District 6 ☐

## Is this a purchasing item?

Yes

**Summary & Background** It is the recommendation of Dominion Voting that a representative of their system be on-hand in order to assist, guide and/or complete a task(s) that would get the system up and running quickly. Historically, with new systems and especially since the implementation of this system, and from prior experience in previous elections - 2021, it is noted that there is a need to have poll technicians available that represents the agency, in case of failed mechanics beyond the scope of normal wear and tear.

**Scope of Work:** Dominion technicians' expertise and assistance coming from the maker of this system, places a tier of trouble shooting as it relates to technical assistance during the Early Voting and Election Day processing. Dominion technicians will be able to assist election management with conducting Logic & Accuracy testing, assist in election tabulation and adjudication. Also, Dominion technicians will provide technical support which includes troubleshooting server errors, testing, repairing and servicing Dominion equipment. Dominion technicians should be available throughout Early Voting, as well as, Election Day.

**Department Recommendation:** The Department of Registration and Elections recommends approval of this agenda item

**Project Implications:** Click or tap here to enter text.

## Community Issues/Concerns:

**Department Issues/Concerns:** One of the greater concerns is the inability to secure this valued resource. While systems do come with flaws, it is a welcomed addition to have highly trained and knowledgeable professionals to enhance the voting experience. The technicians would be readily available should there be a COVID-19 outbreak at the Elections Preparation Center as a contingency plan.

**Contract Modification:** This is a new request
