Summary & Background: Request approval to renew existing contracts to provide Solid Waste Disposal and Recycling Services Countywide for FY2024.

Scope of Work: These contracts furnish all materials, labor, equipment, transportation, and appurtenances necessary for providing comprehensive Countywide solid waste disposal and single stream recycling services. The Scope of Work consists of solid waste collection, transportation, and

disposal services for the County’s facilities, and to support the ongoing operational needs for the disposal of construction and demolition waste, clearing and grubbing debris, municipal solid waste, and other routine waste materials.

In addition to solid waste disposal, the contractors shall provide landfill/transfer station or other disposal facilities, such as dumpsters, roll off containers, single stream recycling collection and shredding services on an “as needed” basis to meet the essential operations of the County. This may require the solid waste contractor to operate on a variable or limited frequency to satisfy the additional solid waste needs of any Fulton County facility. The recycling will be conducted utilizing recycling 95-gallon containers.

Community Impact: The overall impact on community health would be unsanitary conditions throughout the County if solid waste is not properly disposed of. The addition of single stream packet recycling allows for recycling without having to separate the waste. This applies to all districts.

Department Recommendation: The Department of Real Estate and Asset Management recommends approval to renew existing contracts to provide landfill solid waste disposal and single stream recycling services for Fulton County facilities for fiscal year 2024.

These are time and materials contracts that requires covering the costs for labor, equipment, and transportation pick-up/haul for the disposal of solid waste at designated landfill sites. The requested total spending authority in the amount of \$1,344,000, will cover costs for the anticipated solid waste disposal services required for FY2024.

Project Implications: These contracts allow the solid waste contractors to provide the collection and disposal of solid waste Countywide as well as single stream recycling services to the designated landfill sites.

Community Issues/Concerns: None of which the Department is aware.

Department Issues/Concerns: If these renewal contracts are not approved, the Department will not have the ability to continue to collect solid waste and recycling materials from Countywide facilities and dispose it properly.
