Summary & Background *(First sentence includes Agency recommendation. Provide an executive summary of the action that gives an overview of the relevant details for the item.)*

Scope of Work: The proposed Ecco Park Phase 2 Project, a residential subdivision development, requires the construction of a water line. Fulton County development regulations require that all new water connections acknowledge Fulton County's ownership interests in the area(s) in which a water service line connection is being made prior to recording of the Final Plat. The easement area to be conveyed consists of 44,058 square feet and is in Land Lots 743 and 754 of the 1st District, 2nd Section of Fulton County, Georgia.

Community Impact: The community will benefit from the extension of the County's water system and the addition of a residential subdivision.

Department Recommendation: The Department of Real Estate and Asset Management recommends acceptance of the easement dedication.

Project Implications: Easement dedications by the legal owner of record to Fulton County are made a part of public records and grant Fulton County access as necessary to perform construction, maintenance, and upgrades to the water system once the proposed improvements are installed on the owner's property.
