District 4 ☐  
District 5 ☐  
District 6 ☒

**Is this a purchasing item?**

No

**Summary & Background** *(First sentence includes Agency recommendation. Provide an executive summary of the action that gives an overview of the relevant details for the item.)*

**Scope of Work:** . Planned onsite improvement to the Aircraft Rescue and Fire Fighting Facility ("ARFF") Phase II - Airport Administration Offices at 3960 Aero Drive, Atlanta, Georgia within the Fulton County Executive Airport requires the expansion of the onsite Underground Utility Easement Area with the Georgia Power Company. Airport Consultants, Michael Baker International, have submitted construction plans that will increase the electrical load to the ARFF facility which has necessitated an upgrade and relocation of the onsite electrical transformer.

In accordance with Georgia Power's electrical service regulations all modification to existing service connections must acknowledge Georgia Power's easement interests in the area(s) on which their electrical service equipment is located.

The approval of the Fulton County Board of Commissioners is required to convey a real property interest in a County owned real property.

**Community Impact:** Planned improvements to the ARFF Facility will not impact the community.

**Department Recommendation:** The Department of Real Estate and Asset Management recommends approval of the conveyance of the Underground Utility Easement Agreement between Fulton County and the Georgia Power Company for the purpose of completing planned improvements to the ARFF Facility Phase II - Administrative Offices.

**Project Implications:** The Georgia Power Company will not complete planned onsite electrical equipment modifications without an executed utility easement agreement from the fee simple owner.

**Community Issues/Concerns:** None.

**Department Issues/Concerns:** None.

**History of BOC Agenda Item:** This request is part of a second of a three Phase project to fully renovate the ARFF station. Phase I - Interior Demolition and Stabilization was completed in 2020. Phase III - Fire Fighters Quarters and Equipment -- is currently in the design phase.
