Yes

Summary & Background Approval to increase spending authorities to cover the costs for solid waste disposal services Countywide for the remainder of FY2022.

Scope of Work: The increase in spending authority is being requested to cover the costs for solid waste disposal services because of the increase in solid waste disposal rates in FY2022 (Bid#22ITB132332C-GS).

These contracts furnish all materials, labor, equipment, transportation, and appurtenances necessary for providing comprehensive Countywide solid waste disposal and single stream recycling services. This is a time and materials contract that requires covering the cost for labor, equipment, and transportation pick-up/haul for the disposal of solid waste at designated landfill sites. The Scope of Work consists of solid waste collection, transportation, and disposal services for the County's facilities, and to support the ongoing operational needs for the disposal of construction and demolition waste, clearing and grubbing debris, municipal solid waste, and other routine waste materials.

In addition to the solid waste disposal, the contractors shall provide landfill/transfer station or other disposal facilities, such as dumpsters, roll off containers, single stream recycling collection and shredding services on an "as needed" basis to meet the essential operations of the County. This may require the solid waste contractor to operate on a variable or limited frequency to satisfy the additional solid waste needs of any Fulton County facility. The recycling will be conducted utilizing recycling 95-gallon containers.

Community Impact: The overall community impact on the community health would be unsanitary conditions throughout the County if solid waste is not properly disposed. The addition of single stream packet recycling allows the surrounding communities to recycle without having to separate the waste. This applies to all districts.

Department Recommendation: The Department of Real Estate and Asset Management recommends approval to increase spending authorities to cover the costs for additional solid waste disposal services for Fulton County facilities for the remainder of FY2022.

The Countywide Solid Waste contracts does not have the spending authority capacity to support these additional needs for the remainder of this year fiscal year. This increase in the total amount of \$240,000 will cover the costs for additional dumpsters and roll off containers for these new County-owned facilities and the Jail Complex, as well as the increase costs in service rates due to higher fuel

costs.

Historical Expenditures:

FY2022: The County expenditure as of 8/1/2022, \$655,470.11

FY2021: The County spent \$890,761.23

FY2020: The County spent \$768,425.65

FY2019: The County spent \$665,763.48

FY2018: The County spent \$1,409,171.84

Project Implications: This increase for additional spending authority for solid waste disposal services are critical to the County by providing the collection and disposal to designated landfill sites.

Community Issues/Concerns: None of which the Department is aware.

Department Issues/Concerns: If these increase spending authorities are not approved, there will be a delay in providing additional dumpsters and collecting solid waste and recycling materials from Countywide facilities and disposing of it properly.

Contract Modification
