Is this a purchasing item?

Yes

Summary & Background *(First sentence includes Agency recommendation. Provide an executive summary of the action that gives an overview of the relevant details for the item.)*

Scope of Work: The contract provides consulting, planning, engineering and construction management services with Michael Baker International for updating, modifying and implementing specific projects from the Capital Improvement Program at the Fulton County Executive Airport Charlie Brown Field. The individual design and improvement projects will be accomplished in specific

task orders on a project-by-project basis as required, and contingent on funding availability through Federal and GDOT grants and future County budgets. In 2021, it is anticipated that Michael Baker International will perform the design and environmental analysis of the Runway Safety Area Project and the design of the Taxiway Apron improvements.

The contractual amount for all professional services with Michael Baker International will not exceed \$840,000 in 2022. Each individual task order issued to Michael Baker International will be issued a unique Purchase Order to complete the work once Finance verifies the funding is available for the work.

Community Impact: The community expects that the development of infrastructure within the airport is done in a responsible manner. This contract allows Public Works to ensure that projects are developed in accordance with state and federal guidelines while ensuring local concerns are addressed.

Department Recommendation: The Department of Public Works recommends approval to renew an existing contract to provide consulting and engineering services for updating, modifying and implementing the Capital Improvement Program at the Fulton County Executive Airport- Charlie Brown Field.

Project Implications: As a result of the FAA approval of the Fulton County Executive Airport- Charlie Brown Field Master Plan, it is necessary to employ the professional services of an aviation consulting / engineering firm in order to implement the identified projects. Since these will be 90% funded through FAA grants, it is standard practice for airport sponsors to retain knowledgeable firms that understand the myriad grant assurances. To conduct business in Georgia by the Department of Transportation (GDOT)-Aviation Division, these firms also play an integral part in meeting additional state grant issues.

Community Issues/Concerns: The Department is not aware of any community issues or concerns.

Department Issues/Concerns: If this request is not approved, the County will not have access to consulting and engineering services to provide and implement the Capital Improvement Program for the Fulton County Executive Airport- Charlie Brown Field.
