No

Summary & Background *(First sentence includes Agency recommendation. Provide an executive summary of the action that gives an overview of the relevant details for the item.)*

Scope of Work: Georgia Department of Transportation will be bidding the milling and resurfacing on this section of Buffington Road from Rock Quarry Road to SR 14 US 29 in their project. A Memorandum of Understanding (MOU) with the Georgia Department of Transportation has been proposed as the method of allowing the GDOT contractor to adjust the sewer manholes with appurtenances before construction.

Community Impact: Currently sewer line has served facilities along Washington Road as a part of the Fulton County South Fulton collection and conveyance system. The road milling and resurfacing will affect the elevation of the existing sewer manhole in this area, therefore, it needs to adjust proposed road grade.

Department Recommendation: The Fulton County Department of Public Works recommends executing the Memorandum of Understanding (MOU) with the Georgia Department of Transportation as the most cost effective way to complete these adjustments.

Project Implications: The road widening, milling and resurfacing impacts the existing sewer manhole due to modifications of existing grades along the roadway which in turn requires structures to be adjusted to match the proposed roadway surface. The adjustment of sewer manholes must occur to maintain service in this area.

Community Issues/Concerns: During construction of the adjustment of sewer manholes sewer services must be maintained and service will not be impacted.

Department Issues/Concerns: The Department has no issues or concerns with the proposed MOU. History of BOC Agenda Item: None

Contract Modification: New Procurement
