No

Summary & Background *(First sentence includes Agency recommendation. Provide an executive summary of the action that gives an overview of the relevant details for the item.)*

Scope of Work: Property owners at 170 Burford Hollow, Alpharetta, Georgia 30022 have requested the conditional approval of the Fulton County Board of Commissioners to allow a portion their wooden deck and stairs to remain within the County's existing sewer easement. The Department of Public works has completed an onsite assessment of the encroachment area of approximately 200 square feet and confirmed the County's sewer system will not be adversely impacted and can continue to be properly maintained if this encroachment is granted. In accordance with County Policy and the Statue of Frauds, all agreements involving the County are required to be in writing and approved by the Fulton County Board of Commissioners. The purpose of the Indemnification Agreement is to affirm the terms of Fulton County's conditional approval of the encroachment of private improvements within the County' sewer easement area at 170 Burford Hollow, Alpharetta, Georgia 30022.

Community Impact: The Indemnification Agreement allows Fulton County full access to maintain its sanitary sewer service line while granting the property owner the conditional approval that will allow an existing portion of a wooden deck to remain within the County's sewer easement area.

Department Recommendation: The Department of Real Estate and Asset Management and the Department of Public Works recommends the approval of the Indemnification Agreement to formalize the terms of Fulton County's conditional approval of the encroachment of private improvements within the County' sewer easement.

Project Implications: No negative impacts to the County's sanitary sewer system or access to the sanitary sewer line will result by allowing the property owner to retain a portion of their wood deck presently located within the County's sewer easement

Community Issues/Concerns: None
