Summary & Background

FCIT recommends approval to renew the existing contract to provide wireless communication services and equipment to the County. FCIT provides project oversight, monitors usage, provides information to Department Heads, makes recommendations for phone service shutdowns and makes adjustments to usage plans where it is deemed economically advantageous to the County. Fulton County Government employs wireless technologies to support the communication needs of assigned County staff. The County currently maintains a wireless inventory of approximately 1,700 devices

which includes cellular phones, android devices, and wireless/ broadband modem cards. The approval of this award will allow the County to receive all new wireless devices and receive the following features and benefits: \$0.00 cost for wireless devices and (broadband) modems and no charge for a net new device/equipment with new activation. Implementation of technology to improve coverage in County facilities with service problems, including the Jail, basement of Government and Justice Centers, Juvenile Court, etc.

Community Impact: Fulton County staff will receive new devices and be able to serve the public more efficiently.

Department Recommendation: FCIT recommends approval.

Project Implications: If this item is not approved, County staff will not be able to effectively communicate using wireless devices.

Community Issues/Concerns: There are no community concerns with this item.

Department Issues/Concerns: There are no Departmental concerns with this item.

Contract Renewal Evaluation Form

Date:	September 19, 2022
Department:	INFORMATION TECHNOLOGY
Contract Number:	#20RFP1007B-EC
Contract Title:	Wireless Communications Devices and Services

Instructions:

It is extremely important that every contract be rigidly scrutinized to determine if the contract provides the County with value. Each renewal shall be reviewed and answers provided to determine whether services should be maintained, services/scope reduced, services brought in-house or if the contract should be terminated. Please submit a completed copy of this form with all renewal requests.

1. Describe what efforts were made to reduce the scope and cost of this contract.

The Fulton County Information Technology Department meets routinely with AT&T to review Departmental Accounts. Efforts include reviewing inventory and business need to include usage. As a result, FCIT in conjunction with AT&T conducts termination and suspension of services due to lack of usage. Adjustments to individual service lines are based on real time need.

2. Describe the analysis you made to determine if the current prices for this good or service is reflective of the current market. Check all applicable statements and provide documentation:

5. Is this a seasonal item or service? ☐ Yes ☒ No

6. Has an analysis been conducted to determine if this service can be performed in-house? ☐ Yes
☒ No If yes, attach the analysis.

The contract requires specialized vendor services not provided by Fulton County

7. What would be the impact on your department if this contract was not approved?

If the contract is not approved the County would forfeit Mobile Wireless Services Countywide. As a result, all County Agencies throughout Fulton County to include but not limited to Public Safety, Health, Court Services and Registration Services would not be able to use mobile wireless devices and services such as Cell Phones and Mobile Hotspots. Employees would lose the ability to communicate while conducting field tasks which could result in service and safety impacts. Data Services that provide extended network connectivity would not be available and possibly cause delay and disruption in service to Major County agencies such as Police, E-911, Court Services and Library Support.
