Is this a purchasing item?

Yes

Summary & Background: The Department of Public Works requests approval to increase spending authority with Wade Coots Company, Inc. (Hiram, GA) to provide Small Water Meter Installation in the North Fulton water service area.

Scope of Work: The contract provides for small water meter installation in the North Fulton water service area. Wade Coots has performed to a level that has met the Department's expectations. The original contract was approved on 02/17/2021, Item # 21-0137 for \$300,000,000. The request for additional spending authority is necessary because new small meter installations are an ongoing

activity that is fully dependent upon the development and needs of Fulton County water customers. At the beginning of 2022, it was estimated that small meter installations ranging from ¾ inch to 2 inches would total approximately 125 meters. Based on current conditions, it is anticipated that an additional 100 meters will be requested for the remainder of the year. Additionally, increased costs of small meter installations have been experienced due to added milling and paving requirements by the cities within the North Fulton water service area.

Community Impact: This contract ensures the North Fulton water system continues to maintain expected levels of service by providing potable water to new and existing businesses and residents within the service area.

Department Recommendation: The Department of Public Works recommends approval of this increase in spending authority.

Project Implications: The Public Works Department's ability to maintain expected levels of service will be severely compromised without the approval of this item. This contract allows the Department to install small water meters in a timely manner. Delays would negatively impact new and existing customer requests within the service area.

Community Issues/Concerns: No community issues/concerns noted.

Department Issues/Concerns: Public Works has concerns should this item not be approved. The Public Works Department relies on this contract as the primary means for new small meter installation within the North Fulton water service area.

Contract Modification
