of any payment we have made under this Coverage Part, those rights are transferred to us. The insured must do nothing after loss to impair them. At our request, the insured will bring "suit" or transfer those rights to us and help us enforce them.

DocuSign Envelope ID: 02A0ADDC-2CE3-4A7A-B481-39596B1D545C

10. When We Do Not Renew

If we decide not to renew this Coverage Part, we will mail or deliver to the first Named Insured shown in the Declarations written notice of the nonrenewal not less than 30 days before the expiration date.

If notice is mailed, proof of mailing will be sufficient proof of notice.

11. Loss Payable

Liability under this Coverage Part does not apply to a given claim unless and until:

a. The insured or insured's "underlying insurer" has become obligated to pay the "retained limit"; and

b. The obligation of the insured to pay the "ultimate net loss" in excess of the "retained limit" has been determined by a final settlement or judgment or written agreement among the insured, claimant and us.

12. Transfer Of Defense

When the underlying limits of insurance have been used up in the payment of judgments or settlements, the duty to defend will be transferred to us. We will cooperate in the transfer of control to us of any outstanding claims or "suits" seeking damages to which this insurance applies which would have been covered by the "underlying insurance" had the applicable limit not been used up.

13. Maintenance Of/Changes To Underlying Insurance

Any "underlying insurance" must be maintained in full effect without reduction of coverage or limits except for the reduction of the aggregate limit in accordance with the provisions of such "underlying insurance" that results from payment of claims, settlement or judgments to which this insurance applies.

Such exhaustion or reduction is not a failure to maintain "underlying insurance". Failure to maintain "underlying insurance" will not invalidate insurance provided under this Coverage Part, but insurance provided under this Coverage Part will apply as if the "underlying insurance" were in full effect.

If there is an increase in the scope of coverage of any "underlying insurance" during the term of this policy, our liability will be no more than it would have been if there had been no such increase.

You must notify us in writing, as soon as practicable, if any "underlying insurance" is cancelled, not renewed, replaced or otherwise terminated, or if the limits or scope of coverage of any "underlying insurance" is changed.

14. Expanded Coverage Territory

a. If a "suit" is brought in a part of the "coverage territory" that is outside the United States of America (including its territories and possessions), Puerto Rico or Canada, and we are prevented by law, or otherwise, from defending the insured, the insured will initiate a defense of the "suit". We will reimburse the insured, under Supplementary Payments, for any reasonable and necessary expenses incurred for the defense of a "suit" seeking damages to which this insurance applies, that we would have paid had we been able to exercise our right and duty to defend.

If the insured becomes legally obligated to pay sums because of damages to which this insurance applies in a part of the "coverage territory" that is outside the United States of America (including its territories and possessions), Puerto Rico or Canada, and we are prevented by law, or otherwise, from paying such sums on the insured's behalf, we will reimburse the insured for such sums.

b. All payments or reimbursements we make for damages because of judgments or settlements will be made in U.S. currency at the prevailing exchange rate at the time the insured became legally obligated to pay such sums. All payments or reimbursements we make for expenses under Supplementary Payments will be made in U.S. currency at the prevailing exchange rate at the time the expenses were incurred.

c. Any disputes between you and us as to whether there is coverage under this policy must be filed in the courts of the United States of America (including its territories and possessions), Canada or Puerto Rico.

d. The insured must fully maintain any coverage required by law, regulation or other governmental authority during the policy period, except for reduction of the aggregate limits due to payments of claims, judgments or settlements.

Failure to maintain such coverage required by law, regulation or other governmental authority will not invalidate this insurance. However, this insurance will apply as if the required coverage by law, regulation or other governmental authority was in full effect.

g. That part of any other contract or agreement pertaining to your business (including an indemnification of a municipality in connection with work performed for a municipality) under which you assume the tort liability of another party to pay for "bodily injury" or "property damage" to a third person or organization. Tort liability means a liability that would be imposed by law in the absence of any contract or agreement.

Paragraphs **f.** and **g.** do not include that part of any contract or agreement:

(1) That indemnifies a railroad for "bodily injury" or "property damage" arising out of construction or demolition operations, within 50 feet of any railroad property and affecting any railroad bridge or trestle, tracks, road-beds, tunnel, underpass or crossing;

(2) That pertains to the loan, lease or rental of an "auto" to you or any of your "employees", if the "auto" is loaned, leased or rented with a driver; or

b. While it is in or on an aircraft, watercraft or "auto"; or

(2) Road construction or resurfacing equipment such as graders, scrapers or rollers;

e. Vehicles not described in Paragraph **a., b., c.** or **d.** above that are not self-propelled and are maintained primarily to provide mobility to permanently attached equipment of the following types:

f. Vehicles not described in Paragraph **a., b., c.** or **d.** above maintained primarily for purposes other than the transportation of persons or cargo.

(a) Snow removal;

(b) Road maintenance, but not construction or resurfacing; or

(c) Street cleaning;

13. "Occurrence" means an accident, including continuous or repeated exposure to substantially the same general harmful conditions.

14. "Personal and advertising injury" means injury, including consequential "bodily injury", arising out of one or more of the following offenses:

15. "Pollutants" mean any solid, liquid, gaseous or thermal irritant or contaminant, including smoke, vapor, soot, fumes, acids, alkalis, chemicals and waste. Waste includes materials to be recycled, reconditioned or reclaimed.

16. "Pollution cost or expense" means any loss, cost or expense arising out of any:

a. Request, demand, order or statutory or regulatory requirement that any insured or others test for, monitor, clean up, remove, contain, treat, detoxify or neutralize, or in any way respond to, or assess the effects of, "pollutants"; or

b. Claim or suit by or on behalf of a governmental authority for damages because of testing for, monitoring, cleaning up, removing, containing, treating, detoxifying or neutralizing, or in any way responding to, or assessing the effects of, "pollutants".

17. "Products-completed operations hazard":

a. Includes all "bodily injury" and "property damage" occurring away from premises you own or rent and arising out of "your product" or "your work" except:

(1) Products that are still in your physical possession; or

(2) Work that has not yet been completed or abandoned. However, "your work" will be deemed completed at the earliest of the following times:

(a) When all of the work called for in your contract has been completed.

(b) When all of the work to be done at the job site has been completed if your contract calls for work at more than one job site.

(c) When that part of the work done at a job site has been put to its intended use by any person or organization other than another contractor or subcontractor working on the same project.

Work that may need service, maintenance, correction, repair or replacement, but which is otherwise complete, will be treated as completed.

b. Does not include "bodily injury" or "property damage" arising out of:

(1) The transportation of property, unless the injury or damage arises out of a condition in or on a vehicle not owned or operated by you, and that condition was created by the "loading or unloading" of that vehicle by any insured; or

(2) The existence of tools, uninstalled equipment or abandoned or unused materials.

18. "Property damage" means:

a. Physical injury to tangible property, including all resulting loss of use of that property. All such loss of use shall be deemed to occur at the time of the physical injury that caused it; or

b. Loss of use of tangible property that is not physically injured. All such loss of use shall be deemed to occur at the time of the "occurrence" that caused it.

With respect to the ownership, maintenance or use of "covered autos", property damage also includes "pollution cost or expense", but only to the extent that coverage exists under the "underlying insurance" or would have existed but for the exhaustion of the underlying limits.

For the purposes of this insurance, with respect to other than the ownership, maintenance or use of "covered autos", electronic data is not tangible property.

As used in this definition, electronic data means information, facts or programs stored as or on, created or used on, or transmitted to or from computer software (including systems and applications software), hard or floppy disks, CD-ROMs, tapes, drives, cells, data processing devices or any other media which are used with electronically controlled equipment.

19. "Retained limit" means the available limits of "underlying insurance" scheduled in the Declarations or the "self-insured retention", whichever applies.

20. "Self-insured retention" means the dollar amount listed in the Declarations that will be paid by the insured before this insurance becomes applicable only with respect to "occurrences" or offenses not covered by the "underlying insurance". The "self-insured retention" does not apply to "occurrences" or offenses which would have been covered by "underlying insurance" but for the exhaustion of applicable limits.

21. "Suit" means a civil proceeding in which damages because of "bodily injury", "property damage" or "personal and advertising injury" to which this insurance applies are alleged. "Suit" includes:

a. An arbitration proceeding in which such damages are claimed and to which the insured must submit or does submit with our consent; or

DocuSign Envelope ID: 02A0ADDC-2CE3-4A7A-B481-39596B1D545C

b. Any other alternative dispute resolution proceeding in which such damages are claimed and to which the insured submits with our consent or the "underlying insurer's" consent.

22. "Temporary worker" means a person who is furnished to you to substitute for a permanent "employee" on leave or to meet seasonal or short-term workload conditions.

23. 25. "Underlying insurer" means any insurer who provides any policy of insurance listed in the Schedule of "underlying insurance".

26. "Volunteer worker" means a person who is not your "employee", and who donates his or her work and acts at the direction of and within the scope of duties determined by you, and is not paid a fee, salary or other compensation by you or anyone else for their work performed for you.

a. Means:

(1) Any goods or products, other than real property, manufactured, sold, handled, distributed or disposed of by:

(a) You;

(b) Others trading under your name; or

28. "Your work":

a. Means:

(1) Work or operations performed by you or on your behalf; and

(2) Materials, parts or equipment furnished in connection with such work or operations.

b. Includes:

(1) Warranties or representations made at any time with respect to the fitness, quality, durability, performance or use of "your work"; and

Activity Implementation

Lekotek facilitates learning and inclusion by creating an environment where all children can be successful. Using toys, technology, and adaptations, children benefiting from Lekotek services reach developmental goals, build self-esteem and become active members of their families, schools, and communities. Program services and accomplishments are listed below:

- Play/Learning Sessions - Each month, families come to Lekotek for an individual, hour-long session with their Lekotek Leader. The Lekotek Leader introduces selected adapted toys, educational materials, iPad, and computer applications to meet the child's individual needs. Adaptations can range from low-tech solutions like puzzles with knobs to high-tech devices like computer Eye Gaze Systems. At the end of each session, families take home materials to continue to use until their next visit where new toys and technology are introduced and loaned.

- Home Visits - Occasionally, we have families with medically fragile children who are unable to attend our centers. Lekotek Leaders adapt the play environment either virtually via Zoom or at the child's home, to provide engaging activities that may not otherwise be possible. During COVID, home visits to children who are medically fragile were suspended. They have now resumed. Home visits bring a world a play of learning to the child and resources to the family.
- Technology Evaluations - Lekotek conducts technology evaluations to determine how best a child with disabilities can access iPad and computer technology and all its benefits, whether for school or personal use. Examples of adaptations can be as simple as programming menus on iPads, so children who are nonverbal can order their favorite meals independently, or they can be as complex as an PCEye Eye Gaze System for those with limited mobility. This system uses a camera attached to a computer monitor to track the child's pupils. Just by looking, the child can direct the cursor and use a computer. Evaluations explore all options to include children with disabilities in everyday activities.
- Toy, Computer + iPad Loaning - Lekotek centers each have a “play libraries” complete with toys and games to meet a wide range of needs and interests. Additionally, as individuals and businesses upgrade computers, Lekotek receives donated systems. Approximately 200 computer systems and 20 iPads with developmentally appropriate applications are on loan. Both toys and computers can be outfitted with adapted input devices and software designed to meet the child's individual needs.
- LekoPals + Computer Club - Once children graduate from play/learning sessions, they can participate in computer club and LekoPals. Computer Club and Pals facilitate the development of friendships, learning, and recreation for adolescents, teens, and young adults with disabilities. Typical peers from Atlanta area high schools and colleges participate as peer mentors in activities such as computer use and video games, bowling, live stage productions, and movies. These programs foster socialization among older children, allowing them to bond over shared interests and hobbies.
- Play Dates - Play dates are small group play sessions offered throughout the year during school holidays and weekends at many of the Lekotek centers. Play dates allow additional opportunities for families to get together and socialize, while the children are supervised and occupied with fun, stimulating activities.
- Summer Computer Camp – Few summer options exist for children with disabilities. Lekotek Technology Camp caters to children aged 4-11 with disabilities, alongside their siblings and peers. Held for one week in June and one in July, this unique summer experience integrates computers, iPads and smart devices loaded with diverse software and apps, the SMARTboard, and an interactive sensory floor with traditional camp activities such as music, arts and crafts, and special guests. Camp activities enhance literacy, communication, fine motor, cognitive, and recreational skills. It promotes inclusivity by providing an environment where children with and without disabilities can play together and thrive.
- Support Groups - Lekotek programs are unique in that they involve whole family participation. Every other month, Lekotek staff lead monthly support groups both for parents and siblings. Parent Support Groups bring together parents of children with disabilities to connect and share resources. These groups are offered virtually and often include community guest speakers to present on various topics. The Sibling Support Group - Sibshop - allows siblings of children with disabilities to connect, socialize, and share experiences. Lekotek is proud to be a certified Sibshop, based on a program at the University of Washington in Seattle.
- LekoMusic Therapy + Happy Tails Pet Therapy - Music classes are conducted quarterly on Saturday mornings. Using various musical instruments, children learn to follow directions, take turns, and interact with others. Movement activities help strengthen motor skills, while music is a wonderful way to elicit language. Happy Tails Pet Therapy is a nonprofit that Lekotek has had a long-standing partnership since 1991. Happy Tails visits allow

our children with disabilities to groom, feed, walk, and simply touch the pets to diminish any fear. Research shows that pet therapy helps calm anxieties, facilitates social development, and enhances communication and cognitive abilities.

- Family/Community Events - Outside the center environment, Lekotek organizes community and family programs throughout the year that include rafting, fishing, professional sporting events, theater performances, the zoo, a pumpkin patch, and holiday parties. These events provide Lekotek families with experiences similar to those of any other family in the Atlanta area. With the support of Lekotek staff and necessary modifications, children and families feel supported in community settings, making outings less intimidating. As participation continues to grow, the range of programs offered expands each year, enriching the lives of more families.

Key Performance Indicators

Lekotek's mission and programs align with objectives from Key Performance Indicators 2, 3, and 4.

KPI 2-Prevent health disparities by educating residents and connecting them to available resources

Lekotek works to prevent health disparities by educating residents and connecting them to available community resources including home health agencies, medical and therapy agencies as well as other nonprofits specializing in disability-related services. Additionally, Lekotek improves the County's standing in the County Health Rankings and Roadmaps report specific to social associations with professionals, therapists, students, and other social service organizations to further support families in areas outside of Lekotek's knowledge base.

*Please note that the "Improve the County's standing in the County Health Rankings and Roadmaps report" was not eligible for "saving" from the drop down and N/A was selected as this was the only option to "save".

KPI 3-Help residents realize their educational potential through our community services and library programs

Lekotek influences the literacy objective. Although we do not measure reading skills or graduation rates, many of the websites, software programs, and iPad applications we use help children develop communication, literacy, and cognitive skills as they make academic progress.

KPI 4-Support the vulnerable residents in our social services

Lekotek's mission is to provide community-based services to children with disabilities and their families. The goal of community programs is for families to feel comfortable in the community having a support system that adapts and modifies to meet the needs of their children. Lekotek's community programs help children with disabilities reach their fullest potential and to become as self-sufficient and independent as possible while simultaneously supporting families through connection and relationships with other families and resources.

CSP Funding Priorities

The primary service category that Lekotek aligns with is Disabilities, with specific focus on Priority 1, 2, 3 and 4.

Priority 1 – Early Intervention Services
Play/Learning Sessions are designed as early intervention programs for children birth-8 with disabilities. Sessions promote learning and skill development through play. Adapted toys and technology are our tools to meet a wide range of needs. Research shows that early intervention programs like Lekotek link to academic success.

DocuSign Envelope ID: 44A5E5AB-D07A-4A1C-9C8F-695BF33A4B64

Priority 2 – Afterschool, Weekend, Summer Programs + Family Supports
This includes Play Dates (small group play sessions), Happy Tails Pet Therapy, Music Therapy, Summer Camps, Family/Community Activities, and Support Groups. These activities promote social interaction, decrease isolation, develop interpersonal relationships, and promote inclusion.

Priority 3 – Educating/Training
Lekotek provides many opportunities for many typical community members to interact with, learn about and gain a better understanding of people with disabilities. All volunteers are required to go through disability awareness training and volunteer for programs indicated in Priority 2.

Priority 4 - Parent Support

Lekotek provides monthly parent support groups to provide connection, collaboration, and resources for caretakers of children with disabilities. Topics of discussion rotate each month and include financial support, respite services, home health, equipment, alternative social and recreation resources, etc.

Collaborative Partnerships

Lekotek partners with public and private organizations to help children with disabilities reach their fullest potential. Babies Can't Wait, Children's Healthcare of Atlanta, Georgia PINES, The Elaine Clark Center, Center for the Visually Impaired, Marcus Institute, FOCUS, Auditory Verbal Center, public and private schools and independent therapy groups all refer children to Lekotek, knowing they can benefit from our unique services. Lekotek staff are frequently asked to present to groups on adapted toys, technology, and inclusion techniques.

Additionally, Lekotek partners with local colleges and universities. These partnerships impact thousands of children with disabilities by creating new solutions that make a difference for children with disabilities. Lekotek guides and utilizes rehabilitation engineering students to create developmentally appropriate, accessible solutions. Our toy adapting workshops are offered annually for cohorts of 15-30 college students pursuing rehabilitation engineering and therapy domains. Below is how each educational partnership is making a difference:

- Georgia State University - Lekotek shows GSU students that incorporating communication devices/software in conjunction with play helps build speech and language skills. Lekotek shares knowledge and resources with students to use in their practices upon graduation.
- GA Tech - Lekotek identifies the child's needs GA Tech students design and fabricate materials to meet those identified needs. Solutions used in our programs are as unique as the individuals for whom they are created. Engaging students in these projects gives them a fuller understanding of functional differences and helps them become better designers and engineers.
- Brenau and Chattahoochee Tech – Lekotek educates OT students on the relevance of successful play in their future practices with children with disabilities, and methods by which they can make play inclusive and accessible. Through annual toy adapting workshops, OT students not only create their own toys to use in alternative settings but continue to grow in their skills through coursework and practice.

We are all committed to helping all children reach their fullest potential.

Explanation of Funding Details:

Administrative expenses include partial salary for Executive Director who manages the overall organization, oversees program staff, and provides some direct service.

Operational expenses include partial space rental and utilities for Atlanta, Alpharetta, and Southside centers and supplies for these programs. Office supplies include postage, printing, and copying costs.

Direct Service expenses include salary for Lekotek Leaders providing play/learning sessions, expenses for adapted toys, technology, and software programs used in sessions as well as materials loaned to families. Toys and technology are specially designed to meet the needs of children with a variety of disabilities and are important tools and equipment to facilitate play and learning for children with disabilities. Examples of some of the specialized equipment used are outlined below:

- Adapted switches (buttons) are used as an alternative to turning a toy on or off, to simulate the mouse click, or as a gaming controller. Switches come in varying shapes and styles and can be mounted to desktops or a child's wheelchair. They can also be Bluetooth/wireless connected depending on a child's physical abilities. These tools allow children to access traditionally enjoyed games, otherwise inaccessible.
- Tobii Dynavox PCEye is a form of Eye Gaze technology and comprises of a specialized camera attached to a computer monitor. The camera tracks a child's pupils, allowing the child to interact with a computer in place of a traditional mouse and keyboard. PCEye opens doors for children with limited physical mobility to play on the computer and allows for self-sufficiency to navigate the computer screens easier as well as nurtures confidence to independently make choices. Systems costs upwards of $900 per system without additional software programs.
- Computers with built-in touch windows are needed to help children unable to use a standard keyboard and mouse. The importance of incorporating touch technology offers a natural and direct interaction for children with limited dexterity and coordination. Touch-screen computers provide similar access for independence as the PCEye.
- Subscriptions to educational software programs such as Osmo, Look to Learn, Help Kidz Learn, Shining Learning, etc. allow Lekotek to remain on the cutting edge of evolving technologies. Lekotek uses software that caters to meet each child's individual needs.
- Adapted toys are versatile and interactive. Toys selected are developmentally appropriate for play/learning sessions and often include a multi-sensory experience through music, lights, or movement. Toys can often cost upwards of $100-$300 per unit.

Partial and full scholarships are also available to families in need. No family is denied participation in Lekotek programs due to their inability to pay. Many Lekotek families incur high medical and therapy expenses and to lessen the financial burden, Lekotek works with families to determine the level of assistance needed through scholarship support.

Methods + Goals

As part of Lekotek's strategic planning process service impacts and program outcomes are established by the Board. Measuring these goals is accomplished in two ways. A family survey is conducted annually to determine that Lekotek services are meeting the child and families' needs.

The survey analyzes the following:

- Percent of families who play together more often
- Percent of families who provide their child developmentally appropriate toys at home
- Percent of families who have acquired new skills to help their child learn through play
- Percent of families who have increased working knowledge of adapted toys, software, and technology
- Percent of children who have shown increased abilities such as cause and effect, academic, social and computer skills

DocuSign Envelope ID: 44A5E5AB-D07A-4A1C-9C8F-695BF33A4B64

- Percent of children who have increased self esteem
- Percent of families who have more information and knowledge of community resources
- Percent of families who feel more comfortable participating in community activities with their child

In addition, the child's Lekotek Leader also charts the child's progress following all play/learning sessions and activities the child has participated in. These notes on account include toys, games and systems used in the session, interactions with the materials as well as with others present in the session, materials loaned, and plans for the next month's session. While goals are not a specific measure for play/learning sessions, sessions may be influenced by goals that a child may be working on in alternative settings like school or therapy.

Milestones

The milestone goals that Lekotek routinely tracks are measured qualitatively with Lekotek Leader play/learning session observations documented in our database (NEON) for each child and quantitatively with a family survey (Constant Contact). The family survey is administered in the fall of each year and reported to the Board in January. Program adaptations are made at that time if necessary and new goals are established for the coming year.

Data Collection Tools

Lekotek uses an anonymous survey using the Constant Contact email marketing tool. The survey is sent to all active families through our database management system (NEON). The survey is sent with three reminders over a two-month period to ensure a robust response rate. Surveys may also be completed in-person at a play/learning sessions.

County Defined Performance Measures

1-Number of Persons with Diabilities (PWD) included in programs due to increased accessibility; physical environment, transportation, housing, alternative communications

Lekotek's mission revolves around fostering inclusive environments where every child can thrive. Our play/learning sessions are personalized to address the unique needs of each individual. No two needs are identical. For instance, a child with visual impairments may benefit from auditory software and specialized toys, while another with cerebral palsy, unable to operate a traditional keyboard or manipulate toys, might find success with computer adaptations or use of the PCEye System. Play/learning sessions are whole family focused and are structured to engage the whole family.

4-Number of persons without disabilities educated/trained to interact/work with Persons with Disabilities (PWD) in the workplace and in the community

Lekotek offers a diverse array of educational opportunities aimed at raising awareness and promoting inclusivity among individuals without disabilities. Many of our initiatives encourage collaboration between those with and without disabilities. High school and college volunteers from the Atlanta area serve as peer mentors in our Computer Clubs, Camps, and LekoPals programs. Lekotek Leaders frequently engage with teachers, therapists, and professionals, providing insights into adaptations and strategies for creating accessible play environments through presentations and personalized meetings. Additionally, our staff actively engage with various organizations and students to promote disability awareness training. Through our partnerships with local colleges and universities, Lekotek conducts toy adapting workshops and provides hands-on experiences for students pursuing careers in special education and allied therapies. These workshops often extend to parents, ensuring their involvement in the process of adapting toys for their children.

DocuSign Envelope ID: 44A5E5AB-D07A-4A1C-9C8F-695BF33A4B64

5-Number of support-advocacy groups held for caregiver/parents of youth and adults with disabilities / 6-Number of caregiver who received support

Lekotek offers invaluable support to children, empowering them to learn and flourish through our specialized services. Moreover, our comprehensive approach extends support to the entire family unit, including parents and siblings, who benefit from engaging in our enriching support groups and networking opportunities. Parents often express gratitude for our dedicated staff who not only provide resources but also share insightful strategies to navigate the complexities of caring for a family member with disabilities.

Identifying Specific Activities and Services that will be provided for Health and Wellness:

DocuSign Envelope ID: 790A6E1D-052E-4132-B3A5-12F40F6A1C0C

Using an integrated wellness approach, Rehab and Beyond combines physical and cognitive rehabilitation therapies, medical exercise, motivation and physician-backed health coaching to improve the quality of life for stroke, brain injury survivors, and people with other disabilities. These services are provided at a designated medical facility by licensed and certified providers at no cost. Our program bridges the recovery gap and transitions participants from patient to self-dependence.

Our programs and services have been expanded and enhanced to reflect a self-dependence model. Under this model, Rehab and Beyond first addresses the basic human need for neurological health and self-dependence that people who are stroke, brain injury survivors, and people with other disabilities. are experiencing, then provides a wide array of professional services to support the individual and address obstacles to self-dependence. This model recognizes those suffering from a stroke, brain injury, and spinal cord injury, is not a minor concern and seeks to provide support services to stroke and brain injury survivors beyond traditional methods.

Identifying how the activities and services will be accomplished:

Rehab and Beyond provides an initial evaluation and assessment of current conditions.

Initial Assessment:

The first step in any rehabilitation program is an assessment to evaluate the patient's overall physical and cognitive abilities. This assessment may include:

A medical history and physical examination

A neurological examination to assess motor skills, sensation, and reflexes

An assessment of the patient's communication and cognitive abilities

An evaluation of the patient's functional abilities, such as mobility, self-care, and activities of daily living.

A questionnaire containing goals and aspirations is given to the stroke, brain injury survivors, and people with other disabilities. to complete.

Goal Setting:

Based on the initial assessment, the rehabilitation team will work with the stroke survivor and their family to establish goals for rehabilitation. These goals should be specific, measurable, achievable, relevant, and time-bound (SMART). Examples of goals might include improving mobility, regaining the ability to speak, or returning to work or hobbies.

A proper therapy treatment plan, based on the needs of the survivor is implemented. During the extended therapy treatment plan, the survivors and caregivers are educated on day-to-day activities(outside of the therapy sessions) to perform that will reinforce the gains that are made in therapy. Survivors and caregivers are introduced to additional resources such as support groups that meet monthly, and equipment resources that provide needed medical equipment such as walkers, wheelchairs, canes, beds, prosthetics and orthotics. Rehab and Beyond will provide access to a community/ free therapy day that is held quarterly, at our clinic by licensed therapists in all areas such as physical therapy, occupational therapy, speech therapy, recreational therapy, and

rehab training. At this event, low-income uninsured, or underinsured stroke, brain injury survivors and people with other disabilities receive additional free therapy and education of care for survivors and caregivers by providing different fields of rehabilitation. A post-treatment progress report and questionnaire is implemented to ensure benchmarks.

In addition to having a documented evaluation performed on the patient, the patient will receive a start-up questionnaire at the beginning of the treatment plan, to address the area of improvement desired. For example, the patient's goal may be to walk better or change their clothing unassisted. The start-up questionnaire will help assist in finalizing the POC(the plan of care), specific to the patient's desires and needs. Following the final therapy session, which includes a post-therapy progress report, the patient will receive a post-treatment survey on their overall results and satisfaction with the program, so that we can assess qualitative feedback for continued growth and success in our program.

Asking for feedback from the people we serve has shifted power to this population. This helps us to increase our outreach and continue to better our programs and resources. The healthcare that we provide, in combination with needed resources, such as medical equipment, transportation, and caregiving is vital to the total rehabilitation of each participant.

Rehab and Beyond's Proposal addresses three Fulton County "Health and Human Services" Key Performance Indicator(s) (ref. pages 3-4 of CSP manual):

1. **Preventing health disparities by educating residents and connecting them to available resources:**

   In addition to being awarded the Indigent Rehabilitative Care program, the recipient and their caregiver/loved ones are automatically included in our total "community outreach". With our existing partnerships and relationships with medical facilities, organizations and individuals, Rehab and Beyond also provides access to resources, such as support groups, community events, post-incident education, and post-incident resources, for needed medical devices and equipment.

survivors receive free therapeutic services in the form of rehab training, physical therapy, speech therapy, occupational therapy, and/or recreational therapy.

Rehab and Beyond will serve patients of Fulton County in need by using an integrated wellness approach, Rehab and Beyond combines physical and cognitive rehabilitation therapies, medical exercise, motivation, and physician-backed health coaching to improve the quality of life for stroke and brain injury survivors. These services are provided at a designated medical facility by licensed and certified providers at no cost. Our program bridges the recovery gap and transitions participants from patient to self-dependence.

Rehab and Beyond provides an initial evaluation and assessment of current conditions. A questionnaire containing goals and aspirations is given to the stroke or brain injury survivor to complete. A proper therapy treatment plan, based on the needs of the survivor is implemented. During the extended therapy treatment plan, the survivors and caregivers are educated on day-to-day activities(outside of the therapy sessions) to perform that will reinforce the gains that are made in therapy. Survivors and caregivers are introduced to additional resources such as support groups that meet monthly, and equipment resources that provide needed medical equipment such as walkers, wheelchairs, canes, beds, prosthetics, and orthotics. Rehab and Beyond will provide access to a community/ free therapy day that is held quarterly, at our clinic by licensed therapists in all areas such as physical therapy, occupational therapy, speech therapy, recreational therapy, and rehab training. At this event, low-income uninsured or underinsured stroke and brain injury survivors receive additional free therapy and education of care for survivors and caregivers by providing different fields of rehabilitation.

Day of Rehab takes place once per quarter, every year(4 times per year). This event is held on a Saturday. This event features a live benefit concert, twice per year. From the hours of 10 am to 4 pm, we provide free therapy to uninsured or underinsured low-income stroke and brain injury survivors. This event is also a fundraiser. We raise funds to award extended treatment plans to needed stroke or brain injury survivors. This event takes place at our outpatient clinic located at 3983 Lavista Road Suite 128 Tucker, Georgia 30084. Providers from our clinic and providers from surrounding/partnering rehabilitation hospitals report to our facility, volunteer, and provide therapy in the form of physical therapy, occupational therapy, speech therapy, recreation therapy, and rehab training. Each therapy session that is provided, last anywhere from 45 minutes to 1 hour, per patient. A post-treatment progress report and questionnaire is implemented to ensure benchmarks.

Through Rehab and Beyond's, Indigent Rehabilitation Services, low-income, uninsured, or underinsured stroke and brain injury survivors receive free therapeutic services in the form of rehab training, physical therapy, speech therapy, occupational therapy, and/or recreational therapy. In addition to our staff and through our clinical partnership with Emory University School of Medicine, Department of Rehabilitation Medicine, and Division of Physical Therapy, licensed faculty/physical therapists and their accompanying physical therapy students provide therapy to this population at our designated clinic, during the week, and at our community events. In providing quality healthcare and educating the next generation of therapists, this partnership has become extremely valuable by increasing the availability of Indigent Healthcare services. Through our clinical partnership with Georgia State University Byrdine F. Lewis of Nursing and Health Professionals Occupational Therapy Division, licensed faculty/Occupational therapists and their accompanying occupational therapist students provide therapy and research studies available to stroke and brain injury survivors. In addition, Rehab and Beyond is an intern

site for these students in providing an Applied Learning Experience, while offering a robust team of providers to be available to our Indigent stroke and brain injury survivors.

In addition to being awarded the Indigent Rehabilitation Services program, the recipient and their caregiver/loved ones are automatically included in our total "community outreach". With our existing partnerships and relationships with medical facilities, organizations, and individuals, Rehab and Beyond also provides access to resources, such as support groups, community events, post-incident education, and post-incident resources, for needed medical devices and equipment. Our case manager takes attendance at each session and logs the attendance against the treatment plan developed specifically for each stroke and/or brain injury survivor. If the patient is falling behind in their participation, the case manager and/or director will reach out to the patient to develop a plan to get them back on track.

In addition to having a documented evaluation performed on the patient, the patient will receive a start-up questionnaire at the beginning of the treatment plan, to address the area of improvement desired. Following the final therapy session, which includes a post-therapy progress report, the patient will receive a post-treatment survey on their overall results and satisfaction with the program, so that we can assess qualitative feedback for continued growth and success in our program.

All services are provided at scheduled times throughout the week at our facility located in Tucker, Ga. Typically, a survivor will be provided therapeutic services for 1 to 4 months and Rehab and Beyond will continue to provide education, "Day of Rehab" (quarterly free therapy events) accessibility, and other resources after the extended treatment plan has been implemented.

ADMINISTRATIVE – $2,050 (4.1% of funds allocated) will be utilized in ADMINISTRATIVE COST: Administrative will facilitate details below:

In our Indigent Rehabilitative Care program, the expectation is that 80% of participants will obtain self-dependence abilities within 2 months. We also recognize that participation in the program imparts physical, cognitive, and educational skills that will benefit participants throughout their lives, so we expect participation at 90% of the scheduled therapy sessions. Our case manager takes attendance at each session and logs the attendance against the treatment plan developed specifically for each stroke and/or brain injury survivor. If the patient is falling behind in their participation, the case manager and/or director will reach out to the patient to develop a plan to get them back on track.

For example, a patient may temporarily lose sight of the value and importance of making all therapy appointments, to produce optimal progression. Hearing from staff members has been very effective with each patient staying consistent.

Qualitative Feedback from patients

In addition to having a documented evaluation performed on the patient, the patient will receive a start-up questionnaire at the beginning of the treatment plan, to address the area of improvement desired. For example, the patient's goal may be to walk better or change their clothing unassisted. The start-up questionnaire will help

assist in finalizing the POC(the plan of care), specific to the patient's desires and needs. Following the final therapy session, which includes a post-therapy progress report, the patient will receive a post-treatment survey on their overall results and satisfaction with the program, so that we can assess qualitative feedback for continued growth and success in our program.

Asking for feedback from the people we serve has shifted power to this population. This helps us to increase our outreach and continue to better our programs and resources. The healthcare that we provide, in combination with needed resources, such as medical equipment, transportation, and caregiving is vital to the total rehabilitation of each participant.

Rehab and Beyond's outreach to target Fulton County participants includes an active link on our website named "free therapy". Through this link, low-income, uninsured, or underinsured stroke and brain injury survivors will complete a form and be immediately added to our database of participants in need of therapy. We also have social media platforms, with stroke and brain injury survivors as the majority of followers. We have built an email list of participants who are part of this targeted population. Finally, our partnerships with local rehabilitation hospitals and support groups, allow us to further expose our services to this needed population.

OPERATIONAL cost: $0 (0% will be needed in operational costs). Direct services and Administrative costs(only) are needed in the function of the Indigent Rehabilitative Care program

Identifying the specific data collection tool(s)/ source(s) used to report progress on performance measures

Rehab and Beyond utilizes an EHR system. An Electronic Health Record (EHR) is an electronic version of a patients medical history, that is maintained by the provider over time, and may include all of the key administrative clinical data relevant to that persons care under a particular provider, including demographics, progress notes, problems, medications, vital signs, past medical history, immunizations, laboratory data and radiology reports The EHR automates access to information and has the potential to streamline the clinician's workflow. The EHR also has the ability to support other care-related activities directly or indirectly through various interfaces, including evidence-based decision support, quality management, and outcomes reporting.

EHRs are the next step in the continued progress of healthcare that can strengthen the relationship between patients and clinicians. The data, and the timeliness and availability of it, will enable providers of Rehab and Beyond to make better decisions and provide better care.

For example, the EHR can improve patient care by:

- **Reducing the incidence of medical error by improving the accuracy and clarity of medical records.**
- **Making the health information available, reducing duplication of tests, reducing delays in treatment, and patients well informed to make better decisions.**
- **Reducing medical errors by improving the accuracy and clarity of medical records.**

In addition to having a documented evaluation performed on the patient, the patient will receive a start-up questionnaire at the beginning of the treatment plan, to address the area of improvement desired. For example, the patient's goal may be to walk better or change their clothing unassisted. The start-up questionnaire will help assist in finalizing the POC(the plan of care), specific to the patient's desires and needs. Following the final therapy session, which includes a post-therapy progress report, the patient will receive a post-treatment survey on their overall results and satisfaction with the program, so that we can assess qualitative feedback for continued growth and success in our program.

Rehab and Beyond selects three County defined performance measures to report on during the contract period, as identified by the primary service category selected:

Approach and Design:

Summerhill Neighborhood Development Corporation, SNDC Healthy Living Initiative will provide services to **180** clients that reside in Fulton County, with CCSP funding.

Summerhill Neighborhood Development Corporation, will provide the following activities and services in Fulton County with CCSP funding:

Our approach and design stand out because we concentrate our efforts within a single area, aiming to uplift the entire community in one unified push. Collaborating with numerous non-profit and grassroots initiatives, we orchestrate events and initiatives to maximize their impact. Our overarching objective is to foster synergy within the community, ensuring that various efforts work together harmoniously to drive overall growth and transformation.

Through our experiences, we've learned that addressing singular outcomes often overlooks the complex realities individuals face. Helping a child improve reading skills may not translate to academic success if they lack proper nourishment. Similarly, providing food assistance to a struggling mother may prove pointless if she lacks the mental and emotional support to utilize it effectively. Recognizing the interconnectedness of issues, our role as community navigators is to adapt and expand our programming to address the multifaceted needs identified through data-driven analysis.

DocuSign Envelope ID: D080CEBA-571E-4CE2-84B0-ED6CC8987020

While the concept of wrap-around services is not new, our approach seeks to leverage it uniquely to mitigate the adverse effects of gentrification and redefine community engagement. We envision a community where diverse backgrounds converge to support one another across various domains, breaking down silos and fostering true diversity and equity. Central to this vision is our commitment to improving health outcomes and promoting overall well-being, recognizing that true community vitality stems from ensuring individuals are happy, healthy, and whole.

Approach and Design for SNDC Healthy Living Initiative:

1. Ongoing Initiatives:

a. Community Garden:

- Objective: Address food insecurity by promoting access to fresh produce and educating residents on sustainable gardening practices. Programming that promotes communty by bringing together people with the focus on increasing their mental wellness through community engagement.
- KPI: Percentage of residents experiencing food insecurity.
- Collaboration: Partnering with Good Food Green City and Food Well Alliance to provide educational workshops and resources on gardening and nutrition.

b. Summerhill Festival:

- Objective: Increase community engagement and wellness awareness through an annual festival offering health screenings and educational workshops.
- KPI: Number of residents with comorbidity accessing health screenings and services.
- Collaboration: Collaborate with healthcare providers, including Chris 180 and The Center for Black Women's Wellness, to offer health screenings and referrals on the spot.(Two additional partnerships that we are working on is with Grady Hospital and Piedmont Urgent Care. We recently partnered with them and Organized Neighbors of Summerhill to sponsor a fundraising run in the community and we have feel confident they will partner with us for upcoming health events. Additionally, Piedmont Urgent Care recently moved into the Summerhill Community and has expressed a desire for community outreach.)

c. Weekly Community Food Bank:

- Objective: Address food insecurity by providing a weekly distribution of nutritious food to residents in need.
- KPI: Percentage of residents experiencing food insecurity.
- Collaboration: We provide referrals to Chris 180 weekly based on our clients who come to the food bank.

d. Weekly Exercise "10 Again" Classes:

- Objective: Improve physical fitness and mental stimulation through weekly exercise classes incorporating language learning.
- KPI: Percentage of residents engaged in regular physical activity.
- Collaboration: We partner with the community coordinator for Atlanta Housing Authority to use their facilities and offer classes for the Seniors who live in their Georgia Avenue Development as well as in the area.

e. The Stitch it 2'em Classes:

- Objective: Enhance literacy and creativity skills in children aged 5-18 through sewing and fashion design classes.
- KPI: Percentage of children meeting target literacy levels.
- Collaboration: Colloborate with King middle to get recommendations for the program.

DocuSign Envelope ID: D080CEBA-571E-4CE2-84B0-ED6CC8987020

f. Financial Literacy Workshops:

- KPI: Percentage of residents with improved financial literacy.
- Collaboration: We have a working relationship with Chase Bank, and Center Parc Credit Union, both banking institutions in the communty, that come out to provide financial literacy workshops.

2. Collaborative Approach:

- Engagement Events: Host collaborative events such as health fairs and community workshops where residents can access multiple services and resources in one location.
- Cross-Program Promotion: Promote awareness and participation in each initiative through cross-program collaboration and joint marketing efforts.
- Resource Sharing: Share resources and expertise among collaborating organizations to maximize impact and efficiency in addressing community needs.
- Data Sharing and Evaluation: Establish mechanisms for data sharing and evaluation among collaborating partners to track progress towards KPIs and adjust strategies as needed.
- Community Involvement: Engage community members in the planning and implementation of initiatives to ensure their needs and preferences are addressed effectively.

experiencing extreme poverty to independent living through faith love and compassionate services. SafeHouse provides a holistic suite of services that both assist the individuals transitioning out of homelessness and preventing individuals from becoming homeless. The Fulton County CCSP funding priority that SafeHouse's programming will address is Homelessness.

SafeHouse plan to use Fulton County Consolidated Community Services Program (CCSP) funding to support 2 distinct homeless groups: 1) adult individuals and families and 2) youth and young adults. Description of activities proposed to serve each of these groups is described below.

Support for Adult Individuals and Families through Next Level

SafeHouse's Next Level Program is designed to provide a range of essential support services and guidance to those who are ready to take the necessary steps to advance to their full potential. Next Level helps those from all diverse backgrounds with getting ahead in employment, housing, and behavioral health (substance abuse & mental health wellness). This unique program employs a comprehensive approach in case management and assists program participants with elevating in areas of income, employment and housing, and behavioral health.

Next Level has been very successful in assisting individuals who are moving away from homelessness and toward self-sufficiency. It offers a comprehensive program that includes job-readiness training, intensive case management, spiritual counseling, customized workshops, transitional and permanent supportive housing assistance, referral to critical health services and follow-up care. To best serve our program participants including those funded by Fulton County CCSP funding, each participant will be assigned to a Case Manager who will do an assessment to determine eligibility and need. Staff will gather all necessary documents and if approved develop an ISP. The Individual Service Plan (ISP) for each participant will be specific to each their need. Short-term case management up to 90 days will be provided. CCSP funding will provide 10 unsheltered Fulton County Individuals and/or families with referral and support services including emergency housing at either emergency shelters or emergency housing such as hotels or motels. Case Managers will also ensure that critical health needs are addressed. Alternatively, we will provide rental assistance of up to $1200 for individuals or $1650 for families. Rental assistance is given to individuals and families for start-up costs, security deposits, and first month's rent on a case-by-case basis and is awarded at different percentages based on client's need. Rental assistance also can be provided to prevent homelessness.

Rapid rehousing assists individuals and families by providing sustainable initiatives for housing. SHO uses partnerships with property managers and property owners to locate housing for participants. Program participants also receive the support of a case manager who helps them develop an individualized service plan, assists them with budgeting, employment, and maintaining housing, and provides them with additional resources to ensure they remain housed. Case managers follow up with participants 30, 60, 90, and 120 days after the participant's case has been housed to ensure they are on track to succeed. Individuals typically receive rapid rehousing support in conjunction with their participation in the Next Level career

DocuSign Envelope ID: 89B49DA2-B6EE-4881-B171-8FC0FA0B74BA

development program. SHO has provided rental/mortgage and utility assistance for clients for the past 10 years. During the COVID-19 pandemic, SHO partnered with The City of Atlanta and United Way to help over 500 City of Atlanta residents remain housed.

Success metrics for these SafeHouse programs include: the number of meals served, number of support services rendered, number of individuals receiving rental assistance (instances of homelessness prevented) number of individuals placed in rapid rehousing, number of individuals placed in permanent housing, number of individuals completing the Next Level program, number of individuals placed in permanent employment, number of individuals retaining employment for 30, 60 and 90 days, number of individuals earning a living wage greater than $14.00/hour.

Support to Homeless Youth

SafeHouse Youth Homeless Program (YHP) is a comprehensive initiative designed to address the needs of young individuals experiencing homelessness. It aims to provide support, resources, and opportunities to help homeless youth (age 18-24) transition out of homelessness, build stable lives, and achieve self-sufficiency. The program typically involves a collaborative effort among partner agencies such as Covenant House, Chris 180, and Lost and Found, community stakeholders, and volunteers.

SafeHouse Outreach provides financial support including rental and utilities assistance, referral to emergency and temporary housing, and case management and supportive services for the youth that we serve. Specific Additionally, we partner with other service providers to provide permanent housing that is appropriate for youth program participants. Additional detail on these support services is detailed below:

Outreach and Engagement: The program starts with actively reaching out to homeless youth in the community and engaging them in a non-judgmental and supportive manner. Through our Street Walk Program, outreach workers and volunteers work to build rapport, trust, and connections with the youth, encouraging them to access services.

Temporary Shelter and Housing: Providing immediate shelter and safe accommodation is crucial to address the immediate needs of homeless youth. We do this through our partnership with emergency shelters, transitional housing, or host homes with supportive families.

Basic Needs and Services: Ensuring that the basic needs of the youth are met is a priority. This includes access to nutritious meals, clean clothing, hygiene facilities, medical care, mental health support, and substance abuse counseling if needed.

Education and Employment Support: Offering educational resources to GED programs, vocational training, and job placement services to help homeless youth gain skills, find employment, and increase their chances of long-term stability.

DocuSign Envelope ID: 89B49DA2-B6EE-4881-B171-8FC0FA0B74BA

Mental Health and Counseling: Many homeless youths have experienced trauma and face mental health challenges. The program provides access to counseling and therapy to address these issues and foster emotional well-being.

Life Skills Training: Teaching essential life skills such as budgeting, time management, and conflict resolution helps youth develop the capabilities needed to lead independent lives.

Case Management: Each youth typically has a designated case manager who assesses their unique needs, creates an individualized service plan, and helps them navigate the program and other social services effectively.

Family Reconciliation (where possible): When appropriate and safe, efforts are made to reconnect homeless youth with their families and provide family counseling to resolve conflicts and establish a supportive environment.

Peer Support and Community Building: Engaging the youth in peer support groups and community-building activities fosters a sense of belonging and helps combat isolation.

Housing Assistance and Subsidies: Helping with both temporary housing and securing stable permanent housing, through rental subsidies or affordable housing options, is critical to preventing homelessness in the long term.

Follow-Up and Aftercare: Continuous support after exiting the program is essential for ensuring the youth's sustained success. Follow-up services and aftercare help monitor progress and provide additional support when necessary.

Advocacy and Policy: The program may engage in advocacy efforts to raise awareness of youth homelessness, work toward policy changes, and secure additional funding for homeless services.

SafeHouse will support 8 homeless youth using CCSP funding.

Our services align with Fulton County's "Health and Human Services" strategic priority areas, specifically the "Support the vulnerable residents in our social services," "Prevent illness by engaging in healthier behavior" and the "Prevent health disparities by educating residents and connecting them to available resources" strategic objectives. Unsheltered program participants receive referrals for behavioral health services and substance use treatment. (In 2024, 50% of the individuals SafeHouse served had a substance abuse disorder and 50% staff identified as mentally ill.)

The program also aligns with the Fulton County "Health and Human Services" strategic priority, specifically the "Support the vulnerable residents in our social services" strategic objective. Work completed through this program will both reduce the homeless population year to year and increase the number of people who receive permanent supportive housing and support services.

DocuSign Envelope ID: 89B49DA2-B6EE-4881-B171-8FC0FA0B74BA

The program addresses the CCSP Funding Category of Homelessness. They address outcomes and performance measures align with system performance measures outlined in the HEARTH Act (Homeless Emergency Assistance and Rapid Transition to Housing Act), and which support the County's commitment to making homelessness rare, brief, and nonrecurring by providing funding opportunities to nonprofit organizations to quickly rehouse homeless individuals and families. Individuals and families are serviced through emergency, transitional, and permanent housing programs.

In 2023, SafeHouse Outreach has maintained partnerships with Crossroads Ministry, Central Presbyterian, Midtown Assistance Center, Atlanta Union Mission, Gateway Center, The Salvation Army, Must Ministries, Zaban Paradise, City of Refuge, Mercy Care, Atlanta Continuum of Care (COC), Fulton County COC, DeKalb County COC, Inspire, Salvation Army Adult Rehabilitation Center and Community Restoration Project and Southeast Ecumenical Emergency Assistance Center. Housing collaborations are crucial to our ability to provide temporary and permanent housing to our clients. SHO has memoranda of agreement with Zaban Paradise to provide housing for couples, City of Refuge to provide housing for mothers, and children, the Salvation Army to provide housing for men, women and families, Similarly, the collaboration for the employment provide short term employment for our clients in the Next Level program while they are completing their training. SHO's employment partners include: The Ringer Center employment training program, CKS packing (providing direct employment), Mister Car Wash (providing direct employment), Mack 11 (providing direct employment), Graham Packaging (providing direct employment), Sanchez Staffing, Department of Labor, 1st Step Staffing and People Ready Staffing. Other partners provide wrap around support to clients as they seek to transition from homelessness to self-sufficiency. SHO also maintains a memorandum of agreement with Wholesome Wave for assistance with CAPS and SNAPS benefits.

The following program measures/ Key Performance Indicators ("KPI's") will be utilized to track and report program outcomes for the Fulton County residents supported with CSP funding, during the funding period 01/01/2024 through 12/31/2024:

SHO plans to report on the following four county-defined performance measures during the performance period:

- 3 individuals/youth will be placed into rapid rehousing (2 youth, 1 adult)
- Barriers to self-sufficiency will be reduced/eliminated for 10 individuals/families.

Agency Defined Performance Measure(s):

The goal of all SafeHouse programs is to reduce the number of homeless individuals in the metro Atlanta area by transitioning individuals who are homeless into self-sufficiency and by preventing those at high risk of homelessness from becoming homeless.

Some of the key performance measures that SHO uses to track their programs include: the number of meals served, number of support services rendered, number of individuals receiving rental assistance (instances of homelessness prevented) number of individuals placed in rapid rehousing, number of individuals placed in permanent housing, number of individuals completing the Next Level program, number of individuals placed in permanent employment, number of individuals retaining employment for 30, 60 and 90 days, number of individuals earning a living wage greater than $14.00/hour.

SHO plans to report on the following agency defined performance measures during the performance period:

- Number of individuals placed in employment after graduation
- Number of individuals placed in employment who retain employment after 90 days
- Number of individuals placed in employment who earn more than $14.00/ hour

During 2023, we anticipate: (based on 30 adult or family participants and 20 youth participants)

- 8 individuals will participate in career development programming

DocuSign Envelope ID: 89B49DA2-B6EE-4881-B171-8FC0FA0B74BA

- 6 individuals will be placed in permanent employment after they graduate from the Next Level
- 90% of program participants placed in employment will retain employment after 90 days
- 60% program participants placed in employment will earn more than $14.00/ hour

Daily data collection is part of SHO's case management process; outcomes are collected as part of the intake process and as clients continue to receive services. Data is summarized monthly while the client is active in the program. Once the client has received rental housing support, rapid rehousing or graduated the Next Level program, case managers continue to check in with them at the 30-, 60- and 90-day milestones at minimum to ensure that they remain housed and/or employed.

SHO already uses the Coordinated Entry process for Fulton County and the City of Atlanta. SHO staff also already utilizes the Fulton County or Atlanta Continuum of Care's Homeless Management Information System (HMIS). SHO Case Managers will use HMIS to collect program data for each individual and household participating in the program. Updated information is available in the system at the end of each business day. Fulton County can access the online information directly through HMIS or the SafeHouse Outreach Program Director can prepare and submit any necessary written reports as requested.

DocuSign Envelope ID: 07160343-C831-4C59-B2C1-CCA6A1A86A68

The Scholarship Academy will use the following data collection methods and resources to evaluate our program:

1. Course/Event Sign-In Sheets and online Virtual Scholarship Center registrations: These tools will help us track increased numbers of students participating in our financial aid courses and virtual events, as well as increased usage of our online curriculum.

2. Qualitative Interviews: We use student journaling exercises and short-interviews post-class to explore ways that we can tailor our curriculum activities to diverse student populations. In the same fashion, we rely on direct student feedback to guide upgrades to the user experience of our online scholarship portal, The Virtual Scholarship Center.

3. Pre/Post Surveys and Quizzes for Students, Counselors and Volunteers: Using our financial aid comprehension quizzes and pre-post surveys, we can capture whether students have increased their knowledge of core financial aid concepts. For Counselors, pre/post surveys enable us to capture key data related to healthy financial aid culture building behaviors such as early financial aid planning timelines, average number of hours, primary dissemination methods for financial aid info, and baseline financial aid outputs from the previous year (i.e. number of scholarship applications submitted.)

4. Performance Data for Students, Counselors and Volunteers (via our Virtual Scholarship Center tool): In addition to student participation rates, we can use our backend tracking system within the Virtual Scholarship Center, to monitor the following information for students, scholarship application submission rates, total scholarships awarded (by demographics), and percent of curriculum modules completed.

Keeping in line with our Key Performance Indicators, our agency has identified the following performance measures:

1. **Increased number of low-income students who complete FAFSA applications.**
   How Much: 200 Students/families participate in the FAFSA Submission Initiative
   How Well: 80% of the students will be equipped with step-by-step resources to submit early FAFSA applications
   Better Off: 70% of students complete a FAFSA application on-site (in-person and virtually)

Project Goal: 200 students complete the FAFSA early and reduce their overall student loan debt by an average of $5000 to support matriculation and obtain a credential.

2. **Increased financial aid confidence for low-income/first generation students and parents.**
   How Much We Do: 100 Number of students who participate in financial aid planning sessions

Approach and Design:

Our House, Inc., Interrelated Services for Families Experiencing Homelessness will provide services to **749** clients that reside in Fulton County, with CCSP funding.

Our House, Inc., will provide the following activities and services in Fulton County with CCSP funding:

Approach and Design Overview

We employ a trauma-informed, comprehensive, community-based approach to service to ensure that the critical needs of Fulton County families experiencing or at risk of homelessness are addressed efficiently and effectively. With a focus on the CCSP service category of Homelessness, Our House will deliver interrelated services to families of children with young children experiencing homelessness or economic disadvantage to end the cycle of homelessness for families. Our interrelated programming fits within Fulton County's Homelessness service category to make homelessness in Fulton County rare, brief, and nonrecurring. The CCSP funding priorities that our activities and services will support are: Rapid Re-Housing, Homeless Prevention and Awareness, Transitional Housing, and Emergency Financial

DocuSign Envelope ID: 92B01450-6E1F-45B1-AB69-E36453C157E1

Assistance. To achieve our goals of providing wraparound support to help families encountering homelessness achieve lasting security and preparing children facing homelessness for success in kindergarten, we will provide high-quality housing services, healthcare, early childhood education, employment training, and case management to empower clients to become self-sufficient.

Activities and Services

Shelter Activities

To address the County's Homelessness funding priority of Transitional Housing, our shelter program offers up to six months of temporary shelter to families with young children experiencing homelessness, many of whom are fleeing domestic violence and/or experiencing mental health illness. The activities of our shelter program address the following HHS KPIs: percentage of residents who experience food insecurity, number of people who receive behavioral health services, and percentage change in the homeless population year to year.

Our House will provide shelter and supportive services to help Fulton-residing clients meet the basic needs of shelter, food, and supplies. Of the clients served in our shelter, we estimate that more than 7% of families are survivors of domestic violence and more than 12% of parents are experiencing mental illness. We suspect that these percentages are actually higher, but clients are often unwilling to disclose this information at intake or are unaware that their circumstances constitute domestic violence. In the past year we have seen an uptick in mental health illness experienced by our shelter residents.

Our House provides a daily maximum of 18 total families (or 60 individuals) with up to six months of emergency housing in a safe, clean, and caring environment specifically designed for families with newborns and young children. Children and parents stay at our shelter for an average length of 4.5 months, with most exiting to permanent housing. Our shelter program operates 24 hours, 7 days a week, 365 days a year. Families are provided with private family bedrooms with sinks, closets, changing tables, cribs, and storage space; a laundry room with scheduled times for each family; daily nutritious meals prepared in an industrial kitchen and served in a large cafeteria; a computer lab with internet access; and a large common room for children and families to interact during evening hours. Family advocates provide all resident families with a comprehensive bi-weekly fulfillment of household and personal care items and infant care supplies (diapers, wipes, baby clothes, etc.) so that families can focus their financial resources on achieving self-sufficiency. Through integration with our other interrelated programs, shelter residents have access to onsite case management, childcare, healthcare, and job training to help them overcome homelessness. Family advocates assist residents with housing placement, goal setting, budget development, financial management planning, access to mental healthcare, and referrals through their Family Advocate. Hands-on life skills training, which helps families successfully maintain permanent housing, is incorporated into the shelter experience.

Rapid Re-Housing Activities

DocuSign Envelope ID: 92B01450-6E1F-45B1-AB69-E36453C157E1

Our rapid rehousing program quickly moves families experiencing homelessness to permanent housing through relocation and stabilization as well as rental assistance, addressing the County's Homelessness funding priority of Rapid Re-Housing. Our rapid rehousing also addresses the Homelessness funding priority of Emergency Financial Assistance—we support rapid rehousing clients with supportive case management and rent, utility, and mortgage financial assistance. The activities of our rapid rehousing program are relevant to the HHS KPI of percentage change in the homeless population year to year.

Our House's rapid rehousing will serve Fulton County unhoused families with children, nearly unhoused families with children, and unhoused youth and young adults (with or without children). The program will primarily serve families in need of emergency financial assistance for rent, utilities, and mortgage, ultimately helping clients overcome short-term barriers to obtaining and maintaining permanent housing stability. Per HUD guidelines, Our House focuses its rapid rehousing activities on housing identification, move-in and rental assistance, and case management for program delivery and implementation. We use existing community resources and relationships with landlords and property managers to: identify housing; assign Family Advocates; secure short-term supports (moving fees, deposits, rent, etc.); and provide up to one year of case management to help families maintain stability and achieve self-sufficiency.

We can attest that we participate in the coordinated entry process for Fulton and the City of Atlanta, and we use HMIS. Outreach and assessment steps include: reaching out to clients once receiving coordinated entry information; requesting documentation; exploring barriers to housing; addressing barriers through case management to identify available housing solutions; and making referrals for mental and physical health care, childcare, transportation, and employment. As a rule of thumb, Our House tries to go through this process—outreach to housing—within 45 days.

Healthcare Activities

To advance the Fulton County funding priority of Homeless Prevention, Our House's healthcare will strategically serve medically underserved Fulton County families and individuals at several locations across metro Atlanta. The activities of our healthcare contribute to the following HHS KPIs: the number of newly diagnosed STD cases per 100,000 residents, the number of new HIV diagnoses per 100,000 residents, the number of Fulton County residents who receive a flu vaccine, the number of people who receive behavioral health services, improving the County's standing in the County Health Rankings and Roadmaps report, and percent change in the homeless population year to year.

We will provide low-barrier access to equitable, excellent healthcare for Fulton County residents experiencing or at risk of homelessness. Our healthcare adheres to a nursing model—a model that keeps patients at the center of personalized, equitable care. The program employs a shared-decision-making approach to provide the highest quality care, promote whole-person well-being, and focus on preventative services. Open to walk-ins and offering flexible eligibility screening for better accessibility, Our House Health provides clinical services from four locations to better meet families wherever they are geographically. The clinic treats each patient with respect, fosters an inclusive environment where

DocuSign Envelope ID: 92B01450-6E1F-45B1-AB69-E36453C157E1

appointments are not rushed, and prioritizes the personalized care that patients deserve. As a transitional medical home, Our House Health cares for patients' needs while working hard to transition clients to a trustworthy permanent medical home.

Our community healthcare focuses on reproductive, pediatric, preventive, and mental care and addresses the social drivers of health through care coordination. Clinical services include: immunizations; vaccinations; screenings; health education; well-child visits; same-day sick visits; adult health exams; mental health services; family planning; STI testing & treatment; HPV vaccines and testing; HIV testing and counseling; on-site bloodwork; care coordination; medication and transportation assistance; access to language interpreters; and referrals for vision, dental, emergency care, and specialty care.

Early Childhood Education Activities

Also relevant to the Homeless Prevention funding priority, Our House's Early Childhood Education (ECE) program strategically tackles a root cause of homelessness by nurturing the childhood development of young children. This systems-approach method lowers the likelihood that the vicious cycle of homelessness is perpetuated for the children we serve. The activities of our ECE address the following HHS KPIs: number of residents who experience food insecurity, percentage of students over achieving each year, and percentage change in the homeless population year to year.

Our House will provide free, nationally accredited Early Childhood Education (ECE) five days per week to Fulton-County-residing children experiencing homelessness aged six weeks to five years old. Our ECE activities are designed to nurture the physical, cognitive, language/pre-literacy, and social-emotional development of young children. The year-round, full-day early learning program alleviates the adverse effects of homelessness on children and provides safe, reliable childcare for parents experiencing homelessness. Our early learning services are available from three ECE locations to better meet families wherever they are geographically.

All our activities in this program are geared toward ensuring children are ready to succeed in kindergarten. In doing so, we advance literacy in Fulton County by increasing the likelihood that children impacted by poverty learn to read on time and finish high school on time in the future. As a Head Start/Early Head Start partner, our ECE program administers a calendar of developmental assessments to measure children's growth and guide individualized instruction. When a child is identified as having a developmental delay, the family is provided onsite intervention services or referred to an outside agency for further assessment. We also make sure that our ECE students are up to date on their immunizations and that they receive regular wellness check-ups.

Employment Training Activities

Another Our House program that contributes to the CCSP funding priority of Homeless Prevention is our employment training, offered to not only adults experiencing homelessness but also those who are at risk

DocuSign Envelope ID: 92B01450-6E1F-45B1-AB69-E36453C157E1

of homelessness. Keeping in mind a major component of our employment training is the Child Development Associate program that develops a strong pipeline of ECE staff talent, the activities of our employment training address the HHS KPIs of: percentage of students over achieving each year and percentage change in the homeless population year to year.

Through our employment training services, which includes the Child Development Associate (CDA) program, Our House provides the tools, resources, and education necessary for parents experiencing homelessness to overcome systemic barriers to improve their employment, marketability, and outcomes. We will provide supportive employment training to Fulton County residents experiencing or at risk of homelessness. Those who engage in our workforce development have access to case management, training referrals, financial literacy workshops, life skills development, resume building, and the CDA program.

For interested parents, Our House provides our Child Development Associate (CDA) Certification course that prepares participants to earn a national credential in early childhood education. The CDA program is a five-month job-training program that equips participants with field-specific knowledge of early childhood development. The program prepares students to take and pass the exam for the nationally recognized CDA credential, the minimum requirement for lead teachers in the state of Georgia. We conduct two cycles of the program each year and enroll around 20-25 total students in each cycle. Participants receive a stipend for their internship work and a $425 scholarship to cover the cost of the CDA exam. At their assigned early childcare learning sites, interns gain practical experience while applying concepts and strategies learned in the classroom, and many interns are offered full-time employment at their internship site before they have even graduated.

Family Advocacy Activities

Our Family Advocacy contributes to the CCSP funding priority of Emergency Financial Assistance supported by case management and other supportive services. All of Our House's human services programs include family advocacy alongside the free services and financial assistance we offer. The activities of our case management are directly relevant to the HHS KPI of percentage change in the homeless population year to year.

We will offer comprehensive, individualized case management and support services to provide guidance and resources that empower Fulton County families experiencing homelessness to achieve employment, housing, and financial stability. Our family advocates work regularly with families to set individualized goals and action planning. As applicable, family advocates provide connections to employment and job training opportunities, healthcare and mental health counseling, housing support, free personal and infant care supplies, and food and transportation assistance. Staff members are trauma-informed and work to build rapport with clients over time through consistent, positive, non-judgmental interactions.

DocuSign Envelope ID: 92B01450-6E1F-45B1-AB69-E36453C157E1

Family advocacy is the thread that weaves together our core programs. Our effective case management connects clients to both our interrelated services and external resources through referrals. To prevent homelessness for vulnerable children and adults who are economically disadvantaged, our shelter, rapid rehousing, healthcare, early childhood education, workforce development, and family advocacy programs are open to not only those currently experiencing homelessness, but also those with a qualifying low income. This latter population is at high risk for experiencing homelessness, so Our House comes alongside these clients with supportive, holistic programming and case management that strengthens security and health for the whole family.

Community Collaborations

To contribute to making homelessness rare, brief, and nonrecurring, Our House consistently joins forces with many partner organizations. While not a comprehensive list, here are several of our key partners. The ECE program is an Early Head Start and Head Start partner with Bright from the Start and Easter Seals North Georgia. These partners provide assistance, teacher training, and help for children with special needs. The Adaptive Learning Center provides onsite behavioral intervention services for children identified with developmental delays/disabilities. Atlanta Children's Museum, our STEAM partner, provides monthly hands-on activities in person and virtually for our children to learn about the world and how it works. We also work with Quality Care for Children to provide additional training and coaching for language and literacy within our classrooms. This program provides curriculum-based language, literacy, and enrichment activities, as well as volunteers to help in classrooms throughout the week. We partner with Jumpstart Atlanta, which also provides volunteers to support language and literacy. Our House Health and CHRIS 180 deliver mental health consultations and services to families coping with the trauma of homelessness, as well as training Our House staff in the trauma-informed care approach.

Our House has developed a collaborative network with various housing programs to meet the needs of families experiencing homelessness. Our House participates in the Continua of Care serving Fulton County, the City of Atlanta, and DeKalb County. Many of the families arriving at Our House do so through a formal referral process from one of our local housing partners, including Nicholas House, City of Refuge, Hagar's House, Jerusalem House, International Women's House, and Partnership Against Domestic Violence.

The following program measures/ Key Performance Indicators ("KPI's") will be utilized to track and report program outcomes for the Fulton County residents supported with CSP funding, during the funding period 01/01/2024 through 12/31/2024:

County-Defined Performance Measures

In pursuit of our mutual goal with Fulton County to contribute to making homelessness brief, rare, and nonrecurring, Our House proposes following these three County-defined performance measures that align with our primary CCSP service category of Homelessness:

1. number of individuals assisted through rapid re-housing,
2. number of individuals placed in Transitional Housing, and
3. number of individuals whose barriers to self-sufficiency are eliminated/reduced; paths to self-sufficiency created.

The three specific goals to obtained during the 2024 Fulton County CCSP grant period (January 1—December 31, 2024) are as follows, in reference to Fulton County-residing clients:

1. 50 individuals assisted through rapid re-housing,
2. 15 individuals placed in Transitional Housing, and
3. 749 individuals whose barriers to self-sufficiency are eliminated/reduced; paths to self-sufficiency are created.

Methods and Goals:

The key elements of our methodology in achieving our selected County-defined performance measures are summarized below. (Please reference our Executive Summary and our Approach and Design sections for more information on our service methodology.)

- Perform outreach and assessment for prospective/new clients

DocuSign Envelope ID: 92B01450-6E1F-45B1-AB69-E36453C157E1

- Participate in the Continuum of Care network and employ HMIS

- Provide financial assistance and support for rapid rehousing clients

- Manage shelter facilities and daily shelter program operations

- Provide responsive case management and care coordination

The goals to be obtained as a result of all proposed performance measures, both County- and agency-defined, are as follows:

- Support vulnerable Fulton County residents with supportive interrelated services and wraparound care

- Help make homelessness rare, brief, and nonrecurring through transformative care to end the cycle of homelessness for families

- Lower the percentage of those facing homelessness in the community

- Enable adults experiencing homelessness to achieve housing, employment, and lasting self-sufficiency

- Prepare children experiencing homelessness for success in kindergarten

- Promote a self-sufficient and healthy family for all our clients

- Contribute to homelessness prevention and awareness through our interrelated programming and community engagement

Evaluation Methods and Data Collection Tools

Our House will measure and evaluate our progress on the proposed County-defined and agency-defined performance measures throughout the Fulton County CCSP grant cycle. To do this, staff members will collect, input, and analyze data using two software tools. For our human services programming (housing services, ECE, workforce development, and family advocacy), we use Penelope software to document our metrics. For our healthcare programming, we utilize an Electronic Health Record system, ATHENA, to gather clinic data. Patient and provider records are maintained for each individual visit in the form of Electronic Health Record encounters that include visit information, problem lists, and health maintenance schedules. Selected for their discipline-specific capabilities, Penelope and ATHENA software allow for appropriate, specialized, and adequate data collection and evaluation methods. To fully leverage these software programs, Our House employs several experienced staff members who are dedicated to utilizing these tools with excellence, tracking all proposed grant outcomes, and reporting on grant activities. The Penelope and ATHENA data software are also imperative to setting realistic, evidence-based goals for each programmatic year and every grant proposal, including our Fulton County CCSP request. These dashboards are also used throughout each year to gauge momentum toward program/grant objectives and adjust each department’s approach as needed. Staff gather via monthly departmental meetings where leadership and staff collaborate to determine program strengths, growth areas, best practices, existing data trends, and check for data quality assurance.

More specifically, we will track progress on the three proposed County-defined performance measures by maintaining thorough Penelope records of how many Fulton County children and adults are assisted through our rapid re-housing, maintaining thorough Penelope records of how many Fulton County children and adults are served through our shelter program, and maintaining thorough Penelope and ATHENA records of how many Fulton County individuals were

served. All of Our House's programming contributes to eliminating barriers to self-sufficiency and creating paths to self-sufficiency.

Milestones and Supporting Schedule

Most of Our House's programmatic activities—for housing services, healthcare, ECE, employment training, and family advocacy—are ongoing throughout the year and remain responsive to each client's unique needs and each family's timeline of engagement at Our House. Because each family has particular needs, circumstances, goals, and timing of enrollment, we work with clients on a timeline that fits their needs. For both our proposed County-defined and agency-defined performance measures, the few scheduled or regular milestones are listed in the supporting schedule below:

· ECE Staff Professional Development: typically scheduled for one day each in January, February, and October, and for a full week in August

· ECE Summer Transition Program: conducted each summer

· ECE Student Developmental Assessments: completed upon each student's enrollment and regularly throughout the school year

· Kindergarten Readiness Test: administered in May for graduating pre-K students

· CDA Program Cohorts: conducted twice per year (as a five-week program), in the spring and fall

· Planning Program Logic Models (Projected Outcomes): developed each spring for the upcoming fiscal year's Logic Models

· Halfway Point in Fiscal Year Check-In Meetings: completed in January or February when staff meet to discuss and evaluate progress on yearly outcomes, discuss best practices, check for data quality assurance

· Start of Our House's Next Fiscal Year: marked by July 1, 2024, the starting point of our FY25, which means staff begin working toward adjusted Logic Model outcomes in addition to the outcomes listed for any active grant contracts

· Departmental Meetings: completed each month to evaluate progress, discuss best practices, and check for data quality assurance

Agency Defined Performance Measure(s):

Agency-Defined Performance Measures and Goals

In addition to the above listed County-defined performance measures, Our House proposes following these three agency-defined performance measures that align with our primary CCSP service category of Homelessness. Please

DocuSign Envelope ID: 92B01450-6E1F-45B1-AB69-E36453C157E1

note that these measures contribute to mitigating the adverse effects of homelessness, ending the cycle of homelessness for families, and preventing homelessness through our holistic, one-stop shop approach:

1. percentage of Fulton County children served in our ECE who receive individualized care through individualized lesson plans during the 2024 calendar year,
2. percentage of Fulton County adult CDA program participants who graduate from the program and obtain their credential during the 2024 calendar year, and
3. percentage of Fulton County clients aged 12 and up who receive a depression screening during the 2024 calendar year.

The three specific goals to obtained during the 2024 Fulton County CCSP grant period (January 1—December 31, 2024) are as follows:

1. 100% of 100 Fulton County children served in our ECE will receive individualized care through individualized lesson plans during the 2024 calendar year.
2. 80% of 15 Fulton County adult CDA program participants will graduate from the program and obtain their credential during the 2024 calendar year.
3. 80% of 517 Fulton County clients ages 12 years and up will receive a depression screening during the 2024 calendar year.

Methods and Goals:

The key elements of our methodology in achieving our selected Agency-defined performance measures are summarized below. (Please reference our Executive Summary and our Approach and Design sections for more information on our service methodology.)

- Disseminate information about programming to raise awareness and boost enrollment

- Provide developmental screenings for ECE students and create individualized lesson plans

- Provide transportation assistance for current clients without reliable transportation, as applicable

- Perform and monitor daily clinic operations through walk-ins at co-located sites

- Provide responsive case management and care coordination

The goals to be obtained as a result of all proposed performance measures, both County- and agency-defined, are as follows:

- Support vulnerable Fulton County residents with supportive interrelated services and wraparound care

- Help make homelessness rare, brief, and nonrecurring through transformative care to end the cycle of homelessness for families

- Lower the percentage of those facing homelessness in the community

- Enable adults experiencing homelessness to achieve housing, employment, and lasting self-sufficiency

- Prepare children experiencing homelessness for success in kindergarten

DocuSign Envelope ID: 92B01450-6E1F-45B1-AB69-E36453C157E1

- Promote a self-sufficient and healthy family for all our clients

- Contribute to homelessness prevention and awareness through our interrelated programming and community engagement

Evaluation Methods and Data Collection Tools

Using the Penelope and ATHENA software to regularly track and evaluate progress, as described in detail in the "Program Performance Measures" section above, we will track progress on the three proposed agency-defined performance measures. This will be done by maintaining thorough records of how many Fulton County children received individualized care/individualized lesson plans, tracking the number of Fulton County adult CDA program participants who graduate and obtain their credential, and keeping record of how many Fulton County clients ages 12 and up receive a depression screening. ECE teachers and staff, our CDA program director, and our healthcare team will contribute to data collection and evaluation for these measures.

PUSH Ministry Inc, will provide the following activities and services in Fulton County with CCSP funding:

Specific Activities and Services: The PUSH Ministry will offer supportive case management. PUSH Ministry offers a housing-first model, where we accept

DocuSign Envelope ID: 0F2E197F-2A89-4753-A25D-1F3DDA8716E4

residents for housing without a credit score minimum, or rental income minimum. We conduct background checks, and accept tenants with non-violent charges on their record. It is our goal to offer residents a lower barrier of entry to housing by offering the financial assistance that will allow them to afford residency at Wadley Gardens.

Accomplishment of Activities and Services: Services will be delivered through personalized case management to address individual barriers to housing stability, and coordination with local housing providers. Our organization currently works with Open Doors and Grady Medical Center to permanently house residents. It is our goal to assist other organizations like HOPE Atlanta, and referrals from organizations who have clients that need assistance with housing. The grant would go toward the hiring of on-site case management to address resident concerns as well as connect them with resources like food banks and wrap around services.

Addressing Fulton County Health and Human Services KPIs: The proposal aligns with the following KPIs:

1. Number of people who receive permanent supportive housing and support services: On-site case management ensures residents receive tailored support services. This approach not only places individuals in homes but also surrounds them with a support system to sustain their housing situation.

2. Percentage change in the homeless population year to year: This program aims to reduce the number of people experiencing homelessness in Fulton County, contributing to a year-over-year decrease in the homeless population.

3. Number of residents who have access to home-based and community-based services for seniors and people with disabilities: On-site case management can link seniors and individuals with disabilities to essential services, improving their quality of life. This approach ensures these vulnerable groups have access to the support they need, from healthcare to social services, directly within their community.

CCSP Funding Priorities Alignment: The proposal addresses CCSP priorities within the primary service category of **Permanent Supportive Housing Options for Individuals Who are Chronically Homeless** by:

- Providing immediate case management to individuals ton help them move directly into available 2 bedroom apartments at Wadley Gardens.
- Offering services that contribute to the rapid re-housing of homeless individuals and families, following a housing first model.
- Enhancing access to supportive services that ensure long-term housing stability by providing on-site case management in addition to working with referring organizations for wrap around services.

Community Collaborative Relationships: PUSH Ministry currently collaborates with over seven community entities, including local governments, other non-profits, faith-based organizations, businesses, healthcare providers, educational institutions, and housing agencies, to comprehensively address the need for stable housing and support services.

Explanation of Funding Details:

Introduction

We are requesting a grant of $100,000 to support our rental assistance program, designed to aid individuals transitioning from homelessness, recent prison release, disability, and similar challenging backgrounds into stable housing. This program focuses on covering move-in fees, background checks, furniture, application fees, and eviction prevention, directly impacting our clients' ability to secure and maintain housing.

Budget Breakdown

- Direct Service Expenditures ($95,000 - 95%):
  - Rental Assistance: The bulk of our direct service funds will provide rental assistance, covering move-in fees and helping to prevent eviction. This is crucial for our clients who often come from situations where upfront costs and maintaining rent payments are significant barriers.
  - Background Checks and Application Fees: We will allocate funds to cover the costs of background checks and application fees. These are initial steps in securing housing, often prohibitive for our clients.
  - Furniture and Household Essentials: To ensure our clients not only secure housing but also can live comfortably, a portion of the funds will be used to provide essential household items and furniture.
  - Case Management and Support Services: A portion of the direct service funds will support salaries and benefits for direct service personnel, such as case managers, who are integral to guiding our clients through the housing process and ensuring their needs are met.

- Administrative Expenses ($5,000 - 5%):
  - This portion of the budget is allocated towards the administrative costs associated with running the program. It will cover salary, fringe benefits, and other related expenses for accountants, auditors, grant writers, and administrative support. These roles are essential for the effective management and oversight of the program, ensuring that funds are used efficiently and outcomes are achieved.

Operational Expenditures:
- While operational expenditures are critical to our organization's function, this grant request focuses on maximizing direct service expenditures. However, our operational costs, such as office supplies, utilities, and marketing, are covered

DocuSign Envelope ID: 0F2E197F-2A89-4753-A25D-1F3DDA8716E4

through other funding sources to ensure that the maximum possible amount of this grant can go directly to client services.

Conclusion

With 95% of the requested funds allocated to direct services, our program is designed to have a tangible, immediate impact on our clients' lives, offering them a pathway out of instability into secure, long-term housing. The administrative costs are kept to a strict maximum of 5%, ensuring that the bulk of the grant directly supports those in need. This budget allocation reflects our commitment to efficient and effective use of funds, with a clear focus on service delivery and impact.

Methods and Goals: PUSH Ministry's Homelessness Prevention Program will implement a rapid-response financial assistance program targeting individuals facing immediate financial crises that could lead to homelessness. This includes support for rent, utilities, and other urgent housing-related costs to prevent displacement; and place them immediately at the residences of Wadley Gardens.

Economic Stability/Poverty is the service category that we plan to address with funding from Fulton County's Community Services Program. Funding will be used to support our Homeless Prevention Program for rent and utility assistance. By serving as a temporary safety net, families are supported in their efforts to maintain self-sufficiency. Having an eviction on one's credit record causes hardship for many years and makes future leasing difficult preventing upward mobility. Our program increases economic stability of the families assisted and increases their ability to earn a living wage by providing the resources to maintain stability.

Midtown Assistance Center's rent assistance program supports the County's "Support the vulnerable residents in our social services" priority by eliminating the homeless experience for those assisted thus decreasing Fulton County's homelessness rate. Individuals and families that receive financial assistance from MAC also have access to our food pantry, which includes fresh produce, frozen meat, and non-perishable food items. Households in our service area (commission districts 3, 4, 6) are eligible for food assistance from our food pantry. Most individuals who receive financial assistance from MAC receive food assistance from our food pantry. This decreases the percentage of individuals and families who experience food insecurity. It also frees up available financial resources to be spent on basic needs other than food. Providing rent and utility assistance and food assistance to clients who are pregnant will lead to healthier births thus decreasing the percentage of live births with low birth-weight.

$47,500 of the $50,000 grant will be used for direct service - approximate breakdown of direct service follows. $38,000 (75%) will go towards past due rent and $9,500 (20%) will go to pay overdue utility bills. 30 households/ 60 individuals living in Fulton County commission districts 3, 4, and 6 will receive assistance with past due rent and/ or utility bills. Each household will also have access to our food pantry for food assistance. By assisting with a portion of rent for up to 2 months, the household's opportunity to stabilize will increase. The assistance with electric service increases an individual or family's ability to maintain their self-sufficiency. We propose that 80% of the households will remain housed for at least 3 months following assistance and 80% of the households will have electric service 90 days after assistance.

MAC is designed to provide true emergency assistance. MAC has embraced a hybrid model. MAC staff can work remotely and as well as in the MAC office serving clients directly five days a week. Clients can submit a help request via MAC’s website at www.midtownassistancecenter.org as well as call the Assistance Phone Line to speak to staff. The help requests are routed to staff and trained volunteers who then personally reach out to the person requesting assistance to determine eligibility. When screening by a staff member deems a client eligible for assistance, the process moves rapidly. During client intake, supportive documents are examined, and clients complete a budget to help with a future plan or road map. If everything is in order, checks are written to vendors (landlords/utility companies) that day. We often pay the full amount needed to prevent the eviction and to keep a utility connected. We always confirm with the landlord or utility company at the time of assistance that our assistance will guarantee 30 days of housing or utility service. When a client owes more than MAC can provide, we reach out to other community partners (such as St. Vincent de Paul or Fulton Atlanta Community Action Authority) to see if assistance is available to match our pledge. Our staff advises clients on practical ways to conserve energy and lower their electric, gas and water utilities. We look closely at reasonableness of expenses related to family size. We have found that assisting with a full month of rent or more when necessary is extremely beneficial for the client. These best practices work, and we have the evidence to prove the effectiveness of our program.

MAC is a lead agency in the Atlanta Regional Collaborative for Health Improvement (ARCHI) rental and utilty assistance program which includes a shared application for participating agencies. MAC works with the multiple chapters of the St. Vincent de Paul Society and BCM Georgia to provide rent and utility assistance in commission

DocuSign Envelope ID: C2C911C9-D330-42C6-B41E-86E1E3E0A687

districts 3, 4 and 6. When a household needs more than an organization can pay to stop an eviction, our staff will directly contact the partner serving the client's neighborhood to advocate for assistance. In return, the partner agency will reach out to our staff when they have encountered a client in a similar situation. MAC actively collaborates with Muriel Lokey Center (Emmaus House), Fulton Atlanta Community Action Authority, Society of St. Vincent de Paul, The Giving Kitchen and BCM Georgia when our service areas overlap to pool our resources for the benefit of individuals and families in need. MAC has a partnership with the Atlanta Community Food Bank and Midwest Food Bank, which results in free food to the community and reduction in food insecurity.

The following program measures/ Key Performance Indicators ("KPI's") will be utilized to track and report program outcomes for the Fulton County residents supported with CSP funding, during the funding period 01/01/2024 through 12/31/2024:

MAC will report on the following defined performance measures for Economic Stability/Poverty: Number of individuals receiving Emergency Financial Assistance. MAC will collect the number of individuals in each household served. These numbers will be compiled and reported to Fulton County throughout the grant cycle with final figures on the final report in January 2025.

Midtown Assistance Center (MAC) will evaluate the effectiveness of our program by doing follow up on clients whom we have helped with rent. 3 months after providing rental assistance, MAC will contact landlords to inquire the current housing status of the tenant. Are they still there, is the rent current, were they evicted, or did they move out in good standing? We anticipate 80% of households assisted with rent to be housed three months after assistance. 90 days after providing utility assistance, MAC will use the Georgia Power Agency Portal to assess if the client still has utility service connected, if the utility bill is current or if the utility service is off with or without a balance owed. We anticipate 80% of households assisted with utilities to have their utility connected three months after assistance. All of this information is compiled for our records and recorded in our internal database, Salesforce, to be used in evaluating the client's progress, need for further assistance and the success of MAC's Homeless Prevention Program. In order the meet Fulton County reporting deadlines, we will perform follow up after 3 months or 90 days of rent and utility assistance. All grant funds for rent and utility expenses will be spent by September 30, 2023 to meet this mark. This will allow us sufficient time to follow up with landlords, the Georgia Power Company (for electric assistance), and clients at the 90 day mark. MAC's follow-up schedule will be as follows: April: follow up on clients assisted with rent and/ or utilities in January; May: follow up on clients assisted with rent and/or utilities in February; June: follow up on clients assisted with rent and/or utilities in March; July: follow up on clients assisted with rent and/or utilities in April; August: follow up on clients assisted with rent and/or utilities in May; September: follow up on clients assisted with rent and/or utilities in June; October: follow up on clients assisted with rent and/or utilities in July; November: follow up on clients assisted with rent and/or utilities in August; December: follow up on clients assisted with rent and/or utilities in September. A final statistic of 80% of clients assisted with rent and/or utilities will be available at this time. We know we can achieve 80% of households remaining housed three months after receiving rental assistance because we have been tracking detailed rent follow up statistics on the grants assisted with Fulton County funding since 2010.

Eighty-seven percent (257 households) of the households assisted with rent from July 1, 2010 to June 30, 2011; July 1, 2012 to June 30, 2013; January 1, 2010 to December 31, 2015; and January 1, 2016 to July 30, 2016 were still housed 6 months after assistance. (This statistic is for clients assisted with funds from the Fulton County Human Services and Community Services Program.)

For CSP 2017 funding cycle, we changed to a 3 months follow up for rent and utility assistance.

Our defined anticipated agency measure of success is 80% still housed and 80% electric service still connected or closed in good standing.

DocuSign Envelope ID: C2C911C9-D330-42C6-B41E-86E1E3E0A687

· **January 1, 2018 - September 30, 2018:** 97% were still housed 3 months after assistance.

· **January 1, 2017 to September 30, 2017 and January 1, 2018 to June 30, 2018:** 95% of the households assisted with utilities (electric assistance) from were still connected or closed in good standing 3 months after assistance.

· **January 2022-September 2022:** 100% (36 out of 36) were still housed or left in good standing 3 months later. 96% (50 out of 52) still had their electricity connected 3 months later or accounts were closed in good standing.

· **January 2023-September 2023:** 100% (45 out of 45) were still housed or left in good standing 3 months later. 97% (77 out of 79) still had their electricity connected 3 months later or accounts were closed in good standing.

Agency Defined Performance Measure(s):

Our agency's defined reporting measures will be rent and utility follow up 3 months after assistance. Landlords will be contacted directly for client's housing status with a goal of 80% of households remaining housed 3 months after assistance. The Georgia Power Company's agency portal will be accessed at 90 days to determine the utility status of the client's account with a goal of 80% of households remaining with utilities connected 90 days after assistance. The numbers will be compiled and reported to Fulton County throughout the grant cycle with final figures on the final report in January 2025.

Activities and services

DocuSign Envelope ID: 4849EA48-6ECF-4FFC-A39E-25F47EB9A737

1. Identity and qualify homeless families via a community-wide coordinated intake & assessment process. We will take families from the streets, cars, and other agency emergency shelters.
2. Create, with the family, an Individualized Service Plan (ISP) that establishes a path from their current reality to self-sufficiency. The plan establishes goals, timelines, and action steps to overcome barriers to self-sufficiency, securing permanent housing, and obtaining the income and benefits to sustain the family. Case managers and families review their plans monthly and complete formal progress evaluations every 90 days.
3. Provide rapid housing to families experiencing homelessness that is aligned with the varying needs of each family. Housing options include:

a. Subsidized housing for homeless families with some income but not enough to cover the full rental rate. Families obtain a lease in their name and pay 30% of their income toward rent. Nicholas House provides a temporary subsidy to cover the rest of the rental rate and will provide temporary utility assistance as well. While NHI subsidizes their rent, a case manager works with the family to find pathways to increase their income and incrementally cover more of the rent until NHI's subsidy is fully tapered off.
b. Returning to or staying in the families' original housing. NHI works with the family and their landlord to mitigate any disputes or issues, provides temporary assistance to pay overdue rent and utility bills, and prevents the family from experiencing homelessness.

4. Document all services and activities in accordance with HUD regulations for providing services to the homeless and through the Client Track online homeless management system for data collection. Using this statewide system supports community-wide collaboration, increases efficiency, reduces the duplication of resources, meets county-wide objectives for data collection and performance tracking, and fulfills federal funds requests and competitions to help the homeless in our area.
5. Support, encourage, and guide families as they complete their ISPs through ongoing case management. Case managers frequently use motivational interviewing techniques to empower families to attain greater self-reliance, accountability, and confidence in themselves and hope for their future.
6. Deliver, directly or through collaborative partners, services and support to help families achieve the goals and action step in their ISPs. Common needs include food, clothing, furniture, MARTA transportation, health insurance, healthcare, access to mainstream benefits, legal assistance, childcare, GED classes, financial literacy classes, and job skills training.
7. Provide individualized job placement assistance with a Case Manager working alongside each parent to identify skills, interests and assist in a search for meaningful employment with income growth potential.

8. Host the "From Surviving to Thriving" program, an 8-week initiative held multiple times a year. NHI provides this opportunity at no cost for NHI families. It includes coaching and education on the four pathways to financial security: Learn, Earn, Save, and Own. Sessions cover budgeting, future planning, and SMART goals. NHI lowers the barriers to participation with dinner, childcare, and transportation assistance.
9. Enroll all families in aftercare support after a family leaves NHI's other programs. We check in with families at regular intervals for two years to verify their self-sufficiency and housing stability. These check-ins help cement the family's progress and provide an early crisis detection system. If an issue comes up, case managers can provide early intervention to help them work through the situation, maintain their self-sufficiency, and avoid losing their home.

How activities and services are accomplished

Nicholas House accomplishes the above activities by dedicated case managers employing current national best practices, wide-ranging community collaborations, and processes honed over 40 years of experience. Every NHI family works with a single case manager throughout their entire time with NHI. Case managers work closely with their families and work tirelessly to help them achieve their goals. Case managers do this using a Housing First Model and Client Centered Approach through Trauma Informed Care and Motivational Interviewing Techniques.

While NHI provides a wide range of programs and services, we recognize that collaboration creates an economy of scale, increases efficiency, and provides a better and wider range of resources for our families. Therefore, NHI maintains strong relationships with a large number of other organizations and refer clients to them as needed.

Community Collaborations

NHI has partnerships with many local organizations to ensure that our families can access the resources and support they need to become self-sufficient. Last year alone, over 2,200 volunteers supported NHI's families. Some of our collaborations include:

1. Participating in the Fulton County Coordinated Entry process to identify and qualify the most at-risk families for NHI's programs.
2. Atlanta Center for Self-Sufficiency provides employment coaches, job readiness training, and MARTA discounts.
3. Furniture Bank of Atlanta supplies furniture to families moving out of our Boulevard Shelter into permanent housing.
4. Peachtree Collier Dental offers free dental exams and treatments.
5. Mercy Care offers healthcare exams and treatments.
6. Atlanta Children's Shelter provides pre-school childcare services.

8. Organizations adopt a room in NHI's Boulevard Shelter and complete basic maintenance like painting, ceiling tile replacement, and new furniture.
9. Individual and corporate supporters adopt families during the holiday season to donate food for Thanksgiving and presents for winter holidays.

NHI strives to end family homelessness in Atlanta by eliminating the barriers to self-sufficiency. We ensure that their time living in a car or on the streets is very brief and that they receive the tools and assistance they need to address whatever led them to lose their home. NHI organizes its work by addressing two key areas: stable housing and earning a living wage. Research shows that addressing these key areas provides families with the best chance of long-term success.

Methods

The Barriers to Housing assessment tool, the first step in NHI's implementation plan, identifies focus areas for improvement and provides the foundation for families to measure their progress. Families work with their case manager to develop their Individualized Support Plans (ISPs), or the blueprint for their journey back to stable housing and self-sufficiency, based on the areas for improvement identified in the Barriers to Housing assessment. Each ISP contains goals unique to each family's needs and circumstances.

Case managers enter all ISPs into the statewide Client Track Homeless Management Information System (HMIS). HMIS is a sophisticated, web-based portal that provides a single, secure place for case managers to enter information and track families' progress. Because it is used statewide, it even records and tracks information when families receive supporting services from collaborating organizations.

Within HMIS, NHI tracks metrics including income growth, permanent housing placement, and budget and credit status. Case managers track these metrics using data the families provide, including pay stubs and leases. This information is aggregated at the 90-day, 6-, 12-, and 24-months intervals post-graduation with a survey.

NHI's approach to helping Atlanta's homeless families, with its focus on housing first and then self-sufficiency, is overwhelmingly successful. Of the 150 families that NHI will serve this year, 95% will move into more permanent housing upon exit. Additionally, at least 70% will maintain or increase their income, and 80% will maintain their self-sufficiency by staying in their home and covering all of their expenses two years after leaving NHI's programs.

The JA Discovery Center in Atlanta will deliver JA BizTown and JA Finance Park to middle school students to provide in-school programming that promotes academic achievement. - In JA BizTown, 6th grade students interact within a simulated economy and take on the challenge of starting and running a business. After in-class curriculum around the circular flow of the economy and what it means to be a citizen, students are assigned a job within one of the many storefronts in JA BizTown. Students then earn and spend a paycheck, pay taxes, vote for the elected officials for the day, and ultimately work with their peers towards paying back their business' start-up loan.
- JA Finance Park allows 7th and 8th grade students the opportunity to manage a household budget and learn about personal finance. After in-class lessons on subjects like budgeting and credit scores, students are assigned a 'life situation' including gross monthly income, interests, and family scenario. Students then visit storefronts representing the major line items in a budget such as housing, utilities, and food, and work towards providing for themselves and their families. Throughout the day they apply for car and home loans and discover the impact a credit score has on financial well-being.

Community Collaboration

JA of Georgia's programming represents high-level strategic partnerships between JA, school systems, and the business community, as JA of Georgia engages with over 25 school systems, including Fulton County Schools, and partners with over 170 organizations each year statewide.

3DE and JA Discovery Center programming is implemented in close partnership with JA of Georgia's partner school systems, including the Fulton County School System. JA of Georgia operates under a formal memorandum with Banneker High School, Tri-Cities High School, Northview High School, and Roswell High School, defining the scope of

JA of Georgia services to be provided by the 3DE program. Additionally, JA of Georgia has a formal memorandum in place with Fulton County Schools ensuring all middle school students visit the JA Discovery Center in Atlanta twice during their middle school years.

The success of these innovative programs also represents JA's deep ties to the local business community. Partners invest in JA Discovery Center operations and programming through storefronts that connect students with local businesses and expose them to future career opportunities. In JA BizTown, these storefronts represent workplaces where students hold positions such as CEO and CFO, and in JA Finance Park storefronts represent the different line items in a budget (housing, healthcare, etc.). Additionally, 3DE also works closely with its business partners and funders to create Case Challenges that are connected to real problems they are facing. Currently, more than 10 national and local partners work with JA of Georgia staff to develop and implement the curriculum used by the program. Current 3DE partners and their Case Challenges include:

- Truist: Students apply SMART Goals to their own life aspirations to create short, intermediate, and long-term financial goals.

Partners further invest in creating learning experiences for students through volunteer support that elevates authenticity and relevance in learning for students. Volunteers from the business community are integral to the delivery of the 3DE model as they work with students on real business case challenges and act as coaches and mentors for students. Overall, business community partnerships connect students to the real world and prepare them for their economic futures. In the 2022-23 school year, 10,796 volunteers spent 68,081 hours with students through JA of Georgia programs.
