- **Modify the 2022 Annual Hardware and Software Maintenance and Support list - (PAGE 3)**

The BOC approval is requested to modify the Annual Hardware and Software Maintenance List (AML) approved as part of the FY2022 Adopted Budget. The requested changes will be funded within the existing departments' budget and will not result in any budget adjustments. Three departments are requesting changes at this time: Police, Senior Services, and Juvenile Court.

There are two requests from Police. The first request is to add ISO Network Software to the FY2022 AML so that a purchase order can be created. This is software used for monitoring intersections on FID. The second request is to increase spending authority for Scranton Software; this is a result of increase in cost based upon usage.

The Department of Senior Services request to vendor Survey Monkey to the FY2022 AML list to provide internal and external customer feedback on County and Community base service and operational processes. The department is no longer able to use Qualtrics and Survey Monkey is a feasible replacement. No additional funding is being requested.

Juvenile Court request is to increase the spending authority with vendor Canyon Solutions for JCATS to cover the cost for software conversion. No additional funding is being requested.
