Is this a purchasing item?

Yes

Summary & Background *(First sentence includes Agency recommendation. Provide an executive summary of the action that gives an overview of the relevant details for the item.)*

Scope of Work: The Public Works Department recommends approval of this award. This contract provides for on-call, standby, and emergency construction services dealing with the repair and installation of water mains, water service lines, and other miscellaneous water service-related facilities located in the North Fulton water service area. The chosen contractors will provide the necessary crew and equipment as directed by Public Works staff on an as needed basis.

Public Works staff examined the itemized bid tabulation sheets that were included by the contractors in their submitted bid packages. This examination demonstrated that Wade Coots had lower price points on items most utilized during repair/emergency work. Wade Coots, via a phone call with representatives from the Purchasing Department and the Public Works Department, was able to confirm the submitted price points for material such ductile iron pipe(0'-8'depth), fittings and other commonly used materials.

Although Site Engineering had an overall lower bid amount, the less expensive unit costs provided by Wade Coots will allow the Public Works Department to conduct business more cost effectively.

Community Impact: This contract ensures the North Fulton water service area, located north of the Chattahoochee River, continues to be maintained in the most efficient manner. This system is responsible to providing potable water to business and residents.

Department Recommendation: The Public Works Department recommends approval of the lowest responsible bidders to (A) Site Engineering, Inc and (B) Wade Coots Company, Inc.

Project Implications: Approval of this item will ensure the supplemental manpower and equipment is available, thru on-call services, to respond to emergencies and other repair/replacement needs within the water distribution system.

Community Issues/Concerns: No community issues/concerns have been raised to Public Works staff.

Department Issues/Concerns: Both contractors have performed on-call services for Fulton County in the past and have served the county well. Public Works does not have any concerns with either contractor.

Contract Modification New Procurement.

Contract & Compliance Information *(Provide Contractor and Subcontractor details.)*

Total Contract Value: \$2,400,000.00
