Summary & Background *(First sentence includes Agency recommendation. Provide an executive summary of the action that gives an overview of the relevant details for the item.)*

Scope of Work: JEN Georgia 19, LLC, the owner of the real property located at 11190 Rock Mill

Road, Alpharetta, Georgia, has requested the conditional approval of the Fulton County Board of Commissioners to install stormwater infrastructure within the County's existing water line easement.

The Fulton County Department of Real Estate and Asset Management (DREAM) and the Fulton County Department of Public Works are requesting approval to amend the terms of the County's water line easement at 11190 Rock Mill Road, Alpharetta, Georgia.

The Department of Public Works has completed an on-site assessment of the area, which is approximately 1,599 square feet, and confirmed that the County's water system will not be adversely impacted and can continue to be properly maintained if this encroachment is granted.

The purpose of the Indemnification Agreement is to formally affirm the terms of Fulton County's conditional approval of the encroachment of private improvements within the County's water line easement area at 11190 Rock Mill Road, Alpharetta, Georgia

Community Impact: The Indemnification Agreement allows Fulton County full access to maintain its water service line while granting the property owner the conditional approval to install stormwater infrastructure within the County's water line easement area.

Department Recommendation: The Department of Real Estate and Asset Management accepts the conclusion of the Department of Public Works to accept the terms of the Indemnification Agreement and recommends its approval.

Project Implications: No negative impacts to water services or access to maintain the County's water line will result by allowing stormwater infrastructure within the County's existing easement area.
