Arts and Libraries

### Commission Districts Affected

- All Districts
- District 1
- District 2
- District 3
- District 4
- District 5

District 6

**Is this a purchasing item?**

Yes

**Summary & Background:** On December 18, 2024, the BOC approved the initial request using 100% of grant funds in the amount of \$106,195.76. The library has decided to purchase additional units using General Fund funding. This additional funding request will ensure that the library can purchase the tablet stations and distribute tablet stations to all library branches within this funding cycle.

**Scope of Work:** The Library System currently has 15 EnvisionWare tablet base stations. With the purchase of these units, the library also purchased the SaaS Cloud Management subscription. This subscription provides maintenance for all units along with additional features exclusive to Envisionware. The tablet stations are powered by Hublet and provides unique enhanced online access and user experiences. The tablet stations provide accessibility to digital content for all library users. The units have the versatility to be used in various ways such as access to magazines to powering and operating robots in makerspaces. Each device supports multiple profiles, allowing access to age and other user group appropriate content across the library’s patron base. Our tablets are designed to work exclusively within predefined WiFi networks, ensuring secure and controlled usage. The units also provide unique usage benefits such as borrowing, return, content updates, and data wiping which assist with optimizing privacy protections. Additionally, each tablet is securely locked to the charging station, requiring library card authentication for access. The tablets come with predefined applications, files and desktop views which prevents users from installing unauthorized applications or altering device settings ensuring a safe environment and usage for patrons. Lastly, the library system can provide usage reports, providing insights into loan statistics and tablet usage.

**Community Impact:** Approval of this item will provide patrons with the opportunity to use the latest technology.

**Department Recommendation:** The department recommends approval of this item.

**Project Implications:** There are no project implications.

**Community Issues/Concerns:** There are not community issues or concerns.

**Department Issues/Concerns:** There are no departmental issues or concerns.

**Contract Modification**
