

PRODUCT AND PLATFORM SOLE SOURCE STATEMENT

January 1, 2021

As the original equipment manufacturer (OEM) of the Ward Fuel View Automated Fuel Management System™ (AFMS), and the Ward Fleet View GPS Asset Tracking System™ (ATS), E.J. Ward, Inc., owns the intellectual property and distribution rights to its AFMS, Telematics GPS/AVL solutions, Integrated EV Charging and Tank Level Gauging Platforms along with the related Fuel View and Fleet View software programs, communication systems and documentation.

Ward is the sole platform supplier and provides support for its products, systems and platform solutions, either direct or through authorized service and support agents. All design, manufacturing, assembly, and quality control checks are performed by Ward or its authorized subcontract manufacturing partners for all of its hardware and software products.

At this time, Ward has not certified any other fuel management company's technology, vehicle installed devices OBDII or otherwise, or GPS hardware other than those offered directly by Ward or its authorized manufacture partners, to be installed in conjunction with or plugged into the vehicle's engine control module (ECM) port (e.g. OBDII etc.) in series or parallel with the Ward CANceiver™.

Only Ward supplied telematic devices are certified to operate simultaneously with the Ward AFMS and CANceiver while plugged into the vehicle's ECM/OBDII port. Installing non-certified or Ward approved devices may affect operation of the Automated Fuel Management System (AFMS) and or the CANceiver, and have a potentially negative affect on a vehicle's functionality.

If you have any questions, please do not hesitate to give me a call.

Regards,

A handwritten signature in blue ink that reads "Robert E. Kettyle". The signature is fluid and cursive, with the first letters of the first and last names being capitalized and prominent.
