

1 **A RESOLUTION TO REPURPOSE CAPITAL FUNDS FROM ROADWAY
2 TRANSPORTATION PROJECTS TO BE USED FOR TRANSPORTATION RELATED
3 PROJECTS TO BENEFIT THE FULTON COUNTY EXECUTIVE AIRPORT –
4 CHARLIE BROWN FIELD; AND FOR OTHER PURPOSES.**

5 **WHEREAS**, it is the overall strategic and performance goal of Fulton County,
6 Georgia to deliver services to its constituents with efficiency and to obtain maximum
7 impact; and

8 **WHEREAS**, there are approximately \$9,200,000.00 unobligated funds in the
9 Transportation Improvement Fund derived from the County's General Fund that will
10 remain after the completion of all contemplated County road projects within the
11 jurisdiction of Fulton County; and

12 **WHEREAS**, an immediate objective of the Fulton County Board of
13 Commissioners is to maximize the great potential for further improvement and
14 development of the Fulton County Executive Airport – Charlie Brown Field ("Airport") to
15 serve Fulton County citizens, users and businesses operating out of this beneficial
16 asset; and

17 **WHEREAS**, there are currently unfunded airport related transportation projects
18 in need of funding at the Airport to aid it in reaching its potential; and

19 **WHEREAS**, the Airport's visioning study projects over \$90 million in investments
20 over the next five (5) years, the majority of which will be requested to be funded by the
21 Georgia Department of Transportation ("GDOT") and grants from the Federal Aviation
22 Administration ("FAA"), with the County providing up to \$15 million in local matching
23 funds; and

24 **WHEREAS**, it is expected that these transportation funds along with other Airport
25 revenue would serve as a ready source of matching funds to leverage the anticipated
26 infusion of federal and state dollars, as well as be a source to fund projects for which no
27 federal funds are otherwise available, such as to establish necessary Airport Rescue
28 Fire Fighting ("ARFF") capabilities at the Airport; and

29 **WHEREAS**, pursuant to its Home Rule Powers (Ga. Const. art. IX, § II, ¶ I.),
30 O.C.G.A. § 36-5-22.1 and Fulton County Code § 1-117, the Fulton County Board of
31 Commissioners has exclusive jurisdiction and control over the directing and controlling
32 all the property of Fulton County, as they may deem expedient in according to law, in
33 establishing, altering or abolishing roads, bridges and ferries, having the care,
34 management, keeping, collecting, or disbursement of money belonging to Fulton County
35 or appropriated for its use and benefit, and to exercise such other powers as are
36 granted by law, or are indispensable to their jurisdiction over county matters and county
37 finances, among others; and

38 **WHEREAS**, the Board of Commissioners finds that it is in the best interest of its
39 citizens to repurpose the remaining unobligated transportation funds and any

1 encumbered funds that are no longer needed for roadway projects within the jurisdiction
2 of the Board of Commissioners to be used for transportation related projects at the
3 Airport.

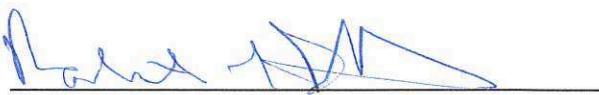

4 **NOW, THEREFORE, BE IT RESOLVED**, that the Fulton County Board of
5 Commissioners directs the Fulton County Department of Finance to repurpose
6 \$9,200,000.00 of unobligated funds and any encumbered funds that are determined to
7 no longer be needed for roadway projects within the jurisdiction of the Fulton County
8 Board of Commissioners, that are in the Transportation Improvement Fund, to be used
9 for transportation related projects at the Airport.

10 **BE IT FINALLY RESOLVED**, that this Resolution shall become effective upon its
11 adoption, and that all resolutions and parts of resolutions in conflict with this Resolution
12 are hereby repealed to the extent of the conflict.

13 **SO PASSED AND ADOPTED**, this 2nd day of June 2021.

14 **FULTON COUNTY BOARD
15 OF COMMISSIONERS**

KICK-START

KICK-START

WHAT WE KNOW

FCEA brings over **\$8.5M** in taxable assets revenue to the county annually, and another **\$150K** in property tax revenue

WHAT WE NEED

\$105M+ in Visioning Study capital project **needs** over the next 5 years with **only \$70M in State/Fed support**

A WAY FORWARD

FCEA is the only GA airport in the region that receives **NO GF support**

A way to address dwindling revenues due to covid19 epidemic and overall time frame for economic recovery

Approve resolution to redirect \$9.2M in General Fund transportation capital to the airport.

Leverage the anticipated \$6+M in SSD revenue from the unincorporated airport area.

FCEA will **catalyze millions in development** over the next 5 years

STAKEHOLDER SUPPORT

Fulton County Executive Airport
Tenants and Operators

March 22, 2021

Mrs. Anna Roach
Chief Operating Officer
Fulton County Government
141 Peach Street SE
Atlanta, Georgia 30303

Dear Mrs. Roach,

As a small group of Airport tenants, we wanted to extend our sincere appreciation for Fulton's leadership throughout the pandemic. We fully recognize and agree the last 12 months priority has been on COVID, minimizing public health and safety, healing community efforts and government programs to manage the challenge this pandemic has bestowed on the world at large. Considering the gains being made with vaccines and the reduced number of COVID positive cases, we wanted to take a moment to reflect on ongoing Airport positive cases, we wanted to take a moment to reflect on safe flight operations and the safety of surrounding residents and businesses nearby Fulton Executive Airport. In recent discussions with Tim and David, they shared some operational and financial challenges we are facing. We wanted you to know how important your concern, focus and the County financial support means to overall air travel safety, community safety, tenants and transient operators collectively.

STAKEHOLDER SUPPORT

Fulton County Executive Airport
Tenants and Operators

March 22, 2021

Mrs. Anna Roach
Chief Operating Officer
Fulton County Government
141 Peach Street, SE
Atlanta, Georgia 30313

Dear Mrs. Roach,

As a small group of Airport operators, we wanted to extend our sincere appreciation for Fulton's leadership throughout the pandemic. We fully recognize and agree the last 12 months priority has been on COVID, mitigating public health and safety, reducing community effects and government programs to mitigate the challenges this pandemic has bestowed on the world at large. Considering the gains being made with vaccines and the reduced number of COVID positive cases, we wanted to take a moment to reflect on ongoing Airport priorities we believe are essential to safe flight operations and the safety of surrounding residents and businesses nearby Fulton Executive Airport. In recent discussions with Tim and David, they shared how important financial support means to overall air travel safety, community safety, tenants, and tenant operators collectively.

While there are multiple priorities at an equally important, the one we focused on is the Aircraft Rescue & Fire Fighting (ARFF) resuscitation. We have been discussing this Airport's much-needed improvements for well over 20 years, and finally before COVID hit, we decided to have a meeting with the Aviation Commissioner Director, Kim Ell, David and Tim to discuss the debris ARFF project. We reiterated their and ours desire to make sure you know how important the ARFF reaction is to everyone's safety and this community's safety. As I understand you are in a position to help close this much-needed gap in operational safety. I know David and Tim have studied the importance of an ARFF, cannot imagine a more disastrous Airport than Fulton. Facilities to have a dedicated and focused Firefighting program rather than using available surrounding assistance upon request. Aviation is unique, requires immediate, knowledgeable, and focused firefighting personnel and equipment to save lives. This was brought to light in 2013 when a private Cessna 182 crashed immediately after departure and in close proximity to the surrounding residential community within the City of Atlanta.
